[*b*] Class I and II stations on this frequency shall deliver not over 5 microvolts per meter groundwave or 25 microvolts per meter 10 percent time skywave at any point of land in the Bahama Islands, and such stations operating nighttime (i. e., sunset to sunrise at the location of the Class II station) shall be located not less than 650 miles from the nearest point of land in the Bahama Islands.

11. *It is further ordered*, That § 3.25 (e) be deleted.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1084, as amended; 47 U. S. C. 301, 303, 307)

Adopted: April 7, 1954.

Released: April 15, 1954.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 54-3002; Filed, Apr. 20, 1954; 8:51 a. m.]

[Docket No. 10778]

PART 18—INDUSTRIAL, SCIENTIFIC AND MEDICAL SERVICE

SHORT-WAVE EPILATION EQUIPMENT

In the matter of amendment of § 18.51 of the Commission's rules concerning use of short-wave epilation equipment; Docket No. 10778.

1. On November 30, 1953, in response to a petition filed on behalf of Lionel Shuman and the Electrolysis Society of America, Inc., the Commission released a notice of proposed rule making in this proceeding, which was duly published in FEDERAL REGISTER on December 3, 1953 (18 F. R. 7801). This notice proposed to amend § 18.51 of the Commission's rules so as to defer the applicability of Part 18 to short-wave epilation equipment until June 30, 1954 with respect to all such equipment manufactured before December 31, 1950, and until December 31, 1955 for such equipment manufactured between December 31, 1950 and June 30, 1953.

2. Formal comments in response to the notice of proposed rule making have been submitted on behalf of Lionel Shuman and the Electrolysis Society of America Inc. and by Vincent Yardum, and informal comments were filed by Wappler Inc. and Miss Pauline Sanel. The comments by Shuman and the Electrolysis Society support the proposed amendment, but request that additional relief be granted to the users of electrolysis equipment. In the first place, it is urged that Part 18 should not become applicable to any electrolysis equipment until at least December 31, 1955. It is contended that the dual dates proposed will result in difficulty of administration and also confusion, and that since some epilation machines which do not meet the standards of Part 18 will be permitted to operate until December 31, 1955, the public interest will not be adversely affected if all such machines continue in operation until this time. In support of this contention it is argued that since the dual dates proposed are based on the date of manufacture of the equipment, the proposed amendment may be inequitable to persons, who after December 31 1950, purchased equipment manufactured prior to that date.

3. Secondly, the comments of Shuman and the Electrolysis Society request that the rules permit machines manufactured before December 31, 1953 (rather than the June 30, 1953 date which was proposed) to be used until December 31, 1955. It is contended that such an extension is necessary because there has been a shortage of low priced type-approved epilation machines.

4. Vincent Yardum's comments oppose the adoption of the proposed amendment. It is his contention that electrologists were aware that their equipment was subject to the provisions of Part 18, and that only one manufacturer of electrolysis equipment issued misleading advertisements with respect to the applicability of the Commission's rules. He argues that adoption of the amendment will result in confusion because it will make applicability of the rules dependent on the date when the equipment was manufactured. It is further asserted that failure to enact the proposed amendment will not result in any great financial hardship to the electrologists, and finally that the petitioners were, in effect, guilty of laches because of their failure to file their petition for relief at an earlier date.

5. Wappler, Inc. in its informal comments, requests that the Commission grant it relief by permitting persons to use non-conforming equipment manufactured after June 30, 1953 until some future date. Wappler asserts that such a provision will enable it to dispose of its stock of non-conforming equipment.

6. In her informal comments, Miss Pauline Sanel urges that additional relief be granted to the users of electrolysis equipment.

7. The Commission has determined, after careful consideration of the comments filed, that the proposed amendment to the rules should be adopted. While the extent of the misleading advertising concerning the applicability of the rules to electrolysis equipment may be in dispute, it seems clear that there was considerable confusion on the part of electrologists and that at least some of the manufacturers advertised and sold equipment which did not conform to the provisions of the Commission's rules. Under these circumstances, the Commission believes that some relief should be allowed.

8. However, while the Commission is of the opinion that some relief is warranted, it does not appear that the public interest will be served by further extending the dates on which the rules will become applicable to electrolysis equipment beyond the dates already proposed by the Commission. The proposed extensions of time will provide a reasonable period within which the users of electrolysis equipment can replace non-conforming equipment. Moreover, as the Commission has previously noted, all doubts concerning the applicability of the rules to electrolysis equipment were completely dispelled at least as of June 18, 1953, the date on which the Commission issued its order reaffirming the classification of electrolysis equipment as miscellaneous equipment within the meaning of §18.2 (d) of the rules.

9. The Commission does not consider that its proposal to make the applicability of the rules depend on the date of manufacture of the equipment is impracticable. It is sufficient to state that the Commission has used this standard for other types of equipment, such as medical diathermy apparatus, with considerable success.

10. In view of the fact that the dates on which Part 18 of the rules became applicable to medical diathermy, industrial heating and miscellaneous equipment have all passed, reference to those dates is being deleted from § 18.51.

11. In light of the foregoing: *It is ordered*, That pursuant to the authority of sections 4 (i), 301 and 303 (r) of the Communications Act of 1934, as amended, that § 18.51 of the Commission's rules is amended as set forth below, effective 30 days from the date of publication in the FEDERAL REGISTER.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 48 Stat. 1081, 1082, as amended; 47 U. S. C. 301, 303)

Adopted: April 14, 1954.

Released: April 16, 1954.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] MARY JANE MORRIS, *Secretary.*

Section 18.51 of the Commission's rules and regulations is amended to read as follows:

§ 18.51 *Existing equipment.* The provisions of this part shall not be applicable until June 30, 1954 to epilation equipment which uses radio frequency energy, manufactured before December 31, 1950, and shall not be applicable until December 31, 1955 for such equipment manufactured between December 31, 1950 and June 30, 1954: *Provided*, That the foregoing provisions of this section shall be applicable only if such steps as may be necessary are promptly taken to eliminate interference to authorized radio services resulting from the operation of equipment manufactured prior to the respective dates set forth in this section.

[F. R. Doc. 54 3003; Filed, Apr. 20, 1954; 8:51 a. m.]

[1] Dissenting statement of Commissioner Bartley, concurred in by Commissioner Hennock, filed as part of the original document.

PROPOSED RULE MAKING

CIVIL AERONAUTICS BOARD

[14 CFR, Parts 41, 42]

RESORT AIRLINES, INC.

EXTENSION OF SPECIAL AUTHORIZATION

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board a Special Civil Air Regulation extending the present authority of Resort Airlines, Inc., as hereinafter set forth.

Interested persons may participate in the making of proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington, D. C. In order to insure their consideration by the Board before taking further action on the proposed rule, communications must be received by May 17, 1954. Copies of such communications will be available after May 19, 1954, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Resort Airlines, Inc. (Resort) holds a temporary certificate of public convenience and necessity to engage in all-expense tours in overseas and foreign air transportation which is effective until August 9, 1954. On November 14, 1949, the Civil Aeronautics Board promulgated Special Civil Air Regulation SR–338 which authorized the Administrator of Civil Aeronautics to issue to Resort an air carrier operating certificate under the provisions of Part 42 of the Civil Air Regulations.

In initially adopting SR–338, the Civil Aeronautics Board anticipated that the nature of Resort's operations would produce an irregularity of flight operations dissimilar to those of the usual certificated air carrier engaging in overseas or foreign air transportation. It did not appear reasonable, therefore, to require this carrier to comply fully with the provisions of Part 41 over all segments of its routes. However, recognizing the possibility that its services might expand sufficiently to warrant the application of the requirements of Part 41, the Board provided that certain provisions of Part 41 would apply to Resort should its operations exceed given frequencies. Since the same conditions of SR–338 that led to the promulgation existed at the time of its expiration, Special Civil Air Regulation SR–373, adopted September 21, 1951, continued these provisions until June 9, 1954.

In reviewing the operations of Resort we find that the circumstances which led to the promulgation of SR–338 and SR–373 are essentially the same at this time except for at least one route segment for which Resort has exceeded the frequencies specified in the regulation. However, the Bureau has been informed that Resort is complying with the communications, pilot route competency, and dispatching requirements of Part 41 as required by SR–373. Because it appears that the operations of Resort have been conducted safely under these special regulations, it is proposed that the provisions of SR–373 be renewed at this time. Since the extent of duration of Resort's economic authority is unknown at this time, it is proposed that this regulation shall terminate on June 9, 1957, or upon the termination of its economic authority, or not later than 60 days after a major change to that authority, whichever shall first occur.

Accordingly, notice is hereby given that it is proposed to issue a Special Civil Air Regulation as follows:

1. Contrary provisions of the Civil Air Regulations notwithstanding, Resort Airlines, Inc., is hereby authorized to conduct its operations under the provisions of Part 42 of the Civil Air Regulations: *Provided*, That where the operation of aircraft carrying passengers between any two points[1] exceeds the regularity or frequency set forth in paragraph 2 hereof, the carrier shall comply additionally with the provisions of Part 41 relating to communications, pilot route competency, and dispatching, as heretofore or hereafter amended, and promptly notify the Administrator of such compliance.

2. Two flights, or one round trip, a week on the same day or days of the week for eight or more weeks in any 90 consecutive days; or a total of 36 or more flights, or 18 or more round trips, in any 90 consecutive days.

3. This regulation shall terminate on June 9, 1957, or upon the termination of the economic operating authority of Resort Airlines, Inc., or not later than 60 days after a major change to that au-

[1] Point, as used herein, shall mean any airport or place where aircraft may be landed or taken off, including the area within a 25-mile radius of such airport or place.

thority, whichever shall first occur unless sooner superseded or rescinded by the Board.

This Special Civil Air Regulation is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012, as amended; 49 U. S. C. 551–560)

Dated: April 13, 1954, at Washington, D. C.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN,
Director.

[F. R. Doc. 54-3014; Filed, Apr. 20, 1954; 8:53 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 8]

[Docket 10590]

STATIONS ON SHIPBOARD IN MARITIME SERVICES

PERIODIC CERTIFICATION OF CONDITION OF REQUIRED RADIO FACILITIES ON COMPULSORILY EQUIPPED SHIPS

1. The notice of proposed rule making in Docket No. 10590 sets forth a proposed amendment of Part 8 of the Commisson's rules which would require a Master of a compulsorily equipped U. S. ship to make certifications of the condition of the ship's required radio facilities at intervals of approximately three months, between the annual radio inspections conducted by Commission engineers on board cargo ships or the semi-annual inspections of passenger ships.

2. The proceedings in Docket No. 10590 were instituted by the Commission on July 15, 1953, setting September 24, 1953 as the final date for filing comments. The periods for filing original and reply comments were subsequently extended to October 23, 1953 and November 2, 1953.

3. Comments were filed by the Central Committee on Radio Facilities of the American Petroleum Institute, by the Radio Officers' Union of the Commercial Telegraphers Union, affiliated with the American Federation of Labor, and by the American Merchant Marine Institute, Inc. Each of these organizations oppose the proposed amendment. No comments in support have been received.

4. The Commission is required by section 360 (b)[1] of the Communications Act to conduct inspections of compulsorily equipped U. S. ships at least at annual intervals. Until recently, the Commission had conducted inspections at less than annual intervals. The Commission in the belief that the public safety requires that the Commission be informed of continuing adequacy of safety radio equipment during the present interval between normal inspections, proposed a requirement which would place on those responsible for the day to day condition of vessels the additional responsibility of informing the Commission at approximately 3-month intervals of the condition of the safety radio equipment. Obviously, such a plan would require a high degree of cooperation from those who would be required to participate but such a plan would be of doubtful value if the participants are without exception unalterably opposed to the plan from its very inception.

5. The Radio Officers' Union commented that the number of Commission inspections should not be reduced and that the proposed procedure would not provide a workable or effective substitute for such inspections. The American Merchant Marine Institute expressed the belief that the proposed amendment would impose a needless burden on the master and the steamship companies. That organization also asserts that no standards are established which would insure uniformity in the quality of the inspections and that the results would depend upon the experience and integrity of hundreds of different individuals. It was suggested that present requirements of § 8.330 of the Commission's rules requiring a radio operator to enter radio station failures in the radio log would provide an adequate safeguard. The Central Committee on Radio Facilities of the American Petroleum Institute opposed the proposed amendment for the same reasons as the American Merchant Marine Institute and suggests "spot inspections" to ascertain continuing high quality of performance.

6. The proposed procedure was designed to be self-executing and to encourage a voluntary participation of the industry in their own inspection program. The unanimous opposition which has been expressed to the proposal however, would, to the extent that its adoption may be taken as representing an arbitrary action, be very likely to defeat this aim.

7. With rejection of the proposed rule amendment, the Commission nevertheless is of the opinion that if possible some other satisfactory method should be developed for obtaining continuity in the proper maintenance of radio equipment between inspections. Accordingly, the Commission is continuing to study the problem.

8. In view of the foregoing, the proposal contained in Docket No. 10590 is withdrawn and the proceeding therein is hereby terminated.

Adopted: April 14, 1954.

Released: April 16, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-2999; Filed, Apr. 20, 1954; 8:50 a. m.]

[1] Every ship of the United States, subject to this part, shall have the equipment and apparatus prescribed therein, inspected at least once each year by the Commission. If, after such inspection, the Commission is satisfied that all relevant provisions of this act and the station license have been complied with, the fact shall be certified to on the station license by the Commission. The Commission shall make such additional inspections at frequent intervals as may be necessary to insure compliance with the requirements of this act.

[47 CFR Part 13]

[Docket No. 11003]

COMMERCIAL RADIO OPERATORS

DISCONTINUANCE OF ISSUANCE OF TEMPORARY LIMITED RADIOTELEGRAPH SECOND-CLASS OPERATOR LICENSE

1. Notice is hereby given of proposed rule-making in the above-entitled matter.

2. During the recent Korean hostilities there was a rapid increase in the number of merchant ships in active service, accompanied by a corresponding increase in the demand for qualified radiotelegraph operators. A critical shortage of such operators then resulted and the Commission was requested to take certain measures to relieve the shortage. In response to that request and in view of the emergency then existing the Commission on April 4, 1951, after giving due notice, reestablished the temporary limited radiotelegraph second-class operator license (TLT). This grade of license was first established during World War II as an emergency measure to meet the then stepped-up manning requirements for merchant ships.

3. The temporary limited radiotelegraph second-class operator license is issued under a relaxation of the Commission's normal requirements for ship radiotelegraph operators. Approximately 670 licenses of this class have been issued since April 4, 1951.

4. The Commission has been informed that the number of merchant ships in active service requiring qualified radiotelegraph operators has declined from a peak of approximately 2000 in January 1952 to 1367 as of February 1, 1954. There has been no indications for more than a year that any shortage of radiotelegraph operators exists.

5. In view of the foregoing it appears that there is no need for further issuance of TLT licenses and that it would be in the public interest to discontinue issuance of that class of license.

6. Proposed rule amendments to Part 13 of the Commission's rules are set forth below which would discontinue further issuance of TLT licenses but permit outstanding TLT licenses to remain valid until the expiration date according to their respective terms. The proposed amendments are issued under authority of sections 4 (i), 303 (l) and (r) of the Communications Act of 1934, as amended.

7. Any interested person may file with the Commission on or before May 20, 1954, a written statement or brief in support of, or in opposition to the proposed amendments. Comments or briefs in reply to the original comments or briefs may be filed within ten (10) days from the last day for filing the original comments or briefs. The Commission will consider all comments, briefs and statements before taking final action.

8. In accordance with § 1.764 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: April 14, 1954.

Released: April 16, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

1. Section 13.2 (a) (1) (iii) of the Commission's rules is proposed to be amended by changing footnote [7a] to read as follows:

[7a] By Commission order dated and effective April 4, 1951, the Commission reestablished this class of operator license, to be valid for five years from the date of issuance, for the operation of certain shipboard radio stations. By Commission order dated ---------- and effective --------- 1954, the issuance of this class of license was discontinued. Outstanding licenses of this class remain valid until expiration according to the respective terms thereof, but may not be renewed.

2. Section 13.5 of the Commission's rules is proposed to be amended by deleting paragraph (d).

3. Section 13.22 of the Commission's rules is proposed to be amended by deleting paragraph (d).

4. Section 13.28 of the Commission's rules is proposed to be amended by inserting at the end of the first sentence thereof the following new sentence: "A temporary limited radiotelegraph second-class operator license is not renewable." Section 13.28 would then read as follows:

§ 13.28 *Renewal service requirements, renewal examinations, and exceptions.* A restricted radiotelephone operator permit or an aircraft radiotelephone operator authorization is not renewable but must always be obtained as a new permit or authorization in each instance. A temporary limited radiotelegraph second-class operator license is not renewable. A license of any other class may be renewed without examination provided that the service record on the reverse side of the license [7] shows at least two years of satisfactory service in the aggregate during the license term and while actually employed as a radio operator under that license. If this two-year renewal service requirement is not fulfilled, but the service record shows at least one year [8] of satisfactory service in the aggregate during the last three years of the license term and while actually employed as a radio operator under that license, the license may be renewed upon the successful completion of a renewal examination, which may be taken at any time during the final year of the license term or during a one-year period of grace after the date of expiration [9] of the license sought to be renewed. The renewal examination will consist of the highest numbered examination element normally required for a new license of the class sought to be renewed, plus the code test (if any) required for such a new license. If the renewal examination is not successfully completed before expiration of the aforementioned one-year period of grace, the license will not be renewed on any basis.[10a]

[F. R. Doc. 54-3000; Filed, Apr. 20, 1954; 8:50 a. m.]

[7] See §§ 13.91 to 13.94.

[8] As a temporary exception, during the period September 1, 1949, through September 30, 1949, applications for renewal by renewal type examination will be considered upon the basis of showing of three months satisfactory service instead of one year during the last three years of the license term provided the renewal application is filed with the Commission or postmarked on or before September 30, 1949, and during the last year of the license term.

[9] With respect to licenses which expired between July 1, 1948, and September 1, 1949, the renewal examination (where required) may be taken during a period of one year commencing on September 1, 1949, and ending with August 31, 1950.

[10a] By order dated and effective April 4, 1951, the Commission temporarily waived the requirement of prior service as a radio operator or examination for renewal in the case of any applicant for renewal of his commercial radio operator license. This order is applicable to commercial radio operator licenses which expired after June 30, 1950, until further order of the Commission.

[47 CFR Part 15]

[Docket No. 9288]

RESTRICTED AND INCIDENTAL RADIATION DEVICES

NOTICE OF FURTHER PROPOSED RULE MAKING

1. Notice is hereby given of further proposed rule making in the above entitled matter.

2. On April 13, 1949, the Commission issued a notice of proposed rule making in this Docket which proposed to amend Part 15 of the Commission's rules relating to restricted radiation devices. By order of July 29, 1949, this Docket was subdivided into four parts: Part A pertained to Incidental Radiation Devices; Parts B, C, and D of the Docket pertained to Restricted Radiation Devices.

3. The rules proposed in 1949 would have limited radiation from incidental radiation devices to 15 microvolts per meter at 100 feet or 15 microvolts per meter at a distance in feet equal to 157,000 divided by the frequency in kilocycles, whichever is greater. Comments addressed to this proposal expressed the opinion that comprehensive studies of the technical and economic aspects of regulation of incidental radiation devices were necessary before any rules governing this type of equipment were put into effect. Studies in this field directed to radio devices have developed limits which can be adopted at this time, whereas the studies of interference from electrical apparatus, such as power, lighting and ignition systems, are inconclusive. For this reason, the Commission proposes to classify radio receivers and some other forms of radio frequency generators as restricted radiation devices and to provide the class of incidental radiation devices for electrical apparatus in which the generation of radio frequency energy is unintentional. No specific radiation limits are proposed for incidental radiation devices but in the event that interference is caused to authorized radio services by operation of these devices, the operators of the devices will be required to take prompt action to eliminate the interference.

4. Subpart A of the proposed rules set forth below contains general provisions for the operation of restricted radiation devices. These provisions are in the form of minimum power and field intensity limitations, and will apply to all restricted radiation devices except insofar as specific provision for the operation of certain devices is contained in Subparts B and C. These limitations are set forth in terms of decibels above one microvolt per meter (dbu), and, merely for convenience, they are also set forth in terms of approximately equivalent microvolts per meter. Two sets of field intensity limitations are set forth in the proposed rules. The Commission proposes to place one set into effect as soon as these rules become effective, to be superseded by the second set on June 30, 1956. The limits to be placed in effect initially are based primarily on the Radio-Electronics Television Manufacturers Association's present radiation standards for television and FM receivers. Since it is not now known to what extent the RETMA standards can immediately be made applicable to all receivers, it is proposed to make the rules applicable now only to FM and TV receivers, and land mobile receivers above 25 Mc, which have been the source of the most serious interference problems caused by receivers. The rules would become applicable to all receivers manufactured after January 30, 1956.

5. The rules proposed by the Commission in 1949 would have limited the operation of carrier current devices to the frequencies 10–200 kc with a radiation limit of 15 microvolts per meter at a distance in feet of 157,000 divided by the frequency in kilocycles. Comments directed to those proposed rules generally opposed the adoption of any rules which would restrict the operation of such carrier current devices.

6. Subpart B of the rules now proposed contains provisions for the operation of carrier current systems. Such systems operating in the band 10–425 kc which meet the radiation requirements of Subpart A could be operated without certification. However, provision is made for such systems to be operated with greater radiation if they are certified in accordance with the procedure set forth in Subpart B.

7. Carrier current systems operating above 425 kc for the purpose of distributing programs to more than one receiver and which are installed after the effective date of these rules would have to be certified as meeting the requirements specifically applicable to them. Such systems which are in operation on the date these rules are made effective would have to comply with all applicable provisions by June 30, 1955, and, until that date, such systems operating in the band 425–1605 kc would continue to have to meet the existing radiation standard set forth in Part 15 of the rules. Moreover, all systems would immediately be governed by the provision of the rules which provides that the users or operators of

restricted and incidental radiation devices which cause harmful interference to any authorized radio service shall promptly take such steps as may be necessary to eliminate such interference.

8. Subpart B of the proposed rules also provides that receivers shall be certified as complying with the applicable radiation limitations by the manufacturers thereof or by an appropriate certifying authority, or where this has not taken place, by the users of the receiver.

9. Subpart C of the proposed rules provides a procedure whereby restricted radiation devices which do not comply with the provisions of Subpart A or B can be operated pursuant to a license issued by the Commission. Such licenses would be granted by the Commission only if it found that the device in question could not meet the requirements of the rules, but that its operation would serve the public interest, convenience and necessity.

10. The Commission also wishes to point out that while various radiation limits are now being proposed, the Commission may find it necessary in the future to impose stricter radiation limits in light of new developments in the electronics field, and the necessity for providing adequate protection from harmful interference to authorized radio services.

11. These proposed rules are issued pursuant to the provisions of sections 4 (i), 301 and 303 (r) of the Communications Act of 1934, as amended.

12. Any interested person may file with the Commission on or before June 16, 1954, a statement or brief setting forth his comments in regard to the proposed amendments of the Commission's rules. Comments in reply to the original comments may be filed within 20 days from the last day for filing original comments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good causes for the filing of additional comments is established. The Commission will consider all comments before taking action in the matter, and if any comments are submitted which appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

13. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements, brief or comments filed shall be furnished to the Commission.

Adopted: April 14, 1954.

Released: April 15, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

PART 15—RESTRICTED AND INCIDENTAL RADIATION DEVICES

SUBPART A—GENERAL

§ 15.1 *Statement of basis and purpose.* (a) Section 301 of the Communications Act of 1934, as amended, provides for the control by the Federal Government over all the channels of interstate and foreign radio communication and further provides, in part, that no person shall use or operate apparatus for the transmission of energy, communications, or signals by radio when the effects of such operation extend beyond State lines or cause interference with the transmission or reception of energy, communications, or signals, of any interstate or foreign character by radio, except under and in accordance with the Communications Act and a license granted under the provisions of that act. Restricted and incidental radiation devices emit radio frequency energy on frequencies within the radio spectrum and constitute a serious source of interference to authorized radio communications services operating upon the channels of interstate and foreign communication unless precautions are taken which will prevent the creation of any substantial amount of such interference.

(b) The following rules and regulations are designed to have a twofold effect:

(1) They set forth the conditions under which the operation of equipment of the type covered by this part of the rules will not be considered to fall within the category of situations covered by the provisions of section 301 of the Communications Act, for which a station license is required as a condition of lawful operation.

(2) They provide a procedure for the licensing of devices covered by this part of the rules which are unable to meet the conditions set forth for operation without a license.

§ 15.2 *Definitions.* For the purpose of this part the following definitions shall be applicable:

(a) *Incidental radiation devices.* Devices which radiate radio frequency energy but which are not specifically designed to generate radio frequency energy.

(b) *Restricted radiation devices.* Devices which radiate radio frequency energy and are specifically designed to generate radio frequency energy (whether or not they are intended to be used for communications purposes) and which are not specifically covered in any other part of this title.

(c) *Carrier current systems.* Restricted radiation devices comprising systems for the transmission of intelligence, including control signals, principally by means of conducted radio frequency currents.

(d) *Harmful interference.* Any radiation or any induction which endangers the functioning of a radio navigation service or of a safety service or obstructs or repeatedly interrupts a radio service operating in accordance with the table of frequency allocations contained in Part 2 of this subchapter whether or not such interference occurs within the normally recognized field intensity contours of the authorized station.

§ 15.3 *Operation of incidental radiation devices.* Until further order, all devices of this nature shall be governed solely by the requirements specified in § 15.6.

§ 15.4 *Operation of restricted radiation devices.* The operation of all Restricted Radiation Devices manufactured or installed after the effective date of this part shall be in accordance with the limitation [1] set forth in paragraphs (a) and (b) of this section except insofar as Subparts B and C of this part contain specific provisions for the operation of certain types of restricted radiation devices, in which event the operation of such devices shall be governed by those provisions of Subparts B and C of this part.

(a) The device shall not deliver more than the following amounts of power to an artificial load having electrical characteristics that provide maximum transfer of energy from the device to the load:

Frequency	Power
	db above 1 watt (dbw)	Approximate watts
Below 1.6 Mc	$20 \log_{10}\left(\frac{1600}{F_{kc}}\right)-77$	$\left(\frac{1600}{F_{kc}}\right)^2 \times 20{,}000$.
1.6–27.5 Mc	−57	2,000.

or

(b) The device shall not create an electromagnetic field in excess of the values shown in the following table: [2]

[1] Prior to July 1, 1956, these limits shall not be applicable to radio receivers other than television and frequency modulation broadcast receivers and land mobile receivers above 25 Mc.

[2] Measured in accordance with, or equivalent to, applicable methods of the Institute of Radio Engineers.

Frequency	Distance	Immediately		After June 30, 1956	
		Db above 1 uv/m (dbu)	Approximate uv/m	Db above 1 uv/m (dbu) [1]	Approximate uv/m
Kilocycles	Feet				
10–157	1,000	$20 \log \frac{157}{F_{kc}}+23.5$	$(157/F_{kc})\times 15$	$20 \log \frac{157}{F_{kc}}+23.5$	$(157/F_{kc})\times 15$.
[illegible]	100	$20 \log \frac{1570}{F_{kc}}+23.5$	$(1570/F_{kc})\times 15$	$20 \log \frac{1570}{F_{kc}}+23.5$	$(1570/F_{kc})\times 15$.
Megacycles					
1.6–25.6	100	24	15	24	15
25.6–50	100	30	30	26	30
50–150	100	34	50	30	50
150–174	100	[2] 34–44	50–150	30–38	[3] 50–150
174–260	100	44	150	38	150
260–470	100	[3] 44–54	150–500	38–46	[3] 150–500
470–890	100	54	500	46	500
890–17000	100	54	500	46	500
Above 17000	100	54	1500	46	1500

[1] As an alternative to the provisions, the Commission is considering using the following formula for frequencies of 10 Mc and above:

$$F_{uv/m}=20 \log_{10} F_{mc}-8$$

[2] Use linear interpolation between 30 and 130 microvolts per meter for frequencies between 130 and 174 Mc.

[3] Use linear interpolation between 150 and 500 microvolts per meter for frequencies between 260 and 470 Mc.

§ 15.5 *Information concerning apparatus.* Upon request by the Commission the owner or operator of any device which is required by the provisions of this part to be certified, shall promptly furnish the Commission with such information as may be requested concerning the operation of such equipment, including a copy of any field intensity measurements made by or for the user in determining that radiation complies with the limits specified in this part.

§ 15.6 *Interference from incidental and restricted radiation devices.* No incidental or restricted radiation device, irrespective of whether it otherwise operates in accordance with the provisions of this part, shall be operated in a manner which causes harmful interference to any licensed radio service. Where harmful interference is in fact caused by the operation of any such device its operation must cease immediately until the condition responsible for such interference has been eliminated.

SUBPART B—OPERATION OF RESTRICTED RADIATION DEVICES THAT REQUIRE CERTIFICATION.

§ 15.101 *Certification of equipment.* The owner or operator of a restricted radiation device which requires certification under this subpart shall have posted in the room in which such equipment is operated, a certificate of a competent engineer setting forth the general conditions under which such equipment should be operated and certifying that the equipment involved is capable of complying with the radiation limits set forth in this part as applicable to such equipment. The certification required by this section shall describe with certainty the equipment covered thereby and a brief but specific statement of the engineering tests upon which such certification is based and the results thereof.

§ 15.102 *Renewal of certification.* No regular renewal of certification is required. However, the certification required by § 15.101 shall be renewed for particular equipment by such date as the Commission may specify if the Commission has reason to believe that the operation of such equipment may be inconsistent with the provisions of this subpart or a source of interference to authorized radio services.

§ 15.103 *Carrier current system operating in the range 10–425 kc.* (a) Carrier current systems operating at frequencies between 10–425 kc may exceed the limit set forth in § 15.4: *Provided*, The system is certified in accordance with § 15.101: *And provided further*, That the field intensity shall not exceed 1,000 microvolts per meter for frequencies between 10 kc and 157 kc, and 250 microvolts per meter for frequencies between 157 kc and 425 kc at a distance greater than 1,000 feet from any point in the system, and that radiation at distances greater than 500 feet from any point in any carrier current system operating under the provisions of this section and located within the 50 uv m contour of a cochannel authorized station, shall not exceed an intensity of 15 db below the prevailing field intensity of such cochannel station.

(b) As a precautionary measure to avoid interference to navigational service, carrier current operators should discuss proposed installations and changes in existing installations within the frequency bands allocated to the aeronautical and marine services with the field offices of the Civil Aeronautics Administration, the United States Coast Guard and the Federal Communications Commission.

(c) Carrier current systems that normally radiate for a period of less than one second duration at intervals of more than one minute shall not be subject to the field intensity limitation and certification requirements set forth in this part.

(d) Spurious and harmonic emissions from carrier current systems shall not be in excess of the values specified in § 15.4.

§ 15.104 *Carrier current systems operating above 425 kc.* (a) The following provisions shall be applicable after the effective date of this part to all carrier current systems which operate on frequencies between 425–1605 kc for the purpose of distributing programs to more than one broadcast receiver: *Provided, however*, That until June 30, 1955, existing carrier current systems in this band shall be required in the alternative to meet the radiation limit of 15 microvolts per meter at a distance from any radiating source of 157,000 feet divided by the frequency in kilocycles:

(1) Radiation shall not exceed an intensity of 40 uv m at distances of 100 feet or more from any radiating source: *Provided, however*, That such radiation shall not exceed 15 uv m at the border of the property exclusively under the control and for the exclusive use of the owner and operator of the system.[1]

(2) The carrier frequency on which the system operates shall be an odd multiple of 5 kc, and the system shall not deviate more than plus or minus 100 cycles from the carrier frequency.

(3) The system shall be certified in accordance with the provisions of § 15.101.

(b) Carrier current systems, including wired television distribution systems, used for the purpose of distributing programs to broadcast receivers at frequencies above 1600 kc, shall be certified in accordance with § 15.101. Such systems installed after the effective date of these rules shall not radiate in excess of 10 microvolts per meter at a distance of 10 feet or more from any point in the system. All existing systems shall comply with this limit after June 30, 1955. This subsection shall not be applicable to distribution systems whose operation is confined to a single building.

§ 15.105 *Certification of receivers above 25 Mc. (including FM and television broadcast receivers and land mobile receivers).* (a) Receivers which are required to meet the radiation limitations set forth in § 15.4 shall be certified as to their compliance with such requirements in accordance with the procedure set forth in § 15.101.

(b) The owners and operators of receivers need not themselves comply with the certification requirements of paragraph (a) of this section: *Provided*, That the manufacturers of such receivers or an appropriate certifying authority have certified that they are capable of operating within the radiation limits set forth in § 15.4, and the manufacturers have marked or identified each receiver accordingly.

[1] Where persons other than the owner or operator of the system control or have the use of a portion of the property in question, the radiation limit shall be 15 uv m at the border of that portion of the property, unless such persons have agreed in the contract or agreement providing for their use or control to accept any interference from the system, or they have agreed in writing to the operation of the system.

§ 15.106 *Information and inspection.* (a) Upon request by the Commission the owner or operator of any restricted radiation device governed by this subpart shall promptly furnish the Commission with such information as may be requested concerning the operation of such equipment. The premises on which such devices are operated, and any certificate required hereby, shall be available for inspection by representatives of the Commission at all reasonable hours.

SUBPART C—OPERATION FOR WHICH A LICENSE IS REQUIRED

§ 15.201 *When a license is required.* No restricted radiation device which does not comply with Subparts A or B or this part shall be operated except pursuant to a station license issued by the Commission.

§ 15.202 *Showing required.* An authorization for the operation of a restricted radiation device may be granted upon proper application therefor in accordance with the provisions of this part and a showing that in the light of the following considerations the public interest, convenience, and necessity would be served by such a grant:

(a) The purpose for which the equipment sought to be licensed will be used.

(b) The reasons why the equipment involved cannot be operated in compliance with the provisions of this part for unlicensed operation.

(c) The nature and extent of interference that may be caused to authorized radio services by the operation of such equipment.

(d) The procedures that will be followed to eliminate promptly any actual interference to authorized radio services.

§ 15.203 *Filing of applications.* All applications for new station authorizations, or applications for modification or renewal of station authorizations shall be submitted to the Commission's offices at Washington, D. C. Each application shall be submitted in duplicate and one copy shall be signed under oath or affirmation by the applicant if the applicant be an individual, by any one of the partners if the applicant be a partnership, by an officer if the applicant be a corporation, or by a member who is an officer if the applicant be an unincorporated association. Each application shall contain full and complete information concerning the station location, proposed equipment, operating frequency, expected magnitude of the radiated field and all information required by § 15.202 or other sections of this part. (The precise form of the application will be specified at such time as this part may be finalized.)

§ 15.204 *Station license.* Each station license authorizing the operation of a restricted radiation device will be issued for such period as the Commission may specify after consideration of the facts in a particular case: *Provided, however,* That no license will be issued for a term in excess of 1 year. Such licenses shall be renewable upon application if the Commission finds the renewal will be in the public interest. Each station license shall be non-transferable and if the equipment for which the license is issued passes from the possession of the licensee, for any reason whatsoever, the licensee shall notify the Commission thereof and, when possible, include in such notification the name and address of the recipient of the equipment. The original license shall be posted in the room in which the equipment is operated or attached to the equipment itself.

§ 15.205 *Operator requirements.* The operator requirements for stations licensed under this part will be determined and prescribed by the Commission after consideration of the application for station license.

§ 15.206 *Revocation of license.* Any license issued pursuant to this part may be revoked by the Commission for the reasons and in accordance with the procedure set forth in section 312 of the Communications Act and § 1.402 of this chapter.

§ 15.207 *Information and inspection.* Upon request by the Commission the owner or operator of any restricted radiation device governed by this subpart shall promptly furnish the Commission with such information as may be requested concerning the operation of such equipment. The premises on which such devices are operated, and any license required hereby shall be available for inspection by representatives of the Commission at all reasonable hours.

[F. R. Doc 54-3001; Filed, Apr. 20, 1954; 8 50 a. m.]

NOTICES

DEPARTMENT OF JUSTICE

Office of Alien Property

SIDONIE MITTWOCH DE STRIEMER ET AL.

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof, the following property, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Property and Location

Sidonie Mittwoch de Striemer, also known as Sidonie Striemer, Buenos Aires, Argentina, Claim No. 58423; Ilse Niedermann (New York) and Manfred Hamburger (New Jersey), as Administrators of the Estate of Mrs. Kaethe Mittwoch, also known as Kaethe Treuherz Mittwoch, Claim No. 58952; $127,872.53 in the Treasury of the United States; one-half (1/2) thereof to Sidonie Mittwoch de Striemer, also known as Sidonie Striemer and one-half (1/2) thereof to Ilse Niedermann and Manfred Hamburger, Administrators of the Estate of Mrs. Kaethe Mittwoch, also known as Kaethe Treuherz Mittwoch.

Executed at Washington, D. C., on April 15, 1954.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[F. P. 5]

MISSISSIPPI

NOTICE OF FILING OF PLAT OF SURVEY

APRIL 15, 1954.

Notice is given that the plat of supplemental survey of the following described lands, accepted June 26, 1951, will be officially filed in the Bureau of Land Management effective at 10:00 a. m. on the 35th day after the date of this notice:

ST. STEPHENS MERIDIAN, MISSISSIPPI

T. 10 N., R. 11 W.,
Sec. 20, Lot 17, containing 6.24 acres.

The plat represents the supplemental survey of unplatted portion of section 20 and is prepared to show a legal description of the area lying south of the Old Choctaw Boundary. Available information indicates that the land is level to hilly and poor, and that the timber thereon is principally pine.

No application for this land may be allowed under the homestead or small tract or any other nonmineral public land laws unless the land has been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application.

At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and conformation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Bureau of Land Management, Washington 25, D. C., shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of that title.

Inquiries concerning these lands shall be addressed to Regional Administrator, Region VI, Department of the Interior, Washington 25, D. C.

For the Director.

R. J. MCCORMICK,
Acting Regional Administrator,
Region VI.

[F. R. Doc. 54-2977; Filed, Apr. 20, 1954; 8.46 a. m.]

ALASKA

SMALL TRACT CLASSIFICATION ORDER NO. 81

APRIL 14, 1954.

1. Pursuant to the authority delegated to me under section 2.21 of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625), I hereby classify as hereinafter indicated under the Small Tract Act of June 1, 1938 (52 Stat. 609 43 U. S. C. Sec. 682a), as amended, the following described public lands in the Anchorage, Alaska, Land District:

GIRDWOOD AREA

FOR LEASE AND SALE

For Cabin Sites

U. S. Survey 3043: Lots 11–14, inclusive; 16–22, inclusive; 23–29, inclusive; 30; 31; 61; 62; 63–69, inclusive and 70.

U. S. Survey 3044: Lots 32–37, inclusive; 38; 41; 53; 54; and 55–60, inclusive.

U. S. Survey 3045: Lots 42–46, inclusive; 47; 48; and 50–52, inclusive.

Containing approximately 85.53 acres.

2. These lands are located from 1/2 to 2 miles north of Girdwood, Alaska, and are approximately 37 miles southeast of Anchorage. All of the tracts have road frontage. Unsorted glacial till underlays relatively level terrain and the forest cover consists of a heavy stand of Sitka spruce and hemlock. Frequent summer fogs and a very heavy winter snowfall result in a much heavier annual precipitation than that of the nearby Anchorage area. Sewage disposal can be accomplished on individual tracts through septic tanks or cesspools, and domestic water supplies can be obtained from drilled or hand-dug wells. Limited community facilities are available in Girdwood or in Portage, 15 miles southeast along the Seward Highway.

3. The following described lands appear from the land records to be subject to prior valid existing settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. As to these lands, preference right will be accorded to the respective occupants thereof, in accordance with the procedure set forth in paragraph 4a (2) below:

GIRDWOOD AREA

U. S. Survey 3043: Lots 11 and 27.
U. S. Survey 3044: Lot 56.
U. S. Survey 3045: Lots 43 and 50.
Containing approximately 8.82 acres.

4. This classification order shall not otherwise become effective to change the status of any lands described herein or to permit the leasing of any such lands under the Small Tract Act of June 1, 1938, cited above, until 10:00 a. m. on May 12, 1954. At that time the lands described below shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference right filings.* For a period of 91 days from 10:00 a. m., on May 12, 1954, to close of business on August 10, 1954, inclusive, preference will be given, as set forth above, to:

(1) Applications under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the Act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, subject to the requirements of applicable law; and

(2) Applications under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by veterans and other qualified persons under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph.

(b) *Advance period for simultaneous preference right filings.* All applications filed by such veterans and other qualified persons, or by persons claiming preference rights superior to those of such veterans filed under the preceding paragraph (a) on April 21, 1954, or thereafter, up to and including 10:00 a. m., on May 12, 1954, shall be treated as simultaneously filed. All applications filed under the preceding paragraph (a) after 10:00 a. m., on May 12, 1954, shall be considered in the order of filing.

(c) *Date for non-preference right filings.* Commencing at 10:00 a. m. on August 11, 1954, any lands remaining unappropriated shall become subject to application under the Small Tract Act by the public generally.

(d) *Advance period for simultaneous non-preference right filings.* Applications under the Small Tract Act by the general public filed on July 21, 1954, or thereafter, up to and including 10:00 a. m. on August 11, 1954, shall be treated as simultaneously filed. All applications filed thereafter shall be considered in the order of filing.

5. A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or which constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claim. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

6. All applications for these lands, which shall be filed in the Land Office at Anchorage, Alaska, shall be made on Form 4–776 and shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

7. Lessees under the Small Tract of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, under the circumstances, are substantial, and are appropriate for the use for which the lease is issued. Leases will be issued for a period of two years, at an annual rental of $5 for cabin sites, which is payable in advance for the entire lease period. Applications for extension for an additional period of one year shall be considered in appropriate cases. Every lease for land classified for lease and sale will contain an option to purchase clause and every such lessee may file an application to purchase at the sale price as provided in the lease.

8. All of the land will be leased in tracts varying in size from approximately 0.45 acre to approximately 2.84 acres, in accordance with the classification maps on file in the Land Office, Anchorage, Alaska. These tracts are appraised at prices ranging from $65 to $165.

9. Lessees must locate any wells or sewage disposal facilities in accordance with the laws and regulations of the Territory of Alaska.

10. The leases will be made subject to rights-of-way for road purposes and public utilities, as specified in the Classification and Appraisal Report on file in the Land Office, Anchorage, Alaska. Such rights-of-way may be utilized by the Federal Government, State, Territory, County, or Municipality, or by any agency thereof. In the discretion of the authorized officer of Bureau of Land Management, these rights-of-way may be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

FRED J. WEILER,
Chief, Division of Land Planning.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 10995, 10996]

TEXAS TELECASTING, INC. AND BIG SPRING BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Texas Telecasting, Inc., Big Spring, Texas, Docket No. 10995, File No. BPCT-1739; Big Spring Broadcasting Company, Big Spring, Texas, Docket No. 10996, File No. BPCT-1749; For construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 14th day of April 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 4 in Big Spring, Texas; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing, that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that Big Spring Broadcasting Company is legally, financially and technically qualified to construct, own and operate a television broadcast station; and that Texas Telecasting, Inc. is legally and technically qualified to construct, own and operate a television broadcast station.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that Big Spring Broadcasting Company is legally, financially and technically qualified to construct, own and operate a television broadcast station; and that Texas Telecasting, Inc. is legally and technically qualified to construct, own and operate a television broadcast station.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 14th day of May 1954 in Washington, D. C., upon the following issues:

1. To determine whether Texas Telecasting, Inc., is financially qualified to construct, own and operate the proposed television broadcast station.

2. To determine on a comparative basis which of the operations proposed in the above-entitled applications would better serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences between the applications as to:

(a) The background and experience of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: April 15, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-3007; Filed, Apr. 20, 1954; 8:51 a. m.]

[Docket Nos. 10997-10999]

L. H. P. CO. ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of The L. H. P. Company, Jefferson City, Missouri, Docket No. 10997, File No. BPCT-1480; Capitol Television Corporation, Jefferson City, Missouri, Docket No. 10998, File No. BPCT-1481; Jefferson Television Company, Jefferson City, Missouri, Docket No. 10999, File No. BPCT-1843; For construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 14th day of April 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 13 in Jefferson City, Missouri; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; and that each of the above-named applicants is legally, financially, and technically qualified to construct, own and operate a television broadcast station; but that questions are raised concerning other qualifications of Capitol Television Corporation to construct, own and operate its proposed television broadcast station.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 14th day of May 1954 in Washington, D. C., upon the following issues:

1. To determine, in light of the interests of Lester E. Cox and Glenn W Hendren in Capitol Television Corporation and as members of the Board of Curators of the University of Missouri, permittee of television station KOMU-TV, Columbia, Missouri, whether a grant of the application of Capitol Television Corporation would be consistent with the provisions of § 3.636 of the Commission's rules and its policies promulgated thereunder.

2. To determine on a comparative basis which of the operations proposed in the above-entitled applications would best serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences among the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: April 15, 1954.

[Docket Nos. 11000, 11001]

MISSION TELECASTING CORP. AND WALMAC CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Mission Telecasting Corporation, San Antonio, Texas, Docket No. 11000, File No. BPCT-1808; Howard W. Davis tr as The Walmac Company, San Antonio, Texas, Docket No. 11001, File No. BPCT-1856; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 14th day of April 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 12 in San Antonio, Texas; and

It appearing, that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that by letter of its attorneys dated February 3, 1954, Mission Telecasting Corporation requested that the application of Howard W. Davis tr/as The Walmac Company be dismissed pursuant to § 1.361 of the Commission's rules, alleging as grounds therefor that the application was not filed in good faith, that the application is violative of §§ 1.304 and 1.305 of the Commission's rules in that it does not contain full and complete disclosures with respect to legal, financial, technical and other qualifications as to matters and things required to be disclosed by the application form, and that the application of Mission Telecasting Corporation should be granted without hearing; that by letter of his attorney dated April 3, 1954, Howard W. Davis filed a reply to the above-mentioned request of Mission Telecasting Corporation; and that by letter dated April 9, 1954, the attorney for Mission Telecasting Corporation filed a response to the reply of April 3, 1954; and

It further appearing that the application of Howard W. Davis is substantially complete to the extent that it is entitled to be considered by the Commission on the merits; that the return of defective applications is a matter within the discretion of the Commission; that the omissions as alleged by the petitioner are matters which bear on the legal, financial, technical and other qualifications of Howard W. Davis, which matters may properly be included in prehearing letters and if warranted, as issues in a hearing order; and that on the basis of the facts and matters alleged there is insufficient evidence to warrant a finding that the application of Howard W. Davis was not filed in good faith; In re Coconino Broadcasting Co., 3 Pike and Fischer RR 965, In re Lou Poller, 9 Pike and Fischer RR 531, In re WSTV, Inc., 9 Pike and Fischer RR 624, In re Lawrence A. Harvey, 9 Pike and Fischer RR 646, In re M & M Broadcasting Company, 9 Pike and Fischer RR 905; and

It further appearing that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that Mission Telecasting Corporation is legally, financially and technically qualified to construct, own and operate a television broadcast station; and that Howard W. Davis tr as The Walmac Company is legally qualified to construct, own and operate a television broadcast station and is technically so qualified except as to issue "1" below;

It is ordered, That the request of Mission Telecasting Corporation to dismiss the application of Howard W. Davis tr as The Walmac Company is denied:

It is further ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 14th day of May 1954 in Washington, D. C., upon the following issues:

1. To determine the height of the center of radiation of the antenna proposed by Howard W. Davis tr as The Walmac Company and the distances to the Grade A and Grade B contours.

2. To determine whether Howard W. Davis tr as The Walmac Company is financially qualified to construct, own and operate the proposed television broadcast station.

3. To determine on a comparative basis which of the operations proposed in the above-entitled applications would better serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences between the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: April 15, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-3009; Filed, Apr. 20, 1954; 8:52 a. m.]

[Docket No. 11002]

TUPELO BROADCASTING CO., INC. (WELO)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Tupelo Broadcasting Co., Inc. (WELO), Tupelo, Mississippi, for construction permit; Docket No. 11002, File No. BP-8939.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 14th day of April 1954;

The Commission having under consideration the above-entitled application for construction permit to change the facilities of Station WELO, Tupelo, Mississippi, from 1490 kilocycles, 250 watts, unlimited time, to 580 kilocycles, 1 kilowatt day and 500 watts night, directional antenna, unlimited time;

It appearing that the applicant is legally, technically, financially and otherwise qualified to operate Station WELO as proposed, but that the applicant may involve interference with one or more existing stations; and

It further appearing that Harding College, licensee of Station WHBQ, Memphis, Tennessee, and Hoyt B. Wooten, doing business as WREC Broad-

casting Service, licensee of Station WREC, Memphis, Tennessee, filed on November 16, 1953, and December 17, 1953, respectively, petitions to designate the subject application for hearing and to make the petitioners parties thereto; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated January 13, 1954 of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of its application would be in the public interest; and

It further appearing, that the applicant filed replies on February 12 and 15, 1954; and

It further appearing that WREC Broadcasting Service filed replies on January 27 and March 4, 1954 further requesting that the subject application be designated for hearing and that WREC be made a party thereto; and

It further appearing that on January 25, 1954, the subject application was amended to substitute the Tupelo Broadcasting Company, Inc. as applicant in lieu of Birney Imes, Jr., to reflect an assignment of the license of Station WELO granted by the Commission on December 7, 1953; and

It further appearing that, the Commission, after consideration of the replies, is still unable to conclude that a grant would be in the public interest, and moreover, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the availability of other primary service to such areas and populations.

2. To determine whether the operation of Station WELO as proposed would involve objectionable interference with Stations WREC and WHBQ, Memphis, Tennessee, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine on the basis of the above issues whether a grant of the above-entitled application (File No. BP–8939) would serve the public interest, convenience and necessity.

It is further ordered, That, Harding College, licensee, of Station WHBQ, Memphis, Tennessee; and Hoyt B. Wooten, doing business as WREC Broadcasting Service, licensee of Station WREC, Memphis, Tennessee are made parties to the proceeding.

Released. April 16, 1954.

[Docket No. 11004]

OHIO VALLEY BROADCASTING CORP.

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR HEARING

In re application of Ohio Valley Broadcasting Corporation, Clarksburg, West Virginia, for a construction permit for a new television broadcast station; Docket No. 11004, File No. BPCT–849.

1. The Commission has before it for consideration (a) a protest filed on March 19, 1954, pursuant to section 309 (c) of the Communications Act of 1934, as amended, by Clarksburg Publishing Company (herein called Clarksburg), a corporation engaged in the business of publishing the only daily and Sunday newspapers in the city of Clarksburg, West Virginia, directed against the Commission's action of February 17, 1954, granting without hearing the above-entitled application; and (b) an "Opposition to Protest" filed on March 26, 1954, by Ohio Valley Broadcasting Company (herein called Ohio Valley).

2. On February 17, 1954, the Commission granted Ohio Valley's application for a permit to construct a new television broadcast station on Channel 12 assigned to Clarksburg, West Virginia. The application was formerly mutually exclusive with that of Clarksburg Broadcasting Corporation (BPCT–1175). The latter application was dismissed on February 16, 1954, at the request of the applicant.

3. In its protest, Clarksburg alleges that it is the publisher in Clarksburg, West Virginia, of The Clarksburg Exponent, a morning newspaper, The Clarksburg Telegram, an afternoon newspaper, and The Exponent-Telegram, a Sunday newspaper; that the current combined daily circulation of Clarksburg's newspapers in Harrison County, of which Clarksburg is the principal city, is 21,034, and in Harrison and contiguous counties, 31,672; that Clarksburg must rely on this area for the bulk of its newpaper circulation and resulting attractiveness to potential advertisers; that over sixty (60) percent of the gross revenues of the protestant are derived from sales of advertising space and the remainder from circulation; that Clarksburg is supported primarily by its advertising revenues; that Ohio Valley's proposed station will blanket the area served by Clarksburg's newspapers; that Ohio Valley will therefore be in direct competition with Clarksburg for the advertisers' dollars, "a commodity limited in amount and fugitive in character"; that most advertisers, local or national, operate on a fixed budget and that competition among the various media available for advertising is keen and constant; and that a decision to advertise in one medium results in a decrease of gross revenues available to the other. Clarksburg also alleges that the operation of the proposed station will have an adverse effect upon the circulation of Clarksburg's newspapers; that the advent of television has resulted in a decrease in circulation of newspapers generally; and that, in particular, the initiation of television broadcasting by Station WTRF–TV, Wheeling, West Virginia, has resulted in a "definite drop" in subscriptions to the Clarksburg newspapers. The protestant alleges that any reduction in gross receipts will not be accompanied by a reduction of expenses because of the high level of fixed costs in the newspaper business; and that, therefore, the Commission's action cannot fail to result in substantial economic loss to the protestant.

4. Clarksburg alleges, further, that the threatened economic injury is aggravated by the fact that those who control Ohio Valley, namely, News Publishing Company, also control all daily newspapers published in nine cities of West Virginia, radio broadcast stations in Clarksburg and Parkersburg, West Virginia, and have a substantial interest in television broadcast Station WTRF–TV in Wheeling, West Virginia; that Station WTRF–TV currently serves the Clarksburg market, not only by direct reception of a Grade B signal, but also by high quality reception by means of two community television cable systems operating in the area; that by reason of the "widespread influence" Ohio Valley's owners are able to exert in West Virginia, they will be in a dominating competitive position; and that in view of the above facts, protestant is a party in interest within the meaning of section 309 (c) of the Communications Act of 1934, as amended.

5. In addition to the foregoing allegations which are directed toward its standing as a "party in interest" under section 309 (c), protestant alleges that the grant of the application would contravene the requirements of § 3.636[1] of

[1] Section 3.636 provides as follows:

§ 3.636 *Multiple ownership.* (a) No license for a television broadcast station shall be granted to any party (including all parties under common control[2]) if:

(1) Such party directly or indirectly owns, operates, or controls another television broadcast station which serves substantially the same area; or

(2) Such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other television broadcast station if the grant of such license would result in a concentration of control of television broadcasting in a manner inconsistent with public interest, convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of areas served, the number of [illegible] and the extent of other competitive [illegible] to the areas in question. The [illegible] however, will in any event [illegible] there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than five television broadcast stations.[3]

(b) Paragraph (a) of this section is not applicable to noncommercial educational stations.

[2] The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.

[3] In applying the provisions of paragraph (a) of this section to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1 percent or more of the outstanding voting stock.

the Commission's rules with respect to multiple ownership for the following reasons: because Ohio Valley, by reason of the community television cable services bringing Station WTRF–TV to Clarksburg, will have direct or indirect ownership interest in two television stations in the same community; because Ohio Valley, by virtue of the substantial overlap of the Grade B service areas of its proposed station and the Grade B service area of Station WTRF–TV, Wheeling, will have direct or indirect ownership interests in two television stations serving substantially the same area; and because the grant of the above-entitled application would therefore result in a concentration of control of television broadcasting in a manner inconsistent with public interest, convenience or necessity. The protestant argues that, in the light of the foregoing, it would be an arbitrary interpretation of the multiple ownership rule for the Commission to determine the substantiality of overlap and concentration of control upon a mechanical application under which the sole test is whether or not the Grade A contours of the two stations overlap; that there is not the slightest suggestion in the rule that such should be the test; and that it is implicit in the Commission's Sixth Report and Order that Grade B service must be considered service of a reliable and effective nature. Protestant alleges, furthermore, that grant of the application adds "one more component" to the virtual monopoly of the News Publishing Company, its affiliates and subsidiaries, to which reference has previously been made, of media of advertising and dissemination of news in virtually all of West Virginia. Clarksburg also alleges that the Commission has incorrectly interpreted and applied subparagraph 3 (e), footnote 10[2] of § 1.371 of the Commission's rules in failing to give prior public notice of dismissal of the competing application of the Clarksburg Broadcasting Corporation, and that the grant was accordingly invalid. Finally, Clarksburg alleges that the grant of the Ohio Valley application is contrary to the public interest because the Commission could not have been able to determine that the payment of $14,390 by Ohio Valley to Clarksburg Broadcasting Corporation did not involve an abuse of Commission processes. In view of all of the foregoing, Clarksburg requests that the grant of the application be set aside, or that the Commission postpone the effective date of the grant, and that the application be set for hearing on the issues specified in the protest and such further issues as may be prescribed by the Commission.

6. In its opposition, Ohio Valley alleges that the protestant fails to state with particularity any economic injury which is required to justify its status as a party in interest under section 309 (c) of the act; that no presumption of economic injury can be claimed where the protestant is in a nonbroadcast activity; that the burden of supplying detailed supporting facts is consequently greater than that of a broadcast protestant; that Clarksburg has failed to establish even the basic facts which would be required if it were a broadcast licensee; that the protestant's allegations are of a vague, general and speculative nature; and that to recognize such allegations as sufficient to establish standing of a newspaper publisher to protest would invite protests from all enterprises which compete with television for the leisure time of the public.

7. Ohio Valley also alleges that the protest contains several errors of fact and theory in attempting to support the claim of invalidity of the Commission's action; that there can be no violation of the Commission's multiple ownership rule, because the Commission has held in a previous decision, The Enterprise Company, 9 Pike and Fischer RR 77, that it would not consider overlap of the Grade B service areas in connection with possible violation of that rule, because the Grade A service areas of the proposed station and WTRF–TV, Wheeling, do not overlap, and because the News Publishing Company, by its stock ownership, does not and cannot control Station WTRF–TV in any manner; that Station WTRF–TV is already at maximum power permitted by the Commision's rules, and, in any event, possible increases in power which would extend Grade A coverage are not relevant to this proceeding; that the Commission has previously rejected the idea that newspaper ownership is a bar to being a licensee; that other business interests of an applicant do not disqualify it as a licensee; that the sum of $14,390 paid to Clarksburg Broadcasting Corporation covered only the "out-of-pocket costs" of that company incurred in prosecuting its application; that the Commission permits such payments and has encouraged resolution of conflicts in the interest of expediting new television service; and that the propriety and legality of § 1.371, footnote 10, of the Commission's rules has been previously upheld by the Commission. For the reasons stated above, Ohio Valley contends that the protest of Clarksburg Publishing Company should be dismissed.[3]

8. The question whether protestant is a "party in interest" within the meaning of Section 309 (c) of the Communications Act of 1934, as amended, is to be decided upon the basis of two considerations: (1) Whether persons other than broadcast licensees or permittees can properly be included within that class of persons, i. e., "parties in interest", entitled to invoke the provisions of Section 309 (c); and (2) if so, whether or not the protestant has sufficiently alleged facts to show economic injury stemming from the establishment of the television broadcasting station authorized by the Commission. The general boundary of who is a "party in interest" turns upon interpretation of the case of F. C. C. v. Sanders Brothers Radio Station, 309 U. S. 470, for Congress has clearly indicated that that case is the touchstone of a determination of who is a "party in interest" from an economic standpoint under section 309 (c).[4]

9. We have previously expressed the view that the term "party in interest" is a limited one, and we adhere to that view. However, neither section 309 (c) of the act, the Sanders decision, nor subsequent decisions stemming therefrom limit persons entitled to standing to object to agency action to those engaged in the same type of business engaged in by the beneficiary of the agency action complained of. Thus, it has been held that the Sanders case applies even where injury is caused to a business other than that in which the agency grantee is engaged, but which is in competition with the grantee's business. In National Coal Association v. Federal Power Commission, 191 F. 2d 462, where that Commission had authorized the construction of a new gas pipe line to an atomic energy plant, the Court held that a coal mine owners association, the United Mine Workers and the Railway Labor Executives Association were parties "aggrieved" by the action.[5] And the Commission has held that a standard broadcast station may be a "party in interest" to a grant of a permit to construct a television broadcast station. In re Application of Vershus Radio and Television, Inc., 9 Pike and Fischer, RR 102; In re Application of T. E. Allen & Sons, Inc., 9 Pike and Fischer RR 197. Furthermore, although Senate Report No 44 on S. 658 (which was enacted as the Communications Act Amendments, 1952) states that those without a legitimate interest were not intended to be included, we cannot find any indication that Congress intended to restrict the relief afforded by section 309 (c) to licensees or permittees of the Commission.[6] The test provided by the Sanders decision is one of direct competitive in-

[2] Subparagraph 3 (e) of Footnote 10 provides as follows: "Where a mutually exclusive application on file with the Commission which has not been reached for processing becomes unopposed, or where an amended application or a new application is filed in place of the several competing applications and the applicant formed by such a merger is completely or substantially the same parties as the parties of the original application or applications, the remaining application may be available for consideration on its merits by the Commission at a succeeding regular meeting as promptly as processing and review by the Commission can be completed."

[3] Ohio Valley also alleges that protestant has a long history of antipathy toward radio and television broadcasting. These allegations are not considered further since they are not relevant to our action on the subject protest.

[4] Senate Report No. 44 on S. 658, 82d Congress, 1st Session.

[5] See also: Claiborne-Annapolis Ferry Co. v. United States, 285 U. S. 382, and Alton Railroad Co. v. United States, 315 U. S. 15, construing similar provisions for actions by parties in interest.

[6] The Commission had pointed out the widespread application the term "party in interest" could have. In this connection it is noteworthy that the earlier "White Bill", S. 1333, 80th Congress, 1st Session, which contained a protest provision similar to section 309 (c), defined a person in interest as any person who holds a construction permit or license or has a pending application which would be adversely affected economically or by reason of electrical interference as a result of the new authorization. This definition did not appear in the later "McFarland Bill", S. 658, 82d Congress, 1st Session, and was not made part of section 309 (c).

jury which gives "standing" without reaching the level of injury to a legal right.[1] This test, now imported into section 309 (c), is equally applicable under the relevant authorities to such injury caused by the grant of a new authorization for a television station to a competing medium of expression which also relies upon advertising as its main source of revenue. We do not decide that any indirect injury to other forms of enterprise would suffice, but merely that here there is a situation which cannot be differentiated in principle from that obtaining in the Sanders case.

10. In the present case, the protestant has presented a situation alleging direct competitive injury from a new grant, which could be said to lack in definiteness only the type of allegation which cannot reasonably be required where the actual operation of the new station is not immediately imminent. The cause and nature of the alleged injury has been specifically set forth in the context of a competitive situation where the action taken by the Commission clearly disrupts the existing competitive picture. The new television station will have as its principal city to be served the same city in which protestant's newspapers are published, and will be in direct competition for the same advertising. See In re T. E. Allen & Sons, Inc., 9 Pike and Fischer, RR 197; Versluis Radio & Television, Inc., 9 Pike and Fischer, RR 102; Midwest Television, Inc., 9 Pike and Fischer, RR 611. This is not that type of situation where the Commission's action could not be expected to result in a substantial competitive change and where, as a consequence, a more precise showing must be required. In re Application of Spartan Radiocasting Co., FCC 54–214, released February 18, 1954. We therefore find that a sufficient showing to constitute protestant a party in interest within the intendment of section 309 (c) has been made.

11. The Commission further finds that the protestant has specified with particularity the facts, matters and things relied upon as required by section 309 (c) of the Communications Act to warrant the designation of the above-entitled application for hearing on appropriate issues to be specified by further order of the Commission.

12. Accordingly, in view of the foregoing: *It is ordered*, That, effective immediately, the effective date of the grant of the above-entitled application is postponed pending final determination by the Commission with respect to the protest filed herein by Clarksburg Publishing Company, and that, pursuant to section 309 (c) of the Communications Act of 1934, as amended, the above-entitled application is designated for hearing at a time and place, upon appropriate issues, and pursuant to hearing procedures, to be designated by further order of the Commission.

Adopted: April 15, 1954.

Released: April 15, 1954.

STATEMENTS OF ORGANIZATION, DELEGATIONS OF AUTHORITY AND PUBLIC INFORMATION

INSPECTION OF RECORDS

In the matter of amendment of section 0.206 of the Commission's rules and regulations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 14th day of April 1954;

The Commission having under consideration section 0.206 (c) of its rules and regulations, which is concerned with the public inspection of applications filed under Titles II and III and of other papers, but which section does not specifically provide for inspection of petitions for the issuance, amendment, or repeal of rules and regulations and pleadings thereto; and

It appearing, that the proposed amendment is procedural in nature and, therefore, the notice and procedure provided for in section 4 of the Administrative Procedure Act are not necessary and this order may be made effective immediately; and

It further appearing, that authority for the proposed amendment is contained in sections 4 (i) and 303 of the Communications Act of 1934, as amended,

It is ordered, effective immediately, That section 0.206 be amended by renumbering the present subsections (d) and (e) as subsections (e) and (f) and by adding the following subsection (d) thereto:

SEC. 0.206 *Inspection of records.* Subject to the provisions of Sections 4 (j), 213 (f), 412 and 606 of the Act, the files of the Commission shall be open to public inspection, as follows:

* * * * *

(d) All petitions for issuance, amendment, or repeal of any rule or regulation, including all documents and exhibits filed with or made part thereof and all communications protesting or endorsing any such petitions; all pleadings, depositions, exhibits, transcript of testimony, reports of examiners or presiding officers, exceptions, briefs, proposed reports, or finding of fact and conclusions; all minutes and orders of the Commission. The Commission may, however, either on its own motion, or on motion by petitioner or those filing comments, for good cause shown, designate any of the material in this subsection as confidential

NOTICE OF APPLICATION

APRIL 14, 1954

Take notice that on April 12, 1954, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by California Electric Power Company, a corporation organized under the laws of the State of Delaware and doing business in the States of California and Nevada with its principal business office at Riverside, California, seeking an order authorizing the issuance and sale of 105,000 shares of Cumulative Preferred Stock par value $50 per share, and the exemption of said stock issue from the Commission's competitive bidding rules, and the issuance of $8,000,000 principal amount of First Mortgage Bonds, -- Percent Series due 1984, to be issued and sold at competitive bidding. The bonds are proposed to be issued about May 26, 1954, and will mature on May 1, 1984. The Preferred Stock is proposed to be issued about May 18, 1954. The purpose of the issuance of said Bonds and Preferred Stock is to provide funds for the redemption and retirement of securities. More particularly, Applicant proposes to use the net proceeds to redeem its outstanding First Mortgage Bonds, 3⅞ percent Series due 1983, its outstanding series of $2.50 Cumulative Preferred Stock, and its outstanding series of $2.50 Sinking Fund Preferred Stock; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 4th day of May 1954, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

SOUTHERN TIER GAS CORP.

NOTICE OF CONTINUANCE OF HEARING

APRIL 15, 1954.

Upon consideration of the request of Southern Tier Gas Corporation, filed April 13, 1954, for postponement of the hearing now scheduled for April 26, 1954, and for extension of time for serving copies of its proposed testimony and exhibits to be offered at said hearing;

Notice is hereby given that the hearing now scheduled to commence on April 26, 1954, is hereby postponed to be held at 10:00 a. m., e. d. t., May 25, 1954, in the Commission's Hearing Room, 441 G Street NW., Washington, D. C., and that the time for serving copies of the proposed testimony and exhibits to be offered at said hearing is postponed from April 12, 1954, to May 11, 1954. Paragraphs (B) and (C) of the Commission's order issued February 11, 1954, are further amended accordingly.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2307]

ARKANSAS LOUISIANA GAS CO.

ORDER DENYING REQUEST FOR SHORTENED PROCEDURE AND FIXING DATE OF HEARING

The Arkansas Louisiana Gas Company (Applicant), a Delaware corporation with its principal place of business at Shreveport, Louisiana, filed an application on November 10, 1953, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act for authorization to construct and operate certain facilities as described in said application.

Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) for non-contested proceedings.

Good cause has not been shown for granting Applicant's request that its application be heard under the shortened procedure as provided by the Commission's rules of practice and procedure and the request, therefore, should be denied as hereinafter ordered.

Due notice of the filing of said application has been given including publication in the FEDERAL REGISTER on December 2, 1953 (18 F. R. 7665),

The Commission orders:

(A) The request of the Arkansas Louisiana Gas Company that its application filed herein be heard under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure be and the same is hereby denied.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7, 15, and 16 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held commencing on May 3, 1954, at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by applications, and supplements thereto.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)).

Adopted: April 14, 1954.

Issued: April 15, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket Nos. G-2310, G-2316, G-2321, G-2330, G-2331, G-2367, G-2389]

IROQUOIS GAS CORP. ET AL.

ORDER FURTHER CONSOLIDATING PROCEEDINGS AND SPECIFYING PROCEDURE

In the matters of Iroquois Gas Corporation and Tennessee Gas Transmission Company, Docket No. G-2310; Tennessee Gas Transmission Company, Docket No. G-2316; West Tennessee Public Utility District of Weakley, Carroll, and Benton Counties, Tennessee, Docket No. G-2321; New York State Natural Gas Corporation and Tennessee Gas Transmission Company, Docket No. G-2330; Tennessee Gas Transmission Company, Docket No. G-2331; Transcontinental Gas Pipe Line Corporation, Docket No. G-2367; City Gas Company of Newton, New Jersey, Docket No. G-2389.

By orders of the Commission issued February 16 and March 10, 1954, the proceedings in Docket Nos. G-2143, G-2310, G-2316, G-2321, G-2330, G-2331, and G-2367 were consolidated for purposes of hearing, and the procedure was specified. Hearing commence on March 15, 1954, pursuant to the aforesaid orders, and was adjourned on March 17, 1954, until April 8, 1954, by direction of the Presiding Examiner. Docket No. G-2143 has been severed from the above proceedings by order issued April 6, 1954.

The City Gas Company of Newton, New Jersey (Applicant), a New Jersey corporation with its principal office in Flemington, New Jersey, filed, on March 9, 1954, an application, pursuant to section 7 (a) of the Natural Gas Act, for an order directing Tennessee Gas Transmission Company (Tennessee) to establish a physical connection of its proposed transportation facilities (Docket No. G-2331) with the facilities of Applicant for the purpose of delivering a maximum of 780 Mcf of natural gas per day to Applicant. Due notice of the filing of this application has been given, including publication in the FEDERAL REGISTER on March 30, 1954 (19 F. R. 1736).

The application in Docket No. G-2389 is interrelated with the application in Docket No. G-2331, in which docket Applicant has been permitted to intervene by order issued April 6, 1954.

The Commission finds:

(1) Good cause exists and it is in the public interest to consolidate the proceedings in Docket No. G-2389 for the purpose of hearing with the proceedings previously consolidated herein.

(2) Good cause exists and it is in the public interest that the evidence in support of the application in Docket No. G-2389 be presented by Applicant prior to presentation of the affirmative evidence in Docket No. G-2367.

The Commission orders:

(A) The aforesaid proceeding in Docket No. G-2389 be and the same is hereby consolidated with the heretofore consolidated proceedings in Docket Nos. G-2310, G-2316, G-2321, G-2330, G-2331, and G-2367 for purposes of hearing.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7, 15, and 16 of the Natural Gas Act, and the Commission's general rules and regulations, including rules of practice and procedure (18 CFR, Chapter I), a public hearing shall be held in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented in the proceeding in Docket No. G-2389, said hearing not to commence before the expiration of 15 days after publication of notice in the FEDERAL REGISTER, or April 14, 1954, and at such time as the Presiding Examiner shall fix.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of said rules of practice and procedure.

Adopted: April 14, 1954.

Issued: April 16, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2362]

TRANSCONTINENTAL GAS PIPE LINE CORP.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application, filed January 29, 1954, and supplements thereto filed February 18 and March 8, 1954, pursuant to section 7 of the Natural Gas Act, for authorization to (1) construct and operate certain facilities, and (2) for permission and approval to abandon by sale to Union Oil Company of California (Union) certain facilities, all subject to the jurisdiction of the Commission, as described in said application, be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on February 12, 1954 (19 F. R. 847).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on April 30, 1954, at 9:30 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the application: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: April 14, 1954.

Issued: April 15, 1954.

By the Commission.

[Project No. 2153]

UNITED WATER CONSERVATION DISTRICT

NOTICE OF APPLICATION FOR LICENSE

APRIL 15, 1954.

Public notice is hereby given that United Water Conservation District, of Santa Paula, California, has filed application under the Federal Power Act (16 U. S. C. 791a–825r) for license for proposed water-power Project No. 2153 to be located on Piru and Sespe Creeks and their tributaries in Ventura and Los Angeles Counties, California, in the region of Fillmore, Piru, and Santa Paula, California, and to be constructed in stages—Stage I contemplating the immediate construction of the Santa Felicia Dam, about 270 feet in height, across Piru Creek at the Santa Felicia site, containing a penstock to permit use of the dam for development of power in the future; and a reservoir, formed by the Santa Felicia Dam, with an estimated capacity of about 100,000 acre-feet. Stage II includes "provision for the protection of all potentialities for the development of power on the Piru and Sespe Creeks, and for the ultimate development of hydroelectric power as a desirable adjunct to the primary purpose of conservation of water for irrigation, municipal and domestic and industrial uses" and contemplates construction of dams on Piru Creek at the Lockwood Valley, Upper Piru, Junction, Buck Creek and Blue Point sites; hydroelectric plants at the upper ends of Junction, Buck Creek, Blue Point and Santa Felicia reservoirs and below the Santa Felicia Dam; and conduits between the dams and the power plants; the construction of dams on Sespe Creek at the Cold Springs, Bear, and Topatopa sites; hydroelectric plants at the upper ends of Bear and Topatopa reservoirs, and at the Hammel site; and conduits between the dams and the power plants; and would also include such substations, switchyards and transmission lines as are necessary for project purposes.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before May 27, 1954. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 30-235]

MISSOURI PUBLIC SERVICE CO.

NOTICE OF FILING OF APPLICATION FOR DECLARATION THAT APPLICANT HAS CEASED TO BE A HOLDING COMPANY

APRIL 15, 1954.

Notice is hereby given that Missouri Public Service Company, a registered holding company by virtue of having filed a Notification of Registration pursuant to section 5 (a) of the Public Utility Holding Company Act of 1935 ("act"), as a person purposing to become a holding company in view of its proposed acquisition of all the shares of the capital stock of The Gas Service Company, a gas utility company, has now filed an application pursuant to section 5 (d) of the act for a declaration that it has ceased to be a holding company and that its registration has ceased to be in effect.

Applicant states that it no longer proposes to acquire the capital stock of The Gas Service Company and that it is not otherwise a holding company as defined in the act.

Notice is further given that any interested person may, not later than April 29, 1954, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said filing which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after April 29, 1954, such application may be granted.

By the Commission.

[File No. 70-3181]

MISSOURI PUBLIC SERVICE CO.

ORDER GIVING NOTICE OF WITHDRAWAL OF APPLICATION-DECLARATION

APRIL 15, 1954.

Missouri Public Service Company, a registered holding company, having filed an application-declaration pursuant to sections 6, 7, 10, and 12 of the Public Utility Holding Company Act of 1935, proposing, among other things, the acquisition by it from Cities Service Company of 1,500,000 shares of the capital stock of The Gas Service Company, the issuance of $18,000,000 principal amount of its short-term promissory notes to banks, and the issue and sale of 527,865 shares of its common stock without par value; and

Applicant-declarant having now requested withdrawal of said application-declaration stating that the contract with Cities Service Company for the purchase of said shares of The Gas Service Company expired on February 25, 1954, without having been performed:

It is ordered, That said application-declaration be, and the same hereby is, considered as withdrawn.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29147]

ALUMINUM BILLETS ETC., BETWEEN POINTS IN OFFICIAL TERRITORY

APPLICATION FOR RELIEF

APRIL 16, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch and C. W. Boin, Agents, for carriers parties to schedule listed below.

Commodities involved: Aluminum billets, blooms, ingots, pigs or slabs, also aluminum, granulated (shot), carloads.

Between: Points in official territory.

Grounds for relief: Rail competition, circuity, competition with motor carriers, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: H. R. Hinsch, Agent, I. C. C. No. 4577, supp. 8.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29148]

ACETIC ACID, AND ANHYDRIDE FROM KINGS MILL, TEX., TO KANKAKEE, ILL.

APPLICATION FOR RELIEF

APRIL 16, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Acetic acid, glacial or liquid, and acetic anhydride, carloads and tank-car loads.

From: Kings Mill, Tex.

To: Kankakee, Ill.

Grounds for relief: Rail competition, circuity, to apply rates constructed on the basis of the short line distance formula and additional destination.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3967, supp. 331.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29149]

GRAIN FROM POINTS ON KANSAS CITY SOUTHERN RAILWAY TO POINTS IN TEXAS

APPLICATION FOR RELIEF

APRIL 16, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for the Kansas City Southern Railway Company, Texas and New Orleans Railroad Company, and Gulf, Colorado and Santa Fe Railway Company.

Commodities involved: Grain, grain products and related articles, carloads.

From: Points on the Kansas City Southern Railway located between Kansas City, Mo., and Shreveport, La., inclusive.

To: Points in Texas.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain grouping.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3941, supp. 79.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[Notice No. 9]

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

APRIL 16, 1954.

Protests consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER. (49 CFR 1.240.) Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

APPLICATIONS FOR OPERATING AUTHORITY

No. MC 573 Sub 35, HOWARD R. WILLIAMS, INC., 4621 N. W. St. Helens Road, Portland, Oreg. Applicant's attorney: Norman E. Sutherland, 1100 Jackson Tower, Portland 5, Oreg. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles, between Ferndale (Neptune Beach) and Anacortes, Wash., and points within 10 miles of each, on the one hand, and, on the other, points in Washington, Oregon, Idaho, and that portion of Montana on and west of U. S. Highway 91; between Mukilteo, Wash., on the one hand, and, on the other, all United States Government installations in Washington, Oregon, Idaho, and that portion of Montana on and west of U. S. Highway 91; between points in Oregon; between points in Washington; between points in Idaho; and between Missoula, Mont., and points within 10 miles of Missoula, on the one hand, and, on the other, points in that part of Idaho north of the southern boundary of Idaho County, Idaho. Applicant is authorized to conduct operations in Washington, Idaho, Montana, and Oregon.

NO. MC 1658 Sub 35, SHIRKS MOTOR EXPRESS CORPORATION, 1091 Manheim Pike, Lancaster, Pa. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, and except Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those

injurious or contaminating to other lading, between junction U. S. Highway 6 and U. S. Highway 220, two miles west of Towanda, Pa., and Painted Post, N. Y., operating from junction U. S. Highway 6 and U. S. Highway 220 over U. S. Highway 220 to Waverly, N. Y., thence over New York Highway 17 to Elmira, N. Y., thence over New York Highway 17E to Big Flats, N. Y., thence over New York Highway 17 to Painted Post, and return over the same route, serving no intermediate points (service at termini for joinder purposes only), as an alternate route for operating convenience only in connection with carrier's regular route operations between Lancaster, Pa., and Wayland, N. Y., between Cleveland, Ohio, and Scranton, Pa., and between Binghamton, N. Y., and Elmira, N. Y. Applicant is authorized to conduct operations in Pennsylvania, Delaware, Ohio, New York, Maryland, New Jersey, Virginia, and the District of Columbia.

NO. MC 28439 Sub 59, DAILY MOTOR EXPRESS, INC., Penn and Pitt Streets, Carlisle, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Agricultural machinery, agricultural implements and parts thereof* when moving with machinery and implements, from Collegeville, Pa., to points in Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa, Minnesota, and the District of Columbia. Applicant is authorized to conduct operations in all States in the United States except Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

NO. MC 31820 Sub 24, AUTOMOTIVE CONVEYING CO., OF NEW JERSEY, 280–298 Gorge Road, Cliffside Park, N. J. Applicant's attorney: August W. Heckman, 880 Bergen Avenue, Jersey City 6, N. J. For authority to operate as a *common carrier*, over irregular routes, transporting: *Trucks* designed for heavy duty, in initial movement, in truckaway and driveaway service, from Edgewater N. H., to points in Maine, New Hampshire, West Virginia, Ohio, North Carolina, and Tennessee.

NO. MC 40224 Sub 1, OLEAN TRANSFER & WAREHOUSE CO., INC., 411–421 North First Street, Olean, N. Y. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except commodities of unusual value, and except Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Olean, N. Y., and Allegany, N. Y., over New York Highway 17, serving no intermediate points, restricted to transportation service which is auxiliary to, or supplemental of, the rail service of the Pennsylvania and Erie Railroad Company. Applicant is authorized to conduct operations in New York and Pennsylvania.

NO. MC 52024 Sub 4 (amended), ANTON J. MARTIN AND HARRY F. MARTIN, doing business as MARTIN TRANSFER COMPANY, 1150 Commerce Ave., Longview, Wash. Applicant's attorney: J. M. Hickson, 725 Yeon Building, Portland 4, Oreg. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, including *household goods* as defined by the Commission, and *those requiring special equipment*, but excluding commodities of unusual value, Class A and B explosives, and commodities in bulk, between Kelso, Wash., and Naselle, Wash.; from Kelso over city streets to and through Longview to junction U. S. Highway 830, thence over U. S. Highway 830 to junction unnumbered highway near Deep River, Wash., thence over said unnumbered highway (also from Longview over U. S. Highway 830 to junction Washington Highway 12B, and thence over Washington Highway 12B) to Naselle, Wash., and return over the same highways, serving all intermediate points, and the off-route points of Rosburg, Deep River, Deep River Camp, and Crown-Willamette Camp No. 2 near Skamokawa, Wash. Applicant is authorized to conduct operations in Oregon and Washington.

NO. MC 63340 Sub 3, MILLIS TRANSPORTATION CO., INC., Union Street, Millis, Mass. Applicant's attorney: Charles F. Riddle: Todd, Dillon and Curtiss, Suite 944 Washington Building, Washington 5, D. C. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Unfinished doors*, and *component parts thereof*, not crated, between Walpole, Mass., on the one hand, and, on the other, points in New York, New Jersey, Pennsylvania, Maine, Vermont, New Hampshire, Massachusetts, Connecticut, and Rhode Island. Applicant is authorized to conduct *contract carrier* operations in Massachusetts, Rhode Island, Connecticut, and New Hampshire, and *common carrier* operations in Massachusetts, New Hampshire and Vermont.

NO. MC 66562 Sub 1204, RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N. Y. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities* including *Class A and B explosives*, moving in express service, between Danbury, Conn., and Newtown, Conn., over U. S. Highway 6, serving no intermediate points.

NO. MC 66562 Sub 1205, RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N. Y. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities* including *Class A and B explosives*, moving in express service, between Providence, R. I., and Fall River, Mass., over U. S. Highway 6, serving no intermediate points.

Applicant's attorney: Martin Werner, 295 Madison Avenue, New York 17, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Cement*, in bulk, from Brooklyn, N. Y., to points in Nassau and Suffolk Counties, N. Y. Applicant is authorized to conduct operations in New York.

NO. MC 113464 Sub 4, HARVEY WAKEFIELD, doing business as WAKEFIELD TRUCKING SERVICE, Box 171, Upton, Wyo. Applicant's attorney: Vincent A. Ross, 512–514 Majestic Building, Cheyenne, Wyo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Ore*, in bulk, in dump trucks, from mines to railheads in Campbell, Crook, Weston, Converse, and Niobrara Counties, Wyo. Applicant is authorized to conduct operations in Wyoming and South Dakota.

NO. MC 113514 Sub 7, CHEMICAL TRANSPORTS, INC., 2431 Butler Street, P. O. Box 6745, Dallas 19, Tex. Applicant's attorney: W. D. White, 17th Floor Mercantile Bank Building, Dallas 1, Tex. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum and petroleum products*, and *paint and paint solvents*, in bulk, in tank vehicles, between points in the Dallas, Tex., Commercial Zone as defined by the Commission, on the one hand, and, on the other, points in Alabama, Arkansas, Colorado, Kansas, Louisiana, Mississippi, Missouri, New Mexico, Oklahoma, and Tennessee. Applicant is authorized to conduct operations in Alabama, Arkansas, Kansas, Colorado, Louisiana, Mississippi, Missouri, New Mexico, Oklahoma, and Texas.

NO. MC 114663, DONALD W. WINLAND, doing business as DON WINLAND TRUCKING, 120 North Main Street, Georgetown, Ill. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Fertilizer, fertilizing materials, ingredients and manufacturing supplies*, in bags or containers or in bulk, between Danville, Ill., and points within five miles thereof, on the one hand, and, on the other, Columbus, Ohio, Butler, Ind., and Louisville, Ky.; *fertilizer* and *fertilizer materials*, in bags or containers or in bulk, from Danville, Ill., and points within five miles thereof, to points in Benton, Boone, Carroll, Cass, Clinton, Clay, Fountain, Fulton, Greene, Hamilton, Hendricks, Howard, Jasper, Lake, Miami, Montgomery, Morgan, Newton, Owen, Parke, Porter, Pulaski, Putnam, Starke, Sullivan, Tippecanoe, Tipton, Warren, White, Vermillion, and Vigo Counties, Ind., and *such commodities as are required in the manufacture and distribution of fertilizer and fertilizer materials* on return.

APPLICATIONS UNDER SECTIONS 5 AND 210 (b)

Protests consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER. (49 CFR 1.240.) Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters ,and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of motor carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

NO. MC–F–5590, filed October 26, 1953. Authority sought for purchase by BRUCE MOTOR FREIGHT, INC., 2011 Easton Blvd., Des Moines, Iowa, of the operating rights of L. W. Pittsley, Des Moines, Iowa, and for acquisition by E. W. Harlan, Des Moines, Iowa, of control of the operating rights through the purchase. Applicants' attorney: Rex H Fowler, 510 Central National Bldg., Des Moines, Iowa. Operating rights sought to be transferred: *General commodities*, except dangerous explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, as a *common carrier*, over regular routes, between Chicago, Ill., and Des Moines, Iowa serving the intermediate points in Iowa, and the off-route points in Illinois in the Chicago, Ill., Commercial Zone, as defined by the Commission; *Poultry, butter*, and *eggs*, over irregular routes, from Guthrie Center, Leon, Osceola, Mason City, Creston, Gowrie, and Coon Rapids, Iowa, to Chicago, Ill.; *Roofing* and *roofing materials*, over irregular routes, from Chicago Heights, Ill., to Gowrie, Mason City, Iowa, and points in that part of Iowa on and south of U. S. Highway 30. Application filed for temporary authority under section 210a (b) April 12, 1954.

NO. MC–F–5680. Authority sought for purchase by COAST TRUCK LINES, INC., 1540 Fourth Avenue South, Seattle, Wash., of the operating rights of North Beach-Astoria Transit Company, Ilwaco, Wash., and for acquisition by C. G Soike, Seattle, Wash., of control of the operating rights through the purchase. Person to whom correspondence should be addressed: John W. Newbegin, 1540 Fourth Avenue South, Seattle, Wash. Operating rights sought to be transferred: *General commodities*, except those of unusual value, and except high explosives, household goods, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, as a *common carrier*, over a regular route, between Astoria, Oreg., and Oysterville, Wash., serving the intermediate and off-route points of Chinook, Ilwaco, Seaview, Long Beach, Nahcotta, and Ocean Park, Wash., and points within five miles of the above-specified route. Vendee is authorized to operate in Washington. Application has not been filed for temporary authority under section 210a (b).

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter A—Commodity Standards and Standard Container Regulations

PART 26—GRAIN STANDARDS

OFFICIAL GRAIN STANDARDS OF THE UNITED STATES FOR WHEAT

On March 12, 1954, there was published in the FEDERAL REGISTER (19 F. R. 1384) a notice of a proposal to amend the official grain standards of the United States for wheat (7 CFR 26.101 et seq.) promulgated under the authority of the United States Grain Standards Act, as amended (39 Stat. 482; 54 Stat. 765; 7 U. S. C. 71 et seq.), with respect to the percentages used in stating the quantity of smut dockage in wheat, and the public was given opportunity to participate in rule making concerning the proposal by attending a public hearing at Portland, Oregon, and by submitting written data, views, or arguments to the Director, Grain Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., to be received by him not later than April 9, 1954.

Consideration has been given to information obtained at the hearing, to information received in writing, and to other information available in the United States Department of Agriculture regarding the proposed amendment. Based upon this information, § 26.116 (b) (1) of the official grain standards of the United States for wheat (7 CFR 26.116 (b) (1)) is hereby amended to read as follows:

(1) *Smut dockage.* Before the determination of smut dockage as provided in this paragraph, the wheat shall be graded and designated according to the grade requirements of the standards applicable to such wheat if it were not smutty. The smut shall be removed by scouring and the loss in weight of the wheat caused by the removal of the smut shall be calculated in terms of percentage based on the total weight of the grain when free from dockage. The percentage so calculated shall be stated in terms of half percent when smut dockage is present in a quantity equal to less than one percent, and in terms of whole percent when present in a quantity equal to one percent or more. A fraction of a half percent shall be disregarded when smut dockage is present in a quantity equal to less than one percent, and a fraction of a percent shall be disregarded when smut dockage is present in a quantity equal to one percent or more. The percentage of the smut dockage, so calculated and stated, shall be added to the grade designation, preceding the statement of dockage, if any.

The foregoing amendment shall become effective August 2, 1954.

(Sec. 2, 39 Stat. 482, as amended, sec. 8, 50 Stat 485; 7 U. S. C. 74, 84)

Done at Washington, D. C., this 19th of April 1954.

[SEAL] GEORGE A. DICE,
Acting Deputy Administrator.

[F. R. Doc. 54-3039; Filed, Apr. 21, 1954; 8:50 a. m.]

PART 26—GRAIN STANDARDS

OFFICIAL GRAIN STANDARDS OF THE UNITED STATES FOR BARLEY

On March 18, 1954, there was published in the FEDERAL REGISTER (19 F. R. 1488) a notice of a proposal to amend the official grain standards of the United States for barley (7 CFR 26.201 et seq.) promulgated under the authority of the United States Grain Standards Act, as amended (39 Stat. 482; 54 Stat. 765; 7 U. S. C. 71 et seq.), with respect to the definitions of Choice Malting Two-rowed Western Barley and Malting Two-rowed Western Barley, and the public was given opportunity to participate in rule making concerning the proposal by attending public hearings at Milwaukeee, Wisconsin, and Portland, Oregon, and by submitting written data, views, or arguments to the Director, Grain Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., to be received by him not later than April 9, 1954.

Consideration has been given to information obtained at the hearings, to information received in writing, and to other information available in the United States Department of Agriculture regarding the proposed amendments. Based upon this information, § 26.209 (c) and (e) of the official grain standards of the United States for barley (7 CFR 26.209 (c), (e)) are hereby amended to read as follows:

(c) *Choice Malting Two-rowed Western Barley; definition.* Choice Malting Two-rowed Western Barley shall be Two-rowed Barley of the class Western Barley which consists of the Hannchen or Hanna varietal types; which contains not more than 3 percent of varietal types of barley other than Hannchen or Hanna; which meets the requirements for grade No. 1 except that the limitations on seeds of wild brome grasses shall be disregarded; which has a test weight per bushel of 52 pounds or more; which contains 90 percent or more of mellow kernels; which is not semi-steely in mass; which contains not more than 5 percent of barley and other matter that will pass readily through a sieve 0.032 inch thick with perforations 0.086 by 0.750 (5½ 64 x ¾) inch; which contains not more than 5 percent of skinned and/or broken kernels; which does not contain barley injured by frost, by heat, or by mold; and shall not include barley of the special grades stained, smutty, garlicky, weevily, ergoty, or bleached.

• • • • •

(e) *Malting Two-rowed Western Barley; definition.* Malting Two-rowed Western Barley shall be Two-rowed Barley of the class Western Barley which consists of the Hannchen or Hanna varietal types; which contains not more than 5 percent of varietal types of barley other than Hannchen or Hanna; which meets the requirements for any of the grades No. 1 to No. 3, inclusive, except that the limitation on seeds of wild brome grasses shall be disregarded; which does not meet the requirements for the special grade Choice Malting Two-rowed Western Barley; which has a test weight per bushel of 50 pounds or more; which contains 70 percent or more of mellow kernels; which is not semi-steely in mass; which contains not more than 10 percent of barley and other matter that will pass readily through a sieve 0.032 inch thick with perforations 0.086 x 0.750 (5½/64 x ¾) inch; which contains not more than 10 percent of skinned and/or broken kernels; which does not contain barley injured by frost, by heat, or by mold; and shall not include barley of the special grades stained, blighted, smutty, garlicky, weevily, ergoty, or bleached: *Provided*, That Malting Two-rowed Western Barley of grade No. 1 shall contain not less than 80 percent of mellow kernels; and may contain not more than 3 percent of varietal types of barley other than Hannchen or Hanna, not more than 7 percent of barley and other matter that will pass readily through a sieve 0.032 inch thick with perforations 0.086 x 0.750 (5½/64 x ¾) inch, and not more than 7 percent of skinned and/or broken kernels.

The foregoing amendments shall become effective August 2, 1954.

(Sec. 2, 39 Stat. 482, as amended, sec. 8, 39 Stat. 485; 7 U. S. C. 74, 84)

Done at Washington, D. C., this 19th day of April 1954.

Subchapter C—Regulations and Standards Under the Farm Products Inspection Act

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN MIXED VEGETABLES[1]

On January 15, 1954, a notice of proposed rule making was published in the FEDERAL REGISTER (19 F. R. 261) regarding a proposed revision of the United States Standards for Grades of Frozen Mixed Vegetables (7 CFR Part 52; 18 F. R. 8070).

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following United States Standards for Grades of Frozen Mixed Vegetables are hereby promulgated pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953).

AUTHORITY: §§ 52.2131 to 52.2142 issued under sec. 205, 60 Stat. 1090; 7 U. S. C. 1624; Pub. Law 156, 83rd Cong.

PRODUCT DESCRIPTION, KINDS, STYLES, PROPORTIONS, AND GRADES

§ 52.2131 *Product description.* Frozen mixed vegetables consist of three or more succulent vegetables, properly prepared and properly blanched; may contain vegetables (such as, small pieces of sweet red peppers or sweet green peppers) added as garnish; and are frozen and maintained at temperatures necessary for the preservation of the product.

§ 52.2132 *Kinds and styles of basic vegetables.* It is recommended that frozen mixed vegetables, other than small pieces of vegetables added as garnish, consist of the following kinds and styles of vegetables as basic vegetables:

(a) Beans, green or wax: Cut styles, predominantly of ½ inch to 1½ inch cuts;

(b) Beans, lima: Any single varietal type;

(c) Carrots: Diced style, predominantly of ⅜ inch to ½ inch cubes;

(d) Corn, sweet: Golden (or Yellow) in whole kernel style;

(e) Peas: Early type or sweet type.

§ 52.2133 *Recommended proportions of ingredients.* It is recommended that frozen mixed vegetables consist of three, four, or five basic vegetables in the following proportions:

(a) *Three vegetables.* A mixture of three basic vegetables in which any one vegetable is not more than 40 percent by weight of all the frozen mixed vegetables.

(b) *Four vegetables.* A mixture of four basic vegetables in which none of the vegetables is less than 8 percent by weight nor more than 35 percent by weight of all the frozen mixed vegetables.

(c) *Five vegetables.* A mixture of five basic vegetables in which none of the vegetables is less than 8 percent by weight nor more than 30 percent by weight of all the frozen mixed vegetables.

§ 52.2134 *Grades of frozen mixed vegetables.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen mixed vegetables in which each basic vegetable possesses similar varietal characteristics; in which all vegetables possess a good color, are practically free from defects, possess a good character, possess a good flavor and odor; and that score not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade B" or "U. S. Extra Standard" is the quality of frozen mixed vegetables in which each basic vegetable possesses similar varietal characteristics; in which all vegetables possess a reasonably good color, are reasonably free from defects, possess a reasonably good character, possess a good flavor and odor; and that score not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of frozen mixed vegetables in which each basic vegetable possesses similar varietal characteristics; in which all vegetables possess a fairly good color, are fairly free from defects, possess a fairly good character, possess a fairly good flavor and odor; and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(d) "Substandard" is the quality of frozen mixed vegetables that fail to meet the requirements of U. S. Grade C or U. S. Standard.

FACTORS OF QUALITY

§ 52.2135 *Ascertaining the grade.* (a) The grade of frozen mixed vegetables is ascertained by considering the factors of similar varietal characteristics and flavor and odor which are not scored and the respective ratings for the factors of color, absence of defects, and character which are scored.

(b) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors:	Points
Color	20
Absence of defects	40
Character	40
Total score	100

(c) The scores for the factors of color, absence of defects, and character (with respect to each individual vegetable prior to cooking) are determined immediately after thawing so that the product is sufficiently free from ice crystals to permit proper handling as individual units, and representative samples of the product are cooked to ascertain tenderness of the frozen mixed vegetables, collectively, before final evaluation of the score for character. Flavor and odor are also ascertained on the cooked product.

(d) "Good flavor and odor" means that the product and each basic vegetable after cooking has a good, characteristic normal flavor and odor, free from objectionable flavors and objectionable odors of any kind.

(e) "Fairly good flavor and odor" means that the product after cooking may be lacking in good flavor and odor but is free from objectionable flavors and objectionable odors of any kind.

§ 52.2136 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

§ 52.2137 *Color*—(a) *General.* The factor of color refers to the general brightness of all the combined vegetables and to the colors of lima beans, if a component in the mixture, as follows:

(1) "Green" with respect to thin-seeded types (with skins removed), such as Henderson Bush and Thorogreen varieties, and with respect to thick-seeded types (with skins on), such as Fordhook variety, means that the color of not less than 50 percent of the surface area of the individual lima bean possesses as much or more green color as Plate 18, K–5, illustrated in the First Edition of Maerz and Paul's Dictionary of Color.

(2) "Green" with respect to thick-seeded Baby Potato type (with skins on), such as Baby Potato, Baby Fordhook, and Evergreen varieties, means that the color of not less than 50 percent of the surface area of the individual lima bean possesses as much or more green color as Plate 18, J–3, illustrated in the First Edition of Maerz and Paul's Dictionary of Color.

(3) "White" for the respective varietal types (with skins removed or with skins on, as the case may be) means that more than 50 percent of the surface area of the individual lima bean possesses less green color than Plate 18, E–1, as illustrated in the First Edition of Maerz and Paul's Dictionary of Color.

(b) (*A*) *classification.* Frozen mixed vegetables which possess a good color may be given a score of 18 to 20 points. "Good color" means that the combined basic vegetables as a mass and the individual basic vegetables are bright and characteristic of young or tender vegetables that have been properly prepared and properly processed; that any pieces of vegetable material used for garnish are reasonably bright; and that lima beans, if present, possess a bright typical color for the varietal type and meet the following additional color requirements for the respective types:

(1) *Thin-seeded type (with skins removed); Thick-seeded Baby Potato type (with skins on).* 90 percent or more, by count, of all the lima beans are "green"; and the balance may be lighter in color or may be white or combinations thereof.

(2) *Thick-seeded type (with skins on).* 85 percent or more, by count, of all the lima beans are "green"; and the balance may be lighter in color but not more than 5 percent, by count, of all the lima beans may be white.

(c) (*B*) *classification.* If the frozen mixed vegetables possess a reasonably good color, a score of 16 or 17 points may be given. Frozen mixed vegetables that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the combined basic vegetables as a mass and the individual basic vegetables are reasonably bright and characteristic of reasonably young or reasonably tender mixed vegetables that have been properly prepared and properly processed; that any pieces of vegetable material used for garnish may be only fairly bright but are not off color for any reason; and that lima beans, if present, possess a reasonably bright typical color for the varietal type and meet the following additional color requirements for the respective types:

(1) *Thin-seeded type (with skins removed); Thick-seeded Baby Potato type (with skins on).* 65 percent or more, by count, of all the lima beans are "green"; and the balance may be lighter in color or may be white or combinations thereof.

(2) *Thick-seeded type (with skins on).* 60 percent or more, by count, of all the lima beans are "green"; and the balance may be lighter in color but not more than 5 percent, by count, of all the lima beans may be white.

(d) (*C*) *classification.* If the frozen mixed vegetables possess a fairly good color, a score of 14 or 15 points may be given. Frozen mixed vegetables that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the combined basic vegetables as a mass and the individual basic vegetables are fairly bright and characteristic of mixed vegetables that have been properly prepared and properly processed; that any pieces of vegetable material used for garnish may be only fairly bright but are not off color for any reason; and that lima beans, if present, possess a fairly bright typical color for the varietal type and meet the following additional color requirements for the respective types:

(1) *Thin seeded type (with skins removed); Thick-seeded Baby Potato type (with skins on).* More than 35 percent, by count, of all the lima beans are lighter than "green" including lima beans that may be white.

(2) *Thick-seeded type (with skins on).* More than 40 percent, by count, of all the beans are lighter than "green" but no more than 20 percent, by count, of all the lima beans may be white.

(e) (*SStd*) *classification.* If the frozen mixed vegetables fail to meet the requirements of paragraph (d) of this section, a score of 0 to 13 points may be given. Frozen mixed vegetables that fall into this classification shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2138 *Absence of defects*—(a) *General.* The factor of absence of defects refers to the degree of freedom from harmless extraneous vegetable materials, slightly damaged units, moderately damaged units, seriously damaged units, and any other defects which detract from the appearance or edibility of the product.

(1) "Harmless extraneous vegetable material" means any vegetable substance other than from any of the basic vegetables or garnish and any portions of the basic vegetables which are normally removed in preparation for processing. Such materials include, but are not limited to, "small pieces" and "large pieces" as follows:

(i) A "small piece of harmless extraneous vegetable material" is any piece or unit of such material similar in shape and the equivalent in size or smaller than $^{3}/_{16}$ square inch of leafy material or loose pieces of pods from peas or lima beans, tough or woody stems of any size other than unstemmed units of green or wax beans, ¾-inch cube of corn cob material, ½ square inch of corn husk, and ⅜-inch diameter thistle buds;

(ii) A "large piece of harmless extraneous vegetable material" is any piece or unit of such material similar in shape and larger in size than the equivalent of an applicable kind of "small piece of harmless extraneous vegetable material."

(2) "Slightly damaged unit" means any unit of the basic vegetable or garnish that is affected by slight blemishes, slight discoloration, or similar injury that are noticeable but do not materially affect the appearance or edibility of the unit, and includes, but is not limited to, light discoloration of the hilum of lima beans or other light discoloration of the skin which does not penetrate into the cotyledon of lima beans.

(3) "Moderately damaged unit" means any unit of a basic vegetable or garnish that is affected by blemishes, discoloration, or any other similar injury that materially affects the appearance or edibility of the unit and has the following specific meanings for the respective vegetables:

(i) *Beans, green or wax.* Any unit blemished by discoloration or by other means which in the aggregate exceeds the area of a circle ⅛ inch in diameter.

(ii) *Beans, lima.* A bean or portion thereof that is spotted or otherwise definitely discolored or that is blemished by means other than light discoloration.

(iii) *Carrots.* Any unit possessing an unpeeled area greater than the area of a circle ⅛ inch in diameter; and any unit blemished by internal or external discoloration, by sunburn or green color, or by other means.

(iv) *Corn.* Any kernel or portion thereof that possesses serious brown or black discoloration.

(v) *Peas.* Any spotted pea or any off-colored pea (such as brown, gray, cream, or yellow-white) that is abnormally defective and that definitely lacks any tinge of green color.

(vi) *Garnish.* Any piece blemished by discoloration or by other means which in the aggregate exceeds the area of a circle ⅛ inch in diameter.

(4) "Seriously damaged unit" means any unit of the basic vegetable or garnish, other than damaged corn kernels, that is damaged to the extent that the appearance and edibility of the unit is seriously affected and includes, but is not limited to, "shriveled" lima beans that are materially wrinkled and not of normal plumpness; "sprouted" lima beans that show an external shoot protruding beyond the cotyledon and skin; and any unit with brown or very black or very dark spots and similar injury regardless of the area affected.

(5) "Other defects" means any defects not specifically mentioned that affect the appearance or edibility of the product, and include, but are not limited to the following:

(i) *Beans, green or wax.* Loose seeds and portions thereof; and pod sections with very ragged edges, that are partially broken or split, or that are markedly shorter or longer than the predominating lengths of the cut units;

(ii) *Beans, lima.* Mashed beans, broken beans, loose cotyledons, loose skins, and any portions thereof;

(iii) *Carrots.* Crushed, broken, cracked, or irregularly shaped units; units with excessively frayed edges and surfaces; and units markedly smaller than one-half the volume of, or markedly larger than, the predominating size of cubes;

(iv) *Corn.* Crushed kernels, ragged kernels, loose skins, and dark and objectionable pieces of silk more than ½ inch in length; and

(v) *Peas.* Mashed peas, broken peas, loose cotyledons, loose skins, and any portions thereof.

(b) (*A*) *classification.* Frozen mixed vegetables that are practically free from defects may be given a score of 36 to 40 points. "Practically free from defects" means that there may be present no more than the following defects within the limits stated:

(1) No large pieces of harmless extraneous vegetable material, but 1 small piece of harmless extraneous vegetable material for each 16 ounces net weight, or for each package if the package is less than 16 ounces, of frozen mixed vegetables: *Provided*, That the combined weight of all the harmless extraneous material is not more than ½ of 1 percent, by weight, of the frozen mixed vegetables;

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

(2) A total of 3 moderately damaged units and seriously damaged units for each 3 ounces of frozen mixed vegetables of which 1 unit for each 4 ounces of frozen mixed vegetables may be seriously damaged: *Provided*, That slightly damaged, moderately damaged, and seriously damaged units, either singly or in combination, do not affect materially the appearance or edibility of the frozen mixed vegetables; and

(3) Other defects, individually or collectively, do not affect more than slightly the appearance of the frozen mixed vegetables.

(c) (*B*) *classification.* If the frozen mixed vegetables are reasonably free from defects, a score of 32 to 35 points may be given. Frozen mixed vegetables that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that there may be present no more than the following defects within the limits stated:

(1) 1 large piece of harmless extraneous vegetable material and 2 small pieces of harmless extraneous vegetable material for each 16 ounces net weight, or for each package if the package is less than 16 ounces, of frozen mixed vegetables: *Provided*, That the combined weight of all the harmless extraneous material is not more than ½ of 1 percent, by weight, of the frozen mixed vegetables;

(2) A total of 4 moderately damaged units and seriously damaged units for each 3 ounces of frozen mixed vegetables of which 1 unit for each 3 ounces of frozen mixed vegetables may be seriously damaged: *Provided*, That slightly damaged, moderately damaged, and seriously damaged units, either singly or in combination, do not affect materially the appearance or edibility of the frozen mixed vegetables; and

(3) Other defects, individually or collectively, do not affect more than slightly the appearance of the frozen mixed vegetables.

(d) (*C*) *classification.* If the frozen mixed vegetables are fairly free from defects, a score of 28 to 31 points may be given. Frozen mixed vegetables that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that there may be present no more than the following defects within the limits stated:

(1) 1 large piece of harmless extraneous vegetable material and 2 small pieces of harmless extraneous vegetable material for each 16 ounces net weight, or for each package if the package is less than 16 ounces, of frozen mixed vegetables: *Provided*, That the combined weight of all the harmless extraneous material is not more than ½ of 1 percent, by weight, of the frozen mixed vegetables;

(2) A total of 5 moderately damaged units and seriously damaged units for each 3 ounces of frozen mixed vegetables of which 1 unit for each 2 ounces of frozen mixed vegetables may be seriously damaged: *Provided*, That slightly damaged, moderately damaged, and seriously damaged units; either singly or in combination, do not seriously affect the appearance or edibility of the frozen mixed vegetables; and

(3) Other defects, individually or collectively, do not seriously affect the appearance of the frozen mixed vegetables.

(e) (*SStd*) *classification.* If the frozen mixed vegetables fail to meet the requirements of paragraph (d) of this section, a score of 0 to 27 points may be given. Frozen mixed vegetables that fall into this classification shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2139 *Character*—(a) *General.* The factor of character refers to the texture, the maturity, and the degree of development of the pods and seeds in green beans or wax beans; the tenderness of lima beans; the tenderness and the degree of freedom from stringy or coarse fibers in carrots; the tenderness and maturity or starchiness of the corn; the tenderness or maturity of the peas; and to the tenderness of the combined frozen mixed vegetables after cooking.

(b) *Interpretation of terms.* Unless indicated otherwise, the interpretation of the terms with respect to tenderness, texture, maturity, and development of the individual vegetables prior to cooking are the same as those in the applicable United States Standards for Grades of the frozen product.

(c) (*A*) *classification.* Frozen mixed vegetables which collectively and individually possess a good character may be given a score of 36 to 40 points. "Good character" means that the combined vegetables after cooking are tender and that the individual vegetables prior to cooking meet the following requirements:

(1) *Beans, green or wax.* The bean pods and seeds possess a good character.

(2) *Beans, lima.* The lima beans, exclusive of white beans, are tender; and any white beans that may be present are tender or reasonably tender.

(3) *Carrots.* The units possess a tender texture.

(4) *Corn.* The kernels are no more advanced than the cream stage of maturity, have a reasonably tender texture, and are the equivalent of frozen whole-grain corn that would score not less than 43 points for the factor of "Tenderness and Maturity" as outlined in the "United States Standards for Grades of Frozen Whole Kernel (or Whole Grain) Corn."

(5) *Peas.* The peas are reasonably tender and are the equivalent of frozen peas that would score not less than 34 points for the factor of "Tenderness and Maturity" as outlined in the "United States Standards for Grades of Frozen Peas."

(d) (*B*) *classification.* If the frozen mixed vegetables, collectively and individually, possess a reasonably good character, a score of 32 to 35 points may be given. Frozen mixed vegetables that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably good character" means that the combined vegetables after cooking are tender and practically free from tough fibers and that the individual vegetables prior to cooking meet the following requirements:

(1) *Beans, green or wax.* The bean pods and seeds possess a reasonably good character.

(2) *Beans, lima.* The lima beans, including white beans that may be present, are reasonably tender.

(3) *Carrots.* The units possess a tender texture.

(4) *Corn.* The kernels are reasonably tender and are the equivalent of frozen whole-grain corn that would score not less than 40 points for the factor of "Tenderness and Maturity" as outlined in the "United States Standards for Grades of Frozen Whole Kernel (or Whole Grain) Corn."

(5) *Peas.* The peas are reasonably tender and are the equivalent of frozen peas that would score not less than 32 points for the factor of "Tenderness and Maturity" as outlined in the "United States Standards for Grades of Frozen Peas."

(e) (*C*) *classification.* If the frozen mixed vegetables, collectively and individually, possess a fairly good character, a score of 28 to 31 points may be given. Frozen mixed vegetables that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good character" means that the combined vegetables after cooking are fairly tender and reasonably free from tough fibers and that the individual vegetables prior to cooking meet the following requirements:

(1) *Beans, green or wax.* The bean pods and seeds possess a fairly good character.

(2) *Beans, lima.* The lima beans, including white beans that may be present, are fairly tender .

(3) *Carrots.* The units possess a reasonably tender texture.

(4) *Corn.* The kernels are fairly tender.

(5) *Peas.* The peas are fairly tender.

(f) (*SStd*) *classification.* If the frozen mixed vegetables, collectively or individually, fail to meet the requirements of paragraph (e) of this section, a score of 0 to 27 points may be given. Frozen mixed vegetables that fall into this classification shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

EXPLANATIONS AND METHODS OF ANALYSES

§ 52.2140 *Explanation of terms and analyses.* (a) The "proportion of ingredients" are determined on the thawed vegetables by the following procedure:

(1) Separate and assemble from all the containers in the sample each of the basic vegetables;

(2) Weigh each basic vegetable thus composited to obtain the "aggregate weight" of each basic vegetable from all the containers in the sample;

(3) Add the aggregate weights of all the basic vegetables to obtain the "grand total weight" of all the basic vegetables from all containers in the sample; and then

(4) Calculate the percentage of each basic vegetable in the sample by dividing the "aggregate weight" of each basic vegetable by the "grand total weight" of all the basic vegetables.

LOT CERTIFICATION TOLERANCES

§ 52.2141 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of frozen mixed vegetables the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, (1) all containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification; and (2) with respect to those factors which are scored:

(i) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(ii) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(iii) None of the containers falls more than one grade below the grade indicated by the average of such total scores; and

(iv) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of the total scores of the containers comprising the sample.

SCORE SHEET

[1] Indicates limiting rule.

The United States Standards for Grades of Frozen Mixed Vegetables (which is the second issue) contained in this subpart shall become effective 30 days after publication hereof in the FEDERAL REGISTER, and thereupon will supersede the United States Standards for Grades of Frozen Mixed Vegetables (7 CFR Part 52, 18 F. R. 8070) which have been in effect since December 5, 1952.

(Sec. 205, 60 Stat. 1090, 67 Stat. 217; 7 U. S. C. 1624)

Dated: April 19, 1954.

[SEAL] GEORGE A. DICE,
Acting Deputy Administrator, Marketing Services.

[F. R. Doc. 54-3005; Filed, Apr. 21, 1954; 8:45 a. m.]

PART 70—GRADING AND INSPECTION OF POULTRY AND EDIBLE PRODUCTS THEREOF; AND UNITED STATES CLASSES, STANDARDS, AND GRADES WITH RESPECT THERETO

INSPECTION IN OFFICIAL PLANTS

The amendment to the regulations governing the grading and inspection of poultry and edible products thereof and United States classes, standards, and grades with respect thereto (7 CFR, Part 70), hereinafter promulgated, is pursuant to authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (67 Stat. 217, 7 U. S. C. 414).

The amendment will permit the conduct of inspection operations in the same processing room where uninspected operations are being carried on in plants where effective segregation of inspected and noninspected products is maintained.

It is hereby found that it would be impracticable and contrary to the public interest to give preliminary notice and engage in public rule making procedure and delay the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER for the reasons that (1) it is in the nature of a relieving restriction, (2) it will permit fuller utilization of poultry processing facilities and thereby reduce processing costs, and (3) no additional time is required for industry to prepare to comply with this amendment.

The amendment hereinafter set forth shall become effective upon publication in the FEDERAL REGISTER.

The amendment is as follows:

1. Change the second sentence of § 70.15 *Inspection in official plants; extent required*, to read as follows:

§ 70.15 *Inspection in official plants; extent required.* * * * Dressed poultry may be eviscerated in such plant without inspection for condition and wholesomeness, but uninspected and inspected operations may not be carried on simultaneously except in plants where processing rooms (including packing rooms) are separate or when by other acceptable means effective segregation of inspected and uninspected product is maintained. * * *

The other provisions of § 70.15 are unchanged.

(Sec. 205, 60 Stat. 1090, 67 Stat. 217; 7 U. S. C. 1624, 414)

Issued at Washington, D. C., this 16th day of April 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator, Agricultural Marketing Service.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter I—Irrigation Projects, Operation and Maintenance

PART 130—OPERATION AND MAINTENANCE CHARGES

WIND RIVER INDIAN IRRIGATION PROJECT, WYOMING

APRIL 16, 1954.

On February 25, 1954, there was published in the daily issue of the FEDERAL REGISTER a notice of intention to modify § 130.95 *Charges* of Title 25, Code of Federal Regulations, dealing with the irrigable lands of the Wind River Indian Irrigation Project. Interested persons were thereby given opportunity to participate in the preparation of the proposed amendment by submitting their views, data or arguments to the Area Director within 30 days from the date of publication of the notice. No objections or other data concerning the amendment having been received, the said section is amended as proposed, to be effective for the calendar year of 1954 and thereafter until further notice:

§ 130.95 *Charges.* In compliance with the provisions of the acts of August 1, 1914 and March 7, 1928 (38 Stat. 583, 25 U. S. C. 385; 45 Stat. 210, 25 U. S. C. 387), the operation and maintenance charges for the lands under the Wind River Irrigation Project, Wyoming, for the calendar year 1954 and subsequent years until further notice, are hereby fixed at $2.00 per acre for the assessable area under the constructed works on the Diminished Wind River Project and at $2.50 per acre on the Ceded Wind River Project; except in the case of all irrigable trust patent Indian land which lies within the Ceded Reservation and which is benefited by the Big Bend Drainage District where an additional assessment of $0.45 (45 cents) per acre is hereby fixed.

Amendment to order dated March 20, 1952 (17 F. R. 2387), signed by Paul L. Fickinger, Area Director.

(Secs. 1, 3, 36 Stat. 270, 272, as amended; 25 U. S. C. 385)

PAUL L. FICKINGER,
Area Director.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 79]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. When a LFR instrument approach is conducted at the below-named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility, class and identification, procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes, limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

4. The ground controlled approach procedures prescribed in § 609.13 are amended to read in part:

GCA STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. If a GCA instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the ground controller from final approach to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach. Except when the ground controller may direct otherwise prior to final approach, a missed approach procedure shall be executed as provided below when communication on final approach is lost for more than 5 seconds (b) directed by ground controller, (c) visual reference is not established upon descent to the authorized landing minimums, or (d) landing is not accomplished.

City and State; airport name, elevation, effective date	Radar terminal area maneuvering altitudes by sectors and limiting distances	Runway No.	Condition	Ceiling and visibility minimums: Precision approach (PAR) 75 m. p. h. or less	Precision approach (PAR) More than 75 m. p. h.	Surveillance approach (ASR) 75 m. p. h. or less	Surveillance approach (ASR) More than 75 m. p. h.	Except when the ground controller may direct otherwise prior to final approach, a missed approach procedure shall be executed as provided below when communication on final approach is lost for more than 5 seconds (b) directed by ground controller, (c) visual reference is not established upon descent to the authorized landing minimums, or (d) landing is not accomplished.

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. If a VOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification, procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 207—NAVIGATION REGULATIONS

DULUTH-SUPERIOR HARBOR, MINN. AND WIS.

Pursuant to section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), paragraph (b) of § 207.400 relating to the operation of bridges across the channels of Duluth-Superior Harbor, Minnesota and Wisconsin, is hereby amended to effect a change in the signal for the opening of the Duluth Ship Canal bridge and the addition of an opening signal for the Transfer bridge at New Duluth, as follows:

§ 207.400 *Duluth-Superior Harbor, Minn. and Wis.; use, administration, and navigation, bridge and dumping regulations.* • • •

(b) *Bridge regulations.* • • •

(2) *Signals for opening bridges.* (i) Following are the number and kinds of blasts of the signal whistle or of a horn when a vessel is not navigated by steam or Diesel power, which shall be given as a signal for opening the respective bridges:

Duluth Ship Canal Bridge, 1 long, 1 short, 1 long, 1 short.

Interstate (Duluth-Superior) Bridge, 1 long, 1 short, 1 long.

Minnesota draw, Northern Pacific Railway bridge, 1 long, 2 short.

Wisconsin draw, Northern Pacific Railway bridge, 2 long, 2 short.

Grassy Point Bridge, 2 short, 1 long.

Arrowhead Bridge (Twin Ports), 3 long blasts.

Transfer Bridge, New Duluth, 3 long blasts.

The duration of a long blast should not exceed 3 seconds, and a short blast should not exceed 1 second.

• • • • •

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

YOSEMITE AND YELLOWSTONE NATIONAL PARKS

1. Paragraph (b) *Entrance roads* of § 20.16, entitled *Yosemite National Park*, is amended to read as follows:

(b) *Entrance roads.* Automobiles, trucks, and other vehicles permitted in the Park may enter and leave by the several entrances and travel upon the roads only during the hours and at the times and upon the conditions specified in the following schedules, except that during construction activities or other emergencies the Superintendent shall prescribe such hours as in his judgment are necessary for the protection of the public:

(1) *All-Year highway.* Entrance at Arch Rock open from 5 a. m. to 12 midnight every day of the year.

(2) *Wawona Road.* South entrance open from 6 a. m. to 12 midnight between May 29 and September 15, inclusive; during the remainder of the year from 6 a. m. to 10 p. m. Sunday to Thursday, inclusive, and from 6 a. m. to 11 p. m. Friday and Saturday. (Travel season: Entire year, except during periods of heavy snow.)

(3) *Big Oak Flat Road.* Big Oak Flat Road entrance open from 6 a. m. to 12 midnight from May 29 to September 15, inclusive. During the remainder of the year, the road is open from 6 a. m. to 10 p. m. (Travel season: About May 1 to November 1.)

(4) *Tioga Road.* Tioga Pass entrance open from 6 a. m. to 12 midnight between date of road opening and September 15, inclusive. During the remainder of the year, the road is open from 6 a. m. to 10 p. m. (Travel season: In normal years, latter part of June to October 15.)

(5) *Road to Hetch Hetchy Dam.* Mather Ranger Station entrance open from 6 a. m. to 9:30 p. m. (Travel season: About May 1 to October 15.)

(6) *Approximate dates.* Where approximate dates only are given, weather and other conditions obtaining will govern and signs will be posted accordingly.

2. Subparagraph (2), entitled *Limited open season*, of paragraph (e), entitled *Fishing*, of § 20.13, entitled *Yellowstone National Park*, is amended to read as follows:

(2) *Limited open season.* (i) Riddle Lake, Grebe Lake, Wolf Lake, the stream connecting Grebe and Wolf Lakes and the Yellowstone River and its tributaries from the Upper Falls at Canyon to the marking buoys at the outlet of Yellowstone Lake are open to fishing from sunrise on July 1 to sunset on October 15. Yellowstone Lake and Squaw Lake are open to fishing from sunrise on June 15 to sunset on October 15.

(ii) All streams emptying into Yellowstone Lake, except those closed for management or cultural purposes, are open to fishing from sunrise on July 15 to sunset on October 15. Streams trapped for egg taking purposes are closed during the spawning season. Closure of such streams will be indicated by signs. Mouths of streams shall include those portions of Yellowstone Lake marked by signs and buoys within 100 yards of the stream outlet and/or inlet.

(iii) The following waters are open to fishing from sunrise on May 30 to sunset on September 30:

Madison River.	Maple Creek.
Campanula Creek.	Grayling Creek.
Cougar Creek.	Duck Creek.
Gneiss Creek.	Tepee Creek.

3. Subdivision (i) of subparagraph (5), entitled *Limit of catch and in possession*, of paragraph (e), entitled *Fishing*, of § 20.13, entitled *Yellowstone National Park*, is amended to read as follows:

(i) In Yellowstone Lake, that portion of the Yellowstone River above the Upper Falls at Canyon, and the streams entering into these waters, the limit of catch per day by each person fishing, and the limit of fish in possession at any one time by any person, shall be 10 pounds of fish (dressed weight with heads and tails intact), plus one fish, not to exceed a total of 3 fish.

(Sec. 3, 49 Stat. 535, as amended; 16 U. S. C. 3)

Issued this 15th day of April 1954.

DOUGLAS MCKAY,
Secretary of the Interior.

[F. R. Doc. 54-3018; Filed, Apr. 21, 1954; 8:46 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular No. 1872]

PART 140—GENERAL REGULATIONS GOVERNING COLOR-OF-TITLE CLAIMS

Part 140 is completely revised, to read as follows:

Sec.
- 140.1 Statutory authority.
- 140.2 Definition.
- 140.3 Classes of claims.
- 140.4 Who may apply.
- 140.5 Description of lands applied for.
- 140.6 Application.
- 140.7 Presentation and verification of factual statements.
- 140.8 Minerals.
- 140.9 Sale price of land.
- 140.10 Acreage limitation.
- 140.11 Payment.
- 140.12 Publication; protests.

AUTHORITY: §§ 140.1 to 140.12 issued under R. S. 2478; 43 U. S. C. 1201.

§ 140.1 *Statutory authority.* The act of December 22, 1928 (45 Stat. 1069; 43 U. S. C. 1068, 1068a), as amended by the act of July 28, 1953 (67 Stat. 227, Public Law 159, 83d Congress), authorizes the issuance of patent for not to exceed 160 acres of public lands held under claim or color of title of either of the two classes described in § 140.3, upon payment of the sale price of the land.

§ 140.2 *Definition.* "The act", when used in this part, means the act of December 22, 1928 (45 Stat. 1069; 43 U. S. C. 1068, 1068a), as amended by the act of July 28, 1953 (67 Stat. 227, 43 U. S. C. 1068a).

§ 140.3 *Classes of claims.* The claims recognized by the act will be referred to in this part as claims of class 1, and claims of class 2. A claim of class 1 is one which has been held in good faith and in peaceful, adverse possession by a claimant, his ancestors or grantors, under claim or color of title for more than 20 years, on which valuable improvements have been placed, or on which some part of the land has been reduced to cultivation. A claim of class 2 is one which has been held in good faith and in peaceful, adverse possession by a claimant, his ancestors or grantors, under claim or color of title for the period commencing not later than January 1, 1901, to the date of application, during which time they have paid taxes levied on the land by State and local governmental units.

§ 140.4 *Who may apply.* Any individual, group, or corporation authorized to hold title to land in the State and who believes he has a valid claim under color of title may make application.

§ 140.5 *Description of lands applied for.* Application under the act may be made for surveyed or unsurveyed lands. If unsurveyed, the description must be sufficiently complete to identify the location, boundary, and area of the land and, if possible, the approximate description or location of the land by section, township, and range. If unsurveyed land is claimed, final action will be suspended until the plat of survey has been officially filed.

§ 140.6 *Application.* (a) An application for a claim of class 1 or of class 2 must be filed in duplicate on Form 4–1250.[1] It must be filed with the land office for the district in which the land is situated, or, if there is no land office for the district in which the land is situated, with the Director, Bureau of Land Management, Washington 25, D. C.

(b) Every application must be accompanied by a filing fee of $10, which will be nonreturnable.

[1] Filed as part of the original document.

(c) The application must be in typewritten form, or in legible handwriting, and it must be completely executed and signed by the applicant.[2]

(d) Every applicant must furnish information required in the application form concerning improvements, cultivation, conveyances of title, taxes, and related matters.

§ 140.7 *Presentation and verification of factual statements.* (a) Information relating to all record and nonrecord conveyances, or to nonrecord claims of title, affecting the land shall be itemized on Form 4–1251.[1] The statements of record conveyances must be certified by the proper county official or by an abstractor. The applicant may be called upon to submit documentary or other evidence relating to conveyances or claims. Abstracts of title or other documents which are so requested will be returned to the applicant.

(b) Applicants for claims of class 2 must itemize all information relating to tax levies and payments on the land on Form 4–1252,[1] which must be certified by the proper county official or by an abstractor.

§ 140.8 *Minerals.* (a) All patents issued under the act will reserve to the United States all fissionable source materials.

(b) Any applicant who satisfied all requirements for a claim of class 1 or of class 2 commencing not later than January 1, 1901, to the date of application and who so requests in the application will receive a patent conveying title to all other minerals except:

(1) Any minerals which, at the time of approval of the application, are embraced by an outstanding mineral lease or

(2) Any minerals for which the lands have been placed in a mineral withdrawal.

All other patents will reserve all minerals to the United States.

(c) All mineral and fissionable material reservations will include the right to prospect for, mine, and remove the same in accordance with applicable law.

§ 140.9 *Price of land.* The land applied for will be appraised on the basis of its fair market value at the time of appraisal. However, in determination of the price payable by the applicant, value resulting from improvements or development by the applicant or his predecessors in interest will be deducted from the appraised price, and consideration will be given to the equities of the applicant. In no case will the land be sold for less than $1.25 per acre.

§ 140.10 *Acreage limitation.* No patent will be issued pursuant to an application under the act which exceeds 160 acres.

§ 140.11 *Payment.* Applicant will be required to make payment of the sale price of the land within the time stated in the request for payment.

§ 140.12 *Publication; protests.* (a) The applicant will be required to publish once a week for four consecutive weeks in accordance with § 106.18 of this chapter, at his expense, in a designated newspaper and in a designated form, a notice allowing all persons claiming the land adversely to file in the land office for the district in which the land is situated, or if there is no land office for the district in which the land is situated, with the Director, Bureau of Land Management, Washington 25, D. C., their objections to the issuance of patent under the application. A protestant must serve on the applicant a copy of the objections and furnish evidence of such service.

(b) The applicant must file a statement of the publisher, accompanied by a copy of the notice published, showing that publication has been had for the required time.

DOUGLAS MCKAY,
Secretary of the Interior.

APRIL 15, 1954.

[F. R. Doc. 54-3017; Filed, Apr. 21, 1954; 8:46 a. m.]

[2] 18 U. S. C. 1001 makes it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

Appendix—Public Land Orders

[Public Land Order 955]

NEW MEXICO

MODIFYING PUBLIC LAND ORDER NO. 142 OF JUNE 16, 1943

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Public Land Order No. 142 of June 16, 1943, reserving under the jurisdiction of the Department of the Interior certain public lands in New Mexico for use in connection with the prosecution of the war is hereby modified to the extent necessary to permit disposal of the following-described lands under applicable public land laws by a State exchange or State selection:

NEW MEXICO PRINCIPAL MERIDIAN

T. 18 S., R. 13 W.,
Sec. 12, lot 1.

The area described contains 31.71 acres.

DOUGLAS MCKAY,
Secretary of the Interior.

APRIL 15, 1954.

[F. R. Doc. 54-3016; Filed, Apr. 21, 1954; 8:45 a. m.]

[Public Land Order 956]

ALASKA

AMENDING PUBLIC LAND ORDER NO. 945 OF MARCH 18, 1954

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910, c. 421 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Public Land Order No. 945 of March 18, 1954 (19 F. R. 1583) revoking Executive Order No. 5214 of October 30, 1929 is hereby amended by adding at the end of the sixth paragraph the following sentence:

All applications filed pursuant to the veterans' preference act of 1944, on or before 10:00 a. m. of the 35th day (April 22, 1954) after the date of this order shall be treated as though simultaneously filed at that time; all other applications under the public land laws filed on or before 10:00 a. m. of the 126th day (July 22, 1954) after the date of this order shall be treated as though simultaneously filed at that time.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

APRIL 20, 1954.

[F. R. Doc. 54-3077; Filed, Apr. 21, 1954; 10:24 a. m.]

TITLE 50—WILDLIFE

Chapter III—International Regulatory Agencies (Fishing and Whaling)

Subchapter A—International Fisheries Commission

PART 301—PACIFIC HALIBUT FISHERIES

Part 301 of Chapter III, Title 50, is revised to read as follows:

Sec.
- 301.1 Regulatory areas.
- 301.2 Length of halibut fishing season.
- 301.3 Closed seasons.
- 301.4 Catch limits in Areas 2 and 3A.
- 301.5 Size limits.
- 301.6 Licensing of vessels.
- 301.7 Retention of halibut, taken under permit.
- 301.8 Conditions limiting validity of permits.
- 301.9 Statistical return by vessels.
- 301.10 Statistical return by dealers.
- 301.11 Closed nursery grounds.
- 301.12 Dory gear prohibited.
- 301.13 Nets prohibited.
- 301.14 Retention of tagged halibut.
- 301.15 Responsibility of master.
- 301.16 Supervision of unloading and weighing.
- 301.17 Previous regulations superseded.

AUTHORITY: §§ 301.1 to 301.17 issued under Art. III, 50 Stat., Part 2, 1353.

§ 301.1 *Regulatory areas.* (a) Convention waters which include the territorial waters and the high seas off the western coasts of Canada and the United States of America including the southern as well as the western coasts of Alaska shall be divided into the following areas, all directions given being magnetic unless otherwise stated.

(b) Area 1A (South of Heceta Head) shall include all convention waters southeast of a line running northeast and southwest through Heceta Head Light, as shown on Chart 5802, published in July, 1947, by the United States Coast and Geodetic Survey, which light is approximately latitude 44°08'18" N., longitude 124°07'36" W.

(c) Area 1B (Heceta Head to Willapa Harbor) shall include all convention waters between Area 1A and a line running northeast and southwest through Willapa Bay Light on Cape Shoalwater, as shown on Chart 6185, published in July, 1939, by the United States Coast and Geodetic Survey, which light is approximately in latitude 46°43'17" N., longitude 124°04'15" W.

(d) Area 2 (Willapa Harbor to Cape Spencer) shall include all convention waters off the coasts of the United States of America and of Alaska and of Canada between Area 1B and a line running through the most westerly point of Glacier Bay, Alaska, to Cape Spencer Light as shown on Chart 8304, published in June, 1940, by the United States Coast and Geodetic Survey, which light is approximately latitude 58°11'57" N., longitude 136°38'18" W., thence south one-quarter east and is exclusive of the nursery areas closed to all halibut fishing in § 301.11.

(e) Area 3A (Cape Spencer to Sanak Islands) shall include all the convention waters off the coast of Alaska that are between Area 2 and a straight line running approximately south three-quarters east from the Alaska Peninsula, near Bold Cape approximately latitude 55° 01'15" N., longitude 162°15'45" W., through the highest point on Dear Island approximately latitude 54°57'45" N., longitude 162°16'45" W., and through the highest point on Caton Island approximately latitude 54°24'00" N., longitude 162°26'00" W. The points on the Alaska Peninsula, on Deer and Caton Islands shall be determined from Chart 8860 as published December, 1942, by the United States Coast and Geodetic Survey, Washington, D. C.

(f) Area 3B (West of Sanak Islands including Bering Sea) shall include all the convention waters off the coast of Alaska which are not included in Area 3A or in Area 2 or in the nursery area described in § 301.11 (b).

§ 301.2 *Length of halibut fishing seasons.* (a) In Area 1A, the halibut fishing season shall commence at 12:01 a. m. of the 16th day of May and terminate at 11:59 p. m. of the same day that the third halibut fishing season in Area 3B shall terminate.

(b) In Area 1B, the halibut fishing seasons shall commence and terminate at the same times as the halibut fishing seasons in Area 2 shall commence and terminate.

(c) In Area 2, there shall be two halibut fishing seasons: The first season commencing at 12:01 a. m. of the 16th day of May and terminating at 11:59 p. m. on a date to be determined and announced under § 301.4 (b); the second season, of 8 days, commencing at 12:01 a. m. of the 1st day of August and terminating at 11:59 p. m. of the 8th day of August, or if the termination of the first season in Area 2 or in Area 3A be later than 11:59 p. m. of the 22d day of July the second season in Area 2 shall commence at 12:01 a. m. of the tenth day after termination of the first season in Area 2 or in Area 3A whichever shall be later and terminate at 11:59 p. m. of the 8th day after commencement of the second fishing season in this area.

(d) In Area 3A, there shall be two halibut fishing seasons: The first commencing at 12:01 a. m. of the 16th day of May and terminating at 11:59 p. m. on a date to be determined and announced under § 301.4 (b); the second

season, of 10 days, commencing at 12:01 a. m. of the 1st day of August and terminating at 11:59 p. m. of the 10th day of August, or if the termination of the first season in Area 2 or in Area 3A be later than 11:59 p. m. of the 22d day of July the second season in Area 3A shall commence at 12:01 a. m. of the 10th day after termination of the first season in Area 2 or in Area 3A whichever shall be later and terminate at 11:59 p. m. of the 10th day after commencement of the second fishing season in this area.

(e) In Area 3B, there shall be three halibut fishing seasons; The first and the second fishing seasons commencing and terminating at the same times as the first and second fishing seasons respectively in Area 3A; the third season, of 25 days, commencing at 12:01 a. m. of the 5th day after the termination of the second fishing season and terminating at 11:59 p. m. of the 30th day after the termination of the second season provided the latter date is not later than 11:59 p. m. of the 30th day of November when all convention waters shall be closed to halibut fishing as provided in § 301.3 (b).

§ 301.3 *Closed seasons.* (a) Under paragraph 1 of Article 1 of the Convention, all convention waters shall be closed to halibut fishing except as provided in § 301.2.

(b) All convention waters, if not already closed under other provisions of this part, shall be closed to halibut fishing at 11:59 p. m. of the 30th day of November and shall remain closed until re-opened as provided in § 301.2, and the retention and landing of any halibut caught during this closed period shall be prohibited.

(c) Nothing contained in this part shall prohibit the fishing for species of fish other than halibut or prohibit the International Pacific Halibut Commission, hereafter in this part referred to as "the Commission," from conducting or authorizing fishing operations for investigation purposes as provided for in paragraph 3 of Article I of the Convention.

§ 301.4 *Catch limits in Areas 2 and 3A.* (a) The quantity of halibut to be taken during the first halibut fishing season in Area 2 and during the first halibut fishing season in Area 3A in 1954 shall be limited to 26,500,000 pounds and 28,000,000 pounds respectively of salable halibut, the weights in each limit to be computed as with heads off and entrails removed.

(b) The Commission shall as early in the said year as is practicable determine and announce the date on which it deems each limit of catch defined in paragraph (a) of this section will be attained, and the limit of each such catch shall then be that which shall be taken prior to said date, and fishing for halibut in the area or areas to which each limit applies shall at that date be prohibited until each area is re-opened to halibut fishing as provided in § 301.2, and provided that if it shall at any time become evident to the Commission that the limit will not be reached by such date, it may substitute another date.

(c) No catch limits shall apply to the second halibut fishing season in Area 2 or to the second halibut fishing season in Area 3A, or to any halibut fishing season in any other area.

§ 301.5 *Size limits.* The catch of halibut to be taken from all areas during the year 1954 shall be limited to halibut which with head on are 26 inches or more in length as measured from the tip of the lower jaw to the extreme end of the middle of the tail or to halibut which with the head off and entrails removed are 5 pounds or more in weight, and the possession of any halibut of less than the above length or the above weight, according to whether the head is on or off, by any vessel or by any master or operator of any vessel or by any person, firm or corporation, is prohibited.

§ 301.6 *Licensing of vessels.* (a) All vessels of any tonnage which shall fish for halibut in any manner or hold halibut in possession in any area, or which shall transport halibut otherwise than as a common carrier documented by the Government of the United States or of Canada for the carriage of freight, must be licensed by the Commission, provided that vessels of less than five net tons or vessels which do not use set lines need not be licensed unless they shall require a permit as provided in § 301.7.

(b) Each vessel licensed by the Commission shall carry on board at all times while at sea the halibut license thus secured whether it is validated for halibut fishing or endorsed with a permit as provided in § 301.8 and this license shall at all times be subject to inspection by authorized officers of the Governments of Canada or the United States or by representives of the Commission.

(c) The halibut license shall be issued without fee by the customs officers of the Governments of Canada or the United States or by representatives of the Commission or by fishery officers of the Governments of Canada or the United States at places where there are neither customs officers nor representatives of the Commission. A new license may be issued by the officer accepting statistical return at any time to vessels which have furnished proof of loss of the license form previously issued, or when there shall be no further space for record thereon, providing the receipt of statistical return shall be shown on the new form for any halibut or other species taken during or after the voyage upon which loss occurred.

(d) The halibut license of any vessel shall be validated before departure from port for each halibut fishing operation for which statistical return is required. This validation of a license shall be by customs officers or by fishery officers of the Governments of Canada or the United States when available at places where there are no customs officers and shall not be made unless the area in which the vessel will fish is entered on the license form and unless the provisions of § 301.9 have been complied with for all landings and all fishing operations since issue of the license, provided that if the master or operator of any vessel shall fail to comply with the provisions of § 301.9, the halibut license of such vessel may be validated by customs officers or by fishery officers upon evidence either that there has been a judicial determination of the offense or that the laws prescribing penalties therefor have been complied with, or that the said master or operator is no longer responsible for, nor sharing in, the operations of said vessel.

(e) The halibut license of any vessel fishing for halibut in Area 1A as defined in § 301.1 must be validated at a port or place within Area 1A prior to each such fishing operation when Areas 1B and 2 are closed to halibut fishing

(f) The halibut license of any vessel fishing for halibut in Area 3B during the third halibut fishing season as defined in § 301.2 (e) must be validated at a port or place within Area 3B prior to such fishing and again before said vessel departs from Area 3B subsequent to such fishing if said vessel has any halibut on board.

(g) A halibut license shall not be validated for departure for halibut fishing in Areas 1A or 1B or 2 more than 48 hours prior to the commencement of any halibut fishing season in said areas; nor for departure for halibut fishing in Areas 3A or 3B from any port or place inside said areas more than 48 hours prior to the commencement of any halibut fishing season in said areas; nor for departure for halibut fishing in Areas 3A or 3B from any port or place outside said areas more than 5 days prior to the commencement of any halibut fishing season in said areas.

(h) A halibut license shall not be valid for halibut fishing in more than one of Areas 1A, 1B or 3A, as defined in § 301.1, during any one trip nor shall it be revalidated for halibut fishing in another of said areas while the vessel has any halibut on board.

(i) A halibut license shall not be valid for halibut fishing in any area closed to halibut fishing nor for the possession of halibut in any area closed to halibut fishing except while in actual transit to or within a port of sale and as provided in paragraph (k) of this section.

(j) A halibut license shall not be valid for halibut fishing in any area while a permit endorsed thereon is in effect, nor shall it be validated while halibut taken under such permit is on board.

(k) A halibut license when validated for halibut fishing in Area 3A shall not be valid for the possession of any halibut in Area 2 if said vessel is in possession of baited gear more than 25 miles from Cape Spencer Light, Alaska; and a halibut license when validated for halibut fishing in Area 3B shall not be valid for the possession of any halibut in Area 3A, when Area 3A is closed to halibut fishing, if said vessel is in possession of baited gear more than 20 miles by navigable water route from the eastern boundary of Area 3B.

(l) No person on any vessel which is required to have a halibut license under paragraph (a) of this section shall fish for halibut or have halibut in his possession, unless said vessel has a valid license issued and in force in conformity with the provisions of this section.

§ 301.7 *Retention of halibut taken under permit.* (a) There may be retained for sale on any vessel which shall have a permit as provided in § 301.8 such halibut as is caught incidentally to fishing by that vessel in any area after it has been closed to halibut fishing under § 301.2 or § 301.4 with set lines (of the type commonly used in the Pacific Coast halibut fishery) for other species, not to exceed at any time one pound of halibut for each seven pounds of salable fish, actually utilized, of other specices not including salmon or tuna, and such halibut may be sold as the catch of said vessel, the weight of all fish to be computed as with heads off and entrails removed, provided that it shall not be a violation of this part for any such vessel to have in possession halibut in addition to the amount herein allowed to be sold if such additional halibut shall not exceed thirty per cent of such amount and shall be forfeited and surrendered at the time of landing as provided in paragraph (e) of this section.

(b) There may be retained for sale on any vessel which shall have a permit as provided in § 301.8 such halibut as is caught incidentally to fishing for species of crab by that vessel in that part of Area 3B known as Bering Sea after 12:01 a. m. of the 16th day of May of the year 1954 with bottom trawl nets (of the type commonly used in the Bering Sea king crab fishery) whose cod ends or fish bags shall consist of webbing whose dry-stretched mesh shall measure not less than 12 inches between knots or hog rings, not to exceed at any time one pound of halibut for each five pounds drained weight of salable picked crab meat or the equivalent drained weight of crab meat in the shell or in vacuum-packed heat processed containers. The equivalent weight of meat in the shell shall be computed on the basis of 15 pounds of meat in the shell being equal to 6 pounds of drained picked crab meat and the equivalent weight of processed meat shall be computed on the basis of 6½ ounces of drained weight of processed crab being equal to 8 ounces of picked crab meat.

(c) Halibut retained under such permit shall not be filleted, fletched, steaked or butchered beyond the removal of the head and entrails while on the catching vessel.

(d) Halibut retained under such permit shall not be landed or otherwise removed or be received by any person, firm or corporation from the catching vessel until all halibut on board shall have been reported to a customs, fishery or other authorized enforcement officer of the Governments of Canada or the United States by the captain or operator of said vessel and also by the person, firm or corporation receiving the halibut, and no halibut or other fish or crabs shall be landed or removed or be received from the catching vessel except with the permission of said officer and under such supervision as the said officer may deem advisable.

(e) Halibut retained under such permit shall not be purchased or held in possession by any person other than the master, operator or crew of the catching vessel in excess of the proportion allowed in paragraph (a) of this section until such excess whatever its origin shall have been forfeited and surrendered to the customs, fishery or other authorized officers of the Governments of Canada or the United States. In forfeiting such excess, the vessel shall be permitted to surrender any part of its catch of halibut, provided that the amount retained shall not exceed the proportion herein allowed.

(f) Permits for the retention and landing of halibut caught in Areas 1A, 1B, 2, 3A or 3B, exclusive of that part known as Bering Sea, in the year 1954 shall become invalid at 11:59 p. m. of the 15th day of November of said year or at such earlier date as the Commission shall determine.

(g) Permits shall become invalid for the retention of halibut caught in that part of Area 3B known as Bering Sea after 11:59 p. m. of the 14th day of November in the year 1954 and shall become invalid for the landing of halibut caught under permit in that part of Area 3B known as Bering Sea after 11:59 p. m. of the 14th day of December of the year 1954 or at such earlier dates as the Commission shall determine.

§ 301.8 *Conditions limiting validity of permits.* (a) Any vessel which shall be used in fishing for other species than halibut in any area after it has been closed to halibut fishing under § 301.2 or § 301.4 must have a halibut license and a permit if it shall retain, land or sell any halibut caught incidentally to such fishing or possess any halibut of any origin during such fishing, as provided in § 301.7.

(b) The permit shall be shown by endorsement of the issuing officer on the face of the halibut license form held by said vessel and shall show the area or areas for which the permit is issued.

(c) The permit shall terminate at the time of first landing thereafter of fish or crabs of any species and a new permit shall be secured before any subsequent fishing operation for which a permit is required.

(d) A permit shall not be issued to any vessel which shall have halibut on board taken while said vessel was licensed to fish in an open area unless such halibut shall be considered as taken under the issued permit and shall thereby be subject to forfeiture when landed if in excess of the proportion permitted in § 301.7 (a) or (b).

(e) A permit shall not be issued to, or be valid if held by, any vessel which shall fish with other than set lines of the type commonly used in the Pacific Coast halibut fishery except in that part of Area 3B known as Bering Sea as provided in § 301.7 (b).

(f) The permit of any vessel shall not be valid unless the permit is granted before departure from port for each fishing operation for which statistical returns are required. This granting of a permit shall be by customs officers or by fishery officers of the Governments of Canada or the United States when available at places where there are no customs officers and shall not be made unless the area or areas in which the vessel will fish is entered on the halibut license form and unless the provisions of § 301.9 have been complied with for all landings and all fishing operations since issue of the license or permit, provided that if the master or operator of any vessel shall fail to comply with the provisions of § 301.9, the permit of such vessel may be granted by customs or fishery officers upon evidence either that there has been a judicial determination of the offense or that the laws prescribing penalties therefor have been complied with, or that the said master or operator is no longer responsible for, nor sharing in, the operations of said vessel.

(g) A permit shall not be valid for the landing of halibut caught incidentally to fishing for crabs in that part of Area 3B known as Bering Sea unless the vessel shall show documentary evidence of date of departure from some port or place within said area, or from Akutan, Alaska, subsequent to such fishing. Such documentary evidence may consist of a certified written statement of a properly identified and responsible resident within that part of Area 3B known as Bering Sea or at Akutan.

(h) The permit of any vessel shall not be valid if said vessel shall have in its possession at any time halibut in excess of the amount allowed under § 301.7 (a) or (b).

(i) No person shall retain, land or sell any halibut caught incidentally to fishing for other species in any area closed to halibut fishing under § 301.2 or § 301.4, or shall have halibut of any origin in his possession during such fishing, unless such person is a member of the crew of and is upon a vessel with a halibut license and with a valid permit issued and in force in conformity with the provisions of § 301.7 and this section.

§ 301.9 *Statistical return by vessels.* (a) Statistical return as to the amount of halibut taken during fishing operations must be made by the master or operator of any vessel licensed under this part and as to the amount of halibut and other species by the master or operator of any vessel operating under permit as provided for in §§ 301.7 and 301.8, within 96 hours of landing, sale or transfer of halibut or of first entry thereafter into a port where there is an officer authorized to receive such return.

(b) The statistical return must state the port of landing and the amount of each species taken within the area defined in this part, for which the vessel's license is validated for halibut fishing or within the area or areas for which the vessel's license is endorsed as a permit.

(c) The statistical return must include all halibut landed or transferred to other vessels and all halibut held in possession on board and must be full, true and correct in all respects herein required.

(d) The master or operator or any person engaged on shares in the operation of any vessel licensed or holding a permit under this part may be required by the Commission or by any officer of the Governments of Canada or the United States authorized to receive such return to certify to its correctness to the best of his information and belief and

to support the certificate by a sworn statement. Validation of a halibut license or issuance of a permit after such sworn return is made shall be provisional and shall not render the license or permit valid in case the return shall later be shown to be false or fraudulently made.

(e) The master or operator of any vessel holding a license or permit under this part shall keep an accurate log of all fishing operations including therein date, locality, amount of gear used, and amount of halibut taken daily in each such locality. This log record shall be open to inspection by representatives of the Commission authorized for this purpose.

(f) The master, operator or any other person engaged on shares in the operation of any vessel licensed under this part may be required by the Commission or by any officer of the Governments of Canada or the United States to certify to the correctness of such log record to the best of his information and belief and to support the certificate by a sworn statement.

§ 301.10 *Statistical return by dealers.* (a) All persons, firms or corporations that shall buy halibut or receive halibut for any purpose from fishing or transporting vessels or other carrier shall keep and on request furnish to customs officers or to any enforcing officer of the Governments of Canada or the United States or to representatives of the Commission, records of each purchase or receipt of halibut, showing date, locality, name of vessel, person, firm or corporation purchased or received from and the amount in pounds according to trade categories of the halibut and other species landed with the halibut.

(b) All persons, firms or corporations receiving fish from a vessel fishing under permit as provided in § 301.7 shall within 48 hours make to an authorized enforcing officer of the Governments of Canada or the United States a signed statistical return showing the date, locality, name of vessel received from and the amount of halibut and of other species landed with the halibut and certifying that permission to receive such fish was secured in accordance with § 301.7 (d). Such persons, firms or corporations may be required by any officer of the Governments of Canada or the United States to support the accuracy of the above signed statistical return with a sworn statement.

(c) All records of all persons, firms or corporations concerning the landing, purchase, receipt and sale of halibut and other species landed therewith shall be open at all times to inspection by any enforcement officer of the Governments of Canada or the United States or of any authorized representative of the Commission. Such persons, firms or corporations may be required to certify to the correctness of such records and to support the certificate by a sworn statement.

(d) The possession by any person, firm or corporation of halibut which such person, firm or corporation knows to have been taken by a vessel without a valid halibut license or a vessel without a permit when such license or permit is required, is prohibited.

(e) No person, firm or corporation shall unload any halibut from any vessel that has fished for halibut in Area 3B during the third halibut fishing season as defined in § 301.2 (e) unless the license of said vessel has been validated at a port or place in Area 3B as required in § 301.6 (f) or unless permission to unload such halibut has been secured from an enforcement officer of the Governments of Canada or the United States.

§ 301.11 *Closed nursery grounds.* (a) The following areas have been found to be populated by small, immature halibut and are designated as nursery grounds and closed to halibut fishing, and no person shall fish for halibut in either of such areas, or shall have halibut in his possession while fishing for other species therein, or shall have halibut of any origin in his possession therein excepting in the course of a continuous transit across such area.

(b) First, that area in the waters off the coast of Alaska within the following boundary as stated in terms of the magnetic compass unless otherwise indicated: From the north extremity of Cape Ulitka, Noyes Island, approximately latitude 55°33'48" N., longitude 133°43' 35" W., to the south extremity of Wood Island, approximately latitude 55°39'44" N., longitude 133°42'29" W.; thence to the east extremity of Timbered Islet, approximately latitude 55°41'47" N., longitude 133°47'42" W.; thence to the true west extremity of Timbered Islet, approximately latitude 55°41'46" N., longitude 133°48'01" W.; thence southwest three-quarters south sixteen and five-eighths miles to a point approximately latitude 55°34'46" N., longitude 134°14'40" W.; thence southeast by south twelve and one-half miles to a point approximately latitude 55°22'23" N., longitude 134°12'48" W.; thence northeast thirteen and seven-eighths miles to the southern extremity of Cape Addington, Noyes Island, latitude 55° 26'11" N., longitude 133°49'12" W.; and to the point of origin on Cape Ulitka. The boundary lines herein indicated shall be determined from Chart 8157, as published by the United States Coast and Geodetic Survey at Washington, D. C., in June, 1929, and Chart 8152, as published by the United States Coast and Geodetic Survey at Washington, D. C., in March, 1933, and reissued March, 1939, except for the point of Cape Addington which shall be determined from Chart 8158, as published by the United States Coast and Geodetic Survey in December, 1923, provided that the duly authorized officers of the United States of America may at any time place a plainly visible mark or marks at any point or points as nearly as practicable on the boundary line defined herein, and such mark or marks shall thereafter be considered as correctly defining said boundary.

(c) Second, that area lying in the waters off the northern coast of Graham Island, British Columbia, within the following boundary, and including the waters of Sturgess Bay, Masset Sound, Masset Inlet, and bays and inlets thereof: From the northwest extremity of Wiah Point, latitude 54°06'50" N., longitude 132°19'18" W., true north five and one-half miles to a point approximately latitude 54°12'20" N., longitude 132°19' 18" W.; thence true east approximately sixteen and three-tenths miles to a point which shall lie northwest (according to magnetic compass at any time) of the highest point of Tow Hill, Graham Island, latitude 54°04'24" N., longitude 131°48'00" W.; thence southeast to the said highest point of Tow Hill. The points on the shoreline of the above mentioned island shall be determined from Chart 3754, published at the Admiralty, London, April 11, 1911, provided that the duly authorized officers of Canada may at any time place a plainly visible mark or marks at any point or points as nearly as practicable on the boundary line defined herein, and such marks shall thereafter be considered as correctly defining said boundary.

§ 301.12 *Dory gear prohibited.* The use of any hand gurdy or other appliance in hauling halibut gear by hand power in any dory or small boat operated from a vessel licensed under the provisions of this part is prohibited in all convention waters.

§ 301.13 *Nets prohibited.* (a) It is prohibited to retain halibut taken in Areas 1A, 1B, 2, 3A and in Area 3B exclusive of that part known as Bering Sea with a net of any kind or to have in possession any halibut in said areas while using any net or nets other than bait nets for the capture of other species of fish, nor shall any license or permit validated for said areas under this part be valid during the use or possession on board of any net or nets other than bait nets, provided that the character and the use of said bait nets conform to the laws and regulations of the country where they may be utilized and that said bait nets are utilized for no other purpose than the capture of bait for said vessel.

(b) It is prohibited to retain halibut taken in that part of Area 3B known as Bering Sea with any net which does not have a cod end or fish bag of webbing whose dry stretched mesh measures 12 inches or more between knots or hog rings, nor shall any license or permit held by any vessel fishing for crabs in that part of Area 3B known as Bering Sea be valid for the possession of halibut during the use or possession on board of any net which does not have a cod end or fish bag of webbing whose dry stretched mesh measures 12 inches or more between knots or hog rings.

§ 301.14 *Retention of tagged halibut.* Nothing contained in this part shall prohibit any vessel at any time from retaining and landing any halibut which bears a Commission tag at the time of capture, provided that such halibut with the tag still attached is reported at the time of landing to representatives of the Commission or to enforcement officers of the Governments of Canada or the United States and is made available to them for examination.

§ 301.15 *Responsibility of master.* Wherever in this part any duty is laid upon any vessel, it shall be the personal responsibility of the master or operator of said vessel to see that said duty is performed and he shall personally be responsible for the performance of said duty. This provision shall not be construed to relieve any member of the crew of any responsibility with which he would otherwise be chargeable.

§ 301.16 *Supervision of unloading and weighing.* The unloading and weighing of the halibut of any vessel licensed under this part and the unloading and weighing of halibut and other species of any vessel holding a permit under this part shall be under such supervision as the customs or other authorized officer may deem advisable in order to assure the fulfillment of the provisions of this part.

§ 301.17 *Previous regulations superseded.* The regulations in this part shall supersede all previous regulations adopted pursuant to the Convention between Canada and the United States of America for the preservation of the halibut fishery of the Northern Pacific Ocean and Bering Sea, signed January 29, 1937, except as to offenses occurring prior to the approval of this part. The regulations in this part shall be effective as to each succeeding year, with the dates herein specified changed accordingly, until superseded by subsequently approved regulations. Any determination made by the Commission pursuant to this part shall become effective immediately.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 949]

[Docket No. AO 232-A3]

MILK IN THE SAN ANTONIO, TEXAS MARKETING AREA

PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED, REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in Room 215, U. S. Post Office and Court House, San Antonio, Texas, beginning at 10:00 a. m., c. s. t., April 26, 1954, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth, or appropriate modification thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the San Antonio, Texas marketing area. These proposed amendments have not received the approval of the Secretary of Agriculture.

Amendments to the order, as amended, regulating the handling of milk in the San Antonio, Texas, marketing area were proposed, as enumerated below:

By Producers Association of San Antonio Incorporated:

1. Amend the allocations and pooling procedures of Order No. 49 for a limited period to preclude the allocations of other source milk which is not subject to pool payment, to Class I utilization to the extent that producer milk is available on a market-wide basis to supply such sale, for the purpose of providing uniform class prices among all handlers; or

2. Amend Order No. 49 for a limited period to require a payment to the market-wide pool by handlers who receive other source milk from other Federal regulated markets which have a Class I price less than that provided by Order No. 49 at a rate equal to the difference between such Class I prices and to the extent that producer milk is available on a market-wide basis to supply such sale, for the purpose of providing uniform class prices among all handlers;

3. Delete from § 949.51 (d) the following: "The provision of this paragraph shall operate only to the extent that the difference between the Class I price pursuant to the order, as amended, regulating the handling of milk in the North Texas marketing area (Part 943 of this chapter) and the Class I price pursuant to this section shall not be greater than 50 cents."

By the Dairy Branch:

4. Make such other changes as may be required to make the entire order conform with any amendments thereto which may result from this hearing.

Copies of this notice of hearing and of the order now in effect may be procured from the Market Administrator, 1204 North Main Avenue, San Antonio 2, Texas, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be inspected there.

Dated: April 19, 1954, at Washington, D. C.

[SEAL] GEORGE A. DICE,
Acting Deputy Administrator.

Commodity Stabilization Service

[7 CFR Part 722]

1954 CROP OF UPLAND COTTON

NOTICE OF PROPOSED FORMULATION OF MARKETING QUOTA REGULATIONS

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301-1376), the Secretary of Agriculture is preparing to formulate marketing quota regulations governing the identification and measurement of farms; the amount, adjustment, and review of the farm marketing quota and farm marketing excess; the issuance of marketing cards and certificates; the identification of cotton which is marketed as being subject to or not subject to the penalty and lien for the penalty; the rate of the penalty and the manner in which penalties shall be paid by producers and buyers; the refunding of penalty overpayments; the records and reports required to be made by cotton producers, ginners, buyers and others; and other miscellaneous provisions regarding the production and marketing of cotton. The proposed regulations will apply to cotton produced in 1954 and also to cotton produced in a prior year which is marketed during the 1954-55 marketing year. The proposed regulations will supplement the Marketing Quota Regulations Relating to Apportionment of the National Acreage Allotment for the 1954 Crop of Upland Cotton to States, Counties and Farms, issued November 26, 1953 (18 F. R. 7441), as amended.

The provisions of the regulations being considered for issuance are as follows:

DEFINITIONS AND MISCELLANEOUS PROVISIONS

§ 722.542 *Definitions.* As used in §§ 722.542 to 722.586 and in all forms and documents in connection therewith, unless the context or subject matter otherwise requires, the following terms shall have the following meanings and the masculine shall include the feminine and neuter genders and the singular shall include the plural number:

(a) "Act" means the Agricultural Adjustment Act of 1938 and any amendments thereto heretofore or hereafter made.

(b) "Secretary" means the Secretary of Agriculture of the United States, or the officer of the Department acting in his stead pursuant to delegated authority.

(e) "Deputy Administrator" means the Deputy Administrator for Production Adjustment, or Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(d) "Director" means the Director, or Acting Director, of the Cotton Division, Commodity Stabilization Service, United States Department of Agriculture.

(e) "Committees": (1) "Community committee" means the persons elected within a community as the community committee pursuant to the Secretary's regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees (14 F. R. 5916).

(2) "County committee" means the persons elected within a county as the county committee pursuant to the Secretary's regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees (14 F. R. 5916).

(3) "State committee" means the persons designated by the Secretary as the Agricultural Stabilization and Conservation committee for the State.

(4) "Review committee" means the review committee appointed by the Secretary pursuant to section 363 of the act.

(f) "Person" means an individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or other legal entity, or a State, political subdivision of a State, the Federal Government, or any agency thereof. The term "person" shall include two or more persons having a joint or common interest.

(g) "Owner" or "landlord" means a person who owns farm land and rents such land to another person or who operates such land.

(h) "Cash tenant", "standing-rent tenant", or "fixed-rent tenant" means a person who rents land from another for a fixed amount of cash or a commodity to be paid as rent.

(i) "Share tenant" means a person other than a sharecropper who rents land from another person and pays as rent a share of the crops or the proceeds thereof.

(j) "Sharecropper" means a person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of the crops produced thereon or the proceeds thereof.

(k) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(l) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or range land which the county committee, in accordance with instructions issued by the Deputy Administrator, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county or administrative area, as the case may be, in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county or administrative area, as the case may be, in which the major portion of the farm is located.

(m) "Farm acreage allotment" means a cotton acreage allotment established for a farm under the Marketing Quota Regulations Relating to Apportionment of the National Acreage Allotment for the 1954 Crop of Upland Cotton to States, Counties and Farms (18 F. R. 7441), as amended.

(n) "Upland cotton" (referred to in §§ 722.542 to 732.586 as "cotton") means any cotton other than extra long staple cotton.

(o) "Extra long staple cotton" means American-Egyptian, Sea Island, and Sealand cotton, and all other varieties of the Barbadense species, and any hybrid thereof, and any other cotton in which one or more of these varieties predominates.

(p) "Acreage planted to cotton" means the acreage of land seeded to cotton on the farm in 1954, excluding any acreage in excess of the allotment which is (1) destroyed by causes beyond the producer's control prior to the expiration of the period established under subparagraph (2) of this paragraph for disposing of excess cotton acreage, or (2) disposed of not later than 20 days, or such longer period as is approved in writing by the county committee, after notice of the measured cotton acreage is mailed to the farm operator.

(q) "State and county code number" means the applicable numbers assigned by the Commodity Stabilization Service of the United States Department of Agriculture to each State and county for the purpose of identification.

(r) "Serial number of the farm" or "farm serial number" means the serial number assigned to the farm by the county committee.

(s) "Normal yield" means the average yield per acre of lint cotton for the farm, adjusted for abnormal weather conditions, during the five calendar years 1948, 1950, 1951, 1952 and 1953 except that if the normal yield is established after December 31, 1954, such normal yield shall be determined on the basis of the five calendar years immediately preceding the year in which such normal yield is determined. If for any such year the data are not available or there was no actual yield, then the normal yield for the farm shall be appraised, in accordance with instructions issued by the Deputy Administrator, taking into consideration abnormal weather conditions, the normal yield for the county, and the yield in years for which data are available.

(t) "Normal production" of any number of acres means the normal yield per acre of lint cotton for the farm multiplied by such number of acres.

(u) "Actual production" of cotton on the farm means the total number of pounds of lint cotton determined to have been produced on the farm in 1954.

(v) "Actual yield" per acre means the number of pounds of lint cotton determined by dividing the actual production of cotton on the farm by the acreage planted to cotton on the farm in 1954.

(w) "Producer" means a person who, as owner or landlord (other than the landlord of a standing-rent tenant, fixed-rent tenant, or cash tenant), cash tenant, standing-rent tenant, fixed-rent tenant, share tenant, or sharecropper, is entitled to all or a share of the 1954 crop of cotton or of the proceeds thereof.

(x) "Farm marketing quota" means a cotton marketing quota established under the Act for the farm for the 1954 crop of cotton.

(y) "Farm marketing excess" means the amount of cotton determined for any farm under § 722.550 or § 722.552, whichever is applicable.

(z) "Farm with no farm marketing excess" means a farm on which the acreage planted to cotton in 1954 is not in excess of the farm acreage allotment established therefor.

(aa) "Farm with a farm marketing excess" means a farm on which the acreage planted to cotton in 1954 is in excess of the farm acreage allotment established therefor.

(bb) "Penalty" means the penalty provided in section 346 (a) of the act and § 722.566.

(cc) "Seed cotton" means the harvested fruit of the cotton plant before ginning.

(dd) "Lint cotton" means the fiber taken from seed cotton by ginning.

(ee) "Carry-over cotton" means the unmarketed cotton from any previous crop which the producer thereof has on hand.

(ff) "Ginning" means the process by which lint cotton is removed from the cotton seed.

(gg) "Ginner" means a person engaged in the business of ginning cotton.

(hh) "Gin bale number or mark" means the number entered on the bale tag or any other mark made or used by the ginner to identify a bale of cotton.

(ii) "Warehouse receipt number" means the number on the warehouse receipt and the warehouse bale tag made or used by the warehouseman to identify a bale of cotton.

(jj) "Buyer" means a person who acquires cotton from a producer by sale.

(kk) "Transferee" means a person who receives cotton from a producer by barter, or exchange, or gift inter vivos.

(ll) "Market" means to dispose of cotton in raw or processed form by voluntary or involuntary sale, barter or exchange, or by gift inter vivos.

(1) The term "sale" means any transfer of title to cotton by a producer to another by any means other than barter or exchange or gift inter vivos.

(2) The terms "barter" and "exchange" means transfer of title to cotton by a producer to another in return for cotton or any other commodity, service, or property in cases where the value of the cotton or such other commodity, service, or property is not considered in terms of money, or the transfer of title to cotton by a producer to another in payment of a fixed rental or other charge for land.

(3) The term "gift inter vivos" means any transfer of title, accompanied by delivery, to cotton by a producer to another which takes effect immediately and irrevocably and is made without any consideration or compensation therefor.

(4) "Marketed", "marketing", and "for market" shall have corresponding meanings to the term "market" in the connection in which they are used.

(mm) "Marketing year" means the period beginning August 1, 1954, and ending July 31, 1955, both dates inclusive.

(nn) "Treasurer of county committee" means the county office manager or the person designated by him to act as treasurer of the Agricultural Stabilization and Conservation county committee.

§ 722.543 *Issuance of forms and instructions.* The Director shall cause to be prepared such forms and instructions as are necessary for carrying out §§ 722.542 to 722.586. The forms shall be issued by the Director with the approval of the Deputy Administrator, and the instructions shall be issued by the Deputy Administrator. Copies of such forms and instructions shall be furnished free to persons needing them upon request made to the office of the State or county committee or the Director.

§ 722.544 *Extent of calculations and rule of fractions.* In making any computation in connection with §§ 722.542 to 722.586, the amount of lint cotton shall be rounded to the nearest whole pound and the amount of penalties or refunds shall be rounded to the nearest whole cent. Fractions of exactly five-tenths of a pound or cent shall be dropped. The acreages of all fields, or subdivisions thereof, of cotton on the farm shall be expressed in hundredths of an acre, and thousandths of an acre shall be dropped. The total acreage of cotton on the farm shall be expressed in tenths of an acre, and hundredths of an acre shall be dropped.

IDENTIFICATION AND MEASUREMENT OF FARMS

§ 722.545 *Identification of farms.* Each farm as operated for the 1954 crop of cotton shall be identified by a farm serial number, assigned by the county committee, and all records pertaining to marketing quotas for the 1954 crop of cotton shall be identified by the farm serial number.

§ 722.546 *Measurements of farms.* The county committee shall provide for measuring the acreage planted to cotton on each farm in the county in accordance with the procedure approved by the Deputy Administrator. The county committee shall provide for the measurement prior to planting of an acreage on the farm equal to the farm acreage allotment, if the farm operator requests such measurement and pays the cost thereof, and any farm on which the acreage planted to cotton does not exceed such measured acreage shall be deemed to be in compliance with the farm acreage allotment. The county committee shall also provide for the remeasurement upon request by the farm operator of the acreage planted to cotton on the farm but the operator shall be required to reimburse the county committee for the expense of such remeasurement if the planted acreage is found upon such remeasurement to be in excess of the farm acreage allotment. If the acreage planted to cotton on the farm is in excess of the farm acreage allotment, the county committee shall notify the farm operator by mail of such excess and shall further notify such operator that unless the planted acreage of cotton on the farm is adjusted to the farm acreage allotment within 20 days from the date of the mailing of such notice, or such additional time as provided for herein, the farm marketing excess for the farm will be determined on the basis of the excess acreage and the farm normal yield. Notice so given shall constitute notice to each producer having an interest in the 1954 cotton crop produced on the farm. In cases where the operator cannot dispose of the excess cotton acreage within the 20-day period because of adverse weather conditions, or other reasons beyond his control, and a request in writing for additional time is filed, the county committee may allow an additional period not to exceed 10 days for disposing of the excess acreage. No cotton acreage shall be disposed of for purposes of adjusting the planted acreage of cotton to the farm acreage allotment after any cotton has been harvested from such planted acreage.

§ 722.547 *Reports and records of farm measurements.* The county committee shall keep a record of the measurements made on all farms. It shall file with the State committee a written report on Form MQ-94—Cotton, setting forth for each farm with a farm marketing excess (a) the farm serial number, (b) the name of the operator, (c) the total acreage in cultivation, (d) the farm acreage allotment, and (e) the acreage planted to cotton in 1954.

FARM MARKETING QUOTA AND FARM MARKETING EXCESS

§ 722.548 *Marketing quotas in effect.* Marketing quotas for the 1954 crop of cotton shall be applicable to any cotton of that crop notwithstanding that it may be available for marketing prior to the beginning of the marketing year or marketed subsequent to the end of the marketing year.

§ 722.549 *Farm marketing quota.* The farm marketing quota for any farm for the 1954 crop of cotton shall be that number of pounds of lint cotton produced on the farm less the amount of the farm marketing excess for the farm. The farm marketing quota for any farm shall be increased by the amount of lint cotton which the producers on the farm have on hand from any previous crops except cotton of the 1950 crop on which the penalty has not been paid.

§ 722.550 *Farm marketing excess—*

(a) *Where measurements are made.* The farm marketing excess for the 1954 crop of cotton for any farm shall be the normal production of the acreage planted to cotton on the farm in excess of the farm acreage allotment. Where, upon application of the producer in accordance with § 722.552, it is established by the producer that the normal production of the excess acreage is larger than the amount by which the actual production of cotton in 1954 on the farm exceeds the normal production of the farm acreage allotment, the farm marketing excess shall be adjusted downward to the smaller amount.

(b) *Where measurements cannot be made.* Whenever the producer prevents the determination of the acreage planted to cotton on his farm, the farm marketing excess shall be the total number of pounds of lint cotton produced in 1954 on the farm. In the event the producer establishes, in accordance with § 722.552, the total number of pounds of lint cotton produced in 1954 on the farm, the farm marketing excess shall be the number of pounds of lint cotton produced on the farm in excess of the normal production of the farm acreage allotment therefor.

(c) *Where no farm acreage allotment is established.* The farm marketing excess for any farm for which a farm acreage allotment is not established shall be the normal production of the acreage planted to cotton on the farm. Where, upon application of the producer in accordance with § 722.552, it is established by the producer that the normal production of the acreage planted to cotton on the farm is larger than the actual production of cotton on the farm in 1954, the farm marketing excess shall be adjusted downward to the smaller amount. Whenever the determination of the acreage planted to cotton on a farm for which no farm acreage allotment is established is prevented by the producer, the farm marketing excess shall be the total number of pounds of lint cotton produced in 1954 on the farm.

§ 722.551 *Notice of farm marketing quota and farm marketing excess.* Written notice of the farm marketing quota established for a farm shall be mailed to the operator of such farm. Written notice of the farm marketing excess for a farm shall be mailed to the operator of such farm. Notice so given shall constitute notice to each producer having an interest in the 1954 cotton crop produced or to be produced on the farm. Each notice shall contain a brief statement of the procedure whereby application for a review of the farm marketing quota or farm marketing excess, or any determination made in connection therewith, may be had in accordance with section 363 of the act. A record of the date of mailing the notice to the operator of the farm shall be kept among the permanent records of the county committee and upon request a copy of the notice shall be furnished without charge to any producer on the farm for which the notice is given. Such notice shall contain the information necessary in each case to inform the producer as to

the basis for the determinations set forth in the notice and the effect thereof.

§ 722.552 *Farm marketing excess adjustment—(a) Adjustment in the amount of the farm marketing excess.* Any producer having an interest in the cotton produced in 1954 on any farm for which there is a farm marketing excess may apply in writing to the county committee, as provided herein, for a downward adjustment in the amount of the farm marketing excess on the basis of the amount of cotton produced in 1954 on the farm. Any such application shall be filed with the county committee within 30 days after the harvesting of cotton is completed on the farm, or any extension of such time approved by the State committee to not later than March 15, 1955, on the basis of a recommendation by the county committee that the producer's failure to apply for such adjustment within the 30-day period was due to circumstances beyond his control. If the harvesting of cotton on the farm has not been completed by March 15, 1955, but an application has been timely filed under the foregoing provisions of this paragraph, the producer may request the county committee to provide for an estimate to be made of the amount of unharvested cotton on the farm in order that a final determination of the actual production on the farm in 1954 may be made. The county committee shall keep a record of each application so made and the date thereof. The county committee shall establish a time and place at which each application will be considered and shall notify the applicant of the time and place of the hearing. Insofar as practicable, applications shall be considered in the order in which made. Unless application for an adjustment in the farm marketing excess is made within such 30-day period or extension thereof, the farm marketing excess as determined on the basis of the normal production of the excess cotton acreage for the farm shall be final as to the producers on the farm.

(b) *Procedure in connection with an application for an adjustment in the farm marketing excess.* The county committe shall consider each application on the basis of facts known by or made available to it and on the basis of such evidence as may be presented to it by the applicant. The actual production of cotton of any farm shall be determined in view of the relevant facts, including the past production on the farm, the actual yields per acre in 1954 for other farms in the community which are similar with regard to farming practices followed, type of soil, and productivity; the harvesting, ginning, and sales of the cotton produced on the farm; farming practices followed on the farm; and weather conditions and other factors affecting the production of cotton on the farm and in the locality in which the farm is situated. In the consideration of any application for an adjustment in the farm marketing excess, the producer shall have the burden of proof. The evidence presented by the applicant may be in the form of written statements or other documentary evidence or of oral testimony in a hearing before the county committee during its consideration of the application. In order to expedite the consideration of applications, the county committee shall receive, in advance of the time fixed for consideration of the application, any written statement or documentary evidence offered by or on behalf of the applicant, and the application may be disposed of upon the basis of such statement or evidence, together with other information bearing on or establishing the facts, which is available to the county committee, unless the applicant appears before the county committee at the time fixed for considering the application and requests a hearing for the purpose of offering documentary evidence or oral testimony in support of the application. Every such hearing shall be open to the public. The county committee shall make its determination in connection with each application not later than five calendar days next succeeding the day on which the consideration of the application was concluded. The determination of the county committee shall be in writing and shall contain (1) a concise statement of the grounds upon which the applicant sought an adjustment in the amount of the farm marketing excess, (2) a concise statement of the findings of the county committee upon the questions of fact, and (3) the determination of the county committee as to the farm marketing quota and the farm marketing excess. A notice showing the result of the determination made as aforesaid, shall be mailed or delivered to the operator of the farm and also to the applicant if he is not such operator.

§ 722.553. *Publication of the farm acreage allotment, normal yield, marketing quota, and marketing excess.* A record of the acreage allotment, normal yield, marketing quota, and marketing excess established for farms in the county shall be made available for public inspection in the office of the county committee for a period of not less than 30 calendar days. The records containing the information shall be kept where the public may freely examine them. At the end of the 30-day period the records shall be filed in the office of the county committee and remain available for further inspection upon request. There may be used for this purpose listing sheets, copies of notices, or other compilations upon which the pertinent data are shown.

§ 722.554 *Marketing quotas not transferable.* A farm marketing quota established for a farm may not be assigned or otherwise transferred in whole or in part to any other farm.

§ 722.555 *Successors-in-interest.* Any person who succeeds to the interest of a producer in a farm or in a cotton crop produced on a farm, for which a farm marketing quota and a farm marketing excess were established, shall, to the same extent as his predecessor, be entitled to all the rights and privileges incident to such marketing quota and marketing excess and be subject to the penalty on the farm marketing excess and to the lien on the entire crop of cotton and to the restrictions on the marketing of cotton.

§ 722.556 *Review of quotas—(a) Right to review by review committee.* Any producer on a farm with a farm marketing excess who is dissatisfied with the determination of (1) the acreage planted to cotton, (2) the normal yield, or (3) the actual yield may, within 15 days after the notice of the farm marketing excess is mailed to him, apply in writing for a review by a review committee of any such determination. Unless application for review is made within such period, such determinations shall be final as to the producers on such farm. Application for review and the review committee proceedings shall be in accordance with the review regulations (MQ–51; §§ 711.1 to 711.34 of this chapter), as issued and revised by the Secretary.

(b) *Court review.* If the producer is dissatisfied with the determination of the review committee, he may, within 15 days after notice of such determination is mailed to him by registered mail, institute proceedings against the review committee to have the determination of the review committee reviewed by a court in accordance with section 365 of the act.

MARKETING CARDS, MARKETING CERTIFICATES AND LOAN DOCUMENTS

§ 722.557 *Eligibility for and issuance of marketing cards—(a) Producers eligible to receive marketing cards.* Except as otherwise provided in this section, the operator and any other producer on a farm shall be eligible to receive a marketing card (Form MQ–76—Cotton (1954) Upland), if (1) no farm marketing excess is determined for the farm, or (2) an amount equal to the penalty on the farm marketing excess has been received by the treasurer of the county committee for the county in which the farm is located, except that a marketing card shall not be issued under subparagraph (1) or (2) of this paragraph if any producer on the farm has on hand any cotton produced in 1950 on which the penalty has not been paid.

(b) *Multiple farm producers eligible to receive marketing cards.* Any person who is a cotton producer on more than one farm in a county shall not be eligible to receive a marketing card for any such farm in the county until, in accordance with the provisions of paragraph (a) of this section, he is eligible to receive a marketing card for each of such farms. Any other producers on a farm who are eligible to receive marketing cards pursuant to paragraph (a) of this section shall receive marketing cards with respect to the farm notwithstanding the ineligibility of the multiple farm producer, unless the county committee determines that, in order to enforce the provisions of the act, such producers, including the multiple farm producer, should not receive marketing cards for such farm with no farm marketing excess. Where a producer is engaged in the production of cotton in more than one county (in the same State or two more States), the procedure outlined in this section for issuing marketing cards for multiple farms in a county may be followed with respect to all such farms, wherever situated, if the county committees of the respective counties so decide, or if the State committee has reason to believe that the procedure would be necessary to enforce the provisions of the act. The State committee may require any multiple farm producer to file with it a list of all farms on which he is engaged in the production of cotton, together with any other information deemed necessary to enforce the provisions of the act.

(c) *Producers to whom marketing cards will not be issued to enforce the provisions of the act.* Notwithstanding any other provisions of this section, the county committee shall deny any producer a marketing card if it determines that such action is necessary to enforce the provisions of the act.

(d) *Preparation and issuance of marketing cards.* A marketing card shall be issued to the operator of the farm if he is eligible to receive it under the foregoing provisions of this section and, if the county committee determines that it will serve a useful purpose, marketing cards shall also be issued to the other eligible producers on the farm. Each marketing card when completed shall be serially numbered and shall show: (1) The names of the county and State and the serial number of the farm, (2) the name and address of the farm operator, (3) the name and address of the producer to whom issued, (4) the signature of the issuing officer designated by the county committee and the signature of the producer, (5) the farm acreage allotment and the acreage planted to cotton, and (6) such additional information and data as may be prescribed by the Deputy Administrator. Where the producer designates an agent to use his marketing card, the card shall also show: (1) The name and address of the agent authorized to use the marketing card and (2) the signatures of the producer and the agent.

§ 722.558 *Marketing certificates and loan documents—(a) Use of marketing certificates.* The county committee shall issue to a producer upon his request a marketing certificate (Form MQ–91—Cotton) to permit the marketing of cotton (1) by any such producer (i) who is eligible to receive a marketing card and who desires to market cotton by telegraph, telephone, mail, or by any other means or method other than directly to and in the presence of the buyer or transferee; (ii) who is not engaged in the production of cotton in the 1954 crop year and who desires to market cotton which he has on hand from any prior crop, except cotton from the 1950 crop on which the penalty has not been paid; (iii) who has an interest as a cotton producer and who desires to market cotton which he has on hand from any prior crop, except cotton from the 1950 crop on which the penalty has not been paid; (iv) who desires to market cotton produced by him on a farm with no farm marketing excess but he is not eligible to receive a marketing card under § 722.557 (b) because he or another producer on such farm is also a cotton producer on a farm with a farm marketing excess; and (v) who desires to market his share of the cotton produced on a farm with no marketing excess or on a farm on which the penalty on the farm marketing excess has been paid but he was denied a marketing card by the county committee because it deemed such action necessary to enforce the provisions of the act, and (2) any other producer who has cotton not subject to the penalty or on which the penalty has been paid but such producer is not eligible to receive a marketing card or does not have the required loan documents. The county committee, with the approval of the State committee, may issue marketing certificates for a farm in a total amount for the 1954 crop not exceeding the product of the farm acreage allotment multiplied by the smaller of the normal yield per acre or the estimated actual yield per acre, in instances where the acreage planted to cotton on the farm in 1954 has not been determined through no fault of the operator and the operator, in applying for such certificates, certifies that he has cotton from the 1954 crop available for marketing and that to the best of his knowledge and belief the acreage planted to cotton on the farm does not exceed the farm cotton acreage allotment.

(b) *Preparation and delivery of marketing certificates.* Each marketing certificate shall show (1) the name and address of the producer to whom issued, (2) the names of the county and State and the serial number of the farm, if any, (3) the serial number of the 1954 marketing card issued for the farm, where applicable, (4) the description and amount of the cotton to be marketed, (5) the signature of the producer and the date thereof, and (6) the signature of the issuing officer for the county committee or the signature of a member of the county committee and the date thereof. The "original" of the marketing certificate and the "producer's" and the "county office's" copies shall be delivered to the producer to whom the marketing certificate is issued, and such producer, upon marketing the cotton described in the marketing certificate, shall deliver the original and the copies to the buyer.

(c) *Use of loan documents in lieu of marketing certificates to identify CCC loan cotton.* Any producer who desires to sell his equity in carryover cotton which is pledged as collateral security for a Commodity Credit Corporation loan or to sell carryover cotton on which such a loan has been repaid may identify such cotton as being penalty free by presenting to the buyer thereof such CCC loan documents covering such cotton as may be prescribed by the Deputy Administrator, and the buyer shall accept such documents as evidence to him that the cotton described therein is not subject to the penalty or the lien for the penalty.

§ 722.559 *Lost, destroyed, or stolen marketing cards or certificates—(a) Report of loss, destruction, or theft.* In case a marketing card or marketing certificate delivered to a producer is lost, destroyed, or stolen, any person having knowledge thereof shall, insofar as he is able, immediately notify the county committee of the following: (1) The name of the producer to whom the marketing card or certificate was issued; (2) the serial number of the marketing card or certificate; and (3) whether in his knowledge or judgment it was lost, destroyed, or stolen and by whom.

(b) *Investigation and findings of county committee.* The county committee shall make or cause to be made a thorough investigation of the circumstances of such loss, destruction, or theft. If the county committee finds, on the basis of the investigation, that such marketing card or marketing certificate was in fact lost, destroyed, or stolen, it shall cancel such marketing card or certificate by giving notice to the producer to whom the card or certificate was issued that it is void and of no effect. The notice to that effect shall be in writing and mailed to the producer at his last known address. If the county committee also finds that there has been no collusion or connivance in connection therewith on the part of the producer to or for whom the marketing card or certificate was issued, it shall issue to or for him a marketing card or certificate to replace the lost, destroyed, or stolen marketing card or certificate. Each marketing card or certificate issued under this section shall bear across its face in bold letters the word "Duplicate." In case a marketing card or certificate is canceled, as provided in this section, the county committee shall immediately notify the ginners and buyers in the county, or in the immediate vicinity, that the marketing card or certificate has been canceled and that a duplicate has been issued. A report of the findings and action of the county committee shall be kept among its records. Any ginner or buyer or any other person coming into possession or control of a marketing card or certificate which has been canceled shall immediately return it to the county committee which issued it.

§ 722.560 *Cancellation of marketing card and marketing certificates issued in error.* In the event any marketing card or marketing certificate was erroneously issued, the producer to whom it was issued shall be requested to return it to the county committee and upon its being returned it shall be canceled by the county committee by endorsing thereon in bold letters the word "Canceled." Without awaiting its return the county committee shall notify the producer by registered mail at his last known address that it is void and of no effect. A copy of the notice, containing a notation thereon of the date of mailing, shall be kept among the records of the county committee. The county committee shall immediately notify the ginners and buyers in the county, or in the immediate vicinity, that the marketing card or certificate has been canceled.

IDENTIFICATION OF COTTON

§ 722.561 *Time and manner of identification.* Each producer of cotton shall, at the time he markets any cotton, identify the cotton to the buyer or transferee, in the manner hereinafter provided, as being subject to or not subject to the penalty provided in § 722.566 and

the lien for the penalty as provided in § 722.567.

§ 722.562 *Identification by marketing card.* A marketing card (Form MQ–76—Cotton (1954) Upland) shall, when presented to the buyer by the producer to whom issued, be evidence to the buyer that the cotton produced on the farm for which the marketing cards was issued may be purchased by him without collection, deduction, or payment of any penalty, and that such cotton is not subject to the lien for the penalty.

§ 722.563 *Identification by marketing certificate.* A marketing certificate (Form MQ–91—Cotton) shall, when presented to the buyer by the producer to whom it was issued, be evidence to the buyer that the cotton described on the marketing certificate may be purchased by him without the collection, deduction, or payment of any penalty, and that such cotton is not subject to the lien for the penalty.

§ 722.564 *Identification by loan document.* A loan document (as prescribed by the Deputy Administrator) shall, when presented to the buyer by the producer in whose favor it is drawn, be evidence to the buyer that the cotton described in such loan document may be purchased by him without the collection, deduction, or payment of any penalty, and that such cotton is not subject to the lien for the penalty.

§ 722.565. *Cotton not identified by a marketing card, marketing certificate or loan document.* All cotton marketed by a producer which is not identified by a marketing card, marketing certificate, or loan document, as provided in §§ 722.562, 722.563, or § 722.564 shall be taken by the buyer or transferee thereof as cotton subject to the penalty and the lien for the penalty. The buyer or transferee of such unidentified cotton shall collect the penalty from the producer or deduct it from the purchase price of the cotton. The buyer or transferee shall report the purchase of all such unidentified cotton on Form MQ–82—Cotton and remit the penalty collected or deducted to the treasurer of the county committee.

PENALTY

§ 722.566 *Rate of penalty.* The rate of the penalty for cotton is 50 percent of the parity price for cotton as of June 15, 1954, as provided in section 346 (a) of the act. (This section will be amended to include the exact rate of the penalty when such parity price becomes available.)

§ 722.567 *Lien for the penalty.* Until the penalty on the farm marketing excess is paid, all cotton produced on a farm and marketed shall be subject to the penalty at the rate provided in § 722.566 and a lien on the entire crop of cotton produced on the farm in 1954 shall be in effect in favor of the United States.

§ 722.568 *Interest on unremitted penalty.* The person liable for the payment or collection of the penalty shall be liable also for interest on the amount of penalty which is not remitted in accordance with § 722.569 (b) or § 723.570 (c), as the case may be, at the rate of 6 percent per annum from the final date for remitting the penalty until the date such penalty is remitted. The computation of interest on any penalty due shall be made beginning with the day following the final date for remitting the penalty.

§ 722.569 *Payment of penalty by producers*—(a) *Producers liable for payment of penalty.* Each producer having an interest in the 1954 crop of cotton on any farm for which a farm marketing excess has been determined shall be liable to pay the entire amount of the penalty on the farm marketing excess. The amount of the penalty which any producer shall pay shall nevertheless be reduced by the amount of the penalty which is paid by another producer or a buyer of cotton produced on the farm.

(b) *Time when penalty becomes due and payable.* The farm marketing excess for any farm shall be regarded as available for marketing and the penalty thereon shall become due at the time any cotton produced on the farm is harvested. The amount of the penalty on the farm marketing excess for any farm shall be remitted on the date it becomes due or not later than March 15, 1955: *Provided, however,* That the penalty on any bale or lot of cotton marketed (1) from a farm for which the penalty on the farm marketing excess has not been paid or (2) without being properly identified by a marketing card, marketing certificate, or loan document (as prescribed by the Deputy Administrator) shall be due on the date of such marketing and shall be remitted not later than seven calendar days next succeeding the end of the calendar week in which the cotton was marketed.

(c) *Apportionment of the penalty.* The county committee may, upon application of any producer made prior to the expiration of the time allowed for remitting the penalty on the farm marketing excess, determine his proportionate share of the penalty on the farm marketing excess if, pursuant to the application, the producer establishes that he is unable to arrange with other producers on the farm for the payment of the penalty on the entire farm marketing excess; that his share of the cotton crop produced on the farm is marketed by him separately; and that he exercises no control over the marketing of the shares of the other producers in the cotton crop. The producer's proportionate share of the penalty on the farm marketing excess shall be that proportion of the entire penalty on the farm marketing excess which his share in the cotton produced in 1954 on the farm bears to the total amount of cotton produced in 1954 on the farm. When the producer pays his proportionate share of the penalty, he shall not be liable for the remainder of the penalty on the farm marketing excess and he shall be entitled to receive a marketing certificate, issued in accordance with § 722.558, to be used by him only in the marketing of his proportionate share of the cotton crop produced in 1954 on the farm.

§ 722.570 *Payment of penalty by buyers*—(a) *Buyers liable for payment of penalty.* Each person within the United States who buys from the producer any cotton subject to the lien for the penalty shall be liable for and shall pay the penalty thereon. Cotton shall be taken as subject to the lien for the penalty unless the producer presents to the buyer a marketing card (Form MQ–76—Cotton (1954) Upland), a marketing certificate (Form MQ–91—Cotton), or a loan document, as prescribed in §§ 722.562, 722.563, and 722.564.

(b) *Payment of penalty on account of lien for the penalty.* Each person within the United States who buys or acquires cotton from the producer which is subject to the lien for the penalty shall pay the amount of the penalty on each pound thereof in satisfaction of the lien thereon.

(c) *Time when penalty becomes due.* The penalty to be paid by any buyer pursuant to paragraphs (a) and (b) of this section shall become due at the time the cotton is marketed and shall be remitted not later than 7 calendar days next succeeding the end of the calendar week in which the cotton was marketed. Cotton shall be deemed to be sold when either title to or actual or constructive possession of the cotton is delivered by or on behalf of the producer or any part of the purchase price is paid. Cotton shall be deemed to have been marketed by barter or exchange when it is delivered to the transferee of the cotton by actual or constructive delivery or the transferor has received any part of the property, goods, or services for which the cotton is being bartered or exchanged. Cotton shall be deemed to have been marketed by gift inter vivos when there is an actual or constructive delivery of the cotton to the transferee during the lifetime of the producer. Cotton shall be deemed to have been marketed in processed form when the producer, or some person on his behalf, converts cotton into an article of trade and thereby causes the cotton to lose its identity as seed cotton or lint cotton. An article of trade within the meaning of this provision is any article made in whole or in part from cotton for the purpose of marketing such article.

(d) *Manner of deducting penalty and issuance of receipts.* The buyer may deduct from the price paid for any cotton an amount equivalent to the amount of the penalty to be paid by the buyer pursuant to paragraphs (a) and (b) of this section. Any buyer who deducts an amount equivalent to the penalty shall issue to the person from whom the cotton was purchased a receipt for the amount so deducted which shall be on Form MQ–82—Cotton.

§ 722.571 *Remittance of penalty to the treasurer of the county committee.* The treasurer of the county committee, for and on behalf of the Secretary, shall receive the penalty and issue a receipt therefor to the person remitting the penalty. The penalty shall be remitted only in legal tender, or by check, draft, or money order drawn payable to the order of the Treasurer of the United States. All checks, drafts, or money orders tendered in payment of the penalty shall be received by the treasurer of the county committee subject to collection and payment at par, and the receipt (Form MQ–95—Cotton) issued in connection therewith shall bear a notation to that effect and a description of the check, draft, or money order.

§ 722.572 *Deposit of funds.* All funds received by the treasurer of the county committee in connection with penalties for cotton shall be scheduled and transmitted by him on the day received, or not later than the morning of the next succeeding business day, to the State committee, which, in accordance with applicable instructions, shall cause such funds to be deposited to the credit of the Treasurer of the United States. In the event the funds so received are in the form of cash, the treasurer of the county committee shall deposit such cash in the county committee bank account and a separate check, payable to the Treasurer of the United States in the amount of such cash deposited, shall be drawn on such bank account by the treasurer of the county committee for transmittal to the State committee. The treasurer of the county committee shall make and keep a record of each amount received by him, showing the name of the person who remitted the funds, the identification of the farm or farms in connection with which the funds were received, and the names of the persons who marketed the cotton in connection with which the funds were remitted.

§ 722.573 *Refunds of money in excess of the penalty*—(a) *Determination of refunds.* The county committee and the treasurer of the county committee, upon their own motion or upon the request of any interested person, shall review the amount of money received in connection with the penalty for any farm to determine for each producer the amount thereof, if any, which is in excess of the penalty incurred. The excess amount shall be refunded. Any refund shall be made only to persons who bore the burden of the payment and who have not been reimbursed therefor. The excess sum shall be first applied, insofar as the sum will permit, so as to make refunds to eligible persons other than producers and the remainder, if any, shall be applied so as to make refunds to the eligible producers. The amount to be refunded to each producer shall be either (1) the amount agreed upon in writing by each and every cotton producer on the farm or (2) in the event that such producers cannot agree to the division of such refund or if all of the producers on the farm are not available to apply for such refund, the amount determined by apportioning the excess among all of the producers on the farm on the basis of the amount of the penalty borne by each producer, as determined by the county committee. No refund shall be made to any buyer or transferee of any amount which he collected from the producer, deducted from the price or other consideration for the cotton, or for which he was liable.

(b) *Certification of refunds.* One member of the county committee, acting for the committee, shall notify the State committee of the amount which the county committee determines may be refunded to each producer with respect to the farm, and the State committee shall cause to be certified to the appropriate Disbursing Officer of the Treasury Department for payment such amounts as are approved by it. No refund of money shall be certified under this section unless the money has been collected and transmitted to the State committee.

§ 722.574 *Refund of penalty erroneously, illegally, or wrongfully collected.* Whenever, pursuant to a claim filed with the Secretary within the time prescribed in section 372 of the act after payment to him of the penalty collected from any person, the Secretary finds that the penalty was erroneously, illegally, or wrongfully collected, he shall certify to the Secretary of the Treasury for payment to the claimant, in accordance with regulations prescribed by the Secretary of the Treasury, such amount as the Secretary finds the claimant is entitled to receive as a refund of penalty. Any claim filed pursuant to this section shall be made in accordance with regulations prescribed by the Secretary.

§ 722.575 *Report of violations and court proceedings to collect penalty.* It shall be the duty of the county committee to report in writing to the State committee each case of failure or refusal to pay the penalty or to remit the same as provided in §§ 722.542 to 722.586 to the Secretary when collected. It shall be the duty of the State committee to report each such case in writing to the Director with a view to the institution of proceedings by the United States Attorney for the appropriate district, under the direction of the Attorney General of the United States, to collect the penalties, as provided in section 376 of the act.

RECORDS AND REPORTS

§ 722.576 *Records to be kept and reports to be made by ginners*—(a) *Necessity for records and reports.* Each ginner shall, in conformity with section 373 (a) of the act, keep the records and make the reports the Secretary hereby finds to be necessary to enable him to carry out, with respect to cotton, the provisions of the act.

(b) *Nature and availability of records.* Each ginner shall keep, as part of or in addition to the records maintained by him in the conduct of his business, a record which shall show with respect to each bale of cotton, and each lot of cotton less than a bale, ginned by him the following information: (1) The date of ginning; (2) the name of the operator of the farm on which the cotton was produced; (3) the name of the producer of the cotton; (4) the county and State in which the farm on which the cotton was produced is located; (5) the gin bale number or mark; (6) the serial number of the gin ticket or receipt prepared or issued by the ginner for the bale of cotton and for the lot of cotton less than a bale; (7) the gross weight of each bale of cotton and the net weight of each lot of lint cotton less than a bale; and (8) the kind of the bagging and ties used on each bale. The records so made shall be kept available for examination and inspection by the Secretary, or by any authorized representative of the Secretary, until December 31, 1956, for the purpose of ascertaining the correctness of any report made or record kept pursuant to §§ 722.542 to 722.586, or of obtaining the information required to be furnished in any report pursuant to §§ 722.542 to 722.586 but not so furnished. Such records shall be kept for such longer period of time as may be requested in writing by the Director.

(c) *Requests for reports.* Each ginner, upon written request of the State committee or county committee, shall make a report showing the information provided for in this section, or any part thereof as specified in the request, with respect to cotton ginned for the person or persons specified in the request or for the period of time specified in the request. This report shall be filed not later than the date designated by the State committee or county committee in the written request for such report.

(d) *Manner of submitting reports.* The treasurer of the county committee designated in the request for such report, or his successor in office, is hereby authorized and empowered to receive each such report, on behalf of the Secretary. Each report shall be mailed or delivered directly to the said treasurer.

(e) *Penalty for failure or refusal to keep records or make reports.* Any person engaged in the business of ginning cotton who fails to keep any record or make any report as required by this section or who makes any false report or false record shall, as provided for in section 373 (a) of the act, be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500 for each such offense.

§ 722.577 *Records to be kept and reports to be made by buyers*—(a) *Necessity for records and reports.* Each person who buys seed cotton or lint cotton from the producer thereof shall, in conformity with section 373 (a) of the act, keep the records and make the reports the Secretary hereby finds to be necessary to enable him to carry out, with respect to cotton, the provisions of the act.

(b) *Nature of and availability of records.* Each buyer shall keep, as a part of or in addition to the records maintained by him in the conduct of his business, a record which shall show with respect to each bale of cotton, and each lot of cotton less than a bale, which is purchased by him from the producer thereof the following information: (1) The name and address of the producer from whom the cotton was purchased; (2) the date on which the cotton was purchased; (3) the original gin bale number or, if there is no gin bale number, the gin bale mark or other information showing the origin or source of the cotton and, in the case of seed cotton purchased, the number of pounds of seed cotton and the known or estimated amount of lint in such seed cotton; (4) the number of pounds of lint cotton in each bale, and each lot of cotton less than a bale, purchased from the producer; (5) the amount of any penalty required to be collected under §§ 722.542 to 722.586 and the amount of penalty col-

lected in connection with the cotton purchased from the producer; and (6) the serial number of the marketing card or marketing certificate or a brief description of the loan document by which the cotton was identified when marketed. It shall be presumed that the cotton was not identified in the manner provided in §§ 722.542 to 722.586 if the serial number of the marketing card or marketing certificate or a brief description of the loan document does not appear on the records required by this paragraph. The record so made shall be kept available for examination and inspection by the Secretary, or by any authorized representative of the Secretary, until December 31, 1956, for the purpose of ascertaining the correctness of any report made or record kept pursuant to §§ 722.542 to 722.586, or of obtaining the information required to be furnished in any report pursuant to §§ 722.542 to 722.586 but not so furnished. Such records shall be kept for such longer period of time as may be requested in writing by the Director. The county committee shall, upon the request of any buyer, furnish to him without cost blank copies of Form MQ–100—Cotton which may be used by him for the purpose of keeping the record required pursuant to this paragraph.

(c) *Reports in connection with cotton not identified by marketing cards, marketing certificates, or loan documents.* The buyer of cotton which is not identified by a marketing card, marketing certificate, or loan document as provided in §§ 722.542 to 722.586 when marketed shall, with respect to each purchase, make a written report on Form MQ–82—Cotton of the following information: (1) The name and address of the producer from whom the cotton was purchased; (2) the date on which the cotton was purchased; (3) the original gin bale number or, if there is no gin bale number, the gin bale mark or other information showing the origin or source of the cotton; (4) the net weight of each bale of cotton, and of each lot of lint cotton less than a bale; and (5) the amount of the penalty collected in connection with the cotton purchased. The report shall be executed in triplicate, one copy thereof shall be given to the producer, one copy shall be retained by the buyer, and the buyer shall mail or deliver the original to the treasurer of the county committee for the county in which such cotton was produced.

(d) *Reports in connection with cotton identified by marketing certificates.* The buyer of cotton which is identified when marketed by a certificate on Form MQ–91—Cotton, as provided in § 722.563, shall make a report in connection with the transaction by executing the certificate in triplicate and by mailing or delivering the county office copy to the treasurer of the county committee for the county in which the certificate was issued. The original Form MQ–91—Cotton shall be retained by the buyer and the producer's copy shall be delivered to the producer to whom the certificate was issued. The manner in which Form MQ–91—Cotton shall be executed and distributed, in case the marketing is to a buyer not within the United States, is provided for in § 722.580 (c).

(e) *Receipts to producers for penalties.* Where the cotton is not identified by a marketing card, marketing certificate, or loan document at the time of marketing, the producer's copy of the executed Form MQ–82—Cotton shall be the receipt from the buyer to the producer for the penalty collected. The buyer shall report the giving of each such receipt to the producer by forwarding the county office copy of the Form MQ–82—Cotton to the treasurer of the county committee for the county in which such cotton was produced, as provided in paragraph (c) of this section.

(f) *Time for making reports.* Each report required by the foregoing provisions of this section shall be made not later than 7 calendar days next succeeding the end of the calendar week in which the cotton covered thereby was marketed.

(g) *Buyer's special reports.* In the event the county committee, or the State committee, has reason to believe that any buyer failed or refused to collect or to remit the penalty required to be collected by him for any cotton which he purchased, or otherwise in any manner failed or refused to comply with §§ 722.542 to 722.586, the buyer shall, within fifteen days after a written request therefor by such committee is sent to him by registered mail at his last-known address, make a report verified as true and correct on Form MQ–100—Cotton to such committee with respect to cotton purchased or acquired by him from the person or persons specified in the request or purchased or acquired by him during the period of time specified in the request. Such report shall include the following information for each bale of cotton, and each lot of cotton less than a bale, purchased by such buyer: (1) The name and address of the producer from whom the cotton was purchased; (2) the date on which the cotton was purchased; (3) the original gin bale number, or if there is no gin bale number, the gin mark or other information showing the origin of or source of the cotton and, in the case of cotton purchased in the seed, the number of pounds of seed cotton and the known or estimated amount of lint in such seed cotton; (4) the number of pounds of lint cotton in each bale, and in each lot of cotton less than a bale, purchased from the producer; (5) the amount of penalty required to be collected under §§ 722.542 to 722.586 and the amount of any penalty collected in connection with the cotton purchased from the producer; and (6) the serial number of the marketing card or marketing certificate or a brief description of the loan document by which the cotton was identified when marketed.

(h) *Manner of submitting reports.* The treasurer of the county committee for the county in which the cotton covered by the report was produced, or his successor in office, is hereby authorized and empowered to receive, for and on behalf of the Secretary, each report required pursuant to this section. Each report shall be mailed or delivered directly to the said treasurer. Notwithstanding any other provision of this paragraph, each report on Form MQ–82—Cotton in connection with the purchase of cotton marketed without the use of the means of identification provided by §§ 722.542 to 722.586 may be mailed or delivered directly to the treasurer of the county committee from whom the unexecuted copy of the form was obtained.

(i) *Penalty for failure or refusal to keep records or make reports.* Any person engaged in the business of purchasing cotton from producers who fails to keep any records or make any report as required by this section or who makes any false report or false record shall, as provided for in section 373 (a) of the act, be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500 for each such offense.

§ 722.578 *Records to be kept and reports to be made by transferees.* Each transferee who acquires seed cotton or lint cotton from the producer thereof shall keep the same records and make the same reports which are required to be kept and made by buyers pursuant to § 722.577 in every case in which the penalty is collected by the transferee as provided for in § 722.570, and in every other case shall execute the applicable certificates which are necessary to enable the producer to keep the records and make the reports required of him.

§ 722.579 *Records to be kept by warehousemen and others.* Each warehouseman, processor (including compressor), common carrier, and other person, as defined in section 373 (a) of the act, who buys, stores, processes (including compressing), transports as a common carrier, or otherwise deals with cotton from, for, or on behalf of the producer thereof shall make available, for examination and inspection by the Secretary, or by any authorized representative of the Secretary, the records kept in his business concerning such cotton, for the purpose of ascertaining the correctness of any report made or record kept pursuant to §§ 722.542 to 722.586 or of obtaining the information required to be furnished in any report pursuant to §§ 722.542 to 722.586 but not so furnished. The Secretary, in conformity with section 373 (a) of the act, hereby finds such records to be necessary to enable him to carry out, with respect to cotton, the provisions of the act.

§ 722.580 *Records to be kept and reports to be made by producers*—(a) *Necessity for records and reports.* Each person who produces in 1954, or who produced in any previous year, cotton which is subject to the provisions of §§ 722.542 to 722.586 shall, in conformity with section 373 (b) of the act, keep the records and make the reports prescribed by this section, which records and reports the Secretary hereby finds to be necessary to enable him to carry out, with respect to cotton, the provisions of the act.

(b) *Farms for which marketing cards are issued.* A record and report of the cotton marketed in connection with a farm for which one or more marketing cards were issued shall not be required unless requested by the county committee, as provided in paragraph (e) of this section.

(c) *Cotton marketed to persons not within the United States.* In each case where cotton for which a marketing certificate has been issued pursuant to § 722.558 is marketed to any person not within the United States, the producer shall enter the name and address of the buyer or transferee and indicate that such person is not within the United States in the space provided for the signature of the buyer or transferee on each copy of the marketing certificate. The producer shall retain his copy of the certificate and the county office's and buyer's copies shall be mailed or delivered by such producer to the treasurer of the county committee for the county in which the certificate was issued not later than 15 calendar days next succeeding the day on which the cotton was marketed.

(d) *Farm operator's report.* The operator of the farm in connection with which a farm marketing excess is determined shall, upon written request of the county committee, file with the treasurer of the county committee for the county in which the farm is located a farm operator's report on Form MQ–98—Cotton showing for the farm the following information or any part thereof as specified in such request: (1) The date harvesting of the 1954 crop of cotton was completed on the farm, the date of the last ginning of cotton produced on the farm in 1954, and the acreage planted to cotton on the farm; (2) the total number of pounds of lint cotton ginned from the 1954 crop of cotton; (3) the name and address of each ginner who ginned such cotton and the number of and net weight of the bales ginned by him; (4) the total amount of 1954 crop cotton marketed in seed; (5) the total amount of 1954 crop lint cotton marketed; (6) the amount of unmarketed cotton of the 1954 crop on hand; (7) the total number of pounds of lint cotton produced in the 1954 crop year; (8) the name and address of each buyer or transferee of 1954 crop lint or seed cotton and the amount thereof marketed to him; and (9) the amount of penalty paid by the producer or collected by the buyer or transferee. In each case where the producer is making an application for a downward adjustment in the farm marketing excess pursuant to § 722.552, such application shall be made on a farm operator's report (Form MQ–98—Cotton) not later than 30 days, or any extension of such period as provided in § 722.552, after harvesting of cotton on the farm has been completed. However, the county committee may waive the requirement that such application be filed on a Form MQ–98—Cotton in cases where it determines that the evidence otherwise submitted by the producer is satisfactory evidence of the actual production of cotton on the farm in 1954. Upon written request of the county committee, the operator of any other farm for which a farm marketing excess is not determined shall make a report on Form MQ–98—Cotton in the manner specified in this paragraph not later than the date designated by the county committee in its request.

(e) *Manner of submitting reports.* The treasurer of the county committee for the county in which the cotton covered by the report was produced, or his successor in office, is hereby authorized and empowered to receive, for and on behalf of the Secretary, each report required pursuant to this section. Each report shall be mailed or delivered directly to such treasurer.

§ 722.581 *Data to be kept confidential.* Except as otherwise provided in this part, all data reported to or acquired by the Secretary pursuant to and in the manner provided in §§ 722.542 to 722.586 shall be kept confidential by all officers and employees of the United States Department of Agriculture, members of county committees and State committees, county agents, and the employees of such committees and county agents' offices, and shall not be disclosed to anyone not having an interest in or responsibility for any cotton, farm, or transaction covered by the particular data, record, information, report, or form, and only such data so reported or acquired as the Secretary deems relevant shall be disclosed by them to anyone not having such an interest or not being employed in the administration of the act and then only in a suit or administrative hearing under the provisions of the act.

§ 722.582 *Enforcement.* It shall be the duty of the county committee to report in writing to the State committee forthwith each case of failure or refusal to make any report or keep any record as required by §§ 722.542 to 722.586 and each case of making any false report or record. It shall be the duty of the State committee to report each such case in writing, in quintuplicate, to the Director with a view to the institution of proceedings by the United States Attorney for the appropriate district, under the direction of the Attorney General of the United States, to enforce the provisions of the act.

SPECIAL PROVISIONS AND EXCEPTIONS

§ 722.583 *Experimental cotton farms.* The penalty shall not apply to the marketing of any cotton of the 1954 crop grown only for experimental purposes on land owned or leased by a publicly-owned agricultural experiment station and produced at public expense by employees of the experiment station, or if the cotton was produced by farmers pursuant to an agreement with a publicly-owned experimental station whereby the experiment station bears the costs and risks incident to the production of the cotton and the proceeds from the crop inure to the benefit of the experiment station: *Provided*, That such agreement shall be approved by the State committee prior to the issuance of a marketing card for the farm.

§ 722.584 *Acreage planted to cotton*—(a) *Underplanting the farm acreage allotment.* For any farm on which cotton is planted in 1954 and the acreage of cotton in 1954 is less than the farm acreage allotment by not more than the larger of 10 percent of the allotment or one acre, an acreage equal to the farm acreage allotment shall be deemed to be the acreage planted to cotton on the farm in 1954, and the additional acreage added to the cotton acreage history for the farm shall be added to the cotton acreage history for the county and State.

(b) *No credit for overplanting the farm acreage allotment.* Any acreage planted to cotton in 1954 in excess of the farm acreage allotment for the 1954 crop of cotton shall not be taken into account in establishing State, county, and farm acreage allotments for the 1955 and subsequent crops of cotton.

§ 722.585 *Availability of records.* The State and county committees shall make available for inspection by owners or operators of farms receiving cotton acreage allotments all records pertaining to cotton acreage allotments and marketing quotas.

§ 722.586 *Designation of representatives of the Secretary to examine records*—(a) *Designation of representatives.* In order to carry out the provisions of §§ 722.576, 722.577, 722.578, and 722.579, relating to the examination of records, the Deputy Administrator is hereby authorized and directed to designate in writing an appropriate number of persons from the officers or employees of the Department of Agriculture to act as the authorized representatives of the Secretary for the purposes of said provisions.

(b) *Proof of designation.* Each person designated pursuant to this section shall be furnished with a copy of his designation, certified by the Deputy Administrator as proof of his authority to act as such authorized representative of the Secretary.

(c) *Authorization to administer oaths.* Each person designated pursuant to this section to act as the authorized representative of the Secretary is hereby authorized and empowered, pursuant to the act of Congress approved January 31, 1925 (sec. 1, 43 Stat. 803; 5 U. S. C. 521), to administer to or take from any person an oath, affirmation, or affidavit whenever such oath, affirmation, or affidavit is for use in any prosecution or proceeding under or in the enforcement of the cotton marketing quota provisions of the act of §§ 722.542 to 722.586.

Prior to the final adoption and issuance of the proposed regulations, consideration will be given to any data, views, or recommendations pertaining to such regulations which are submitted in writing to the Director, Cotton Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C., within 15 days following the date of publication of this notice in the FEDERAL REGISTER. The date of the postmark will be considered as the date of any submission.

Done at Washington, D. C., this 19th day of April 1954.

[SEAL] J. A. McCONNELL,
Administrator,
Commodity Stabilization Service.

[7 CFR Part 722]

1954 CROP OF EXTRA LONG STAPLE COTTON

NOTICE OF PROPOSED FORMULATION OF MARKETING QUOTA REGULATIONS

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301–1376), the Secretary of Agriculture is preparing to formulate marketing quota regulations governing the identification and measurement of farms; the amount, adjustment, and review of the farm marketing quota and farm marketing excess; the issuance of marketing cards and certificates; the identification of extra long staple cotton which is marketed as being subject to or not subject to the penalty and lien for the penalty; the rate of the penalty and the manner in which penalties shall be paid by producers and buyers; the refunding of penalty overpayments; the records and reports required to be made by extra long staple cotton producers, ginners, buyers and others; and other miscellaneous provisions regarding the production and marketing of extra long staple cotton. The proposed regulations will apply to extra long staple cotton produced in 1954 and also to extra long staple cotton produced in a prior year which is marketed during the 1954–55 marketing year. The proposed regulations will supplement the Marketing Quota Regulations Relating to Apportionment of the National Acreage Allotment for the 1954 Crop of Extra Long Staple Cotton to States, Counties and Farms, issued December 4, 1953 (18 F. R. 7883), as amended. Prior to the final adoption and issuance of the proposed regulations, consideration will be given to any data, views, or recommendations pertaining to such regulations which are submitted in writing to the Director, Cotton Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C., within 15 days following the date of publication of this notice in the FEDERAL REGISTER. The date of the postmark will be considered as the date of any submission.

The provisions of the regulations being considered for issuance are as follows:

DEFINITIONS AND MISCELLANEOUS PROVISIONS

§ 722.1142 *Definitions.* As used in §§ 722.1142 to 722.1186 and in all forms and documents in connection therewith, unless the context or subject matter otherwise requires, the following terms shall have the following meanings and the masculine shall include the feminine and neuter genders and the singular shall include the plural number:

(a) "Act" means the Agricultural Adjustment Act of 1938 and any amendments thereto heretofore or hereafter made.

(b) "Secretary" means the Secretary of Agriculture of the United States, or the officer of the Department acting in his stead pursuant to delegated authority.

(c) "Deputy Administrator" means the Deputy Administrator for Production Adjustment, or Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(d) "Director" means the Director, or Acting Director, of the Cotton Division, Commodity Stabilization Service, United States Department of Agriculture.

(e) "Committees": (1) "Community committee" means the persons elected within a community as the community committee pursuant to the Secretary's regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees (14 F. R. 5916).

(2) "County committee" means the persons elected within a county as the county committee pursuant to the Secretary's regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees (14 F. R. 5916). In Puerto Rico the ASC Caribbean Area Committee shall, insofar as applicable, perform the functions of the county committee.

(3) "State committee" means the persons designated by the Secretary as the Agricultural Stabilization and Conservation committee for the State. In Puerto Rico the ASC Caribbean Area Committee shall, insofar as applicable, perform the functions of the State committee.

(4) "Review committee" means the review committee appointed by the Secretary pursuant to section 363 of the act.

(f) "Person" means an individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or other legal entity, or a State, political subdivision of a State, the Federal Government, or any agency thereof. The term "person" shall include two or more persons having a joint or common interest.

(g) "Owner" or "landlord" means a person who owns farm land and rents such land to another person or who operates such land.

(h) "Cash tenant", "standing-rent tenant", or "fixed-rent tenant" means a person who rents land from another for a fixed amount of cash or a commodity to be paid as rent.

(i) "Share tenant" means a person other than a sharecropper who rents land from another person and pays as rent a share of the crops or the proceeds thereof.

(j) "Sharecropper" means a person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of the crops produced thereon or the proceeds thereof.

(k) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(l) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or range land which the county committee, in accordance with instructions issued by the Deputy Administrator, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county or administrative area, as the case may be, in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county or administrative area, as the case may be, in which the major portion of the farm is located.

(m) "Farm acreage allotment" means an acreage allotment established for extra long staple cotton for a farm under the Marketing Quota Regulations Relating to Apportionment of the National Acreage Allotment for the 1954 Crop of Extra Long Staple Cotton to States, Counties and Farms (18 F. R. 7883), as amended.

(n) "Extra long staple cotton" means American-Egyptian, Sea Island, and Sealand cotton, and all other varieties of the Barbadense species, and any hybrid thereof, and any other cotton in which one or more of these varieties predominates.

(o) "Acreage planted to extra long staple cotton" means the acreage of land seeded to extra long staple cotton on the farm in 1954, excluding any acreage in excess of the allotment which is (1) destroyed by causes beyond the producer's control prior to the expiration of the period established under subparagraph (2) of this paragraph for disposing of excess acreage of extra long staple cotton, or (2) disposed of not later than 20 days, or such longer period as is approved in writing by the county committee, after notice of the measured acreage of extra long staple cotton is mailed to the farm operator.

(p) "State and county code number" means the applicable numbers assigned by the Commodity Stabilization Service of the United States Department of Agriculture to each State and county for the purpose of identification.

(q) "Serial number of the farm" or "farm serial number" means the serial number assigned to the farm by the county committee.

(r) "Normal yield" means the average yield per acre of extra long staple lint cotton for the farm, adjusted for abnormal weather conditions, during the five calendar years 1948, 1950, 1951, 1952 and 1953 except that if the normal yield is established after December 31, 1954, such normal yield shall be determined on the basis of the five calendar years immediately preceding the year in which such normal yield is determined. If for any such year the data are not available or there was no actual yield, then the normal yield for the farm shall be appraised, in accordance with instructions issued by the Deputy Administrator, taking into consideration abnormal weather conditions, the normal yield for the county, and the yield in years for which data are available.

(s) "Normal production" of any number of acres means the normal yield per acre of extra long staple lint cotton for the farm multiplied by such number of acres.

(t) "Actual production" of extra long staple cotton on the farm means the total number of pounds of extra long staple lint cotton determined to have been produced on the farm in 1954.

(u) "Actual yield" per acre means the number of pounds of extra long staple lint cotton determined by dividing the actual production of extra long staple cotton on the farm by the acreage planted to such cotton on the farm in 1954.

(v) "Producer" means a person who, as owner or landlord (other than the landlord of a standing-rent tenant, fixed-rent tenant, or cash tenant), cash tenant, standing-rent tenant, fixed-rent tenant, share tenant, or sharecropper, is entitled to all or a share of the 1954 crop of extra long staple cotton or of the proceeds thereof.

(w) "Farm marketing quota" means a marketing quota established under the act for the farm for the 1954 crop of extra long staple cotton.

(x) "Farm marketing excess" means the amount of extra long staple cotton determined for any farm under § 722.1150 or §722.1152, whichever is applicable.

(y) "Farm with no farm marketing excess" means a farm on which the acreage planted to extra long staple cotton in 1954 is not in excess of the farm acreage allotment established therefor.

(z) "Farm with a farm marketing excess" means a farm on which the acreage planted to extra long staple cotton in 1954 is in excess of the farm acreage allotment established therefor.

(aa) "Penalty" means the penalty provided in section 347 (c) of the act and § 722.1166.

(bb) "Seed cotton" means the harvested fruit of the extra long staple cotton plant before ginning.

(cc) "Extra long staple lint cotton" means the fiber taken from extra long staple seed cotton by ginning.

(dd) "Carry over extra long staple cotton" means the unmarketed extra long staple cotton from any previous crop which the producer thereof has on hand.

(ee) "Ginning" means the process by which extra long staple lint cotton is removed from the cotton seed.

(ff) "Ginner" means a person engaged in the business of ginning extra long staple cotton.

(gg) "Gin bale number or mark" means the number entered on the bale tag or any other mark made or used by the ginner to identify a bale of extra long staple cotton.

(hh) "Warehouse receipt number" means the number on the warehouse receipt and the warehouse bale tag made or used by the warehouseman to identify a bale of extra long staple cotton.

(ii) "Buyer" means a person who acquires extra long staple cotton from a producer by sale.

(jj) "Transferee" means a person who receives extra long staple cotton from a producer by barter, or exchange, or gift inter vivos.

(kk) "Market" means to dispose of extra long staple cotton in raw or processed form by voluntary or involuntary sale, barter or exchange, or by gift inter vivos.

(l) The term "sale" means any transfer of title to extra long staple cotton by a producer to another by any means other than barter or exchange or gift inter vivos.

(2) The terms "barter" and "exchange" mean transfer of title to extra long staple cotton by a producer to another in return for extra long staple cotton or any other commodity, service, or property in cases where the value of the extra long staple cotton or such other commodity, service, or property is not considered in terms of money, or the transfer of title to extra long staple cotton by a producer to another in payment of a fixed rental or other charge for land.

(3) The term "gift inter vivos" means any transfer of title, accompanied by delivery, to extra long staple cotton by a producer to another which takes effect immediately and irrevocably and is made without any consideration or compensation therefor.

(4) "Marketed", "marketing", and "for market" shall have corresponding meanings to the term "market" in the connection in which they are used.

(ll) "Marketing year" means the period beginning August 1, 1954, and ending July 31, 1955, both dates inclusive.

(mm) "Treasurer of county committee" means the county office manager or the person designated by him to act as treasurer of the Agricultural Stabilization and Conservation county committee. In Puerto Rico the ASC Caribbean Area Committee shall designate one or more of its employees to perform the duties and functions of treasurer of county committee.

§ 722.1143 *Issuance of forms and instructions.* The Director shall cause to be prepared such forms and instructions as are necessary for carrying out §§ 722.1142 to 722.1186. The forms shall be issued by the Director with the approval of the Deputy Administrator, and the instructions shall be issued by the Deputy Administrator. Copies of such forms and instructions shall be furnished free to persons needing them upon request made to the office of the State or county committee or the Director.

§ 722.1144 *Extent of calculations and rule of fractions.* In making any computation in connection with §§ 722.1142 to 722.1186, the amount of extra long staple lint cotton shall be rounded to the nearest whole pound and the amount of penalties or refunds shall be rounded to the nearest whole cent. Fractions of exactly five-tenths of a pound or cent shall be dropped. The acreages of all fields, or subdivisions thereof, of extra long staple cotton on the farm shall be expressed in hundredths of an acre, and thousandths of an acre shall be dropped. The total acreage of extra long staple cotton on the farm shall be expressed in tenths of an acre, and hundredths of an acre shall be dropped.

IDENTIFICATION AND MEASUREMENT OF FARMS

§ 722.1145 *Identification of farms.* Each farm as operated for the 1954 crop of extra long staple cotton shall be identified by a farm serial number, assigned by the county committee, and all records pertaining to marketing quotas for the 1954 crop of extra long staple cotton shall be identified by the farm serial number.

§ 722.1146 *Measurements of farms.* The county committee shall provide for measuring the acreage planted to extra long staple cotton on each farm in the county in accordance with the procedure approved by the Deputy Administrator. The county committee shall provide for the measurement prior to planting of an acreage on the farm equal to the farm acreage allotment, if the farm operator requests such measurement and pays the cost thereof, and any farm on which the acreage planted to extra long staple cotton does not exceed such measured acreage shall be deemed to be in compliance with the farm acreage allotment. The county committee shall also provide for the remeasurement upon request by the farm operator of the acreage planted to extra long staple cotton on the farm but the operator shall be required to reimburse the county committee for the expense of such remeasurement if the planted acreage is found upon such remeasurement to be in excess of the farm acreage allotment. If the acreage planted to extra long staple cotton on the farm is in excess of the farm acreage allotment, the county committee shall notify the farm operator in writing of such excess and shall further notify such operator that unless the planted acreage of extra long staple cotton on the farm is adjusted to the farm acreage allotment within 20 days from the date of the mailing of such notice, or such additional time as provided for herein, the farm marketing excess for the farm will be determined on the basis of the excess acreage and the farm normal yield. Notice so given shall constitute notice to each producer having an interest in the 1954 crop of extra long staple cotton produced on the farm. In cases where the operator cannot dispose of the excess acreage of extra long staple cotton within the 20-day period because of adverse weather conditions, or other reasons beyond his control, and a request in writing for additional time is filed, the county committee may allow an additional period not to exceed 10 days for disposing of the excess acreage. No acreage of extra long staple cotton shall be disposed of for purposes of adjusting the planted acreage of such cotton to the farm acreage allotment after any cotton has been harvested from such planted acreage.

§ 722.1147 *Reports and records of farm measurements.* The county committee shall keep a record of the measurements made on all farms. It shall file with the State committee a written report on Form MQ–94—Cotton, setting forth for

each farm with a farm marketing excess (a) the farm serial number, (b) the name of the operator, (c) the total acreage in cultivation, (d) the farm acreage allotment, and (e) the acreage planted to extra long staple cotton in 1954.

FARM MARKETING QUOTA AND FARM MARKETING EXCESS

§ 722.1148 *Marketing quotas in effect.* Marketing quotas for the 1954 crop of extra long staple cotton shall be applicable to any such cotton of that crop notwithstanding that it may be available for marketing prior to the beginning of the marketing year or marketed subsequent to the end of the marketing year.

§ 722.1149 *Farm marketing quota.* The farm marketing quota for any farm for the 1954 crop of extra long staple cotton shall be that number of pounds of extra long staple lint cotton produced on the farm less the amount of the farm marketing excess for the farm. The farm marketing quota for any farm shall be increased by the amount of extra long staple lint cotton which the producers on the farm have on hand from any previous crops.

§ 722.1150 *Farm marketing excess—(a) Where measurements are made.* The farm marketing excess for the 1954 crop of extra long staple cotton for any farm shall be the normal production of the acreage planted to such cotton on the farm in excess of the farm acreage allotment. Where, upon application of the producer in accordance with § 722.1152, it is established by the producer that the normal production of the excess acreage is larger than the amount by which the actual production of extra long staple cotton in 1954 on the farm exceeds the normal production of the farm acreage allotment, the farm marketing excess shall be adjusted downward to the smaller amount.

(b) *Where measurements cannot be made.* Whenever the producer prevents the determination of the acreage planted to extra long staple cotton on his farm, the farm marketing excess shall be the total number of pounds of extra long staple lint cotton produced in 1954 on the farm. In the event the producer establishes, in accordance with § 722.1152, the total number of pounds of extra long staple lint cotton produced in 1954 on the farm, the farm marketing excess shall be the number of pounds of extra long staple lint cotton produced on the farm in excess of the normal production of the farm acreage allotment therefor.

(c) *Where no farm acreage allotment is established.* The farm marketing excess for any farm for which a farm acreage allotment is not established shall be the normal production of the acreage planted to extra long staple cotton on the farm. Where, upon application of the producer in accordance with § 722.1152, it is established by the producer that the normal production of the acreage planted to extra long staple cotton on the farm is larger than the actual production of such cotton on the farm in 1954, the farm marketing excess shall be adjusted downward to the smaller amount. Whenever the determination of the acreage planted to extra long staple cotton on a farm for which no farm acreage allotment is established is prevented by the producer, the farm marketing excess shall be the total number of pounds of extra long staple lint cotton produced in 1954 on the farm.

§ 722.1151 *Notice of farm marketing quota and farm marketing excess.* Written notice of the farm marketing quota established for a farm shall be mailed to the operator of such farm. Written notice of the farm marketing excess for a farm shall be mailed to the operator of such farm. Notice so given shall constitute notice to each producer having an interest in the 1954 crop of extra long staple cotton produced or to be produced on the farm. Each notice shall contain a brief statement of the procedure whereby application for a review of the farm marketing quota or farm marketing excess, or any determination made in connection therewith, may be had in accordance with section 363 of the act. A record of the date of mailing the notice to the operator of the farm shall be kept among the permanent records of the county committee and upon request a copy of the notice shall be furnished without charge to any producer on the farm for which the notice is given. Such notice shall contain the information necessary in each case to inform the producer as to the basis for the determinations set forth in the notice and the effect thereof.

§ 722.1152 *Farm marketing excess adjustment—(a) Application for adjustment in the amount of the farm marketing excess.* Any producer having an interest in the extra long staple cotton produced in 1954 on any farm for which there is a farm marketing excess may apply in writing to the county committee, as provided herein, for a downward adjustment in the amount of the farm marketing excess on the basis of the amount of extra long staple cotton produced in 1954 on the farm. Any such application shall be filed with the county committee within 30 days after the harvesting of extra long staple cotton is completed on the farm, or any extension of such time approved by the State committee to not later than March 15, 1955, except for the Southern area of Puerto Rico where it shall not be later than June 15, 1955, on the basis of a recommendation by the county committee and a showing that the producer's failure to apply for such adjustment within the 30-day period was due to circumstances beyond his control. If the harvesting of extra long staple cotton on the farm has not been completed by March 15, 1955 (June 15, 1955, for the Southern area of Puerto Rico), but an application has been timely filed under the foregoing provisions of this paragraph, the producer may request the county committee to provide for an estimate to be made of the amount of unharvested extra long staple cotton on the farm in order that a final determination of the actual production on the farm in 1954 may be made. The county committee shall keep a record of each application so made and the date thereof. The county committee shall establish a time and place at which each application will be considered and shall notify the applicant of the time and place of the hearing. Insofar as practicable, applications shall be considered in the order in which made. Unless application for an adjustment in the farm marketing excess is made within such 30-day period or extension thereof, the farm marketing excess as determined on the basis of the normal production of the excess acreage of extra long staple cotton for the farm shall be final as to the producers on the farm.

(b) *Adjustment in the amount of the farm marketing excess.* The county committee shall consider each application on the basis of facts known by or made available to it and on the basis of such evidence as may be presented to it by the applicant. The actual production of extra long staple cotton of any farm shall be determined in view of the relevant facts, including the past production on the farm, the actual yields per acre in 1954 for other farms in the community which are similar with regard to farming practices followed, type of soil, and productivity; the harvesting, ginning, and sales of the extra long staple cotton produced on the farm; farming practices followed on the farm; and weather conditions and other factors affecting the production of extra long staple cotton on the farm and in the locality in which the farm is situated. In the consideration of any application for an adjustment in the farm marketing excess, the producer shall have the burden of proof. The evidence presented by the applicant may be in the form of written statements or other documentary evidence or of oral testimony in a hearing before the county committee during its consideration of the application. In order to expedite the consideration of applications, the county committee shall receive, in advance of the time fixed for consideration of the application, any written statement or documentary evidence offered by or on behalf of the applicant, and the application may be disposed of upon the basis of such statement or evidence, together with other information bearing on or establishing the facts, which is available to the county committee, unless the applicant appears before the county committee at the time fixed for considering the application and requests a hearing for the purpose of offering documentary evidence or oral testimony in support of the application. Every such hearing shall be open to the public. The county committee shall make its determination in connection with each application not later than five calendar days next succeeding the day on which the consideration of the application was concluded. The determination of the county committee shall be in writing and shall contain (1) a concise statement of the grounds upon which the applicant sought an adjustment in the amount of the farm marketing excess, (2) a concise statement of the findings of the county committee upon the questions of fact, and (3) the determination of the county committee as to the farm marketing quota and the farm marketing excess. A notice showing the result of the determination made as aforesaid, shall be mailed or delivered to the operator of the farm and also to the applicant if he is not such operator.

§ 722.1153 *Publication of the farm acreage allotment, normal yield, marketing quota, and marketing excess.* A record of the acreage allotment, normal yield, marketing quota, and marketing excess established for farms in the county shall be made available for public inspection in the office of the county committee for a period of not less than 30 calendar days. The records containing the information shall be kept where the public may freely examine them. At the end of the 30-day period the records shall be filed in the office of the county committee and remain available for further inspection upon request. There may be used for this purpose listing sheets, copies of notices, or other compilations upon which the pertinent data are shown.

§ 722.1154 *Marketing quotas not transferable.* A farm marketing quota established for a farm may not be assigned or otherwise transferred in whole or in part to any other farm.

§ 722.1155 *Successors - in - interest.* Any person who succeeds to the interest of a producer in a farm or in a crop of extra long staple cotton produced on a farm, for which a farm marketing quota and a farm marketing excess were established, shall, to the same extent as his predecessor, be entitled to all the rights and privileges incident to such marketing quota and marketing excess and be subject to the penalty on the farm marketing excess and to the lien on the entire crop of extra long staple cotton and to the restrictions on the marketing of such cotton.

§ 722.1156 *Review of quotas—(a) Right to review by review committee.* Any producer on a farm with a farm marketing excess who is dissatisfied with the determination of (1) the acreage planted to extra long staple cotton, (2) the normal yield, or (3) the actual yield may within 15 days after written notice of the farm marketing excess is mailed to him, apply in writing for a review by a review committee of any such determination. Unless application for review is made within such period, such determinations shall be final as to the producers on such farm. Application for review and the review committee proceedings shall be in accordance with the review regulations (MQ–51; §§ 711.1 to 711.34 of this chapter), as issued and revised by the Secretary.

(b) *Court review.* If the producer is dissatisfied with the determination of the review committee, he may, within 15 days after notice of such determination is mailed to him by registered mail, institute proceedings against the review committee to have the determination of the review committee reviewed by a court in accordance with section 365 of the act.

MARKETING CARDS, MARKETING CERTIFICATES AND LOAN DOCUMENTS

§ 722.1157 *Eligibility for and issuance of marketing cards—(a) Producers eligible to receive marketing cards.* Except as otherwise provided in this section, the operator and any other producer on a farm shall be eligible to receive a marketing card (Form MQ–76—Cotton (1954) ELS), if (1) no farm marketing excess is determined for the farm, or (2) an amount equal to the penalty on the farm marketing excess has been received by the treasurer of the county committee for the county in which the farm is located.

(b) *Multiple farm producers eligible to receive marketing cards.* Any person who is a producer of extra long staple cotton on more than one farm in a county shall not be eligible to receive a marketing card for any such farm in the county until, in accordance with the provisions of paragraph (a) of this section, he is eligible to receive a marketing card for each of such farms. Any other producers on a farm who are eligible to receive marketing cards pursuant to paragraph (a) of this section shall receive marketing cards with respect to the farm notwithstanding the ineligibility of the multiple farm producer, unless the county committee determines that, in order to enforce the provisions of the act, such producers, including the multiple farm producer, should not receive marketing cards for such farm with no farm marketing excess. Where a producer is engaged in the production of extra long staple cotton in more than one county (in the same State or two or more States), the procedure outlined in this section for issuing marketing cards for multiple farms in a county may be followed with respect to all such farms, wherever situated, if the county committees of the respective counties so decide, or if the State committee has reason to believe that the procedure would be necessary to enforce the provisions of the act. The State committee may require any multiple farm producer to file with it a list of all farms on which he is engaged in the production of extra long staple cotton, together with any other information deemed necessary to enforce the provisions of the act.

(c) *Producers to whom marketing cards will not be issued to enforce the provisions of the act.* Notwithstanding any other provisions of this section, the county committee shall deny any producer a marketing card if it determines that such action is necessary to enforce the provisions of the act.

(d) *Preparation and issuance of marketing cards.* A marketing card for extra long staple cotton shall be issued to the operator of the farm if he is eligible under the foregoing provisions of this section to receive it and, if the county committee determines that it will serve a useful purpose, marketing cards shall also be issued to the other eligible producers on the farm. Each marketing card when completed shall be serially numbered and shall show: (1) The names of the county and State and the serial number of the farm, (2) the name and address of the farm operator, (3) the name and address of the producer to whom issued, (4) the signature of the issuing officer designated by the county committee and the signature of the producer, (5) the farm acreage allotment and the acreage planted to extra long staple cotton, and (6) such additional information and data as may be prescribed by the Deputy Administrator. Where the producer designates an agent to use his marketing card, the card shall also show: (1) the name and address of the agent authorized to use the marketing card and (2) the signatures of the producer and the agent.

§ 722.1158 *Marketing certificates and loan documents—(a) Use of marketing certificates.* The county committee shall issue to a producer upon his request a marketing certificate (Form MQ–91—Cotton) to permit the marketing of extra long staple cotton (1) by any such producer (i) who is eligible to receive a marketing card and who desires to market extra long staple cotton by telegraph, telephone, mail, or by any other means or method other than directly to and in the presence of the buyer or transferee; (ii) who is not engaged in the production of extra long staple cotton in the 1954 crop year and who desires to market extra long staple cotton which he has on hand from any prior crop, (iii) who has an interest as a producer of extra long staple cotton and who desires to market extra long staple cotton which he has on hand from any prior crop, (iv) who desires to market extra long staple cotton produced by him on a farm with no farm marketing excess but he is not eligible to receive a marketing card under § 722.1157 (b) because he or another producer on such farm is also a producer of extra long staple cotton on a farm with a farm marketing excess, and (v) who desires to market his share of the extra long staple cotton produced on a farm with no marketing excess or on a farm on which the penalty on the farm marketing excess has been paid but he was denied a marketing card by the county committee because it deemed such action necessary to enforce the provisions of the act, and (2) by any other producer who has extra long staple cotton not subject to the penalty or on which the penalty has been paid but such producer is not eligible to receive a marketing card or does not have the required loan documents. The county committee, with the approval of the State committee, may issue marketing certificates for a farm in a total amount for the 1954 crop not exceeding the product of the farm acreage allotment multiplied by the smaller of the normal yield per acre or the estimated actual yield per acre, in instances where the acreage planted to extra long staple cotton on the farm in 1954 has not been determined through no fault of the operator and the operator, in applying for such certificates, certifies that he has extra long staple cotton from the 1954 crop available for marketing and that to the best of his knowledge and belief the acreage planted to such cotton on the farm does not exceed the farm acreage allotment.

(b) *Preparation and delivery of marketing certificates.* Each marketing certificate shall show (1) the name and address of the producer to whom issued, (2) the names of the county and State, and the serial number of the farm, if any, (3) the serial number of the 1954 marketing card issued for the farm, where applicable, (4) the description and amount of the cotton to be marketed, (5),

the signature of the producer and the date thereof, and (6) the signature of the issuing officer for the county committee or the signature of a member of the county committee and the date thereof. The original or buyer's copy of the marketing certificate together with the "producer's" and the "county office's" copies shall be delivered to the producer to whom the marketing certificate is issued, and such producer, upon marketing the extra long staple cotton described in the marketing certificate, shall deliver the original and the copies to the buyer.

(c) *Use of loan documents in lieu of marketing certificates to identify CCC loan extra long staple cotton.* Any producer who desires to sell his equity in carryover extra long staple cotton which is pledged as collateral security for a Commodity Credit Corporation loan or to sell carryover extra long staple cotton on which such a loan has been repaid may identify such cotton as being penalty free by presenting to the buyer thereof such CCC loan documents covering such cotton as may be prescribed by the Deputy Administrator, and the buyer shall accept such documents as evidence to him that the extra long staple cotton described therein is not subject to the penalty or the lien for the penalty.

§ 722.1159 *Lost, destroyed, or stolen marketing cards or certificates*—(a) *Report of loss, destruction, or theft.* In case a marketing card or marketing certificate delivered to a producer is lost, destroyed, or stolen, any person having knowledge thereof shall, insofar as he is able, immediately notify the county committee of the following: (1) The name of the producer to whom the marketing card or certificate was issued; (2) the serial number of the marketing card or certificate; and (3) whether in his knowledge or judgment it was lost, destroyed, or stolen and by whom.

(b) *Investigation and findings of county committee.* The county committee shall make or cause to be made a thorough investigation of the circumstances of such loss, destruction, or theft. If the county committee finds, on the basis of the investigation, that such marketing card or marketing certificate was in fact lost, destroyed, or stolen, it shall cancel such marketing card or certificate by giving notice to the producer to whom the card or certificate was issued that it is void and of no effect. The notice to that effect shall be in writing and mailed to the producer at his last known address. If the county committee also finds that there has been no collusion or connivance in connection therewith on the part of the producer to or for whom the marketing card or certificate was issued, it shall issue to or for him a marketing card or certificate to replace the lost, destroyed, or stolen marketing card or certificate. Each marketing card or certificate issued under this section shall bear across its face in bold letters the word "Duplicate." In case a marketing card or certificate is canceled, as provided in this section, the county committee shall immediately notify the ginners and buyers in the county, or in the immediate vicinity, that the marketing card or certificate has been canceled and that a duplicate has been issued. A report of the findings and action of the county committee shall be kept among its records. Any ginner or buyer or any other person coming into possession or control of a marketing card or certificate which has been canceled shall immediately return it to the county committee which issued it.

§ 722.1160 *Cancellation of marketing card and marketing certificates issued in error.* In the event any marketing card or marketing certificate was erroneously issued, the producer to whom it was issued shall be requested to return it to the county committee and upon its being returned it shall be canceled by the county committee by endorsing thereon in bold letters the word "Canceled." Without awaiting its return the county committee shall notify the producer by registered mail at his last known address that it is void and of no effect. A copy of the notice, containing a notation thereon of the date of mailing, shall be kept among the records of the county committee. The county committee shall immediately notify the ginners and buyers in the county, or in the immediate vicinity, that the marketing card or certificate has been canceled.

IDENTIFICATION OF EXTRA LONG STAPLE COTTON

§ 722.1161 *Time and manner of identification.* Each producer of extra long staple cotton shall, at the time he markets any such cotton, identify such cotton to the buyer or transferee, in the manner hereinafter provided, as being subject to or not subject to the penalty provided in § 722.1166 and the lien for the penalty as provided in § 722.1167.

§ 722.1162 *Identification by marketing card.* A marketing card (Form MQ–76—Cotton (1954) ELS) shall, when presented to the buyer by the producer to whom issued, be evidence to the buyer that the extra long staple cotton produced on the farm for which the marketing card was issued may be purchased by him without collection, deduction, or payment of any penalty, and that such cotton is not subject to the lien for the penalty.

§ 722.1163 *Identification by marketing certificate.* A marketing certificate (Form MQ–91—Cotton) shall, when presented to the buyer by the producer to whom it was issued, be evidence to the buyer that the extra long staple cotton described on the marketing certificate may be purchased by him without the collection, deduction, or payment of any penalty, and that such cotton is not subject to the lien for the penalty.

§ 722.1164 *Identification by loan document.* A loan document (as prescribed by the Deputy Administrator) shall, when presented to the buyer by the producer in whose favor it is drawn, be evidence to the buyer that the extra long staple cotton described in such loan document may be purchased by him without the collection, deduction, or payment of any penalty, and that such cotton is not subject to the lien for the penalty.

§ 722.1165 *Extra long staple cotton not identified by a marketing card, marketing certificate or loan document.* All extra long staple cotton marketed by a producer which is not identified by a marketing card, marketing certificate, or loan document as provided in §§ 722.1162, 722.1163, or 722.1164 shall be taken by the buyer or transferee thereof as extra long staple cotton subject to the penalty and the lien for the penalty. The buyer or transferee of such unidentified extra long staple cotton shall collect the penalty from the producer or deduct it from the purchase price of the cotton. The buyer or transferee shall report the purchase of all such unidentified extra long staple cotton on Form MQ–82—Cotton and remit the penalty collected or deducted to the treasurer of the county committee.

PENALTY

§ 722.1166 *Rate of penalty.* The rate of the penalty for extra long staple cotton is the higher of 50 percent of the parity price for extra long staple cotton as of June 15, 1954, or 50 percent of the 1954 support price for extra long staple cotton, as provided in section 347 (c) of the act. (This section will be amended to include the exact rate of the penalty when such price data are available.)

§ 722.1167 *Lien for the penalty.* Until the penalty on the farm marketing excess is paid, all extra long staple cotton produced on the farm and marketed by the producer shall be subject to the penalty at the rate provided in § 722.1166 and a lien on the entire crop of extra long staple cotton produced on the farm in 1954 shall be in effect in favor of the United States.

§ 722.1168 *Interest on unremitted penalty.* The person liable for the payment or collection of the penalty shall be liable also for interest on the amount of penalty which is not remitted in accordance with § 722.1169 (b) or § 722.1170 (c), as the case may be, at the rate of 6 percent per annum from the final date for remitting the penalty until the date such penalty is remitted. The computation of interest on any penalty due shall be made beginning with the day following the final date for remitting the penalty.

§ 722.1169 *Payment of penalty by producers*—(a) *Producers liable for payment of penalty.* Each producer having an interest in the 1954 crop of extra long staple cotton on any farm for which a farm marketing excess has been determined shall be liable to pay the entire amount of the penalty on the farm marketing excess. The amount of the penalty which any producer shall pay shall nevertheless be reduced by the amount of the penalty which is paid by another producer or a buyer of extra long staple cotton produced on the farm.

(b) *Time when penalty becomes due and payable.* The farm marketing excess for any farm shall be regarded as available for marketing and the penalty thereon shall become due at the time any extra long staple cotton produced on the farm is harvested. The amount of the penalty on the farm marketing excess for any farm shall be remitted on the date it becomes due or not later than March 15, 1955, except that such final date shall be June 15, 1955, for the Southern area of Puerto Rico: *Provided, however,* That the penalty on any bale or lot of extra long staple cotton marketed (1) from a farm for which the penalty on the farm marketing excess has not been paid or (2) without being properly identified by a marketing card, marketing certificate, or loan document (as prescribed by the Deputy Administrator) shall be due on the date of such marketing and shall be remitted not later than seven calendar days next succeeding the end of the calendar week in which such cotton was marketed.

(c) *Apportionment of the penalty.* The county committee may, upon application of any producer made prior to the expiration of the time allowed for remitting the penalty on the farm marketing excess, determine his proportionate share of the penalty on the farm marketing excess if, pursuant to the application, the producer establishes that he is unable to arrange with other producers on the farm for the payment of the penalty on the entire farm marketing excess; that his share of the extra long staple cotton crop produced on the farm is marketed by him separately; and that he exercises no control over the marketing of the shares of the other producers in the extra long staple cotton crop. The producer's proportionate share of the penalty on the farm marketing excess shall be that proportion of the entire penalty on the farm marketing excess which his share in the extra long staple cotton produced in 1954 on the farm bears to the total amount of such cotton produced in 1954 on the farm. When the producer pays his proportionate share of the penalty, he shall not be liable for the remainder of the penalty on the farm marketing excess and he shall be entitled to receive a marketing certificate, issued in accordance with § 722.1158, to be used by him only in the marketing of his proportionate share of the extra long staple cotton crop produced in 1954 on the farm.

§ 722.1170 *Payment of penalty by buyers*—(a) *Buyers liable for payment of penalty.* Each person within the United States, including Puerto Rico, who buys from the producer any extra long staple cotton subject to the lien for the penalty shall be liable for and shall pay the penalty thereon. Extra long staple cotton shall be taken as subject to the lien for the penalty unless the producer presents to the buyer a marketing card (Form MQ–76—Cotton (1954) ELS), a marketing certificate (Form MQ–91—Cotton), or a loan document, as prescribed in §§ 722.1162, 722.1163, and 722.1164.

(b) *Payment of penalty on account of lien for the penalty.* Each person within the United States, including Puerto Rico, who buys or acquires extra long staple cotton from the producer which is subject to the lien for the penalty shall pay the amount of the penalty on each pound thereof in satisfaction of the lien thereon.

(c) *Time when penalty becomes due.* The penalty to be paid by any buyer pursuant to paragraphs (a) and (b) of this section shall become due at the time the extra long staple cotton is marketed and shall be remitted not later than 7 calendar days next succeeding the end of the calendar week in which such cotton was marketed. Extra long staple cotton shall be deemed to be sold when either title to or actual or constructive possession of such cotton is delivered by or on behalf of the producer or any part of the purchase price is paid. Extra long staple cotton shall be deemed to have been marketed by barter or exchange when it is delivered to the transferee of such cotton by actual or constructive delivery or the transferor has received any part of the property, goods, or services for which the extra long staple cotton is being bartered or exchanged. Extra long staple cotton shall be deemed to have been marketed by gift inter vivos when there is an actual or constructive delivery of such cotton to the transferee during the lifetime of the producer. Extra long staple cotton shall be deemed to have been marketed in processed form when the producer, or some person on his behalf, converts such cotton into an article of trade and thereby causes such cotton to lose its identity as seed cotton or extra long staple lint cotton. An article of trade within the meaning of this provision is any article made in whole or in part from extra long staple cotton for the purpose of marketing such article.

(d) *Manner of deducting penalty and issuance of receipts.* The buyer may deduct from the price paid for any extra long staple cotton an amount equivalent to the amount of the penalty to be paid by the buyer pursuant to paragraphs (a) and (b) of this section. Any buyer who deducts an amount equivalent to the penalty shall issue to the person from whom such cotton was purchased a receipt for the amount so deducted which shall be on Form MQ–82—Cotton.

§ 722.1171 *Remittance of penalty to the treasurer of the county committee.* The treasurer of the county committee, for and on behalf of the Secretary, shall receive the penalty and issue a receipt therefor to the person remitting the penalty. The penalty shall be remitted only in legal tender, or by check, draft, or money order drawn payable to the order of the Treasurer of the United States. All checks, drafts, or money orders tendered in payment of the penalty shall be received by the treasurer of the county committee subject to collection and payment at par, and the receipt (Form MQ–95—Cotton) issued in connection therewith shall bear a notation to that effect and a description of the check, draft, or money order.

§ 722.1172 *Deposit of funds.* All funds received by the treasurer of the county committee in connection with penalties for extra long staple cotton shall be scheduled and transmitted by him on the day received, or not later than the morning of the next succeeding business day, to the State committee, which, in accordance with applicable instructions, shall cause such funds to be deposited to the credit of the Treasurer of the United States. In the event the funds so received are in the form of cash, the treasurer of the county committee shall deposit such cash in the county committee bank account and a separate check, payable to the Treasurer of the United States in the amount of such cash deposited, shall be drawn on such bank account by the treasurer of the county committee for transmittal to the State committee. The treasurer of the county committee shall make and keep a record of each amount received by him, showing the name of the person who remitted the funds, the identification of the farm or farms in connection with which the funds were received, and the names of the persons who marketed the extra long staple cotton in connection with which the funds were remitted.

§ 722.1173 *Refunds of money in excess of the penalty*—(a) *Determination of refunds.* The county committee and the treasurer of the county committee, upon their own motion or upon the request of any interested person, shall review the amount of money received in connection with the penalty for any farm to determine for each producer the amount thereof, if any, which is in excess of the penalty incurred. The excess amount shall be refunded. Any refund shall be made only to persons who bore the burden of the payment and who have not been reimbursed therefor. The excess sum shall be first applied, insofar as the sum will permit, so as to make refunds to eligible persons other than producers, and the remainder, if any, shall be applied so as to make refunds to the eligible producers. The amount to be refunded to each producer shall be either (1) the amount agreed upon in writing by each and every producer of extra long staple cotton on the farm or (2) in the event that such producers cannot agree to the division of such refund or if all of the producers on the farm are not available to apply for such refund, the amount determined by apportioning the excess among all of the producers on the farm on the basis of the amount of the penalty borne by each producer, as determined by the county committee. No refund shall be made to any buyer or transferee of any amount which he collected from the producer, deducted from the price or other consideration for the extra long staple cotton, or for which he was liable.

(b) *Certification of refunds.* One member of the county committee, acting for the committee, shall notify the State committee of the amount which the county committee determines may be refunded to each producer with respect to the farm, and the State committee shall cause to be certified to the appropriate Disbursing Officer of the Treasury Department for payment such amounts as are approved by it. No refund of money shall be certified under this section unless the money has been collected and transmitted to the State committee.

§ 722.1174 *Refund of penalty erroneously, illegally, or wrongfully collected.* Whenever, pursuant to a claim filed with the Secretary within the time prescribed in section 372 of the act after payment to him of the penalty collected from any person, the Secretary finds that the

penalty was erroneously, illegally, or wrongfully collected, he shall certify to the Secretary of the Treasury for payment to the claimant, in accordance with regulations prescribed by the Secretary of the Treasury, such amount as the Secretary finds the claimant is entitled to receive as a refund of penalty. Any claim filed pursuant to this section shall be made in accordance with regulations prescribed by the Secretary.

§ 722.1175 *Report of violations and court proceedings to collect penalty.* It shall be the duty of the county committee to report in writing to the State committee each case of failure or refusal to pay the penalty or to remit the same as provided in §§ 722.1142 to 722.1186 to the Secretary when collected. It shall be the duty of the State committee to report each such case in writing to the Director with a view to the institution of proceedings by the United States Attorney for the appropriate district, under the direction of the Attorney General of the United States, to collect the penalties, as provided in section 376 of the act.

RECORDS AND REPORTS

§ 722.1176 *Records to be kept and reports to be made by ginners—(a) Necessity for records and report.* Each ginner shall, in conformity with section 373 (a) of the act, keep the records and make the reports the Secretary hereby finds to be necessary to enable him to carry out, with respect to extra long staple cotton, the provisions of the act.

(b) *Nature and availability of records.* Each ginner shall keep, as part of or in addition to the records maintained by him in the conduct of his business, a record which shall show with respect to each bale of extra long staple cotton, and each lot of such cotton less than a bale, ginned by him the following information: (1) The date of ginning; (2) the name of the operator of the farm on which the extra long staple cotton was produced; (3) the name of the producer of the extra long staple cotton; (4) the county and State in which the farm on which the extra long staple cotton was produced is located; (5) the gin bale number or mark; (6) the serial number of the gin ticket or receipt prepared or issued by the ginner for the bale of extra long staple cotton and for each lot of such cotton less than a bale; (7) the gross weight of each bale of extra long staple cotton and the net weight of each lot of extra long staple lint cotton less than a bale; and (8) the kind of the bagging and ties used on each bale. The records so made shall be kept available for examination and inspection by the Secretary, or by any authorized representative of the Secretary, until December 31, 1956, for the purpose of ascertaining the correctness of any report made or record kept pursuant to §§ 722.1142 to 722.1186, or of obtaining the information required to be furnished in any report pursuant to §§ 722.1142 to 722.1186 but not so furnished. Such records shall be kept for such longer period of time as may be requested in writing by the Director.

(c) *Requests for reports.* Each ginner, upon written request of the State committee or county committee, shall make a report showing the information provided for in this section, or any part thereof as specified in the request, with respect to extra long staple cotton ginned for the person or persons specified in the request or for the period of time specified in the request. This report shall be filed not later than the date designated by the State committee or county committee in the written request for such report.

(d) *Manner of submitting reports.* The treasurer of the county committee designated in the request for such report, or his successor in office, is hereby authorized and empowered to receive each such report, on behalf of the Secretary. Each report shall be mailed or delivered directly to the said treasurer.

(e) *Penalty for failure or refusal to keep records or make reports.* Any person engaged in the business of ginning extra long staple cotton who fails to keep any record or make any report as required by this section or who makes any false report or false record shall, as provided for in section 373 (a) of the act, be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500 for each such offense.

§ 722.1177 *Records to be kept and reports to be made by buyers—(a) Necessity for records and reports.* Each person why buys extra long staple seed cotton or extra long staple lint cotton from the producer thereof shall, in conformity with section 373 (a) of the act, keep the records and make the reports the Secretary hereby finds to be necessary to enable him to carry out, with respect to extra long staple cotton, the provisions of the act.

(b) *Nature of and availability of records.* Each buyer shall keep, as a part of or in addition to the records maintained by him in the conduct of his business, a record which shall show with respect to each bale of extra long staple cotton, and each lot of such cotton less than a bale, which is purchased by him from the producer thereof the following information: (1) The name and address of the producer from whom the cotton was purchased; (2) the date on which the extra long staple cotton was purchased; (3) the original gin bale number or, if there is no gin bale number, the gin bale mark or other information showing the origin or source of the extra long staple cotton and, in the case of extra long staple seed cotton purchased, the number of pounds of such seed cotton and the known or estimated amount of lint in such seed cotton; (4) the number of pounds of extra long staple lint cotton in each bale, and each lot of such cotton less than a bale, purchased from the producer; (5) the amount of any penalty required to be collected under §§ 722.1142 to 722.1186 and the amount of penalty collected in connection with the extra long staple cotton purchased from the producer; and (6) the serial number of the marketing card or marketing certificate or a brief description of the loan document by which the extra long staple cotton was identified when marketed. It shall be presumed that the extra long staple cotton was not identified in the manner provided in §§ 722.1142 to 722.1186 if the serial number of the marketing card or marketing certificate or a brief description of the loan document does not appear on the records required by this paragraph. The record so made shall be kept available for examination and inspection by the Secretary, or by any authorized representative of the Secretary, until December 31, 1956, for the purpose of ascertaining the correctness of any report made or record kept pursuant to §§ 722.1142 to 722.1186, or of obtaining the information required to be furnished in any report pursuant to §§ 722.1142 to 722.1186 but not so furnished. Such records shall be kept for such longer period of time as may be requested in writing by the Director. The county committee shall, upon the request of any buyer, furnish to him without cost blank copies of Form MQ–100—Cotton which may be used by him for the purpose of keeping the record required pursuant to this paragraph.

(c) *Reports in connection with extra long staple cotton not indentified by marketing cards, marketing certificates, or loan documents.* The buyer of extra long staple cotton which is not identified by a marketing card, marketing certificate, or loan document as provided in §§ 722.1142 to 722.1186 when marketed shall, with respect to each purchase, make a written report on Form MQ–82—Cotton of the following information: (1) The name and address of the producer from whom the extra long staple cotton was purchased; (2) the date on which the extra long staple cotton was purchased; (3) the original gin bale number or, if there is no gin bale number, the gin bale mark or other information showing the origin or source of the extra long staple cotton; (4) the net weight of each bale of extra long staple cotton, and of each lot of such lint cotton less than a bale; and (5) the amount of the penalty collected in connection with the extra long staple cotton purchased. The report shall be executed in triplicate, one copy thereof shall be given to the producer, one copy shall be retained by the buyer, and the buyer shall mail or deliver the original to the treasurer of the county committee for the county in which such cotton was produced.

(d) *Reports in connection with extra long staple cotton identified by marketing certificates.* The buyer of extra long staple cotton which is identified when marketed by a certificate on Form MQ–91—Cotton, as provided in § 722.1163, shall make a report in connection with the transaction by executing the certificate in triplicate and by mailing or delivering the county office copy to the treasurer of the county committee for the county in which the certificate was issued. The original Form MQ–91—Cotton shall be retained by the buyer and the producer's copy shall be delivered to the producer to whom the certificate was issued. The manner in which Form MQ–91—Cotton shall be executed and distributed, in case the marketing is to a buyer not within the United States, is provided for in § 722.1180 (c).

(e) *Receipts to producers for penalties.* Where the extra long staple cotton is not identified by a marketing card, marketing certificate, or loan document at the time of marketing, the producer's copy of the executed Form MQ–82—Cotton shall be the receipt from the buyer to the producer for the penalty collected. The buyer shall report the giving of each such receipt to the producer by forwarding the county office copy of the Form MQ–82—Cotton to the treasurer of the county committee for the county in which such cotton was produced, as provided in paragraph (c) of this section.

(f) *Time for making reports.* Each report required by the foregoing provisions of this section shall be made not later than 7 calendar days next succeeding the end of the calendar week in which the extra long staple cotton covered thereby was marketed.

(g) *Buyer's special reports.* In the event the county committee, or the State committee, has reason to believe that any buyer failed or refused to collect or to remit the penalty required to be collected by him for any extra long staple cotton which he purchased, or otherwise in any manner failed or refused to comply with §§ 722.1142 to 722.1186, the buyer shall, within fifteen days after a written request therefor by such committee is sent to him by registered mail at his last-known address, make a report verified as true and correct on Form MQ–100—Cotton to such committee with respect to cotton purchased or acquired by him from the person or persons specified in the request or purchased or acquired by him during the period of time specified in the request. Such report shall include the following information for each bale of extra long staple cotton, and each lot of such cotton less than a bale, purchased by such buyer: (1) The name and address of the producer from whom the extra long staple cotton was purchased; (2) the date on which the extra long staple cotton was purchased; (3) the original gin bale number, or if there is no gin bale number, the gin mark or other information showing the origin of or source of the extra long staple cotton and, in the case of extra long staple seed cotton purchased, the number of pounds of such seed cotton and the known or estimated amount of lint in such seed cotton; (4) the number of pounds of extra long staple lint cotton in each bale, and in each lot of such cotton less than a bale, purchased from the producer; (5) the amount of penalty required to be collected under §§ 722.1142 to 722.1186 and the amount of any penalty collected in connection with the extra long staple cotton purchased from the producer; and (6) the serial number of the marketing card or marketing certificate or a brief description of the loan document by which the extra long staple cotton was identified when marketed.

(h) *Manner of submitting reports.* The treasurer of the county committee for the county in which the extra long staple cotton covered by the report was produced, or his successor in office, is hereby authorized and empowered to receive, for and on behalf of the Secretary, each report required pursuant to this section. Each report shall be mailed or delivered directly to the said treasurer. Notwithstanding any other provision of this paragraph, each report on Form MQ–82—Cotton in connection with the purchase of extra long staple cotton marketed without the use of the means of identification provided by §§ 722.1142 to 722.1186 may be mailed or delivered directly to the treasurer of the county committee from whom the unexecuted copy of the form was obtained.

(i) *Penalty for failure or refusal to keep records or make reports.* Any person engaged in the business of purchasing extra long staple cotton from producers who fails to keep any records or make any report as required by this section or who makes any false report or false record shall, as provided for in section 373 (a) of the act, be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500 for each such offense.

§ 722.1178 *Records to be kept and reports to be made by transferees.* Each transferee who acquires extra long staple seed cotton or extra long staple lint cotton from the producer thereof shall keep the same records and make the same reports which are required to be kept and made by buyers pursuant to § 722.1177 in every case in which the penalty is collected by the transferee as provided for in § 722.1170, and in every other case shall execute the applicable certificates which are necessary to enable the producer to keep the records and make the reports required of him.

§ 722.1179 *Records to be kept by warehousemen and others.* Each warehouseman, processor (including compressor), common carrier, and other person, as defined in section 373 (a) of the act, who buys, stores, processes (including compressing), transports as a common carrier, or otherwise deals with extra long staple cotton from, for, or on behalf of the producer thereof shall make available, for examination and inspection by the Secretary, or by any authorized representative of the Secretary, the records kept in his business concerning such cotton, for the purpose of ascertaining the correctness of any report made or record kept pursuant to §§ 722.1142 to 722.1186 or of obtaining the information required to be furnished in any report pursuant to §§ 722.1142 to 722.1186 but not so furnished. The Secretary, in conformity with section 373 (a) of the act, hereby finds such records to be necessary to enable him to carry out, with respect to extra long staple cotton, the provisions of the act.

§ 722.1180 *Records to be kept and reports to be made by producers—(a) Necessity for records and reports.* Each person who produces in 1954, or who produced in any previous year, extra long staple cotton which is subject to the provisions of §§ 722.1142 to 722.1186 shall, in conformity with section 373 (b) of the act, keep the records and make the reports prescribed by this section, which records and reports the Secretary hereby finds to be necessary to enable him to carry out, with respect to extra long staple cotton, the provisions of the act.

(b) *Farms for which marketing cards are issued.* A record and report of the extra long staple cotton marketed in connection with a farm for which one or more marketing cards were issued shall not be required unless requested by the county committee, as provided in paragraph (e) of this section.

(c) *Extra long staple cotton marketed to persons not within the United States, including Puerto Rico.* In each case where extra long staple cotton for which a marketing certificate has been issued pursuant to § 722.1158 is marketed to any person not within the United States (including Puerto Rico), the producer shall enter the name and address of the buyer or transferee and indicate in the space provided for the signature of the buyer or transferee on each copy of the marketing certificate that such person is not within the United States (including Puerto Rico). The producer shall retain his copy of the certificate and the county office's and buyer's copies shall be mailed or delivered by such producer to the treasurer of the county committee for the county in which the certificate was issued not later than 15 calendar days next succeeding the day on which the extra long staple cotton was marketed.

(d) *Farm operator's report.* The operator of the farm in connection with which a farm marketing excess is determined shall, upon written request of the county committee, file with the treasurer of the county committee for the county in which the farm is located a farm operator's report on Form MQ–98—Cotton showing for the farm the following information or any part thereof as specified in such request: (1) The date harvesting of the 1954 crop of extra long staple cotton was completed on the farm, the date of the last ginning of such cotton produced on the farm in 1954, and the acreage planted to such cotton on the farm; (2) the total number of pounds of lint cotton ginned from the 1954 crop of extra long staple cotton; (3) the name and address of each ginner who ginned such cotton and the number of a net weight of the bales of such cotton ginned by him; (4) the total amount of 1954 crop extra long staple cotton marketed in seed; (5) the total amount of 1954 crop extra long staple lint cotton marketed; (6) the amount of unmarketed extra long staple cotton of the 1954 crop on hand; (7) the total number of pounds of extra long staple lint cotton produced in the 1954 crop year; (8) the name and address of each buyer or transferee of 1954 crop lint or seed extra long staple cotton and the amount thereof marketed to him; and (9) the amount of penalty paid by the producer or collected by the buyer or transferee. In each case where the producer is making an application for a downward adjustment in the farm marketing excess pursuant to § 722.1152, such application shall be made on a farm operator's report (Form MQ–98—Cotton) not later than 30 days, or any extension of such period as provided in § 722.1153, after harvesting of extra long staple cot-

ton on the farm has been completed. However, the county committee may waive the requirement that such application be filed on a Form MQ–98—Cotton in cases where it determines that the evidence otherwise submitted by the producer is satisfactory evidence of the actual production of extra long staple cotton on the farm in 1954. Upon written request of the county committee, the operator of any other farm for which a farm marketing excess is not determined shall make a report on Form MQ–98—Cotton in the manner specified in this subsection not later than the date designated by the county committee in its request.

(e) *Manner of submitting reports.* The treasurer of the county committee for the county in which the extra long staple cotton covered by the report was produced, or his successor in office, is hereby authorized and empowered to receive, for and on behalf of the Secretary, each report required pursuant to this section. Each report shall be mailed or delivered directly to such treasurer.

§ 722.1181 *Data to be kept confidential.* Except as otherwise provided in this part, all data reported to or acquired by the Secretary pursuant to and in the manner provided in §§ 722.1142 to 722.1186 shall be kept confidential by all officers and employees of the United States Department of Agriculture, members of county committees and State committees, county agents, and the employees of such committees and county agents' offices, and shall not be disclosed to anyone not having an interest in or responsibility for any cotton, farm, or transaction covered by the particular data, record, information, report, or form, and only such data so reported or acquired as the Secretary deems relevant shall be disclosed by them to anyone not having such an interest or not being employed in the administration of the act and then only in a suit or administrative hearing under the provisions of the act.

§ 722.1182 *Enforcement.* It shall be the duty of the county committee to report in writing to the State committee forthwith each case of failure or refusal to make any report or keep any record as required by §§ 722.1142 to 722.1186 and each case of making any false report or record. It shall be the duty of the State committee to report each such case in writing, in quintuplicate, to the Director with a view to the institution of proceedings by the United States Attorney for the appropriate district, under the direction of the Attorney General of the United States, to enforce the provisions of the act.

SPECIAL PROVISIONS AND EXCEPTIONS

§ 722.1183 *Experimental cotton farms.* The penalty shall not apply to the marketing of any extra long staple cotton of the 1954 crop grown only for experimental purposes on land owned or leased by a publicly-owned agricultural experiment station and produced at public expense by employees of the experiment station, or if the extra long staple cotton was produced by farmers pursuant to an agreement with a publicly-owned experimental station whereby the experiment station bears the costs and risks incident to the production of such cotton and the proceeds from the crop inure to the benefit of the experiment station: *Provided*, That such agreement shall be approved by the State committee prior to the issuance of a marketing card for the farm.

§ 722.1184 *Acreage planted to extra long staple cotton*—(a) *Underplanting the farm acreage allotment.* For any farm on which extra long staple cotton is planted in 1954 and the acreage of such cotton in 1954 is less than the farm acreage allotment by not more than the larger of 10 percent of the allotment or one acre, an acreage equal to the farm acreage allotment shall be deemed to be the acreage planted to extra long staple cotton on the farm in 1954, and the additional acreage added to the extra long staple cotton acreage history for the farm shall be added to the extra long staple cotton acreage history for the county and State.

(b) *No credit for overplanting the farm acreage allotment.* Any acreage planted to extra long staple cotton in 1954 in excess of the farm acreage allotment for the 1954 crop of extra long staple cotton shall not be taken into account in establishing State, county, and farm acreage allotments for the 1955 and subsequent crops of cotton.

§ 722.1185 *Availability of records.* The State and county committees shall make available for inspection by owners or operators of farms receiving extra long staple cotton acreage allotments all records pertaining to extra long staple cotton acreage allotments and marketing quotas.

§ 722.1186 *Designation of representatives of the Secretary to examine records*—(a) *Designation of representatives.* In order to carry out the provisions of §§ 722.1176, 722.1177, 722.1178, and 722.1179, relating to the examination of records, the Deputy Administrator is hereby authorized and directed to designate in writing an appropriate number of persons from the officers or employees of the Department of Agriculture to act as the authorized representatives of the Secretary for the purposes of said provisions.

(b) *Proof of designation.* Each person designated pursuant to this section shall be furnished with a copy of his designation, certified by the Deputy Administrator as proof of his authority to act as such authorized representative of the Secretary.

(c) *Authorization to administer oaths.* Each person designated pursuant to this section to act as the authorized representative of the Secretary is hereby authorized and empowered, pursuant to the act of Congress approved January 31, 1925 (sec. 1, 43 Stat. 803; 5 U. S. C. 521), to administer to or take from any person an oath, affirmation, or affidavit whenever such oath, affirmation, or affidavit is for use in any prosecution or proceeding under or in the enforcement of the extra long staple cotton marketing quota provisions of the act or §§ 722.1142 to 722.1186.

Done at Washington, D. C., this 19th day of April 1954.

[SEAL] J. A. McCONNELL,
Administrator, Commodity Stabilization Service.

[7 CFR Part 728]

WHEAT

NOTICE OF DETERMINATIONS TO BE MADE WITH RESPECT TO MARKETING QUOTAS, NATIONAL, STATE, AND COUNTY ACREAGE ALLOTMENTS, AND FORMULATION OF REGULATIONS PERTAINING TO FARM ACREAGE ALLOTMENTS AND COUNTY NORMAL YIELDS FOR THE 1955 CROP OF WHEAT

Pursuant to the authority contained in applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1332, 1333, 1334, 1335), the Secretary of Agriculture is preparing to determine whether marketing quotas are required to be proclaimed for the 1955 crop of wheat, to determine and proclaim the national acreage allotment for the 1955 crop of wheat, to apportion among States and counties the national acreage allotment for the 1955 crop of wheat, and to formulate regulations for establishing farm acreage allotments and county normal yields for the 1955 crop of wheat.

Section 335 of the act provides that whenever in the calendar year 1954 the Secretary determines (1) that the total supply of wheat for the 1954–55 marketing year will exceed the normal supply for such marketing year by more than 20 per centum, or (2) that the total supply of wheat for the 1953–54 marketing year is not less than the normal supply for such marketing year and that the average farm price for wheat for three consecutive months of such marketing year does not exceed 66 per centum of parity, the Secretary shall, not later than July 1, 1954, proclaim such fact and a national marketing quota shall be in effect on the marketing of wheat during the 1955–56 marketing year.

Section 333 of the act provides that the national acreage allotment shall be that acreage which the Secretary determines will, on the basis of the national average yield for wheat, produce an amount thereof adequate, together with the estimated carry-over at the beginning of the marketing year for such crop and imports, to make available a supply for such marketing year equal to a normal year's domestic consumption and exports plus 30 per centum thereof; but such allotment for any year shall not be less than 55 million acres. Section 332 of the act requires that the Secretary, not later than July 15, 1954, shall ascertain and proclaim the total supply and the normal supply of wheat for the 1954–55 marketing year and the national acreage allotment for the 1955 crop of wheat.

As defined in section 301 of the act, for the purpose of these determinations, "total supply" for any marketing year is the carry-over of wheat for such marketing year, plus the estimated production of wheat in the United States during the calendar year in which such marketing year begins and the estimated imports of wheat into the United States during such marketing year; "normal supply" for any marketing year is the estimated domestic consumption of wheat for the marketing year ending immediately prior to the marketing year for which normal supply is being determined, plus the estimated exports of wheat for the marketing year for which normal supply is being determined, plus 15 per centum of such consumption and exports, with such adjustments for current trends in consumption and for unusual conditions as deemed necessary; "normal year's domestic consumption" of wheat is the yearly average quantity of wheat that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption; "normal year's exports" of wheat is the yearly average quantity of wheat produced in the United States that was exported from the United States during the ten marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports; "marketing year" for wheat is the period July 1–June 30; and "national average yield" of wheat is the national average yield of wheat for the ten calendar years preceding the year in which such national average yield is used, adjusted for abnormal weather conditions and for trends in yields.

Section 334 (a) of the act requires that the national acreage allotment of wheat for the 1955 crop, less a reserve of not to exceed one per centum thereof, be apportioned among the several States on the basis of the acreage seeded for the production of wheat during the ten calendar years 1944–1953 (plus, in applicable years, the acreage diverted under agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during such period. Section 334 (b) of the act requires that the State acreage allotment of wheat for the 1955 crop, less a reserve of not to exceed 3 per centum thereof, be apportioned among the counties in the State on the basis of the acreage seeded for the production of wheat during the ten calendar years 1944–1953 (plus, in applicable years, the acreage diverted under agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during such period and for the promotion of soil-conservation practices.

Section 334 (c) of the act requires that the allotment to the county be apportioned among the farms within the county on the basis of past acreage of wheat, tillable acres, crop-rotation practices, type of soil, and topography, and provides that not more than 3 per centum of the State allotment be apportioned to farms on which wheat has not been planted for harvest during any of the three marketing years immediately preceding the marketing year in which the allotment is made.

Section 301 (b) (13) of the act provides for the determination of county normal yields of wheat by taking the average yield per acre of wheat for the county during the ten calendar years immediately preceding the year in which such normal yield is determined, adjusted for abnormal weather conditions and trends in yields. Provision is also made that if for any year during such 10-year period the data are not available, or there is no actual yield, an appraised yield for such year shall be determined in accordance with regulations issued by the Secretary of Agriculture, and that such normal yield per acre for any county need be redetermined only when the actual average yield for the ten calendar years immediately preceding the calendar year in which such yield is being reconsidered differs by at least 5 per centum from the actual average yield for the 10 years upon which the existing normal yield per acre for the county was based.

Prior to making any of the foregoing determinations with respect to marketing quotas and national, State, and county acreage allotments for the 1955 crop of wheat and the formulation of regulations for the establishment of farm acreage allotments and county normal yields for the 1955 crop of wheat consideration will be given to data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Grain Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All written submissions must be postmarked not later than fifteen days after the date of publication of this notice in the FEDERAL REGISTER.

Issued at Washington, D. C., this 19th day of April 1954.

[SEAL] J. A. McCONNELL,
Administrator.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 522]

EMPLOYMENT OF LEARNERS IN THE SINGLE PANTS, SHIRTS AND ALLIED GARMENTS, WOMEN'S APPAREL, SPORTSWEAR AND OTHER ODD OUTERWEAR, RAINWEAR, ROBES, AND LEATHER AND SHEEPLINED GARMENTS DIVISION OF THE APPAREL INDUSTRY

TERMS OF SPECIAL CERTIFICATE

Pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (Section 14, 52 Stat. 1068, as amended; 29 U. S. C. 214), the Administrator has heretofore issued regulations (§§ 522.160 through 522.168) providing for the employment of learners in the Single Pants, Shirts, and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes, and Leather Sheeplined Garments Division of the Apparel Industry, at wages lower than the minimum wage applicable under section 6 of the act.

Such regulations have been re-examined in the light of recent changes in wage levels, administrative experience in the operation of the regulations, and after consultation with interested parties in the industry. All relevant information available indicates that it is necessary to amend the learner regulations insofar as they apply to all divisions of this industry, other than the Women's Apparel Division, by increasing the minimum learner wage from 60 cents per hour to 63 cents per hour for the first 320 hours of the learning period and from 65 cents per hour to 70 cents for the next 160 hours; by making the same increases for workers undergoing retraining; and by reclassifying the occupations and duration of the learning periods for the apparel industry other than the Women's Apparel Division.

Accordingly, notice is hereby given pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), that under the authority provided in section 14 of the Fair Labor Standards Act of 1938, as amended (section 14, 52 Stat. 1068; 29 U. S. C. 214), the Administrator of the Wage and Hour Division, United States Department of Labor, proposes to revise § 522.162 as hereinafter set forth.

1. The following paragraphs of § 522.162 are amended to read as follows:

a. Paragraph (a) (1) is amended to read as follows:

§ 522.162 *Terms of special certificates.*
• • •

(a) *Occupations for which certificates may be issued and duration of learning periods.* (1) In the Women's Apparel Division of the Apparel Industry, as defined in § 522.161 (a) (1), machine operating (except cutting), pressing, handsewing, and finishing operations involving hand-sewing, maximum learning period of 480 hours for any of these occupations,[1] but not more than a 320-hour learning period in such occupations if, within the previous two years, the worker has had 160 hours or more of experience in another of these occupations in any division of the industry.

b. Paragraph (a) (2) is renumbered and made (a) (3).

c. A new paragraph (a) (2) is added to read as follows:

(2) In all other divisions of the Apparel Industry, as defined in § 522.161 (a) (2), (3), (4), (5) and (6), sewing machine operating, final pressing, handsewing, finishing operations involving hand-sewing, maximum learning period of 480 hours for any of these occupations,[1] all other pressing and all other machine operating (except cutting), a maximum learning period of 160 hours,[1] but not more than a 320 hour learning period in such occupations where a maximum of 480 hours is authorized, if, within the previous two years, the worker has had 160 hours or more of experience

[1] If, within the previous two years, the worker has been employed in any division of the industry in an authorized learner occupation for less than the maximum learning period authorized for that occupation, the number of hours of previous employment should be deducted from the applicable learning period.

in another of these occupations in any division of the industry.

d. Paragraph (b) (1) (ii) is amended to read as follows:

(b) *Minimum rates of pay.* (1) • • •

(ii) Not less than 63 cents per hour for the first 320 hours, and not less than 70 cents per hour for the next 160 hours, if employed in any of the other divisions of the Apparel Industry, as defined in § 522.161 (a) (2), (3), (4), (5) and (6).

e. Paragraph (b) (1) (iii) is amended by deleting all the language subsequent to the semi-colon and inserting the following: "And any experienced worker in any one of the occupations shown in paragraph (a) (2) of this section for which a 480-hour learning period is authorized, who is being retrained in any other occupation shown in that paragraph, having such a 480-hour maximum period, shall be paid at not less than 63 cents per hour for the first 160 hours and not less than 70 cents per hour for the next 160 hours, if employed in any of the other divisions of the Apparel Industry, as defined in § 522.161 (a) (2), (3), (4), (5) or (6)."

f. Paragraph (b) (2) is amended by deleting the period at the end thereof and adding the following: "if employed in the Women's Apparel Division of the Apparel Industry, as defined in § 522.161 (a) (1); and at not less than 70 cents per hour if employed in any of the other divisions of the Apparel Industry, as defined in § 522.161 (a) (2), (3), (4), (5) or (6)".

g. Paragraph (b) (3) and (4) are renumbered (4) and (5) respectively, and a new paragraph (b) (3) is added as follows:

(3) A learner employed in any occupation for which a 160-hour learning period is authorized in paragraph (a) (2) of this section shall be paid 63 cents per hour if employed in any of the divisions of the Apparel Industry, as defined in § 522.161 (a) (2), (3), (4), (5) or (6).

Consideration will be given to any data, views, or arguments pertaining to the amendment of 29 CFR, Part 522, § 522.162, as proposed, which are submitted in writing to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., within 30 days from publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 19th day of April 1954.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

NOTICES

DEPARTMENT OF THE TREASURY

Fiscal Service, Bureau of Accounts

[Dept. Circ. 570, Rev. Apr. 20, 1943, 1954 98th Supp.]

YORKSHIRE INSURANCE CO. OF NEW YORK

CORPORATIONS ACCEPTABLE AS SURETIES ON FEDERAL BONDS

APRIL 16, 1954.

Under date effective midnight ending December 31, 1953, "The Yorkshire Indemnity Company of New York", New York, New York, a New York Corporation, formally changed its name to that of "The Yorkshire Insurance Company of New York". A copy of the Restated Charter of The Yorkshire Insurance Company of New York, a certified copy of the By-laws, and a certificate from the Insurance Department of the State of New York certifying that the corporate name of The Yorkshire Indemnity Company of New York became and now is The Yorkshire Insurance Company of New York, have been received and filed in the Treasury.

Pursuant to an Instrument of Transfer and Assumption and a Domestication Agreement filed with the Insurance Department of the State of New York on December 15, 1953, The Yorkshire Indemnity Company of New York acquired all the business and assets and assumed all the liabilities of The Yorkshire Insurance Company, Limited, United States Branch.

The change in the name of The Yorkshire Indemnity Company of New York does not affect its status or liability with respect to any obligation in favor of the United States or in which the United States has an interest, which it may have undertaken pursuant to its authority under the act of Congress approved July 30, 1947 (U. S. C. secs. 6-13), to qualify as sole surety on such obligations.

Hereafter the name of the company will appear as "The Yorkshire Insurance Company of New York" on Treasury Form No. 356, which shows a list of the companies authorized to act as acceptable sureties on bonds in favor of the United States.

[SEAL] A. N. OVERBY,
Acting Secretary of the Treasury.

Office of the Secretary

SPECIAL ASSISTANT TO THE SECRETARY

DELEGATION OF AUTHORITY WITH RESPECT TO DISBURSEMENT, ADMINISTRATION, SERVICING AND SALE OF LOANS

Laurence B. Robbins, as Special Assistant to the Secretary of the Treasury, is hereby authorized to perform, exercise, and administer all of the functions, powers, duties, and authority under section 409 of the Federal Civil Defense Act of 1950 vested in me by virtue of the provisions of section 104 of the Reconstruction Finance Liquidation Act (67 Stat. 231; Public Law 163, approved July 30, 1953) and to perform, exercise, and administer all of the functions, powers, duties, and authority under section 302 of the Defense Production Act of 1950, as amended, vested in me by virtue of the provisions of section 107 (a) (2) of the Reconstruction Finance Liquidation Act as supplemented by Executive Order No. 10489, dated September 26, 1953 (18 F. R. 6201).

[SEAL] M. B. FOLSOM,
Acting Secretary of the Treasury.

APRIL 1, 1954.

POST OFFICE DEPARTMENT

ASSISTANT POSTMASTER GENERAL, BUREAU OF FACILITIES

DELEGATION OF AUTHORITY RESPECTING FUNCTIONS AND DUTIES OF PURCHASING AGENT

The following is the text of Order No. 55582, dated March 2, 1954, delegating certain authority to the Assistant Postmaster General, Bureau of Facilities, respecting functions and duties of the Purchasing Agent for the Post Office Department:

(a) Pursuant to authority of section 1 (b) of Reorganization Plan No. 3 of 1949 (63 Stat. 1066), all functions and duties heretofore vested in the Purchasing Agent for the Post Office Department are hereby transferred to the Assistant Postmaster General, Bureau of Facilities, who is hereby authorized to delegate to any officer or employee under his jurisdiction such of the functions and duties, transferred by this order, as he deems appropriate, except that the authority with respect to the "Procurement of Supplies and Services by the Postmaster General for Improvement of Postal Operations and Other Activities," delegated by the Administrator of General Services under date of April 10, 1951 (see Order No. 45931 of the Postmaster General, dated April 17, 1951, published in the Postal Bulletin of April 19, 1951), to the extent it is subject to redelegation, may be performed by a chief procurement officer for the Post Office Department designated by the Assistant Postmaster General, Bureau of Facilities.

(b) The office of Purchasing Agent is hereby abolished: *Provided*, That the office of Purchasing Agent, or such a form thereof as the Assistant Postmaster General, Bureau of Facilities, deems to be in the best interests of the Department, may be established by the Assistant Postmaster General, Bureau of Facilities, on his own order, as a division or other unit of the Bureau of Facilities.

(c) All regulations, orders, instructions, and delegations of functions and duties in conflict with this order, or in conflict with such regulations, order, instructions, and delegations of functions and duties which may hereafter be made by the Assistant Postmaster General, Bureau of Facilities, under authority of this order, are hereby modified to the extent of such inconsistency.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 1 (b), 63 Stat. 1066; 5 U. S. C. 22, 1332-15, 369. Delegation of authority by the Administrator of General Services, dated April 10, 1951, 16 F. R. 3319)

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

APRIL 15, 1954.

An application, serial number Idaho 04174 and 04836, for the withdrawal from all forms of appropriation under the public land laws, except mineral leasing of the lands described below was filed on September 5, 1951, and January 5, 1953, by Idaho Fish and Game Department. The purposes of the proposed withdrawal: C. J. Strike Snake River Wildlife Management Area.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region I, Bureau of Land Management, Department of the Interior, at Swan Island Station, Portland 18, Oregon. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN

Sec. 4, Lots 4, 5, 8 and 9,
Sec. 5, Lot 1,
Sec. 6, Lot 5.
T. 6 S., R. 10 E.,
Sec. 6, Lots 1 and 2.

The area described aggregates 8,356.45 acres.

The lands described have an elevation of approximately 2,450 feet, and the topography ranges from steep slopes to open flat areas. Very little of the lands are agricultural in character. They are suitable for grazing of livestock and afford access to water in the Snake River for livestock.

Portions of the lands are within power site and reclamation withdrawals, and it has been determined that the withdrawal of the lands for the purposes proposed would be consistent with the multiple uses, subject to the administration of the lands by the Bureau of Land Management for grazing purposes in cooperation with the United States Fish and Wildlife Service and the Idaho Fish and Game Department.

JOSEPH A. GANONG,
Acting Regional Administrator.

WASHINGTON

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

APRIL 15, 1954.

An application, serial number Washington 01214, for the withdrawal from all forms of appropriation under the public land laws, except mineral leasing of the lands described below was filed on January 22, 1954, by Washington Department of Fisheries. The purposes of the proposed withdrawal: Klickitat Salmon Hatchery.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region I, Bureau of Land Management, Department of the Interior at Swan Island Station, Portland 18, Oregon. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

WILLAMETTE MERIDIAN

T. 7 N., R. 13 E.,
Sec. 33, S½SE¼.

The area described aggregates 80 acres.

The land described is in a Federal Power Reserve, and the Federal Power Commission has made a determination Docket No. DA-101, Washington, to the effect that the value of the land would not be injured or destroyed for power purposes by restoration under section 24 of the Federal Power Act.

The filing of the application for a withdrawal of the land for the purposes stated segregates the land from disposition under the public land laws pending a determination by the Secretary of the Interior. Therefore, since the land is segregated and is not subject to any form of entry or disposal, such as contemplated by the act of May 28, 1948 (62 Stat. 275; 16 U. S. C. sec. 818), in accordance with section 63.4 of the Bureau of Land Management Manual, no order of restoration of the land under the Federal Power determination will be issued or notice given to the State, but appropriate notation of the determination will be made on the records of the land office and included in any future order of res-

toration of the lands as provided in the act of May 28, 1948.

JOSEPH A. GANONG,
Acting Regional Administrator.

ARIZONA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

APRIL 14, 1954.

An application, serial number Arizona 04855, for the withdrawal from all forms of appropriation under the public land laws of the lands described below, was filed on May 4, 1953, by the Department of the Army. The purposes of the proposed withdrawal: Painted Rock Reservoir Project.

For a period of thirty days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region 5, Bureau of Land Management, Department of the Interior, at Post Office Box 1695, Albuquerque, New Mexico. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

Office of the Secretary

NEW MEXICO

RULES FOR ADMINISTRATION OF GRAZING DISTRICT NO. 7; MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in me by section 2 of the act of June 28, 1934 (48 Stat. 1270, 43 U. S. C. 315a) the "Rules for the Administration of New Mexico Grazing District No. 7" approved September 3, 1949 (14 F. R. 5575), are amended as to subparagraph (c), and a new subparagraph (d) is added, to read as follows:

(c) Except as provided in subparagraph (d), free use grazing privileges may be accorded to any resident applicant in the district having not more than 50 sheep units, or an equivalent in animal units in other classes of livestock.

(d) Free use grazing privileges may be accorded to any resident Indian applicant in the district to the extent of 100 sheep units, or an equivalent in other classes of livestock, but not to exceed four horses: *Provided*, That this rule shall apply also to such resident Indian applicants within the Hogback, Adobe and Bernard communities of the San Juan Unit, notwithstanding the provisions of the Bureau of Land Management order of October 20, 1953 (18 F. R. 6788) whereby the San Juan Unit was added to New Mexico Grazing District No. 7: *Provided further*, That no free use grazing privileges will be authorized to any person who may be indebted to the United States by reason of delinquent grazing fees or trespass charges for unauthorized grazing use: *Provided further*, That in the issuance of free use grazing privileges any applicant having less than 100 sheep units shall henceforth be limited to the number of sheep units or their equivalent for which a dicense may be issued, or for which an applicant may be qualified, for the period July 1, 1954 to June 30, 1955, except that increases may be allowed by the district range manager whenever additional range or grazing privileges are available for such allocations.

DOUGLAS MCKAY,
Secretary of the Interior.

CIVIL AERONAUTICS BOARD

[Docket No. 6523]

TUYA CUBAN EXPRESS CORP.

NOTICE OF HEARING

In the matter of the application of Tuya Cuban Express Corp. for a foreign air carrier permit authorizing indirect air transportation between Havana, Cuba, and points in the United States.

Notice is hereby given that pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 402 and 1001 thereof, the above-entitled proceeding is assigned for hearing on May 4, 1954, at 10:00 a. m., e. d. s. t., in Room 5132, Commerce Building, Fourteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Herbert K. Bryan.

Without limiting the scope of the issues in this proceeding, particular attention will be directed to whether transportation proposed herein will be in the public interest and whether the applicant is fit, willing and able to perform such air transportation and to conform to the provisions of the Civil Aeronautics Act and the rules, regulations and requirements of the Board thereunder.

For further details of the issues involved in this proceeding, interested persons are referred to the various orders entered in the proceeding and the Examiner's Prehearing Conference Report, which are on file with the Civil Aeronautics Board.

Notice is further given that any person other than parties of record desiring to be heard in this proceeding shall file with the Board, on or before May 4, 1954, a statement setting forth the issues of fact or law which he desires to controvert.

Dated at Washington, D. C., April 16, 1954.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

SALES OF CERTAIN COMMODITIES AT FIXED PRICES

APRIL 1954 DOMESTIC AND EXPORT PRICE LISTS

Pursuant to the Pricing Policy of Commodity Credit Corporation issued March 22, 1950, as amended January 9, 1953, (15 F. R. 1593, 18 F. R. 176) and subject to the conditions stated therein, the following commodities are available for sale in the quantities and at the prices stated. The offering of corn of the 1948-49 crops on the domestic list is effective as of April 6, 1954 for the remainder of the month and is a reduction of 20 cents per bushel from the price that was effective April 1, 1954. The offerings of nonfat dry milk solids and cheddar cheese on the export list are effective as of April 9, 1954 for the remainder of the month.

APRIL 1954 DOMESTIC PRICE LIST

Commodity and approximate quantity available (subject to prior sale)	Domestic price list
Corn, bulk, 170,000,000 bushels (1948 49 crops).	At points of production, basis in store, at market prices, but not less than 20 cents per bushel below the local 1953 corn loan rate for No. 3 yellow corn. In addition, off grade corn owned by CCC from any other crop will also be offered for sale at the same price. Sales will be made through County Agricultural Stabilization and Conservation Committees. The corn is stored in CCC bin sites.

APRIL 1954 EXPORT PRICE LIST

Commodity and approximate quantity available (subject to prior sale)	Export price list
Cheese, cheddar, flats, and truckless blocks (standard), 40 pounds in carload lots (40,000 pounds.	U. S. Grade A and higher: F. a. s. U. S. port of export: 25.5 cents per pound. "In store" at location of stocks. F. A. s. price less export freight rate per pound to agreed port of export.[1] U. S. Grade B: F. a. s. U. S. port of export 24.5 cents per pound. "In store" at location of stocks. F. a. s. price less export freight rate per pound to agreed port of export.[1] All prices are subject to usua adjustment for moisture content.
Nonfat dry milk solids (in carload lots; 455,000,000 pounds, Spray, 85,000,000 pounds, roller.	Spray Process, U. S. Extra Grade. F. a. s. U. S. port of export: 11.75 cents per pound. "In store" at location of stocks. F. a. s. price less export freight rate per pound to agreed port of export.[1] Roller Process, U. S. Extra Grade. F. a. s. U. S. port of export 10 cents per pound "In store" at location of stocks: F. a. s. price less export freight rate per pound to agreed port of export.[1]

[1] "In store" means at the processor's plant or in warehouse but with any prepaid storage or handling charges for the benefit of the buyer.

(Sec. 407, 63 Stat. 1055; 7 U. S. C. 1427)

Issued: April 19, 1954.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3232]

GENERAL PUBLIC UTILITIES CORP.

NOTICE OF FILING REGARDING ISSUANCE AND SALE OF ADDITIONAL SHARES OF COMMON STOCK THROUGH SUBSCRIPTION WARRANTS

APRIL 16, 1954.

Notice is hereby given that General Public Utilities Corporation ("GPU"), a registered holding company has filed an application-declaration, and an amendment thereto, pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (a), 7 and 12 (c) thereof and Rules U-42 and U-50 as applicable to the proposed transactions, which are summarized as follows:

A. GPU proposes to issue 606,423 additional shares of its authorized and unissued common stock, par value $5 per share, offering these first to the holders of its outstanding common stock by transferable subscription warrants carrying the right to subscribe for shares of such additional common stock on the basis of one share for each fifteen shares of common stock held of record. The duration of such offer, which will be approximately nineteen days, the record date, and the subscription price will be supplied by amendment.

B. No warrant holder will be permitted to subscribe for a fraction of a share of stock. In cases where the rights represented by the warrant or warrants accompanying a subscription aggregate in excess of 15 and are not exactly divisible by 15, the holder of such warrant or warrants will be permitted, upon the surrender of such warrant or warrants and the exercise of his subscription privilege for the maximum number of whole shares covered thereby, to apply any excess rights to the purchase of one additional share at the subscription price, subject to the availability, as described hereafter, to GPU of shares out of which such share may be allotted. If shares should not be available for such allotment, GPU will purchase the excess rights at the price to be paid for any rights which may be tendered for purchase as provided in the following paragraph C.

C. Up to a date to be specified by amendment, the initial record warrant holders may sell all or any portion of their subscription rights to GPU at a price per right which will be the greater of (1) one-fifteenth of the difference between (a) the last sale price of GPU common stock on the New York Stock Exchange on the date of receipt by GPU of the warrant evidencing such rights, and (b) the subscription price, or (2) a minimum price to be supplied by amendment.

D. Warrants will not be issued to record holders of less than fifteen shares. Instead, GPU will pay such holders cash in an amount per right which is the greater of (1) one-fifteenth of the difference between (a) the arithmetic average of the last sale price of GPU common stock on the New York Stock Exchange on the second, third and fourth business days immediately following the record date, and (b) the subscription price, or (2) a minimum price to be supplied by amendment. The shares thus made available to GPU are included in those proposed to be issued and will be available for allotment by GPU as described in paragraphs B, F and G.

E. The offering will not be underwritten nor will GPU enter into any dealer-manager arrangement. GPU does propose, however, to utilize the services of security dealers in soliciting the exercise of the warrants by the initial record holders thereof and in disposing of shares which become available by the making of cash payments to holders of less than fifteen shares, and by rights purchased by GPU, or by rights not exercised by the warrant holders. The soliciting compensation per share to be paid by GPU to the participating dealers will be specified by amendment.

F. GPU will offer to the record holders of fifteen shares or more of its common stock during a period of approximately fifteen days, which will begin not later than six months after the termination of the exchange period, the privilege of purchasing from GPU such number of shares of GPU common stock as, together with the shares theretofore held of record, will result in the holding by such holders of a multiple of ten shares, up to the next 100-share multiple, or any higher 100-share multiple, provided that GPU has shares available for the purpose. The price at which shares of GPU common stock will be sold pursuant to the foregoing privilege will be the

last sale price of GPU's common stock on the New York Stock Exchange on the date of the receipt by GPU of an application of a stockholder for the purchase of such shares except that no shares will be sold below the subscription price.

G. Following the termination of the exchange period and during such period as GPU may determine, which latter period will begin not later than six months after the termination of the exchange period, and end not later than December 31, 1954, participating dealers may purchase from GPU all or any part of such shares as GPU shall make available to them out of shares that had become available to it. The purchase price to be paid to GPU by participating dealers shall be the price then applicable to sales of GPU common stock by participating dealers as determined and announced by GPU on the day of such purchase, and shall not be (a) in excess of the last quoted price asked for shares of GPU common stock on the New York Stock Exchange plus 25 cents per share, or (b) less than the higher of (i) the last previous bid price for such stock or (ii) the subscription price. GPU will pay such participating dealers a purchase fee which will be specified by amendment. In the event any shares thus made available to participating dealers are not purchased by them within 24 hours after notice of availability, GPU may sell such shares to other persons at the price then applicable to sales by participating dealers, as determined and announced by GPU on the day of such sale, provided that an amount per share equal to the compensation to be paid to participating dealers may be allowed by GPU to dealers or brokers purchasing such shares who agree to sell such shares at the price applicable to sales by participating dealers on the date of such sale.

H. GPU may, during any phase of the offering, affect transactions designed to stabilize the market for the rights and shares, but in no event will it acquire, as a result of such transactions, a net long position in excess of 66,642 shares (10 percent of the additional shares to be issued).

GPU requests that the Commission grant an exemption from the competitive bidding requirements of Rule U-50 to the extent that such rule may be applicable to the sale of the additional common stock to participating dealers or others.

The net proceeds from the sale of the additional common stock will be used by GPU to retire short-term bank loans, to make additional investments in its domestic subsidiaries, or to reimburse its treasury for such investments theretofore made, and for other corporate purposes.

GPU states that no State or Federal regulatory agency, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than May 5, 1954, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date said application-declaration, as filed or as hereafter amended, may be granted and permitted to become effective as provided by Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-3022; Filed, Apr. 21, 1954; 8:47 a. m.]

[File No. 70-3234]

EASTERN UTILITIES ASSOCIATES

ORDER AUTHORIZING ISSUE AND SALE TO BANK OF SHORT-TERM PROMISSORY NOTE

APRIL 16, 1954.

Eastern Utilities Associates ("EUA"), a registered holding company, having filed a declaration with this Commission pursuant to section 7 of the Public Utility Holding Company Act of 1935 ("act"), which is summarized as follows:

EUA proposes to issue and sell to The First National Bank of Boston an unsecured promissory note in the principal amount of $2,000,000. Said note will be outstanding for a period not to exceed six months from April 19, 1954, and will bear interest at the prime rate in effect on April 20, 1954 (April 19, 1954, being a legal holiday in Boston). Upon 10 days' written notice said note may be prepaid in whole or in part without premium.

At the present time EUA has outstanding bank indebtedness in the principal amount of $2,000,000 which bears interest at 3¼ percent per annum and matures April 19, 1954. The purpose of said proposed note is to extend or renew this bank indebtedness for a period not to exceed six months. It is contemplated by EUA that the proposed note will be retired through the sale of a sufficient number of its common shares to raise approximately $2,000,000 of equity capital at the earliest practicable date but not later than October 1, 1954, market conditions for the EUA shares being favorable.

EUA's expenses in connection with the issuance of said note, including counsel fees and expenses estimated at $600, are estimated not to exceed $700. It is stated that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

It is requested that the Commission's order become effective upon issuance.

Due notice having been given of the filing of the declaration, and a hearing not having been requested of or ordered by the Commission, and the Commission finding that the applicable provisions of the act are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions contained in Rule U-24, that said declaration be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29150]

MINE RUN SALT FROM JEFFERSON ISLAND, LA., TO ANNISTON, ALA.

APPLICATION FOR RELIEF

APRIL 16, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Salt, mine run, carloads.

From: Jefferson Island, La.

To: Anniston, Ala.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3903, supp. 40.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

MOTOR-RAIL RATES IN THE EAST; SUBSTITUTED SERVICE

APPLICATION FOR RELIEF

APRIL 16, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The New York, New Haven and Hartford Railroad Company and Star Transport Co.

Commodities involved: Semi-trailers, loaded or empty, on flat cars.

Between: Boston, Mass., New Haven, Conn., Providence, R. I., and Springfield, Mass., on the one hand, and Harlem River, N. Y., Elizabeth, or Edgewater, N. J., on the other.

Grounds for relief: Competition with motor carriers.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29154]

PAPER AND PAPER ARTICLES FROM CLYATTVILLE AND ESKAY, GA., TO OFFICIAL AND ILLINOIS TERRITORIES

APPLICATION FOR RELIEF

APRIL 19, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Paper and paper articles, carloads.

From: Clyattville and Eskay, Ga.

To: Points in official and Illinois territories.

Grounds for relief: Rail competition, circuitous routes, to maintain grouping, to apply rates constructed on the basis of the short line distance formula, and additional origins.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1349, supp. 50.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 54-3030; Filed, Apr. 21, 1954; 8:48 a. m.]

[4th Sec. Application 29155]

TOBACCO STEMS FROM NORTH CAROLINA AND VIRGINIA TO POINTS IN WEST VIRGINIA, VIRGINIA, AND GEORGIA

APPLICATION FOR RELIEF

APRIL 19, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Tobacco stems, unground, in bulk, carloads.

From: Points in North Carolina and Virginia.

To: Charles-Town, W. Va., Mt. Jackson, Woodstock, Chilhowie and Berryville and Harrisonburg, Va., and Tifton, Ga.

Grounds for relief: Competition with rail carriers, circuitous routes, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1384, supp. 19.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Secretary.

[F. R. Doc. 54-3031; Filed, Apr. 21, 1954; 8:49 a. m.]

[4th Sec. Application 29156]

FERRO-ALLOYS FROM EMCO, ALA., TO PENNSYLVANIA

APPLICATION FOR RELIEF

APRIL 19, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Ferro-manganese, ferro-silicon, silicon-manganese, zirconium-ferro-silicon and zirconium-ferro-silicon-titanium, carloads.

From: Emco, Ala.

To: Points in Pennsylvania.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1376, supp. 18.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Secretary.

FEDERAL REGISTER

VOLUME 19 NUMBER 79

Washington, Friday, April 23, 1954

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

PART 430—DAIRY PRODUCTS

SUBPART—MILK AND BUTTERFAT PRICE SUPPORT PROGRAM

The U. S. Department of Agriculture has announced a price support program for milk and butterfat for the marketing year April 1954 through March 1955, through purchases by Commodity Credit Corporation (CCC) of dairy products as provided herein.

§ 430.150 *Price support program for milk and butterfat.* (a) The general levels of prices to producers for milk and butterfat will be supported from April 1, 1954, through March 31, 1955, at $3.14 per hundredweight for manufacturing milk of 3.95 percent butterfat (yearly average test) and 56.0 cents per pound of butterfat.

(b) Price support for milk and butterfat will be through purchases by CCC of butter, nonfat dry milk solids and Cheddar cheese offered by manufacturers and handlers, subject to terms and conditions of purchase announcements issued by the Livestock and Dairy Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C. CCC will consider offers for such products at the following prices:

Commodity	Description	Market location	Unit	Price
Butter	U. S. Grade A or higher	Chicago	Pound	$0.5750
Do	do	San Francisco	do	.5950
Do	do	Seattle	do	.5750
Do	do	New York	do	.5825
Do	U. S. Grade B	Chicago	do	.5550
Do	do	San Francisco	do	.5750
Do	do	Seattle	do	.5550
Do	do	New York	do	.5625
Cheddar cheese	U. S. Grade A or higher, standard moisture basis.	United States	do	.3225
Nonfat dry milk solids	Spray process	do	do	.1500
Do	Roller process	do	do	.1325

Offers to sell butter at any point other than the four markets designated in this paragraph will be considered at the price set forth in this paragraph for the designated market named by the seller, less 80 percent of the lowest published domestic railroad carlot freight rate per pound gross weight from such point to such designated market.

(c) The butter shall be salted creamery butter of U. S. Grade B or higher, solid-packed in commercial containers. The nonfat dry milk solids shall be U. S. Extra Grade (except that maximum moisture content shall be 3½ percent), packed in export containers. The Cheddar Cheese shall be U. S. Grade A or higher, packed in commercial domestic containers.

(d) The products purchased shall be produced and located in the continental United States. Purchases will be made in units of not less than tariff minimum carlots for the area where the product is located. Grades and weights shall be evidenced by inspection certificates issued by the U. S. Department of Agriculture.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072, sec. 201, 63 Stat. 1052; 15 U. S. C. 714c, 7 U. S. C. 1446)

Issued this 20th day of April 1954.

[SEAL] J. A. MCCONNELL,
Executive Vice President,
Commodity Credit Corporation.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

CFR SUPPLEMENTS

(For use during 1954)

The following Supplements are now available:

Titles 30–31 ($1.00)
Title 33 ($1.25)
Titles 44–45 ($0.75)

Previously announced: Title 3, 1953 Supp. ($1.50); Title 8 ($0.35); Titles 10–13 ($0.50); Title 16 ($1.00); Title 18 ($0.45); Titles 22–23 ($1.00); Title 24 ($0.75); Title 25 ($0.45); Titles 40–42 ($0.50); Title 49: Parts 1 to 70 ($0.60); Parts 71 to 90 ($0.65); Parts 91 to 164 ($0.45); Parts 165 to end ($0.60)

Order from Superintendent of Documents, Government Printing Office, Washington 25, D. C.

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

WAR CLAIMS COMMISSION

Effective upon publication in the FEDERAL REGISTER, the position listed below is added to § 6.150.

§ 6.150 *War Claims Commission.* • • •
(c) Advisor to the Commissioners on Legislative Policy.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633; E. O. 10440, 18 F. R. 1823, 3 CFR, 1953 Supp.)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] WM. C. HULL,
Executive Assistant.

[F. R. Doc. 54-3066; Filed, Apr. 22, 1954; 8:49 a. m.]

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

HOME LOAN BANK BOARD

Effective upon publication in the FEDERAL REGISTER, paragraph (b) (12) of § 6.142 is revoked, and subparagraph (8) is added to § 6.342 (d).

§ 6.342 *Housing and Home Finance Agency.* • • •
(d) *Home Loan Bank Board.* • • •
(8) One Deputy General Manager, Federal Savings and Loan Insurance Corporation.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633; E. O. 10440, 18 F. R. 1823, 3 CFR, 1953 Supp.)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] WM. C. HULL,
Executive Assistant.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 2]

PART 20—PILOT CERTIFICATES

CAA RULES, POLICIES, AND INTERPRETATIONS

The purpose of this supplement is to set forth the rules, policies, and interpretations of the Administrator relative to Part 20. It contains all information needed by an applicant to prepare for, qualify, and obtain a pilot certificate or rating.

The proposed rules for §§ 20.58–1 through 20.58–3 were published on November 20, 1953, in 18 F. R. 7364. Interested persons were afforded an opportunity to submit written views, data, or argument. Consideration has been given to all relevant data presented. Section 20.42–1 as published on May 12, 1951, in 16 F. R. 4429 is deleted. The following rules, policies, and interpretations are hereby adopted:

§ 20.1–1 *Where to obtain student pilot certificates (CAA policies which apply to § 20.1).* Student pilot certificates may be obtained by qualified applicants from Aviation Safety Agents in Aviation Safety District Offices, or from private and commercial pilot examiners at most airports and flight schools.

§ 20.2–1 *Minors in the armed forces (CAA policies which apply to § 20.2).* An applicant under 21 who is a regular or reserve member of the armed forces or enrolled in an established ROTC or other armed forces training program should indicate such membership on his application and include his military serial number, or attach to the application a written statement from his appropriate commanding officer certifying that the applicant is a member of such armed forces.

§ 20.2–2 *Other minors (CAA interpretations which apply to § 20.2).* Unmarried applicants under 21 years of age must furnish the written consent of either parent or legal or natural guardian in the space provided on the application, or on a separate sheet attached to such application. No consent is required for a married male applicant under 21, but a married female applicant under 21 must furnish the consent of her husband, who may be under 21.

§ 20.4–1 *Language limitation (CAA policies which apply to § 20.4).* A student pilot certificate issued to a person who cannot read, write, speak, and understand the English language will bear the limitation "Not Valid for Flights Requiring the Use of English for Traffic Instructions."

§ 20.4–2 *Removal of limitation (CAA policies which apply to § 20.4).* The language limitation will be removed by an Aviation Safety Agent when the holder demonstrates that he can read, write, speak, and understand English.

§ 20.5–1 *Evidence of meeting physical standards (CAA policies which apply to § 20.5 (a)).* The Administrator, or his representative will accept a first, second, or third-class medical certificate issued within 24 months preceding the date of application as evidence of the applicant's meeting the physical standards.

§ 20.5–2 *Color deficiency limitation (CAA interpretations which apply to § 20.5 (a)).* (a) When an applicant holds a medical certificate bearing the notation "Defective Color Vision," the student pilot certificate will bear the limitation "Not Valid for Night Flight or by Color Signal Control."

(b) This limitation may be removed by the successful completion of a special medical flight test authorized by the CAA Medical Division, W–265, Washington 25, D. C.

§ 20.5–3 *Glider pilot certification of physical condition (CAA policies which apply to § 20.5 (b)).* An applicant for a student glider pilot certificate should either present a medical certificate, or certify on his application that he has no known physical defect which renders him incompetent to pilot a glider.

§ 20.10–1 *Types of certicates, and by whom issued (CAA policies which apply to § 20.10).* (a) Private pilot certificates will be issued to qualified applicants by Aviation Safety Agents or by private and commercial pilot examiners.

(b) Commercial pilot certificates will be issued to qualified applicants by Aviation Safety Agents or by commercial pilot examiners.

(c) Additional aircraft category, class, and type ratings will be issued to qualified applicants by Aviation Safety Agents, or by appropriately rated pilot examiners as follows:

(1) Private pilots; private, commercial or airline transport pilot examiners.

(2) Commercial pilots; commercial, or airline transport pilot examiners.

(d) Instrument ratings will be issued to qualified applicants by instrument or airline transport pilot examiners.

(e) Flight instructor ratings will be issued to qualified applicants by Aviation Safety Agents only.

§ 20.12–1 *Demonstration of aeronautical knowledge (CAA policies which apply to § 20.12).* The applicant for a limited pilot certificate will be given a short examination on the United States air traffic rules. This examination may be written or oral, at the discretion of the agent accepting the application.

§ 20.12–2 *Evidence of meeting physical standards (CAA policies which apply to § 20.12).* The applicant for a limited pilot certificate should present evidence of currently meeting the physical requirements of his own country, or may present a current CAA medical certificate of a grade appropriate to the certificate applied for.

§ 20.12–3 *Eligibility for a limited private pilot certificate (CAA policies which apply to § 20.12).* An applicant who holds a pilot certificate or license issued by his own government which conveys non-commercial pilot privileges, and who meets the pilot experience requirements of § 20.25 may be issued a limited private pilot certificate.

§ 20.12–4 *Eligibility for a limited commercial pilot certificate (CAA policies which apply to § 20.12).* An applicant who holds a pilot certificate or license issued by his own government which conveys commercial pilot privileges, and who meets the pilot experience requirements of § 20.35 may be issued a limited commercial pilot certificate.

§ 20.12–5 *Aircraft and instrument ratings on limited pilot certificates (CAA policies which apply to § 20.12).* (a) A limited pilot certificate will bear those aircraft ratings shown on the pilot certificate issued by the holders own government. In the event the foreign pilot certificate does not list aircraft ratings equivalent to those issued by the United States, the applicant may be issued ratings for those aircraft in which he has flown at least 10 hours as pilot-in-command during the preceding 12 months.

(b) The holder of a limited pilot certificate may obtain an instrument rating by meeting the appropriate experience requirements and passing the presribed examinations and tests.[1]

§ 20.12–6 *Language limitation (CAA policies which apply to § 20.12).* A limited pilot certificate issued to an applicant who is unable to speak and understand the English language will contain the following limitation, or the equivalent: "Not Valid for Flights Requiring the Use of English for Traffic Instructions."

§ 20.22–1 *Language limitation (CAA policies which apply to § 20.22).* A private pilot certificate issued to a person who cannot read, write, speak, and understand the English language will bear the limitation "Not Valid for Flights Requiring the Use of English for Traffic Instructions."

§ 20.22–2 *Removal of limitation (CAA policies which apply to § 20.22).* The language limitation will be removed by an Aviation Safety Agent when the holder demonstrates that he can read, write, speak, and understand English.

§ 20.23–1 *Evidence of meeting physical standards (CAA policies which apply to § 20.23 (a)).* The Administrator or his representative will accept a first-, second-, or third-class medical certificate issued within 24 months preceding the date of application as evidence of the applicant's meeting the physical standards.

§ 20.23–2 *Color deficiency limitation (CAA policies which apply to § 20.23 (a)).* (a) When an applicant holds a medical certificate bearing the notation "Defective Color Vision," the private pilot certificate will bear the limitation "Not Valid for Night Flight or by Color Signal Control."

[1] A Radio Operator's License is required by the Federal Communications Commission for the operation of a radio transmitter in an aircraft, as elsewhere. The possession of an FCC radio license is not a prerequisite for a CAA instrument rating, however, because the FCC allows radio transmission by an unlicensed person if a licensed operator is in the airplane. Foreign nationals are not eligible for FCC radio operator licenses.

(b) This limitation may be removed by the successful completion of a special medical test authorized by the CAA Medical Division, W–265, Washington 25, D. C.

§ 20.23–3 *Glider pilot certification of physical condition (CAA policies which apply to § 20.23 (b)).* An applicant for a private glider pilot certificate should either present a medical certificate or certify on his application that he has no known physical defect which renders him incompetent to pilot a glider.

§ 20.24–1 *Demonstration of aeronautical knowledge (CAA policies which apply to § 20.24).* (a) Applicants will be required to answer correctly, within one hour, 45 of the 50 questions on the examination provided by the Administrator appropriate to the category of aircraft for which rating is sought.[3]

(b) The applicant's student pilot certificate will be endorsed by an Aviation Safety Agent to show the results obtained on the examination.

§ 20.25–1 *Evidence of flight experience (CAA policies which apply to § 20.25).* Flight experience required by this paragraph should be substantiated by a logbook maintained in accordance with the requirements of § 43.43 of this subchapter.

§ 20.25–2 *Qualifying dual instruction (CAA interpretations which apply to § 20.25 (a)).* The words dual instruction as used in § 20.25 (a) are defined in § 20.74. In the case of foreign or military pilots, such instruction must be given by a pilot authorized by the licensing authority of his country or the branch of his military service.

§ 20.26–1 *Demonstration of skill, general (CAA interpretations which apply to § 20.26)*—(a) *Quality of performance.* The applicant will be required to demonstrate his ability to exercise reasonable judgment, coordination, and smoothness in all required flight maneuvers in the following manner:

(1) *Judgment.* Exercise of reasonable judgment will be demonstrated when the conduct of the flight maneuver results in (i) compliance with Part 60 of this subchapter, (ii) flight within each operating limitation of the aircraft being used, (iii) avoidance of critical situations which require corrective action by the agent or examiner to maintain continued safe operation, and (iv) the observance of accepted good operating practices for flight conditions encountered.

(2) *Coordination.* Exercise of reasonable coordination will be demonstrated when there are no unnecessary conspicuous slips or skids in the conduct of the flight maneuver.

(3) *Smoothness.* Exercise of reasonable smoothness will be demonstrated when the conduct of the flight maneuver in gust free air results in a positive and definite change of aircraft attitude without any unintentional abrupt or sudden aircraft motions.

(b) *Modification and elimination of required maneuvers.* Required maneuvers will be modified or eliminated only when their performance is prohibited by the aircraft's flight manual or the operating limitations of the aircraft's airworthiness certificate. When this is the case, the pilot certificate issued will be limited to aircraft of that type.

(c) *Applicants with physical limitations.*[3] (1) The additional maneuvers and tests required for applicants who have certain structural physical limitations, will be those which will demonstrate that the limitation does not adversely affect the ability to perform the necessary cockpit procedures and motions to effect safe flight in one or more types of aircraft.

(2) The operating limitations entered on the applicant's rating record of his certificate, upon successful completion of all other tests and maneuvers, will be only those found necessary by the applicant's inability to cope with one or more operating conditions.

§ 20.26–2 *Flight test; airplanes (CAA policies which apply to § 20.26 (a)).* (a) The private pilot practical examination in airplanes will be given in two phases. The failure of any maneuver or procedure will constitute the failure of the phase of which that maneuver is a part, and of the flight test. In the event of such failure, the applicant for reexamination will be required to repeat the phase, or phases, failed.

(b) The phases of the private pilot practical examination and flight test maneuvers required in airplanes are:[4]

(1) *Phase I: Piloting technique.*

Pre-flight check and oral equipment examination.
Starting, warm-up, and stopping.
Taxiing, or sailing and docking.
Run-up.
Flight at normal speeds—straight and level, medium turns, climbing and gliding turns.
Flight at minimum controllable speeds—straight and level, medium turns, climbing and gliding turns.
Stalls, with and without power.
Turns about a point.
Normal takeoffs and landings.
Crosswind takeoffs and landings.
Emergencies: (a) Short field and soft field takeoff, and power-off landings in single-engine airplanes; (b) engine-out procedure in multiengine airplanes.

(2) *Phase II: Cross-country.*

Cross-country flight planning.
Cross-country flying.

§ 20.26–3 *Flight test, gliders (CAA policies which apply to § 20.26 (b)).* (a) The agent or examiner will accompany the applicant in a glider or an airplane during his demonstration of stalls and slow flight. All other items on the flight test may be observed from the ground.

(b) The private glider pilot flight test will be divided in two phases. The failure of any maneuver or procedure constitutes the failure of the phase of which it is a part, and of the flight test. Upon reexamination, the applicant must repeat the phase failed.[4]

(1) *Phase I: Basic techniques.*

Pre-flight check and oral equipment examination.
Auto, auto pulley, or winch tow; or airplane tow.
360° approaches, right and left.
Accuracy landings.

(2) *Phase II: Special and critical maneuvers.*

Stalls and slow flight (may be demonstrated in an airplane).

§ 20.26–4 *Flight test, rotorcraft (CAA policies which apply to § 20.26 (c)).* (d) The private pilot flight test in rotorcraft will be given in two phases. The failure of any maneuver or procedure will constitute the failure of the phase of which it is a part, and of the flight test. In the event of such failure, the phase failed will be repeated on reexamination.

(b) The phases of the private pilot flight test on rotorcraft, and the required maneuvers are as follows: [4]

(1) *Phase I: Basic techniques.*

Preflight inspection.
Engine and rotor starting and stopping, cockpit procedures.
Taxiing.
Normal takeoffs and landings.
High altitude takeoffs and roll-on landings.
Crosswind takeoffs and landings.
Climbs and descents.
Emergencies.

(2) *Phase II: Precision maneuvers.*

Hovering—upwind, downwind, and crosswind.
Hovering turns.
Turns with medium banks.
S turns.
Pattern flying.

§ 20.33–1 *Evidence of meeting physical standards (CAA policies which apply to § 20.33 (a)).* The Administrator, or his representative, will accept a first or second-class medical certificate issued within 12 months preceding the date of the application as evidence of the applicant's meeting the physical standards.

§ 20.33–2 *Color deficiency limitation (CAA policies which apply to § 20.33 (a)).* (a) When the applicant holds a medical certificate bearing the notation "Defective Color Vision," the commercial pilot certificate will bear the limitation "Not Valid for Night Flight or by Color Signal Control."

(b) This limitation may be removed by the successful completion of a special medical flight test authorized by the CAA Medical Division, W–265, Washington 25, D. C.

§ 20.33–3 *Glider pilot certification of physical condition (CAA policies which apply to § 20.33 (b)).* An applicant for a commercial glider pilot certificate should either present a third class or better medical certificate issued within the preceding 24 months or certify on his application that he has no known physical defect which renders him incompetent to pilot a glider.

§ 20.34–1 *Demonstration of aeronautical knowledge; powered aircraft (CAA policies which apply to § 20.34 (a)).* The applicant for a commercial pilot certificate with a rating on powered aircraft will be required to pass within 5 hours a written examination provided by the Administrator. A passing grade of 70 percent is required. Applicants who pass the written examination will be given a report of grade achieved. This report, and reports previously issued, will be accepted within a maximum period of 24 months as evidence of having met this certificate requirement.

§ 20.34–2 *Demonstration of aeronautical knowledge; gliders (CAA interpretations which apply to § 20.34 (b)).* Applicants for commercial glider pilot ratings need pass only that portion of the commercial pilot written examination relating to Civil Air Regulations.

§ 20.35–1 *Evidence of flight experience (CAA policies which apply to § 20.35).* Flight experience required by § 20.35 should be substantiated by a logbook maintained in accordance with § 43.43 of this subchapter.

§ 20.35–2 *International operating limitations (CAA policies which apply to § 20.35 (a) (6)).* (a) A commercial pilot who does not meet the experience requirements of § 20.35 (a) (3) and/or § 20.35 (a) (4) will, if otherwise qualified, receive a certificate with one of the following endorsements, as appropriate: "Holder does not meet the night flight requirements of ICAO," or "Holder does not meet the instrument flight requirements of ICAO," or, "Holder does not meet the night and instrument flight requirements of ICAO."

(b) A new certificate without these endorsements will be issued at any time by an Aviation Safety Agent to the holder of a commercial pilot certificate who presents documentary evidence (see § 43.43 of this subchapter) that he has met the appropriate requirement.

(c) The above endorsements do not restrict nor affect in any way the privileges of the certificate for flight in the United States or its possessions. However, they do restrict the holder of the certificate from piloting airplanes commercially in foreign countries (members of ICAO) without specific consent.

§ 20.36–1 *Demonstration of skill; general (CAA policies which apply to § 20.36).* The practical examination for a commercial pilot certificate will consist of a flight test given by an Aviation Safety Agent or a commercial pilot examiner. This flight test may be taken either before or after the written examination is passed.

§ 20.36–2 *Flight test; airplanes (CAA policies which apply to § 20.36 (a)).* (a) The commercial pilot flight test in airplanes will be given in two phases. The failure of any maneuver or procedure constitutes the failure of the phase of which that maneuver is a part, and of the flight test. After such failure, the applicant for reexamination will be required to repeat the phase, or phases, failed.

(b) The phases of the commercial pilot flight test in airplanes and the required maneuvers and procedures are as follows: [4]

(1) *Phase I: Basic techniques.*

Pre-flight check and oral equipment examination.
Starting, taxiing, and run-up.
Normal takeoffs and accuracy landings.
Crosswind takeoffs and landings.
Airport traffic pattern.
Climbs and glides.
Slips.
Emergencies.

(2) *Phase II: Precision maneuvers.*

Spirals.
Pylon eights.
720° power turns.
Flight at minimum controllable speed.
Stalls.
Engine-out procedure (if test taken in multiengine airplane).

§ 20.36–3 *Flight test, helicopters (CAA policies which apply to § 20.36 (a)).* (a) The commercial pilot flight test in helicopters will be given in two phases. The failure of any maneuver or procedure will constitute the failure of the phase of which that maneuver is a part, and of the flight test. After such failure, the applicant for reexamination will be required to repeat the phase, or phases, failed.

(b) The phases of the commercial pilot flight test in helicopters, and the required maneuvers and procedures are as follows: [4]

(1) *Phase I: Basic techniques.*

Pre-flight check and oral equipment examination.
Engine and rotor starting and stopping, and cockpit procedures.
Taxiing.
Normal takeoffs and landings.
Crosswind takeoffs and landings.
Running takeoff and roll-on landing.
Climbs and descents.
Airport traffic pattern.
Emergencies.

(2) *Phase II: Precision maneuvers.*

Hovering—upwind, downwind, and crosswind.
Hovering time.
Pattern flying with constant heading.
S turns.
Turns with medium banks
Rapid decelerations (quick stops)

§ 20.36–4 *Flight test; gliders (CAA policies which apply to § 20.36 (b)).* (a) The agent or examiner conducting the test will accompany the applicant for a commercial glider pilot flight test in a glider or an airplane during his demonstration of stalls and slow flight. Other items on the test may be observed from the ground, or from within the glider.

(b) The commercial glider flight test will be given in two phases. The failure of any maneuver constitutes the failure of the phase of which that maneuver is a part, and of the flight test. After such failure, the applicant for reexamination will be required to repeat the phase, or phases, failed.

(c) The phases of the commercial pilot glider flight test, and the required maneuvers and procedures are as follows: [4]

(1) *Phase I: Basic techniques.*

Pre-flight check and oral equipment examination.
Auto, auto pulley, or winch tow.
Airplane tow.
360° approaches, right and left.
Accuracy landings.

(2) *Phase II: Special and critical maneuvers.*

Spirals.
Stalls and slow flight (may be demonstrated in an airplane).

§ 20.40–1 *Demonstration of competency for additional aircraft ratings (CAA interpretations which apply to § 20.40 (a).* The applicant for an additional aircraft rating will be required to establish his competency by demonstrating enough of the maneuvers and procedures appropriate to his basic pilot certificate to prove his proficiency in all operations not covered by ratings he already holds. These maneuvers and procedures must be performed with the degree of competency specified for the issuance of the basic certificate he holds.

§ 20.40c–1 *Aircraft types (CAA policies which apply to § 20.40c).* Aircraft type ratings will be issued for only those aircraft of which at least one has been certificated for civil use.[5] Ratings may be issued on prototype and experimental aircraft bearing United States civil registration and experimental or restricted category airworthiness certificates.

§ 20.41–1 *Demonstration of knowledge (CAA policies which apply to § 20.41 (b)).* The applicant for a flight instructor rating will be required to pass, before any practical examination is given, a written examination furnished by the Administrator which consists of two sections relating to (a) the fundamentals of flight instruction, and (b) the performance and analysis of flight maneuvers appropriate to the category of aircraft for which he desires a flight instructor rating. The examination must be completed within 4 hours at one sitting. To pass, the applicant must obtain a grade of 70 percent on each section.

§ 20.41–2 *Prerequisites for taking the written examination (CAA policies which apply to § 20.41 (b)).* The flight instructor written examination will be given to any person who meets the experience requirements of § 20.41 (c).

§ 20.41–3 *Demonstration of skill; aircraft categories (CAA policies which apply to § 20.41 (d)).* Each certificate issued with a flight instructor rating will bear a notation showing the category of aircraft in which the holder has demonstrated his competence to give flight instruction. The flight instructor categories issued are: Flight Instructor, Airplane; Flight Instructor, Glider; Flight Instructor, Helicopter.

[3] Complete information on the coverage of the private pilot written examination is found in the CAA booklet "Questions and Answers for Private Pilots", for sale at most airports, and at the U. S. Government Printing Office, Washington, D. C. (20 cents).

[3] See § 29.5 of the subchapter for Waiver of Physical Standards.

[4] See Appendix A for details of flight test requirements. Appendix A is not filed with Federal Register Division.

[4] See Appendix A for details of flight test requirements. Appendix A is not filed with the Federal Register Division.

[5] A current list of such large aircraft is found in Appendix B of this manual. Appendix B is not filed with the Federal Register Division.

§ 20.41–4 *Demonstration of skill; general (CAA policies which apply to § 20.41 (d)).* (a) The applicant for a flight instructor rating will be required to pass a practical examination which includes a flight demonstration of all common flight training maneuvers, and a demonstration of the ability to give clear, accurate, and effective flight instruction. The practical examination will be conducted by Aviation Safety Agents only.

(b) The practical examination will be conducted in two phases, Performance of Flight Training Maneuvers and Flight Instruction Methods. The failure of any portion of a phase will constitute the failure of that phase and of the practical examination. An applicant who has failed the practical examination for a flight instructor rating will be required to repeat the complete test upon reexamination. However, if the reexamination is given by the agent who previously tested and disapproved the applicant, he may, at his own discretion, require only the phase of the test which was previously found unsatisfactory.

(c) The CAA Flight Instruction Manual "Technical Manual No. 100," will be used as the basis for evaluating the applicant's knowledge of flight maneuvers and the instruction methods used. The manual may also be used for an open book test in which the applicant will locate and discuss for the agent the material on any principle or maneuver.

§ 20.41–5 *Practical examination; airplanes (CAA policies which apply to § 20.41 (d)).*—(a) *Phase I: Performance of flight training maneuvers.* (1) The applicant will be required to demonstrate his ability to perform correctly the standard flight training maneuvers and procedures as they would be shown to primary flight students.

(2) On flight tests in airplanes, these maneuvers and procedures include, but are not limited to:[4]

Preflight check and oral equipment examination.
Taxiing or sailing and docking.
Run-up.
Normal takeoffs and accuracy landings.
Crosswind takeoffs and landings.
Flight at normal speeds—straight and level, turns, climbs, and glides.
Flight at minimum controllable speed—straight and level, turns, climbs, and glides.
Stalls with and without power.
Spins (two turns each way).
Spirals (three turns each way).
720° power turns.
Pylon eights.
Airport traffic pattern.
Traffic control procedures.
Simulated emergencies—short and soft field takeoffs; slips; landing to a spot using power, flaps, and slips as desired; and simulated forced landings.
Cross-country flight planning.

(b) *Phase II: Flight instruction methods.* The applicant will be required to demonstrate his knowledge of and skill in applying effective instruction methods. This demonstration will include the following:

(1) *Knowledge of effective instruction methods.* To demonstrate his knowledge of effective instruction, the applicant will be required to orally describe and illustrate the principles of good instruction involving (i) advance instructor preparation, (ii) student preparation, (iii) instructor demonstration, (iv) student participation, and (v) instructor followup inspections.

(2) *Knowledge of safe flying habits and principles.* To demonstrate his knowledge of safe flight habits and principles to follow by a pilot in extricating himself from a critical situation, the applicant will be required to describe orally basic habits and principles that are applicable to getting lost, running low on fuel, encountering turbulent air, getting caught above clouds or in adverse atmospheric conditions, unexpected radio aid shut down, motor trouble, and operations in high temperatures/altitudes and in mountainous terrain.

(3) *Correctness and clarity of explanations.* To demonstrate his ability to explain clearly and correctly, the applicant will answer orally questions such as those a student might ask, and will simulate instruction—using the agent as a student—in the performance of maneuvers and procedures, both on the ground and in flight. The applicant will be required to instruct the agent as he would a beginning student, and the agent will attempt to fly various maneuvers just as the applicant directs. Explanations and directions should be clear, concise, and correct.

(4) *Recognition and correction of student errors.* To demonstrate his ability to recognize and correct errors in flight performance, the applicant will be required to analyze the performance of the agent when he simulates the performance of a typical student, and make appropriate corrections for any errors committed. The applicant should recognize not only the apparent error, but the basic fault which caused it, and should require a correction which a student can readily understand. For example, repetition of hazardous errors—such as stalling in turns, should be dealt with in a different manner from minor errors—such as gaining or losing altitude.

§ 20.41–6 *Practical examination; gliders (CAA policies which apply to § 20.41 (d)).*—(a) *Phase I: Performance of flight training maneuvers.* The applicant will be required to demonstrate the correct and complete performance of standard flight training maneuvers and procedures used in glider flight training. Tolerances for the flight test maneuvers will be those allowed a commercial pilot applicant. (See § 20.36–4.) These maneuvers and procedures include, but are not limited to: [4]

Preflight check and oral equipment examination.
Auto, auto pulley, or winch tow.
Airplane tow.
360° approaches.
Accuracy landings.
Spirals.
Stalls and slow flight.
Spins.

(b) *Phase II: Flight instruction methods.* The applicant will be required to complete satisfactorily the same demonstration of ability, using a glider, as is required for applicants with airplanes under § 20.41–5, Phase II.

§ 20.41–7 *Practical examination; helicopters (CAA policies which apply to § 20.41 (d)).*—(a) *Phase I: Performance of flight training maneuvers.* The applicant will demonstrate the correct and competent performance of standard flight training maneuvers and procedures used in helicopter flight training. Tolerances for the flight test maneuvers will be those allowed a commercial pilot applicant. (See § 20.36–3.) These maneuvers and procedures include, but are not limited to:[4]

Preflight check and oral equipment examination.
Starting, stopping, and cockpit procedures.
Taxiing (with helicopters and appropriately equipped).
Normal takeoffs and landings.
Crosswind takeoffs and landings.
Running takeoff and roll-on landing.
Autorotative approaches; straight, 180° and 360°.
Autorotative landing.
Hovering; upwind, crosswind, and downwind.
Hovering turns.
Turns with medium banks.
S turns.
Pattern flying with constant heading.
Pattern flying with changing heading.
Rapid decelerations.
Climbs and descents.
Emergencies.

(b) *Phase II: Flight instructor methods.* The applicant will be required to complete satisfactorily the same demonstration of ability, using a helicopter, as that required for applicants with airplanes under § 20.41–5, Phase II.

§ 20.42–1 *Demonstration of aeronautical knowledge (CAA policies which apply to § 20.42 (a)).* (a) The applicant must pass, within 5 hours, the instrument written examination furnished by the Administrator, which consists of three sections: Civil Air Regulations, Meteorology, and Radio Navigation. All three sections will be given at one sitting. To pass, a grade of 70 percent is required on each section.

(b) An applicant for an instrument rating who is the holder of a private pilot certificate will be required to demonstrate compliance with § 20.34 (a) by passing, in addition to the instrument rating written examination, the section of the commercial pilot examination which covers Civil Air Regulations. A passing grade on the instrument rating written examination is accepted as evidence of the knowledge of navigation and meteorology required by § 20.34 (a).

(c) In the event of the failure of any of the three parts, the applicant will retake only the part failed upon reexamination. The instrument rating written examination will be conducted by Aviation Safety Agents only.

§ 20.42–2 *Prerequisites for taking the instrument written (CAA policies which apply to § 20.42 (a)).* The applicant for the instrument rating written examination will be required to show that he meets the experience requirements of § 20.42 (b).

[4] See Appendix A for details of flight test requirements. Appendix A is not filed with the Federal Register Division.

§ 20.42–3 *Qualifying instrument flight experience (CAA interpretations which apply to § 20.42 (b) (2)).* (a) Instrument time under simulated instrument flight conditions means instrument flight practice or instruction (1) in an aircraft while under a hood or other device which limits the pilot's range of vision to the cockpit, or (2) in a synthetic trainer.

(b) Instrument time in actual flight means the time spent controlling an aircraft in flight by reference to instruments only, either in actual instrument weather or under a hood or similar device.

§ 20.42–4 *Demonstration of skill; general (CAA policies which apply to § 20.42 (c) and (d)).* (a) No instrument flight test will be given until the applicant has passed the required written examination.

(b) The flight test will be conducted in two phases:

(1) Instrument flying, and;

(2) Navigation and approach procedures: The failure of any item in either phase constitutes the failure of that phase, and of the flight test. In the event of failure, the applicant will be required to repeat the phase, or phases, failed upon reexamination.

(c) The applicant will be required to demonstrate his ability to perform all items on Phase I by the use of the minimum aircraft equipment and instrumentation required for instrument flight by § 43.30 (c) of this subchapter (primary panel). He may use all available equipment and instrumentation for Phase II.

(d) The phases and required maneuvers and procedures for the instrument rating flight test are as follows: [4]

(1) *Phase I: Basic instrument flying technique.*

Straight and level flight at normal, approach, and minimum safe speeds.
Turns, climbs, and descents at normal, approach, and minimum control speeds.
Stalls.
Steep turns.
Recovery from unusual attitudes.
Engine-out procedure on tests taken in multiengine aircraft.

(2) *Phase II: Radio navigation and approach procedures.*

Estimating arrival times.
Use of radio equipment.
Orientation.
Beam bracketing.
Locating range station.
Instrument letdown and approach procedure.
Airway traffic control procedures.
Missed approach procedure.

§ 20.42–5 *Instrument flight tests for helicopter and glider pilots (CAA policies which apply to § 20.42 (e)).* Instrument flight tests will be given in airplanes only, but are not restricted to any aircraft category.

§ 20.50–1 *Where to obtain applications (CAA policies which apply to § 20.50).* (a) Application forms are obtainable from a representative of the Administration or one of its regional, district, or field offices.

(b) Applications for a student pilot certificate may be mailed to an Aviation Safety District Office. All other applications are to be presented in person to an Aviation Safety Agent or a designated pilot examiner.

(c) Applicants qualifying on the basis of military competency (§20.55), or for a flight instructor rating (§20.41), will apply to an Aviation Safety Agent.

§ 20.51–1 *Reissuance of certificates held by aliens (CAA policies which apply to § 20.51 (c)).* Pilot certificates held by individuals other than United States citizens, which are about to expire, or have expired, will be reissued by Aviation Safety Agents upon receipt of application for renewal in accordance with the current citizenship qualifications.

§ 20.52–1 *Issuance of temporary pilot certificates (CAA policies which apply to § 20.52).* Temporary pilot certificates are issued to qualified applicants by Aviation Safety Agents and designated pilot examiners pending the examination of the applicants' records and the issuance of certificates of greater duration by the Administrator.

§ 20.54–1 *Validity dates of expired certificates (CAA interpretations which apply to § 20.54 (b)).* A private pilot certificate issued or last endorsed on or after January 1, 1941; or a commercial pilot certificate issued or last endorsed on or after July 1, 1941, was valid June 30, 1947, unless revoked, suspended, or otherwise terminated.

§ 20.54–2 *Reissuance of certificates (CAA policies which apply to § 20.54 (b)).* (a) Certificates which have expired in accordance with § 20.54 (a) will be reissued upon application to an Aviation Safety Agent or an ASDO. Such reissuance constitutes a certificate issuance, and current required ICAO qualification notations will be made a part thereof.

(b) The holder of a valid pilot certificate who so desires may voluntarily exchange it for a photographically issued type of wallet size by presenting it with an application to an Aviation Safety Agent.

§ 20.55–1 *Demonstration of aeronautical knowledge; private or commercial pilot (CAA policies which apply to § 20.55).* The applicant for a private or commercial pilot rating will be required to accomplish satisfactorily within one hour, an examination on Parts 43 and 60 of this subchapter with a passing grade of 70 percent.

§ 20.55–2 *Evidence of membership or civilian employment and of flight status; private or commercial pilot (CAA policies which apply to § 20.55).* (a) An official identification card indicating that the applicant is a member of the armed forces of the United States, or a civilian employee of the ferry or transport services thereof, is acceptable documentary evidence.

(b) Documentary evidence of flight status will consist of (1) official orders to solo flight status, or (2) a copy of USAF Form 5 or a copy of a USN flight log properly endorsed to show solo flight status, or (3) official orders showing graduation from and rating as a pilot by a military flying school, or (4) a copy of orders showing duty involving flying as a rated pilot, or (5) a properly executed Certificate of Pilot Status, Form ACA–2042, signed by the appropriate commanding officer.

§ 20.55–3 *Evidence of discharge or release; private or commercial pilot (CAA policies which apply to § 20.55).* Documentary evidence of honorable discharge or release from the armed forces should consist of an original or photostatic copy of such discharge or release. Discharge or removal from flight status for reasons of flight proficiency or disciplinary action will not be accepted as qualification for the issuance of a pilot certificate.

§ 20.55–4 *Requirements for aircraft category, class, and type ratings (CAA policies which apply to § 20.55 (c)).* (a) Documentary evidence of pilot-in-command flight time will consist of certified military logbooks, USAF Forms 5, or official written statements from commanding officers (on Form ACA–2042 or the equivalent). In addition, checkout sheets may be required for ratings for aircraft on which the applicant's total flight time is marginal.

(b) Any holder of a valid private or commercial pilot certificate is eligible for additional ratings on the basis of pilot-in-command experience in military aircraft.

§ 20.55–5 *Requirements for instrument rating (CAA policies which apply to § 20.55 (d)).* (a) The requirements for the issuance of an instrument rating will be deemed met if the applicant holds an equivalent, or better, military instrument card (AF Form 8A (green), or Navy NAV–AER–4120D (green)).

(b) The military pink and white instrument cards do not convey privileges equivalent to those of the CAA instrument rating.

§ 20.58–1 *Airman identification card (CAA rules which apply to § 20.58).* An Airman Identification Card, Form ACA–2135, is issued by the Administrator and may be used to meet the requirements of § 20.58.

§ 20.58–2 *Other identification cards acceptable to the Administrator (CAA rules which apply to § 20.58).* Identification cards which are acceptable in lieu of Form ACA–2135 to meet the requirements of § 20.58 are as follows:

(a) Aircrewman Identification Card, Form ACA–2116.1, issued by CAA.

(b) Crew Member Certificate, Form ACA–2116.1, issued by CAA. This certificate is a current revision of the Aircrewman Identification Card.

(c) Current identification cards issued to members on active duty or on reserve status by:

(1) U. S. Army.
(2) U. S. Navy.
(3) U. S. Air Force.
(4) U. S. Marine Corps.
(5) U. S. Coast Guard.

[4] See Appendix A for details of flight test requirements. Appendix A not filed with Federal Register Division.

(6) U. S. Merchant Marine.
(7) National Guard.
(8) Civil Air Patrol.

§ 20.58–3 *Application (CAA rules which apply to § 20.58).* An applicant for an airman identification card shall comply with the following procedure:

(a) *Application.* The applicant shall apply in person to an Aviation Safety Agent, or an Aviation Safety District Office.

(b) *Form.* Application for Airman Identification Card, Form ACA–2134, shall be completed in single copy, typed or printed in ink, and contain precise information on each item.

(c) *Proof of identity.* The applicant shall furnish proof of his identity. The agent may exercise his discretion in the method by which he identifies the applicant. Identification of the applicant may be established by one or more of the following means:

(1) Airman Identification Card, Form ACA–935, issued by the CAA to the applicant during World War II.

(2) The agent's knowledge of the applicant's identity.

(3) The applicant's identification by a person known to the agent.

(4) Combinations of identification cards and licenses held by the applicant.

(5) Comparison of the applicant's signature with that on other cards and licenses held by him.

(d) *Proof of place and date of birth.* The following documentary evidence is satisfactory evidence of place and date of birth:

(1) Airman Identification Card, Form ACA–935, issued by CAA during World War II. (If he held this card and lost it, he may write to CAA, Airman Records Branch, Washington 25, D. C., and obtain confirmation that it was issued to him and the information it contained.)

(2) Birth certificate. (When the applicant's birth certificate does not contain the exact name now used by him, he shall explain the difference on the application form.)

(3) Baptismal record, if it contains the full name and place and date of birth.

(4) Naturalization papers, if place and date of birth are shown.

(5) Passport, expired or current.

(6) Aircrewman Identification Card, or Crew Member Certificate, Form ACA–2116.1.

(7) Statement from any State or Federal Government agency which has the applicant's birth certification on file.

(8) Statement from any military, state, municipal, local, or Federal Government agency which has established, by investigation or otherwise, the applicant's place and date of birth.

Applicants who cannot furnish any of the documents listed in subparagraphs (1) through (8) of this paragraph may present affidavits from attending physician, either parent, brother, sister, relatives, or acquaintances who have personal knowledge of the applicant's place and date of birth.

Military identification cards, service records, discharge papers, drivers' licenses, and the like are not acceptable documentary evidence of place and date of birth.

(e) *Evidence of citizenship.* The following documentary evidence is satisfactory evidence of citizenship. There are no citizenship requirements for the issuance of an airman identification card other than furnishing evidence of the citizenship claimed. This evidence may consist of one or more of the following:

(1) Any document listed in paragraph (d) of this section if citizenship is claimed in the country of birth.

(2) Naturalization papers.

(3) Currently valid passport.

(4) Statement from an apropriate official of a foreign government that the applicant is a citizen of that country.

(5) Civil Aeronautics Board waiver of citizenship requirements for the issuance of an airman certificate to stateless or other persons.

(6) Certified statements from persons, courts, or agencies in authority on cases of derivative citizenship, uncompleted naturalization, or other complex citizenship status. Such statements must contain information on the current status of the applicant's citizenship.

(f) *Photographs.* The applicant shall furnish two photographs which are:

(1) Taken from the same negative.

(2) One-inch square, full face, head only.

(3) Taken within the past twelve months.

(4) Readily recognizable as photographs of applicant.

(g) *Fingerprints.* The applicant shall be fingerprinted only by an Aviation Safety Agent or other CAA employee authorized by the agent.

(h) *Reissuance of lost card.* An applicant who has lost his Airman Identification Card, Form ACA–2135, may obtain another by making application exactly as required for his original card, or by:

(1) Writing to the CAA Airman Records Branch, W–253, Washington 25, D. C., and explaining the circumstances of the loss, and requesting a letter verifying that such card had been issued, and

(2) Presenting the letter and two photographs, as required for original issuance, to an Aviation Safety Agent who will issue a duplicate card.

§ 20.58–4 *Scheduled air carrier airmen (CAA interpretations which apply to § 20.58).* An airman certificated under § 20.58 is not required to hold an identification card when he is exercising the privileges of his certificate in operations conducted by a scheduled air carrier. This includes any operation in which the airman is carrying out his duties as an employee of a scheduled air carrier.

§ 20.58–5 *Other airman certificate (CAA interpretations which apply to § 20.58).* An identification card which meets the requirements of § 20.58 for pilots will also meet the identification card requirements for any other airman certificates which he may hold.

§ 20.60–1 *Who conducts examinations and tests (CAA policies which apply to § 20.60).* The examinations and tests required by this part for a certificate or rating will be conducted by the persons indicated below:

Type of examination	Conducted by—
Written exams (for all certificates.	Aviation safety agents.
Practical exams:	
Private pilot	Aviation safety agents, private and commercial pilot examiners.
Commercial pilot	Aviation safety agents, and commercial pilot examiners.
Additional aircraft ratings.	Aviation safety agents, and private or commercial pilot examiners according to certificate held. Also, ATR examiners for holders of commercial pilot certificates.
Instrument rating	Aviation safety agents, instrument rating and ATR examiners.
Instructor rating	Aviation safety agents.
Physical examination:	
First class	Designated ATR medical examiners.
Second class	Designated ATR and second class medical examiners.[1]
Third class	Designated ATR, second class medical examiners, any doctor of medicine licensed to practice in the locality in which examination is obtained.

[1] See Regulations of the Administrator, § 406.12a of this title, as amended December 30, 1950, for physical examination procedures for military pilots.

§ 20.60–2 *Who accompanies applicant on flight test (CAA policies which apply to § 20.60.* An Aviation Safety Agent or a CAA designated pilot examiner will accompany the applicant for a flight test (except certain glider tests) in the aircraft during the performance of all required maneuvers. In addition, the agent or examiner may, at his discretion, require the performance of solo takeoffs and landings, unless the Aircraft Flight Manual prohibits solo operation of the aircraft used.

§ 20.61–1 *Physical prerequisites for flight tests (CAA policies which apply to § 20.61).*—(a) *Original private and commercial flight tests, powered aircraft.* A CAA first or second class medical certificate will be acceptable for flight tests for a commercial pilot certificate if issued within the preceding 12 months. A first, second, or third class medical certificate will be acceptable for a private pilot certificate, if issued within the preceding 24 months.

(b) *Original private and commercial flight tests, and flight instructor tests, gliders.* The applicant should certify that he has no known physical defect which would render him incompetent to pilot gliders, or present a CAA medical certificate of any class.

(c) *Instrument, flight instructor, and additional aircraft ratings—powered aircraft.* The holder of a private or commercial pilot certificate who applies for an additional rating will be required to hold a medical certificate appropriate to his basic certificate and which has been issued within the time limits specified in § 20.61–1.

§ 20.62–1 *Certificated aircraft usable for flight tests (CAA interpretations which apply to § 20.62 (a)).* (a) An aircraft which contains a current United States airworthiness certificate may be used for a flight test, provided it is in airworthy condition; the certificate contains no limitations excluding pilot flight tests; its operating limitations permit the carriage of the applicant, the examiner, and all necessary equipment and fuel; and its equipment and instruments are all in good working condition.

(b) A foreign registered aircraft having a valid airworthiness certificate issued by the proper authorities of the country in which the aircraft is registered may be used for pilot flight tests at the discretion of the agent or examiner. When required, the applicant for the flight test will obtain an appropriate certificate or other authorization from the foreign government involved authorizing the agent or examiner to act in such capacity aboard the foreign aircraft.

(c) Military aircraft on operational status may also be used at the discretion of the agent or examiner, provided permission from the appropriate military authority is obtained.

§ 20.62–2 *Airplanes usable for instrument rating flight tests (CAA interpretations which apply to § 20.62 (a)).* An airplane used for an instrument flight test must be equipped, in addition to the equipment required for instrument flight by § 43.30 (c) of this subchapter, with a hood, or other device which limits the pilot's range of vision to the cockpit for simulating instrument flight conditions. This installation must exclude all outside visual reference for the pilot, yet not restrict the vision of the safety pilot, agent, or examiner. Sufficient visibility for the safety pilot is required to permit clearance for turns in either direction. When incomplete visibility to the left is afforded, in side-by-side seating airplanes, a safety observer must be provided to maintain a watch to the left. This observer must be in uninterrupted contact with the safety pilot.

§ 20.63–1 *Time and place of examinations (CAA policies which apply to § 20.63).* (a) Each CAA region publishes an itinerary schedule monthly or quarterly showing when and where its Aviation Safety Agents will be available for written and practical examinations. These itinerary schedules are posted at all active airports and at Aviation Safety District Offices.

(b) Appointments for examinations by designated examiners should be arranged directly with the examiners concerned.

§ 20.64–1 *Individuals authorized to give instruction for reexamination (CAA policies which apply to § 20.64 (a) and (c)).* An applicant who has failed a subject of the prescribed theoretical examination may be reexamined after 5 hours of instruction on such subject from an individual holding a ground instructor certificate or a flight instructor rating with a rating for the particular subject.

(Sec. 205, 52 Stat. 984, U. S. C. 425. Interpret or apply secs. 601, 602, 607, 52 Stat. 1007, 1008, 1011, as amended; 49 U. S. C. 551, 552, 557)

This supplement shall become effective June 1, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 30]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.106 *Amber civil airway No. 6 (Jacksonville, Fla., to United States-Canadian Border)* is amended by changing the last portion to read: "From the intersection of the east course of the Cleveland, Ohio, radio range and the northeast course of the Akron, Ohio, radio range via the Perry, Ohio, nondirectional radio beacon to the intersection of the southwest course of the Clear Creek, Ontario, Canada, radio range and the United States-Canadian Border."

2. Section 600.294 is amended to read:

§ 600.294 *Red civil airway No. 94 (Providence, R. I., to Hyannis, Mass.).* From the Providence, R. I., radio range station via the Otis AFB, Falmouth, Mass., nondirectional radio beacon located at Lat. 41°36'15", Long. 70°32'31", to the Hyannis, Mass., nondirectional radio beacon, excluding the portion which lies more than 4 miles north of the centerline between this Otis AFB nondirectional radio beacon and the Hyannis nondirectional radio beacon.

3. Section 600.615 is amended to read:

§ 600.615 *Blue civil airway No. 15 (Huntington, W. Va., to Akron, Ohio).* From the Huntington, W. Va., nondirectional radio beacon via the Columbus, Ohio, radio range station to the Akron, Ohio, radio range station.

4. Section 600.681 *Blue civil airway No. 81 (Charleston, W. Va., to United States-Canadian Border)* is amended by changing the first portion to read: "From the Charleston, W. Va., radio range station via the Zanesville, Ohio, nondirectional radio beacon; Akron, Ohio, radio range station to the intersection of the northeast course of the Akron, Ohio, radio range and the east course of the Cleveland, Ohio, radio range."

5. Section 600.6002 *VOR civil airway No. 2 (Seattle, Wash., to Boston, Mass.)* is amended by deleting that portion which reads: "Alexandria omnirange 137° True radial" and substituting in lieu thereof: "Alexandria omnirange 136° True radial."

6. Section 600.6004 *VOR civil airway No. 4 (Seattle, Wash., to Washington, D. C.)* is amended between the St. Louis, Mo., omnirange station and the Evansville, Ind., omnirange station to read: "St. Louis, Mo., omnirange station, including a north and a south alternate; Centralia, Ill., omnirange station, including a north alternate; Evansville, Ind., omnirange station, including a south alternate;".

7. Section 600.6065 is added to read:

§ 600.6065 *VOR civil airway No. 65 (Bonner Springs, Kans., to St. Joseph, Mo.).* From the point of intersection of the Kansas City, Mo., omnirange 231° True and the St. Joseph omnirange 178° True radials to the St. Joseph, Mo., omnirange station.

8. Section 600.6141 is amended to read:

§ 600.6141 *VOR civil airway No. 141 (Nantucket, Mass., to Concord, N. H.).* From the Nantucket, Mass., omnirange station via the intersection of the Nantucket omnirange 331° True and the Boston omnirange 137° True radials; Boston, Mass., omnirange station to the Concord, N. H., omnirange station.

9. Section 600.6157 is amended to read:

§ 600.6157 *VOR civil airway No. 157 (Lawrenceville, Va., to Richmond, Va.).* From the Lawrenceville, Va., omnirange station to the Richmond, Va., LF radio range station, excluding the portion which overlaps the Camp Pickett danger area (D–44).

(Sec. 205, 52 Stat. 984, as amended: 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended: 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t., April 27, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54–3067; Filed, Apr. 22, 1954; 8:49 a. m.]

[Amdt. 30]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone, and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Sub-

committee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.615 is amended to read:

§ 601.615 *Blue civil airway No. 15 control areas (Huntington, W. Va., to Akron, Ohio).* All of Blue civil airway No. 15.

2. Section 601.1127 is added to read:

§ 601.1127 *Control area extension (Pasco, Wash.).* That airspace beginning at a point at lat. 46°13'03", long. 119°03'45" within 5 miles either side of lines drawn 179° True and 269° True extending from that point to their intersection with the northeast boundary of Blue civil airway No. 32; that airspace bounded by lines 5 miles south of and 10 miles north of and parallel to a line drawn 89° True from the point of beginning extending to the northwest boundary of VOR civil airway No. 103 on the south, to long. 118°43'30" on the north, bounded on the west by long. 119°03'45", and including the airspace within 5 miles either side of the northwest course of the Walla Walla, Wash., radio range from the radio range station northwestward to long. 118°43'30".

3. Section 601.2252 is amended to read:

§ 601.2252 *El Toro, Calif., control zone.* Within a 5-mile radius of the El Toro, Calif., Marine Corps Air Station, within a 3-mile radius of Orange County Airport, Santa Ana, Calif., and within 5 miles either side of the south and north courses of the El Toro radio range extending from Amber civil airway No. 1 on the south to Amber civil airway No. 2 and Green civil airway No. 5 on the north.

4. Section 601.2254 is amended to read:

§ 601.2254 *Falmouth, Mass., control zone.* Within a 5-mile radius of Otis Air Force Base and within 2 miles either side of a line bearing 39° True extending from the Otis AFB to a point 10 miles northeast of the Air Force Base, excluding the portion which overlaps Camp Edwards danger area (D–14).

5. Section 601.4044 *Green civil airway No. 4 (Los Angeles, Calif., to Philadelphia, Pa.)* is amended by deleting the following reporting point: "the intersection of the east course of the Columbus, Ohio, radio range and a track 360° magnetic from the Zanesville, Ohio, nondirectional radio beacon;" and by adding the following reporting point in lieu thereof: "the intersection of the east course of the Columbus, Ohio, radio range and the southwest course of the Akron, Ohio, radio range;".

6. Section 601.4615 is amended to read:

§ 601.4615 *Blue civil airway No. 15 (Huntington, W. Va., to Akron, Ohio).* No reporting point designation.

7. Section 601.6065 is added to read:

§ 601.6065 *VOR civil airway No. 65 control areas (Bonner Springs, Kans., to St. Joseph, Mo.).* All of VOR civil airway No. 65.

8. Section 601.6141 is amended to read:

§ 601.6141 *VOR civil airway No. 141 control areas (Nantucket, Mass., to Concord, N. H.).* All of VOR civil airway No. 141.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t., April 27, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-3068; Filed, Apr. 22, 1954; 8:49 a. m.]

TITLE 23—HIGHWAYS

Chapter I—Bureau of Public Roads, Department of Commerce

PART 1—REGULATIONS UNDER THE FEDERAL-AID ROAD ACT OF JULY 11, 1916, AS AMENDED AND SUPPLEMENTED

MISCELLANEOUS AMENDMENTS

Sections 1.1 (e), 1.5, 1.8 (b), 1.11, 1.17 (b), and 1.18 of the regulations under the Federal-Aid Road Act of July 11, 1916, as amended and supplemented, published and effective January 16, 1951, are hereby amended to read as follows, effective upon publication in the FEDERAL REGISTER.

§ 1.1 *Definitions.* • • •

(e) *Latest available Federal census.* The latest available Federal decennial census, except for the establishment of "urban area" boundaries as provided in § 1.5.

§ 1.5 *Establishment of "urban area" boundaries.* Prior to the inclusion in a proposed program of any project involving funds authorized for urban areas, the boundaries of the particular urban area or areas involved shall be submitted by the State highway department and approved by the Commissioner, in accord with the terms of the act. For the purposes of this section, the term "latest available Federal census" as used in the act, shall mean the latest published official census, decennial or special. Projects in urban areas for which the boundaries have been established may be approved prior to the determination of the boundaries of all urban areas within a State.

§ 1.8 *Surveys, plans, specifications, and estimates.* • • •

(b) The State highway department may utilize the services of well-qualified and suitably equipped engineering organizations of counties, municipalities, or other local subdivisions, acting under its direction, for making surveys, preparing plans, specifications, and estimates, and for supervising the construction of any project. Inasmuch as the act requires each State to maintain at its own expense a State highway department having adequate powers and suitably equipped and organized to discharge the duties required, no part of the cost of maintaining the central office of a State highway department or the central office of any publicly maintained engineering organization which may be utilized by the State shall be paid with Federal funds.

(2) The State highway department may utilize the services of the engineering organizations of the affected railroad companies for railway-highway crossing projects subject to the same limitations as to the general overhead costs.

(3) The services of consulting engineers and private engineering organizations may be utilized on a contract basis for design, preparation of plans, specifications, and estimates, and in special cases for construction engineering other than general supervision, only under one or more of the following circumstances: (i) The work is of unusual character requiring highly specialized knowledge and experience; (ii) it would not be possible to enlarge the staff of personnel available to the State so as to perform the engineering services on the project within a reasonable time; or (iii) the State has a program substantially larger than normal or expected in future years and it desires to employ consulting engineers rather than build up its organization for a comparatively short period.

§ 1.11 *Right-of-way.* Federal participation in right-of-way shall be restricted to the costs of right-of-way actually acquired subsequent to the date of approval of the program which includes the project for which such costs are incurred. Such costs may include costs incurred and paid, pursuant to State law, for damages to the adjacent property not actually acquired, resulting from the taking of the right-of-way or construction of the highway thereon. Such costs also may include costs for portions of right-of-way acquired for future use. Only such right-of-way costs as are in fact paid out from public funds of the State or a subdivision (as distinguished from a mere transfer from one department to another, or some similar action) shall be eligible for reimbursement. However, reimbursement may be made in proper cases (including cases involving a mere transfer of funds or similar action) for costs actually incurred in the readjustment, repair, or restoration of facilities or improvements made necessary by reason of the construction of the highway.

§ 1.17 *Traffic signs and signals.* • • •

(b) The rights-of-way provided for Federal-aid highway projects shall be held inviolate for public highway purposes and no signs (other than those specified in paragraph (a) of this section), posters, billboards, roadside stands or other private installations shall be permitted within the right-of-way limits, except under circumstances approved by the Commissioner on portions of right-of-way acquired for future use.

§ 1.18 *Diversion of gasoline and motor-vehicle taxes; reduction of apportionment.* If the Secretary shall find at any time that lesser amounts of the revenues derived from State motor-vehicle registration fees, licenses, gasoline taxes, and other special taxes on motor-vehicle owners and operators in any State are required by its laws to be applied to highway purposes than were required to be so applied by the laws of such State on June 18, 1934, he shall take such action as he may deem necessary to comply with the provisions of section 12 of the act of June 18, 1934 (48 Stat. 995), by reducing the first Federal-aid apportionment made to a State after the date of a finding that such State has diverted contrary to the aforesaid act, by an amount not in excess of one-third of the total apportionment to which the State otherwise would be entitled under the Federal-Aid Road Act of 1916, as amended. In any such reduction, each class of apportioned Federal-aid funds; namely, primary, secondary, urban, and interstate, shall bear the same proportionate share of the reduction.

(Sec. 18, 42 Stat. 216, as amended; 23 U. S. C. 19)

Recommended:

[SEAL] F. V. DU PONT,
Commission of Public Roads.

Issued: April 16, 1954.

WALTER WILLIAMS,
Acting Secretary of Commerce.

[F. R. Doc. 54-3063; Filed, Apr. 22, 1954; 8:48 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

In Part 127, International Postal Service: Postage Rates, Service Available and Instructions for Mailing (39 CFR Part 127), make the following changes:

a. In § 127.10 *Small packets* make the following changes:

1. Insert "Spanish Guinea" in alphabetical order in the list of countries shown in paragraph (g).

2. Strike "Spanish Guinea" from the list of countries appearing under paragraph (h).

b. In § 127.169 *Principal exceptions to indemnity* amend the last sentence of paragraph (l) to read as follows: "In the case of insured mail with Canada, however, the time limit may be waived when it is satisfactorily established that the delay was unavoidable and not the fault of the claimant."

c. In § 127.273 *Hungary* amend paragraph (b) (4) to read as follows:

(4) *Observations.* (i) To be admitted to Hungary as gift shipments, parcels must contain only articles for the personal use of the addressee or members of his family. An addressee may not receive more than one gift parcel per month, or more than 88 pounds of gift articles per year. Gift parcels are subject to customs duty which must be paid by the addressees.

(ii) Preserved food in tin cans or other hermetically sealed containers must not be sent in gift parcels.

(iii) Contents of gift parcels are limited to the items shown on the following list, and no addressee may receive amounts exceeding the quotas indicated.

Item No.	Description of articles	Yearly quotas
1	Chocolate	6 pounds 9 ounces.
2	Sweets	7 ounces.
3	Cheese, butter, margarine, oil, lard	6 pounds 9 ounces.
4	Flour, macaroni, pastry	8 pounds 12 ounces.
5	Rice	6 pounds 9 ounces.
6	Meat, smoked (bacon, ham, sausage)	11 pounds.
7	Fruit, fresh and dried	11 pounds.
8	Candy	4 pounds 6 ounces.
9	Powdered milk	5 pounds 9 ounces.
10	Food for infants	11 pounds.
11	Men's, women's, and children's coat, overcoat, raincoat, etc.	1.
12	Suits	2.
13	Women's dress	1.
14	Women's blouses, skirts, slacks, etc.	2.
15	Overalls and aprons	2.
16	Boys' and girls' clothing	2 items.
17	Clothing for infants	6 items.
18	Articles for infants (including those of rubber)	12.
19	Jumpers, pullovers (knitted)	2.
20	Hats, caps, scarfs, shawls	2.
21	Gloves	1 pair.
22	Women's stockings	3 pairs.
23	Socks	6 pairs.
24	Men's women's and children's hose	2 pairs.
25	Rubbers, galoshes	1 pair.
26	Men's women's and children's underwear	3 items.
27	Neckties	3.
28	Handkerchiefs	12.
29	Towels	3.
30	Bed clothing	1 item.
31	Blankets	1.
32	Wool cloth	3¼ yards.
33	Cotton, linen and hemp cloth	6½ yards.
34	Rayon cloth	4½ yards.
35	Wool or cotton yarn	6 pounds 9 ounces.
36	Leather articles	2.
37	Articles of plastic	1.
38	Cosmetics (powder, cream, toilet water, perfume)	10½ ounces.
39	Tooth paste, mouth wash	10½ ounces.
40	Rouge, lipstick (including holder)	2 articles.
41	Soap and soap powder	6 pounds 9 ounces.
42	Razor blades	50.
43	Small personal items including lighters, safety razors, eyeglasses, pocket knives, combs, etc	Not exceeding 100 forints in value.
44	Small household articles	Not exceeding 100 forints in value.
45	Toys	2.
46	Writing and drawing materials, including pencils, fountain pens, rulers	1 item or 1 set.
47	Cigarettes and tobacco	1 pound 1¼ ounces.
48	Medicines, drugs, and therapeutic articles	Medicinally justifiable quantities.

d. In § 127.357 *Spanish Guinea (Rio Muni and the Islands of Fernando Po, Annobon, Elobey and Corisco)* amend the second stentence of paragraph (a) (1) to read as follows: "Small packets accepted."

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] ABE MCGREGOR GOFF,
Solicitor.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter Q—Leases and Permits on Restricted Indian Lands

PART 171—LEASING AND PERMITTING OF RESTRICTED INDIAN LANDS AND OTHER LANDS ADMINISTERED BY THE BUREAU OF INDIAN AFFAIRS FOR FARMING, FARM PASTURE, AND BUSINESS

APPLICABILITY OF REGULATIONS; NAVAJO AND HOPI LANDS

Section 171.3 is amended to read as hereinafter indicated and there is added a new § 171.30:

§ 171.3 *Applicability of regulations.* The regulations of this part are intended to be generally applicable but are subject to the special exceptions provided in §§ 171.24 to 171.30, inclusive.

§ 171.30 *Navajo and Hopi lands.* Any restricted Indian lands owned by the Navajo Tribe, members thereof, or associations of such members, or by the Hopi Tribe, members thereof, or associations of such members, may be leased by the Indian owners, with the approval of the Commissioner, Bureau of Indian Affairs, or his duly authorized representative, for public, religious, educational, recreational, or business purposes, including the development or utilization of natural resources in connection with operations unders such leases, except oil and gas and other minerals. All leases so granted shall be for a term of not to exceed twenty-five years, but may include provisions authorizing their renewal for an additional term of not to exceed twenty-five years. Restricted allotments of deceased Indians may be leased under this section, for the benefit of their heirs or devisees, in the circumstances and by the persons prescribed in the act of July 8, 1940 (54 Stat. 745; 25 U. S. C. 380).

(R. S. 161; 5 U. S. C. 22. Interpret or apply sec. 5, 64 Stat. 46; 25 U. S. C. 635)

DOUGLAS MCKAY,
Secretary of the Interior.

APRIL 19, 1954.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Subchapter C—Areas Subject to Special Laws

[Circular 1873]

PART 115—REVESTED OREGON AND CALIFORNIA RAILROAD AND RECONVEYED COOS BAY WAGON ROAD GRANT LANDS IN OREGON

PERMITS FOR RIGHTS-OF-WAY FOR LOGGING ROADS; STATEMENT OF POLICY

Section 115.155 (h) is amended to read as follows:

§ 115.155 *Statement of policy.* * * *

(h) The Regional Administrator may, in his discretion, issue short term right-of-way permits for periods not exceeding three years, subject to one-year extensions in his discretion. Such permits shall specify the volume of timber which may be carried over the right-of-way and the area from which such timber may be logged. The permits shall be revocable by the Regional Administrator, the Director, or the Secretary for violation of their terms and conditions or of these regulations or if hazardous conditions result from the construction, maintenance or use of the rights-of-way by the permittees or those acting under their authority. As a condition for the granting of such permits, the applicant must comply with § 115.162 (a) (1), (2), and (d) to the extent that rights-of-way and road use rights are needed to remove government timber offered for sale in the same general area during the period for which the short term right-of-way is granted.

(28 Stat. 635, as amended; 43 U. S. C. 956)

DOUGLAS MCKAY,
Secretary of the Interior.

APRIL 16, 1954.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Misc. 64031]

CALIFORNIA

PARTIALLY REVOKING DEPARTMENTAL ORDER OF MARCH 28, 1907 WITHDRAWING PUBLIC LANDS FOR USE OF THE FOREST SERVICE

APRIL 19, 1954.

Upon the recommendation of the Department of Agriculture and in accordance with Departmental Order No. 2583, section 2.22 (a) of August 16, 1950, it is ordered as follows:

The order of the Secretary of the Interior of March 28, 1907 withdrawing certain public lands in California for use as ranger stations by the Forest Service in the administration of the Tahoe National Forest is hereby revoked so far as it affects the following-described lands:

MOUNT DIABLO MERIDIAN

T. 20 N., R. 14 E.,
Sec. 14, NE¼ NW¼.

The tract described contains 40 acres.

The lands which comprise a part of the Tahoe National Forest shall become subject to the public-land laws relating to national forest lands at 10:00 a. m. on the 35th day from the date of this order.

EARL G. HARRINGTON,
Acting Assistant Director.

[F. R. Doc. 54-3051; Filed, Apr. 22, 1954; 8:45 a. m.]

Bureau of Reclamation

SHOSHONE PROJECT, WYOMING

ORDER OF REVOCATION

MARCH 10, 1954.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby revoke Departmental Order of May 2, 1919, in so far as said order affects the following described lands; provided, however, that such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereafter described:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 53 N., R. 94 W.,
Sec. 7, Lots 3, 4,
Secs. 17 to 21, incl., all,
Sec. 28, N½, N½S½,
Secs. 29 and 30, all.
T. 53 N., R. 95 W.,
Sec. 1, SW¼,
Secs. 2 and 3, all,
Secs. 9 to 15, incl., all,
Secs. 20 to 24, incl., all,
Sec. 25, W½,
Sec. 26, N½, SE¼,
Sec. 27, N½,
Sec. 28, N½.

The above areas aggregate 15,539.95 acres.

S. W. CROSTHWAIT,
Acting Commissioner.

[Misc. 644398]

I concur. The records of the Bureau of Land Management will be noted accordingly.

The lands are located in the Little Dry Creek area. Annual precipitation does not exceed 8 inches. Native vegetation consists of salt sage, greasewood and grass. There is no known water supply available for irrigation. Topography varies from gently sloping to rolling hills. Soils range from sandy silt loam to heavy clay. Any application that is filed will be considered on its merits.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public land laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Inquiries regarding the lands shall be addressed to the Manager, Land and Survey Office, Bureau of Land Management, Cheyenne, Wyoming.

EARL G. HARRINGTON,
Acting Assistant Director,
Bureau of Land Management.

APRIL 16, 1954.

[F. R. Doc. 54-3053; Filed, Apr. 22, 1954; 8:46 a. m.]

DEPARTMENT OF AGRICULTURE

Farmer Cooperative Service

[Farmer Cooperative Service Order 4]

AUTHORITY AND ORDER OF PRECEDENCE OF OFFICIALS TO ACT AS ADMINISTRATOR OF FARMER COOPERATIVE SERVICE

Farmer Cooperative Service Order No. 2, dated February 15, 1954, is amended to read as follows:

Kelsey B. Gardner, Acting Director, Management Services Division, is hereby authorized to execute and perform all functions, powers, authority, and duties pertaining to the office of Administrator of the Farmer Cooperative Service, in the event that Joseph G. Knapp, Administrator, is unavailable to act, by reason of absence or for any other cause.

Martin A. Abrahamsen, Acting Director, Purchasing Division, is hereby authorized to execute and perform all functions, powers, authority, and duties pertaining to the office of Administrator of the Farmer Cooperative Service, in the event that Joseph G. Knapp, Administrator, and Kelsey B. Gardner, Acting Director of the Management Services Division, are unavailable to act, by reason of absence or for any other cause.

J. Kenneth Samuels, Acting Director, Marketing Division, is hereby authorized to execute and perform all functions, powers, authority, and duties pertaining to the office of Administrator of the Farmer Cooperative Service, in the event that Joseph G. Knapp, Administrator, Kelsey B. Gardner, Acting Director of the Management Services Division, and Martin A. Abrahamsen, Acting director of the Purchasing Division, are unavailable to act, by reason of absence or for any other cause.

Harold D. Walker, Director, Administrative Management Division, is hereby authorized to execute and perform all functions, powers, authority, and duties pertaining to the office of Administrator of the Farmer Cooperative Service, in the event that Joseph G. Knapp, Administrator, Kelsey B. Gardner, Acting Director of the Management Services Division, Martin A. Abrahamsen, Acting Director of the Purchasing Division, and J. Kenneth Samuels, Acting Director of the Marketing Division, are unavailable to act, by reason of absence or for any other cause.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29157]

VARIOUS COMMODITIES FROM POINTS IN OFFICIAL TERRITORY TO POINTS IN OFFICIAL AND SOUTHERN TERRITORIES

APPLICATION FOR RELIEF

APRIL 20, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and Frank Van Ummersen, Agents, for carriers parties to schedules listed in exhibit A of the application, pursuant to fourth-section order No. 17220.

Commodities involved: Various commodities, carloads.

From: Points in official territory.

To: Points in official and southern territories.

Grounds for relief: Competition with rail carriers, circuity.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29158]

SUGAR FROM NORTH ATLANTIC PORTS TO CINCINNATI, OHIO, AND LOUISVILLE, KY.

APPLICATION FOR RELIEF

APRIL 20, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and Frank Van Ummersen, Agents, for carriers parties to schedules listed below.

Commodities involved: Sugar, beet or cane, also liquid or invert sugar, carloads.

From: North Atlantic ports and points grouped therewith.

To: Cincinnati, Ohio, and Louisville, Ky.

Grounds for relief: Competition with rail carriers, market competition, circuity, and to maintain port rate relations.

Schedules filed containing proposed rates: C. W. Boin, Agent, I. C. C. No. A-874, supplement 29; Frank Van Ummersen, Agent, I. C. C. No. 573, supp. 20.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

PRESIDENT'S CONFERENCE ON ADMINISTRATIVE PROCEDURE

COMMITTEE ON HEARING OFFICERS

The Committee on Hearing Officers, of the President's Conference on Administrative Procedure, will hold public hearings on May 18 and 19, 1954, in Room 532, Federal Trade Commission Building, Washington, D. C. The subject will be the appointment and status of federal hearing officers. All interested persons and organizations are invited to present views. The Committee solicits written communications on the subject as well as oral statements made at the hearings.

Those wishing to appear should so notify the Committee by May 10, so that an orderly schedule may be arranged. The address is: Committee on Hearing Officers, Room 576, Federal Trade Commission Building, Washington 25, D. C.

The subject of the hearings has been broken down into questions for convenience in consideration, as follows:

Qualifications and recruitment. What are the necessary qualifications of a hearing officer? What are the best sources of persons who would likely make competent hearing officers, and how should they be recruited?

Selection and appointment. Should the Civil Service Commission's present system of administration of section 11 of the Federal Administrative Procedure act be continued, or should it be changed, and, if so, how? Or should section 11 be amended? If so, should selection and appointment be made by the President, by the agency, by an authority such as an Office of Administrative Procedure, or by another method? Should an applicant's qualifications be appraised prior to selection by an authority independent of the selecting authority? If so, what should be the composition, qualifications, method of appointment, tenure, and compensation of the appraising authority?

Administration. Should a hearing officer be an agency employe as at present, or should he be an employe of a central office such as an Office of Administrative Procedure but assigned to an agency either on a permanent basis or on a temporary basis? Should his office be located in the agency's quarters or in a separate central office?

If he should be appointed by or be an employe of a central office such as an Office of Administrative Procedure, then should such an office be an independent agency or be placed within one of the executive departments or agencies? What should be the composition, qualifications, method of appointment, tenure, and compensation of such an office?

Tenure. Should a hearing officer serve for life, for a term of years (if so, how many), or at the pleasure of some person (if so, whom)?

Removal. Should a hearing officer be removed for cause and, if so, should specific grounds be contained in the charges? Should he be removed under Civil Service Commission reduction-in-force rules? Should he be entitled to a hearing in any case of removal?

Compensation and promotion. What level or levels of compensation are required to attract competent persons? Should all hearing officers receive the same compensation? If not, should it be of the same level throughout an agency? If not, should it vary within an agency according to subject matter, level of work difficulty, or both? If compensation should vary within an agency, who should evaluate for promotion and who should promote?

The Committee invites views on any or all of the foregoing questions.

Committee on Hearing Officers, President's Conference on Administrative Procedure.

EARL W. KINTNER, *Chairman.*

FEDERAL REGISTER

VOLUME 19 NUMBER 80

Washington, Saturday, April 24, 1954

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10528

ADDITION OF THE MARGINAL WHARF AREA TO SAND ISLAND MILITARY RESERVATION, TERRITORY OF HAWAII

WHEREAS by Executive Order No. 3358 of November 24, 1920, certain lands on Sand Island and Quarantine Island, Oahu, Territory of Hawaii, were set aside for military purposes, and such lands now constitute a portion of Sand Island Military Reservation; and

WHEREAS it is deemed desirable and in the public interest that there be added to the said reservation that certain adjoining parcel of land known as the Marginal Wharf Area; subject, however, to possible future use of such parcel of land for Reserved Channel purposes:

NOW, THEREFORE, by virtue of the authority vested in me by section 91 of the act of April 30, 1900, 31 Stat. 159, as amended by section 7 of the act of May 27, 1910, 36 Stat. 447, and as President of the United States, the following-described parcel of land known as the Marginal Wharf Area, located at Sand Island, Kaholaloa, Honolulu, Oahu, Territory of Hawaii, is hereby added to and reserved as a part of Sand Island Military Reservation and placed under the jurisdiction and control of the Department of the Army for military purposes; subject, however, to possible future use of such parcel of land for Reserved Channel purposes in accordance with the establishment of the Reserved Channel and the Future Project Line by the Acting Secretary of War on May 31, 1935:

Being a portion of the land conveyed to the United States of America by deeds of: Dowsett Company, Limited, dated June 30, 1902, and recorded in the Bureau of Conveyances at Honolulu, Territory of Hawaii, in Liber 241 on pages 260–264; Alfred W. Carter, George R. Carter and H. M. Von Holt, Trustees, dated July 9, 1902, and recorded in the Bureau of Conveyances at Honolulu, aforesaid, in Liber 241 on pages 264–265; and Oahu Railway and Land Company, dated October 16, 1902, and recorded in the Bureau of Conveyances at Honolulu, aforesaid, in Liber 241 on pages 265–269.

Beginning at a concrete monument at the west corner of this piece of land, the coordinates of the said point of beginning referred to Government Survey Triangulation Station "U. S. E. North Base", being 3,279.39 feet North and 3,282.53 feet West, thence running by azimuths measured clockwise from true South:

1. 216° 40′ 318.84 feet;
2. 279° 47′ 194.39 feet along Kalihi Channel;
3. 304° 32′ 2,868.99 feet along same;
4. 34° 32′ 400.00 feet along Honolulu Harbor;
5. 124° 32′ 3,057.39 feet along Sand Island Military Reservation (Tract 1, Executive Order No. 3358 of November 24, 1920) to the point of beginning; and containing an area of 27.845 acres, more or less.

EXECUTIVE ORDER 10529

PARTICIPATION BY FEDERAL EMPLOYEES IN STATE AND LOCAL CIVIL DEFENSE PRE-EMERGENCY TRAINING PROGRAMS

By virtue of the authority vested in me by the Constitution and statutes of the United States, including the Federal Civil Defense Act of 1950, 64 Stat. 1245, as amended, it is hereby ordered as follows:

SECTION 1. In arranging for the use of personnel of Federal departments and agencies for civil-defense purposes in time of emergency and for their coordination with State and local civil-defense plans in consonance with the provisions of section 3 of Executive Order No. 10346 of April 17, 1952, the Federal Civil Defense Administrator, after consultation with the head of a department or agency, may recommend that the services of such personnel of the said department or agency as have volunteered their services and have been selected for civil-defense assignments be made available for participation in the program of a State or of any political sub-division thereof for training, prior to an emergency, in the performance of civil-defense duties.

SEC. 2. After consideration of the recommendation of the Federal Civil Defense Administrator, the head of a

Federal department or agency, or such officer as the head thereof may designate, may from year to year authorize such of the said personnel of such department or agency as he may designate to participate in pre-emergency training programs and test exercises in cooperation with any State or political sub-division thereof, and such duties shall be performed on assignment by the particular Federal department or agency, subject to the following conditions:

(a) Personnel so assigned shall at all times remain subject to the administrative jurisdiction and control of their Federal department or agency;

(b) The period of official time that may be authorized for any such assignment pursuant to this order shall not exceed a total of forty working hours for any person during a calendar year; and

(c) There shall be satisfactory evidence from State or local civil defense authorities that such personnel served or participated in such programs or exercises pursuant to specific request of a public governmental body or organization established pursuant to and in accordance with a State civil defense law.

SEC. 3. During any period or periods in which such personnel shall be engaged in said civil-defense training duties under authority of this order, they shall continue to be compensated in usual course by their Federal department or agency, and shall continue in their status as Federal employees for all purposes. Where travel is involved in connection with the performance of such training duties, travel allowances and expenses may be authorized in accordance with the Standardized Government Travel Regulations.

SEC. 4. This order shall not be construed as restricting or limiting the activities of officers or employees of the Federal Civil Defense Administration in the performance of their functions and duties.

SEC. 5. As used in this Order:

(a) The term "personnel" shall mean persons who are in a full time pay status as civilian officers or employees of the United States Government.

(b) The term "State" shall mean any of the several States of the United States, the District of Columbia, each of the Territories and possessions of the United States, and the Commonwealth of Puerto Rico.

DWIGHT D. EISENHOWER

RULES AND REGULATIONS

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 30]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.330 *Navel Orange Regulation 30*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 14 (18 F. R. 5638), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on April 22, 1954, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date of this section.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., April 25, 1954, and ending at 12:01 a. m., P. s. t., May 2, 1954, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 300,300 boxes;

(iii) District 3: Unlimited movement;

(iv) District 4: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(4) As used in this section, "handled," "handler," "boxes," "prorate base," "District 1," "District 2," "District 3," and "District 4" shall have the same meaning as when used in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 23d day of April, 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Grapefruit Reg. 200]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.680 *Grapefruit Regulation 200*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than April 26, 1954. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until April 26, 1954; the recommendation and supporting information for continued regulation subsequent to April 25, 1954, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on April 20; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., April 26, 1954, and ending at 12:01 a. m., e. s. t., May 10, 1954, no handler shall ship:

(i) Any white seeded grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet;

(ii) Any white seedless grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2 Russet;

(iii) Any white seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iv) Any white seedless grapefruit, grown in Regulation Area I, that grade U. S. No. 2 Russet, U. S. No. 2, or U. S. No. 2 Bright, (a) which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or (b) which are of a size larger than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(v) Any white seedless grapefruit, grown in Regulation Area I, that grade U. S. No. 1 Russet, U. S. No. 1 Bronze, or U. S. No. 1 Golden, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(vi) Any white seedless grapefruit, grown in the State of Florida, that grade U. S. No. 1, U. S. No. 1 Bright or U. S. Fancy, which are of a size smaller than a size that will pack 112 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(vii) Any white seedless grapefruit, grown in Regulation Area II, that grade U. S. No. 2 Russet, U. S. No. 2, U. S. No. 2 Bright, U. S. No. 1 Russet, U. S. No. 1 Bronze or U. S. No. 1 Golden, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(viii) Any pink grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2 Russet.

(2) As used in this section, "handler," "ship," "Growers Administrative Committee," "Regulation Area I," and "Regulation Area II" shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 1 Russet," "U. S. No. 1," "U. S. No. 1 Bronze," "U. S. No. 1 Golden," "U. S. No. 1 Bright," "U. S. Fancy," "U. S. No. 2," "U. S. No. 2 Bright," "U. S. No. 2 Russet," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: April 21, 1954.

[Orange Reg. 256]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.679 *Orange Regulation 256*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than April 26, 1954. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order and will so continue until April 26; the recommendation and supporting information for continued regulation subsequent to April 25, 1954, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on April 20; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, except Temple oranges; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., April 26, 1954, and ending at 12:01 a. m, e. s. t., May 10, 1954, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 288 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) (i) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet," "standard pack," and "standard nailed box," shall have the same meaning as when used in the revised United States Standards for Florida Oranges (§§ 51.1140 to 51.1186 of this title).

(ii) Shipments of Temple oranges, grown in the State of Florida, are subject to the provisions of Orange Regulation 244 (§ 933.647; 18 F. R. 7380).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: April 21, 1954.

[Lemon Reg. 534]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.641 *Lemon Regulation 534*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 18 F. R. 6767), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on April 21, 1954, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., April 25, 1954, and ending at 12:01 a. m., P. s. t., May 2, 1954, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 450 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 533 (19 F. R. 2225) and made a part of this section by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 22d day of April 1954.

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign Commerce, Department of Commerce

Subchapter B—Export Regulations

[6th Gen. Rev. of Export Regs., Amdt. 86 [1a]]

PART 370—SCOPE OF EXPORT CONTROL BY DEPARTMENT OF COMMERCE

PART 371—GENERAL LICENSES

PART 372—PROVISIONS FOR INDIVIDUAL AND OTHER VALIDATED LICENSES

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 376—PERIODIC REQUIREMENTS LICENSE

PART 380—AMENDMENTS, EXTENSIONS, TRANSFERS

MISCELLANEOUS AMENDMENTS

1. Section 370.4 *Exportations authorized by government agencies other than BFC* is amended in the following particulars:

The footnote numeral 1 is inserted following the heading of paragraph (a) *Arms, ammunition, and implements of war; helium*, and the following related footnote is added:

[1] Arms, ammunition and implements of war must be rendered useless beyond the possibility of restoration, before they can be licensed by the Bureau of Foreign Commerce for export as scrap metal. (See § 399.2, Appendix B, Interpretation 14 of this subchapter.)

This part of the amendment shall become effective as of April 15, 1954.

2. Section 371.2 *General provisions*, paragraph (c) *Applicability* is amended in the following particulars:

a. Subparagraph (3) *Exportation to foreign vessels in foreign ports* is amended to read as follows:

(3) *Exportations to foreign vessels in foreign ports.* Except as provided in the Note below, commodities may not be exported under the provisions of any general license to a foreign vessel, whether an operating vessel or one under construction, located in a foreign port unless such general license is applicable to both the country in which such port is located and to the country under whose laws such vessel is or will be registered.

b. The Note following subparagraph (3) remains unchanged.

This part of the amendment shall become effective as of April 15, 1954.

3. Section 372.1 *Applicability and general provisions*, paragraph (e) *Representations in license applications; orders and evidence thereof; and record-keeping requirements* is amended in the following particulars:

Subparagraph (6) *Export licenses related to complete applications* is amended by adding at the end thereof the following words: "or the Export Regulations".

This part of the amendment shall become effective as of May 15, 1954.

4. Section 373.1 *Export licensing general policy*, paragraph (d) *Historical basis for granting export licenses* is deleted.

This part of the amendment shall become effective as of April 15, 1954.

5. Section 373.2 *Confirmation of country of ultimate destination and verification of actual delivery* is amended in the following particulars:

a. Subparagraph (1) *Single-transaction Import Certificates* of paragraph (c) *Submission of Import Certificates* is amended to read as follows:

(1) *Single-transaction Import Certificates.* (i) The applicant shall attach to his license application, covering a proposed exportation described in paragraph (a) of this section, the original Import Certificate, bearing the official authentication of the governmental authorities in the importing country, to the named importer or his agent and covering the commodity or comodities described in the export license application.

(ii) Where the single-transaction Import Certificate covers commodities for which more than one export license application is submitted, the original Import Certificate shall be attached to the first such application. Each subsequent application shall include the following certification:

I (we) certify that I (we) have not submitted applications including the present application against the _____ (Name of country) Import Certificate Number _____ in excess of the total quantity authorized thereon. This Import Certificate was submitted in support of Application No. _____ (BFC Case No. or if Case No. is unknown the Applicant's Reference No., date of submission of the application to which the Import Certificate was attached, and Schedule B Nos. shown on that application.)

NOTE: Whenever possible the BFC Case Number should be indicated on the certification set forth above since failure to supply the BFC Case Number may result in delay in processing the license application.

b. Subparagraph (2) *Multiple-transaction Import Certificates* of paragraph (c) *Submission of Import Certificates* is amended to read as follows:

(2) *Multiple-transaction Import Certificates.* Exporters may submit to the Bureau of Foreign Commerce an original Import Certificate, if issued by a foreign government, covering all proposed exportations of a commodity or commodities, regardless of value (including commodities based on export orders amounting to less than $500), for a specific period or if no specific period is shown, for a specific quantity or value. The exporter shall submit the original certificate, bearing the official authentication of the governmental authorities in the importing country, together with one additional copy for each Bureau of Foreign Commerce processing code to which the certificate applies and a listing of such processing codes. Each subsequent application for export license submitted against the multiple-transaction Import Certificate shall bear on the face of the application one of the following certifications (depending on whether a quantity is shown on the Import Certificate) signed by the applicant:

I (we) certify that I (we) have not submitted applications including the present application against the _____ (Name of country) Import Certificate Number _____ in excess of the total quantity authorized thereon.

or (if no quantity is shown on the certificate),

This application is supported by the _____ (Name of country) multiple-transaction Import Certificate Number _____.

c. Paragraph (b) of Note 5 *Return of Import Certificates* following paragraph (c) *Submission of Import Certificates* is amended to read as follows:

(b) The Bureau of Foreign Commerce will automatically return the applicable Import Certificate to the U. S. exporter (applicant) whenever an application for export covers the same type and amount of the commodity as that shown on the Import Certificate, but such application is rejected or approved in a reduced quantity. Appropriate notation will be made on the Import Certificate by the Bureau of Foreign Commerce. In some cases, the Import Certificate covering an application rejected by the Bureau of Foreign Commerce for other than quota reasons will be returned directly to the government which issued the certificate. In such cases the applicant will be notified of this action. In any event, the government issuing the Import Certificate will be notified if the export application which it covers is rejected.

d. A new paragraph (d) is added to read as follows:

(d) *Requests for amendments.*[2] A new or appropriately amended Import Certificate shall accompany a request for an amendment of an export license which proposes a change in any party to the transaction named in the export license or any increase in the quantity set forth in the export license if the proposed amendment is not in accordance with the Import Certificate previously submitted to the Bureau of Foreign Commerce. If a proposed quantitative amendment is in accordance with the previously submitted Import Certificate the amendment request shall include the following certification:

I (we) certify that this request for amendment of export license number _____, if granted, will not exceed the total quantity authorized under the _____ (Name of country) Import Certificate Number _____.

e. The present paragraphs (d) *Submission of Delivery Verifications*, (e) *Effective dates*, (f) *Relationship to ultimate consignee statements*, and (g) *Request for exception* are renumbered (e), (f), (g), and (h), respectively.

This part of the amendment shall become effective as of May 15, 1954.

6. Section 373.3 *Evidence of availability* is deleted.

This part of the amendment shall become effective as of April 15, 1954.

7. Section 373.4 *Statement of past participation* is deleted.

This part of the amendment shall become effective as of April 15, 1954.

8. Section 373.20 *Applicability of multiple commodity group provisions to Commodity Group 2 commodities*, paragraph (b) *Past participation in exports* is deleted.

This part of the amendment shall become effective as of April 15, 1954.

9. Section 373.39 *Applicability of multiple commodity group provisions to Commodity Group 6 commodities*, paragraph (c) *Evidence of availability requirements* is deleted.

This part of the amendment shall become effective as of April 15, 1954.

10. Section 373.48 *Applicability of multiple commodity group provisions to Commodity Group 7 commodities*, paragraph (c) *Evidence of availability requirements* is deleted.

This part of the amendment shall become effective as of April 15, 1954.

11. Section 373.49 *Machinery and parts* is amended to read as follows:

§ 373.49 *Machinery and parts*[3]—(a) *Machinery and equipment.* Applications for licenses to export machinery and equipment with the processing codes CONS, ELME, GIEQ, MINE, TOOL, AND TRAN must include the following identifying information in addition to the requirements of § 372.3 (c) of this subchapter:

(1) A copy of a manufacturer's current catalog or bulletin, or pertinent pages therefrom describing the commodity, unless previously furnished.

(2) For commodities having a rated capacity, show maximum rating.

(3) For power-generating or other heavy machinery and equipment, a statement should be furnished explaining the circumstances, if production and exportation cannot be completed within six months. Where warranted, licenses may be issued for a validity period of one year, and the Bureau of Foreign Commerce will also give as favorable consideration as conditions permit to requests for extension of these licenses giving precedence to such requests over new applications for export licenses.

(b) *Automotive replacement parts*—(1) *Additional application requirements.* (i) An exporter who receives an order, or an inquiry relating to an order, for automotive replacement parts, listed in subparagraph (2) of this paragraph, and, in addition, for certain Commodity Group 5 commodities listed in § 373.34 of this subchapter, to be exported to a destination listed in subparagraph (3) of this paragraph from a consignee with whom he has not previously done business and who has not been approved as an ultimate consignee on an export license issued to him, is required to observe the special provision described below when filing an application for a validated export license to make the proposed shipment.

(ii) Prior to filing a license application, the exporter shall request the ultimate consignee to communicate with the nearest United States Embassy or Consulate in his area and provide information for a World-Trade Directory report, if he has not already done so within the last 12 months, and the ultimate consignee shall have complied with this request, where required. When applying for an export license, such an exporter, in addition to supplying the information required by paragraph (a) of this section, shall include in the commodity description item of the license application, or on an attachment thereto, the address of the United States Embassy or Consulate where the ultimate consignee provided the information for a World Trade Directory report and the date on which the information was given.

(iii) The filing of World Trade Directory report information with a United States Embassy or Consulate is essential in order to facilitate final action on the application for a validated license. Licenses will be issued in such cases only where this information is on file in the Bureau of Foreign Commerce. There-

[1a] This amendment was published in Current Export Bulletin No. 727, dated April 15, 1954.

[2] Section 380.2 of this subchapter contains other provisions applicable to amendments of applications covered by an Import Certificate.

[3] Parts and accessories which are to be scrapped are properly classified as iron and steel scrap (Schedule B Nos. 601010, 601040, 601050, 601070, 601090, 601150, 601170).

fore, filing of these applications before the ultimate consignee has made the necessary information available, will result in the application being returned without action.

(2) *Commodities.* The provisions of this paragraph are applicable to applications for licenses to export the following commodities to the destinations set forth in subparagraph (3) of this paragraph (see also § 373.34):

Schedule B No.	Commodity
701300	Automotive storage batteries, 6- and 12-volt, lead-acid type.
709305	Sealed beam head lamps suitable for mounting on automobile vehicles
709220	Spark plugs, automobile, bus, and truck type.
	Starting, lighting, and ignition equipment, n. e. c., and specially fabricated parts and accessories, n. e. c.: automobile, bus, and truck type.
709665	Automotive ignition wire in coils, reels, or spools, in lengths of 100 feet or less
769100	Ball bearings, and specially fabricated parts except balls (automotive only).
769300	Roller bearings, and specially fabricated parts except rollers (automotive only).
769310	Balls for bearings (automotive only)
769315	Rollers for bearings (automotive only)
	Parts for commercial automobiles, trucks, and buses:
	Engines for replacement (motor truck, bus, and passenger car)
791240	Diesel and semi-Diesel.
791250	Gasoline
791260	Bodies, truck and bus, for replacement.
791270	Bodies, automobile, for replacement
791275	Knee-action springs (helical or coil), for replacement.
791280	Leaf springs, and spring leaves, for replacement.
792620	Parts, n. s. e., specially fabricated, for spares, replacement, or manufacture into larger components, except: air cleaners; brake extension handles, bumpers; door locks; gas tank caps; horns; hub caps; hydraulic truck dumping hoists; oil filter clamps; oil filters; oil purifiers; oil rectifiers; parking lights; radiator caps radiator ornaments; reflex signs, road traffic; stop lights; thermostats; third axle assemblies; windshield wipers; and specially fabricated parts for the excepted items.

(3) *Destinations.* The provisions of this subparagraph are applicable to applications for licenses to export the commodities set forth in subparagraph (2) of this paragraph to any of the following destinations:

British Malaya (including the Colony of Singapore, the Federation of Malaya, the Colony of North Borneo (including Brunei and Labuan), the Colony of Sarawak, and other insular possessions).
Burma.
Ceylon.
Indochina (Vietnam, Laos, Cambodia).
Indonesia.
Republic of the Philippines.
Thailand (Siam).

(4) *Permitted substitutions.* Unless the export license provides otherwise, shipments of replacement parts, Schedule B Nos. 709220, 791193, 792610, 792620, or 792730, may include substitutions of one commodity for another within the same Schedule B number even though the substituted replacement parts are not listed on the export license or on the license application. For example, carburetors, Schedule B No. 792620 may be substituted for fuel pumps, Schedule B No. 792620, but may not be substituted for generators, Schedule B No. 709220.

(c) *Tools incorporating diamonds—*(1) *Commodities included.* Any tool incorporating diamonds requires a validated license for export to all R and O country destinations, whether or not the tool is shipped with the machine with which it is to be used.

(2) *Definition.* As used in this section, the term "Tools incorporating diamonds" means any tools, tool parts or devices, including metal slugs, which contain diamonds. Such "tools" do not include the machines which may make use of the tools incorporating diamonds.

(3) *Application requirements.* (i) A license to export a tool incorporating diamonds as a spare or replacement part shall be applied for under the Schedule B number applicable to such tool. When a diamond tool is to be shipped with a machine with which it is to be used, whether or not such machine is on the Positive List, the diamond tool shall be entered on the license application under the Schedule B number of the machine.

(ii) If a validated license is required for the machine, a single license application shall be submitted and the description shall specify that a tool containing diamonds is to be shipped with the machine.

(iii) In addition to the information required by paragraph (a) of this section, applications for licenses to export tools incorporating diamonds must comply with the following requirements:

(*a*) Tools, tool parts, or devices (including metal slugs) must be listed separately on license applications, or by groups of identical tools, giving the name and type of tool and approximate carat weight of diamonds;

(*b*) License applications to export rock drill bits, core drill bits, and reamers containing diamonds, Schedule B No. 730875, which have been shipped to the United States for reprocessing or resetting must show for each type or size of tool listed the approximate total carat weight of contained diamonds before and after reprocessing or resetting;

(*c*) License applications to export diamond grinding wheels, sticks, hones, and laps, Schedule B No. 540905, must state the quantity, the approximate carat weight, and grit size of the diamond content of each commodity; and

(*d*) Diamond dies must be listed on the license applications as unmounted or encased, and the quantity and carat weight, must be given.

(4) *Preparation of Shipper's Export Declaration.* (i) A tool incorporating diamonds exported under a validated license as a part of a machine exported under a general license shall be reported on the same Shipper's Export Declaration as a unit. The value stated in column (15) shall reflect the combined value of the machine and the diamond tool.

(ii) Separate data for the diamond tool shall be shown only in column (10). The description of the machine shall specify that it includes a tool containing diamonds, together with the same information required on a license application for the diamond tool, as set forth in subparagraph (3) of this paragraph.

This part of the amendment shall become effective as of May 15, 1954.

12. Section 373.54 *Applicability of multiple commodity group provisions to Commodity Group 8 commodities*, paragraph (c) *Evidence of availability requirements* is deleted.

This part of the amendment shall become effective as of April 15, 1954.

13. Section 373.59 *Applicability of multiple commodity group provisions to Commodity Group 9 commodities*, paragraph (c) *Evidence of availability requirements* is deleted.

This part of the amendment shall become effective as of April 15, 1954.

14. Section 373.67 *Switzerland*, paragraph (d) *Amendment requests for increased quantities* is amended by the insertion of footnote numeral 4 following the title of the paragraph and the addition of the following related footnote:

⁴ Section 380.2 of this subchapter contains other provisions applicable to amendments of applications covered by a Swiss Blue Import Certificate.

This part of the amendment shall become effective as of May 15, 1954.

15. Section 376.2 *Certificate of qualification for Periodic Requirements License*, paragraph (c) *Preparation of documents* is amended in the following particulars:

Subdivision (ii) of subparagraph (2) *Form IT–821* is amended to read as follows:

(ii) (*a*) If Form IT–821 covers all of the commodities which are included under a single related commodity processing code and identified by an "E" on the Positive List, then such processing code designation should be indicated in Items 2 and 4 of Form IT–821. If the Form IT–821 covers one or more Schedule B numbers but not an entire processing code designation, the schedule B number(s) should be listed in Item 2.

(*b*) The total quantity or value of the commodity shipped to each consignee during the two-year base period selected by the applicant (see § 376.1 (c)) must be shown in Item 4. If the application covers more than one commodity, show for each consignee the combined total quantity or value of all the commodities included. The quantity or value of the commodities shipped during the two-year base period shall not include toll shipments, in-transit shipments or shipments under a project license.

(*c*) The total of the quantity or value information shown for the individual consignees within a single country should be entered opposite the country heading. In reporting exportations of petroleum products, the total may be supplied by country only.

This part of the amendment shall become effective as of April 15, 1954.

16. Section 380.2 *Amendments or alterations of licenses* is amended in the following particulars:

a. In paragraph (f) *Where to file*, subdivision (iv) of subparagraph (3) *Amendment requests on which field offices may not take action* is amended to read as follows:

(iv) Requests for amendments or extensions of licenses for aluminum scrap (Schedule B No. 630050), copper scrap (Schedule B No. 641300), and copper-base alloy scrap (Schedule B No. 644000).

b. A new paragraph (j) is added to read as follows:

(j) *Licenses covered by an Import Certificate or a Swiss Blue Import Certificate.* A request for an amendment of an export license covering a commodity subject to the import certificate procedure (§ 373.2 of this subchapter) or to the Swiss Blue Import Certificate procedure (§ 373.67 of this subchapter) which proposes a change in any party to the transaction named on the license or any increase in the net quantity set forth on the license must be accompanied by a new or appropriately amended certificate if the proposed amendment is not in accordance with the certificate previously submitted to the Bureau of Foreign Commerce. If a proposed quantitative amendment is in accordance with the previously submitted certificate, the amendment request shall include the following certification:

I (we) certify that this request for amendment of export license number _____, if granted, will not exceed the total quantity authorized under the _____ (Name of country) Import Certificate Number _____

This part of the amendment shall become effective as of May 15, 1954.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 67 Stat. 62; 50 U. S. C. App. Sup. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

LORING K. MACY,
Director,
Bureau of Foreign Commerce.

[6th Gen. Rev. of Export Regs., Amdt. P. L. 73 [1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

The following commodities are deleted from the Positive List:

Dept. of Commerce Schedule B No.	Commodity
601410	Tube rounds, carbon steel
601611	Other semifinished material for seamless pipe tubing, carbon steel.
601625	Steel plates, including boiler plate (hot- or cold-rolled), not fabricated: Carbon steel.
602420	Rails, trackwork and track accessories: Rail joints and splice bars. Carbon steel.
602610	Switches, frogs, and crossings: Carbon steel.
612953	Fabricated steel products: Plates, fabricated, punched or shaped, n. e. c., except pallets for concrete blocks.

Section 399.2 *Appendix B—Commodity Interpretations* is amended by the addition of the following commodity interpretation:

INTERPRETATION 14: ARMS, AMMUNITION, AND IMPLEMENTS OF WAR.

Arms, ammunition, and implements of war which have been rejected by the armed services and sold as scrap, or which are declared surplus or have been junked, cannot be exported under a license for metal scrap issued by the Bureau of Foreign Commerce unless they are rendered useless beyond the possibility of restoration as implements of war.

Arms, ammunition, and implements of war, such as machine guns, rifles, etc., are not necessarily rendered useless beyond the possibility of restoration as implements of war merely by removal of component parts such as triggers, mounts, stocks, hammers, etc., and must be licensed by the Department of State.

Therefore, exporters should consult the Office of Munitions Control, Department of State, Washington 25, D. C., when in doubt as to whether an implement of war has been rendered useless, before applying to the Bureau of Foreign Commerce for a license to export the item as metal scrap.

This amendment shall become effective as of 12:01 a. m., April 15, 1954.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 67 Stat. 62; 50 U. S. C. App. Sup. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

LORING K. MACY,
Director,
Bureau of Foreign Commerce.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[File No. 21–54]

PART 65—INSECTICIDE AND DISINFECTANT INDUSTRY

RESCISSION OF PART

Whereas, the Commission on December 11, 1931, promulgated trade practice rules for the Insecticide and Disinfectant Industry which were codified in the Code of Federal Regulations (16 CFR Part 65); and

Whereas, trade practices in connection with the manufacture, sale, and distribution of the products of this industry are subject to regulation under the Federal Insecticide, Fungicide, and Rodenticide Act, approved June 25, 1947 (61 Stat. 163; 7 U. S. C. 135), as well as many state statutes; and

Whereas, under the circumstances proceedings for the revision of the rules for this industry do not appear to be essential to the public interest:

It is ordered, That the said rules be and the same are hereby rescinded.

Issued: April 21, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53476]

PART 16—LIQUIDATION OF DUTIES

COUNTERVAILING DUTIES; SILK AND MANUFACTURES OF SILK FROM THE UNITED [redacted]

Reference is made to T. Ds. 43634, 44742, and 47475, dated October 30, 1929, March 25, 1931, and January 16, 1935, respectively, setting forth the net amount of bounties paid by the British Government on the export of certain manufactures of silk.

The Treasury Department is in receipt of official information that the present rates of bounties or grants paid or bestowed by the British Government within the meaning of section 303, Tariff Act of 1930 (19 U. S. C 1303) on the commodities herein described are the amounts set forth in the following table:

Articles and Net Amount of Bounty

1. Spun silk yarn on which a drawback of 30 pence per pound has been allowed, produced in the United Kingdom from silk waste on which an import duty of 6 pence per pound has been paid (3 pounds of waste produce 1 pound of spun silk yarn), 12 pence per pound.

2. Silk fabric on which a drawback of 36 pence has been allowed, produced in the United Kingdom from the spun silk yarn described in item 1 above, 16 pence per pound.

3. Silk fabric on which a drawback of 36 pence per pound has been allowed, produced in the United Kingdom from raw silk on which an import duty of 18 pence has been paid, 9½ pence per pound.

4. Weighted silk fabric on which a drawback of 36 pence per pound has been allowed, produced in the United Kingdom from raw silk on which an import duty of 18 pence per pound has been paid, 16 pence per pound.

5. Fabrics made in the United Kingdom from any combination of other yarn or yarns with the yarn described in item 1 above, on which drawback has been allowed at any rate including 30 pence per pound of item 1 yarn content, 12 pence per pound of item 1 yarn content.

6. Silk netting on which a drawback of 27 pence per pound has been allowed produced in the United Kingdom from raw silk on which an import duty of 18 pence per pound has been paid, 5$\frac{3}{10}$ pence per pound.

7. Articles manufactured in the United Kingdom with the use of any netting described in item 6 above, on which drawback has been allowed at any rate including 27 pence per pound of item 6 netting content, 5$\frac{3}{10}$ pence per pound of item 6 netting content.

8. Articles manufactured in the United Kingdom with the use of any of the spun silk yarn or fabrics described above, on which drawback has been allowed at a rate including the rate or rates mentioned above for such spun silk yarn or fabrics, 12 pence per pound of item 1 or 5 content; 16 pence per pound of item 2 or 4 content; 9½ pence per pound of item 3 content.

The net amounts of the bounties or grants on the commodities described above which are produced in the United Kingdom of Great Britain and Northern Ireland are hereby ascertained, deter-

mined, and declared to be the amounts set forth in the above table. Collectors of customs shall assess and collect additional duties equal to the net amount of bounty set forth opposite the respective articles, but in no case shall more than one such amount be attributed to the same component material. With respect to articles described in items 1 through 7, inclusive, above, the additional duties specified shall be applied to all such articles which are covered by unliquidated entries filed on or after August 23, 1948. With respect to articles described in item 8 above, the assessment of additional duties shall be applied only to such articles which are entered for consumption or withdrawn from warehouse for consumption after the expiration of 30 days after the date of publication of this decision in the weekly Treasury Decisions. T. Ds. 43634, 44742, and 47475 are hereby superseded with respect to merchandise covered by entries filed on or after August 23, 1948, and unliquidated on the date of publication of this decision in the weekly Treasury Decisions.

The table in § 16.24 (a) of the Customs Regulations (19 CFR 16.24 (a)) is amended by inserting after the last line under "Great Britain—Silk and silk articles" the number of this Treasury decision in the column headed "Treasury Decision" and the words "New rates and additional articles" in the column headed "Action."

(R. S. 251, sec. 303, 624, 46 Stat. 687, 759; 19 U. S. C. 66, 1303, 1624)

[SEAL] C. A. EMERICK,
Acting Commissioner of Customs.

Approved: April 16, 1954.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 58—REGISTRATION OF DOMESTIC MAIL MATTER

SURCHARGES FOR OVER-VALUE REGISTERED MAIL OR INSURED MAIL TREATED AS REGISTERED MAIL

Correction

In Federal Register Document 54-2847, appearing at page 2212 in the issue for Friday, April 16, 1954, the tenth figure under the column headed "Fourth zone" in the table of surcharge rates, now reading "1,165", should read "1,265".

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

In Part 127, International Postal Service: Postage Rates, Service Available and Instructions for Mailing, 39 CFR Part 127, make the following changes:

a. In the section head of § 127.255 strike out "Chandernagore".

b. In § 127.263 *Gilbert and Ellice Islands Colony (Fanning, Washington, Christmas, Ocean, Gilbert, and Ellice Islands)* amend paragraph (a) (5) to read as follows:

(5) *Air mail service.* Postage rate, 25 cents per half ounce. Air letter sheets, 10 cents each (see § 127.20). Ocean and Gilbert Islands, onward from Australia by ordinary means. Ellice, Fanning, Washington, and Christmas Islands, onward from Fiji by ordinary means.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 918]

[Docket No. AO 219-A3]

HANDLING OF MILK IN MEMPHIS, TENNESSEE MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Memphis, Tennessee, on December 17, 18, 19, and 21, 1953, pursuant to notice thereof which was issued on November 25, 1953 (18 F. R. 7643), upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Memphis, Tennessee, marketing area.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on March 18, 1954, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision. Said decision containing notice of opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on March 23, 1954 (19 F. R. 1717).

Within the period reserved therefor, interested parties filed exceptions to certain of the findings, conclusions and actions recommended by the Deputy Administrator. In arriving at the findings, conclusions, and regulatory provisions of this decision, each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that findings, conclusions and actions decided upon herein and at variance with any of the exceptions, such exceptions are overruled.

To the extent that suggested findings and conclusions proposed by interested persons are inconsistent with the findings and conclusions contained herein, the specific or implied requests to make such findings and reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions herein set forth.

The material issues of record related to:

1. The expansion of the marketing area to include all of Shelby county, Tennessee, and the city of West Memphis, Arkansas;

2. A change in the producer definition so that milk received at a fluid milk plant from any dairy farmer, which milk is eligible for sale as Class I milk in the marketing area would be priced under the order;

3. A change in the definition of fluid milk plant to include any milk distributing plant which disposes of at least 1 percent of its Class I milk to outlets located in the marketing area, and supply plants furnishing a substantial share of their milk to such distributing plants;

4. The inclusion in the order of specific language concerning the method to be used in accounting for skim milk sold in concentrated form;

5. The method to be used in the classification of inventories;

6. The inclusion of a price reflecting the value of milk used in cheese making as an additional alternative in calculating the basic formula price;

7. A revision in the basic utilization percentages and rates of price change used in the supply-demand adjustment;

8. A change in the bracket ranges used for determining the Class I price to bring about more gradual price changes;

9. The level of the Class II price;

10. The butterfat differentials used in adjusting the Class I and Class II prices;

11. The question of which plants and which milk would be eligible to receive the location adjustment credit;

12. A modification in the methods used for calculating equalization payments to prorate utilization of milk in different classes between producer members of cooperative associations and nonmembers; and

13. Miscellaneous administrative provisions.

Findings and conclusions. The findings and conclusions with respect to the material issues herein decided, all of which are based on the evidence introduced at the hearing and the record thereof, are as follows:

1. The marketing area should be enlarged to include all of Shelby county, Tennessee, and to include the city of West Memphis in Arkansas.

The record shows that marketing conditions are similar throughout the proposed area and that the areas to be added are now served primarily by handlers subject to the order. The West Memphis portion of the market has developed rapidly during recent years. Population data show that the city has more than tripled in size since 1940. Much of this increase represents transfer in population from Memphis occasioned by the increase of suburbanization of the market and facilitated by the completion of a new bridge across the Mississippi River.

Until the latter part of 1952 this portion of the market was served exclusively by regulated handlers. Since that time, unpriced milk has begun to enter the market and has displaced an important share of the business of some regulated distributors. While the record indicates that base and excess prices paid producers by plants distributing this unpriced milk were not materially different from prices paid by regulated handlers, the unpriced milk was not purchased on a utilization basis. It is not possible to determine whether producers were paid a price for such milk which reflects its value for Class I use.

The quality of milk distributed in West Memphis is comparable to that distributed in the present marketing area. The city of West Memphis is under the jurisdiction of the Arkansas State Health Department. This department and the health authority of the city of Little Rock inspect the producers and plants supplying the unpriced milk sold in West Memphis. Regulations and enforcement thereof are on a comparable level with those in effect in the cities of Memphis and Jackson.

All of the milk sold in West Memphis by regulated handlers, which constitutes a substantial majority of the Class I sales in this area, is in the current of interstate commerce.

Ninety percent or more of the Class I milk distributed in Shelby county, Tennessee, except Memphis, comes from regulated plants. Three plants not under Order No. 18 distributed milk in this area during 1953. One additional plant which sells milk there is subject to Federal Order No. 77, regulating the handling of milk in the Paducah, Kentucky, marketing area.

Much of the populated area of Shelby county outside Memphis is part of the natural trade territory of the Memphis market. Commerce between Memphis and adjacent portions of Shelby county is such that the two areas should be considered part of the same market.

Health regulations in Shelby county are under the jurisdiction and enforcement of the Memphis City Health Department. The record indicates that the standards, degree of enforcement and quality of milk required to be distributed in Shelby county are equivalent to the standards applied in the present market area. The Millington Naval Base, which would be included in the marketing area pursuant to this decision, is under the jurisdiction of the health officer at the base. The record indicates that the quality of milk required by such authority is comparable to the quality of that distributed in the areas surrounding the base.

The milk supplied into Shelby county from the Paducah market is subject to the classification and pricing provisions of the Paducah order. Milk distributed by one of the distributors who is located in Covington, Tennessee, is paid for on a utilization basis and at prices comparable to those provided under the Memphis order. Milk may be and has been distributed in this area from unregulated sources and plants which do not pay for milk on a utilization basis.

The milk supplied into Shelby county from the Paducah handler is all in the current of interstate commerce. The milk from the Covington handler comes in part, particularly during the winter months, in bulk form from the out-of-State sources to the north. Other plants located in Conway, Arkansas, and Cape Girardeau, Missouri, distributed milk in Shelby county last year.

Inclusion of this enlarged area as part of the regulated market will insure against the displacement of producer milk by virtue of temporary advantage which other plants may obtain by not meeting the standards of classified pricing provided under the Memphis order. This will tend to stabilize marketing conditions in these areas and place all milk distributors on an equal footing in competing for further business in the area. It will also assure producers supplying such milk of returns equal to those provided under the minimum prices of the order.

2. The producer definition should be amended so that the milk of any Grade A dairyman delivering to a fluid milk plant will be fully subject to the classification and pricing provisions of the order.

The order now provides that only milk produced by dairymen holding permits issued by the Memphis or Jackson health authorities and received by handlers under the order will be priced.

At the time the order was originally promulgated, the practices in the market were such that only plants which were receiving milk from producers holding permits issued by the appropriate health authorities were allowed to distribute milk in the market. Since that time, approval has been extended by the city of Memphis to plants in Arkansas which are under the inspection of the Little Rock and the State of Arkansas health authorities. The record indicates that inspection by a duly constituted health authority enforcing acceptable standards may now be accepted by the Memphis City Health Department with only occasional spot checks on the quality of the milk and the facilities through which it is handled. Producers supplying such plants are not required to hold Memphis City Health Department permits. Under the present order, milk so distributed in Memphis from such a plant is unpriced.

The record indicates that about 35 percent of the milk of an unregulated distributor is now being sold as Class I milk in Memphis. The volume of this milk is sufficiently important that it has been an important competitive factor in the market.

It is concluded, therefore, that the producer definition should be modified so that milk of Grade A quality received from producers at any fluid milk plant and distributed in the marketing area will be fully subject to the pricing provisions of the order.

3. The definition of a fluid milk plant should be amended to provide for two categories of such plants, namely distributing plants and supply plants.

All distributing plants should be fully subject to the classification and pricing provisions of the order if they dispose of 5 percent or more of their Class I sales to outlets (other than fluid milk plants) located in the marketing area. Included as part or all of the 5 percent may be sales by vendors or plant stores. It is necessary in order to stabilize marketing conditions in the market to provide that no plant may distribute as unpriced milk a substantial quantity of milk in competition with milk priced under the order. At the present time, one plant is distributing about one-third of its milk as unpriced milk in the marketing area. These sales have displaced sales of producer milk. The proposed definition of a fluid milk plant will help insure that displacement of milk may not be brought about with milk for which producers have not been paid at a full utilization value.

A 5 percent exemption should be provided, however, so that a plant from which only minor quantities of milk are distributed in the marketing area will not come under full regulation. It is concluded that the volume of milk represented by 5 percent of the Class I sales of any unregulated handler who might conceivably distribute milk in the marketing area would not be sufficient to disturb the competitive structure in the market. A larger percentage of the sales of such a handler might present an unstabilizing influence and the provisions of the attached order would present adequate justification for bringing such a handler under the pricing provisions of the order.

The record indicates that one of the major distributors who sells fluid milk throughout a large portion of the State of Arkansas does distribute some milk in West Memphis. Sales in the latter area represent a small proportion of such distributor's business. It is concluded that it would be inappropriate to regulate such a distributor with respect to his entire business, most of which is in competition with other unregulated distributors, if his sales in West Memphis amount to less than 5 percent of his total Class I business.

A plant which is not a fluid milk plant is not subject to the transfer provisions of the order. The determination as to the total Class I sales of such plant, in ascertaining whether or not it has 5 percent of its Class I sales in the area, should be based therefore on the form in which skim milk and butterfat is moved from the plant.

The definition of a fluid milk plant should include also those supply plants which furnish milk to distributing plants qualifying under the first portion of the definition. Furthermore, such supply plants must receive milk from producers who hold permits issued by a health authority having jurisdiction in the marketing area. This will insure that under present circumstances plants primarily in the business of supplying milk to

Memphis distributing plants will be fully regulated.

On the other hand, plants furnishing only incidental or supplemental supplies would not be regulated. Considerable volumes of supplemental milk have been required in recent years to supply Memphis and Jackson Class I sales during months of short production. It might represent an unnecessary hardship to the market and interfere with the acquisition of needed supplemental supplies if the plants furnishing such milk were brought under the regulation of the Memphis order. The record does not indicate that producer milk has been displaced with unpriced milk obtained from such supply plants, or that the dairy farmers supplying such milk are not receiving the equivalent of Class I prices under the order for incidental or supplemental milk. A large share of the supplemental milk brought into the Memphis market comes from plants regulated pursuant to other Federal orders. Such milk would not in any case be subject to the pricing provisions of the Memphis order.

A definition of an approved plant should be included in the order to bring under the definition all plants selling Class I milk in the marketing area. An approved plant should be defined as a fluid milk plant or a plant from which Class I milk is sold to outlets located in the marketing area. Any person operating an approved plant should be defined as a handler and be subject to the reporting provisions of the order.

4. The order should be clarified with respect to the accounting procedure to be applied to condensed or concentrated nonfat milk solids classified as Class I milk.

The volume of skim milk used or disposed of as Class I milk products which contain condensed or concentrated nonfat milk solids in any form should be considered to be an amount equivalent to the volume of skim milk required to produce the nonfat solids contained in such products. The primary Class I milk products which would be affected by such accounting procedure under the Memphis order are buttermilk and low fat milk drinks.

Nonfat milk solids used to produce Class I milk products for sale in the Memphis market must come from Grade A sources. This is true whether or not such solids come from producers or from unregulated sources. It is also true regardless of the form in which such nonfat milk solids may be received. For this reason, fortified products or products containing added nonfat milk solids should continue to be considered as Class I milk. No question was raised at the hearing as to the propriety of such classification.

Buttermilk or low fat milk drinks are sometimes fortified by the addition of extra solids in order to improve their quality and acceptability to consumers. Increased content of nonfat milk solids improves the salability and value of such product.

The additional value of such products should be reflected back to producers to the extent that such solids or an equivalent volume of solids were provided by producers. The rate of return for such solids, and therefore the price under the order, should be the same for each pound of nonfat milk solids disposed of in a Class I product regardless of the actual form in which it may be marketed to consumers. No reason is recognized why one portion of the nonfat solids contained in fortified Class I milk products is different from any other portion with respect to cost of production, quality standards, need for regularity of supply, or value to consumers.

The pricing provisions of the order are designed to encourage production of adequate quantities of pure and wholesome milk for all Class I uses. The price required to insure such supplies of nonfat milk solids should be adequate to insure supplies of such solids for any Class I use. Solids used in fortified products should therefore be priced at the full Class I rate. In the absence of specific language in the order, the question may be raised whether the accounting system to be used in charging for nonfat solids in Class I could result in charges for skim milk only on the basis of the actual hundredweight of Class I milk disposed of, with no recognition of the actual nonfat solids content of such product.

The order provides that prices for Class I milk will be adjusted according to the actual butterfat content of the product. The amended order, as herein provided, would bring about a similar adjustment in price according to the nonfat milk solids content of the product.

No basis was suggested whereby it would be possible to adjust prices for nonfat solids content on a basis of an actual measurement of such content as is now done in connection with the butterfat differential provision of the order. As an alternative, to accomplish such an adjustment it is considered necessary to make an adjustment in the pounds of skim milk considered to have been disposed of when a Class I product is disposed of in a form of a product from which part of the original water content has been removed and not replaced. Such adjustment should be made on the basis of a determination of unconcentrated skim milk, disregarding any plant loss which may be involved, that would be required to produce the nonfat milk solids content in the end product.

This adjustment should be made without regard to the source of the milk solids used in Class I. The relationship between other source milk and producer milk now provided in the order with respect to allocation and classification should be the same regardless of the form in which the milk solids are obtained or utilized. Other source concentrated skim milk products utilized in a plant should be considered as receipt of the equivalent volume of skim milk which would be required in the production of such products.

In order to maintain a uniform accounting method, the volume of skim milk considered to have been received in concentrated form should be the same whether its ultimate disposition is as Class I or Class II milk. Such accounting system will have no effect on the classification of other souce milk used in Class II.

5. The order language should be clarified with respect to the classification and allocation of milk and milk products on hand at the beginning and end of the month.

The record indicates that more specific language should be included in the order with respect to (i) the products that should be considered as "inventory," (ii) the classification and allocation of butterfat and skim milk on hand at the end and the beginning of the month, and (iii) changes in inventory values as a result of the seasonal change in the Class I price differential.

The present method of considering bulk milk and cream and other Class I products on hand at the beginning and end of the month as inventory and classifying inventory in Class I should be continued. This procedure should be clarified by including inventory on hand at the end of the month in the definition of Class I milk and including a step in the allocation provision for subtracting beginning inventory from Class I milk.

Skim milk and butterfat which is used to produce or is disposed of as Class II milk is accounted for at the time of such use or disposition. It is not necessary, therefore, to include in the inventory account the Class II manufactured products on hand at the beginning or end of the month. Handlers are required to keep stock records of such products to facilitate the market administrator's auditing program. The accounting and reclassification procedures of the order may be simplified, however, by redefining other source milk to include skim milk and butterfat contained in all manufactured products which are reprocessed or used by the handler to produce another product. Such manufactured products include those originally manufactured by the handler, as well as products purchased from other handlers or from unregulated sources. By considering such products as other source milk receipts at the time they are reprocessed, and by subtracting receipts of other source milk from the available Class II utilization in the allocation procedure, current receipts of producer milk retain their priority on current sales of Class I milk.

In classifying inventories as Class I milk some safeguard should be provided to prevent any handler from obtaining supplies of producer milk at a lower cost than other handlers, through undue increases in inventory at the end of August just prior to the 40-cent seasonal increase in the Class I differential. Any gains experienced by a handler on such price increases may be offset in part, however, by losses on inventory at the end of February. The Class I differential is decreased 40 cents per hundredweight on March 1 of each year. Therefore, a safeguard against unfair gains may be provided by including a provision in § 918.70 ("Computation of Value of Milk") which requires an addition, in the month of September of each year, of an amount equal to 40 cents per hundredweight for any increase in ending inventory in August over the ending inventory of the preceding February. Under this provision a handler who had no inventory, or was not subject to regulation in the previous March would be charged 40 cents per hundredweight on all inventory of Class I milk carried from August to September.

Similar safeguards should be afforded current receipts of producer milk in any month during which a handler is subject to the regulation after having been unregulated during the previous month. This may be accomplished by adding to the pool value of such handler's producer milk, in the month when he becomes subject to regulation, an amount equal to the difference between the Class I and the Class II price on any decrease in inventory from the beginning to the end of such month. By following this procedure, current receipts of producer milk are assured full priority on Class I sales during the current month, and equity of cost is assured among handlers on all producer milk which is disposed of as Class I milk during such month.

6. A new formula to represent the general level of the value of milk used for cheese-making should be incorporated into the order as part of the basic formula price.

The basic formula price is now determined by using the higher of the prices calculated on the basis of a formula which reflects the value of milk used for butter and nonfat dry milk solids and the average of prices paid by 15 Midwestern condenseries. Two of the major outlets for manufacturing milk are represented by these two alternative prices. Inclusion of the formula herein recommended will provide for the reflection of the value of milk for cheese, the third major outlet for manufacturing grade milk.

The Class I price differential provided in the order is designed to provide the premium over manufacturing grade milk necessary to insure the market of an adequate supply of pure and wholesome milk for fluid use. It is necessary that this premium be added to the value of milk for the highest priced manufacturing outlet in order to avoid impairment of the differential. If one outlet for manufacturing milk were to yield a higher return to farmers than other outlets and such higher return were not reflected in increased Class I prices, the incentive to producers for producing milk for the fluid market as compared to manufacturing milk would be reduced. Supplies of milk for the fluid market might suffer as a result.

The record discloses that cheese manufacturing is one of the primary outlets for ungraded milk in the Memphis milkshed. It is considered appropriate, therefore, that the value for cheesemaking be part of the basic formula under the order.

The cheese formula herein recommended provides an estimate of the value of milk for cheese manufacture on the basis of the monthly price for cheddar cheese in primary markets in Wisconsin, and the price of 92-score butter in Chicago. The 92-score butter price at Chicago is widely recognized and is now used for various purposes in the order. The price quotation for cheese in the primary markets of Wisconsin is based on a substantially larger volume of trading than other available cheese quotations. The price data for this quotation are gathered and reported by the official price reporting service of the Department of Agriculture. Fluctuations in these quotations reflect actual changes in rate of return to plants for a large share of the cheese produced in the State of Wisconsin.

Coupled with the yield factors for cheese and whey fat, and making allowance herein found appropriate, the above quotations have, in the past, produced an estimated price which was in close alignment with the prices actually paid farmers by Wisconsin cheese plants. The pay prices used for this comparison are those reported by the Agricultural Marketing Service.

Since the purchases of milk for cheese is highly competitive in the State of Wisconsin, the changes in value of milk for cheese-making can be expected to be reflected more promptly in the cheese factory pay prices in that State than in less competitive areas. A substantial proportion of the cheese manufactured in the country is made in Wisconsin and quotations of prices received for cheese by Wisconsin plants are considered to be an adequate sample to reflect changes in the market value of cheese.

Use of Wisconsin prices for cheese and use of a formula based on prices paid farmers by Wisconsin cheese plants are considered appropriate also because most of the condenseries whose pay prices are included as one of the other basic formula factors are located in Wisconsin.

7. The basic utilization percentages in the supply-demand provision should be adjusted so they will not result in a lowering of Class I prices while the volume of producer milk is less than the market requires to keep Class I outlets supplied.

The schedule of utilization percentages which became effective November 1953 provides that the Class I price will be increased in the month of January if the supply of producer milk in October and November is less than 100 percent of Class I sales for the same months. These are the months when supplies of producer milk are at their lowest level in relation to Class I sales. Minimum utilization percentages below which Class I prices will be increased are varied upward from this point for other months according to the normal seasonal variations in the percentage of producer milk utilized in Class I milk.

Reductions in the Class I price are brought about whenever the volume of producer milk is more than 105 percent of Class I sales in October and November. Seasonal increases are reflected for other months in the maximum utilization percentage above which prices will be decreased.

Producer representatives stated that such reductions in price may be unwarranted. It was contended that the market is still short of milk when supplies are somewhat above the 105 percent level. Evidence was presented for the hearing record to show that other source fluid milk has been required by Memphis handlers in considerable volume in some months when milk shipments by producer members of the major cooperative association exceeded 105 percent of the Class I sales of such association for the month. This is to be explained in part because of fluctuations in production or sales during the month. While supplies of producer milk may have been adequate or more than adequate at one time in the month, they may have fallen short of requirements at another. Total supplies of milk (including other source milk) have exceeded 110 percent of Class I sales during some months when the market was short of producer milk.

Since the supply-demand provision of the order is based on two-month averages, it may bring about price reductions when substantial imports are required.

It is concluded, therefore, that the maximum percentage of 105 in the base utilization range for October and November should be amended to become 110 percent. The percentages for other months should be increased accordingly.

This change will make it unlikely that the Class I prices to producers will be decreased unless producers are expanding their production beyond the level which is necessary to keep Class I outlets fully supplied. Some price decreases could still result under this amendment even though minor quantities of milk were required to be imported. These should not be serious, however, and would come about only when production or consumption changes materially during a two-month base period.

It was contended at the hearing that both the upper and lower limits of the base utilization range should be increased. Producer representatives stated that the Class I price should be increased whenever production falls below 110 percent of Class I sales in the months of lowest production with corresponding increases in other months. Such a change would result in an increase in the Class I price of 10 to 40 cents over what it would otherwise be.

The hearing record does not warrant such an increase at this time. It was not shown that present prices will not result in adequate milk production over a period of time, or that the market is capable of handling efficiently all the Class II milk which might be forthcoming if the Class I price were increased. Percent of producer milk in Class II increased in 1952 over 1951, and was somewhat higher in the first seven months of 1953 than during similar months of 1952. Premiums over order prices were paid producers during the first part of this period, but not during 1953. In addition, the record discloses that an additional handler receiving milk from more than 100 producers not formerly supplying the Memphis market has recently started serving the market.

A serious drought was experienced in the milkshed during the latter part of 1953. Milk production fell off and Class I prices were increased under the supply-demand provision. No conclusion can be drawn on the basis of this period as to what long-term level of milk production may be expected with present prices by the producers who would be subject to the amended order herewith provided.

It is concluded, therefore, that no change should be made in the supply-demand provision of the order which would bring about earlier increases in the Class I price than now provided.

It was proposed at the hearing that the rate of price adjustment under the supply-demand provision be increased somewhat as milk supplies exceed or fall short of desirable levels. The proposal called for a greater rate of price increase or decrease in March and September than the order now provides. It was contended that the months proposed to be changed belong more appropriately, from the standpoint of supply conditions, to the month groups with higher rates of change. In order to make an adequate price adjustment in line with such supply conditions, and to offset to a limited extent the reduced sensitivity in the supply-demand adjustment which would result from the amendments here-in proposed, it is concluded that the rate of price adjustment should be increased one cent for each point variation in the utilization percentage for the months of March and September.

8. The bracket ranges used in determining the Class I price should be eliminated and a stated differential provided in the order. It was contended on the hearing record that the 40 cent steps now called for under the order are too large. Such abrupt changes as have taken place in the past under the order call for too great an adjustment on the part of producers at one time.

The proposal originally submitted by the Mid-South Milk Producers Association would call for 20-cent steps and a somewhat lower average premium over the basic formula price. This proposal was amended at the hearing in such a way that it might result in an average increase in Class I prices over a period of time. For reasons stated heretofore, no changes in the Class I price, except those previously recommended, appear justified at this time. It is concluded, however, that more gradual Class I price changes would be desirable. For this reason the brackets should be eliminated and Class I differentials set at the midpoints of the present bracket ranges. This will eliminate the 20-cent steps as proposed. However, the Class I price may change in smaller steps than this because of the operation of the supply-demand adjustment. It is considered unnecessary, therefore, to try to preserve any bracket changes in the Class I price.

9. Under the present order the Class II price is determined by averaging the price paid farmers for ungraded milk at seven listed manufacturing plants. Four of these are condenseries and three are cheese plants. Of the three cheese plants, two have suspended operations and no longer buy milk from farmers. Thus, the Class II price is now determined by five manufacturing plants, four of which are condenseries.

It was proposed that two other cheese plants be substituted for the two plants which have discontinued operations. The Armour Cheese Plant, New Albany, Miss., and the Kraft Foods Plant at Corinth, Miss., were suggested for this purpose. The record shows that it is appropriate to provide a Class II price which reflects the competitive level of prices for manufacturing milk in this general area. The substitution of the two proposed plants will broaden the price determining base and more nearly reflect competitive manufacturing prices than the five plants presently employed. The proposal should be adopted.

The record also shows that, during the flush production season of 1953, handlers were unable to use the entire output of producer milk in Class II operations conducted in their plants. Substantial volumes of producer milk were transferred or diverted to nearby cheese plants for processing. A substantial proportion of this milk was transferred to one of the cheese plants now listed in the order and located at Olive Branch, Miss., eighteen miles from Memphis. This is the nearest, and the principal, outlet for seasonal reserve milk from this market. During April 1953 more than 60 percent of the total market volume of milk used in manufactured products was diverted to cheese plants. The corresponding figures for other months were—March 38 percent, May 45 percent, and June 17 percent. Prices paid by this plant for milk have been lower than the Class II prices under the order. The record shows that prior to the drought in the latter part of 1953 the level of production from local producers increased substantially. With the increase in milk production prevailing generally, the seasonal reserve supply of milk in the Memphis market during the Spring of 1954, which may have to be moved to cheese plants, may be even greater than during 1953. In order to promote more orderly marketing of such reserve supplies it is concluded that milk used in the production of cheddar cheese, from the effective date of this amendment through July 1954, should be priced at the average price paid by the three cheese plants which are proposed for use in determining the regular Class II price.

10. The butterfat differentials used in adjusting Class I and Class II milk prices should be reduced.

At present the Class I and Class II prices are subject to butterfat differentials, determined by multiplying the Chicago 92-score butter price by 0.125 and 0.120, respectively. It was proposed that the Class I differential be reduced to 0.120 for all months and the Class II differential reduced to 0.115 during the months of April through June of each year.

Data with respect to the Memphis market, since the order became effective, show that the average butterfat test of Class I milk has declined from 3.9 percent in 1951 to 3.7 percent in 1953. According to records of the proponent cooperative association, the average test of producer milk has shown a slight downward trend from an average of 4.4 early in 1940 to 4.2 percent during the past few years. The present butterfat differential to producers is slightly less than 0.110 times the price of butter.

Nevertheless, the butterfat contained in total receipts of producer milk has exceeded total Class I utilization of butterfat in each month since the order has been in effect. In contrast, the skim milk contained in producer milk has been insufficient to supply Class I requirements for several months in each year. The adoption of a lower butterfat differential for Class I milk will tend to encourage greater use of butterfat by handlers in their Class I operations and bring about a closer balance between producer receipts and Class I utilization of butterfat.

The present Class II butterfat differential of 0.120 times the price of butter has overstated the value of butterfat in Class II milk. When the value of four pounds of butterfat has been subtracted from the Class II price it has resulted in a negative value for skim milk in Class II milk during several months of 1953. A reduction of the Class II butterfat differential from 0.120 to 0.115 will bring about a more reasonable allocation of the Class II milk price between the skim milk and butterfat components. A somewhat lower differential should be provided during April, May, and June than in other months. This is the season of the year when the greatest quantity of reserve milk must be used by handlers for Class II products or diverted to manufacturing plants. A lower differential is necessary at this time to enable handlers to dispose of seasonal surpluses.

It is concluded, therefore, that the Class I butterfat differential should be 0.120 and the Class II differential 0.115 except during the months of April, May, and June, when such ratio should be 0.110 times the price of butter.

11. The location differential provision with respect to Class I milk should not be amended to make them dependent upon the type of plant where the milk is received or the form in which the milk may be moved. It was contended on the hearing record that the f. o. b. market Class I price should apply to all fluid milk distributing plants regardless of their location.

The Class I price under the Memphis order is established at a level which is intended to reflect the price necessary to yield a sufficient supply of pure and wholesome milk for the Memphis market. The price quoted reflects the value of such milk f. o. b. Memphis. Milk produced at a distance from the center of consumption in the regulated market is worth less than the Class I price, so far as the market is concerned, by the amount of the cost involved in transporting such milk to the market center. Provision is made in the order, therefore, that if the handler receives Class I milk at a distance from the market, he may reduce the price paid producers for such milk by an amount which is related to the cost of hauling such milk by an efficient means to the market.

Once the value of the milk to the Memphis market has been established on the basis of its distance from the market, the Class I price fixed under the order at such location should be the same for all persons who buy Class I milk at that location, regardless of how the milk may be moved, or where or to whom it may be marketed.

Since the milk is being priced under the order only in relation to the regulated market, values of individual lots of milk for sale to alternative markets must be ignored. If any milk at any location has a greater value for sale in another market than it has for sale in Memphis, reliance must be placed on the price competition from such market to bring about the sale of milk to the most advantageous outlet. The general level of Class I prices under the Memphis order must reflect overall competition but cannot be subject to individually tailored price adjustments in different portions of the potential supply area. It would be impossible to price milk under the Memphis order at any location in relation to its value for sale to the many other markets to which it might be sold.

The purpose of the pricing provisions of the Memphis order is not to price milk for such markets but only for the regulated market. To price milk on the basis of the type of plant which receives the milk, or the form in which milk is moved, or the location to which marketed outside the regulated area would result in a cost inequity as among handlers for milk in relation to the marketing area. The provisions herein recommended will result in an equality of minimum cost for Class I milk for all handlers in view of the cost of hauling such milk to market. Milk purchased at a distance from the market cannot be sold in the market without incurring costs of movement for all milk so marketed. The rate of location differential allowed in the order represents an equitable allowance to reflect costs of hauling bulk tank milk.

Producer representatives from the Jackson, Tennessee, portion of the marketing area contended that that section of the market should not be subject to a location differential. Milk is not ordinarily moved from Jackson to Memphis and, therefore, no such transportation cost is involved. Said representatives did contend, however, that the Class I price should be less in Jackson by approximately the amount of the present location differential, since Class I milk in that market is worth less than in Memphis because of the competitive conditions that have prevailed in the area. An f. o. b. Memphis price, it was contended, would place Jackson producers and handlers in an unsound situation.

As stated heretofore, the location differential provisions of the order do not contemplate that the Class I milk so priced will necessarily be transported to the central market. They merely establish the pattern of minimum pricing levels to be charged Order No. 18 handlers for milk at the various distances in relation to the central market in Memphis. To make the changes as proposed by the Jackson producers would merely accomplish an unnecessary change in terminology of the order.

The order should be amended to specify which milk shall be assigned to Class I milk (and therefore subject to a location differential) when milk is moved between fluid milk plants.

The order presently provides that the same minimum price shall be paid for Class II milk wherever it may be received. There is little, if any, difference in the value of milk for manufacturing in the various locations of the milkshed which may be attributed to its location with respect to the market.

Under the present provisions of the order all handlers are charged the same price for the Class II milk they receive, and are then free to market such milk through whatever movements or dispositions they find most advantageous to themselves. Producers are not expected to bear any of the costs associated with the methods by which the various handlers market such milk.

In case a handler receives milk at a fluid milk plant located some distance from the market, such handler should be expected either to leave such milk in the country for processing, or if he finds it preferable to transport such milk to the city for Class II use, the cost of such haul should not be charged against the producer's price for the milk.

It was contended in exceptions filed on behalf of a handler operating a receiving station that the record shows that it is impossible to adjust shipments from the receiving station precisely to the Class I needs of a distributing plant. Even though a receiving plant may be in a position to ship milk only as ordered, the operator of a fluid milk distributing plant cannot know in advance how much milk will be received directly from producers. Also, it is necessary in operating a fluid milk business to receive a limited quantity of milk which cannot be marketed as Class I under the most favorable circumstances. Such milk may take the form of route returns or other excess which results from an inability to anticipate exactly how much milk will be needed.

For this reason, the order should be amended to permit a maximum assignment equal to no more than 5 percent of the milk received directly from producers at a distributing plant as Class II milk to the producer milk at such plant. This will allow a handler to recover transportation costs on necessary movements of Class I milk, and will encourage efficiency in the marketing of Class II milk.

12. The method used for calculating equalization payments for pro-rating the utilization of milk between producer members of cooperative associations and non-members should be modified.

The present method of determining each handler's base and excess price for producer milk during March through August provides for an adjustment when the association handles more than its pro-rata share of any reserve milk supply in Class II milk. This adjustment is intended to equalize the prices received for milk by members of an association and non-member producers. The present order (§ 918.72 (c)) does not accomplish full equalization of returns as intended. This can be remedied by dividing the adjustment provided under the present order by the proportion of the handler's total receipts of producer milk received from non-member producers during the month. The record indicates that the entire provision should be rewritten for clarification and changed to accomplish its intended purpose.

13. A number of miscellaneous changes of an administrative nature are required in order to effectuate the changes in regulation found necessary in this decision. These changes involve primarily the definitions and reporting provisions of the order.

Pursuant to this decision, an approved plant which disposes of less than 5 percent of its Class I milk in the marketing area would not be fully regulated. Such plant should submit regular monthly reports, however, which will permit determination of its status under the order. Also, the plant should be subject to the administrative assessment on that milk distributed in the marketing area. This will help defray the costs of administering the order with respect to such plant. Also, it will mean that all Class I milk disposed of in the marketing area by all handlers will be subject to such assessment.

As a conforming change, all Class II products used or reprocessed in the plant out of inventory or from other handlers or from any other source are designated as other source milk. This will facilitate reporting and accounting and classification of inventories.

All Class I milk products transferred between fluid milk plants would be subject to reporting and to reclassification under the transfer rules. This will avoid unnecessary accounting, but will provide adequate safeguards to insure the proper classification of producer milk.

Pursuant to this decision, members of cooperative associations which do not pay producers may become subject to the order. Changes in order language provided herewith would assure proper treatment of such producers and associations.

The entire order has been redrafted, including the proposed amendments, so that the various changes herein found necessary may be more readily appraised in relation to the overall order.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order of the Secretary directing the conduct of a referendum; determination of a representative period, and

designation of referendum agent. Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the order, as amended, and as hereby further amended, regulating the handling of milk in the Memphis, Tennessee, marketing area) who, during the month of December 1953, which month is hereby determined to be the representative period for such referendum, were engaged in the production of milk for sale in the marketing area specified in the aforesaid order, as amended, and as hereby further amended, to determine whether such producers favor the issuance of the amended order which is filed herewith.

C. I. Dunn is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 10th day from the date this decision is filed with the Hearing Clerk, United States Department of Agriculture.

Marketing agreement and order, as amended. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Memphis, Tennessee, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Memphis, Tennessee, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered that all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 20th day of April 1954.

[SEAL] JOHN H. DAVIS,
Acting Secretary of Agriculture.

Order,[1] as Amended, Regulating the Handling of Milk in the Memphis, Tennessee, Marketing Area

Sec.

918.0 Findings and determinations.

DEFINITIONS

918.1 Act.
918.2 Secretary.
918.3 Department of Agriculture.
918.4 Person.
918.5 Cooperative association.
918.6 Memphis, Tennessee, marketing area.
918.7 Fluid milk plant.
918.8 Approved plant.
918.9 Nonfluid milk plant.
918.10 Handler.
918.11 Producer.
918.12 Producer milk.
918.13 Other source milk.
918.14 Producer-handler.
918.15 Chicago butter price.

MARKET ADMINISTRATOR

918.20 Designation.
918.21 Powers.
918.22 Duties.

REPORTS, RECORDS AND FACILITIES

918.30 Reports of receipts and utilization.
918.31 Other reports.
918.32 Records and facilities.
918.33 Retention of records.

CLASSIFICATION

918.40 Skim milk and butterfat to be classified.
918.41 Classes of utilization.
918.42 Shrinkage.
918.43 Responsibility of handlers and reclassification of milk.
918.44 Transfers.
918.45 Computation of the skim milk and butterfat in each class.
918.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

918.50 Basic formula price.
918.51 Class prices.
918.52 Butterfat differential to handlers.
918.53 Location differentials to handlers.
918.54 Use of equivalent prices.

APPLICATION OF PROVISIONS

918.60 Producer-handlers.
918.61 Plants subject to other Federal orders.

DETERMINATION OF UNIFORM PRICE

918.70 Net obligation of handlers.
918.71 Computation of uniform prices for handlers.
918.72 Computation of the uniform price for base milk and for excess milk for handlers.

BASE RATING

918.80 Determination of daily base of each producer.
918.81 Determination of monthly base of each producer.
918.82 Base rules.
918.83 Announcement of daily bases.

PAYMENTS

918.90 Payments to market administrator.
918.91 Payments to producers.
918.92 Butterfat differential to producers.
918.93 Location differentials to producers.
918.94 Statement to producers.
918.95 Adjustment of accounts.
918.96 Marketing services.
918.97 Expense of administration.
918.98 Termination of obligations.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

918.100 Effective time.
918.101 Suspension or termination.
918.102 Continuing obligations.
918.103 Liquidation.

MISCELLANEOUS PROVISIONS

918.110 Agents.
918.111 Separability of provisions.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

AUTHORITY: §§ 918.0 to 918.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 918.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order, and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Memphis, Tennessee, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expense, 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all (i) receipts of producer milk, including such handler's own production, (ii) other source milk received at a fluid milk plant and classified as Class I milk, and (iii) Class I milk disposed of during the month on routes (including routes operated by vendors) to retail or wholesale outlets (except fluid milk plants) located in the marketing area from a plant other than a fluid milk plant.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Memphis, Tennessee, marketing area shall be in conformity to and in compliance with the terms and conditions of this order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended, as set forth below:

DEFINITIONS

§ 918.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 918.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the power or to perform the duties of the said Secretary of Agriculture.

§ 918.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this subpart.

§ 918.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 918.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congres of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 918.6 *Memphis, Tennessee, marketing area.* "Memphis, Tennessee, marketing area," hereinafter called the "marketing area", means all the territory within the boundaries of the following political subdiviisons: Shelby County and the city of Jackson, both in Tennessee and the city of West Memphis in Arkansas.

§ 918.7 *Fluid milk plant.* "Fluid milk plant" means (a) any plant from which not less than 5.0 percent of the Class I milk of such plant is disposed of during the month on routes (including routes operated by vendors) to retail or wholesale outlets (except other fluid milk plants) located in the marketing area, or (b) any plant receiving milk from farmers holding dairy farm permits or ratings issued by a health authority having jurisdiction in the marketing area, and from which milk, skim milk or cream is moved during the month to a plant qualified pursuant to paragraph (a) of this section.

§ 918.8 *Approved plant.* "Approved plant" means a fluid milk plant or any plant from which Class I milk is delivered (including delivery by a vendor or sale from a plant store) during the month to retail or wholesale outlets (except fluid milk plants) located in the marketing area.

§ 918.9 *Nonfluid milk plant.* "Nonfluid milk plant" means any milk manufacturing, processing or bottling plant other than a fluid milk plant.

§ 918.10 *Handler.* "Handler" means (a) any person in his capacity as the operator of an approved plant, or (b) any cooperative association with respect to milk of its producer members diverted by it from a fluid milk plant to a nonfluid milk plant for the account of such cooperative association.

§ 918.11 *Producer.* "Producer" means any person except a producer-handler who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority which milk is (a) received at a fluid milk plant or (b) diverted from a fluid milk plant to a nonfluid milk plant for the account of a handler: *Provided*, That milk so diverted shall be deemed to have been received by the diverting handler at the location of the plant from which it was diverted.

§ 918.12 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer and received at the fluid milk plant directly from producers, or diverted pursuant to § 918.11.

§ 918.13 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of products designated as Class I milk pursuant to § 918.41 (a) (1) except (1) such products received from other fluid milk plants or (2) producer milk; and

(b) Products from any source (including those produced by the handler) designated as Class II milk pursuant to § 918.41 (b) (1) which are reprocessed or converted to another product during the month.

§ 918.14 *Producer-handler.* "Producer-handler" means any person who operates an approved plant from which Class I milk is disposed of in the marketing area but who receives no milk from other dairy farmers.

§ 918.15 *Chicago butter price.* "Chicago buter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department of Agriculture.

MARKET ADMINISTRATOR

§ 918.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of the Secretary.

§ 918.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 918.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 918 97 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses, except those incurred under § 918.96, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 918.30 and 918.31 or payments pursuant to § 918.90;

(i) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, and notify each handler in writing on or before the 6th day of each month, the minimum price for Class I milk computed pursuant to § 918.51 (a) and the Class I butterfat differential computed pursuant to § 918.52 (a), both for the current month, and the minimum price for Class II milk computed pursuant to § 918.51 (b) and the Class II butterfat

differential computed pursuant to § 918.52 (b), both for the previous month;

(j) Notify each handler in writing on or before the 11th day of each month the amount of the net obligation of such handler for milk received from producers during the previous month. Such notification shall show the amount and the value of milk in each class, the amount and the value of overage, and the amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months;

(k) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate and notify each handler in writing:

(1) On or before the 13th day after the end of each of the months of September through February, the uniform price and the location differential for each handler computed pursuant to §§ 918.71 and 918.93, respectively, and the butterfat differential computed pursuant to § 918.92, and

(2) On or before the 13th day after the end of each of the months of March through August, the uniform prices for base milk and for excess milk and the location differential for each handler computed pursuant to §§ 918.72 and 918.93, respectively, and the butterfat differential computed pursuant to § 918.92; and

(l) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 918.30 *Reports of receipts and utilization.* On or before the 8th day after the end of each month each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator for each of his approved plants for such month as follows:

(a) The quantities of skim milk and butterfat contained in receipts of producer milk;

(b) The quantities of skim milk and butterfat contained in products designated as Class I milk pursuant to § 918.41 (a) (1) received from other handlers;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) Inventories of Class I milk on hand at the beginning and end of the month; and

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

§ 918.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler shall report to the market administrator in detail and on forms prescribed by the market administrator:

(1) On or before the 8th day after the end of the month, for each of his fluid milk plants the correct name and address or appropriate identification of each producer, the total pounds of milk received from each producer, the number of days on which milk was received from each producer, the amount of any deductions authorized in writing by the producer to be made in making payments to such producer, and the average butterfat content of the milk received from each producer.

(2) Such other information with respect to the utilization of butterfat and skim milk as the market administrator may prescribe.

§ 918.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form.

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and milk products handled; and

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products on hand at the beginning and end of each month.

§ 918.33 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 918.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month at fluid milk plants and which is required to be reported pursuant to § 918.30 shall be classified by the market administrator pursuant to the provisions of §§ 918.41 through 918.46.

§ 918.41 *Classes of utilization.* Subject to the conditions set forth in §§ 918.43 and 918.44, the class of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat (1) disposed of in the form of milk, skim milk, buttermilk, milk drinks (plain or flavored), cream (including sour cream) and any mixture in fluid form of skim milk and cream (except eggnog, ice cream mix, and milk or skim milk disposed of and used for livestock feed); (2) contained in inventory of milk and milk products designated as Class I milk pursuant to subparagraph (1) of this paragraph, on hand at the end of the month; and (3) not accounted for as Class II milk.

(b) Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those designated as Class I milk pursuant to paragraph (a) of this section, (2) disposed of and used for livestock feed, and (3) in shrinkage up to 2 percent of skim milk and butterfat in producer milk and other source milk.

§ 918.42 *Shrinkage.* The market administrator shall allocate shrinkage over receipts at the fluid milk plant(s) of each handler as follows:

(a) Compute the shrinkage of skim milk and butterfat assigned to Class II milk; and

(b) Assign the resulting amounts pro rata to the handler's receipts of skim milk and butterfat, respectively, in producer milk and in other source milk.

§ 918.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise;

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect, or if reused in Class I milk after first being classified as Class II milk.

§ 918.44 *Transfers.* Skim milk or butterfat disposed of from a fluid milk plant shall be classified:

(a) As Class I milk if transferred in the form of products designated as Class I milk in § 918.41 (a) (1) to a fluid milk plant of another handler, except a producer-handler, unless utilization as Class II milk is claimed by both handlers in the reports submitted by them to the market administrator pursuant to § 918.30: *Provided*, That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 918.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk: *And provided further*, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I milk utilization to producer milk;

(b) As Class I milk if transferred to a producer-handler in the form of products designated as Class I milk in § 918.41 (a) (1);

(c) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a nonfluid milk plant, unless the following conditions are met:

(1) The transferring handler claims utilization in a product specified in § 918.41 (b);

(2) The operator of the nonfluid milk plant keeps adequate books and records showing the utilization of all skim milk and butterfat received at such plant, and the market administrator is permitted to audit such books and records for the purpose of verification; and

(3) An amount of skim milk and butterfat not less than that so transferred or diverted from fluid milk plants was used during the month in the nonfluid milk plant in the Class II milk product in which utilization was claimed: *Provided*, That skim milk and butterfat so transferred or diverted in excess of such utilization shall be assigned to Class I milk.

§ 918.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for the fluid milk plants of each handler and shall compute the pounds of butterfat and skim milk in Class I milk and Class II milk for such handler: *Provided*, That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 918.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 918.45, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 918.42 (b);

(2) Subtract from the remaining pounds of skim milk in Class II milk the pounds of skim milk in other source milk: *Provided*, That if the receipts of skim milk in other source milk are greater than the remaining pounds of skim milk in Class II milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

(3) Subtract from the remaining pounds of skim milk in Class I milk the pounds of skim milk contained in inventory on hand at the beginning of the month which were classified as Class I milk in the preceding month;

(4) Subtract from the remaining pounds of skim milk in each class the skim milk received from the fluid milk plants of other handlers in the form of products designated as Class I milk in § 918.41 (a) (1), according to its classification as determined pursuant to § 918.44 (a);

(5) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(6) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be known as "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of the Class I and Class II milk allocated to producer milk.

MINIMUM PRICES

§ 918.50 *Basic formula price.* The highest of the prices computed pursuant to paragraphs (a), (b) and (c) of this section and § 918.51 (b), rounded to the nearest whole cent, shall be known as the basic formula price.

(a) To the average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

add an amount computed by multiplying the Chicago butter price for the month by 0.6;

(b) The price computed by adding together any plus values computed pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply the Chicago butter price by 4.8;

(2) Deduct five cents from the simple average as computed by the market administrator of the weighted averages of carlot prices per pound of nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department of Agriculture, and multiply by 7.5.

(c) The price resulting from the following calculations:

(1) Multiply by 8.53 the average of the daily prices per pound of cheese at Wisconsin primary markets ("cheddars," f. o. b. Wisconsin assembly points, cars or truckloads) as reported by the U. S. D. A. during the month;

(2) Add 0.902 times the Chicago butter price for the month;

(3) Subtract 34.3 cents; and

(4) Add an amount computed by multiplying the Chicago butter price for the month by 0.6.

§ 918.51 *Class prices.* Subject to the provisions of §§ 918.52 and 918.53, the minimum prices per hundredweight to be paid by each handler for milk received at his fluid milk plant from producers during the month shall be as follows:

(a) *Class I milk.* The price per hundredweight for Class I milk for the month shall be the basic formula price for the preceding month, subject to the adjustments provided in subparagraphs (1) and (2) of this paragraph:

(1) Add $1.28 for the months of March through August, and $1.68 for all other months;

(2) Add if the net utilization percentage calculated pursuant to subparagraph (3) of this paragraph is less than, or subtract if it is more than the base utilization range, an amount determined by multiplying such net utilization percentage by the appropriate rate as follows:

Pricing months:	Rate (cents)
January-March	3
April-June	1
July-August	3
September-December	4

(3) The figure calculated for each month as follows shall be known as the net utilization percentage: Divide the net pounds of Class I milk disposed of from all fluid milk plants for the second and third preceding months into the total volume of producer milk for the same months, multiply by 100, round to the nearest whole percentage number and determine the amount by which such number exceeds the higher figure or is less than the lower figure of the appropriate base utilization range in the following table:

Pricing month	Second and third preceding months	Base utilization range
January	October-November	106-110
February	November-December	106-111
March	December-January	106-[illegible]
April	January-February	110-[illegible]
May	February-March	112-122
June	March-April	119-129
July	April-May	125-138
August	May-June	125-138
September	June-July	124-134
October	July-August	122-132
November	August-September	115-125
December	September-October	106-116

(b) *Class II milk.* The average of the basic or field prices reported to have been paid or to be paid for ungraded milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture:

Present Operator and Location

Olive Branch Cheese Co., Olive Branch, Miss.
Borden Co., Starkville, Miss.
Carnation Co., Tupelo, Miss.
Pet Milk Co., Mayfield, Ky.
Pet Milk Co., Kosciuske, Miss.
Kraft Foods Co., Corinth, Miss.
Armour Creameries, New Albany, Miss.

§ 918.52 *Butterfat differential to handlers.* For milk containing more or less than 4.0 percent butterfat, the class prices calculated pursuant to § 918.51

shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the previous month by 0.12;

(b) *Class II price.* Multiply the Chicago butter price for the month by 0.11 for the months of April through June, and by 0.115 for all other months.

§ 918.53 *Location differentials to handlers.* For that milk which is received from producers at a fluid milk plant located 40 miles or more from the City Hall in Memphis, Tennessee, by shortest hard-surfaced highway distance, as determined by the market administrator, and which is transferred in the form of products designated as Class I milk in § 918.41 (a) (1) to another fluid milk plant and assigned to Class I pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 918.51 (a) shall be reduced at the rate set forth in the following schedule according to the location of the fluid milk plant where such milk is received from producers:

Distance from the City Hall in Memphis (miles):	*Rate per hundredweight (cents)*
40 but less than 50	17
50 but less than 60	18
For each additional 10 miles or fraction thereof	An additional 1 cent

Provided, That for purposes of calculating such location differential, products so designated as Class I milk which are transferred between fluid milk plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 918.46 (a) (1) and (2) and the comparable steps in (b) for such plant, and after deducting from such remainder an amount equal to 0.05 times the skim milk and butterfat contained in the producer milk received at the transferee-plant, such assignment to transferor plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 918.54 *Use of equivalent prices.* If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 918.60 *Producer-handlers.* Sections 918.40 through 918.46, 918.50 through 918.53, 918.70 through 918.72, 918.80 through 918.83, and 918.90 through 918.97 shall not apply to a producer-handler.

§ 918.61 *Plants subject to other Federal orders.* In the case of any fluid milk plant which the Secretary determines disposes of a greater portion of its milk as Class I milk on retail or wholesale routes in another marketing area regulated by another order issued pursuant to the act that is disposed of as Class I milk on retail or wholesale routes (including sales through vendors) in the Memphis marketing area, and which would be subject to the classification and pricing provisions of such order, the provisions of this order shall not apply except as follows: The operator of such plant shall, with respect to the total receipts and utilization of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require, and allow verification of such reports by the market administrator.

DETERMINATION OF UNIFORM PRICE

§ 918.70 *Net obligation of handlers.* The net obligation of each handler for producer milk received at his fluid milk plants during each month shall be a sum of money computed by the market administrator as follows: (a) Multiply the pounds of such milk in each class by the applicable class price; (b) add together the resulting amounts; (c) add the amounts computed by multiplying the pounds of overage deducted from each class by the applicable class price; (d) add or subtract, as the case may be, an amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months; (e) from the effective date hereof through July 1954, deduct for each hundredweight of producer milk which was allocated to Class II pursuant to § 918.46 and which was either used in the production of American type cheeses or assigned to such products pursuant to § 918.44 (c), any amount by which the price of Class II milk exceeds the average of the prices reported pursuant to § 918.51 (b) for the plants located at Corinth, New Albany and Olive Branch, Mississippi; and (f) add for each month of September an amount calculated by multiplying by 40 cents the hundredweight by which the inventory classified pursuant to § 918.41 (a) (2) for the preceding month exceeds such inventory for the preceding February.

§ 918.71 *Computation of uniform prices for handlers.* For each of the months of September through February, the market administrator shall compute for each handler with respect to his producer milk a uniform price as follows:

(a) Add to the amount computed pursuant to § 918.70 the total of the location differential deduction made pursuant to § 918.93;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk received by such handler is less or more, respectively, than 4.0 percent, an amount computed by multiplying such difference by the butterfat differential to producers, and multiplying the result by the total hundredweight of producer milk;

(c) Add the amount represented by any deductions made for eliminating fractions of a cent in computing the uniform price(s) for the preceding month;

(d) Divide the resulting amount by the total hundredweight of producer milk received by such handler. The result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for milk of 4.0 percent butterfat content, f. o. b. market.

§ 918.72 *Computation of the uniform price for base milk and for excess milk for handlers.* For each of the months of March through August, the market administrator shall compute for each handler with respect to his producer milk a uniform price for base milk and for excess milk as follows:

(a) Add to the amount computed pursuant to § 918.70 the total of the location differential deductions made pursuant to § 918.93;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk received by such handler is less or more, respectively, than 4.0 percent, an amount computed by multiplying such difference by the butterfat differential to producers, and multiplying the result by the total hundredweight of producer milk;

(c) Subtract, for each of the months of March through August, any amounts resulting from the following computations for each cooperative association which is a handler pursuant to § 918.10 (b) and from whose producers the handler receives milk:

(1) Compute the percentage which milk received from members of the cooperative association was of total producer milk during the preceding period of September through February;

(2) Compute the percentage which milk received from members of such cooperative association was of total producer milk during the month;

(3) Multiply any amount by which the percentage computed pursuant to subparagraph (1) of this paragraph exceeds the percentage computed pursuant to subparagraph (2) of this paragraph by the total hundredweight of Class I milk allocated to producer milk during the month; and

(4) Multiply this resultant quantity of milk by the difference between the Class I price and the Class II price for the month and divide the resultant figure by the proportion of producer milk which was purchased from producers not members of such cooperative association: *Provided*, That if the combined deductions so calculated for all handlers with respect to the milk of any cooperative association exceed an allowable credit calculated by multiplying the difference between the Class I and Class II prices by the total quantity of Class II milk allocated to all producer members of such cooperative association during the month, such deductions shall be reduced pro rata for each handler to equal such allowable credit:

(d) Add, for each cooperative association which is a handler, the sum of the deductions made for such cooperative association pursuant to paragraph (c) of this section;

(e) Add the amount represented by any deductions made for eliminating fractions of a cent in computing uniform price(s) for the preceding month;

(f) Subject to the conditions set forth in paragraph (g) of this section, compute the value of excess milk received by such handler from producers by multiplying the quantity of such milk by the Class II price;

(g) Compute the value of base milk received by such handler from producers by subtracting the value obtained pursuant to paragraph (f) of this section from the value obtained pursuant to paragraphs (a) through (e) of this section: *Provided*, That if such resulting value is greater than an amount computed by multiplying the pounds of such base milk by the Class I price, such value in excess thereof shall be added to the value computed pursuant to paragraph (f) of this section;

(h) Divide the value obtained pursuant to paragraph (g) of this section by the hundredweight of base milk received by such handler from producers. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for base milk of 4.0 percent butterfat content, f. o. b. the market; and

(i) Divide the value obtained pursuant to paragraph (f) of this section by the hundredweight of excess milk received by such handler from producers. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for excess milk of 4.0 percent butterfat content.

BASE RATING

§ 918.80 *Determination of daily base of each producer.* For the months of March through August of each year, the daily base of each producer shall be an amount of milk computed by the market administrator by dividing the total pounds of milk received from such producer by handlers during the preceding months of September through February by the total number of days in such period.

§ 918.81 *Determination of monthly base of each producer.* For each of the months of March through August of each year, the monthly base of each producer shall be an amount of milk computed by the market administrator by multiplying the daily base of such producer by the number of days on which milk was received during such month from such producer by a handler.

§ 918.82 *Base rules.* (a) A landlord who rents on a share basis shall be entitled to the entire daily base to the exclusion of the tenant if the landlord owns the entire herd. A tenant who rents on a share basis shall be entitled to the entire daily base to the exclusion of the landlord if the tenant owns the entire herd. If the cattle are jointly owned by the tenant and landlord, the daily base shall be divided between the joint owners according to ownership of the cattle.

(b) A producer, whether landlord or tenant, may retain his base when moving his entire herd of cows from one farm to another: *Provided*, That at the beginning of a tenant and landlord relationship the base of the landlord and tenant may be combined and may be divided when such relationship is terminated.

(c) The base of a producer may be moved from one handler to another and may be transferred from such producer to another producer.

§ 918.83 *Announcement of daily bases.* On or before March 20 of each year, the market administrator shall notify each producer of his daily base.

PAYMENTS

§ 918.90 *Payments to market administrator.* On or before the 12th day of each month, each handler shall pay to the market administrator an amount equal to such handler's net obligation for the previous month for milk received from producers at his fluid milk plant(s) as determined pursuant to § 918.70, less proper deductions authorized in writing by such producers. The market administrator shall maintain a separate fund into which he shall deposit all payments of handlers received pursuant to this section and out of which he shall make all payments pursuant to § 918.91.

§ 918.91 *Payments to producers.* The market administrator shall pay each producer in the manner prescribed in paragraphs (a) and (b), or (c) of this section for milk received by a handler from such producer: *Provided*, That if such handler has not made full payment for the month pursuant to § 918.90, the market administrator shall reduce uniformly payments to such handler's producers and shall complete such payments after receiving the balance due from such handler.

(a) On or before the 15th day after the end of the months of September through February, the market administrator shall pay each producer for milk received by a handler from such producer during the month an amount computed by multiplying the hundredweight of such milk by not less than the uniform price computed for such handler pursuant to § 918.71, subject to the adjustments specified in §§ 918.92, 918.93, and 918.96, and less proper deductions authorized in writing by such producer.

(b) On or before the 15th day after the end of each of the months of March through August, the market administrator shall pay each producer for milk received by a handler from such producer during the month, subject to proper deductions authorized in writing by such producer and subject to the adjustments specified in §§ 918.92, 918.93 and 918.96, an amount computed as follows:

(1) Multiply the hundredweight of base milk received from such producer by such handler by not less than the uniform price for base milk computed for such handler pursuant to § 918.72;

(2) Multply the hundredweight of excess milk received from such producer by such handler by not less than the uniform price for excess milk computed for such handler pursuant to § 918.72; and

(3) Add together the resulting sums.

(c) In the case of a cooperative association which is authorized by its members to collect payment for milk and which has so requested, the market administrator shall pay, on or before the 2d day prior to the date payments are due pursuant to paragraphs (a) and (b) of this section, a total amount equal to not less than the sum of the individual payments otherwise payable to such producers pursuant to this section.

§ 918.92 *Butterfat differential to producers.* The applicable uniform prices to be paid each producer pursuant to § 918.91 shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 4.0 percent, respectively, at the rate shown in the schedule below, according to the price range within which the Chicago butter price for the month falls:

Butter price range (cents):	*Rate (cents)*
Not more than 17.500	2
17.50–22.499	2½
22.50–27.499	3
27.50–32.499	3½
32.50–37.499	4
37.50–42.499	4½
42.50–47.499	5
47.50–52.499	5½
52.50–57.499	6
57.50–62.499	6½
62.50–67.499	7
67.50–72.499	7½
72.50–77.499	8
77.50–82.499	8½
82.50–87.499	9
87.50–92.499	9½
92.50 and over	10

§ 918.93 *Location differentials to producers.* In making payment to producers pursuant to § 918.91, the applicable uniform prices to be paid for producer milk received at a fluid milk plant located 40 miles or more from the City Hall in Memphis, Tennessee, by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be reduced according to the location of the fluid milk plant where such milk was received at the following rate:

Distance from the City Hall in Memphis (miles):	*Rate per hundredweight (cents)*
40 but less than 50	17
50 but less than 60	18
For each 10 miles or fraction thereof	An additional 1 cent.

§ 918.94 *Statement to producers.* In making the payments pursuant to § 918.91, the market administrator shall furnish each producer or cooperative association with a statement in such form that it may be retained by the producer or cooperative association which shall show:

(a) The delivery period and the identity of the handler and the producer;

(b) The total pounds and the average butterfat content of milk delivered by the producer;

(c) The minimum rates at which payment to the producer or cooperative association is required under the provisions of §§ 918.91, 918 92 and 918.93.

(d) The amount or rates per hundredweight of each deduction, together with a description of the respective deductions; and

(e) The net amount of payment to the producer or cooperative association.

§ 918.95 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in money due the market administrator from such handler, or due such

handler from the market administrator, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 918.96 *Marketing services*—(a) *Deductions.* The market administrator in making payments to producers pursuant to § 918.91 shall (1) deduct 7 cents per hundredweight or such amount not exceeding 7 cents per hundredweight as may be prescribed by the Secretary, with respect to milk (other than milk of a handler's own production) of those producers for whom the marketing services set forth in paragraph (b) of this section are not being performed by a cooperative association or (2) if so requested by a cooperative association, deduct such amount as may be authorized by the producer members of such association from the payment to be made to such producers for whom the cooperative is performing the services specified in paragraph (b) of this section and pay such amounts to the cooperative association on or before the date for making payment to producers.

(b) *Marketing services to be rendered.* The moneys received by the market administrator pursuant to paragraph (a) (1) of this section shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association.

§ 918.97 *Expense of administration.* As his pro rata share of the expense of administration of this subpart, each handler shall pay to the market administrator, on or before the 15th day after the end of the month, for such month 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all (a) receipts of producer milk including such handler's own production, (b) other source milk received at a fluid milk plant and classified as Class I milk and (c) Class I milk disposed of during the month on routes (including routes operated by vendors) to retail or wholesale outlets (except fluid milk plants) located in the marketing area from a plant other than a fluid milk plant.

§ 918.98 *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 918.100 *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 918.101.

§ 918.101 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision hereof whenever he finds this subpart or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 918.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 918.103 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 918.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 918.111 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

[F. R. Doc. 54-3104: Filed, Apr. 23, 1954; 8:50 a. m.]

[7 CFR Part 969]

[Docket No. AO-254]

HANDLING OF AVOCADOS GROWN IN SOUTH FLORIDA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900; 19 F. R. 57), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and order regulating the handling of avocados grown in South Florida. Such marketing agreement and order would be effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). Interested parties may file written exceptions to this recommended decision

with the Hearing Clerk, United States Department of Agriculture, Room 1353, South Building, Washington 25, D. C. Any such exceptions should be filed in quadruplicate, and must be received prior to the close of business on the tenth day after publication of this recommended decision in the FEDERAL REGISTER.

Preliminary statement. A public hearing, on the record of which the proposed marketing agreement and marketing order were formulated, was held at Homestead (Modella), Florida, from March 8 to March 11, 1954, both dates inclusive. Such hearing was held pursuant to a notice thereof which was published in the FEDERAL REGISTER (19 F. R. 909) on February 17, 1954. Said notice contained a proposed marketing agreement and order which had been presented to the Department of Agriculture by the Marketing Agreement Committee of Avocado Growers and Shippers, with a petition for a hearing thereon. The objective of the proposed marketing agreement and order is to bring to the avocado industry of Florida the benefits of the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act").

Material issues. The material issues presented on the record of the hearing are as follows:

(1) The need for the proposed regulatory program to effectuate the declared purposes of the act;

(2) The existence of the right to exercise Federal jurisdiction in this instance;

(3) The definition of the commodity and determination of the production area to be affected by the marketing agreement and order;

(4) The identity of the persons and transactions to be regulated;

(5) The specific terms and provisions to be incorporated in the marketing agreement and order, if adopted, such as:

(a) The definitions of such terms as "Secretary," "act," "person," "committee," "fiscal year," "grower," and "district";

(b) The establishment and maintenance of an administrative agency, to be known as the Avocado Administrative Committee (hereinafter referred to as the "committee") for conducting marketing agreement and order operations, the powers and duties of such committee, and its manner of doing business;

(c) The incurring of expenses by the committee and the levying of assessments;

(d) The methods for regulating shipments of avocados grown in the production area;

(e) The granting of exemptions in connection with maturity regulations;

(f) The requirement for inspection and certification of all avocados handled;

(g) The specification of the purposes for which avocados may be handled free from regulation;

(h) The keeping of records and filing of reports by handlers;

(i) The requirement of compliance with all provisions of the marketing agreement and order and with regulations issued pursuant thereto; and

(j) Additional terms and conditions as set forth in §§ 969.62 through 969.71 and published in the FEDERAL REGISTER (19 F. R. 909) on February 17, 1954, which are common to marketing agreements and orders, namely, right of the Secretary, effective time, termination, proceedings after termination, effect of termination or amendment, duration of immunities, agents, derogation, personal liability, and separability, and certain other terms and conditions as set forth in §§ 969.72 through 969.74, and also published in the said issue of the FEDERAL REGISTER, which are common to marketing agreements only, namely, counterparts, additional parties, and order with marketing agreement.

Findings and conclusions. The findings and conclusions on the foregoing material issues, all of which are based on the evidence adduced at the hearing and the record thereof, are as follows:

(1) Commercial production of avocados in Florida is confined to the southern and central portions of the State. Slightly more than 80 percent of the Florida avocados marketed are grown in Dade County with the remaining commercial production centered in Highlands and Polk Counties at the lower end of the so-called "Ridge" area of the State. Additional commercial avocado plantings have been made at scattered locations throughout the southern half of the State, particularly along the coastal areas, where soil and temperature conditions are favorable for the growing of avocados.

There are several factors concerning the avocado industry in Florida which demonstrate the need for regulation on the shipment of Florida avocados. Avocado production in Florida has almost doubled since 1950 and such production will undoubtedly continue to increase unless existing avocado groves are severely damaged by adverse weather, or other conditions. In June 1948, the commercial bearing acreage of avocados (trees 4 years of age or older) in Dade County totaled 2,967 acres. At that time, there were also 3,550 acres of avocado trees planted in Dade County which had not reached bearing age. A more recent survey shows 7,498 acres of avocados in Dade County in 1952, not including approximately 1,500 acres of avocado trees planted since 1950. Thus, not more than one-third of the existing acreage of avocados in Dade County has reached its maximum bearing capacity. Consequently, avocado production in Florida of 2 to 3 times the 424,000 bushels estimated for the 1953–54 season is not unlikely within the next few years. Moreover, evidence presented at the hearing shows that, with proper cultural practices, avocado trees can be maintained in maximum production for a long period of time.

There has not been developed any satisfactory outlet for avocados other than the fresh market. The growers and handlers of Florida avocados have been accustomed to sell in fresh market channels the entire harvested production of Florida avocados, including fruit which is immature and otherwise of poor quality and undesirable appearance. This has tended to reduce the demand, and hence the market prices received, for Florida avocados. There are no officially established grade standards for avocados. Hence, Florida handlers have endeavored to fix their own grades for their individual packs and to market under such grades. However, the differences, or lack of uniformity, in these grade designations have tended further to create confusion in the minds of the buyers. In addition, many handlers have varied their individual grade standards to reflect variations in the supply, quality, and demand for Florida avocados during a particular season. Thus, Florida avocados of undesirable quality frequently have been marketed in a manner designed to indicate that such avocados were of desirable quality. This situation has resulted in considerable confusion in the minds of buyers concerning the quality of Florida avocados and has created lack of confidence in such fruit. The existence of this undesirable situation is generally recognized by the growers and handlers, and the consensus of opinion is that it can be resolved only by the imposition of standards of quality and maturity as a condition precedent to the marketing of Florida avocados. However, the industry has not been able to resolve the situation by itself by reason of certain legal restrictions, but the imposition of such requirements may properly be imposed under a marketing agreement and order program.

Seasonal average prices received by the Florida growers of avocados have been low in relation to parity during recent seasons. During the 1952–53 season, the average price received by growers in Florida for avocados was $108.00 per ton, at the point of first delivery, or 19 percent of the parity price for such avocados.

Prices for Florida avocados, and total returns to the growers of such fruit, could be augmented by making only good quality, mature avocados available in fresh market channels. This could be accomplished under a marketing agreement and order program by prohibiting the shipment of avocados which are immature or of undesirable quality or appearance. Such limitations would tend to increase consumer satisfaction and stimulate demand.

Shipments of avocados which are immature or of undesirable quality or appearance often do not sell at prices covering the cash costs of harvesting and marketing. Restrictions on the shipment of such fruit would not only improve the quality of the avocados shipped but would also improve the average returns to growers by preventing losses incurred through the shipment of immature, poor quality avocados. Moreover, competition in the marketing of avocados is based to a considerable extent upon price; and the offering for sale of immature, poor quality avocados at discounts tends to depress prices for avocados of desirable quality.

Therefore, it is concluded that a marketing agreement and order, providing for the regulation of the maturity and quality of shipments of Florida avocados, are needed to effectuate the declared policy of the act. The objective to be

followed under such marketing agreement and order is the tailoring of the supply of avocados available for sale in fresh market channels to the demand in such outlet so that the fruit thus made available to buyers will be mature and of desirable quality and appearance. The limiting of shipments of Florida avocados to mature, good quality fruit would contribute to the establishment of more orderly marketing conditions for such fruit and would tend to increase the demand therefor.

(2) Any handling of Florida avocados in fresh market channels exerts an influence on all other handling of such avocados in fresh form. Sellers of such avocados, as of other commodities, endeavor to transact their businesses so as to secure the highest possible return for the quantities of avocados they have available for sale. In effecting these transactions, the sellers continually survey all accessible markets in order to take advantage of the best opportunities to market the fruit. Markets within the State of Florida provide opportunities to dispose of avocados in the same manner as the markets within other States, or within Canada; and the sale of a quantity of Florida avocados in a market within the State of Florida exerts the same influence on all other sales of such avocados as a like quantity sold in a market within another State.

Shipments of Florida avocados may be scheduled originally for delivery to markets within the State of Florida and then be diverted en route to markets within another State or within Canada. For example, truck lots of avocados often are shipped to Tampa or Jacksonville and then diverted to markets outside the State of Florida. In addition, itinerant truckers acquiring avocados at packinghouses or from growers dispose of such avocados wherever they can obtain the best price. Thus, such a trucker may intend to sell the avocados he acquires within the State of Florida, but may, if he is dissatisfied with the price obtainable in such in-state markets, transport all or a portion of such fruit to out-of-state markets. Also, dealers in avocados in the markets within the State of Florida purchase avocados from packinghouses and growers and resell such fruit to consumers, retailers, or others doing business within the State and to truckers who dispose of the fruit in out-of-state markets. It is impossible, therefore, always to ascertain, at the time avocados are first handled, whether such avocados will be marketed within the State of Florida or at some point or points outside thereof.

If shipments of avocados to markets outside the State of Florida were regulated, while at the same time shipments of avocados to markets within the State of Florida were not regulated, growers and handlers would endeavor to market within the State all avocados which could not otherwise be shipped because of such regulation. Prices for avocados sold in intrastate markets would thereby be depressed below those prevailing in the markets outside the State. The existence of such lower price level for avocados being marketed within the State of Florida would tend to depress the prices for avocados sold in the interstate markets. This would be particularly true with respect to the markets, such as Atlanta and New Orleans, in nearby States. Furthermore, with large quantities of poor quality avocados available for sale in markets within the State of Florida, there would be little opportunity to sell in such markets avocados meeting the requirements of the regulations established. The larger quantity of avocados, which would be required to be sold in the interstate markets under such circumstances, would also tend to lower the level of prices in the interstate markets. The Florida markets are extremely important to the growers and handlers of avocados as a large portion of the crop is marketed in such intrastate markets. Evidence presented at the hearing indicates that 10 to 20 percent of the total crop of Florida avocados is sold in markets within the State.

In these circumstances, it is concluded that (a) all handling of avocados grown in the production area is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce, and (b) the handling of such avocados within the State of Florida and such handling in interstate and foreign commerce are so inextricably intermingled that it would be impracticable to regulate the handling of such avocados as is in interstate and foreign commerce without regulating all handling of such avocados.

(3) The term "avocados," as used in the marketing agreement and order, identifies the commodity to be regulated thereunder as distinguished from all other avocados. The term "avocados" should be defined to mean any and all varieties of avocados grown in the production area, as hereinafter defined, as it is necessary that all such avocados be subject to regulation under the marketing agreement and order in order to effectuate the declared policy of the act. Testimony at the hearing disclosed that there are at least twenty-two varieties of avocados grown in some volume in the proposed production area, and that a considerable number of other varieties are grown there to a lesser extent. Further, an avocado is a distinctive type of fruit which is readily identifiable and it is of such a nature that it is not necessary to describe it further than as an avocado.

The term "production area" should be incorporated in the marketing agreement and order to specify and delineate the area within which avocados must be grown for the handling thereof to be subject to regulation. Such term should include that portion of the State of Florida in which avocados are grown on a commercial scale or soil and climatic conditions are such that commercial production of avocados is feasible. Thus the "production area" should include the counties of Brevard, Osceola, Polk, Hillsborough, and Pinellas in the State of Florida and that portion of the State of Florida which is situated south of such counties. Some avocados are grown in the State of Florida north of the described production area but such avocado production is negligible and of no commercial significance. Also, climatic conditions in the section of the State north of the described production area are such that it is not likely that there will be any appreciable increase in the production of avocados in such section.

Many of the same varieties of avocados produced for market within the counties included in the described production area are grown throughout the area, are marketed at approximately the same time, and compete with each other in the markets.

There was some discussion at the hearing concerning the necessity of including Brevard County in the production area. It was stated that the production of avocados in that county was small and that there was no necessity for regulating such avocados. On the other hand, it was contended by the industry generally that, while the present commercial production of avocados in Brevard County is relatively small, there were in 1950 three times the non-bearing avocado trees as the number of bearing trees, and that soil and climatic conditions in Brevard County make it possible to increase the production of avocados in such county. Furthermore, one of the principal highways from the major avocado producing section of the production area passes through Brevard County and the exclusion of any county so situated, where avocados are produced on a commercial scale, would create enforcement problems which could jeopardize the effective operation of the program.

It is concluded, therefore, that the production area, as defined, is the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act.

(4) The term "handler" should be defined in the marketing agreement and order to identify those persons who are regulated under the program. The term "handler," therefore, should include all persons who "handle" avocados in the manner described hereinafter or who cause avocados to be so handled. However, common or contract carriers of avocados transporting to market avocados owned by another person should not be considered the "handler" of such avocados, as in such instances the carrier is performing services for hire and does not have any control over the quality of the commodity it transports. Moreover, a common carrier is required, in performing services, to transport commodities at the request of the shipper.

The term "handle" should be defined to identify those activities which it is necessary to regulate in order to effectuate the declared policy of the act. Such activities are those which place or continue avocados in commerce and include the selling, consigning, delivering, or transporting of avocados within the production area or from the production area to any point outside thereof in the continental United States or Canada. The performance of any one or more of these activities, either directly or indirectly through others, should constitute handling. Avocados are frequently transported, sold, or otherwise placed or continued in commerce by more than one person. In order to effectuate the

declared policy of the act, each such person should be required to limit such handling of avocados to fruit which conforms to the applicable regulations established under the marketing agreement and order.

Testimony at the hearing shows that there are appreciable quantities of Florida avocados sold in the Canadian markets. Such markets are supplied both by direct shipments from the production area and by diversion or resale of shipments after the fruit leaves the State. Handlers generally consider the Canadian markets as a part of their over-all "domestic" market, and avocados marketed in Canada should be subject to the same regulations as are applicable to fruit sold in the domestic market.

The handling of avocados for specified outlets or uses enumerated in § 969.55 of the proposed marketing agreement and order should be excepted from regulation, however, for the reasons set forth in issue 5 (g) of this decision. Also, the term "handle" should be limited by particular exceptions to make its applicability specific and to simplify the administration of the program.

The sorting, grading, packing, and other acts in the preparation of avocados for market should not be covered as handling subject to regulation. These actions, whenever they are performed, are, of necessity, preliminary to the handling—i. e., selling, consigning, delivering, or transporting—of avocados. Moreover, it would unnecessarily complicate the administration of the program to require persons engaged in the preparation of avocados for market to meet the requirements of regulations under the marketing agreement and order prior to such preparation. Therefore, such activities should not be included within the definition of handle.

It is common practice for growers to sell or deliver their avocados to persons having facilities for packing and otherwise preparing the fruit for market. The grower, in such instances, properly relies on the person preparing the avocados for market to see that the fruit which is thereafter shipped meets all applicable requirements for marketing. Thus, there should be excepted the movement of avocados from the groves to the place where the fruit will be prepared for market. It is necessary, however, to limit the scope of this exception in order to assure compliance with the regulations established under the program. Hence, it should be required that the facilities, where the avocados are to be prepared for market, be located within the production area. Otherwise, it would not be possible for the administrative committee, established under the provisions of the proposed marketing agreement and order, effectively to check on the disposition of the avocados delivered to the packing facilities which did not meet the program requirements. Also, this exception should apply only in case the person engaged in the preparation of avocados for market has registered with the committee in accordance with such rules as it may prescribe with the approval of the Secretary. This registration is necessary because some avocados are prepared for market in sheds or other buildings located at or near avocado groves and it is necessary that the committee have knowledge of these locations for enforcement purposes; and also to afford the committee an opportunity to check on the handler-applicant's statements regarding his manner of doing business and his facilities for the preparation of avocados for market. It is intended that the committee, under its rules, will register all handler-applicants who it is reasonable to believe will conduct his packing and handling operations in accordance with the program requirements.

There are some growers who deliver their avocados to the packinghouse of handlers where the fruit is prepared for market, for a fee, for the person making such delivery. Also, a handler may, in some instances, have another handler pack avocados for him. Transactions of this nature are generally referred to by the industry as "custom packing." After the avocados are so packed they are returned to the person for whom the custom packing was performed who thereafter markets the avocados in any manner he desires. As the custom packer is merely performing services for a fee and has no control over the disposition of the fruit which is custom packed, he should not be considered as the handler of the avocados. Conversely, the person for whom the avocados are custom packed is the handler of the avocados, unless he sells them to a registered handler, and is responsible for compliance with the program terms, provisions, and regulations which are applicable at the time he sells, consigns, delivers, or transports the fruit so packed.

With the exceptions stated heretofore, all activities from the time the avocados are severed from the tree until they are moved outside the production area are included in the process of handling. Any person who handles avocados, as "handle" is defined in the marketing agreement and order, should be subject to regulation thereunder as to such handling transactions. Hence, if a producer of avocados sells or delivers avocados to an itinerant trucker or any other person not registered with the committee, in the manner heretofore described, the regulation should apply at the time of such sale or delivery. Under such circumstances, the producer is the first handler of such avocados and is responsible for complying with the marketing agreement and order restrictions applicable at the time of such sale or delivery. Likewise, the same restrictions would apply to each person who subsequently handles such avocados.

(5) (a) Certain terms applying to specific individuals, agencies, legislation, concepts, or things are used throughout the proposed marketing agreement and order. These terms should be defined for the purpose of designating specifically their applicability, and establishing appropriate limitations on their respective meamngs wherever they are used.

The definition of "Secretary" should include not only the Secretary of Agriculture of the United States, the official charged by law with the responsibility for programs of this nature, but also, in order to recognize the fact that it is physically impossible for him to perform personally all functions and duties imposed upon him by law, any other officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to act in his stead.

The definition of "act" provides the correct legal citations for the statute pursuant to which the proposed regulatory program is to be operative and avoids the need for referring to these citations.

The definition of "person" follows the definition of that term as set forth in the act, and will insure that it will have the same meaning as it has in the act.

The term "fiscal year" should be defined to identify the 12-month period with respect to which the financial records of the Avocado Administrative Committee—the agency which will administer the program—are to be maintained. The establishment of such period is necessary for businesslike administration of the marketing agreement and order and is desirable as a basis for establishing the terms of office of committee members and alternates. The date marking the end of one fiscal year and the beginning of the next should be fixed at a time of relative inactivity in the marketing of the avocado crop and should allow sufficient time, prior to the start of the new marketing season, for the committee to organize and develop information necessary to its functioning during the ensuing year. Marketing of the annual Florida avocado crop begins in the latter part of June or early July and is completed prior to April 1 of the following calendar year. Hence, March 31 of each year is an appropriate date, for the ending of each fiscal year. This term should be defined, therefore, as hereinafter set forth.

A definition of "committee" should be incorporated in the marketing agreement and order to identify the administrative agency established under the provisions of the program. Such committee is authorized by the act and the definition thereof, as hereinafter set forth, is merely to avoid the necessity of repeating its full name each time it is referred to.

The term "grower" should be synonymous with "producer" and should be defined to mean any person who is engaged, within the production area, in the production of avocados for market and who has a proprietary interest therein. A definition of such term is necessary for such determinations as eligibility to vote for, and to serve as, a grower member or alternate grower member of the Avocado Administrative Committee, and for other reasons. The term should be limited to those who have a proprietary interest in the avocados produced. It should not include laborers or others who perform work for a fee or for hire in producing the avocados. Each business unit (such as a corporation, partnership, or community property arrangement) engaged in the production of avocados for market

should, when voting for nominees for membership on the committee, be entitled to only one vote.

There was some discussion at the hearing with respect to the situation as to voting in the following cases: (i) The producer leases the land from another; (ii) landlord-tenant arrangement; and (iii) so-called joint account arrangements. With respect to (i), the lessee presumably pays a cash rental or fee to the owner for the use of the property and the lessee has full ownership of the fruit produced. In these circumstances, only the lessee should be considered as the grower, since he is the only one who has a proprietary interest in the fruit which is so produced for market. In regard to (ii), there appear to be two types of arrangements, i. e., the landlord and the tenant each receive a specified percentage of the crop as his share or the landlord retains ownership of all of the fruit produced and the tenant is compensated on the basis of an agreed percentage of the financial returns from the marketing of the fruit. In instances where each obtains ownership of a specified portion of the crop, each should be deemed to be a grower and entitled to vote as such. But, where the tenant receives his compensation in money, only the landlord should be considered as the grower for voting purposes. These determinations are in accordance with the stated principle of recognizing as the growers only those persons who produce such fruit for market in a proprietary capacity. With reference to (iii), the evidence indicated that such an arrangement, which is apparently recognized by the laws of Florida, actually involves the operation of a grove as one unit, even though each party had an undivided interest therein. In other words, the situation is, insofar as we are concerned here, the same as a partnership, and only one vote should be permitted.

A definition of "district" should be incorporated in the marketing agreement and order to delineate the geographical divisions of the production area for the purpose of electing nominees for membership on the committee. Also, evidence at the hearing shows that, in some seasons, there are differences in the time of maturity of the avocados grown in Dade County and fruit of the same variety grown in the remainder of the production area. Consequently, it will be necessary at times to prescribe different regulations for avocados grown in Dade County and in the remainder of the production area in order to be equitable to the growers in both such areas and to assure that only avocados of good quality are marketed. Hence, the designation of Dade County as District 1 and of the remainder of the production area as District 2 will facilitate operations under the program. "District" should be defined, therefore, as hereinafter set forth.

(b) It is necessary to establish an agency to act in administering the proposed marketing agreement and order under and pursuant to the act, as an aid to the Secretary in carrying out the declared policy of the act. The term "Avocado Administrative Committee" is a proper identification of the agency and reflects the administrative character thereof. It should be composed of nine members, of whom five should represent producers and four should represent handlers. Alternate members should be provided to act in the place and stead of the members. Such a committee would be large enough to provide representation to all segments of the industry. At the same time, it is of such size that it can operate effectively and efficiently. The foregoing division of the members between producers and handlers would provide suitable producer representation and handler experience and information. A majority of the committee should consist of producers because the program is designed to benefit producers. The provision for handler members tends to give balance to the committee by providing the handler experience and marketing information necessary to the development of economically sound regulation of avocado shipments. Each handler member should be either a handler or an employee of a handler, as handlers often are corporations and would be precluded from having representation on the committee unless employees were authorized to serve as members of the committee. One handler member and one grower member should represent District 2 and the other members of the committee should represent District 1. Such division of the representation on the committee is representative of the volume of production of avocados in the two districts.

Each producer or handler member of the committee, and his alternate, should be a producer or handler, as the case may be, of avocados in the district for which he is selected. A person with such qualifications should be intimately acquainted with the problems of producing or marketing avocados grown in such district and may be expected to present accurately the problems incident to the production or handling of avocados grown in that district. The producer members and alternates should be growers who are not handlers or employees of handlers. Such provision is necessary to assure that the interests of the majority of the committee are primarily the growing of avocados.

A term of office for committee members should be provided in the marketing agreement and order to establish an orderly procedure for changing the membership of the committee. The term of office should be for one year and should cover the same period as the fiscal year for the reasons discussed heretofore in connection with the definition of that term. The provision for a one year term of office is desirable as producers and handlers will thus have an opportunity at the close of each marketing season to indicate whether they desire the incumbent members to represent them for another year. As appointment of the new committee members and alternates may not always be made in time for them to take office immediately upon the expiration of the term of office of the existing committee, provision should be made in the marketing agreement and order for members and alternates to serve in such position during the term of office for which they are selected and until their respective successors have been selected and qualified. Such provision will assure continuous functioning of the committee. Evidence presented at the hearing indicated that it would be desirable to assure that the same committee members would not serve continuously. Accordingly, provision should be made so that a member would be precluded from serving continuously on the committee for longer than three consecutive terms of office. This provision should not apply to alternate members as alternates actually serve on the committee only when the member for whom he is an alternate is unable to serve.

A procedure for the election by growers and handlers of nominees for membership on the committee should be prescribed in the marketing agreement and order to assist the Secretary in his selection of members and alternate members of the committee. The nomination of prospective members and alternate members at meetings of growers and handlers in the respective districts is a practical method of providing the Secretary with the names of the persons which the industry desires to serve on the committee.

Nomination meetings for the purpose of electing nominees for members of the committee and their alternates should be held or caused to be held by the committee on or before February 15 of each year. Such date is approximately six weeks prior to the end of the fiscal year. By having such nomination meetings not later than February 15 each year, the committee will be in a position to prepare and submit nomination lists to the Secretary in time for the Secretary to select the members and alternate members of the new committee prior to the expiration of the terms of office of the existing committee.

As the Avocado Administrative Committee will not come into existence until after the selection by the Secretary of its initial members, the marketing agreement and order should provide a procedure for the selection of the initial members. The Secretary may appropriately select the initial grower and handler committee members and alternates from nominations which may be made by growers and handlers, respectively, or appropriate groups thereof, or from other persons; and the marketing agreement and order should so provide. In order that the initial membership of the committee may be selected as soon as possible after the approval of the program, such nominations shall be submitted not later than 10 days prior to the effective date thereof.

Each producer should be limited, at nomination meetings, to casting only one vote for each grower position as a committee member and one vote for each grower position as a committee alternate to be filled at such meeting. While growers who are also handlers or employees of handlers would not be eligible to serve as grower members of the committee, it is not necessary for this restriction to be applicable to voting for nominees for such positions. Voting on such basis, rather than on the basis of relative tonnages produced, is in accordance with the procedure followed in democratic elections and will prevent domination of the nominations by large growers. If more than one vote were permitted, based upon volume of production or number of groves owned, large growers would be in a position to nominate growers who might not be favored by a majority of the growers. The grower who operates in more than one district should be permitted to select the district in which he desires to participate in nomination meetings so that he may cast his ballot for nominees where he believes his principal interest lies. There are a considerable number of avocado growers who do not reside in the production area and conduct their growing operations through others. In order to provide the broadest possible opportunity for all growers to participate in the election of nominees, growers represented at nomination meetings by duly authorized agents, as well as those present, should be permitted to vote.

Identical limitations and requirements should be applied to handler participation in meetings to nominate the handler members and alternate members of the committee for reasons similar to the application of such limitations to grower nomination procedure. However, the vote of handlers should be weighted by the volume of avocados which he has handled during the applicable fiscal year. If handlers were limited to one vote, truckers and other small handlers who have little or no investment in the industry might be in a position to nominate the handler representation on the committee. This could result in the nomination of handlers who would not have the handler experience needed for the effective functioning of the committee.

In order that there will be an administrative agency in existence at all times to administer the marketing agreement and order, the Secretary should be authorized to select committee members and alternates without regard to nomination if, for any reason, nominations are not submitted to him in conformance with the procedure prescribed herein. Such selection should, of course, be on the basis of the representation provided in the marketing agreement and order so that the composition of the committee will at all times continue as prescribed therein.

Each person selected by the Secretary as a committee member or alternate should qualify by filing with the Secretary a written acceptance of his willingness and intention to serve in such capacity. This requirement is necessary so that the Secretary will know whether or not the position has been filled. Such acceptance should be filed within 10 days after the notification of appointment so that the composition of the committee will not be delayed unduly. Provision should be made for the filling of any vacancies on the committee, including selection by the Secretary without regard to nominations where such nominations are not made as prescribed, in order to provide for maintaining a full membership on the committee.

The committee should be given those specific powers which are set forth in section 8c (7) (C) of the act. Such powers are necessary to enable an administrative agency of this character to function.

The committee's duties, as set forth in the marketing agreement and order, are necessary for the discharge of its responsibilities. These duties are generally similar to those specified for administrative agencies under other programs of this character. It is intended that any activities undertaken by the members of the committee will be confined to those which reasonably are necessary for the committee to carry out its responsibilities as prescribed in the program. It should be recognized that these specified duties are not necessarily all inclusive in that it may develop that there are other duties which the committee may need to perform.

At least six members of the committee, or their respective alternates, should be present at any meeting in order for the committee to make any decisions; and all decisions of the committee should require a minimum of five concurring votes, with at least one such vote cast by a handler member. These provisions will assure that all actions of the committee will be considered by at least two-thirds of its membership and approved by a majority of the committee. Also, as five of the committee members are growers, these provisions are desirable to assure handler participation in all meetings and actions of the committee. The committee should be authorized to vote by telephone, telegraph, or other means of communication when a matter to be considered is so routine that it would be unreasonable to call an assembled meeting or when rapid action is necessary because of an emergency. Any votes cast in this fashion should be confirmed promptly in writing to provide a written record of the votes so cast. In case of an assembled meeting, however, all votes should be cast in person.

Each member of the committee, and each alternate when acting as a member, should receive not to exceed $10.00 per day or portion thereof spent in performing his duties under the marketing agreement and order, plus his reasonably necessary expenses. Members should be compensated at such rate to prevent them from incurring financial loss which might otherwise result from serving on the committee. Such loss could result from the necessity of employing others to perform work which the members normally would do if they were not performing their duties as committee members. Reimbursement for reasonably necessary expenses is also required to offset actual out-of-pocket expense incurred in performing duties in connection with the program.

Provision should be made whereby each committee will prepare an annual report prior to the expiration of the terms of office of its members. Such reports would provide succeeding committee members, the industry, and the Secretary with a record of the annual operations of the program and would provide a means for evaluation of the program and the need for any changes therein.

(c) The committee should be authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each fiscal year for its maintenance and functioning and for such other purposes as the Secretary may, pursuant to the provisions of the marketing agreement and order, determine to be appropriate. The funds to cover the expenses of the committee should be obtained through the levying of assessments on handlers. The act specifically authorizes the Secretary to approve the incurring of such expenses by an administrative agency such as the Avocado Administrative Committee, and requires that each marketing program of this nature contain provisions requiring handlers to pay pro rata the necessary expenses. Moreover, in order to assure the continuance of the committee, the payment of assessments should be required even if particular provisions of the marketing agreement and order are suspended or become inoperative.

Each handler should pay to the committee upon demand with respect to all avocados handled by him, as the first handler thereof, his pro rata share of such expenses which the Secretary finds will be incurred necessarily by the committee during each fiscal year. Each handler's share of such expenses should be equal to the ratio between the total quantity of avocados handled by him as the first handler thereof during the applicable fiscal year and the total quantity of avocados so handled by all handlers during the same fiscal year. In this way, payment by handlers of assessments would be proportionate to the respective quantities of avocados handled by each handler and assessments would be levied on the same avocados only once.

It was set forth in the notice of hearing and argued at the hearing that, in no event, shall the rate of assessment exceed 10 cents per 55-pound box, or an equivalent quantity of avocados. It was contended that the inclusion of such restriction would be desirable in order that handlers would be assured of the maximum assessment which could be levied against them. It is believed that the inclusion of such a restriction should not present any difficulties from the standpoint of preventing adequate assessments to be levied to cover necessary operational expenses for any fiscal year. A proposed budget for this program for operations during the first fiscal year was presented in evidence which showed the estimated operational expenses for such year to be $12,500. On the basis of the estimated production for that year, the assessment rate necessary to provide this revenue would be only about $2\frac{1}{2}$ cents per 55-pound box of avocados. The proposed restriction would permit assessments as high as four times that amount, and it should provide sufficient leeway to cover any and all increases in expenses which may reasonably be expected to arise in subsequent fiscal years within the foreseeable future. If it should later develop that this maximum rate is not sufficient, it is anticipated that appropriate amendatory action will then be taken to make whatever change in the restriction as may then seem to be necessary and desirable.

In order to provide funds for the administration of this program, the committee should be authorized to accept advance payments of assessments from handlers and also, when such action is deemed to be desirable, to borrow money in an amount not in excess of 10 percent of the estimated expenses set forth in its budget for the then current year. The inclusion of a provision for the acceptance by the administrative agency of advance assessment payments is included in other marketing agreements and orders, and has been found to be a satisfactory and desirable method of providing funds to cover costs of operation prior to the time when assessment collections are being made in an appreciable amount. Also, it was pointed out that the indicated limitation would permit the borrowing of such a relatively insignificant amount that it should not cause any particular problems to arise from the standpoint of the repayment of it. There was no objection offered at the hearing to indicate that any person was opposed to the proposal for the committee to borrow a limited sum of money each fiscal year. During years of normal growing conditions, revenue available to the committee from assessments would provide the means for the repayment of any such loan. In some seasons a portion of the crop may be lost as the result of hurricanes which sometimes occur during the fall months. Under such conditions, if the loss in production is great, expenses under the program would, of course, be curtailed. In addition, as hereinafter set forth, provision is made for increasing the rate of assessment in the event it should develop that the assessment income under the then prevailing rate is not sufficient to cover the expenses incurred. The expenses which had been met from the fund previously borrowed would, of course, constitute a part of the overall cost of operations.

The Secretary should have the authority, at any time during a fiscal year, or thereafter, to increase the rate of assessment when necessary to obtain sufficient funds to cover any later finding by the Secretary relative to the expenses of the committee. Since the act requires that administrative expenses shall be paid by all handlers pro rata, it is necessary that any increased rate apply retroactively against all avocados handled during the particular fiscal year.

If, at the end of any fiscal year, the assessments collected exceed the expenses incurred, each handler's share of such excess should be credited to him against the operations for the following fiscal year; but, if any handler makes a demand for payment thereof, refund should be made to him. The right of every handler to the return of his pro rata share of the excess funds would be recognized by providing for the payment of such share to him in case he requests it. However, good business practice requires that any such refund may be applied by the committee first to any outstanding obligations due the committee from any person who has paid in excess of his pro rata share of expenses and requests the return of such excess payment.

All assessment monies received by the committee should be used solely for the purposes, and accounted for in the manner, specified in the marketing agreement and order.

The Secretary should be authorized to require the committee, at any time, to account for all receipts and disbursements. Such authority would aid in assuring careful administration of assessment funds.

(e) The marketing agreement and order should provide, as hereinafter set forth, for regulating the maturity and quality of Florida avocados which are handled so as to increase the returns to growers. As has been indicated heretofore, the Florida avocado growers are now receiving relatively low returns for their crops. The fact that considerable quantities of Florida avocados of poor quality and undesirable appearance have been available in fresh market channels, the only commercial outlet, has decreased the overall returns to the growers from two standpoints, namely: the fruit of poor quality and undersirable appearance has tended to depress the price for the entire crop for the particular year below the level which otherwise would have been the case if only fruit of good quality and good appearance had been sold; and the marketing of fruit of poor quality and undesirable appearance has created "buyer-resistance" to Florida avocados which has extended to succeeding years.

Probably the most important single factor of quality is that of maturity. An immature avocado is unpalatable, and the shipment of any appreciable quantity of such avocados increases consumer resistance and materially affects the marketing of the entire crop. The change in an avocado between the time it is immature and the time when it has become mature is not discernible, however, and there has not, as yet, been developed any satisfactory physical or chemical test for use in determining whether or not Florida avocados are actually mature at time of harvest. Experience has shown that each of the several varieties of avocados grown in Florida has a fairly regular season, and it has been a common practice in the industry to pick a few fruit of a variety which is believed to be mature and to hold them for a few days to see if they will ripen (i. e., become soft and palatable) prior to shipping that variety to market. But, some varieties have a fairly short period after they reach maturity in which they can be marketed without undue loss. Also, the small-sized varieties of avocados generally bring the highest prices in the market. Therefore, the large-fruited varieties and the varieties which have a short marketing life after maturity often have been shipped prior to the time they become mature. Further, the thinning of young fruit is not generally practiced in the Florida avocado industry and it often develops that, as the set of fruit approaches its normal size, a portion of the crop of the heavily loaded trees is picked prior to the time such fruit is mature to relieve the limbs and thus prevent them from breaking. Much of this fruit, if it has reached marketable size, is shipped to the market, even though it is immature.

Tropical hurricanes occur in the Caribbean area each fall during the harvesting and marketing period for Florida avocados. While few of these storms reach the avocado producing section of Florida, the early movement of such storms is generally in the direction of that State. When the existence of these storms is first announced, it may be five to seven days prior to the time it could reach that State, but some growers will immediately begin to harvest their avocados, and market as much of such fruit is then immature.

It was testified at the hearing that considerable study has been undertaken by the Florida avocado industry in conjunction with qualified scientists employed by the University of Florida, at its Subtropical Experiment Station located at Homestead, and the Agricultural Marketing Service of the United States Department of Agriculture for the purpose of developing satisfactory tests or guides for determining when each of the several varieties of Florida avocados become sufficiently mature on the trees for harvesting purposes. The practical results of such studies to date has been in connection with the development of a table specifying for the 1953–54 season a suggested maturity date for each of the 22 principal varieties of avocados grown commercially in Florida. Such dates were to be applicable only to the fruit of each variety which had not attained the minimum size specified for that variety. These combination date and minimum size specifications were evolved from the practical experience of the growers and handlers of Florida avocados and were designed primarily for the fruit grown in the proposed District 1. Experimentations concerning the feasibility of regulating the maturity of avocado shipments on such basis were carried out during the 1953–54 season through scientific tests of the palatability of avocados harvested prior to and following such dates. This study confirmed the general opinion of the industry that the time of maturity of Florida avocados can be predicted with reasonable accuracy by experienced growers and handlers when the time of bloom and growing conditions during the development of the crop are taken into consideration and appropriate allowances are made therefor. In addition, it was shown that the larger sizes of a given variety of avocados will mature at an earlier date than the smaller fruit of the same variety; and, depending on growing conditions, a given variety of avocados generally will mature a few days earlier in District 1 than in District 2. However, as the average size of the avocados of a specified variety varies from season to season, the fact that the fruit of a particular variety has reached a specified size is not, taken alone, conclusive evidence that such avocados are mature. In these circumstances, the aforementioned table should, with appropriate consideration being given to the other indicated factors, be useful in the establishment of the maturity requirements to be applicable during a particular season but it would not be feasible to incorporate such a table in the marketing agreement and order. Moreover, it is anticipated that studies will be continued with a view to developing additional or different criteria for the determination of maturity of Florida avocados and that a point may eventually be reached where it is possible to prescribe a maturity standard for general use each year. Therefore, maturity regulations should be established initially in terms of specifying the dates prior to which specified sizes of the various varieties could not be shipped, but the proposed marketing agreement and order should leave the committee free to recommend and the Secretary free to establish each year such regulations with respect to maturity as may be most appropriate and desirable in the light of the then existing facts and circumstances.

The second most important single factor of quality in connection with Florida avocados appears to be that of disease. The two important diseases of Florida avocados from the standpoint of the proposed program are cercospora spot and anthracnose (black spot), of which anthracnose is the more serious. In itself, cercospora spot only spoils the appearance of the fruit, as the spots do not penetrate the flesh, but the tissue killed by the fungus and the cracks made in the rind afford entrance for anthracnose and other decaying organisms which cause the ripening fruit to spoil. Other means of anthracnose infections in Florida avocados is through breaks in the skin from mechanical injuries, such as lack of proper care in harvesting and packaging, or from damage caused by hurricanes and other high winds. Anthracnose often remains inactive until the fruit is mature, but develops rapidly in the ripening fruit. This objectionable development may not occur until the fruit has reached the consumer. Consideration of this disease aspect has presumably not yet reached the point where specific provisions in that regard may be incorporated in the proposed marketing agreement and order. It is obvious, therefore, that considerable latitude must be given to the committee and the Secretary to insure the formulation and issuance of appropriate quality regulations.

With regard to the standards on the basis of which quality regulations should be established, the committee should prescribe such standards as there are no officially established grade standards for avocados nor are there any grade standards commonly used by the handlers of avocados. These standards would serve as the basis for quality regulations, together with such variations in the requirements of such standards as may be necessary to accomplish the objectives of the regulation. That is to say, the committee should recommend and the Secretary should establish quality regulations designed to market that portion of the avocado crop which is of suitable quality, considering the available supply and demand for avocados, and which would bring a fair and reasonable return to the growers.

In making its recommendations for quality regulations the committee should consider the estimated total production and shipments of avocados, including avocados grown in other areas; the time of bloom and growing condition during the development of the crop; the quality of the avocado crop; the anticipated demand for avocados; and all other available information having a bearing on the market for avocados. The committee, because of the knowledge and experience of its members, will be well qualified to develop sound and practical recommendations for regulations and to advise the Secretary with respect to the supply and demand conditions under which the avocados will be marketed.

Provision should be made for the Secretary to consider and establish regulations on the basis of the recommendations and information submitted by the committee, and, as there may be available to him pertinent information not in possession of the committee, he should be authorized to act on the basis of such available information also. The committee should notify growers and handlers of meetings to consider recommendations for regulation, by mailing such notification to each such person requesting it, as growers and handlers are vitally interested in such recommendations. Authority should be given to the committee to recommend, and the Secretary to issue, a modification, suspension, or termination of any regulation established under the program, since such actions may become necessary as the result of changed conditions which could not be anticipated at the time the regulations were formulated.

(f) The marketing agreement and order should contain provisions authorizing the committee to issue exemption certificates, under certain conditions, to growers and others who own or otherwise control avocados on the tree. Evidence presented at the hearing shows that location and cultural practices may make a grower's avocados mature prior to the time that other avocados of the same variety, and in the same district, generally become mature. Hence, when maturity regulations are in effect pursuant to § 969.51 (a) (1), growers and others should be authorized to apply for, and the committee to issue, exemption certificates which will permit the handling of avocados which are mature prior to the time specified in such regulation. Such exemption certificates should authorize the applicant to handle, or have handled, only that portion of his avocados which the committee determines is mature. As some growers conduct their growing operations through others, persons acting for growers should be permitted to apply for and receive such exemption certificates. Likewise, a purchaser of avocados on the tree should be permitted to handle, or have handled, any mature avocados so purchased prior to the time they could be handled under the then effective maturity regulation. The purchaser of avocados on the tree, therefore, should also be permitted to apply for, and receive, exemption certificates. The committee should adopt, with the approval of the Secretary, procedural rules governing the application and issuance of such exemption certificates so that persons eligible to receive such certificates will be informed concerning the procedure to be followed in connection therewith. Such procedural rules should provide for such safeguards as may be necessary to assure that all avocados handled pursuant to an exemption certificate are actually covered by such certificate. Provision should be made for the transfer of exemption certificates to the handler of such avocados, as the handler would need the certificate to show that such handling was not in violation of the regulation.

(g) Provision should be made in the marketing agreement and order requiring all avocados handled, during any period when regulations are in effect pursuant to § 969.51, to be inspected by the Federal-State Inspection Service and certified as meeting the requirements of the applicable regulation. Inspection and certification of all avocados handled during periods of regulation are essential to the effective supervision of the regulations. Evidence of compliance with the regulations issued under the program can be ascertained only through inspection and certification of all avocados handled during the effective period of such regulations. As the handler of avocados is the person responsible for compliance with such regulations, it is reasonable and necessary to require handlers to submit each lot of avocados handled to inspection and certification and to file a copy of the certificate with the committee.

The proposal on which the hearing was held provided for inspection by the State or Federal-State Inspection Service, or such other agency as the committee may designate. Evidence presented at the hearing shows that such provision was proposed as it was not known at that time what inspection service would be available, and that inspection and certification by the Federal-State Inspection Service only was desired. The record shows that the Federal-State Inspection Service will perform the required inspection and certification and the marketing agreement and order should so provide.

(h) The marketing agreement and order should provide for the exemption from its provisions of such handling of avocados which it is not necessary to regulate in order to effectuate the declared purposes of the act. Insofar as practicable, such exempted handling should be stated explicitly in the marketing agreement and order so that handlers will have knowledge of such handling as is not subject to the provisions of the program.

Avocados which are handled for consumption by charitable institutions, for distribution by relief agencies, for export other than to Canada, or for commercial process-into products have little influence on the level of prices for avocados sold in the domestic market and in Canada. Moreover, only negligible quantities have been disposed of in such outlets. For example, no commercial processed product of avocados has, as yet, been developed. Consequently, the

only avocados which are currently being processed is in connection with experiments which are being carried on in an endeavor to expand the market outlets for avocados.

Provision should be made to authorize the committee, with the approval of the Secretary, to exempt the handling of certain small quantities, or types of shipments, of avocados which it is not necessary to regulate in order to effectuate the declared purposes of the act. Such authorization is necessary to enable the committee to exempt such handling which is found not feasible administratively to regulate and which does not materially effect marketing conditions in commercial channels. It should be discretionary with the committee, subject to the approval of the Secretary, whether small quantities or types of shipments should be exempted from regulation and the period during which such exemptions should be in effect. The allowance of such exemptions may be found to result in avenues of escape from regulation which, if they are found to exist, should be closed. It is impractical to set forth specific quantities or types of shipments to be exempted in the marketing agreement and order, because to do so would destroy the flexibility which is necessary to reflect conditions affecting the handling of avocados in the production area.

The committee should prescribe, with the approval of the Secretary, such rules, regulations, and safeguards as are necessary to prevent avocados handled for any of the exempted purposes from entering into regulated channels of trade and thereby tending to defeat the objective of the program.

(i) Handlers should be required to submit certain reports to the committee so that it will have available the information which is necessary for administering the program. Handlers have such necessary information in their possession, and the requirement that they furnish such information to the committee in the form of reports would not constitute an undue burden. Moreover, since handlers are the only persons subject to regulation under the program, they are the only persons who could be required to furnish such information.

Testimony presented at the hearing was to the effect that each handler should file with the committee each week a certified report showing the quantities of each variety of avocados he received during that week, a complete record of the quantities disposed of by him, segregated by varieties into the quantities subject to regulation and otherwise disposed of, and the quantities on hand at the end of the period. It was indicated that such reports should include, for each quantity disposed of, the date of such disposition, and identification of the carrier transporting the fruit and of the inspection certificate or exemption certificate, if any, pursuant to which the fruit was handled, together with the destination of each such disposition in non-regulated channels. On the basis of the testimony presented, it is concluded that most, if not all, of the information with respect to these enumerated matters will probably be needed to ascertain whether the regulatory provisions of the program are properly complied with, to provide the basis for collecting assessments, and to perform its other official duties. However, this would be a new program dealing with a commodity which has not been regulated under programs of this nature, and it is believed that it would be impractical at this time to impose rigid reporting requirements upon handlers which possibly would require the periodic submission of information which the committee would not need at times for the performance of its functions. Hence, the reporting requirements prescribed in the marketing agreement and order should reflect the flexibility that is necessary so that reports required thereunder, and the time and manner of filing such reports, may be adjusted readily in the light of operating experience. It is concluded, therefore, that the marketing agreement and order should provide for the submission to the committee by handlers of such reports covering their transactions in avocados, as heretofore discussed, as the committee may request and are needed in the administration of the program.

Upon the request of the committee, approved by the Secretary, handlers should furnish such other reports and information as the committee needs to perform its functions under the marketing agreement and order. It is impossible to anticipate every type of report, or kind of information, which the committee may need in administering the program; but it should have the authority to obtain such reports and information if needed. Reports furnished to the committee should be submitted in such manner and upon such forms as may be designated by the committee. It is impractical to specify such reporting procedures in the marketing agreement and order, because changing conditions may warrant changes in the forms or methods of reporting to the committee.

(j) Except as provided in the marketing agreement and order, no handler should be permitted to handle avocados, the handling of which is prohibited pursuant to the marketing agreement and order, and no handler should be permitted to handle avocados except in conformity with the marketing agreement and order. If the program is to be effective, no handler should be permitted to evade its provisions since such action on the part of one handler, although possibly of small impact on the industry measured by the proportion of avocados handled by him, would be demoralizing to other handlers and would tend to impair operation of the program.

(k) The provisions of §§ 969.62 through 969.71, as hereinafter set forth, are, except as indicated below with respect to § 969.64 (c), provisions similar to those which are included in other marketing agreements and orders now operating. The provisions of § 969.72 through 969.74, as hereinafter set forth, are also included in other marketing agreements now operating. All such provisions are incidental to and not inconsistent with the act and are necessary to effectuate the other provisions of the recommended marketing agreement and order and to effectuate the declared policy of the act. Testimony at the hearing supports the inclusion of each such provision.

Those provisions which are applicable to both the proposed marketing agreement and order, identified by both section number and heading, are as follows: § 969.62 *Right of the Secretary;* § 969.63 *Effective time;* § 969.64 *Termination;* § 969.65 *Proceedings after termination;* § 969.66 *Effect of termination or amendment;* § 969.67 *Duration of immunities;* § 969.68 *Agents;* § 969.69 *Derogation;* § 969.70 *Personal liability;* and § 969.71 *Separability.*

Those provisions which are applicable to the proposed marketing agreement only, identified by both section number and heading, are as follows: § 969.72 *Counterparts;* § 969.73 *Additional parties;* and § 969.74 *Order with marketing agreement.*

In addition to the basis for termination of the marketing agreement and order contained in § 969.64 (a), (b), and (d) thereof, termination of the program should be required at the end of any fiscal year whenever the Secretary finds that continuation of the marketing agreement and order is not favored by the majority of producers. The requirements of the act in this connection, with respect to the mandatory termination of the marketing agreement and order, provides that such majority shall have produced more than 50 percent of the volume of the commodity produced during the determined representative period. It was the general consensus of the opinion of those participating in the hearing, however, that a program of this nature could not be operated effectively unless a majority of the producers favored its continuance in operation and that it would be desirable, therefore, to base any such determination as to the continuance or termination of the program on whether a majority of the producers favored such action without consideration of the relative volume of avocados produced by them. In order to give producers and other interested parties adequate notice of any such termination action, provision should be made to announce the termination prior to March 15 to be effective at the end of the fiscal year.

The proposal upon which the hearing was held also provided that, (1) after the close of the fiscal year ending March 31, 1956, there shall be conducted a referendum of producers and a poll of handlers to determine whether the continuation of the marketing agreement and order is favored by them and (2) if less than two-thirds of the producers, by number or volume of production, voting in such referendum favor the continuation of the program or if handlers representing more than fifty percent of the volume of avocados handled favor its termination, the Secretary shall thereupon terminate the marketing agreement and order. The period to be used in connection with such referendum and poll is the fiscal year ending March 31, 1956. It was indicated at the hearing that the effective operation of this program will be dependent upon the cooperation of both producers and handlers of avocados and that it would be desirable to incorporate the proposed requirement into the marketing agreement and order so as to provide both growers and handlers with an opportunity, at the end of the first two years of operation, to express their views on the continuance or termination of the program. The provision for holding the referendum and poll after two years of operations should provide a reasonable period for the evaluation of the program. Such provision should promote awareness of the interest of both producers and handlers in the program and thereby contribute to its successful operation.

Rulings on proposed findings and conclusions. March 18, 1954, was set by the Presiding Officer at the hearing as the latest date by which briefs would have to be filed by interested parties with respect to facts presented in evidence at the hearing and the conclusions which should be drawn therefrom. No briefs were filed.

General findings. Upon the basis of the evidence introduced at such hearing, and the record thereof, it is found that:

(1) The marketing agreement and order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) Such marketing agreement and order will regulate the handling of avocados grown in the production area in the same manner as, and are applicable only to persons in the respective classes of commercial and industrial activities specified in the proposed marketing agreement and order upon which the hearing has been held;

(3) The said marketing agreement and order are limited in their application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) The marketing agreement and order, prescribe, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to differences in the production and marketing of avocados covered thereby; and

(5) All handling of avocados, as defined in said marketing agreement and order, is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce.

Recommended marketing agreement and order. The following proposed marketing agreement and order [1] are recommended as the detailed means by which the foregoing conclusions may be carried out:

DEFINITIONS

§ 969.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any Officer or employee of the United States Department of Agriculture who is, or may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture of the United States.

[1] The provisions identified with an asterisk (*) apply only to the proposed marketing agreement and not to the proposed order.

§ 969.2 *Act.* "Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

§ 969.3 *Person.* "Person" means an individual, partnership, corporation, association or any other business unit.

§ 969.4 *Production area.* "Production area" means the counties of Brevard, Osceola, Polk, Hillsborough, and Pinellas in the State of Florida, and all of the counties of that State situated south of such counties.

§ 969.5 *Avocados.* "Avocados" means all varieties of avocados grown in the production area.

§ 969.6 *Fiscal year.* "Fiscal year" means the twelve-month period ending March 31 of each year.

§ 969.7 *Committee.* "Committee" means the Avocado Administrative Committee established pursuant to § 969.20.

§ 969.8 *Grower.* "Grower" is synonymous with producer and means any person who produces avocados for market and who has a proprietory interest therein.

§ 969.9 *Handler.* "Handler" is synonymous with shipper and means any person (except a common or contract carrier transporting avocados owned by another person) who handles avocados or causes avocados to be handled.

§ 969.10 *Handle.* "Handle" means to sell, consign, deliver, or transport avocados within the production area or between the production area and any point outside thereof in the continental United States or Canada: *Provided,* That such term shall not include: (a) The sale or delivery of avocados to a handler, registered as such with the committee in accordance with such rules and regulations as it may prescribe with the approval of the Secretary, who has facilities within the production area for preparing avocados for market; (b) the delivery of avocados to such a handler solely for the purpose of having such avocados prepared for market; or (c) the transportation of avocados by a handler, so registered with the committee, from the grove to his packing facilities within the production area for the purpose of having such avocados prepared for market. In the event a grower sells his avocados to a handler who is not so registered with the committee, such grower shall be the first handler of such avocados.

§ 969.11 *District.* "District" means the applicable one of the following described subdivisions of the production area:

(a) "District 1" shall include Dade County.

(b) "District 2" shall include all of the production area except Dade County.

ADMINISTRATIVE BODY

§ 969.20 *Establishment and membership.* There is hereby established an Avocado Administrative Committee consisting of nine members, each of whom shall have an alternate who shall have the same qualifications as the member for whom he is an alternate. Five of the members and their respective alternates shall be growers who shall not be handlers or employees of handlers. Four of the members and their respective alternates shall be handlers or employees of handlers. The five members of the committee who shall be growers and who shall not be handlers, or employees of handlers, are hereinafter referred to as "grower" members of the committee; and the four members who shall be handlers, or employees of handlers, are hereinafter referred to as "handler" members of the committee. Four of the five grower members shall be producers of avocados in District 1, and one grower member shall be a producer of avocados in District 2. Three of the four handler members shall be handlers, or employees of handlers, of avocados in District 1, and one handler member shall be a handler, or an employee of a handler, of avocados in District 2.

§ 969.21 *Term of office.* The term of office of each member and alternate member of the committee shall begin April 1, and shall terminate March 31 of the following year. Members and alternate members shall serve in such capacities for the portion of the term of office for which they are selected and qualify and until their respective successors are selected and have qualified. The consecutive terms of office of members shall be limited to three terms.

§ 969.22 *Nomination*—(a) *Initial members.* Nominations for each of the five initial grower members and four initial handler members of the committee, together with nominations for the initial alternate members for each position, may be submitted to the Secretary by individual growers and handlers. Such nominations may be made by means of group meetings of the growers and handlers concerned in each district. Such nominations, if made, shall be filed with the Secretary no later than ten calendar days prior to the effective date hereof. In the event nominations for initial members and alternate members of the committee are not filed pursuant to, and within the time specified in, this section, the Secretary may select such initial members and alternate members without regard to nominations, but selections shall be on the basis of the representation provided for in § 969.20.

(b) *Successor members.* (1) Nominations for successor members of the committee, and their respective alternates, shall be made at meetings of growers and handlers in each district. Such meetings shall be held at such times (on or before February 15 of each year) and places as the committee shall designate. Such nominations shall be submitted promptly to the Secretary by the committee. The committee shall prescribe procedural rules, not inconsistent with the provisions of this section, for the conduct of such meetings.

(2) Only growers who are present at such nomination meetings, or represented at such nomination meetings by duly authorized agents, shall partici-

pate in the nomination and election of nominees for grower members and their alternates. Each grower shall be entitled to cast only one vote for each nominee to be elected in the district in which he produces avocados. No grower shall participate in the election of nominees in more than one district in any one fiscal year.

(3) Only handlers who are present at such nomination meetings, or represented at such meetings by duly authorized agents, shall participate in the nomination and election of nominees for handler members and their alternates. Each handler shall be entitled to cast only one vote for each nominee to be elected in the district in which he handles avocados, which vote shall be weighted by the volume of avocados shipped by such handler during the then current fiscal year. No handler shall participate in the election of nominees in more than one district in any one fiscal year.

§ 969.23 *Selection.* From the nominations made pursuant to § 969.22, or from other qualified persons, the Secretary shall select the five grower members of the committee, the four handler members of the committee, and an alternate for each such member.

§ 969.24 *Failure to nominate.* If nominations are not made within the time and in the manner prescribed in § 969.22, the Secretary may, without regard to nominations, select the members and alternate members of the committee on the basis of the representation provided for in § 969.20.

§ 969.25 *Acceptance.* Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 969.26 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify, or in the event of the death, removal, resignation, or disqualification of any member or alternate member of the committee, a successor for the unexpired term of such member or alternate member of the committee shall be nominated and selected in the manner specified in §§ 969.22 and 969.23. If the names of nominees to fill any such vacancy are not made available to the Secretary within fifteen days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of representation provided for in § 969.20.

§ 969.27 *Alternate members.* An alternate member of the committee, during the absence or at the request of the member for whom he is an alternate, shall act in the place and stead of such member. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for such member is selected and has qualified.

§ 969.28 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this part;

(c) To make and adopt rules and regulations to effectuate the terms and provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 969.29 *Duties.* The committee shall have, among others, the following duties:

(a) To select a chairman and such other officers as may be necessary, and to define the duties of such officers;

(b) To appoint such employees, agents, and representatives as it may deem necessary, and to determine the compensation and to define the duties of each;

(c) To submit to the Secretary as soon as practicable after the beginning of each fiscal year a budget for such fiscal year, including a report in explanation of the items appearing therein and a recommendation as to the rate of assessment for such fiscal year;

(d) To keep minutes, books, and records which will reflect all of the acts and transactions of the committee and which shall be subject to examination by the Secretary;

(e) To prepare periodic statements of the financial operations of the committee and to make copies of each such statement available to growers and handlers for examination at the office of the committee;

(f) To cause its books to be audited by a certified public accountant at least once each fiscal year, and at such other times at the Secretary may request;

(g) To act as intermediary between the Secretary and any grower or handler;

(h) To investigate growing and maturity conditions of avocados, and to assemble data in connection therewith;

(i) To engage in such research relating to the determination of maturity and grade standards for avocados as may be approved by the Secretary;

(j) To submit to the Secretary such available information as he may request;

(k) To notify, as provided in this part, producers and handlers of all meetings of the committee to consider recommendations for regulation;

(l) To give the Secretary the same notice of meetings of the committee as is given to its members;

(m) To consult with such representatives of growers or groups of growers as may be deemed necessary and to pay the travel expenses incurred by such representatives in attending committee meetings at the request of the committee: *Provided*, That the committee shall not pay the travel expenses of more than three such representatives in connection with any one meeting of the committee; and

(n) To investigate compliance with the provisions of this part.

§ 969.30 *Procedure.* (a) Six members of the committee, or alternates acting for members, shall constitute a quorum and any action of the committee shall require at least five concurring votes: *Provided*, That at least one handler member shall approve the action.

(b) The committee may vote by telegraph, telephone, or other means of communication, and any votes so cast shall be confirmed promptly in writing: *Provided*, That if an assembled meeting is held, all votes shall be cast in person.

§ 969.31 *Expenses and compensation.* The members of the committee, and their respective alternates when acting as members, shall be reimbursed for expenses necessarily incurred by them in the performance of their duties under this part and shall also receive compensation, as determined by the committee, which shall not exceed $10 per day or portion thereof spent in performing such duties.

§ 969.32 *Annual report.* The committee shall, prior to March 31 of each fiscal year, prepare and mail an annual report to the Secretary, and to each handler and grower who requests a copy of the report. This annual report shall contain at least: (a) A complete review, by districts, of the regulatory operations during the fiscal year; (b) an appraisal of the effect of such regulatory operations upon the avocado industry; and (c) any recommendations for changes in the program.

EXPENSES AND ASSESSMENTS

§ 969.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary finds are reasonable and may be necessary to enable the committee to exercise its powers and perform its duties in accordance with the provisions of this part during each fiscal year. The funds to cover such expenses shall be acquired by the levying of assessments as provided for in § 969.41.

§ 969.41 *Assessments.* (a) Each person who first handles avocados shall, with respect to the avocados so handled by him, pay to the committee upon demand such person's pro rata share of the expenses which the Secretary finds will be incurred by the committee during each fiscal year. Each such person's share of such expenses shall be equal to the ratio between the total quantity of avocados handled by him as the first handler thereof during the applicable fiscal year, and the total quantity of avocados so handled by all persons during the same fiscal year. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person. At any time during or after the fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any finding by the Secretary relative to the expense which may be incurred: *Provided*, That, in no case, shall the rate of assessment exceed 10 cents per 55-pound box, or an equivalent quantity, of avocados. Such increase shall be applied to all avocados handled during the applicable fiscal year. In order to provide funds for the administration of the provisions of this part, the committee may accept the payment of assessments in advance, and may borrow money in any amount not to exceed 10 percent of the estimated expenses set forth in its budget for the then current fiscal year.

§ 969.42 *Accounting.* (a) If, at the end of a fiscal year, the assessments collected are in excess of the expenses incurred, each person entitled to a proportionate refund of the excess assessment shall be credited with such refund against the operations of the following fiscal year. Any handler may demand payment of such a refund, and the refund shall be paid to him: *Provided*, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal year may be applied by the committee at the end of such fiscal year to any outstanding obligations due the committee from such person.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part, and shall be accounted for in the manner provided in this part. The Secretary may, at any time, require the committee and its members to account for all receipts and disbursements.

REGULATIONS

§ 969.50 *Recommendations for regulation.* (a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of avocados grown in District 1 or District 2 in the manner provided in § 969.51, it shall so recommend to the Secretary.

(b) In arriving at its recommendations pursuant to paragraph (a) of this section, the committee shall give consideration to such of the following factors as may be applicable: (1) The estimated total production and shipments of each variety of avocados, including avocados grown in other areas; (2) the time of bloom and growing conditions during the development of the crop; (3) the quality of the avocado crop; (4) the anticipated demand for avocados; and (5) other available information having a bearing on the market for avocados. With each recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated, and such other available information as the Secretary may request.

(c) All meetings of the committee held for the purpose of formulating recommendations for regulations shall be open to growers and handlers. The committee shall give notice of such meetings to growers and handlers by mailing such notice to each grower and handler who has filed his address with the committee and requested such notice.

§ 969.51 *Issuance of regulations.* (a) The Secretary shall regulate, in the manner specified in this section, the handling of avocados whenever he finds, from the recommendations and information submitted by the committee or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Prohibit, prior to such time as shall be specified, the handling of any size or sizes of any variety or varieties of avocados grown in District 1 or District 2; and

(2) Prohibit the handling of any variety or varieties of avocados grown in District 1 or District 2 which do not meet such quality and maturity standards as shall be prescribed.

(b) The committee shall be informed immediately of any such regulations issued by the Secretary and the committee shall promptly give notice thereof to growers and handlers.

§ 969.52 *Modification, suspension, or termination of regulations.* (a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to § 969.51 should be modified, suspended or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of avocados in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension.

§ 969.53 *Exemption certificate.* Whenever a regulation is in effect pursuant to paragraph (a) (1) of § 969.51, the committee shall issue one or more exemption certificates to any person who furnishes proof, satisfactory to the committee, that his avocados of a particular variety are mature prior to the time such variety may be handled under such regulation. Such exemption certificates shall authorize the person to whom the certificates are issued to handle, or have handled, only that portion of his avocados of the particular variety which the committee has determined to be mature. The committee shall adopt, with the approval of the Secretary, procedural rules by which such exemption certificates will be issued and the avocados covered thereunder may be handled. Exemption certificates shall be transferred to the handler of the avocados covered by such certificates at the time the avocados are delivered to such handler.

§ 969.54 *Inspection and certification.* Whenever the handling of any variety of avocados is regulated pursuant to § 969.51, each handler who handles avocados shall, prior thereto, cause each lot of avocados handled to be inspected by the Federal-State Inspection Service and certified by it as meeting the applicable requirements of such regulation: *Provided*, That such inspection and certification shall not be required whenever the avocados previously have been so inspected and certified. Promptly thereafter, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection with respect to such handling.

§ 969.55 *Avocados not subject to regulations.* Except as otherwise provided in this section, any person may, without regard to the provisions of §§ 969.41, 969.51, and 969.54, and the regulations issued thereunder, handle avocados (a) for consumption by charitable institutions; (b) for distribution by relief agencies; (c) for export other than to Canada; (d) for commercial processing into products; or (e) in such minimum quantities or types of shipments as the committee, with the approval of the Secretary, may prescribe. The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent avocados handled under the provisions of this section from entering channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications with the committee for authorization to handle avocados pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the avocados will not be used for any purpose not authorized by this section.

§ 969.60 *Reports.* (a) Each handler shall furnish to the committee, at such times and for such periods as the committee may designate, certified reports covering, to the extent necessary for the committee to perform its functions, the following: (1) The quantities of each variety of avocados he received; (2) a complete record of the quantities disposed of by him, segregated as to varieties and as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such fruit; (4) identification of the inspection certificates and the exemption certificates, if any, pursuant to which the fruit was handled, together with the destination of each such exempted disposition, and of all fruit handled pursuant to § 969.55; and (5) the quantity of each variety held by him at the end of the period.

(b) Upon request of the committee, made with the approval of the Secretary, each handler shall furnish to the committee, in such manner and at such times as it may prescribe, such other information as may be necessary to enable the committee to perform its duties under this part.

MISCELLANEOUS PROVISIONS

§ 969.61 *Compliance.* Except as provided in this part, no person shall handle avocados, the shipment of which have been prohibited by the Secretary in accordance with the provisions of this part; and no person shall handle avocados except in conformity with the provisions of this part and the regulations issued under this part.

§ 969.62 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agents, employees, or representatives

thereof, shall be subject to removal or suspension by the Secretary at any time. Each and every regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the committee shall be deemed null and void, except as to acts done in reliance thereon or in accordance therewith prior to such disapproval by the Secretary.

§ 969.63 *Effective time.* The provisions of this part shall become effective at such time as the Secretary may declare above his signature to this part, and shall continue in force until terminated in one of the ways specified in § 969.64.

§ 969.64 *Termination.* (a) The Secretary may at any time terminate the provisions of this part by giving at least one day's notice by means of a press release or in any other manner in which he may determine.

(b) The Secretary shall terminate or suspend the operation of any and all of the provisions of this part whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this part at the end of any fiscal year whenever he finds that continuance is not favored by the majority of producers who, during a representative period determined by the Secretary, were engaged in the production of avocados for market: *Provided*, That such termination is announced on or before March 15 of the then current fiscal year. The Secretary shall, as soon as practicable after the close of the fiscal year ending March 31, 1956, conduct a referendum of producers and a poll of handlers to determine whether the continuation of this part is favored by them. Producers entitled to vote in such referendum shall be those who, during the fiscal year ending March 31, 1956, were engaged in producing avocados for market and the poll shall be confined to handlers who handled avocados in that same fiscal year. If it develops from said referendum and poll that (1) less than two-thirds of the producers, by number or volume of production represented in said referendum, favor the continuance of this part, or (2) handlers representing more than one-half the volume of avocados handled favor termination of this part, the Secretary shall thereupon terminate this part.

(d) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 969.65 *Proceedings after termination.* (a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such persons as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person, full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 969.66 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) effect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued under this part, or (b) release or extinguish any violation of this part or of any regulation issued under this part, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 969.67 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon its termination, except with respect to acts done under and during the existence of this part.

§ 969.68 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any agency or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 969.69 *Derogation.* Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 969.70 *Personal liability.* No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 969.71 *Separability.* If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 969.72 *Counterparts.* * This agreement may be executed in multiple counterparts and when one counterpart is signed by the Secretary, all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.

§ 969.73 *Additional parties.* * After the effective date of this part, any handler may become a party to this agreement if a counterpart is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.

§ 969.74 *Order with Marketing Agreement.* * Each signatory handler hereby requests the Secretary to issue, pursuant to the act, an order providing for the regulating of the handling of avocados in the manner as is provided for in this agreement.

Dated: April 21, 1954.

[SEAL] GEORGE A. DICE,
Acting Deputy Administrator.

CIVIL AERONAUTICS BOARD

[14 CFR Part 60]

[Draft Release No. 54-12]

EXPERIMENTAL HIGH DENSITY AIR TRAFFIC ZONE IN THE WASHINGTON, D. C., AREA

SPECIAL CIVIL AIR REGULATION

Notice is hereby given that the Civil Aeronautics Board has under consideration the promulgation of a Special Civil Air Regulation which will authorize the Administrator to designate and prescribe rules for an experimental high density air traffic zone in the Washington, D. C., area.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rule, communications must be received by May 26, 1954. Copies of such communications will be available after May 28, 1954, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

A number of problems that affect the movement of air traffic become more critical in areas of high traffic density than in areas having an average amount of air traffic. Because of the reported congestion of traffic in the vicinity of certain large metropolitan airports, the increase in use of high speed aircraft, the wide range of speeds in aircraft, and the many different types of aircraft in use, it appears necessary to establish additional means of affording safety and efficency in the movement of aircraft of all of the users of the airspace in such critical areas.

In general terms, the Civil Air Regulations provide for the conduct of two types of flight; Visual Flight Rules (VFR) and Instrument Flight Rules (IFR). Aircraft operated in accordance with the Instrument Flight Rules are required to be operated under air traffic control. The procedures employed in this control of air traffic have been designed to provide a safe and orderly flow of the traffic being operated under IFR conditions. The philosophy behind the Visual Flight Rules is that aircraft being flown in accordance with these rules are operated in "see and be seen" weather conditions permitting the pilots to observe and avoid other traffic. Only a few rules have to be observed even in control zones under VFR conditions.

Recent studies have disclosed that traffic congestion in certain major terminal areas is the prime cause for delays, confusion, and disarrangement of traffic throughout the air traffic system and the cause of near misses. In an effort to find a solution to some of the problems relating to areas of high density traffic, a special working group of the Air Coordinating Committee, Air Traffic Control and Navigation Panel, has developed recommended procedures which, if applied, will constitute an important step toward implementation of the "common system" of air navigation and result in increased safety and efficiency of VFR operations in high density areas. On February 18, 1954, the Panel approved proposed standards for an experimental high density air traffic zone plan for the Washington, D. C., area.

The purpose of this proposed regulation is to permit the Administrator to designate a "High Density Air Traffic Zone" in the Washington, D. C., area and to establish procedures for the zone, on a temporary basis, which would facilitate movement of traffic in this zone under VFR conditions in a safer and more efficient manner to the benefit of all users. The authorization provided by this proposed regulation does not permit the Administrator to alter the provisions of Part 60 of the Civil Air Regulations, which differentiate between VFR and IFR operations. The regulation does, however, permit the Administrator to establish additional rules for VFR operation within the zone.

It is proposed that this authority be given the Administrator for a period of approximately one year from the time of establishment of the high density air traffic zone. This will enable the Administrator to obtain sufficient experience with these procedures, or such modifications thereof as he may make from time to time as experience dictates, whereby they later may be made suitable for application to other high density zones, if it is found that a need exists and that they will, in fact, contribute to safer and more efficient control of air traffic. A special working group of the Air Traffic Control and Navigation Panel will closely observe the procedures established by the Administrator under this proposed regulation and make recommendations with respect to problems which may arise during this experimental period.

Accordingly, notice is hereby given that it is proposed to promulgate a Special Civil Air Regulation to provide as follows:

The Administrator is authorized to designate a zone to be known as a "High Density Air Traffic Zone" in the Washington, D. C., area, extending from the surface upward to 3,000 feet above the elevation of the airport within the limits of the present control zone, and to prescribe such additional rules to be applicable therein during VFR weather conditions as he shall find are necessary or desirable, for the purpose of conducting experiments with respect to procedures and rules necessary for the safe and efficient movement of air traffic in high density air traffic zones.

It is proposed that this regulation be effective for one year after the establishment of the "High Density Air Traffic Zone".

This Special Civil Air Regulation is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610; 52 Stat. 1007–1012, as amended; 49 U. S. C. 551–560)

Dated: April 21, 1954, at Washington, D. C.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

BIRMINGHAM FIRE INSURANCE CO. OF PENNSYLVANIA

SURETY COMPANIES ACCEPTABLE ON FEDERAL [illegible]

APRIL 19, 1954.

A Certificate of Authority has been issued by the Secretary of the Treasury to the following company under the Act of Congress approved July 30, 1947, 6 U. S. C. secs. 6–13, as an acceptable surety on Federal bonds. An underwriting limitation of $233,000.00 has been established for the company. Further details as to the extent and localities with respect to which the company is acceptable as surety on Federal bonds will appear in the next issue of Treasury Department Form 356, copies of which, when issued, may be obtained from the Treasury Department, Bureau of Accounts, Surety Bonds Branch, Washington 25, D. C.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

GEORGIA

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making loans pursuant to section 2 (a) of Public Law 38, 81st Congress, it is found that in Bibb, Crawford, Houston, and Taylor Counties, Georgia, a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

After December 31, 1954, loans under section 2 (a) of Public Law 38, 81st Congress, will not be made in the above named counties except to borrowers who previously received such assistance.

Done at Washington, D. C., this 21st day of April 1954.

[SEAL] EZRA TAFT BENSON,
Secretary of Agriculture.

DEPARTMENT OF COMMERCE

Bureau of Foreign Commerce

[Case No. 164]

ERNEST L. JACOB

SUPPLEMENTAL ORDER DENYING EXPORT PRIVILEGES

In the matter of Ernest L. Jacob, 86 Fort Washington Ave, New York 32, New York, Respondent; Case No. 154.

Compliance proceedings instituted against Respondent Ernest L. Jacob, and certain others, by the Office of International Trade (now Bureau of Foreign

Commerce; referred to herein as the Bureau) on December 12, 1951, amended October 28, 1952, culminated in an order issued on July 31, 1953 (18 F. R. 4607) under the terms of which said Respondent was declared ineligible and denied the privileges of participating, directly or indirectly, in any manner or capacity, in the exporation of any commodity from the United States to any foreign destination, including Canada, for a period of nine (9) months. The order holds in abeyance an additional three (3) months suspension if Respondent does not commit any further export control violations during the entire period of twelve (12) months.

Said order was issued after Respondent, and such others, admitted charges that between January and June 1951 they misrepresented the end-use statements on twelve (12) license applications filed with the Office of International Trade; that in July 1951 they duplicated a pending license application without disclosing the facts; and that they submitted to the Office of International Trade certain letters designed to exculpate them in connection with the aforesaid license applications although the statements in such letters were wholly false to the knowledge of Respondent and such others. The other respondents named in the order of July 31, 1953, are denied all export privileges for a period of one month and an additional eleven (11) months suspension is held in abeyance if they do not commit any further export control violations during the entire period of twelve (12) months. Such lesser period of suspension was imposed upon the finding that Respondent Jacob had been primarily responsible for the admitted violations.

Paragraph (4) of said order provides, inter alia, that in the event said Respondent, Ernest L. Jacob, shall at any time during the period covered by the order knowingly violate any of the terms thereof, or of any laws or regulations related to export control, the Bureau "may summarily and without notice • • • at such time as it shall determine that such violation occurred, issue a supplemental order which shall deny • • • all export privileges for the said period of the order which has been held in abeyance • • •."

It has been established that after the commencement of the compliance proceedings but prior to the entry of said order against Respondent, as aforesaid, Respondent obtained employment with a New Jersey export firm in a reportedly minor and subordinate capacity ostensibly removed from a position of responsibility in the export trade, and that he has been continuously so employed to the present time; that his employer is aware of the provisions of the order issued against Respondent; that in November, and again in December 1953, Respondent went to the West Coast to locate a specific quantity of steel scrap valued at slightly below $1 million for which the New Jersey firm held export orders, to effect arrangements for stevedoring and shipping facilities for the scrap, and to solicit and obtain letters of availability (commitment) from the scrap dealers, and certificates of inspection, which said documents were known by Respondent to be required by the export regulations in support of applications for license to export steel scrap from the United States; that Respondent made arrangements for the said commitment letters and inspection certificates, and did, in fact, obtain the same for the purpose of supporting license applications in connection with specific export transactions; that said documents were attached to and made a part of applications for validated export licenses filed with the Bureau by the New Jersey firm on November 12 and 16, 1953, respectively; and that said firm was issued an export license on November 17, 1953 on the basis of one such application, while the other application was rejected on or about December 31, 1953.

It is further established that while on the West Coast during December, 1953, as aforesaid, Respondent made efforts to obtain stevedoring and shipping facilities for the export of the steel scrap from the United States under the license then held and of the scrap involved in the then pending license application.

It is accordingly determined that by the foregoing acts Respondent Ernest L. Jacob has knowingly violated the terms and provisions of said order in that he participated in obtaining a validated export license for the exportation of a commodity from the United States and that he participated in the transporting or other servicing of the proposed exportation under the export license held and of the proposed exportation under the license application filed, all during the period of said order; and that thereby he has forfeited the privilege of having restored to him the export privileges held in suspense for the last three (3) months of said order pursuant to paragraph (4) thereof.

It is therefore ordered as follows: The order of July 31, 1953, as it applies to Respondent Ernest L. Jacob is hereby amended by deleting therefrom the provisions of paragraph (4) which restore export privileges to said Respondent for the last three (3) months period of the twelve (12) months period of the order, and, except as so amended, the terms and provisions of said order are affirmed and shall continue in effect until July 31, 1954.

Dated: April 20, 1954.

JOHN C. BORTON,
Director,
Office of Export Supply.

[F. R. Doc. 54-3072; Filed, Apr. 23, 1954; 8:45 a. m.]

[Case No. 177]

FRANZ HANKE ET AL.

ORDER REVOKING LICENSES AND DENYING EXPORT PRIVILEGES

In the matter of: Franz Hanke, also known as Gunther Hanke, Anneliese Hanke, Kurt Munich, Josef Pawlitza, Hegelgasse 5, Vienna 1, Austria; Alexander W. Pisk, Georg Hauptfeld, Hochstrasse 19, Frankfurt, Germany; Hanke-Chemie Handelsgesellschaft, Hochstrasse 19, Frankfurt, Germany, Post Platz 26, Vaduz, Liechtenstein; Hannoco S. P. R. L., 29 Boulevard du Regent, Brussels, Belgium, Hottlingerstrasse 4, Zurich, Switzerland; Hanke-Ziegler A. G., Hettlingen, Winterthur, Switzerland; Siegwart and Hanke, Hegelgasse 5, Vienna 1, Austria; Bruno Bischof, doing business as Bruno Bischof Internationale Speditions Unternehmung, Canovagasse 7, Vienna 1, Austria; Respondents; Case No. 177.

This proceeding was commenced by the transmission of a charging letter issued on November 2, 1953 by the Director of the Investigation Staff, Bureau of Foreign Commerce, United States Department of Commerce, to Hanke-Chemie Handelsgesellschaft, Frankfurt, Germany and Vaduz, Liechtenstein, Hannoco S. P. R. L., Brussels, Belgium and Zurich, Switzerland, Hanke-Ziegler A. G., Hettlingen, Switzerland, Siegwart and Hanke, Vienna, Austria, and their principals and officials Franz and Anneliese Hanke, Alexander W. Pisk, Georg Hauptfeld, Kurt Munich and Josef Pawlitza (sometimes referred to herein as the Hanke-combine when not referred to by name), and Bruno Bischof, doing business as Bruno Bischof Internationale Speditions Unternehmung ("Bischof") Vienna, Austria.

The Hanke-combine respondents are charged with having violated the Export Control Act of 1949, as amended, and the regulations issued thereunder by concealing material facts, making false representations and certifications as to some of the commodities involved and failing to report changes in destination as to others, and submitting end-use statements to which they had no intention of abiding, to various American exporters-suppliers, and through such suppliers to United States authorities, to induce the issuance of export licenses and to facilitate the exportation to said respondents abroad of five (5) shipments of chemicals and pharmaceuticals valued at approximately $50,000; and of having concealed material facts to induce the exportation of one (1) general license chemical product valued at $7,000.

The charges allege further that the Hanke-combine respondents unlawfully diverted and transshipped, or caused to be diverted and transshipped, all six (6) of said exportations to countries of ultimate destination other than those authorized, in contravention of the destination control notice contained on the shipping documents of five (5) of said exportations, and with knowledge that all said transshipments were contrary to United States export law and regulations.

Bischof, a freight forwarding agent in Vienna, Austria, is charged with knowingly participating in one (1) of the unauthorized transshipments in contravention of the destination control clause on the shipping documents relating to the shipment, and with knowledge that said transshipment was contrary to United States export law and regulations.

By the terms of said charging letter the validated license privileges of the Hanke-combine respondents, but not Bischof, were temporarily suspended pending the determination of this proceeding.

It appears that a copy of the charging letter has not been served upon Kurt Munich as his present whereabouts cannot be ascertained, or upon Hannoco S. P. R. L. Zurich, Switzerland and Hanke-Ziegler A. G., Hettlingen, Switzerland as said concerns are reported to have been dissolved and are no longer in business. Service of the charging letter upon Franz Hanke is held to be tantamount to service upon said companies, however, as he is (or was) the owner or principal thereof. Moreover, the regulations provide, in substance, that failure of a respondent to receive a charging letter addressed and transmitted by registered mail to his last known address, or to answer the charges or to request an oral hearing within the prescribed period does not operate to prevent or invalidate his being held in default; but a respondent who has not received the charging letter may at any time move to modify or vacate any order issued pursuant to such charging letter as it applies to him.

Answers to the charges have been submitted by respondents Bischof, Georg Hauptfeld and Alexander W. Pisk. An answer has likewise been presented by an official of the Hanke-combine (not a respondent herein) purporting to be submitted in behalf of the several concerns comprising the combine, and of Franz Hanke, although it is ambiguous as to whether it purports to speak also for Anneliese Hanke and Siegwart and Hanke. In view of the ambiguity it has been decided that such answer is intended to include the said individual and firm and the same have consequently not been held in default. Kurt Munich and Josef Pawlitza have been held to be in default, the latter because he has failed to answer the charges or to ask for a hearing, the former for the reasons already shown. None of the respondents has sought, or asked for, the opportunity to be heard at an oral hearing.

A hearing on due notice was held before the Compliance Commissioner at Washington, D. C., on February 1, 2 and 3, 1954, at which the Investigation Staff of the Bureau of Foreign Commerce was represented by counsel and through such counsel presented to the Commissioner the evidence bearing on the violations charged to said respondents in said charging letter. The Commissioner noted the failure of each of said respondents to appear in person or by counsel; he also noted the default of respondents Kurt Munich and Josef Pawlitza.

The Commissioner then took under consideration the evidence so received, together with the several answers to the said charges, as aforesaid. Thereafter he filed his report, including his findings and recommendations.

It appears from the Commissioner's report that at the time of the violations charged the several companies comprising the Hanke-combine were owned or controlled by Franz Hanke, and that the individual respondents named were officials of said companies. Further, that said companies engaged generally in the import-export of chemicals and pharmaceuticals, and in some instances manufactured or processed the raw commodities for resale in domestic markets and for export.

It appears that although the companies comprising the Hanke-combine were formed by Franz Hanke as separate legal entities, in practice they constituted a chain of closely knit and integrated units functioning collectively, or jointly, as circumstances required, in implementing and executing the operations conceived by Franz Hanke. Further, that Franz Hanke's control over the combined companies and the officials thereof might be characterized as dominant, to the extent that the over-all management of the combined companies was virtually entirely in his hands. Anneliese Hanke, wife of Franz, appears to have been not only assistant to her husband in the operation of the combine, but also a partner in Hanke-Chemie, Frankfurt, Germany, and co-owner of Hanke-Chemie, Vaduz, Liechtenstein.

The Commissioner's report shows that during the period beginning in April 1951 and continuing thereafter until late 1952, the Hanke-combine ordered six shipments of United States-make chemicals and pharmaceuticals to be made to them for consumption in Western Europe, and, in one instance, for Turkey. One of these orders was for a chemical product exportable from the United States under general license GRO, the others all required validated export licenses for the exportation.

The aforesaid validated license orders, in each instance, were accompanied by end-use statements representing and certifying that the ordered commodities were for the use of, or resale by, the Hanke-combine in the various countries of Western Europe in which the several Hanke-combine companies were located, and, in one instance, was for one of their customers in Turkey. Four of such orders were accompanied by Swiss Blue Import certificates issued by the Swiss authorities to one of the companies in the combine located in Switzerland (Hanke-Ziegler A. G.), and were intended for the reliance of the American license authorities in issuing the required export licenses.

Some time between the submission of the orders and accompanying statements and the exportation of the commodities, however, changes in circumstances and ultimate destination occurred with respect to some of the goods ordered, although the United States exporters and the United States license authorities were not notified of such changes, while in connection with other orders so placed the Hanke-combine knew in advance that the representations as to the stated ultimate destinations were false.

In reliance upon the purported authenticity of the end-use statements submitted with the orders, the several American exporters applied to the Office of International Trade (now the Bureau of Foreign Commerce) for validated export licenses to ship the required commodities to Antwerp, Belgium, as transit point for on-forwarding to the represented Western European countries and to Turkey, and export licenses were thereafter obtained authorizing such shipments. In each instance, except one, shipment of the licensed commodity was made under a bill of lading containing the destination control clause "This commodity licensed by United States for ultimate destination (name of appropriate country). Diversion contrary to United States law prohibited". The single exception was with regard to the commodity exported pursuant to general license GRO.

A copy of each of the bills of lading containing the aforesaid destination control notice, or equivalent notice, was furnished to the Hanke-combine and its duly authorized forwarding agents at Antwerp, including the firm Bischof, with respect to the validated license shipments. Upon reaching Antwerp each of the said five (5) validated license shipments, as well as the general license shipment, was diverted and transshipped to unauthorized countries of ultimate destination, although only part of the commodity licensed to Turkey was thus diverted while the bulk of said shipment went to the licensed destination. Moreover, one such shipment was transshipped to the Soviet sector of Vienna, Austria, a portion of another shipment was diverted to the same unauthorized area, and the commodity exported under the general license was transshipped to Hong Kong. Still another validated license shipment may likewise have been diverted behind the Iron Curtain although its final disposition has never been ascertained in view of the difficulty of tracing its movement after leaving Antwerp, and the refusal of the Hanke-combine to disclose its ultimate destination.

Although the answer to the charges submitted in behalf of the Hanke-combine purports to explain their acts as respects the several validated license shipments and the general license shipment, in general the unlawful diversions are not denied. The Commissioner's report, however, points out that the explanations offered have been found to be without merit, and that he has rejected them.

The Commissioner has likewise refused to give credence to the alleged defenses of Alexander W. Pisk and Georg Hauptfeld on the grounds that both of them, as employees and officials of the combine, necessarily knew of and participated in the violations even though such participation apparently occurred as direct result of Franz Hanke's instructions. He has also concluded that Bischof knowingly diverted and transshipped one of the validated license shipments to an unauthorized country of destination, while acting as forwarding agent for the combine, despite Bischof's claim that such transshipment was, in his belief, a proper transfer.

The Commissioner has also pointed out that the record shows the Hanke-combine to have been guilty of flagrant evasions, distortions, half-truths and outright falsehoods in their dealings with United States officials seeking to investigate the violative transactions; and that they sought to, and did in fact, conceal their operations and attempt to confuse their interrogators by disclaiming involvement in the transactions and seeking to pass the responsibility from one to the other of the companies comprising the combine.

In his report the Compliance Commissioner has found the Hanke-combine, and Bischof, guilty of the charges, and he holds Franz Hanke primarily responsible for the manipulations resulting in the violations and the evasions that characterized the Hanke-combine actions thereafter; he also finds that Anneliese Hanke and the other Hanke-combine officials named as respondents herein are guilty thereof, although to a lesser extent, as they appear to have acted largely on the instructions and directions of Franz.

He points out further that Franz Hanke has been held guilty and fined by a Swiss criminal court of having deliberately misused the several Swiss Blue Import certificates mentioned earlier herein as having been submitted to American exporters, and that the Court castigated Franz as "unscrupulous," holding that judged on his unethical business methods ". . . in the future, too, it is not likely that it will be possible to keep a check on this defendant and his activities and that the required confidence cannot be extended to him."

In making his recommendations the Commissioner concludes that the acts of Franz Hanke and the combine, as shown, constitute a serious, aggravated series of violations demonstrating their wilful and callous disregard for the integrity of the United States export law and regulations, as well as for constituted authority charged with the administration and enforcement of the law. It is his opinion that by such acts said respondents have thereby forfeited their privileges to engage in United States exports until such time as they can prove they have learned to respect, and will adhere to, the export law.

His recommendations are that the companies comprising the Hanke-combine, and Franz and Anneliese Hanke, be denied all export privileges for the duration of export controls, with the prerogative, however, of petitioning the Bureau after June 30, 1956, for the amelioration or restoration thereof if they can then assure the Bureau that such restoration of export privileges will not be inconsistent with sound administration and effective enforcement of the export law. Similar denial of export privileges for the duration of controls is likewise recommended for the other officials of the Hanke-combine named herein as respondents, except that they may petition for restoration of privileges after one year following the issuance of this order, subject also to such terms and conditions as the Bureau may see fit to impose to assure not only that such restoration will result in no future abuse of privileges, but that it will not be employed as a front or cover-up for Franz Hanke's operations during the period of his suspension from export privileges.

The Commissioner's recommendations as to Bischof take into consideration his role as a freight forwarder, the absence of any record of prior export violations such as here committed, and the fact that Bischof participated in only one of the illegal diversions and apparently had no connection with the misrepresentations and concealments made by the Hanke-combine to induce the exportations from the United States. The Commissioner has accordingly recommended that Bischof be denied all export privileges for a period of 60 days, the imposition of the suspension to be deferred for 30 days following the issuance of this order, to allow Bischof sufficient time to channel into other sources the goods placed with his firm for shipping and forwarding by his clients, to the end that such clients may not be inconvenienced or caused damages by Bischof's suspension.

The findings and recommendations of the Compliance Commissioner have been carefully considered, together with the charging letter, the evidentiary material, the answers to the charges, and the entire record. It appears therefrom that the Compliance Commissioner's findings are in accordance with the evidence and that such recommendations are reasonable and should be adopted.

Now, therefore, it is ordered as follows:

(1) All outstanding validated export licenses held by or issued in the names of respondents Franz Hanke (also known as Gunther Hanke), Anneliese Hanke, Georg Hauptfeld, Alexander W. Pisk, Kurt Munich, Josef Pawlitza, Bruno Bischof, individually and doing business as Bruno Bischof Internationale Speditions Unternehmung, Hannoco S. P. R. L., Hanke-Chemie Handelsgesellschaft, Hanke-Ziegler A. G., and Siegwart and Hanke, or any of them, or in which they appear or participate as purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation;

(2) Respondents Franz Hanke, Anneliese Hanke, Georg Hauptfeld, Alexander W. Pisk, Kurt Munich, Josef Pawlitza, Hanke-Chemie Handelsgesellschaft, Hannoco S. P. R. L., Hanke-Ziegler A. G. and Siegwart and Hanke, their successors or assigns, directors, officers, associates, partners, representatives, agents, and employees, are hereby denied and declared ineligible to exercise the privileges of participating directly or indirectly, in any manner or capacity, in the exportation of any commodity from the United States to any foreign destination, including Canada, for the duration of export controls: *Provided, however,* That after June 30, 1956, Franz and/or Anneliese Hanke, for themselves and in behalf of Hanke-Chemie Handelsgesellschaft, Hannoco S. P. R. L., Hanke-Ziegler A. G. and Siegwart and Hanke, and at any time after one year following the issuance of this order, Georg Hauptfeld, Alexander W. Pisk, Kurt Munich and Josef Pawlitza, or any of them, may apply to the Bureau of Foreign Commerce, by petition duly sworn, for amelioration of the provisions of this order or for restoration of all, or part, of the export privileges herein denied to said respondents. The Bureau may amend, modify, or vacate the provisions of this order as they apply to said respondents, or any of them, upon such terms and conditions as is necessary to assure future compliance with and adherence to the export law and regulations.

(3) Respondent Bruno Bischof and his company, Bruno Bischof Internationale Speditions Unternehmung, his associates, representatives, agents and employees, are hereby denied and declared ineligible to exercise the privileges of participating directly or indirectly, in any manner or capacity, in the exportation of any commodity from the United States to any foreign destination, including Canada, or in the servicing, transporting, forwarding or receiving, as principal, agent, or otherwise, of any commodity exported from the United States to any foreign destination, including Canada, such denial of privileges to commence 30 days after the date of issuance hereof and thereafter to remain in effect for a period of 60 days.

(4) Without limitation of the generality of the denial of export privileges as contained in (2) (3) above, participation in an exportation is deemed to include and prohibit respondents' participation (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license, or other export control document, (c) in the receiving in any foreign country of any exportation from the United States, and (d) in the financing, forwarding, transporting, or other servicing of exports from the United States.

(5) Such denial of export privileges shall extend not only to the named respondents, and each of them, but to Hanke-Holz, Salsburg, Austria, and Interzack Holz Grosshandel Export-Import GMBH, Frankfurt, Germany (companies owned, controlled or associated with Franz Hanke) and also to any other person, firm, corporation, or business organization with which said respondents, or any of them, may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports from the United States or services connected therewith.

(6) No person, firm, corporation, or other business organization shall, without prior disclosure of the facts to, and specific authorization from, the Bureau of Foreign Commerce, directly or indirectly, in any manner or capacity, (a) apply for, obtain, transfer, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation of commodities from the United States, or (b) order, receive, buy, use, dispose of, finance, transport, forward, or otherwise service or participate in any exportation from the United States, or in a re-exportation of any commodity exported from the United States, with respect to which any of the respondents herein and related companies covered by (5) above have any interest or participation of any kind, direct or indirect.

(7) This order supersedes and replaces the temporary suspension of validated license privileges imposed upon the respondents herein (except Bischof) by the terms of the charging letter of November 2, 1953, and the said temporary suspension is hereby vacated.

Dated: April 21, 1954.

JOHN C. BORTON,
Director,
Office of Export Supply.

FEDERAL COMMUNICATIONS COMMISSION

U. S. PASSENGER VESSELS OF LESS THAN 100 GROSS TONS

EXEMPTION FROM RADIO INSTALLATION IF OPERATED IN CERTAIN WATERS

In the matter of exemption of all United States passenger vessels of a tonnage of less than 100 gross tons, not subject to the radio provisions of the Safety Convention, from the provisions of Title III, Part II of the Communications Act of 1934, as amended, when navigated not more than 20 nautical miles from the nearest land in waters lying between Hog Island, Virginia, and Fire Island Light, New York.

The Commission having under consideration the above-captioned matter; and

It appearing that section 352 (b) (3) of the Communications Act of 1934, as amended, provides that the Commission may, if it considers that the route or the conditions of the voyage, or other circumstances are such as to render a radio installation unreasonable or unnecessary for the purpose of Title III, Part II of the Act, exempt from the provisions of Title III, Part II, passenger vessels of a tonnage of less than 100 gross tons not subject to the radio provisions of the Safety Convention; and

It further appearing that the passenger vessels in question come within the class of vessels which may be granted exemption under section 352 (b) (3) of the said Communications Act; and

It further appearing that the Commission has heretofore granted and renewed for specified periods a general exemption to all passenger vessels of less than 100 gross tons, not subject to the radio provisions of the Safety Convention, when navigated only during daylight hours not more than 20 nautical miles from the nearest land, on voyages in waters lying solely between Indian River Inlet, Delaware, and Fire Island Light, New York; the presently valid exemption for this area expiring on May 13, 1954; and

It further appearing that the Commission has heretofore granted exemption from Title III, Part II of the Communications Act to individual passenger vessels of less than 100 gross tons not subject of the radio provisions of the Safety Convention when navigated not more than 15 nautical miles from the nearest land on voyages in waters lying between Cape May, New Jersey, and Hog Island, Virginia; and

It further appearing, that issuance of a single general exemption to all passenger vessels of less than 100 gross tons, not subject to the radio provisions of the Safety Convention, which are navigated in waters lying solely between Hog Island, Virginia, and Fire Island Light, New York, would reduce the burden upon the Commission with respect to consideration of separate exemptions for ships in the area between Indian River Inlet, Delaware, and Hog Island, Virginia.

It is ordered, This 7th day of April 1954, pursuant to section 352 (b) (3) of the Communications Act of 1934, as amended, that all United States passenger vessels of a tonnage of less than 100 gross tons, not subject to the radio provisions of the Safety Convention be exempt from the provisions of Title III, Part II of the Communications Act of 1934, as amended, until May 13, 1955, when navigated on voyages in waters lying solely between Hog Island, Virginia, and Fire Island Light, New York: *Provided,* That in the course of the voyages the vessels will be navigated not more than 20 nautical miles from the nearest land.

It is further ordered, That this order shall supersede the Commission's Order of April 14, 1953, which granted exemption to all United States passenger ships of less than 100 gross tons, not subject to the radio provisions of the Safety Convention, when navigated on voyages lying solely between Indian River Inlet, Delaware and Fire Island Light, New York.

It is further ordered, That this exemption may be terminated by the Commission at any time without hearing if, in the Commission's discretion, the need for such action arises.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 10715]

PATCHOGUE BROADCASTING CO., INC. (WPAC)

ORDER CONTINUING HEARING

In re application of Patchogue Broadcasting Company, Inc. (WPAC), Patchogue, New York, for construction permit; Docket No. 10715, File No. BP-8525.

Patchogue Broadcasting Company, Inc. (WPAC), Patchogue, New York, having, on April 14, 1954, filed with this Commission a Petition for Removal from Hearing Docket of the above-entitled proceeeding and it appearing from the recitation of said petition that WXNJ, Incorporated has dismissed its application (Docket No. 10714) and that Interstate Broadcasting Company, Inc. (WQXR) has dismissed its protest to a grant of the WPAC application, and it being further recited in said petition that the proposed WPAC operation is consistent with the Commission's present blanketing requirements relating to interference; and

It further appearing that the above entitled application had been designated for hearing to commence on April 29, 1954; and the Examiner having issued a Pre-Hearing Conference Order under § 1.813 of the rules of this Commission for Monday, April 19, 1954; and

It further appearing that counsel for the Chief of the Broadcast Bureau of this Commission has consented hereto; and for good cause shown;

It is ordered, This 15th day of April 1954, that in view of the facts hereinabove recited and the pendency with the Commission of the said Petition for Removal from Hearing Docket filed by applicant Patchogue Broadcasting Company, Inc., the Order of April 12, 1954, calling a pre-hearing conference be and it hereby is withdrawn, and the date of hearing now scheduled to commence on April 29, 1954, be and it hereby is postponed until a further date to follow action by the Commission on said Peti-

tion for Removal from Hearing Docket of this application, or until further order of the Examiner.

Released: April 16, 1954.

[Docket No. 10994]

MERCURY CAB CO.

ORDER TO SHOW CAUSE

In the matter of Paul Elvis Tittle, d/b as Mercury Cab Company, Nashville, Tennessee, Order to Show Cause Why the License for Radiotelephone Station KIF-874 should not be revoked; Docket No. 10994.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station KIF-874, licensed to Paul Elvis Tittle, d/b as Mercury Cab Company, Nashville, Tennessee;

It appearing that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated November 12, 1953, specifying that said licensee violated § 16.152 (a) of the Commission's rules on November 3, 4, and 5, 1953, by failing to observe proper identification procedure in the authorized manner; and

(b) Notice dated February 9, 1954, specifying again that said licensee violated § 16.152 (a) of the Commission's rules on November 3, 4, and 5, 1953, by failing to observe proper identification procedure in the authorized manner;

It further appearing that, despite further notices calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 16.159 of the Commission's rules, no explanation or other response has been received from the licensee:

It is ordered, This 14th day of April 1954, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Paul Elvis Tittle show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 21st day of June 1954;

It is further ordered, That the Secretary send a copy of this Order by Registered Mail—Return Receipt Requested to the said Paul Elvis Tittle, 6121 Robertson Road, Nashville, Tennessee.

Released: April 20, 1954.

[Docket No. 11005]

SOUTHERN BELL TELEPHONE AND TELEGRAPH CO.

ORDER ASSIGNING MATTER FOR HEARING

In the matter of the application of Southern Bell Telephone and Telegraph Company for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire certain telephone plant and property of W. Eldridge Guyn and Christine Hagin Guyn d/b as Oak Grove Telephone Company, Docket No. 11005, File No. P-C-3421.

The Commission having under consideration an application filed by the Southern Bell Telephone and Telegraph Company for a certificate under section 221 (a) of the Communications Act of 1934, as amended, that the proposed acquisition by Southern Bell Telephone and Telegraph Company of certain telephone plant and property of W. Eldridge Guyn and Christine Hagin Guyn d/b as Oak Grove Telephone Company located in and around Oak Grove, Louisiana, will be of advantage to the persons to whom service is to be rendered and in the public interest;

It is ordered, This 16th day of April 1954, that pursuant to the provisions of section 221 (a) of the Communications Act of 1934, as amended, the above application is assigned for public hearing for the purpose of determining whether the proposed acquisition will be of advantage to the persons to whom service is to be rendered and in the public interest;

It is further ordered, That hearing upon said application be held at the offices of the Commission in Washington, D. C., beginning at 10:00 a. m. on the 24th day of May 1954, and that a copy of this order shall be served upon the Governor of the State of Louisiana, the Louisiana Public Service Commission, Southern Bell Telephone and Telegraph Company, W. Eldridge Guyn and Christine Hagin Guyn d/b as Oak Grove Telephone Company, and the Postmasters of Oak Grove and Epps, Louisiana;

It is further ordered, That within five days after receipt from the Commission of a copy of this order, the applicant herein shall cause a copy hereof to be published in a newspaper or newspapers having general circulation in the communities of Oak Grove and Epps, Louisiana, and in West Carroll Parish, Louisiana, and shall furnish proof of such publication at the hearing herein.

Released: April 19, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-3097; Filed, Apr. 23, 1954; 8:47 a. m.]

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in the order to show cause, the licensee shall within thirty (30) days from the date of the receipt of this order submit a written statement informing the Commission whether said licensee will appear at this hearing and present evidence upon the matter specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an order of revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the order to show cause. Failure to respond to this order within the above-mentioned thirty (30) day period or failure to appear at the hearing will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the order to show cause.

[Docket No. G-2403]

TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF APPLICATION

APRIL 20, 1954.

Take notice that Texas Eastern Transmission Corporation (Applicant), a Delaware corporation, having its principal places of business at Shreveport, Louisiana, and Houston, Texas, filed on April 6, 1954, an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to sell and deliver to United Gas Pipe Line Company (United) all of Applicant's excess "take or pay gas" to the limit of United's physical ability to so take.

The application recites that under its purchase contracts Applicant will have excess gas available to it during the period commencing April 1, 1954, and continuing through October 31, 1955, and if not taken it will have to be paid for, thus incurring financial losses attendant upon paying for substantial quantities of gas which Applicant cannot take.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 10th day of May 1954.

The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 7-1584—7-1599]

ALLEGHANY CORP. ET AL.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

APRIL 20, 1954.

In the matter of applications by the Cincinnati Stock Exchange for unlisted trading privileges in: Alleghany Corporation, Common Stock, $1.00 Par Value, 7-1584; Burlington Mills Corporation, Common Stock, $1.00 Par Value, 7-1585; Dow Chemical Company, Common Stock $5.00 Par Value, 7-1586; Kennecott Copper Corporation, Common Stock, No Par Value, 7-1587; Liggett & Myers Tobacco Company, Common Stock, $25.00 Par Value, 7-1588; P. Lorillard Company, Common Stock, $10.00 Par Value, 7-1589; The Glenn L. Martin Company, Common Stock, $1.00 Par Value, 7-1590; The Mead Corporation, Common Stock, No Par Value, 7-1591; National Dairy Products Corporation, Common Stock, $10.00 Par Value, 7-1592; National Lead Company, Common Stock, $5.00 Par Value, 7-1593; Phillips Petroleum Company, Common Stock, No Par Value, 7-1594; R. J. Reynolds Tobacco Company, New Class "B" Common Stock, $10.00 Par Value, 7-1595; Southern Pacific Company, Common Stock, No Par Value, 7-1596; St. Regis Paper Company, Common Stock, $5.00 Par Value, 7-1597; Sunray Oil Corporation, Common Stock, $1.00 Par Value, 7-1598; Twentieth Century-Fox Film Corporation, Common Stock, $1.00 Par Value, 7-1599.

The Cincinnati Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application to extend unlisted trading privileges to each of the above-mentioned securities, each of which is listed and registered on the New York Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of each application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. Each application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to May 11, 1954, the Commission will set the matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on these applications by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing, these applications will be determined by order of the Commission on the basis of the facts stated in the applications, and other information contained in the official files of the Commission.

By the Commission.

[File Nos. 54-132, 70-1149, 70-1150, 70-1419]

ENGINEERS PUBLIC SERVICE CO. ET AL.

SUPPLEMENTAL ORDER APPROVING PAYMENT OF ADDITIONAL FEE

APRIL 20, 1954.

In the Matter of Engineers Public Service Company, File No. 54-132; El Paso Electric Company, File No. 70-1149; Gulf States Utilities Company, File No. 70-1150; Virginia Electric and Power Company, File No. 70-1419.

The Commission by its interim order of December 21, 1950, and its findings, opinion and order of March 26, 1952, having approved, among other things, the payment by Engineers Public Service Company, a registered holding company, to Lawrence R. Condon of a counsel fee in the amount of $60,000 and reimbursement for expenses in the amount of $14,680.10, and having by said findings, opinion and order of March 26, 1952, denied the payment to Lawrence R. Condon, of the amount of $65,000 additionally requested by him as counsel fees; and

The United States District Court for the District of Delaware on February 16, 1954, having ordered and decreed, among other things, that the Commission amend its findings, opinion and order of March 26, 1952, to permit Engineers Public Service Company to pay to said Lawrence R. Condon, an additional fee of $15,000, in addition to the sum of $60,000 heretofore authorized to be paid to him, and no appeal having been taken with respect to said order of the United States District Court for the District of Delaware insofar as it relates to such additional award to the said Lawrence R. Condon, and the time for taking any such appeal having expired:

It is ordered, That the Commission's said findings, opinion and order be amended so as to permit the payment by Engineers Public Service Company to Lawrence R. Condon of the additional amount of $15,000 as counsel fees.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

UNITED STATES TARIFF COMMISSION

[Investigation 34]

WOOD SCREWS

POSTPONEMENT OF PUBLIC HEARING

The Tariff Commission ordered that the public hearing in the investigation instituted under section 7 of the Trade Agreements Extension Act of 1951 and section 332 of the Tariff Act of 1930 as amended, with respect to wood screws, heretofore scheduled for May 18, 1954 (19 F. R. 1197), be postponed to 10 a. m., e. d. s. t., May 26, 1954.

The hearing will be held in the Hearing Room, Tariff Commission Building, Eighth and E Streets NW., Washington, D. C.

Request to appear: Parties desiring to appear, to produce evidence, and to be heard at the public hearing should file request in writing with the Secretary, United States Tariff Commission, Washington 25, D. C., in advance of the date of the hearing.

I certify that the above action was taken by the Tariff Commission on the 20th day of April 1954.

Issued: April 21, 1954.

[SEAL] DONN N. BENT,
Secretary.

[F. R. Doc. 54-3091; Filed, Apr. 23, 1954; 8:48 a. m.]

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29161]

PETROLEUM RESIDUAL FUEL OIL AND ASPHALT FROM MINNESOTA AND SUPERIOR, WIS., TO POINTS IN MINNESOTA, NORTH DAKOTA, AND SOUTH DAKOTA

APPLICATION FOR RELIEF

APRIL 21, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Great Northern Railway Company, Minneapolis, St. Paul and Sault Ste. Marie Railroad Company and Northern Pacific Railway Company and parties to schedules listed below.

Commodities involved: Petroleum residual fuel oil and asphalt (asphaltum), natural, by-product, or petroleum, in tank-car loads.

From: Alford, Wrenshall, Duluth, Minn., and Superior, Wis., Minneapolis, Minnesota Transfer, and St. Paul, Minn.

To: Points in Minnesota, North Dakota, and South Dakota.

Grounds for relief: Competition with rail carriers, motor carriers, market competition, circuity, and to maintain grouping.

Schedules filed containing proposed rates: Reissue of CMStP&PRR, ICC 7800; Sup. 150 to CMStP&PRR, ICC B-7377; Sup. 82 to GNRy, ICC A-8163; Sup. 79 to MStP&SSMRR, ICC 7189; Sup. 84 to NPRy, ICC 9602; Sup. 104 to NPRy, ICC 9635.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 29162]

BRICK FROM CLARKSBURG, W. VA., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

APRIL 21, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin, Agent, for carriers parties to schedule listed below.

Commodities involved: Brick and related articles and refractory articles, carloads.

From: Clarksburg, W. Va.

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, circuity, additional origin, and to maintain grouping.

Schedules filed containing proposed rates: C. W. Boin, Agent, I. C. C. No. A-917, supp. 19.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29164]

BITUMINOUS FINE COAL FROM ALABAMA TO SAVANNAH AND PORT WENTWORTH, GA.

APPLICATION FOR RELIEF

APRIL 21, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for the Central of Georgia Railway Company, Savannah & Atlanta Railway Company, and Southern Railway Company.

Commodities involved: Bituminous fine coal, carloads.

From: Mines in Alabama.

To: Savannah and Port Wentworth, Ga.

Grounds for relief: Competition with rail carriers, circuity, and to maintain grouping.

Schedules filed containing proposed rates: Southern Railway Company I. C. C. No. A-11166, supp. 19.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. DENATURED ALCOHOL FROM BATON ROUGE, NORTH BATON ROUGE, AND NEW ORLEANS, LA., TO MEMPHIS, TENN.

APPLICATION FOR RELIEF

APRIL 21, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by F. C. Kratzmeir, Agent, for carriers parties to Agent W. P. Emerson, Jr.'s tariff I. C. C. No. 400, pursuant to fourth-section order No. 16101.

Commodities involved: Denatured alcohol, carloads and tank-car loads.

From: Baton Rouge, North Baton Rouge, and New Orleans, La.

To: Memphis, Tenn.

Grounds for relief: Competition with rail carriers, operation through higher-rated territory, and circuity.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. VOLUME 19 NUMBER 81

Washington, Tuesday, April 27, 1954

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter B—Farm Ownership Loans

[FHA Instruction 401.2]

PART 311—BASIC REGULATIONS

SUBPART B—LOAN LIMITATIONS

TERRITORIAL SUBDIVISIONS IN PUERTO RICO

Section 311.28 of Title 6, Code of Federal Regulations (19 F. R. 1364), is amended with respect to areas designated as subdivisions in Puerto Rico by (1) revoking the designations of the subdivisions named Arecibo, Canovanas, Fajardo, Humacao, and Manati, and (2) designating the following identified subdivisions:

PUERTO RICO

Name of Subdivision and Municipalities Comprising Subdivision
Humacao: Humacao, Ceiba, Naguabo.
Manati: Manati, Arecibo, Barceloneta.
Rio Grande: Rio Grande, Canovanas, Luquillo, Fajardo, Culebra, Vieques.

(Sec. 41 (1), 60 Stat. 1066; 7 U. S. C. 1015 (i). Interprets or applies sec. 54, 60 Stat. 1071, sec. 1 (b), 61 Stat. 493; 7 U. S. C. 1028)

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 533, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 18 F. R. 6767), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.640 (Lemon Regulation 533, 19 F. R. 2225) are hereby amended to read as follows:

(ii) District 2, 450 carloads.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 22d day of April 1954.

manuals which must be furnished by the air carrier to the Civil Aeronautics Administration. A copy of the operations manual will be required to be furnished to the authorized air carrier agent or advisor in charge of the air carrier, but additional copies to the Regional or Branch offices, or the Administrator will not be required unless requested. These rules do not impose any additional burden upon interested persons, and no useful purpose would be served by compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act. Therefore, compliance is unnecessary and is not required.

Section 41.120–1, as published on October 24, 1953, in 18 F. R. 6753, is revised to read as follows:

§ 41.120–1 *Copies of operations manual (CAA rules which apply to § 41.120).* A copy of the operations manual shall be delivered to the Aviation Safety Agent or Advisor assigned to the air carrier by the Administrator. Upon receipt of the copy of the manual, the Aviation Safety Agent or Advisor will inform the air carrier if additional copies are required and the persons to whom they shall be delivered.

[Supp. 7]

PART 50—AIRMAN AGENCY CERTIFICATES

RULES, POLICIES AND INTERPRETATIONS

Over the past few years there has been urgent need for a revised Civil Aeronautics Manual 50 which would provide a more workable basis upon which schools could establish their operations. It is believed that approved school pilot training standards are too low under the provisions of the prior manual; therefore, major emphasis has been placed in this revised manual on the graduation of a pilot who has demonstrated his skill and competence based on standards higher than those heretofore established.

It is believed, too, that previous facility requirements were unrealistic and in some instances imposed unnecessary economic burdens on the approved agency operator. These requirements have been made more workable by deleting specific building and construction requirements which would be in addition to the local building code; elaborate maintenance shops; and complex requirements for field lighting.

Additional responsibility and accountability have been placed on the approved school in this revision with a resultant diminishing need for direct supervision as the school demonstrates reliability.

The following policies and interpretations supersede Civil Aeronautics Manual 50 as published in 16 F. R. 6862 on July 18, 1951, and amended in 17 F. R. 6895 on July 29, 1952, and are hereby adopted:

§ 50.10–1 *Classrooms (CAA interpretations which apply to § 50.10(a)).* The Administrator will consider minimum classroom space, heat, and light requirements to have been met when the applicant furnishes space with a minimum floor area of 80 square feet, plus at least 15 square feet for each additional student over the number of five; heated and ventilated in accordance with local public health laws; and lighted sufficiently to permit a person with normal eyesight to study or read without eyestrain.

§ 50.10–2 *Equipment (CAA interpretations which apply to § 50.10(b)).* The Administrator will consider minimum classroom equipment requirements to have been met when the applicant furnishes the following:

(a) *Basic or advanced ground school equipment.* For each enrolled student, a desk-chair, chair and desk, or chair and table space to permit such work as laying out courses on aeronautical charts; and a blackboard which provides at least 12 square feet of usable surface. (Tablet-arm chairs will not be considered as providing adequate working space.)

(b) *Basic ground school equipment.* Texts and related source materials to cover Civil Air Regulations, meteorology, aerial navigation, radio as used for airport traffic control and also as used in obtaining flight assistance services, general service and operation of aircraft and aircraft engines, and pertinent operational data at the private pilot level. Also, illustrative, explanatory, and demonstration aids and materials which are representative of those which a private pilot needs in actual piloting operations, such as radio facility charts, aeronautical charts, computers, Airman's Guide, etc.

(c) *Advanced ground school equipment.* Texts and related source materials covering the subjects named in paragraph (b) of this section and, in addition, navigation of aircraft by use of radio aids. Also, models, mock-ups, cutaways, classroom-size or lecture-size blueprints, diagrams, etc., covering the operation and functioning of instruments and equipment required under Part 43 of this chapter and Parts 3, 5, and 6 of this chapter as they pertain to the particular course being taught.

§ 50.11–1 *Basic ground school curriculum (CAA policies which apply to § 50.11(a)).* In providing a curriculum satisfactory to the Administrator, an applicant may elect to adopt the following minimum acceptable curriculum or may submit one of equal or higher standard for approval. The minimum acceptable basic ground school curriculum will provide for not less than 50 hours of classroom instruction in the following subjects and for successful accomplishment of an examination on each subject:

(a) *Civil air regulations.* Instruction in the following regulations will be given:

(1) Part 1: Certification, Identification, and Marking of Aircraft and Related Products.

(2) Part 3: Airplane Categories, § 3.20 (a) (1), (2), (3).

(3) Part 20: Pilot Certificates.

(4) Part 43: General Operation Rules.

(5) Part 60: Air Traffic Rules, including visual flight rule operation, instrument flight rule operation, VFR and IFR flight plan operation, and air traffic control practices and procedures.

(6) Part 62: Notice and Reports of Aircraft Accidents and Missing Aircraft.

(b) *Meteorology.* Instruction in the following subjects will be given:

(1) Weather recognition.

(2) Icing.

(3) Fog.

(4) Frontal characteristics, with particular emphasis on thunderstorms.

(5) General cloud formations and their relationship to weather characteristics.

(6) Weather maps and symbols.

(7) Teletype sequences and symbols.

(8) Elementary weather forecasting.

(9) Pressure areas and their characteristics, including motion of air masses (wind systems).

(10) Significance of isobaric patterns.

(11) Winds aloft.

(12) Humidity-temperature-dewpoint relationship and significance to pilot.

(13) Precipitation.

(14) Practical application of meteorological knowledge to safe flying practices.

(15) Services and assistance available from the U. S. Weather Bureau.

(c) *Aerial navigation and radio.* Instruction in the following phases will be given:

(1) Navigational methods, including pilotage; dead reckoning; and basic radio aids to navigation, including elementary radio orientation.

(2) Navigational instruments commonly used.

(3) Basic use of computer.

(4) Proper use of flight plans.

(5) Proper use of published aids, such as: Flight Information Manual; Airman's Guide; and Notams.

(6) Explanation of radio aids to flight.

(7) Proper use of radio, including voice procedure and phraseology.

(8) Flight assistance services.

(d) *General service and safety practices.* Instruction in the following procedures and practices will be given:

(1) Care of aircraft, including preflight inspection procedures; general safety precautions; explanation of preventive maintenance, repair, and required inspections.

(2) Care of engines, including preflight inspection procedures; fuel requirements; proper starting, warmup, and shutdown procedures; explanation of preventive maintenance, repair, required inspection, use of operating manual; and functions, limitations, and characteristic errors of instruments required under Part 43 of this chapter.

(3) Flight safety practices, including operation under conditions of high altitude, extreme temperatures, gross weight, icing (wing ice, propeller ice, carburetor ice); adverse surface conditions (rough, soft, slippery); turbulent air (mountain and canyon effects, sur-

§ 50.10–3 *Instructors (CAA interpretations which apply to § 50.10 (c)).* Each agency must have in its employ a principal instructor whose services are available for purposes of instruction or supervision of each scheduled class subject. Each such instructor must hold a currently valid ground instructor certificate with appropriate ratings for all subjects offered in the school curriculum. An instructor other than the principal instructor must hold a currently valid ground instructor certificate with appropriate ratings for each subject he teaches.[1]

[1] Ratings which an instructor must hold before he can serve either as instructor in a particular subject or as principal instructor for all subjects are as follows:

face obstruction and thermal effects); marginal visibility (day and night); radio communications failure; low fuel supply, aerodynamic effect of frost or snow on airfoils, maximum range versus maximum endurance operation, proper tiedown or securing of aircraft, emergency assistance, and lost procedures; use of landing lights and flares; obstructions to flight, such as antennae, poles, and birds; and procedure when operating unfamiliar aircraft.

§ 50.11–2 *Advanced ground school curriculum (CAA policies which apply to § 50.11 (b)).* In providing a curriculum satisfactory to the Administrator, an applicant may elect to adopt the following minimum acceptable curriculum or may submit one of equal or higher standard for approval. The minimum acceptable advanced ground school curriculum will provide for not less than 150 hours of classroom instruction in the following subjects and for successful accomplishment of an examination on each subject:

(a) *Civil air regulations.* Instruction will be given in the regulations enumerated in § 50.11–1. However, instruction in these regulations must be sufficiently detailed and thorough to equip the student with information he may need and use as a commercial pilot with an unrestricted certificate. In addition, instruction will be given on Part 42 of this chapter. Also, particular stress will be placed on airport and air route traffic control procedures in connection with operations thereunder.

(b) *Meteorology.* Instruction on subjects outlined in § 50.11–1 (b) will be given. The detail and thoroughness with which the instruction is given will exceed that necessary for basic ground school curriculums. It will go beyond the teaching of elementary phases and will include the cause and effect aspects of weather in relation to safe and successful flight operation.

(c) *Aerial navigation, including radio aids to navigation.* Instruction will be given on pilotage and dead reckoning techniques and radio aids to navigation. Instruction should include a practical demonstration to provide familiarization with L/MF and VOR/VHF techniques and with the preparation and use of IFR flight plans.

(d) *General service and safety practices.* Instruction will be given on the servicing and safety practices specified in § 50.11–1 (d), plus:

(1) Servicing and safety practices, theory of flight, lift-gravity-thrust-drag forces, characteristics of air as a fluid mass, and performance characteristics of aircraft including ground effect, design, gust load safety factors, and operating limitations.

(2) Care and maintenance of equipment, including pressure, quantity, and rate instruments; radio and electronic equipment; flotation devices; fire extinguishers; safety belts; windshields, windows, and canopies; emergency exits; and parachutes.

§ 50.12–1 *Airport (CAA interpretations which apply to § 50.12 (a)).* Takeoff space must provide the obstacle clearance distances specified in § 3.84 or § 3.84a of this chapter, whichever is applicable to the airplanes being used, under normally expected average temperature variations; and landing space which will provide the obstacle clearance distances and safe stopping distances specified in § 3.86 and/or § 3.87 of this chapter.[2]

§ 50.12–4 *Maintenance and repair facilities (CAA interpretations which apply to § 50.12 (e)).* Applicants must provide by ownership, rental, lease, or other arrangement the facilities necessary to assure that the minimum flight equipment required by § 50.12 can be maintained in a continuous condition of airworthiness. Aircraft must be hangared when not being used except at such times as lunch periods, or brief periods of inactivity due to scheduling.

§ 50.12–5 *Chief instructors (CAA policies which apply to § 50.12 (g)).* (a) Each flight training course offered by the agency will be under the direct supervision of a chief flight instructor who will possess the necessary flight experience qualifications for a CAA designated flight examiner for the rating for which the course is given. One person may be designated chief flight instructor for multiple courses.

(b) The applicant will submit evidence that the chief flight instructor's responsibilities include at least the following: Ensuring that student, instructor, and aircraft schedules are appropriate and operationally effective; training meets program objectives and performance standards; student progress and accomplishment records are correctly maintained and up-to-date; and applications for pilot certificates or ratings are correctly executed.

(c) Further, the applicant will submit evidence that the chief flight instructor's duties include at least the following: Administering trainee proficiency flight checks, including the final or pretest flight check; administering instructor proficiency and standardization flight checks; maintaining liaison between the CAA and the training agency with reference to flight training techniques, methods, procedures, and student and instructor proficiency.

§ 50.13–1 *Flying school curriculum; airplanes; land and sea (CAA policies which apply to § 50.13).* In providing a curriculum satisfactory to the Administrator, an applicant may elect to adopt the following minimum acceptable curriculum or may submit one of equal or higher standard for approval. An acceptable flying school curriculum will meet the following minimum curriculum requirements, performance standards, and objectives:

(a) *Primary flying school curriculum.* (1) To be acceptable, the required curriculum of 35 flying hours[3] will include the training phases listed below and a demonstration of student performance and knowledge to the standards indicated. For instructor-student preflight and post flight discussion, total time will be provided at the rate of not less than 15 minutes for each hour of flight.

(2) A school desiring to provide a curriculum with additional specialized instruction and a minimum of 30 hours of flying time should submit to the Administrator for approval such curriculum setting forth in detail the specialized instruction and specific performance standards which are comparable to the minimum provided for a curriculum of 35 flying hours.

(3) The flight maneuver tolerances, for determination of a trainee's ability, are those that are expected in smooth air and which can be attained on a repeated basis. Allowance is to be made for gusty air, or other extenuating circumstances.

(4) Training items and maneuvers will include, but not be limited to, the following:

(i) *Airplane equipment familiarization.*

Objective: To familiarize the student with equipment to be used, its use, and proper care.

Standard: Student will demonstrate accurate knowledge of the airplane, its equipment, and operating procedures.

Curriculum: Instruction will include simple explanation of the use of controls including throttle, carburetor heat, mixture control, trim tabs, flaps, stabilizer, brakes, and the proper use of each; fuel system including proper grades of fuel; safety belts; location and use of fire extinguisher (if any); location of first aid kits (if any); and handling and use of parachutes (when required).

(ii) *Preflight preparatory procedures.*

Objective: To teach student to determine by means of a physical examination, whether the airplane is in a generally satisfactory state of airworthiness, is properly serviced and ready for the operation planned, and to carry out systematic flight preparatory procedures.

Standard: Student will demonstrate ability to make a complete and thorough visual check and to display an accurate knowledge of the preflight inspection, starting, warmup, stopping, loading, and other preparatory procedures recommended by the manufacturer, or by CAA Technical Manual No. 100.

Curriculum: Course will include instruction on and explanation of, the items listed in the manufacturer's checklist or, in the absence of such checklist, a preflight inspection procedure may be used in accordance with the suggested list in CAA Technical Manual No. 100. If an approved aircraft operating manual is available, the instructor will teach the student to use the manual properly.

The instructor will explain the dangers resulting from the operation of aircraft engines when the aircraft controls are unattended or are attended by persons unfamiliar with them; and such placard limitations as are pertinent to equipment being used. Instructor will also explain flight instruction and ground crew operational hand signals, engine starting (including swinging the propeller), warmup, and stopping procedures; pretaxi checks; radio and/or any special equipment; and local field traffic rules.

(iii) *Taxiing and parking (sailing and docking).*

Objective: To teach the student to operate the aircraft safely, efficiently, and effectively when moving on the surface.

Standard: Student will demonstrate ability to maintain directional and speed control without abrupt or uncontrolled deviations occurring during straight ahead or turning movements; to execute necessary procedures to keep proposed taxi path under observation; to use, correctly and smoothly, the engine, flight, and taxi controls; to maintain safe clearance distances from other aircraft and surface obstacles; to comply with local taxi rules, and any visual or radio control tower instructions; and to conduct and complete engine runup check.

Curriculum: Course will include instruction in proper control coordination and airplane response (including throttle and brakes); upwind, crosswind, and downwind taxiing on both surfaced and unsurfaced areas; engine operational checks, with particular regard for temperatures; ignition, and power; groundspeed control; and precision parking/docking/mooring.

(iv) *Takeoffs and landings.*

Objective: To teach the student to safely and efficiently effect the transition from a normal position of rest on the surface to flight, and return to the surface.

Standard: Student will demonstrate ability to move into takeoff position with precision; to apply power smoothly and positively; to make good a straight ground path on the runway and over the airport while taking off and landing, including compensation for drift, and touchdowns without landing-gear side loads; to maintain recommended angle of attack during takeoff run; to maintain the recommended best rate of climb airspeed and the recommended glide speed at appropriate power settings, within ±5 m. p. h.; to use flaps and other equipment as recommended; to effect landing at a preassigned location (beyond, and within 300 feet of, a prenamed spot or line); and to comply with traffic pattern rules and/or instructions.

Curriculum: Course will include operation from surfaced runways, unsurfaced areas, actual or simulated small fields and soft fields; controlled airports and uncontrolled airports, and at least one airport where high density traffic exists. Upwind, crosswind, and gusty air takeoff and landing techniques as discussed in CAA Technical Manual No. 100 should be explained, demonstrated, and practiced until the objective of takeoffs and landings has been met. The techniques of using slips should be introduced during landing practice.

(v) *Straight and level flight.*

Objective: To develop in the student the ability to make good a predetermined course or desired track; maintain a predetermined altitude; and maintain an efficient aircraft attitude.

Standard: Student will demonstrate ability to establish a preassigned heading with no more than four initial directional adjustments or corrections, and thereafter maintain the heading within ±10°; to maintain normal cruising speed for a period of at least 5 minutes within ±10 m. p. h.; and to maintain a preassigned altitude within ±200 feet. For this purpose, the airplane will be trimmed for level flight and for the existing power and load conditions.

Curriculum: Course will include teaching the student to maintain attitude by visual reference to the horizon, the sky, or the ground; proper control pressures to attain the objective; following reference lines along the ground; and maintaining straight direction by the "gunsighting" method of lining up reference points ahead of the aircraft along the desired track, and flying over these points. Instruction should also be given in effective recoveries from slight turns, climbs, and dives which constitute the normal deviations from straight and level flight.

(vi) *Turns.*

Objective: To develop in the student the ability to change direction to preassigned headings by means of executing shallow, medium, or steep banked turns, and at the same time demonstrate proper control coordination to maintain altitude, airspeed, and constant rate of turn.

Standard: The student will demonstrate ability in level flight to effect a smooth transition from a stabilized turn to straight flight or to another stabilized turn of a different bank; to maintain a preassigned altitude within ±50 feet for stabilized 10°–30° banked turns and within ±100 feet for stabilized 30°–60° banked turns; and to maintain airspeed within ±5 m. p. h. for stabilized 10°–30° banked turns, and within ±10 m. p. h. for stabilized 30°–60° banked turns.

Curriculum: Course will include control functions; discussion and explanation of overbanking tendency; and other similarly related items.[4]

(vii) *Climbs and glides.*

Objective: To develop in the student the ability to gain desired altitude, or to descend, and at the same time maintain accurate directional control, proper aircraft attitude, and recommended airspeed.

Standard: The student will demonstrate ability, in both climbs and glides, to effect a smooth transition from a stabilized turning condition to another stabilized condition involving a different degree of bank or rate of climb/descent; to maintain a bank within ±10° during a 360° turn, and an airspeed within ±10 m. p. h. of that recommended respectively for the best rate of climb and for approach glides to landings.

Curriculum: Course will include directionally straight climbs and glides, climbing and gliding 10°–30° banked turns right and left, and 30°–60° banked gliding turns (spirals) right and left. Steep banked gliding turns (spirals) will be taught using a bank in excess of 45° and practiced through at least a 720° and a 1,080° change in direction. Student should be familiarized with various means of recognizing normal gliding angle, and the importance of using this gliding angle in descents.

(viii) *Stalls.*

Objective: To develop in a student the ability to recognize and to take prompt correct, remedial/preventive action for a stall or incipient stalls in any normal flight situation which, if allowed to progress or develop, will result in a critical and/or dangerous condition.

Standard: Student will demonstrate ability to detect and identify immediately an incipient or stalled condition in simulated takeoff departures, approaches to landings, and also in accelerated maneuvers at airspeeds not in excess of 15 m. p. h., above the normal unaccelerated stalling speed for the existing airplane configuration; to effect a positive recovery to full level flight control with wings levelled, both upon stall detection and also after a short delay (1–3 seconds) in which the stall has been allowed to mature; and to effect a recovery without exceeding the normal cruising speed or without a loss of altitude in excess of 100 feet.

For this purpose, simulated takeoff departures should be made with a fully loaded airplane in a climbing turn (10°–30° bank), normal climb power and airplane configuration, and the airspeed slowly decreased from the best rate of climb speed until the stall situation occurs as the angle of attack is progressively increased. Simulated approaches to landings should be demonstrated with the airplane in a gliding turn (10°–30° bank), normal low or fast idling power, airplane in landing configuration, and airspeed slowly reduced from 20–30 m. p. h. above stalling speed until the stall situation occurs, as the angle of attack is progressively increased. Accelerated maneuvers should be demonstrated by sufficiently rapid increase of the angle of attack to cause a stall (break) to occur and should be accomplished from a gliding turn with the airplane in landing configuration and started with the airspeed 10–15 m. p. h. above the normal (unaccelerated) stalling speed.[5] Also, an accelerated stall should be similarly demonstrated with the airplane in a level 45°–60° banked turn, in cruising configuration, and with sufficient power to maintain constant altitude for the degree of bank.

Curriculum: Course will include instruction in stalls and stall recovery from all normally anticipated flight attitudes, i. e., straight climbs, glides, climbing and gliding turns, and constant altitude turns.

In particular, a student should be taught to recognize and avoid takeoff and departure airspeeds below the recommended best rate of climb speed, any approach to landing using airspeeds under the recommended glide speed, and any accelerated maneuvering at any time at any speed.

During the course of stall instruction, several stalls should be carried through to actual spin entry, and the student should be taught recommended spin recovery. If the airplane is equipped with flaps and/or retractable landing gear, stalls should be taught in all of the normally anticipated configurations. Stress should be placed on recovery to straight and level flight, and not

---

[2] Any required night flying must be performed in accordance with the provisions of Parts 43 and 60.

[3] Student progress or stage flight-check time may be credited toward total required time provided checks are conducted by an agency-employed flight instructor or by a CAA Aviation Safety Agent.

[4] CAA Technical Manual No. 100 contains helpful information. See Appendix B on how to obtain. Appendix B not filed with Federal Register Division.

[5] Accelerated stall demonstrations will not be required in flight at airspeeds higher than those above because of the extremely high structural loads which are imposed on wings and tail surfaces, particularly in gusty air.

permitting another stall to result because of improper recovery. Stress should also be placed on tendencies and avoidance of dangers of stalling in sharp pullouts or turns at low altitudes where attention is usually diverted to ground objects.

(ix) *Flight at minimum controllable airspeed.*

Objective: To demonstrate the care necessary in control usage at extremely slow airspeeds, in order to avoid unintentional stalls, and to develop the applicant's ability to recognize critically slow airspeeds.

Standard: Student will demonstrate ability to maintain control of the airplane in sustained flight attitudes for not less than 2 minutes at an airspeed within 5 m. p. h. of the stalling speed without allowing any unintentional stalls to occur; to maintain level flight within ±50 feet, using power as required, at a preassigned altitude; maintenance of a 10°–30° banked climb with normal climb power and airplane configuration; maintenance of a 10°–30° banked glide with normal slow gliding power and airplane landing configuration.

Curriculum: Course will include flight instruction and practice at a minimum controllable airspeed under stabilized conditions for straight flight at constant altitudes, climbs, descents, constant altitude turns, and climbing and gliding turns. In addition, instruction will include demonstration of effect of power usage and stalled conditions, including reduction of power and resulting stall.

(x) *Pattern and track flying.*

Objective: To develop the student's ability to make good a desired track under varying conditions of such items as wind and airspeed, and develop ability to manipulate controls properly and subconsciously while attention is centered outside the aircraft.

Standard: Student will demonstrate ability to maintain, in compliance with the traffic pattern, a desired track around an airport or area within ±100 feet horizontally while maintaining an assigned altitude within ±100 feet; and while maintaining airspeed at least 10 m. p. h. above the stalling speed and not in excess of the normal cruising speed. The student will also be expected to observe and identify other airport traffic and surface features.

Curriculum: Course will include instruction in such maneuvers as constant radius turns around a point; S's around pylons; S-turns across a road; and flying rectangular patterns, in addition to the student's exposure to actual traffic pattern procedure.

(xi) *Emergencies and critical situations.*

Objective: To develop within the student, the judgment and piloting techniques which may be applied to assure safest probable operation under abnormal circumstances caused by conditions affecting aircraft performance, or conditions of adverse weather or terrain.

Standard: No specific quantitative standards can be set which would be applicable to all situations. However, the student is expected to demonstrate his ability to (*a*) analyze a situation, (*b*) plan a positive course of action, (*c*) execute the plan, and (*d*) make changes during execution only if time and circumstances make a change necessary and practicable.

Curriculum: Course will include instruction in the principles to follow under at least the following types of emergencies and critical situations: getting lost; running low on fuel; encountering turbulent air; getting caught in adverse flight visibility conditions; encountering unexpected radio aid shutdowns; experiencing motor trouble or motor failure; encountering unexpected reductions in performance due to high temperatures, altitudes, or downdraft effects in mountainous terrain; fouled instruments; or icing. Instructional emphasis should be upon analysis of all the factors in the situation, analysis of the possible courses of action to extricate oneself, prompt decision upon the most promising course of action, and sticking to the decision unless the pilot is certain that a change can be carried out which will promise a definitely safer action than the initial decision.

(xii) *Small, soft, and high altitude/temperature field operations.*

Objective: To develop in the student the necessary knowledge, judgment, abilities, and techniques to enable him to operate safely into and out of minimum space areas, or from soft terrain such as mud or snow covered surface; and to become familiar with, and be able to utilize, maximum performance characteristics of the aircraft.

Standard: For small field, firm surface operations, the student will demonstrate ability to utilize the most advantageous combination of wind, length of takeoff area, and obstacles to be cleared. This demonstration will utilize, if practicable, a "running turn" into the takeoff run, a start from the extreme end of the available takeoff area, obtaining a lift off as soon as possible, and establishing and maintaining the recommended best angle of climb airspeed and attitude as promptly as is possible after becoming airborne. During the takeoff run there will be no loss of control, and maximum utilization of available takeoff area will be made. During the climb-out, air speed will be maintained within 5 m. p. h. of that recommended as best angle of climb airspeed. Similarly, a student will demonstrate ability in making approaches and landings into a small field by utilizing power approach techniques in accordance with CAA Technical Manual No. 100.

For soft field operations (grass, snow, spongy sod, etc.), the student will demonstrate ability to take off at best angle of climb and effect a smooth transition to the best rate of climb. Approaches to and landings on soft fields will be demonstrated, in which a power approach and power-stall landing is made with the approach speed being held between normal and normal minus 5 m. p. h., and the rate of descent controlled by smooth power adjustments.

The above demonstrations should include utilization of recommended flap and power settings for optimum performance. The demonstrations may be made on regular airports by utilizing appropriate areas and by a limiting of the power available for utilization, which would result in the performance simulating that actually obtained from soft and/or high altitude fields, and under high temperature conditions.

Curriculum: Course will include thorough instruction in flight at minimum controllable and flyable airspeeds, stalls, and slips. Instruction in takeoff technique should include holding the aircraft on the brakes while the engine is revved up to takeoff r. p. m.; and starting the takeoff roll at an angle to the actual desired path of takeoff in order to enter the actual takeoff path with some forward speed, which will expedite becoming airborne.

(xiii) *Cross-country flying.*

Objective: To develop the student's ability to pilot aircraft safely and expeditiously from one location or point to another location or point by means of various piloting and navigational techniques.

Standard: Student will demonstrate familiarity with weather report facilities, aeronautical charts, the Airman's Guide, Flight Information Manual, and Aircraft Flight Manual; the ability to plan a cross-country flight and to make correct estimates of arrival time based on available data. Also, the student will be expected to start the cross-country flight that he has planned, establish the correct compass heading required to maintain his desired track; identify preselected check points en route; establish his ground speed at the time of passing the second check point, and estimate arrival time, within ±5 minutes, at the next check point or at destination. En route, a student will demonstrate his ability to make good the desired track within ±1 mile and maintain a preselected altitude within ±200 feet. Also, the student will demonstrate ability to properly file, use, and close a VFR flight plan.

Curriculum: Course will include instruction in preflight preparation, such as proper loading in accordance with the aircraft operating limitations, proper fueling, through check of all available weather information which may be pertinent to the flight proposed, check of facilities and services required and available, check of landing area conditions at destination, and potential alternate landing areas. Student should also be given operational experience into and out of surfaced and unsurfaced landing areas, landing strips, small fields, fields at high or simulated high elevations, and fields where heavy traffic conditions exist. (Heavy traffic conditions will be considered to be a condition where at least four aircraft are in the traffic pattern at the same time.)

(xiv) *Radio.*

Objective: To instruct in the proper use of two-way radio equipment in order to expedite the safe and orderly movement of air traffic on, and in the vicinity of, airports; and to enable the student to avail himself of at least the basic radio aids to navigation.

Standard: The student will demonstrate ability to contact a control tower and/or communications station and accurately interpret instructions or information received. He will also demonstrate ability to execute at least one recommended method of orientation, either with L/MF or VOR equipment and, after orienting himself, either fly to the range station from which signals emanate, or indicate his position correctly within 10 miles on an aeronautical chart.

Curriculum: Course will include instruction in airport traffic control procedures; voice procedure; the proper use of flight plans as discussed in the current Flight Information Manual; basic radio aids to navigation, including orientation procedures; and flying a range.

(b) *Commercial flying school curriculum.* (1) To be acceptable, the required curriculum of at least 160 hours of flying[*] will include the training phases listed below and a demonstration of student performance and knowledge to the standards indicated. For instructor-student preflight and postflight discussion, total time will be provided at the rate of not less than 15 minutes for each hour of flight.

(2) The flight maneuver tolerances, for determination of a trainee's ability, are those that are expected in smooth air and which can be attained on a repeated basis. Allowance is to be made for gusty air of other extenuating circumstances.

(3) Training items and maneuvers will include, but not be limited, to the following:

[*] Student progress or stage flight checks may be credited toward total required time provided they are conducted by an agency employed flight instructor or by a CAA Aviation Safety Agent.

(i) *Aircraft equipment familiarization.*

Objective: Same as primary flying school curriculum.

Standard: Same as primary flying school curriculum.

Curriculum: Same as primary flying school curriculum, but instruction will be given in greater detail than is required for primary flying schools. Explanation of controls should include their purpose, effect, and means by which effect is achieved. Thus, instruction should include fundamental aerodynamics pertinent to flight control effects; carburetor heat and mixture controls explained in mechanical-physical terms as to what actually happens as a result of operating these controls, etc.

(ii) *Preflight preparatory procedures.*

Objective: Same as primary flying school curriculum.

Standard: Same as primary flying school curriculum.

Curriculum: Same as primary flying school curriculum, but instruction will be given in greater detail than is required for primary flying schools. The why of each, and what the procedure accomplishes should be included.

(iii) *Taxiing and parking (sailing and docking).*

Objective: Same as primary flying school curriculum.

Standard: Same as required in the primary flying school curriculum.

Curriculum: Same as primary flying school curriculum. Seaplane training should include, where practicable, operation on water subject to tidal or current action; sailing; beaching; docking; and mooring.

(iv) *Takeoffs and landings.*

Objective: Same as primary flying school curriculum.

Standard: Same as primary flying school curriculum, except as follows: precision landings are to be beyond, and within 200 feet of, a spot or line.

Curriculum: Same as the primary flying school curriculum, but with additional, special emphasis on crosswind and gusty air operational techniques; small, soft, and high altitude field operations; and power-off and power-on precision landings, including correct slipping approaches. Seaplane training should include, where practicable, operation from water affected by tide and current.

(v) *Straight and level flight.*

Objective: Same as primary flying school curriculum.

Standard: The student will demonstrate ability to establish a preassigned heading with no more than three initial directional adjustments or corrections and thereafter maintain the heading within ±5°; maintain normal cruising speed ±5 m. p. h. for a period of at least 5 minutes at a preassigned altitude within ±150 feet. For this purpose the airplane will be trimmed for level flight and for existing power conditions. The airplane will be fully loaded.

Curriculum: Same as primary flying school curriculum.

(vi) *Turns.*

Objective: Same as primary flying school curriculum.

Standard: The student will demonstrate ability to effect a smooth transition from a stabilized turn to a preassigned heading, bank, or rate of ascent or descent; to maintain a preassigned altitude within ±50 feet for 10°–60° banked turns; to maintain airspeed within ±5 m. p. h. and maintain banked attitudes within ±5°. In addition, the student will demonstrate ability to recover from a 720° turn on the preassigned heading, within ±15° and without noticeable slips or skids.

Curriculum: Same as primary flying school curriculum but with additional, special emphasis upon precise and smooth turning flight transitions, including a knowledge of the aerodynamic forces involved and available for turning purposes under full load and varying power conditions.

(vii) *Climbs and glides.*

Objective: Same as primary flying school curriculum.

Standard: Same as primary flying school curriculum, except that the student will demonstrate ability to maintain a bank within ±5° during a 1080° turn, and airspeed within ±5 m. p. h. of that recommended respectively for the best rate of climb and for approach glides to landings.

Curriculum: Same as primary flying school curriculum but with additional, special emphasis on power and speed control in glides and climbs to maintain preassigned rates of descent and ascent.

(viii) *Stalls.*

Objective: Same as primary flying school curriculum.

Standard: Same as primary flying school curriculum.

Curriculum: Same as primary flying school curriculum.

(ix) *Flight at minimum controllable airspeed.*

Objective: Same as primary flying school curriculum.

Standard: Student will demonstrate ability to maintain control of the airplane in sustained flight attitudes for not less than 3 minutes at an airspeed within 5 m. p. h. of the stalling speed without allowing any unintentional stalls to occur; maintain level flight, in 10°–30° banked turns, using power as required, at a preassigned altitude within ±25 feet; maintain a 10°–30° banked climb, with normal climb power and in cruising airplane configuration; and maintain a 10°–30° banked glide, with normal low gliding power and airplane in landing configuration.

Curriculum: Same as primary flying school curriculum.

(x) *Pattern and track flying.*

Objective: Same as primary flying school curriculum.

Standard: Same as primary flying school curriculum.

Curriculum: Same as primary flying school curriculum.

(xi) *Emergencies and critical situations.*

Objective: Same as primary flying school curriculum.

Standard: Same as primary flying school curriculum. In addition, the student should demonstrate his ability to determine and execute a course of action that, if carried through, would most likely result in a safe landing with minimum, if any, damage to the airplane and its occupants.

Curriculum: Same as primary flying school curriculum, with special emphasis upon those critical situations most likely to occur under marginal and adverse atmospheric weather conditions.

(xii) *Small, soft, and high altitude/temperature field operations.*

Objective: Same as primary flying school curriculum.

Standard: Same as primary flying school curriculum. In addition, the student is expected to conduct such operations smoothly and with evidence of good judgment.

Curriculum: Same as primary flying school curriculum.

(xiii) *Cross-country flying and radio navigation.*

Objective: To develop the student's ability to safely and expeditiously pilot aircraft from one location or point to another location or point by means of various piloting and navigational techniques; to properly and effectively utilize radio aids to navigation; and to make proper use of flight plans.

Standard: Same as primary flying school curriculum. In addition, a student will demonstrate at least two standard radio range orientation procedures, one of which may utilize VHF/VOR equipment; ability to identify radio stations; follow a radio range leg and/or radial; locate the cone of silence and/or stations; and ability to proceed to the associated landing area from the station, in accordance with the published Final Approach Procedure, as set forth in the Flight Information Manual or the Radio Facility Charts.

Curriculum: Same as primary flying school curriculum. In addition, dual and solo flights to destinations at least 350 miles from the base airport should be included as well as flights requiring the setting up and accurate execution of a flight plan; the use of one or more radio aids to navigation; the proper procedures for flight in Air Defense Identification Zones; and dead reckoning procedures.

(xiv) *Basic instrument flying.*

Objective: To develop in the student the ability to maintain correct airplane basic flight attitudes, while encountering unexpected adverse atmospheric conditions, solely by reference to instruments; and to meet the international (ICAO) instrument flight experience standards for an unrestricted commercial pilot certificate.

Standard: The student will demonstrate ability to execute the following maneuvers under simulated instrument conditions: maintain an assigned heading within ±5° in cruising level flight and at cruising speeds and configurations recommended for rough air operations, for a period of at least 5 minutes, while maintaining an assigned altitude within ±100 feet; execute controlled climbs and descents at the recommended best rate of climb and glide speeds, within ±10 m. p. h., maintaining a heading within ±10° and climbing or descending to a preassigned altitude, including a smooth transition to level flight cruising without passing the altitude in excess of 100 feet; execute timed turns (both by clock and by count) in level flight to assigned headings within ±20° for a 360° turn and while maintaining altitude within ±100 feet; execute a 720° turn, in level flight, with a 45° bank, ±10°; and execute recovery from unusual attitudes to straight and level flight on assigned headings.

Curriculum: Instruction in the principles and procedures for maintaining control of airplane flight attitudes solely by reference to instruments should be given. This will include instruction in the proper utilization of such instruments as the bank and turn indicator, the gyroscopically operated direction indicator, gyroscopically operated bank and pitch indicator, sensitive altimeter, and sweep second clock. In addition, the course should include the procedures to follow when unexpectedly encountering turbulent air conditions, including the recommended airspeed, airplane configuration, and power settings.

(xv) *Night flying.*

Objective: To develop in the student the necessary skills, techniques, and judgment which will enable him to safely conduct flight operations under conditions of darkness or under conditions of restricted visibility; and to meet the international (ICAO)

standards for an unrestricted commercial pilot certificate.

Standard: Same standard of performance as required in the preceding paragraphs relating to taxiing, takeoff and landings, straight and level flight, turns, climbs and glides, and emergencies.

Curriculum: Course will include at least 10 takeoffs and landings to complete stops at night with student as pilot-in-command and sole manipulator of the controls.

(c) *Instrument flying school curriculum.* To be acceptable, the required curriculum of at least 30 hours of instrument flying instruction (20 in flight) and 30 hours of ground instruction will include the training phases listed below, and a demonstration of student performance to the standards indicated. The flight maneuver tolerances, for determination of a student's ability, are those that are expected in smooth air and which can be attained on a repeated basis. Allowance is to be made for gusty air or other extenuating circumstances.

Objective: To develop in the student the ability to fly an airplane solely by reference to instruments and to safely and expeditiously navigate an airplane from point to point solely by utilization of radio aids to navigation.

Standards: Student will demonstrate ability to execute the following maneuvers solely by reference to instruments and utilization of radio aids:

(1) *Straight and level flight.* The student will maintain an assigned heading within ±5° for a period of at least 10 minutes while maintaining altitude within ±50 feet and cruising airspeed within ±10 m. p. h. In addition, the student will be expected to demonstrate similar performance when operating at the recommended speed for turbulent air, with the airplane in the corresponding recommended configuration.

(2) *Turns.* The student will execute turns, at cruising airspeed and at the recommended airspeed for rough air, in level flight, to preassigned headings, while maintaining altitude within ±50 feet, a preassigned bank (up to 45°) within ±5°, and to level out on the predesignated heading within ±10° (for a 360° turn) without further correction. In addition, the student is expected to demonstrate similar performance for timed turns to preassigned headings, both at cruising and turbulent air [illegible]

(3) *Climbs, descents, and spirals.* The student will execute climbs and descents straight ahead, to the right, and to the left at uniform rates of turn while maintaining the recommended climb and descent airspeed, within ±5 m. p. h., producing a change of heading within ±5° of 90° for each 30 seconds of turn, and reaching an assigned altitude within ±10 seconds of an [illegible]

(4) *Stalls.* (i) The student will execute partial and full stalls (full stalls not required in multiengine airplanes).

(ii) A partial stall is considered to exist when the instruments reflect a noticeable decrease in rate of climb or a noticeable increase in the rate of descent, as the airplane's attitude approaches a maximum angle of attack. A full stall is considered to occur when the airplane pitches after reaching a maximum angle of attack.

(iii) Recovery from partial stalls will be initiated when the instruments indicate the partial stall condition has been reached. Recovery from full stalls is to be effected after the stall has occurred and the nose has begun to pitch down.

(iv) The student will be expected to recognize and identify both types of stalls (stall warning device made inoperative—if airplane is so equipped), to take corrective action without exceeding cruising airspeed, and to recover on the original heading within ±10°.

(5) *Recovery from unusual attitudes.* (i) The student will execute recovery to straight and level flight from abnormal attitudes of flight, such as might be encountered in gusty instrument flying weather, without exceeding the airplane's approved operating limitations or load factors.

(ii) The student will also be expected, in the case of multiengine airplanes, to demonstrate control under engine-out procedures. He will also be expected to comply fully with the recommended procedures and checklist under such circumstances. The student will be expected to demonstrate ability to maintain the recommended engine-out airspeed within ±5 m. p. h. and a heading within ±10°.

(6) *Estimate arrival times.* The student will obtain weather data, aircraft performance data, flight charts, approach procedures, etc., from which a flight plan shall be prepared, and correctly compute estimated arrival times over checkpoints, at destination, and at alternate airports.

(7) *Tuning radio equipment.* The student will make correct selection of frequencies, use of volume control, use of voice and range filters, use of dual radio equipment—if installed.

(8) *Orientation.* The student will follow a planned course of action for orientation upon a range leg or radial at a preselected altitude, which is maintained within ±100 feet, and make the correct identification of position.

(9) *Following a range leg or radial.* The student will align with the leg or radial, using heading changes of progressively lesser magnitude after interception at an angle of approximately 45°.

(10) *Locating range stations.* The student will identify correctly the arrival over the station.

(11) *Instrument approach procedure.* The student will correctly execute the published approach procedures for the station and airport involved. If the airport being used has standard minimums above 500 feet and 1 mile, due to local conditions, a student is expected to demonstrate his ability to conduct a correct approach to these standard minimums.

(12) *Missed approach procedures.* The student will execute correctly the published missed approach procedures for the airport being used.

(13) *Air traffic control procedures.* The student will obtain and correctly adhere to ATC clearances and/or instructions, including holding and emergency procedures.

Curriculum: Instruction will be given in the items and maneuvers listed under "Standards" above and in the subjects specified in § 20.42 (a). In addition, the course of instruction should assure student familiarity and conversancy with radio facility charts, radio range charts, and terminal charts.[7]

(d) *Flight instructor school curriculum.* (1) To be acceptable, the required curriculum of at least 25 hours of instructional flying and 40 hours of ground instruction will include the training phases listed below, and a demonstration of student performance to the standards indicated. The flying time curriculum will include at least 25 hours of flying time, of which at least 20 hours shall be set aside exclusively for instruction and practice in the science and techniques of effective flight instruction methods.

(2) The flight instructor school curriculum will have the following objective, standard, and course requirements:

Objective: To impart to the instructor trainee a thorough understanding of the various items and maneuvers—both in theory and in actual performance, and to develop in the instructor-to-be the knowledge, ability, and techniques which will enable him, in turn, to impart and to develop in others the ability, skill, and techniques which are essential to competent piloting.

Standard: Each flight instructor trainee will be expected to demonstrate the knowledge and skill items to the same standards which apply to pilot student graduates of approved commercial flying schools. In addition, the flight instructor trainee will be expected to demonstrate a comparable degree of skill in the execution of the additional training maneuvers specified below under curriculum coverage.[8]

Curriculum: Instruction within the flight training portion of the curriculum will include at least the following items and maneuvers: All items and maneuvers specified in the Commercial Flying School Curriculum; precision spins of 1½ turns, 2 turns, and 3 turns, and other training maneuvers, such as: Lazy 8's; chaudelles; constant radius turns about a point; 8's around pylons; 8-turns across a road; slow flight across airport without wheels touching, etc.

The ground instruction portion of the curriculum will comprise: Effective instruction principles and methods, including (i) instructor advance preparation, (ii) student preparation, (iii) instructor demonstration, (iv) student participation, and (v) instructor follow-through checks; safe flying habits and principles, including those relating to extricating oneself from critical situations such as (i) getting lost, (ii) running low on fuel, (iii) encountering turbulant air, (iv) getting caught above clouds or in adverse atmospheric visibility conditions, (v) encountering unexpected radio aid shutdown, (vi) experiencing motor trouble, (vii) instrument failures, and (viii) operations under conditions of high temperature/altitude and/or in mountainous terrain; application of learning process characteristics to flight instruction; analysis and performance of maneuvers; methods by which explanations and directions to students can be made clear, simple, and correct; and recognition and correction of student errors.

§ 50.13–2 *Flying school curriculum; helicopters (CAA policy which applies to § 50.13 (b) (2)).* The applicant will submit a proposed curriculum which shall meet at least the minimum flight experience requirements set forth in § 50.13 (b) (2).

§ 50.13–3 *Flying school curriculum; gliders (CAA policy which applies to § 50.13 (b) (3)).* The applicant will submit a proposed curriculum which will meet at least the minimum flight experience requirements set forth in § 50.13 (b) (3).

§ 50.20–1 *Application (CAA policies which apply to § 50.20).* An application for an airman agency certificate and rating may be obtained from the local Aviation Safety District Office, which will also furnish full information concerning the execution of the application, and make arrangements for the precertificating inspection of facilities, equipment, and/or other items pertinent to the certificating or rating of an airman agency.

[7] Recommended sources of information include the Flight Information Manual, CAA Technical Manual No. 102—Pilots' Radio Handbook, and CAA Bulletin No. 24—Practical Air Navigation. See Appendix B on how to obtain. Appendix B not filed with Federal Register Division.

[8] CAA Technical Manual No. 100 may be utilized as a basis for the correct execution of these additional maneuvers. See Appendix B on how to obtain. Appendix B not filed with Federal Register Division.

§ 50.22–1 *Duration of certificate (CAA interpretations which apply to § 50.22).* An airman agency certificate will expire 24 months from the last day of the month in which issued.

§ 50.23–1 *Renewal of certificate (CAA policies which apply to § 50.23).* (a) Application for renewal of the airman agency certificate and rating will be made to the local Aviation Safety District Office on a form furnished by that office. It is the responsibility of the agency to request renewal of its certificate at least 30 days in advance of the expiration date to allow the CAA Aviation Safety District Office sufficient time to arrange for the required renewal inspection.[9]

(b) An agency found eligible for renewal of its certificate, anytime within 90 days in advance of the certificate's expiration date, will have its certificate renewed to expire 24 months from the existing expiration date.

§ 50.24–1 *Change in agency ownership (CAA policies which apply to § 50.24).* An airman agency certificate expires automatically with a change in ownership of the agency. When the new owner desires certification, he should submit to the local Aviation Safety District Office an application for an airman agency certificate and rating which will be processed as an original application in accordance with § 50.20–1.

§ 50.24–2 *Change of agency name (CAA policies which apply to § 50.24).* A change in the name of an airman agency without a change of ownership will not invalidate the airman agency certificate. However, such a change of name should be reported within 15 days by the owner to the local Aviation Safety District Office, and a new airman agency certificate will be issued bearing the old certificate number, the new name, and the ratings formerly held by the agency.

§ 50.25–1 *Voluntary surrender of certificate (CAA policies which apply to § 50.25).* The holder of an airman agency certificate may voluntarily surrender such certificate by submitting to the CAA his current or latest issuance of the air agency certificate, and a letter stating that the certificate is being voluntarily surrendered.

§ 50.25–2 *Involuntary surrender of certificate (CAA policies which apply to § 50.25).* In cases of suspension, revocation, expiration, or cancellation of an airman agency certificate, the holder of such certificate will surrender it to an authorized representative of the Administrator upon written request.

[9] An agency which has allowed its certificate to expire will be required to make an application, and to meet the same requirements as for original issuance.

§ 50.26–1 *Student flight checks (CAA policies which apply to § 50.26).* The holder of an airman agency certificate will, upon request of the local Aviation Safety District Office, submit students for flight proficiency checks which are intended to determine the quality of instruction and compliance with the curriculum. Not less than 10 percent of all approved school students will be flight checked by CAA agents after completion of at least 50 percent of the flight curriculum. The flight test for the pilot certificate appropriate to the curriculum from which the student has graduated may be substituted for the above flight check provided such flight test is conducted by an Aviation Safety Agent. In order to facilitate scheduling of these spot flight checks, the agency will notify the local Aviation Safety District Office of the names of all students whom they expect to graduate. This notice should be submitted in writing at least 15 days in advance of the date on which the graduation certificate is to be issued.

§ 50.26–2 *Student ground instruction checks (CAA policies which apply to § 50.26).* A CAA Aviation Safety Agent may, at any reasonable time, question or examine an airman agency student on appropriate subjects or items which are a part of the curriculum in a course in which the student is enrolled and which have, according to the school course schedule and records, been covered. Such check is for the purpose of determining compliance with the curriculum.

§ 50.27–1 *Composition of student examinations (CAA interpretations which apply to § 50.27).* The holder of an airman agency certificate must devise and administer written or practical examinations to each student upon completion of each subject covered in the curriculum. These examinations will be of such coverage and degree of difficulty that a student who has successfully accomplished the school examination may reasonably assume himself to be qualified to achieve success, on his first attempt, in passing required CAA examinations pertinent to the subject, in the rating sought.

§ 50.28–1 *Attendance and accomplishment records (CAA interpretations which apply to § 50.28).* The school must maintain a current record of each student's participation and accomplishments during course enrollment. Upon course completion or graduation, the entire record or file will be certified by an authorized representative of the agency. This student record, or file folder, will be retained for a period of at least one year, and made available for inspection by authorized representatives of the Administrator upon reasonable demand.

§ 50.29–1 *Graduation certificate form and conditions for issuance (CAA policies which apply to § 50.29).* A graduation certificate (see appendix) will be made available upon request from the local Aviation Safety District Office. An approved school will not issue a graduation certificate to a student unless he has successfully completed at least 90 percent of the curriculum required for graduation, as a bona fide enrolled student in an approved school.[10]

§ 50.30–1 *Frequency and extent of inspections (CAA policies which apply to § 50.30).* At varying time intervals CAA representatives will spot check, reinspect, or examine each operation including students, instructors, records, facilities, and equipment. Arrangements for these inspections will be made on a mutually agreeable basis, and every effort will be made to minimize interruptions to normal training schedules.[11]

§ 50.31–1 *Written notice of curriculum changes (CAA policies which apply to § 50.31).* Proposed changes in any approved curriculum will be submitted in writing to the local Aviation Safety District Office. This notification will state specifically which portions of the previously approved curriculum are to be changed, and will specifically set forth the proposed changes.

§ 50.32–1 *Maintenance of certificating qualifications (CAA policies which apply to § 50.32).* Any qualitative or quantitative deviation in the agency personnel, facilities, or equipment, which results in the agency furnishing less than the requirements for original certification, may result in the suspension of the airman agency certificate.

§ 50.34–1 *Notice of change of location (CAA policies which apply to § 50.34).* The intention of an approved airman agency to change location will be reported in advance to the local Aviation Safety District Office, from which forms may be obtained for this purpose. Upon receipt of such notification of intent, the local Aviation Safety District Office will ascertain, within 30 days after transfer, that original certification requirements are met at the new location, prior to approval. If the inspection shows the new facilities to be satisfactory, a new airman agency certificate will be issued showing the previously held number, the new location, ratings issued, and the date of reinspection. If the results of this inspection are not satisfactory, the agency will be notified in writing of the deficiencies found by the Aviation Safety District Office. Immediate action will be taken by the agency to eliminate the deficiencies, or steps will be taken to revoke or suspend the certificates for failure to meet minimum requirements of this part.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 602, 607, 52 Stat. 1007, 1008, 1011, as amended; 49 U. S. C. 551, 552, 557)

[10] Credit for student attendance and accomplishment may be transferred from one approved school to another approved school. In such a case, the receiving school will determine by student flight check and/or written examination as appropriate, the amount of credit to be transferred, which may not in any case be greater than the amount of attendance and accomplishment credit compiled by the student in the approved school(s) from which he transfers.

[11] As agencies demonstrate ability to graduate competent students on a continuing basis, the frequency and extent of the inspections will be minimized.

This supplement shall become effective July 1, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

TITLE 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

[Docket No. R-126; Order 171]

Subchapter F—Accounts, Natural Gas Act

PART 201—UNIFORM SYSTEM OF ACCOUNTS FOR NATURAL GAS COMPANIES

Subchapter G—Approved Forms, Natural Gas Act

PART 260—STATEMENTS AND REPORTS (SCHEDULES)

MISCELLANEOUS AMENDMENTS

In the matter of amendment to Uniform System of Accounts for Natural Gas Companies and of Annual Report Form No. 2, to provide for Accounting and Reporting of Provision for Federal Income Taxes Resulting from Accelerated Amortization, Docket No. R-126; Order No. 171.

The Commission under date of June 16, 1953, gave notice of its intention to amend the Uniform Systems of Accounts Prescribed for Public Utilities and Licensees and Natural Gas Companies and of Annual Reports, Forms Nos. 1 and 2 to Provide for Accounting and Reporting of Provisions for Federal Income Taxes Resulting from Accelerated Amortization.

General public notice of the proposed rule making was given by publication of notice in the FEDERAL REGISTER on June 27, 1953 (18 F. R. 3698), and oral argument was heard on the proposed amendments on October 16, 1953.

The Commission finds:

(1) It is necessary and appropriate for the purposes of the administration of the Natural Gas Act that the Uniform System of Accounts for Natural Gas Companies and Annual Report, Form No. 2, be amended as hereinafter provided so as to provide for accounting and reporting of Federal income taxes resulting from accelerated amortization.

(2) Good cause exists that these amendments should become effective January 1, 1954.

(3) Good cause exists to reserve for future disposition the amending of Uniform System of Accounts Prescribed for Public Utilities and Licensees and Annual Report, Form No. 1, to provide for accounting and reporting of provision for Federal income taxes resulting from accelerated amortization.

The Commission, acting pursuant to the authority granted by the Natural Gas Act, particularly sections 8, 10, and 16 thereof (52 Stat. 821, 825, 826, and 830; 15 U. S. C. 717g, 717i, and 717o), orders:

(A) Part 201—Uniform System of Accounts for Natural Gas Companies, Subchapter F—Accounts, Natural Gas Act, Chapter I, Title 18, Code of Federal regulations, be and the same is hereby amended to prescribe therein the changes set forth below which state the details of the amendments hereby adopted.

(B) Part 260—Statements and Reports, Subchapter G, Natural Gas Act, Chapter I, Title 18, Code of Federal Regulations, be and the same is hereby amended to prescribe therein the changes set forth below which state the details of the amendments hereby adopted.

(C) The amending of the Uniform System of Accounts Prescribed for Public Utilities and Licensees and Annual Report, Form No. 1, to provide for accounting and reporting of Federal income taxes resulting from accelerated amortization be and the same is hereby reserved for future disposition.

(D) The amendments to Parts 201 and 260 of Chapter I, Title 18, Code of Federal Regulations herein prescribed, shall become effective on January 1, 1954.

Adopted: April 14, 1954.

Issued: April 21, 1954.

By the Commission.[1]

[SEAL] LEON M. FUQUAY,
Secretary.

1. Amendment of Uniform System of Accounts prescribed for Natural Gas Companies subject to the provisions of the Natural Gas Act.

Only the additions to or changes in the text of the Uniform System of Accounts for Natural Gas Companies are set forth herein. The first change, as may be noted, is adding two new accounts, namely, Account 507–A—Provision for Deferred Income Taxes—and Account 507–B—Credits to Operations Arising from Federal Income Taxes Deferred in Prior Years—Cr., after Account 507, Taxes, at page 88 of the present pamphlet publication of the System of Accounts. The second change is adding a new account, Account 259—Reserve for Deferred Federal Income Taxes, after Account 258, Other Reserves, at page 37 of the present pamphlet publication of the System of Accounts. In the Code of Federal Regulations the new Accounts 507–A, 507–B and 259 will become §§ 201.507–A, 201.507–B, and 201.259, respectively, of Part 201 of Title 18 of the Code.

INCOME ACCOUNTS

UTILITY INCOME

§ 201.507–A *Provisions for deferred Federal income taxes.* This account shall be debited monthly and Account 259, Reserve for Deferred Federal Income Taxes, shall be credited with an amount equal to any reduction of Federal income taxes payable by the utility resulting from using accelerated amortization of the cost of any of the utility's facilities rather than depreciation expense normally used in computing taxable net income.

§ 201.507–B *Credits to operations arising from Federal income taxes deferred in prior years—Cr.* (a) Upon expiration of the amortization period during which provisions have been made for deferred Federal income taxes (see § 201.507–A), this account shall include credit amounts equal to the additional Federal income taxes payable by the utility due to exclusion from the computation of depreciation for Federal income tax purposes of costs previously amortized.

(b) This account shall be credited monthly and Account 259, Reserve for Deferred Federal Income Taxes, shall be debited, after the expiration of the amortization period for any facility, until the applicable amount in Account 259 is exhausted or the facility is retired from service; *Provided, however,* That such monthly amount shall be sufficient to amortize the balance in Account 259 applicable to any facility over its estimated remaining service life.

BALANCE SHEET ACCOUNTS

RESERVES

§ 201.259 *Reserve for deferred Federal income taxes.* (a) This account shall be concurrently credited with amounts charged to Account 507–A, Provision for Deferred Federal Income Taxes, and concurrently debited with amounts credited to Account 507–B, Credits to Operations Arising from Federal Income Taxes Deferred in Prior Years—Cr.

(b) This account shall be credited monthly and Account 507–A, Provision for Deferred Federal Income Taxes, shall be debited with an amount equal to any reduction of Federal income taxes payable by the utility resulting from using accelerated amortization of the cost of any of the utility's facilities rather than depreciation expense normally used in computing taxable net income.

(c) This account shall be debited monthly and Account 507–B, Credits to Operations Arising from Federal Income Taxes Deferred in Prior Years—Cr., shall be credited upon the expiration of the amortization period for any facility with amounts equal to the additional Federal income taxes payable by the utility due to exclusion from the computation of depreciation for Federal income tax purposes, of the costs previously amortized until the applicable amount in this account is exhausted or the facility is retired from service: *Provided, however,* That such monthly amounts shall be sufficient to amortize the balance in this account applicable to any facility over its estimated remaining service life.

(d) The utility is restricted in its use of this account to the purposes set forth in this section. It shall not transfer the reserve or any portion thereof to surplus, nor make any use thereof, except as provided in the text of this account, without the prior approval of the Commission.

(e) Any applicable balance remaining in this account after the retirement of all property constructed or acquired under a particular certificate authorizing accelerated amortization shall be disposed of as authorized or directed by the Commission.

2. Amendment to rules prescribing the form and filing of annual report, FPC Form No. 2, for Natural Gas Companies (Classes A and B).

a. In connection with the amendments to the Uniform System of Accounts set forth below, Form No. 2 is amended as follows:

STATEMENT OF INCOME FOR THE YEAR

[redacted] INCLUDED

Line No. and Account
12—507–A Provision for Deferred Federal Income Taxes
13—507–B Credits to Operations Arising from Federal Income Taxes Deferred in Prior Years—Cr.

Change present line Nos. 42 to 45, inclusive, to 43 to 46, inclusive.

Statement A, page 13:

COMPARATIVE BALANCE SHEET

Liabilities and Other Credits Reserves

Line No. and Account
42—259 Reserve for Deferred Federal Income [redacted]

Change present line Nos. 42 to 45, inclusive, to 43 to 46, inclusive.

(Sec. 16, 52 Stat. 830; 15 U. S. C. 717o. Interpret or apply secs. 8, 10, 52 Stat. 825, 826; 15 U. S. C. 717g, 717i)

[F. R. Doc. 54-3113; Filed, Apr. 26, 1954; 8:46 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter XX—Office of Contract Settlement, General Services Administration

[Regulation 11, Rev., Amdt. 1]

PART 2011—PRESERVATION OF RECORDS

EXEMPTIONS

Part 2011, Preservation of Records, is hereby amended by adding new § 2011.4a as follows:

§ 2011.4a *Exemptions.* The provisions of this part and section 443 of the act of June 25, 1948 (62 Stat. 705; 18 U. S. C. 443) do not apply to (a) war contractor records title to which is transferred to a Government agency, or (b) war contractor records that are included by Federal agencies on records disposition schedules approved by the Congress in the manner provided in the Records Disposal Act (57 Stat. 380; 44 U. S. C. 366 et seq.).

(Sec. 1, 62 Stat. 705, as amended; 18 U. S. C. 443)

Dated: April 23, 1954.

EDMUND F. MANSURE,
Administrator.

[F. R. Doc. 54-3168; Filed, Apr. 26, 1954; 9:57 a. m.]

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 4—OPERATION AND NAVIGATION OF PANAMA CANAL AND ADJACENT WATERS

LOADING CERTIFICATE OR DECLARATION; PACKING AND STOWING OF HAZARDOUS CARGOES

Pursuant to the authority vested in the Governor by § 4.11 of Title 35 of the Code of Federal Regulations, §§ 4.107 and 4.109 are hereby amended to read as follows:

§ 4.107 *Loading certificate or declaration.* Upon the arrival of a vessel carrying explosive cargo at a port of the Canal Zone, the Master shall deliver to the Inspecting Officer, a loading certificate issued by a Surveyor or Inspector of a recognized authority such as the National Cargo Bureau, Inc., British Board of Trade, Port Authority Official, or Navigation Inspector, stating where and how the explosives are stowed and the manner of packing. When no loading certificate is available, the Master, upon arrival, must submit to the Inspecting Officer a declaration as follows:

DECLARATION OF EXPLOSIVE CARGO CARRIED

I, the undersigned _____, Master of the _____, carrying explosives as classified by the Interstate Commerce Commission of the United States, or by any other recognized government agency, do hereby declare and certify on behalf of the owners of the vessel, as follows:

The explosives were loaded at [1] _____; packed and stowed in accordance with [2] _____

The explosives are in [3] _____

Explosives are separated from inflammables by [4] _____

The packing and stowing has not been disturbed since leaving the port of [1] _____

_____
(Master's signature)

_____
(Date)

[1] Name of port of loading.

[2] Regulations of United States Coast Guard, British Board of Trade, Port Authority, as the case may be, as indicated on the containers.

[3] State number of hold, special magazine, etc. (which must be within reach of ship's fire hose) including amount of each kind of explosive.

[4] Boiler room, engine room, etc., within reach of ship's fire hose. If no inflammables are carried, so state.

§ 4.109 *Packing and stowing of hazardous cargoes.* Packing and stowing of explosives and other hazardous cargoes, except petroleum products in bulk, must be in accordance with the rules in force at the port of loading. When no such rules exist at the port of loading, the regulations of the United States Coast Guard, or of the British Board of Trade shall apply.

(Sec. 5, 37 Stat. 562, as amended; 2 C. Z. Code 9, 48 U. S. C. 1318; E. O. 9746, 11 F. R. 7329, 3 CFR, 1946 Supp.)

Issued at Balboa Heights, Canal Zone, April 19, 1954.

[SEAL] J. S. SEYBOLD,
Governor of the Canal Zone.

[F. R. Doc. 54-3130; Filed, Apr. 26, 1954; 8:52 a. m.]

Appendix—Canal Zone Orders

[Canal Zone Order 33]

FORT CLAYTON, COROZAL, AND CURUNDU ARMY RESERVATIONS, AND ALBROOK AIR FORCE BASE, CANAL ZONE

SETTING APART OF RESERVATIONS; BOUNDARIES; CONDITIONS AND LIMITATIONS

By virtue of the authority vested in the President of the United States by section 5 of title 2 of the Canal Zone Code, as amended by section 1 of the act of September 26, 1950, 64 Stat. 1038, and delegated to me by Executive Order No. 9746 of July 1, 1946, as amended by Executive Order No. 10101 of January 31, 1950, Canal Zone Order No. 29 of September 26, 1952, 17 F. R. 9036, establishing Fort Clayton, Corozal and Curundu Army Reservations, and Albrook Air Force Base, Canal Zone, is amended as follows:

1. Those provisions of section 1 describing areas of land designated therein as Parcels No. 1–A and 1–B (East of Gaillard Highway) of Corozal Army Reservation are hereby deleted and a new description of area is substituted therefor reading as follows:

PARCEL NO. 1–A, REVISED

(EAST OF GAILLARD HIGHWAY)

Beginning at monument "J", which is a 3-inch iron pipe set in concrete, located on the outside of a cyclone fence, on the northeasterly side of Gaillard Highway and northeasterly from the spur railroad track leading to the Army Quartermaster Warehouse in the Post of Corozal, the geodetic position of which, referred to the Panama-Colon datum of the Canal Zone triangulation system, is in latitude 8°58' N. plus 4872.5 feet and longitude 79°34' W. plus 1925.2 feet from Greenwich.

Thence from said initial point by metes and bounds:

S. 60° 03' 00" E., 978.0 feet, along a cyclone fence, on the southerly side of Corozal Townsite, through monument "Z", which is a 2-inch iron pipe, to monument "Y", which is a 2-inch iron pipe, the distances being 810.7 feet and 167.3 feet, successively, from beginning of the course;

N. 28° 38' 30" E., 41.4 feet, to monument "Y–1", which is a monel plug, located in the concrete pavement at the northwesterly edge of a gasoline dispensing area;

N. 46° 51' 50" E., 235.2 feet, along the southeasterly side of a 16-inch water main to monument "Y–2", which is a 2-inch iron pipe;

N. 70° 09' 00" E., 437.8 feet, to monument No. 10, which is a 1½-inch iron pipe, located on the westerly boundary of Albrook Air Force Base (Parcel No. 2) inside the cyclone fence surrounding the water tanks northerly from Diablo Crossing;

S. 09° 44' 20" E., 1683.2 feet, along the above mentioned Air Force Base boundary, through monuments Nos. 9, 8, 7 and 6, which are 1½-inch iron pipes, to monument No. 5, which is a 1½-inch iron pipe, the distances being 208.5 feet, 297.7 feet, 410.2 feet, 442.9 feet and 523.9 feet, successively, from beginning of the course;

S. 44° 36' 00" W., 102.3 feet, along the above mentioned Air Force Base boundary to monument No. 4, which is a 1½-inch iron pipe;

N. 64° 22' 50" W., 483.6 feet, along the above mentioned Air Force Base boundary, through monument No. 3, which is a 1½-inch iron pipe, to monument No. 2, which is a 1½-inch iron pipe, located on the outside of a cyclone fence, the distances being 306.4 feet and 177.2 feet, successively, from beginning of the course;

S. 57° 53' 30" W., 39.1 feet, along the above mentioned Air Force Base boundary, to monument "R", which is a monel plug set in the northeasterly edge of Gaillard Highway pavement widening strip, opposite Diablo Crossing;

N. 33° 11' 40" W., 583.9 feet, along the northeasterly side of Gaillard Highway, to monument "Q", which is a 2-inch iron pipe, located 18 inches from the corner of a cyclone fence;

N. 35° 02' 30" W., 351.9 feet, crossing the entrance roads to Gate No. 8 of the Post of Corozal, to monument "P", which is a 3-inch iron pipe set in concrete, located 18 inches from the corner of a cyclone fence;

Northwesterly, along the outside of the above mentioned cyclone fence, on the northeasterly side of Gaillard Highway, along the following courses;

N. 34° 50' 10" W., 382.5 feet, to monument "O", which is a 2½-inch iron pipe set in concrete;

N. 34° 03' 10" W., 312.7 feet, to monument "N", which is a 3-inch iron pipe set in concrete;

N. 33° 02' 50" W., 292.9 feet, to monument "M", which is a 3-inch iron pipe set in concrete;

N. 31° 51' 30" W., 243.7 feet, to monument "L", which is a 3-inch iron pipe set in concrete;

N. 29° 49' 00" W., 77.2 feet, to monument "K", which is a 3-inch iron pipe set in concrete;

N. 45° 17' 00" E., 19.0 feet, to monument "J", the point of beginning.

2. The last paragraph of those provisions of section 1 designated as "Parcel No. 2 (West of Gaillard Highway)", Corozal Army Reservation, is amended to read as follows:

The total area of Corozal Army Reservation is 302.6 acres, more or less (Parcel No. 1, East of Gaillard Highway is 43.6 acres, more or less; Parcel No. 1-A, Revised, East of Gaillard Highway is 35.48 acres, more or less; and Parcel No. 2, West of Gaillard Highway is 223.4 acres, more or less), as is shown on Canal Zone Government Drawing No. 6116-34 entitled "Map Showing U. S. Army and U. S. Air Force Reservations—Fort Clayton, Corozal, Curundu and Albrook Air Force Base, Canal Zone", scale 1:10,000, dated May 29, 1952, as modified by Canal Zone Government Drawing No. M-6116-69, entitled "Map Showing Boundary of Parcel No. 1-A, Revised, Corozal Army Reservation, Canal Zone, to include Former Parcel Nos. 1-A, 1-B and Adjacent Land", scale 1:2,000, dated August 12, 1953. Such maps are on file in the Office of the Governor of the Canal Zone, Balboa Heights, C. Z.

3. The statement of the area of Fort Clayton Army Reservation is corrected by amending the last paragraph of those provisions of section 1 describing "Fort Clayton Army Reservation" to read as follows:

The directions of the lines refer to the true meridian. The area of Fort Clayton Army Reservation is 4980.3 acres, more or less, and is as shown on Canal Zone Government Drawing No. 6116-34, dated May 29, 1952 (As revised on June 1, 1953), entitled "Map Showing U. S. Army and U. S. Air Force Reservations—Fort Clayton, Corozal, Curundu and Albrook Air Force Base, Canal Zone", scale 1:10,000, on file in the Office of the Governor of the Canal Zone, Balboa Heights, C. Z.

ROBERT T. STEVENS,
Secretary of the Army.

APRIL 16, 1954.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 957]

ALASKA

PARTIALLY REVOKING PUBLIC LAND ORDER NO. 71 OF DECEMBER 17, 1942, WHICH WITHDREW PUBLIC LANDS FOR USE OF THE WAR DEPARTMENT FOR MILITARY PURPOSES

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141), and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Public Land Order No. 71 of December 17, 1942, withdrawing public lands for the use of the War Department for military purposes, which was amended by Public Land Order No. 284 of June 12, 1945, and which was partially revoked by Public Land Order No. 423 of October 24, 1947, is hereby revoked so far as it affects the following-described public lands:

NUSHAGAK

All that area lying between 58°40' and 58°50' north latitude and meridians 158°40' and 159°00' longitude west of Greenwich.

The area described contains 46,000 acres.

KWIGUK (HAMILTON)

All that area lying between parallels 64°42'30" and 62°47'30" north latitude and meridians 164°25' and 164°35' longitude west of Greenwich.

The area described contains 19,500 acres.

The Nushagak area consists of a good part of Nushagak Bay and the lands bordering the Igushik River. The land is typical unsurveyed tundra country with settlement limited to isolated tracts along the Bay and River shores. The Kwiguk (Hamilton) area is extremely isolated.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the signing of this order, at which time the lands shall, subject to valid existing rights and to the provisions of existing withdrawals, be opened to settlement under the homestead laws and the homesite act of May 26, 1934 (48 Stat. 809; 48 U. S. C. 461), and to those forms of appropriation only by qualified veterans of World War II for whose services recognition is granted by the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, and by other qualified persons entitled to credit for service under the said act. Commencing at 10:00 a. m. on the 126th day after the date of this order, any of such lands not settled upon by veterans or other persons entitled to credit for service shall become subject to settlement and other forms of appropriation by the public generally in accordance with appropriate laws and regulations.

Applications for the lands, which shall be filed in the Land Office, Bureau of Land Management, Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations, to the extent that such regulations are applicable. Applications under the homesite or homestead laws shall be governed by the regulations contained in Parts 64 and 66, inclusive, of Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Anchorage, Alaska.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

APRIL 21, 1954.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

[7 CFR Part 723]

CIGAR-FILLER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO

NOTICE OF FORMULATION OF REGULATIONS RELATING TO ESTABLISHMENT OF FARM ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR 1955–56 MARKETING YEAR

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1312, 1313), the Secretary of Agriculture is preparing to formulate regulations governing the establishment of farm acreage allotments and normal yields for the 1955 crop of (a) cigar-filler (type 41) tobacco and (b) cigar-filler and binder (types 42–44, 51–55, inclusive) tobacco. The Agricultural Adjustment Act of 1938, as amended, includes types 42–44 and 51–55 in the definition of cigar-filler and cigar-binder tobacco, and only type 41 in the definition of cigar-filler tobacco.

Cigar-filler and binder (types 42–44, 51–55, inclusive) tobacco growers favored marketing quotas for the 1955–56 marketing year (18 F. R. 8474). The applicability of the regulations to be issued for cigar-filler (type 41) tobacco will be contingent upon the proclamation of a national marketing quota for such kind of tobacco pursuant to section 312 of the act (7 U. S. C. 1312), and upon approval of quotas by growers voting in a referendum.

It is contemplated that the respective regulations for these two kinds of tobacco will be substantially the same as those issued with respect to the 1954 crops (18 F. R. 3994 and 18 F. R. 3822, 4047), except as stated below.

If the 1954 harvested acreage of cigar-filler and binder (types 42–44, 51–55, inclusive) tobacco for a farm is equal to 80 per centum of the 1954 acreage allotment of such tobacco for the farm, but does not exceed the acreage allotment for such tobacco for the farm, the 1955 farm tobacco acreage allotment will be determined as though the 1954 harvested tobacco acreage exactly equaled the 1954 farm tobacco acreage allotment.

Prior to the final adoption and issuance of the regulations, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 15 days from the date this notice is published in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 21st day of April 1954.

[SEAL] J. A. MCCONNELL,
Administrator.

[F. R. Doc. 54-3123; Filed, Apr. 26, 1954; 8:49 a. m.]

[7 CFR Parts 725, 726]

BURLEY AND FLUE-CURED TOBACCO; FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

NOTICE OF FORMULATION OF REGULATIONS RELATING TO MARKETING OF TOBACCO, COLLECTION OF MARKETING PENALTIES, AND RECORDS AND REPORTS, 1954–55 MARKETING YEAR

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1311–1315, 1372–1375), the Secretary of Agriculture is preparing to formulate marketing quota regulations covering the issuance of marketing cards, the identification of tobacco, the collection and refund of penalties, and the records and reports incident thereto on the marketing of Burley, flue-cured, fire-cured, dark air-cured, and Virginia sun-cured tobacco for the 1954–55 marketing year.

The Secretary is considering the issuance of regulations for the 1954–55 marketing year substantially the same as those issued for the 1953–54 marketing year (18 F. R. 3103 Burley and flue-cured; 18 F. R. 3310 Fire-cured; Dark Air-cured, and Virginia sun-cured) except for eliminating one provision and adding one provision discussed below:

1. Eliminate the provision in the 1953–54 regulations which required the issuance of a "zero percent" excess marketing card for a farm on which there was penalty due for any prior year because of a violation of the tobacco marketing quota regulations.

The effect of the elimination of this provision would be to make price support loans for 1954–55 available to all eligible producers, without regard to the reason for the producers' indebtedness and represents a resumption of the procedure followed prior to 1953–54.

This change would be made by eliminating subparagraph (2) of paragraph (c) of § 725.436 (Burley and Flue-cured) and subparagraph (2) of paragraph (b) of § 726.436 (Fire-cured, Dark Air-cured, and Virginia sun-cured) entitled *Issuance of marketing cards*, which reads as follows:

§ 725.436 *Issuance of marketing cards.* • • •

(c) *Excess Marketing Card (MQ–77—Tobacco.* • • •

(2) If for any farm there is penalty due for 1952 or any prior year because of a failure to satisfactorily account for the disposition of any tobacco or because of the false or improper identification of any tobacco, a "zero percent" excess marketing card shall be issued for such farm, except that, if the county committee with the approval of the State committee determines that one or more producers on the farm did not cause, aid or acquiesce in the violation for which the penalty became due, such producer(s) shall be entitled to a within quota marketing card for marketing their proportionate share of the tobacco available for marketing.

§ 726.436 *Issuance of Marketing Card.* • • •

(b) *Excess Marketing Card (MQ–77—Tobacco).* • • •

2. Include one additional provision which would serve to clarify the fact that any marketing of tobacco by a person other than the producer thereof on a marketing card other than the one issued for the farm on which such tobacco was produced is subject to penalty.

This change would be made by adding a paragraph in § 725.447 (Burley and Flue-cured) and § 726.447 (Fire-cured, Dark Air-cured, and Virginia sun-cured) entitled Marketings deemed to be excess tobacco to read as follows: "If any marketing of tobacco by a person other than the producer thereof is identified by a marketing card other than the marketing card issued for the farm on which such tobacco was produced, such marketing shall be deemed to be a marketing of excess tobacco and the penalty thereon shall be paid by such person."

Prior to the final adoption and issuance of such regulations, consideration will be given to any data, views, or recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 21st day of April 1954.

[SEAL] J. A. MCCONNELL,
Administrator.

[F. R. Doc. 54-3124; Filed, Apr. 26, 1954; 8:49 a. m.]

[7 CFR Parts 725, 726]

BURLEY AND FLUE-CURED TOBACCO; FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

NOTICE OF FORMULATION OF REGULATIONS RELATING TO ESTABLISHMENT OF TOBACCO FARM ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR 1955–56 MARKETING YEAR

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1312, 1313, 1375), the Secretary of Agriculture is preparing to formulate regulations governing the establishment of farm acreage allotments and normal yields for marketing quotas to be in effect during the 1955–56 marketing year for Burley, flue-cured, fire-cured, dark air-cured, and Virginia sun-cured tobacco.

Subsection (a) of section 312 of the act (7 U. S. C. 1312) requires the Secretary to proclaim a national marketing quota for each marketing year for each kind of tobacco for which a national marketing quota was proclaimed for the immediately preceding marketing year. Marketing quotas were proclaimed for the 1954–55 marketing year for Burley tobacco, flue-cured tobacco, fire-cured tobacco, dark air-cured tobacco, and Virginia sun-cured tobacco (18 F. R. 7653).

Tobacco growers favored marketing quotas for the 1955–56 marketing year in referenda held pursuant to the act (7 U. S. C. 1312) as follows:

Kind of Tobacco:	Federal Register
Burley	17 F. R. 11737
Flue-cured	17 F. R. 7613
Virginia sun-cured	17 F. R. 11380

The applicability of the regulations to be issued for fire-cured tobacco and for dark air-cured tobacco will be contingent upon the proclamation of national marketing quotas for such kinds of tobacco pursuant to section 317 of the act (7 U. S. C. 1312), and upon approval of quotas by growers voting in referenda.

It is proposed that the regulations governing the establishment of farm acreage allotments and normal yields for Burley and flue-cured tobacco for the 1955–56 marketing year be substantially the same as the regulations in effect for the 1954–55 marketing year (18 F. R. 3997).

It is proposed that the regulations governing the establishment of farm acreage allotments and normal yields for fire-cured, dark air-cured, and Virginia sun-cured tobacco for the 1955–56 marketing year be substantially the same as the regulations in effect for the 1954–55 marketing year (18 F. R. 3825).

Prior to the final adoption and issuance of these regulations, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 15 days after the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 21st day of April 1954.

[SEAL] J. A. McCONNELL,
Administrator.

[F. R. Doc. 54-3121; Filed, Apr. 26, 1954; 8:49 a. m.]

[7 CFR Part 727]

MARYLAND TOBACCO

NOTICE OF FORMULATION OF REGULATIONS RELATING TO ESTABLISHMENT OF FARM ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR 1955–56 MARKETING YEAR

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1312, 1313), the Secretary of Agriculture is preparing to formulate regulations governing the establishment of farm acreage allotments and normal yields for the 1955 crop of Maryland (type 32) tobacco, if marketing quotas are in effect during the 1955–56 marketing year for such kind of tobacco.

The applicability of the regulations to be issued for such kind of tobacco will be contingent upon the proclamation of a national marketing quota for such kind of tobacco pursuant to section 312 of the act (7 U. S. C. 1312), and upon approval of quotas by growers voting in a referendum.

It is proposed that the regulations will be substantially the same as those for the 1954–55 marketing year (18 F. R. 4001) with the following exceptions:

1. The 1955 preliminary acreage allotment for an old farm will be the average acreage harvested on the farm during the five years 1950–54, except that if the average acreage of tobacco harvested on the farm during the three years 1952–54 differs from the five-year average by ten percent or more the 1955 preliminary allotment will be such three year average. The 1955 preliminary allotment for a farm on which tobacco was harvested in 1954 for the first time since 1949 will be fifty percent of the 1954 acreage of tobacco harvested on the farm. Adjustment of preliminary acreage allotments by county and community committees, as provided in the 1954–55 regulations, would not be provided for in the 1955–56 regulations.

2. For certain farms whose 1954 allotments reflected increases under the minimum allotment provisions of the act, it will be necessary to adjust the 1953 acreage to eliminate the effect of the minimum provision on the 1953 harvested acreage. The minimum allotment provisions will be applied to the 1955 allotment, therefore, in a manner that will not compound the increase.

3. The acreage to be made available for adjustments of old farm allotments by county and community committees will be limited to two percent (or, if recommended by the State Committee and approved by the Administrator, Commodity Stabilization Service, four percent) of the State acreage allotment.

4. The provisions for determining allotments for farms that are reconstituted in 1955 will involve use of the preliminary acreage allotments for such farms rather than the acreage allotments due to the minimum provisions.

5. The provision relating to determination of farm normal yields per acre will involve yields for the years 1946–53 for which data are available.

Prior to the final adoption and issuance of the regulations, consideration will be given to any data, views and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, Washington 25, D. C. All submissions must be postmarked not later than 15 days from the date this notice is published in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 21st day of April 1954.

[SEAL] J. A. McCONNELL,
Administrator.

CIVIL AERONAUTICS BOARD

[14 CFR Part 1]

CERTIFICATION, IDENTIFICATION, AND MARKING OF AIRCRAFT AND RELATED PRODUCTS

PRODUCTION INSPECTION SYSTEMS

Notice is hereby given that the Administrator contemplates adoption of the following rules. These rules establish standards whereby a manufacturer producing an article under the terms of a type certificate without a related production certificate may provide, for articles manufactured after six months from the date of issuance of the type certificate, a production inspection system approved by the Administrator which will give assurance that each article produced is in conformity with the type design and is in condition for safe operation. All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Washington 25, D. C., within 30 days after publication of this notice in the FEDERAL REGISTER.

§ 1.15–5 *Production inspection system (CAA rules which apply to § 1.15 (d)).* (a) Within the first six months from the date of issuance of the type certificate, the manufacturer producing products under the terms of a type certificate only, shall establish and thereafter maintain, a production inspection system which will insure that parts and assemblies, and the completed products, are in conformity with approved type design data and are in condition for safe operation. The inspection system shall be adequate to definitely preclude the installation of uninspected or rejected parts in the finished product.

(b) The production inspection system shall include materials review procedures and a Materials Review Board to process parts and materials rejected because of damage or manufacturing errors, which may be serviceable, when such rejected items are to be considered for installation in the product. (See § 1.34–1 (e) for procedures.) The Materials Review Board shall consist at least of representatives from the inspection and engineering departments. Parts and materials which are determined by the Materials Review Board to be serviceable shall be properly identified and reinspected if rework or repair is necessary. Parts or materials rejected by the Materials Review Board, or by inspection, shall be marked accordingly and disposed of in a manner which will prevent such parts and materials being incorporated in the finished product.

(c) Inspection records, including Materials Review Board actions applying to materials, parts, assemblies and the completed product, shall be maintained, identified with the completed product, and retained in the manufacturer's files for at least two years.

(d) Complete aircraft: (1) After the prototype is type certificated, each aircraft produced under the terms of a type certificate only shall be flight tested by the manufacturer as a final check on the operation of the completed product. The manufacturer shall develop a production flight test procedure and a flight check-off form, subject to approval of CAA, to be used in connection with the initial flight testing of each production aircraft. The flight test procedure shall apply to aircraft which are assembled and delivered via flyaway, and to those which are delivered unassembled to an authorized distributor.

(2) The production flight test shall provide for at least the following:

(i) An operational check of the trim, controllability, or other flight characteristics, to establish the fact that the production aircraft has the same range and degree of control as the prototype aircraft.

(ii) An operational check of each part or system operated by the crew while in flight to establish that, during flight, all instrument readings are within normal range.

(iii) A determination that all instruments are properly marked, and that all placards and/or required Flight Manuals are installed.

(iv) A check of the operational characteristics of the aircraft on the ground.

(v) A check on any other items peculiar to the aircraft being tested which can best be done during the ground or flight operation of the aircraft.

(e) Complete engines: Each engine produced under the terms of a type certificate only, shall be subjected to a satisfactory test run by the manufacturer, consisting of break-in runs which shall include a determination of fuel and oil consumption and maximum power characteristics. The test run shall include at least five hours of operation at the maximum rating, of which at least thirty minutes shall be at take-off power and speed where this rating is in excess of the maximum continuous rating. This test may be conducted with the engine mounted on a torque stand or on a fixed stand with a calibrated test club or propeller. Each engine tested shall be subject to the inspection provided for in § 1.15–1 (c).

(f) Complete propellers and appliances: The manufacturer shall conduct such functional or other tests and conformity inspections as are determined necessary by a representative of the Administrator in accordance with the nature and complexity of the product and production process involved.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply Secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553)

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ARIZONA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

APRIL 19, 1954.

An application, serial number Misc. 63087 (Amd), for the withdrawal from all forms of appropriation under the public land laws, except the mineral leasing laws of the lands described below was filed on April 7, 1952, by Fish and Wildlife Service, U. S. Department of the Interior.

The purposes of the proposed withdrawal: Gila River Water Fowl Area Acquisition, Arizona.

For a period of thirty days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region 5, Bureau of Land Management, Department of the Interior, at P. O. Box 1695, Albuquerque, New Mexico. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

GILA AND SALT RIVER MERIDIAN

T. 1 N., R. 1 W.,

[Miscellaneous No. 1422770, 10–1319102]

IDAHO

AIR NAVIGATION SITES REVOKED AND LANDS RESTORED

APRIL 16, 1954.

By virtue of the authority contained in section 4 of the act of May 24, 1928 (45 Stat. 729; 49 U. S. C. 214), and pursuant to section 2.22 (a) (2), of Delegation Order No. 427 of August 16, 1950, 15 F. R. 5641, it is ordered as follows:

Air Navigation Site Withdrawal No. 66 of June 26, 1931 as to Beacon Site No. 130 Mile Salt Lake-Pendleton Airway, Albion Pass, Idaho, and Air Navigation Site Withdrawal No. 12 of May 24, 1928, are hereby revoked as to the following described lands:

BOISE MERIDIAN

T. 13 S., R. 25 E
Sec. 12, SW¼NE¼
T. 15 S., R. 27 E
Sec. 9, SW¼SW¼

The areas described aggregate 80 acres.

The SW¼SW¼ Sec. 9 is grazing in character and is a part of a large block of Federal lands and suitable for retention in public ownership for administration under the grazing service. The SW¼NE¼ Sec. 12 is primarily valuable for grazing and suitable for classification and application under the appropriate public land laws.

While any application that is filed will be considered on its merits, it is unlikely that any part of the lands will be classified for any use or disposal other than that shown above.

No application for the lands may be allowed under the homestead, small tract, desert land, or any other nonmineral public land laws unless the lands have been classified as valuable or suitable for such type of application or shall be so classified upon classification of application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day

after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Boise, Idaho, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Land Office, Boise, Idaho.

JOSEPH A. GANONG,
Acting Regional Administrator.

[Miscellaneous No. 12]

OREGON

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

APRIL 16, 1954.

Pursuant to exchanges made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976; 43 U. S. C. sec. 315g) the following described lands have been reconveyed to the United States:

WILLAMETTE MERIDIAN

T. 15 S., R. 44 E.,
Sec. 33, NW¼, N½SW¼, SE¼, W½NE¼, SE¼NE¼.
Sec. 34, SW¼NW¼, N½SW¼

The areas described aggregate 640 [redacted]

The lands described lie in a high mountain valley at an altitude of 4,300 feet and are located 23 miles north of the town of Vale, Oregon, and 7 miles northeast of the railroad station of Jamieson, Oregon. The topography of the lands is level to rolling and the soil is of volcanic origin mixed with silt and vegetable matter, and the lands are not suitable for agricultural development without irrigation. The lands are desert in character and primarily suitable for the grazing of livestock.

While any application that is filed will be considered on its merits, it is unlikely that any part of the lands will be classified for any use or disposal other than that shown above.

No application for the lands may be allowed under the homestead, small tract, desert land, or any other nonmineral public land laws unless the lands have been classified as valuable or suitable for such type of classification or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day, shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Portland, Oregon, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Land Office, Portland, Oregon.

JOSEPH A. GANONG,
Acting Regional Administrator.

FEDERAL POWER COMMISSION

[Docket Nos. G-1116, G-1152, G-1240, G-1317, G-1344, G-1379, G-1415, G-1417, G-1457, G-1509, G-1616, G-1625, G-1659, G-1725, G-1754, G-2057, G-2101, G-2234]

PANHANDLE EASTERN PIPE LINE CO. ET AL.

ORDER REOPENING RECORD FOR PURPOSE OF DETERMINING RATES AND CHARGES FOR PERIOD FROM FEBRUARY 20, 1952 THROUGH APRIL 30, 1954

In the matters of Panhandle Eastern Pipe Line Company, Docket Nos. G-1116, G-1240, G-1317, G-1344, G-1417, G-1725, G-1754, and G-2101; City of Port Huron, City of Marysville, City of St. Clair, Michigan municipal corporations, Docket No. G-1152; Southeastern Michigan Gas Company, Docket No. G-1415; Michigan Consolidated Gas Company, complainant, v. Panhandle Eastern Pipe Line Company, defendant, Docket No. G-1379; Northern Indiana Fuel and Light Company, Docket Nos. G-1457, G-2234; Missouri Central Natural Gas Company, Docket No. G-1509; The Central West Utility Company, Docket No. G-1616; Michigan Gas Utilities Company, Docket No. G-1625; City of Auburn, Illinois, Docket No. G-1659; Missouri Public Service Company, Docket No. G-2057.

The Commission on April 15, 1954, issued its Opinion No. 269 and accompanying order prescribing the rates and charges for the sales by Panhandle Eastern Pipe Line Company under the Natural Gas Act in the above dockets, as set out in Panhandle's FPC Gas Tariff, Original Volume No. 1, as modified by Opinion No. 269. This opinion reserved the right to reopen the record in these proceedings for the prompt submission of necessary data from which the Commission may determine (1) what are the just and reasonable rates during the period from February 20, 1952, through April 30, 1954, and (2) the excess charges collected by Panhandle during that period which should be refunded. Panhandle's FPC Gas Tariff, Original Volume No. 1, was suspended by order issued September 5, 1951, and by order issued March 5, 1952, Panhandle was ordered to refund with interest at 6 percent per annum any portion of the rates and charges made effective as of February 20, 1952, found by the Commission to be not justified.

In order to carry out the provisions of the orders issued September 5, 1951, and March 5, 1952, and Opinion No. 269 and the accompanying order, the Commission orders:

(A) The record in these proceedings is hereby reopened for the purpose of determining what are the just and reasonable and otherwise lawful rates and charges by Panhandle for sales under the Natural Gas Act for the period from February 20, 1952, through April 30, 1954.

(B) An investigation hereunder shall forthwith be undertaken by the Commission's staff of the books and records of Panhandle, and if it appears that further hearings are required or that additional exhibits and data should be filed by Panhandle, appropriate orders will be issued, with full notice to intervening parties and opportunity to be heard before final action is taken.

Adopted: April 19, 1954.

Issued: April 21, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-3112; Filed, Apr. 26, 1954; 8:46 a. m.]

[Docket No. G-2401]

DIXIE PIPE LINE CO.

NOTICE OF APPLICATION

APRIL 20, 1954.

Take notice that Dixie Pipe Line Company, (Applicant) a Delaware corporation with its principal place of business in Dallas, Texas, filed, on April 2, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of approximately twenty miles of 8-inch pipeline extending from the Gwinville Field to a point of connection with the existing transmission pipeline of Transcontinental Gas Pipe Line Corporation (Transcontinental) all within Jefferson Davis County, Mississippi, and appurtenant metering equipment.

The facilities are proposed to be used by Applicant to sell and deliver to Transcontinental quantities of natural gas from a minimum of 14,400 Mcf per day to a maximum of 25,000 Mcf per day.

Applicant estimates the total cost of the proposed facilities to be $425,000 which it proposes to finance by issuance of common stock, preferred stock and short term loans. The short term loans are to be refinanced in turn by the issuance of First Mortgage Pipe Line Bonds.

Applicant requests that the intermediate decision procedure be omitted and that its application be disposed of pursuant to the shortened procedure provided for in § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)).

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with its rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 10th day of May 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-3111; Filed, Apr. 26, 1954; 8:46 a. m.]

[Docket No. IT-5460]

MONTANA-DAKOTA UTILITIES CO.

NOTICE OF APPLICATION FOR AUTHORIZATION TO EXPORT ELECTRIC ENERGY

APRIL 21, 1954.

Notice is hereby given that Montana-Dakota Utilities Co. (Applicant) on April 15, 1954, filed an application requesting an increase in the authorization to export electric energy from the United States to Canada heretofore granted to it pursuant to the provisions of section 202 (e) of the Federal Power Act (16 U. S. C. 824 (a)). As a result of the requested increase the proposed transmission in export would be in the amounts and at the rates as follows: At North Portal, Saskatchewan, up to 200,000 kilowatt-hours per year at a rate not to exceed 80 kilowatts; at Northgate, Saskatchewan, up to 30,000 kilowatt-hours per year at a rate not to exceed 15 kilowatts; at Elmore, Saskatchewan, up to 5,000 kilowatt-hours per year at a rate not to exceed 10 kilowatts; at Marienthal, Saskatchewan, up to 15,000 kilowatt-hours per year at a rate not to exceed 10 kilowatts. The requested authorization would supersede that heretofore granted to Applicant by Commission order issued December 24, 1952, in the above entitled matter; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to the application should, on or before May 10, 1954, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's general rules and regulations. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3210]

COLUMBIA GAS SYSTEM, INC.

SUPPLEMENTAL ORDER REGARDING ISSUE AND SALE OF PRINCIPAL AMOUNT OF SUBORDINATED DEBENTURES

APRIL 20, 1954.

The Commission by order dated April 13, 1954, having permitted to become effective an amended declaration filed by The Columbia Gas System, Inc. ("Columbia"), pursuant to section 7 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 thereunder regarding, among other things, the issuance and sale by Columbia of $50,000,000 principal amount of ... Percent Subordinated Debentures convertible into shares of Common Stock, no par value, of Columbia, subject to certain reservations of jurisdiction with respect to (1) the interest rate and redemption prices of the Subordinated Debentures and the price at which the Subordinated Debentures may be converted into Common Stock and (2) the fees and expenses incurred in connection with the transactions, including fees of underwriters' counsel; and

Columbia having filed a further amendment on April 20, 1954, fixing the interest rate of the Subordinated Debentures at 3½ percent and the conversion price at $13⅓, or at a rate of 7½ shares of Common Stock for each $100 principal amount of Subordinated Debentures; and having designated the Subordinated Debentures to be redeemable on or after January 1, 1955, at the

option of Columbia, at 103½ percent of principal amount during 1955 and at declining percentages each year thereafter to 100 percent of principal amount after 1961; and

Columbia having submitted estimates of the fees and expenses incurred or to be incurred in connection with the proposed transactions, but the record not having been completed in respect thereof; and

The Commission having examined said amendment, and having considered the record herein, and observing no basis for making adverse findings or imposing terms and conditions in respect of the interest rate, redemption prices or the conversion price designated by Columbia and deeming it appropriate to continue the reservation of jurisdiction in respect of the fees and expenses:

It is ordered, That the jurisdiction heretofore reserved in the above entitled matter be, and the same hereby is, released except with respect to the fees and expenses incurred and to be incurred in connection with the proposed transactions, and that said declaration as further amended be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and Rule U-50.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 812-869]

ISRAEL ENTERPRISES, INC.

NOTICE OF APPLICATION FOR EXEMPTION OF TRANSACTIONS BETWEEN AFFILIATES

APRIL 21, 1954.

Notice is hereby given that Israel Enterprises, Inc. ("Applicant"), a Delaware corporation, a registered closed-end, non-diversified investment company, has filed an application under section 17 (b) of the Investment Company Act of 1940 ("act") for an order exempting from the provisions of section 17 (a) of the act its proposed investment in American Israeli Paper Mills, Ltd. ("AIPM").

Applicant proposes to invest 1,800,000 Israel pounds ($1,000,000) in AIPM of which 1,000,000 Israel pounds ($555,000) are to be used for the purchase of ordinary shares of AIPM at 1.80 Israel pounds ($1.00) per share and the balance of 800,000 Israel pounds ($444,445) to be used to purchase additional ordinary shares at the same price or as a 6 percent loan to AIPM, as Applicant's officers may determine.

AIPM was organized under the laws of the State of Israel in 1951 with an authorized capital of 2,000,000 Israel pounds divided into 500,000 shares of one Israel pound, par value preference shares and 1,500,000 ordinary shares of the par value of one Israel pound each. In 1951 and 1952, Palestine Economic Corporation ("PEC"), an American company engaged in the economic development of Israel, purchased 247,000 ordinary shares of AIPM and loaned the latter company $153,000 for a period of five years at 6 percent interest.

By virtue of PEC's ownership of more than 5 percent of AIPM's voting securities, AIPM is an affiliated person of PEC under section 2 (a) (3) of the act. PEC organized and is the promoter of Applicant.

Section 17 (a) of the act, among other things, prohibits an affiliated person (AIPM) of a promoter (PEC) of a registered investment company (Applicant) from selling any security to such registered company or borrowing money from such registered company, subject to certain exceptions not pertinent here, unless the Commission upon application pursuant to section 17 (b) of the act grants an exemption from the provisions of section 17 (a) of the act upon the basis that the evidence establishes that the terms of the proposed transaction, including the consideration, are reasonable and fair and do not involve overreaching on the part of anyone concerned, that the proposed transaction is consistent with the policy of each registered company concerned as recited in its registration statement and reports filed under the act and is consistent with the general purposes of the act.

The application discloses that in 1953 Applicant filed a registration statement under the Securities Act of 1933 and stated that the purpose of its organization was to give financial aid "either by way of direct investment or by way of loans" to industrial enterprises in Israel among which it listed the paper industry. AIPM was organized in 1951 to manufacture paper. It completed construction of its plant in Hedara, Israel, in December 1953, and commenced operations at a reduced capacity at that time.

The price to be paid by Applicant for the shares of AIPM it proposes to acquire is the same price in dollars which PEC paid for its 247,000 ordinary shares when it subscribed for shares of AIPM in 1951 and 1952. The loan, if made, will be on the same terms and at the same interest rate as the $153,000 loan made by PEC to AIPM. The application states that AIPM proposes to use the money received from Applicant to pay off short-term loans incurred in connection with the construction of the paper mill and for working capital. AIPM has agreed to reimburse the Applicant for whatever expense the latter company has incurred in raising the capital funds needed to effect the proposed transactions. Applicant urges that the proposed investment is in the nature of an original investment in the paper industry in Israel and that the investment is on a basis no less favorable than that offered to anyone else.

For a more detailed statement of the matters of fact and law asserted, all interested persons are referred to said application which is on file in the office of the Commission in Washington, D. C.

Notice is further given that any interested person may, not later than May 5, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29169]

TRANSIT RATES ON LUMBER FROM SOUTHERN TERRITORY TO SUMMERVILLE, S. C.

APPLICATION FOR RELIEF

APRIL 22, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Southern Railway Company, for itself and on behalf of the Alabama Great Southern Railway Company and other carriers parties to schedule listed below.

Commodities involved: Lumber, rough, hardwood, carloads.

From: Points in southern territory.

To: Summerville, S. C.

Grounds for relief: Competition with rail carriers, circuity, additional destination, and to maintain grouping.

Schedules filed containing proposed rates: Southern Railway Company I. C. C. No. A-11291, supp. 1.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 29170]

MOTOR-RAIL-MOTOR RATES BETWEEN CHICAGO, ILL., AND COUNCIL BLUFFS, IOWA

APPLICATION FOR RELIEF

APRIL 22, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Middlewest Motor Freight Bureau, Agent, for and on behalf of the Chicago Great Western Railway Company, Burlington-Chicago Cartage, Inc., and other motor carriers parties to schedule listed below.

Commodities involved: Highway trailers, loaded or empty, on flat cars.

Between: Chicago, Ill., and Council Bluffs, Iowa.

Grounds for relief: Competition with motor carriers.

Schedules filed containing proposed rates: Middlewest Motor Freight Bureau, Agent, MF-I. C. C. No. 223, supp. 8.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29171]

MOTOR-RAIL-MOTOR RATES BETWEEN CHICAGO, ILL. AND COUNCIL BLUFFS, IOWA

APPLICATION FOR RELIEF

APRIL 22, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Middlewest Motor Freight Bureau, Agent, for the Chicago Great Western Railway Company, Independent Truckers, Inc., and other motor carriers parties to schedule listed below.

Comodities involved: Highway trailers, loaded or empty, on flat cars.

Between: Chicago, Ill., and Council Bluffs, Iowa.

Grounds for relief: Competition with motor carriers.

Schedules filed containing proposed rates; Middlewest Motor Freight Bureau, Agent, MF-I. C. C. No. 223 supp. 8.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29172]

GRAIN FROM MISSOURI TO TEXAS PORTS FOR EXPORT

APPLICATION FOR RELIEF

APRIL 22, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Wabash Railroad Company, for itself and on behalf of carriers parties to schedule listed below.

Commodities involved: Grain and grain products, carloads.

From: Points in Missouri.

To: Beaumont, Galveston, Houston, Port Arthur, and Texas City, Tex., for export.

Grounds for relief: Competition with rail carriers, circuity, and to maintain grouping.

Schedules filed containing proposed rates: Wabash Railroad Company I. C. C. No. 7548, supp. 40.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29173]

CEMENT FROM MISSOURI TO OFFICIAL TERRITORY

APPLICATION FOR RELIEF

APRIL 22, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Cement, also mortar cement, masonry cement, and dry building mortar, carloads.

From: Bonner Springs, Kansas City, and Sugar Creek, Mo.

To: Points in official territory.

Grounds for relief: Competition with rail carriers, circuity, and to maintain grouping.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. A-3758, supp. 10.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29174]

LIVE STOCK FROM ST. LOUIS, MO., AND EAST ST. LOUIS, ILL., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

APRIL 22, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by F. C. Kratzmeir, Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1087, pursuant to fourth-section order No. 16101.

Commodities involved: Live stock, carloads.

From: St. Louis, Mo., East St. Louis, Ill., and points taking same rates.

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, operation through higher-rated territory, circuity.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[File No. 21-118]

PART 56—ASSEMBLING BRANCH OF THE CHEESE INDUSTRY

RESCISSION OF PART

Whereas, the Commission on October 3, 1931, promulgated trade practice rules for the Assembling Branch of the Cheese Industry which were codified in the Code of Federal Regulations (16 CFR, Part 56); and

Whereas, the principal rules cover practices primarily within the jurisdiction of the Food and Drug Administration under the provisions of the Federal Food, Drug, and Cosmetic Act of 1938; and

Whereas, it appears that the rules for this industry are general in form and in some respects obsolete, and that there is no interest on the part of said industry in a revision thereof; and

Whereas, under the circumstances proceedings for the revision of said rules do not appear to be essential to the public interest:

It is ordered, That the said rules be and the same are hereby rescinded.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 54-3167; Filed, Apr. 27, 1954; 8:52 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 10724]

PART 7—STATIONS ON LAND IN THE MARITIME SERVICE

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICE

ASSIGNABLE FREQUENCIES

In the matter of amendment of Parts 7 and 8 of the Commission's rules to delete authority for operation in the Mississippi River system areas by coast stations and ship stations, on currently assignable frequencies for telephony within the band 4000 kc to 18000 kc; and to include authority for operation by such stations on other frequencies for telephony within the same band; Docket No. 10724.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of April 1954;

The Commission having under consideration its report and order in Docket No. 10724 which, among other matters, amended the Commission's rules so as to make unavailable as of May 1, 1954, the frequency 4162.5 kc for ship and coast station radiotelephony operations in the Mississippi River System areas; and

It appearing that various interested parties have recently advised the Commission of difficulties in obtaining necessary equipment to effect the activation of 4067 kc which is to serve as a replacement for 4162.5 kc and that authority to continue to operate on 4162.5 kc beyond May 1, 1954, is desired; and

It further appearing that, in view of these difficulties, an additional period of transition is appropriate but that in view of the imminence of the date of May 1, 1954, it is impracticable to comply with the public notice and rule making proceedings provided by sections 4 (a) and (b) of the Administrative Procedure Act; and for the same reason and because the rule amendments herein ordered relieve restrictions which would otherwise be applicable, compliance with the provisions of section 4 (c) of the Administrative Procedure Act is not required;

It is ordered, That, effective immediately, and pursuant to the provisions of sections 303 (c) (f), and (r) of the Communications Act of 1934, as amended, Parts 7 and 8 of the Commission's rules are amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: April 23, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

1. Part 7 of the Commission's rules is amended in the following particulars:

Section 7.304 (a) is amended by changing footnote designator 8 after the frequency 4162.5 to footnote designator 8b and adding footnote 8b to read as follows:

[8b] Not available after August 1, 1954.

2. Part 8 of the Commission's rules is amended in the following particulars:

a. Section 8.351 (a) is amended by changing footnote designator 7 after the frequency 4162.5 to footnote designator 7a and adding footnote 7a as follows:

[7a] Not available for Mississippi River System after August 1, 1954.

b. Section 8.351 (d) (12) is amended to read as follows:

(12) The frequency 4372.4 kc may be used beyond September 1, 1954 by ship stations on the Mississippi River and connecting inland waters (except the Great Lakes) which are not licensed to transmit on 6240 kc and/or 6455 kc.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 7]

PART 50—AIRMAN AGENCY CERTIFICATES

RULES, POLICIES AND INTERPRETATIONS

Correction

In F. R. Doc. 54-3131, appearing in the issue for Tuesday, April 27, 1954, the following sections were inadvertently omitted from publication. The sections should read as set forth below:

§ 50.12-2 *Office, rest room, and ready room facilities (CAA interpretations which apply to § 50.12 (c)).* Permanent type office, rest room, and ready room facilities must be located at the airport or base of operations and must be constructed in accordance with pertinent local building, sanitation, and health codes. Ready rooms must contain chairs, clothesracks or lockers, and bulletin boards.

§ 50.12-3 *Flight equipment (CAA interpretations which apply to § 50.12 (d)).* (a) All aircraft used for flight instruction of students enrolled in an approved airman agency course must be properly certificated under Part 3 or Part 4 of this chapter; maintained in accordance with Part 43 of this chapter; registered in the name of the agency or operated under a lease; and equipped with flight instruments capable of indicating the degree of pilot flight performance prescribed by § 50.13. At least one aircraft must be provided for each 15 (or fraction) students enrolled in the flight course and a sufficient number of airworthy aircraft must be available at the training location for flight training periods.

(b) Flight equipment for the commercial flying school curriculum must include at least one four-or-more place airplane equipped for day and night flying in accordance with Part 43 of this chapter; and one airplane equipped with landing flaps. The requirements of this paragraph may be met by combining the necessary equipment in one airplane. Each training aircraft must have in the aircraft, available to the pilot trainee, an appropriate pilot's training checklist which contains essential operational data concerning prestarting procedure; warmup procedure; pretakoff procedure; cruising flight procedure; prelanding procedure; shutting down procedure; and emergency procedure for critical flight situations involving aircraft/engine troubles; flight configurations and operational speeds for severe turbulence; and single-engine operation where appropriate.

(c) An approved air agency with commercial rating and/or instrument rating must have a simulated flight training device available at the airport, or must give all required instrument flight training in aircraft equipped for instrument flight, in accordance with Part 43 of this chapter.

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

TEMPORARY PERMITS FOR INTERSTATE SHIPMENT OF EXPERIMENTAL PACKS OF FOOD VARYING FROM THE REQUIREMENTS OF DEFINITIONS AND STANDARDS OF IDENTITY

Effective upon publication in the FEDERAL REGISTER, § 3.12 of the statements of general policy or interpretation is revised to read as follows:

§ 3.12 *Temporary permits for interstate shipment of experimental packs of food varying from the requirements of definitions and standards of identity.* (a) The Department of Health, Education, and Welfare recognizes that appropriate investigations of potential advances in food technology sometimes require tests in interstate markets of the advantages to and acceptance by consumers of variations in foods from applicable definitions and standards of identity prescribed under section 401 of the Federal Food, Drug, and Cosmetic Act.

(b) It is the purpose of the Department to permit such tests where they are necessary to the completion or conclusiveness of an otherwise adequate investigation and where the interests of consumers are adequately safeguarded. The Department will therefore refrain from recommending regulatory proceedings under the act on the charge that a food does not conform to an applicable standard, if the person who introduces or causes the introduction of the food into interstate commerce holds an effective permit from the Secretary providing specifically for those variations in respect to which the food fails to conform to the applicable definition and standard of identity.

(c) Any person desiring a permit may file with the Secretary a written application in triplicate containing as part thereof the following:

(1) Name and address of the applicant.

(2) A statement of whether or not the applicant is regularly engaged in producing the food involved.

(3) A reference to the applicable definition and standard of identity (citing applicable section of regulations).

(4) A full description of the proposed variation from the standard.

(5) The basis upon which the food so varying is believed to be wholesome and nondeleterious.

(6) The amount of any new ingredient to be added and of any ingredient, required by the standard, to be eliminated. If such new ingredient is not a commonly known food ingredient, a description of its properties and basis for concluding that it is not a poisonous or deleterious substance.

(7) The purpose of effecting the variation.

(8) A statement of how the variation is of potential advantage to consumers.

(9) The labeling proposed to be used for the food so varying.

(10 The period during which the applicant desires to introduce such food into interstate commerce, with a statement of the reasons supporting the need for such period.

(11) The probable amount of such food that will be distributed.

(12) The areas of distribution.

(13) The address at which such food will be manufactured.

(14) A statement of whether or not such food has been or is to be distributed in the State in which it was manufactured.

(15) If it has not been or is not to be so distributed, a statement showing why.

(16) If it has been or is to be so distributed, a statement of why it is deemed necessary to distribute such food in other States.

(d) The Secretary may require the applicant to furnish samples of the food varying from the standard and to furnish such additional information as may be deemed necessary for action on the application.

(e) If the Secretary concludes that the variation may be advantageous to consumers and will not result in failure of the food to conform to any provision of the act except section 403 (g), a permit shall be issued to the applicant for interstate shipment of such food. The terms and conditions of the permit shall be those set forth in the application with such modifications, restrictions, or qualifications as the Secretary may deem necessary and state in the permit.

(f) The terms and conditions of the permit may be modified at the discretion of the Secretary or upon application of the pemittee during the effective period of the permit.

(g) The Secretary may revoke a permit for cause, which shall include but not be limited to the following:

(1) That the permittee has introduced a food into interstate commerce contrary to the terms and conditions of the permit.

(2) That the application for a permit contains an untrue statement of a material fact.

(3) That the need therefor no longer exists.

(h) During the period within which any permit is effective, it shall be deemed to be included within the terms of any guaranty or undertaking otherwise effective pursuant to the provisions of section 303 (c) of the act.

(i) If an application is made for an extension of the permit, it shall be accompanied by a description of experiments conducted under the permit, tentative conclusions reached, and reasons why further experimental shipments are considered necessary.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies secs. 401, 403; 52 Stat. 1046, 1047; 21 U. S. C. 341, 343)

Dated: April 22, 1954.

[SEAL] OVETA CULP HOBBY,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 972]

[Docket No. AO-177-A13]

HANDLING OF MILK IN THE TRI-STATE MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO THE TENTATIVE MARKETING AGREEMENT AND TO THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Gallipolis, Ohio, on February 18 and 19, 1954, pursuant to notice thereof which was issued February 10, 1954 (19 F. R. 864).

Upon the basis of the evidence introduced at the hearing and the record thereof the Deputy Administrator, Agricultural Marketing Service, on April 8, 1954, filed with the Hearing Clerk, United States Department of Agriculture, his notice of recommended decision and opportunity to file written exceptions thereto. This decision was published in the FEDERAL REGISTER on April 10, 1954 (19 F. R. 2090; F. R. Doc. 54-2789).

Findings and conclusions. The findings and conclusions of the recommended decision in this proceeding which was issued April 8, 1954, by the Deputy Administrator, Agricultural Marketing Service, and was published in the FEDERAL REGISTER on April 10, 1954 (19 F. R. 2090; F. R. Doc. 54-2789), shall be the findings and conclusions of this decision as if set forth in full herein, subject to the following revisions:

1. Delete the second sentence of the first paragraph beginning in column 3, 19 F. R. 2090 (F. R. Doc. 54-2789) and substitute therefor the following: "For this purpose, any plant which supplies a total of 25,000 pounds or more of milk per month, or the skim milk and butterfat from which a monthly quantity of 25,000 pounds or more of Class I milk is derived, to one or more plants from which routes are operated within the marketing area should also be a 'fluid milk plant', except as explained below."

2. Add the following at the end of the fourth sentence of the first paragraph beginning in column 3, 19 F. R. 2092 (F. R. Doc. 54-2789): "after giving consideration to the fact that producer milk is necessary also to the fulfillment of Class II milk requirements."

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act:

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings. Exception was taken to some of the findings and conclusions and to certain provisions of the recommended marketing agreement and amendments to the order contained in the recommended decision. These exceptions were all fully considered in making the findings and reaching the conclusions contained herein and in deciding upon the appropriate and detailed provisions to be included in the marketing agreement and order to effectuate such conclusions. Effect is given certain exceptions in the provisions of the annexed order. To the extent that the findings and conclusions or the marketing agreement and order contained herein are at variance with any exceptions not hereinbefore effected or discussed, such exceptions are denied for the reasons set forth in the findings and conclusions on the issue to which the exceptions relate.

Determination of representative period. The month of March 1954 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the Tri-State marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Tri-State Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Tri-State Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered that all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 22d day of April 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Tri-State Marketing Area

§ 972.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto, and all said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Tri-State marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act.

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Tri-State marketing area shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Delete § 972.7 and substitute therefor the following:

§ 972.7 *Fluid milk plant.* "Fluid milk plant" means any milk handling plant (hereinafter referred to as a "plant"), except a plant at which the handling of milk is regulated by another milk marketing agreement or order issued pursuant to the act, under the following conditions:

(a) In any delivery period in which a route is operated wholly or partially within the marketing area from such plant; or

(b) In any delivery period in which a total of 25,000 pounds or more of milk, or an amount of skim milk and butterfat from which 25,000 pounds or more of Class I milk is derived, is delivered in fluid form from such plant to any plant(s) which is a fluid milk plant pursuant to paragraph (a) of this section: *Provided*, That a "fluid milk plant" pursuant to this section shall not mean such portions of a building or facilities used for receiving or processing such milk, or milk product, as is required by the appropriate health authority to be kept physically separate from the receiving or processing of Class I milk for the community(s) served.

2. Delete § 972.9 and substitute therefor the following:

§ 972.9 *Gallipolis district plant.* "Gallipolis district plant" means a fluid milk plant located in Gallia County or Meigs County, Ohio, or in Mason County, West Virginia.

3. Delete § 972.13 and substitute therefor the following:

§ 972.13 *Producer.* "Producer" means a person other than a producer-handler who produces milk received:

(a) At a fluid milk plant; or

(b) At a nonfluid milk plant by diversion within April, May, June, or July from a fluid milk plant: *Provided*, That such person producing milk holds a dairy farm inspection permit or equivalent certification if required by the appropriate health authority of the community(s) for which his milk is produced.

4. Delete § 972.16 and substitute therefor the following:

§ 972.16 *Handler.* "Handler" means:

(a) A person, including a cooperative association, who operates a fluid milk plant, or

(b) A cooperative association with respect to milk customarily received as producer milk at a fluid milk plant which is diverted by such association within April, May, June, or July on its account from a fluid milk plant to a nonfluid milk plant.

5. Add the following as § 972.19:

§ 972.19 *Cooperative association.* "Cooperative association" or "association of producers" means any cooperative marketing association of producers, duly organized as such under the laws of any State, which includes members who are producers as defined in § 972.13 and which the Secretary determines, after application by the association:

(a) To be qualified under the standards set forth in the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) To have its entire organization and all of its activities under the control of its members; and

(c) To be currently engaged in making collective sales of or marketing milk or its products for its members.

6. Delete from § 972.22 (j) (2) the word "10th" and substitute therefor the word "12th".

7. Delete § 972.41 (a) and (b) and substitute therefor the following:

(a) Add the following amounts for the delivery periods indicated:

	April, May, June, and July	February, March, and August	September, October, November, December, and January
Huntington district plants	$1.10	$1.35	$1.80
Gallipolis district plants	1.00	1.25	1.70
Scioto district plants	.90	1.15	1.60
Athens district plants	.80	1.05	1.50

(b) Add or subtract a "supply-demand adjustment" computed as follows:

(1) Divide the total gross volume of Class I milk (less interhandler transfers) at all fluid milk plants described under § 972.7 (a) for the first and second preceding delivery periods by the total receipts of milk from producers at such plants during the same delivery periods, multiply the result by 100, and round to the nearest whole number. The result shall be known as the "current utilization percentage."

(2) Compute a "net utilization percentage" by subtracting from the current utilization percentage as computed in subparagraph (1) of this paragraph the "standard utilization percentage" shown below:

Delivery period for which price is being computed:	*Standard utilization percentage*
January	92
February	91
March	89
April	85
May	80
June	73
July	62
August	63
September	68
October	81
November	90
December	91

(3) Determine the amount of the supply-demand adjustment as follows:

If the net utilization percentage is:	*Supply-demand adjustment is (cents)*
+12 or over	+38
+9 or +10	+28
+6 or +7	+20
+3 or +4	+10
+1 or −1	0
−3 or −4	−10
−6 or −7	−20
−9 or −10	−28
−12 or under	−38

When the net utilization percentage does not fall within a tabulated bracket, the supply-demand adjustment shall be determined by the adjacent bracket which is the same or nearest to the bracket used in the previous month. If for the first delivery period the above schedule is in effect the net utilization percentage does not fall within a tabulated bracket, the supply-demand adjustment shall be determined by the nearest bracket thereto which would result in the least change from zero.

8. Replace the period at the end of § 972.43 with a colon and add the following proviso to such section: "*Provided*, That for the months of May, June, and July 1954 the price so determined shall be reduced 25 cents per hundredweight with respect to all Class III milk other than that used to produce ice cream, ice cream mix, and cottage cheese."

9. Delete from § 972.44 (a) the figure "1.0" and substitute therefor the figure "0.5."

10. Delete § 972.44 (c) and substitute therefor the following:

(c) *Class III milk.* Subtract $3.00 from the average price per hundred pounds of butter as described in § 972.40 (c) (1), multiply by 1.2, subtract therefrom the amount per hundredweight computed pursuant to § 972.40 (c) (2), and divide such result by 1000.

11. Delete the word "and" at the end of § 972.65 (a).

12. Delete § 972.65 (b) and substitute therefor the following:

(b) To a cooperative association for milk received from producers from whom such association has received written authorization to collect payment, on or before the 16th day after such delivery period, of a total amount equal to not less than the sum of the individual amounts otherwise payable to other producers under paragraph (a) of this section.

(c) On or before the 16th day after such delivery period each handler shall pay to each cooperative association which operates a fluid milk plant, for skim milk and butterfat received as milk or a milk product from such cooperative association during such delivery period, an amount of money computed by multiplying the total pounds of such skim milk and butterfat in each class by the respective class price pursuant to §§ 972.41, 972.42, and 972.43, adjusted by the appropriate butterfat differential pursuant to § 972.44; and

(d) None of the provisions of this section shall be construed to restrict any cooperative association qualified under section 8c (5) (F) of the act from making payment for milk to its member producers in accordance with such provision of the act.

13. Delete from § 972.71 the word "13th" and substitute therefor the word "15th"; delete from the same section the word "10th" and substitute therefor the word "12th."

14. Delete §§ 972.75 and 972.76 and substitute therefor the following:

§ 972.75 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to producers (other than with respect to milk of such handler's own production) pursuant to § 972.65 (a) shall make a deduction of 6 cents per hundredweight, or such amount not exceeding 6 cents per hundredweight as the Secretary may prescribe, with respect to the following:

(1) All milk received from producers at a plant not operated by a cooperative association;

(2) All milk received at a plant operated by a cooperative association from producers who are not members of such association; and

(3) All milk received at a plant operated by a cooperative association(s) from producers who are members thereof but for whom any of the services set forth below in this paragraph is not being performed by such association(s), as determined by the market administrator.

Such deduction shall be paid by the handler to the market administrator on or before the 15th day after the end of the delivery period. Such moneys shall be expended by the market administrator for the verification of weights, sampling, and testing of milk received from producers and in providing for market information to producers; such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of each producer (1) who is a member of, or who has given written authorization for the rendering of marketing services and the taking of deduction therefor to a cooperative association, (2) whose milk is received at a plant not operated by such association, and (3) for whom the market administrator determines that such association is performing the services described in paragraph (a) of this section, each handler shall deduct in lieu of the deduction specified under paragraph (a) of this section, from payments made pursuant to § 972.65 (a) the amount per hundredweight of milk authorized by such producer and shall pay over, on or before the 15th day after the end of the delivery period, such deduction to the association entitled to receive it under this paragraph.

[F. R. Doc. 54-3149; Filed, Apr. 27, 1954; 8:48 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 8333]

STANDARD BROADCAST STATIONS

NOTICE OF ORAL ARGUMENT ON PROPOSED REPORT AND ORDER

In the matter of promulgation of rules and regulations and Standards of Good Engineering Practice Concerning Daytime Skywave Transmissions of Standard Broadcast Stations; Docket No. 8333.

1. On March 12, 1954, the Commission issued a proposed report and order, notice of further rule making, and order (19 F. R. 1543) in the above-entitled proceeding. That docket stated that an oral argument would be scheduled at an appropriate date on the proposed report and order.

2. We believe it desirable to delineate again the scope of the oral argument: Opportunity is being afforded to interested parties to present their views with respect to the merits of the proposed Report (paragraphs 1–34 inclusive) and the proposed rules set out in the Appendix attached to the Report: The applicability of the proposed rules to existing Class I or Class II stations will not be considered in this phase of the proceeding since that question is the subject of the notice of further rule making.

3. Notice is hereby given that the Commission will hear oral argument on the above noted subject matter, beginning at 10 a. m. on June 7, 1954 in Room 6121. Each interested party desiring to participate in the oral argument shall file on or before May 24, 1954, a notice of intention to appear and participate in the oral argument. The time to be allowed each party for oral presentation will be determined in the light of the number of parties seeking to appear and participate and will be specified by a later notice. Parties desiring to file briefs may do so on or before May 31, 1954. Such briefs shall be filed in accordance with Part 1 of the Commission's rules.

Adopted: April 22, 1954.

Released: April 23, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54–3164; Filed, Apr. 27, 1954; 8:51 a. m.]

[47 CFR Part 8]

[Docket No. 11011]

STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

REQUIRED ANTENNA-GROUND SYSTEMS AND AUTHORIZED TRANSMITTER-POWER

In the matter of amendment of Part 8 of the Commission's rules to require antenna-ground systems and specify minimum transmitter power or minimum field strength for ship stations when operating on frequencies below 25 Mc for telephone communication with public coast stations exclusively; Docket No. 11011.

1. Notice is hereby given of proposed rule making in the above-entitled matter. The rules proposed to be adopted are set forth below.

2. In the interest of more effectively utilizing certain portions of the radio frequency spectrum by minimizing unnecessary interference and loss of circuit time which may result from the inadequate communication range of certain types of shipboard radiotelephone installation, it is proposed to establish in Part 8 of the Commission's rules certain minimum transmitter powers or, alternately, radio frequency field intensity requirements applicable to ship radiotelephone stations when operating on ship to shore frequencies below 25 Mc authorized exclusively for the transmission of public correspondence. Under the proposed rules, a period of at least five years would be allowed for the amortization of the investments in existing installations which would be affected by and not capable of meeting the minimum requirements. It is also proposed to require that radiotelephone installations be effectively grounded when an antenna-ground system is necessary for the efficient conversion of antenna power to radiated power on the ship to shore public correspondence frequencies below 25 Mc. In the case of vessels having a nonmetallic hull, a suitable period of time would be allowed for the installation of a metallic ground system on the hull.

3. The proposed amendments are issued under the authority contained in sections 4 (i), 303 (f), (h) and (r) of the Communications Act of 1934, as amended.

4. Any interested person who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before June 1, 1954, written data, views or arguments setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments in reply to the original comments may be filed within 10 days from the last day for filing said original data, views or arguments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter.

5. In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: April 21, 1954.

Released: April 22, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

1. Section 8.107 is amended by adding new paragraphs (c) and (d) as follows:

§ 8.107 *Antenna requirements.* * * *

(c) When a public ship station is operating on any carrier frequency below 25 Mc which frequency is authorized for radiotelephone transmission of public correspondence to public coast stations exclusively and the effective operation of the antenna employed is not independent of a ground connection on the frequency in use, the radio station ground system of each such public ship station for operation on such frequency shall consist of:

(1) An effective radio ground to the hull for a vessel having a metallic-hull, or

(2) Effective on and after June 1, 1955, in the case of a vessel not having a metallic hull, an effective radio ground to a bare plate or strips, or a combination thereof, of corrosion-resistant metal of at least 12 square feet in aggregate area affixed to the hull below the waterline.

(d) Each application for ship station license, renewal of license or modification of license which requests authority to operate radio transmitting apparatus of portable nature on one or more frequencies below 25 Mc for radiotelephone transmission to public coast stations exclusively shall include a statement setting forth clearly the action taken, or to be taken, by the applicant or the station licensee to comply with the provisions of paragraph (c) of this section.

2. Section 8.134 (a) is amended to read as follows:

§ 8.134 *Authorized transmitter-power.* (a) Stations on board ship subject to this part may use such antenna power [2] as is necessary to carry on the service for which the station is licensed, on condition that the maximum authorized transmitter-power shall, subject to the provisions of paragraph (a) of § 8.110, not be exceeded; and on condition that the minimum authorized transmitter-power shall not be less than that designated in paragraph (c) of this section. Unless the station authorization specifically provides otherwise, the maximum authorized transmitter-power (as defined in paragraph (ii) of § 8.7) shall not exceed the particular power set forth in paragraphs (b) through (h) of this section which is applicable under the controlling factors designated therein in direct relation to that power. Unless the station license, specifically provides otherwise, the minimum authorized transmitter-power shall not be less than the particular power set forth in paragraph (c) of this section.

3. Section 8.134 (c) is amended by designating the present contents of paragraph (c) to be subparagraph (1) and adding a new subparagraph (2) to read as follows:

(2) For ship stations on board any category of vessel, the authorized transmitter-power on and after July 1, 1959, on frequencies between 2000 and 25,000 kc assigned for communication by telephony with public coast stations exclusively, shall not be less than the power designated in the following table:

Class of radio-frequency amplifier used in last radio stage of transmitter	*Minimum authorized transmitter power in watts (when no modulation is present)*
Class C—plate, or plate and screen-grid modulated	15.
Class C—Control, screen, or suppressor-grid modulated	30.
Class C—cathode modulated	24.
Other classes	Equivalent values as specified in the station authorization.

Provided, however, That the Commission may specifically license the use of authorized transmitter power less than that specified in the foregoing table, for telephone communication with public coast stations on frequencies within the band 2000 to 4000 kc on condition that the applicant or station licensee shall make a satisfactory showing to the Commission that, with the plate (anode) input power to be used,[3] a minimum radio frequency field intensity of 7.4 millivolts per meter will be obtained on each such frequency at a distance over sea-water [3] of one statute mile from the ship station independent of the direction in which the ship is headed.

[F. R. Doc. 54–3165; Filed, Apr. 27, 1954; 8:52 a. m.]

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Order 541]

REDELEGATIONS OF AUTHORITIES CONCERNED WITH LANDS AND RESOURCES [1]

PART I—REDELEGATIONS OF AUTHORITY TO AREA ADMINISTRATORS

AUTHORITY IN GENERAL

APRIL 21, 1954.

Redelegations of authorities concerned with lands and resources.

SECTION 1.0 *Functions of the area administrator.* (a) The area administrators of the Bureau of Land Management are authorized to perform in their respective areas and in accordance with the existing policies, regulations, and procedures of this Department, the functions of the Director, Bureau of Land Management, listed in Part I of this order, including all types of actions in the matters listed, unless specifically limited.

(b) *Limitations.* In addition to limitations on authority in specified matters, the authority delegated to the area administrator shall not include:

(1) The issuance of regulations.

(2) Any function which has been or may be delegated to the head, or other official, of any other agency of this Department.

(3) The issuance of public-land orders.

(4) The exercise of the supervisory powers of the Secretary, whether by way of appeal to the Secretary or otherwise.

(5) Any action to be taken with the approval or concurrence of the President, or the head of any department or independent agency of the Government.

(6) Any action affecting the lands or activities of any other agency in this Department, or other Federal agency, until the matter has been cleared with that agency.

(7) The issuance of patents or their equivalent.

SEC. 1.1 *Authority to redelegate.* (a) Each area administrator may redelegate or authorize the redelegation of any authority vested in him by this order to any qualified employee in his area, except the authority to appoint acting area administrators. Any order of redelegation of authority pursuant to this section must be approved by the Director, Bureau of Land Management and published in the FEDERAL REGISTER, except that:

(1) The area administrator may without such approval and publication redelegate to any qualified employee on his immediate staff authority to take actions for and on behalf of the area administrator in matters listed in sections 1.2 through 1.9 of Part I (according to the staff member's functional responsibilities).

(b) Any authority redelegated by the area administrator may, in his discretion, be exercised personally by him notwithstanding the redelegation of authority.

AUTHORITY IN SPECIFIED MATTERS

SEC. 1.2 *General and miscellaneous matters.* The area administrator may take the following actions, where he has authority in matters listed under other sections of this order:

(a) *Oaths.* Authorize any employee designated to make investigations of public land matters, to administer any oath, affirmation, affidavit, or deposition provided for under the act of October 14, 1940 (5 U. S. C. 498) whenever necessary in the performance of such employee's official duties.

(b) *Cancellations or surrenders of contracts, leases, and permits.* Make partial or complete cancellations or accept surrenders of contracts, leases, and permits.

(c) *Copies of records.* Furnish copies and exemplifications of patents, plats, and other records.

(d) *Gifts.* Accept on behalf of the United States any lands within or without a grazing district as a gift, where such action will promote the purposes of the district or facilitate the administration of the public lands, pursuant to section 8a of the Taylor Grazing Act, as amended (43 U. S. C. sec. 315g).

(e) *Government contests.* Initiate Government contests against claims asserted to public lands, and take all necessary actions involving the prosecution of such contests.

(f) *Reports and certifications in connection with Federal land highway projects.* Make reports and certifications as to public lands, in connection with Federal land highway projects, required by the act of June 24, 1930 (23 U. S. C. sec. 3).

(g) *Fire protection contracts.* Make contracts with State, county, municipal, and private fire-control organizations for the protection from fire (prevention, presuppression, and suppression) of the public lands under the jurisdiction of the Bureau of Land Management.

SEC. 1.3 *Fiscal affairs.* The area administrator may take the following actions:

(a) *Bonds.* Take all actions on bonds required in connection with matters pertaining to the lands or the resources thereof under his jurisdiction.

(b) *Contributions and refunds.* Accept contributions toward the administration, protection, and improvement of lands within or without grazing districts, and remit or refund any unexpended balances of such contributions pursuant to section 9 of the Taylor Grazing Act (43 U. S. C. sec. 315h).

(c) *Repayment.* Take all actions on applications for repayment under 43 CFR, Part 217.

(d) *Trespass.* Determine liability and accept damages for trespass on the public lands, and dispose of resources recovered in trespass cases for not less than the appraised value thereof; recommend to the United States Attorney (1) institution of suits arising out of trespass where the money judgment sought is not in excess of $1,000, and (2) compromise of such suits where the amount is not in excess of $500.

SEC. 1.4 *Cadastral engineering.* The area administrator may take the following actions:

(a) *Surveys.* (1) Perform all functions pertaining to the survey and resurvey of the public lands under his jurisdiction pursuant to section 453 of the Revised Statutes (43 U. S. C. sec. 2), except the acceptance of plats of survey and resurvey.

(2) Appoint mineral surveyors and approve and accept their bonds, pursuant to section 2334 of the Revised Statutes (30 U. S. C. sec. 39).

(3) Approval of plats and field notes of mineral surveys and certification of expenditures pursuant to 43 CFR 280.3.

(4) Prepare and publish in the FEDERAL REGISTER notices of the official filing of approved plats of survey and resurvey.

SEC. 1.5 *Classifications and withdrawals.* The area administrators may take the following actions:

[1] Authority Source—Department Order 2583 as amended.

[2] See § 8.7 (ff) of this part.

[3] Over fresh water, the minimum radio frequency field intensity is reduced to 4.8 millivolts per meter at one statute mile.

(a) *Classification of lands.* Classify public lands under section 7 of the Taylor Grazing Act of June 28, 1934, as amended (43 U. S. C. sec. 315f), or pursuant to other laws.

(b) *Orders of Withdrawal and Restoration.* (1) Issue orders of the classes listed below withdrawing or reserving public lands, or restoring such lands from withdrawal or reservation, based on the following statutory powers of the Secretary:

(a) Stock driveways, authorized by section 10 of the act of December 29, 1916, as amended (43 U. S. C. sec. 300);

(b) Air-navigation facilities, under section 4 of the act of May 24, 1928 (49 U. S. C. sec. 214);

(c) Waiver of restrictions as to length of claims and restoration of reserved shorespace in Alaska, under the act of June 5, 1920 (48 U. S. C. sec. 372).

(d) Restorations under section 24 of the Federal Power Act, as amended (16 U. S. C. sec. 818);

(e) Opening reclamation lands to location and entry under the general mining laws, in accordance with the act of April 23, 1932 (43 U. S. C. sec. 154);

(f) Opening lands to disposal under public land laws other than through restoration from withdrawal;

(g) Concur with Bureau of Reclamation on withdrawals and restorations in accordance with Department Order 2515 of April 7, 1949.

(2) All orders issued pursuant to the authority contained in this section shall be published in the FEDERAL REGISTER.

(c) *Public Land Orders.* Act on matters relating to the issuance of public land orders, pursuant to 43 CFR 295.9 to 295.11, except actions required by 43 CFR 295.11 (b) and (c) to be taken by the Secretary of the Interior or his delegate.

SEC. 1.6 *Minerals.* The area administrator may take the following actions:

(a) *Oil and gas leases.* Act on all matters involving oil and gas leases pursuant to the act of February 25, 1920, as amended and supplemented (30 U. S. C. secs. 181, et seq.), the act of August 7, 1947 (30 U. S. C. secs. 351–359), and the act of May 21, 1930 (30 U. S. C. secs. 301–306), and leases of oil and gas deposits transferred to this Department for measures to protect the deposits from drainage. This authority does not include any function pertaining to oil and gas deposits that involve approval or execution of unit or cooperative agreements, communitization agreements, operating, drilling, or development contracts without regard to acreage limitations, or the sale of royalty oil taken in account of production.

(b) *Coal permits, leases, and licenses; asphalt leases.* (1) Act on all matters involving coal permits, leases, and licenses under sections 2 to 8 inclusive, of the act of February 25, 1920, as amended and supplemented (30 U. S. C. secs. 201–208), including coal permits and leases under the act of August 7, 1947 (30 U. S. C. secs. 351–359), and coal permits and leases and asphalt leases under the acts of June 26, 1944 (58 Stat. 483–485), June 24, 1948 (62 Stat. 596), and May 24, 1949 (63 Stat. 75).

(2) *Alaska, coal permits.* Take all actions on coal permits under the act of March 4, 1921 (48 U. S. C. sec. 444), and coal leases and permits for the free use of coal under the act of October 20, 1914 (48 U. S. C. secs. 432–445 and 446–452).

(3) The authority delegated by this section shall not include any function relating to the grant, approval or termination of the waiver, suspension, or reduction of rental or minimum royalty, the reduction of royalty, or the suspension of operations and production under a lease.

(c) *Oil shale leases.* Take all actions on oil shale leases under section 21 of the act of February 25, 1920 (30 U. S. C. sec. 241), and under the act of August 7, 1947 (30 U. S. C. secs. 351–359). The authority delegated by this section shall not include any function relating to the grant, approval or termination of the waiver, suspension, or reduction of rental or minimum royalty, the reduction of royalty, or the suspension of operations and production under a lease.

(d) *Phosphate leases.* Take all actions on matters related to phosphate leases under sections 9 to 12 inclusive, of the act of February 25, 1920 (30 U. S. C. 211–214), as amended, and phosphate leases under the act of August 7, 1947 (30 U. S. C., 351–359).

(e) *Potassium permits and leases.* Take all actions on matters related to potassium permits and leases under the act of February 7, 1927 (30 U. S. C. secs. 281–285), as amended, and potassium permits and leases under the act of August 7, 1947 (30 U. S. C., 351–359).

(f) *Sodium permits and leases.* Take all actions on sodium permits, leases, and use permits under sections 23 to 25 inclusive, of the act of February 25, 1920, as amended (30 U. S. C., secs. 261–263), and under the act of August 7, 1947 (30 U. S. C., secs. 351–359).

(g) *Sulphur permits and leases.* Take all actions on sulphur permits and leases under the act of April 17, 1926, as amended (30 U. S. C., sec. 271), and under the act of August 7, 1947 (30 U. S. C., secs. 351–359).

(h) *Agreements to compensate for drainage of oil or gas.* Execute agreements for payment of compensatory royalties because of drainage of oil or gas.

(i) *Gold, silver, and quicksilver leases.* Take all actions on leases of gold, silver, and quicksilver to the owners of confirmed private land claims, pursuant to 43 CFR, Part 187.

(j) *Minerals subject to lease under special laws.* Take all actions on permits and leases for sand, gravel, and other minerals under special laws, pursuant to 43 CFR, Part 199; also permits and leases for certain mineral deposits in acquired lands, pursuant to 43 CFR 200.31, et seq.

(k) *Mining claims.* Take all actions on mining claims, pursuant to the general mining laws and laws supplemental thereto, and 43 CFR, Parts 185 and 69.

SEC. 1.7 *Range Management.* The area administrator may exercise the following authority:

(a) *Grazing district administration.* Act on matters pertaining to the administration of grazing districts pursuant to the act of June 28, 1934, as amended and supplemented (43 U. S. C. sec. 315 et seq., 16 U. S. C. sec. 715i), and 43 CFR, Parts 161, 163, and 165, as follows:

(1) Licenses or permits to graze or trail livestock in grazing districts.

(2) Cooperative agreements under:

(a) Section 2 of the act (43 U. S. C. sec. 315a) with respect to erosion and flood control, and range studies and experiments.

(b) Section 9 of the act (43 U. S. C. sec. 315h) with associations or State agencies for the conservation or propagation of wildlife.

(c) Section 12 of the act (43 U. S. C. sec. 315k) with any department of the Government to coordinate range administration.

(3) Permits or cooperative agreements to construct and maintain range improvements and determine the value of such improvements.

(4) The expenditure of funds appropriated by the Congress, or contributed by individuals, associations, advisory boards, or others, for the construction, purchase or maintenance of range improvements.

(5) Leases under the Pierce Act (43 U. S. C. secs. 315m–1 to 315m–4 inclusive).

(6) Requirements of field employees to furnish horses and miscellaneous equipment necessary for the performance of their official duties, pursuant to the act of December 18, 1942 (43 U. S. C. sec. 315o–2), and make payments in connection therewith as authorized by that act.

(b) *Grazing leases.* (1) Grazing leases of public lands, under section 15 of the act of June 28, 1934, as amended (43 U. S. C. sec. 315m), and the permits or cooperative agreements to construct and maintain improvements on lands so leased, and to determine the value of such improvements.

(2) Grazing leases of the revested Oregon and California Railroad and the reconveyed Coos Bay Wagon Road grant lands in Oregon, and crossing permits for such lands, in accordance with 43 CFR, Part 115.

(3) Grazing leases of public lands in Alaska, under the act of March 4, 1927 (43 U. S. C. secs. 471, 471a–471c).

(c) *Appropriation of water.* Execute and forward to the proper State office informational notices of the appropriation of water on the public lands, and applications under State laws to appropriate water on other lands under the administration of the Bureau of Land Management, where required in connection with stockwatering projects, and procurement of easements or rights-of-way upon or over private lands where improvements are erected.

(d) *Soil and moisture conservation; control of Halogeton glomeratus.* (1) Soil and moisture conservation on the public lands, pursuant to the National Soil Conservation Act of April 27, 1935 (16 U. S. C. sec. 590a, et seq.).

(2) Surveys and other operations and the expenditure of appropriated funds and contributions, under the Halogeton Glomeratus Control Act of July 14, 1952 (66 Stat. 597) and Order No. 2736 of October 28, 1953.

(3) The authority granted by paragraphs (1) and (2) shall include authority to enter into cooperative agreements in the matters listed and shall be subject to the coordination and general supervision of the Office of the Secretary.

(e) *Controlled Brush Burning.* Issue permits for the controlled burning of brush, as a means of improving the range by the replacement of the brush with grass and other desirable species.

SEC. 1.8 *Forest management.* The area administrator may take the following actions:

(a) *Disposition of forest products.* (1) Dispose of or permit the free use of forest products when authorized by law on lands under the jurisdiction of the Bureau of Land Management. This authority shall not include the approval of any sale of timber in excess of 25,000,000 feet, board measure.

(2) Sell timber on lands under the jurisdiction of the Bureau of Reclamation, in accordance with Department Order No. 2533 of September 7, 1949.

(b) *Hearings in connection with sustained-yield forest units.* Schedule and hold public hearings on master forest units and their appurtenant marketing areas, and on sustained-yield forest units and cooperative agreements for sustained-yield forest units, comprising revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands in Oregon, and lands in private ownership or controlled by other public agencies, under authority of the act of August 28, 1937 (50 Stat. 874), and 16 U. S. C. secs. 383a–383i. The notice of hearing may designate any qualified employee in the area to hold the hearing. This shall not include the approval of sustained-yield timber units.

(c) *Cutting of timber on certain mining claims in Oregon.* Approve applications from owners of mining claims located since August 28, 1937, on revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands in Oregon, to cut and use so much of the timber on the mining claims as is necessary in the development and operation of the mines until such time as the timber is otherwise disposed of by the United States, pursuant to the act of April 8, 1948 (62 Stat. 162).

(d) *Roads.* Act on matters involving the acquisition of rights-of-way for access roads on the revested Oregon and California Railroad and the reconveyed Coos Bay Wagon Road grant lands in Oregon, and of existing connecting roads adjacent to such lands, including purchases after clearance with the Department of Justice but not including recommendations to the Attorney General for condemnation proceedings and excepting also approval of projects for the construction of roads to provide access to the timber on such lands.

SEC. 1.9 *Land use.* The area administrator may take the following actions:

(a) *Airports and air navigation facilities.* (1) Issue leases of public lands for public airports and permits for air navigation facilities under the act of May 24, 1928 (49 U. S. C. secs. 211–214).

(2) Take all actions under the Federal Airport Act (49 U. S. C. sec. 1101).

(b) *Cemetery sites.* Take all actions relating to cemetery sites, including such sites in Alaska, pursuant to 43 CFR, Parts 72 and 253.

(c) *Color-of-title and riparian claims.* Take all actions relating to color-of-title and riparian claims, under 43 CFR, Parts 140 and 141.

(d) *Exchanges.* Take actions in all matters relating to exchanges of lands and of timber for lands, except when the value of the selected lands or timber exceeds $250,000.

(e) *Homesteads.* Take all actions on homesteads, including homesteads in Alaska, pursuant to 43 CFR, Parts 166 to 170 inclusive, and Parts 65 and 66.

(f) *Indian allotments.* Take all actions relating to Indian allotments, including allotments in Alaska, with the concurrence of the Commissioner of Indian Affairs, pursuant to 43 CFR, Parts 176 and 67.

(g) *Material other than forest products.* Take all actions relating to any sale or contract for the sale of material other than forest products, or the free use of materials other than forest products, under 43 CFR, Part 259.

(h) *Mineral or medicinal springs.* Take all actions relating to leases of lands adjacent to mineral or medicinal springs, under the act of March 3, 1925 (43 U. S. C. sec. 971).

(i) *Parks and recreational sites.* Take all actions with respect to parks and recreational sites, when authorized by law.

(j) *Motion or sound pictures.* Issue permits to film motion or sound pictures on areas under the jurisdiction of the Bureau of Land Management, pursuant to 43 CFR, Part 5.

(k) *Public sales.* (1) Take all actions on public sales pursuant to 43 CFR, Part 250, and other sales of land by competitive bidding when authorized by law.

(2) Applications by and sales to aliens, associations having an appreciable number of alien numbers, and corporations whose stock to an appreciable extent is held by aliens, are subject to approval by the Secretary of the Interior.

(l) *Railroad grants.* Adjust railroad grants and claims within such grants, pursuant to 43 CFR, Part 273, subject to approval of the validity of the grant rights.

(m) *Reclamation and irrigation.* Take all actions on reclamation and desert-land entries, State irrigation districts, and Nevada under-ground water permits and entries, pursuant to 43 CFR, Parts 230 to 234, inclusive; also, entries, sales, and exchanges of lands in reclamation projects, pursuant to 43 CFR, Chapter II, Bureau of Reclamation, or special instructions of the Secretary of the Interior, to the extent that action by the Bureau of Land Management is required.

(n) *Rights-of-way.* Grant right-of-way permits and easements over public and acquired lands, including revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands in Oregon, and over reservations other than Indian reservations, when authorized by law; and approve construction in advance of the issuance of a permit or the granting of an easement. Actions involving lands within the jurisdiction of any other agency may be taken only with the approval of the head of the bureau or agency administering the land.

(o) *Small tracts.* Take all actions with respect to small tracts, under the act of June 1, 1938 (43 U. S. C. sec. 682a), as amended.

(p) *Special land-use permits.* Take all actions in issuing:

(1) Special land-use permits for public lands, pursuant to 43 CFR, Part 258.

(2) Special land-use permits for revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands in Oregon pursuant to 43 CFR, sec. 115.150.

(3) Special land-use permits for acquired lands under the administration of the Bureau of Land Management, under the principles embodied in 43 CFR, Part 258.

(4) Permits to use areas below the high-water mark of navigable waters in Alaska for occupancy purposes under the principles embodied in 43 CFR, Part 258, subject to rules, regulations, and requirements of the Department of the Army respecting the navigation of such streams.

(5) Landing and wharf permits on reserved shorespaces in Alaska pursuant to 43 CFR, Part 68.

(6) Not more than 50,000 acres may be included in a permit issued to a Federal or State agency or to a political subdivision, and no permit may be issued under this authority where a withdrawal of a class which the area administrator is not authorized to make is requested.

(q) *State grants, and grants to Territory of Alaska.* Take all actions on State grants and selections, and grants to and selections by the Territory of Alaska, when authorized by law, but not including the approval of clear lists pursuant to section 2449 of the Revised Statutes (43 U. S. C. sec. 859).

(r) *Surface rights.* Take all actions on nonmineral applications for lands embraced in mineral permits or leases, or in applications for such permits or leases, or classified, withdrawn, or reported as valuable for any leasable mineral, or lying within the geologic structure of a field, in accordance with 43 CFR Parts 102 and 66.

(s) *Townsites.* Take all actions on all townsite matters except withdrawals: *Provided*, That reclamation townsite matters shall be handled jointly with the Director of Reclamation, pursuant to 43 CFR, §§ 255.42 to 255.45, inclusive, and § 255.47.

(t) *Water wells.* Take all actions on water-well leases, pursuant to section 40 of the Mineral Leasing Act (30 U. S. C. sec. 229a) and 30 CFR, sec. 241.6.

(u) *Matters pertaining to Alaska only.*—(1) *Alaska, fur farms.* Take all actions on leases of public lands in Alaska for fur farms, under the act of July 3, 1926 (48 U. S. C. secs. 360, 361).

(2) *Alaska, homesites or headquarters.* Take all actions on homesites or headquarters in Alaska, pursuant to 43 CFR Part 64.

(3) *Alaska Housing Authority.* Transfer to the Alaska Housing Authority lands above high-water mark and under the jurisdiction of the Department of the Interior, pursuant to section 6 of the

Alaska Housing Act of April 23, 1949 (48 U. S. C. sec. 484c).

(4) *Alaska, Matanuska Valley.* Dispose of lands in the Matansuka Valley, Alaska, under the act of October 17, 1940 (48 U. S. C. sec. 353 Note).

(5) *Alaska Public Works.* Take all actions on transfers in accordance with sec. 7 of the act of August 24, 1949 (48 U. S. C. sec. 486e), of any interest in public lands in Alaska for any public works project which has been approved under section 4 of the act.

(6) *Alaska, trade and manufacturing sites.* Take all actions on trade and manufacturing sites in Alaska, pursuant to 43 CFR, Part 81.

(7) *Alaska mission claims.* Take all actions pursuant to section 27 of the act of June 6, 1900 (31 Stat. 330) and 50 L. D. 55.

(v) *Certificates, scrip and lieu selections.* Take all actions in connection with certificates and scrip under 43 CFR Parts 130 to 133, inclusive and also forest lieu selections, in accordance with footnote 1, to Part 130, subject to approval of the validity of the scrip or other right.

(w) *Timber and stone entries.* Take all actions on timber and stone entries pursuant to 43 CFR Part 285.

SEC. 1.10 *Designation of acting officials.* The area administrator may designate:

(a) *Acting Area Administrator.* By written order, any principal staff officer in his area to perform the functions of the area administrator, in case of death, resignation, absence, or sickness of the area administrator.

(b) *Acting Principal Staff Officer.* By written order, any qualified employee of the various staff offices to perform the functions of the principal staff officer, in case of death, resignation, absence, or sickness of the principal staff officer.

(c) No other employee may be designated by the area administrator to serve as acting area administrator, except with the prior approval of the Director, and each employee who serves in such capacity in (a) or (b) above shall prepare a memorandum to be kept in the area office showing the date and hour of the commencement and termination of each period of his service in that capacity.

PART II—REDELEGATION OF AUTHORITY TO STATE SUPERVISORS

AUTHORITY IN GENERAL

SECTION 2.0 *Functions of the State supervisor.* (a) The State supervisors of the Bureau of Land Management are authorized to perform in their respective areas [1] and in accordance with the existing policies, regulations, and procedures of this Department, and under the direct supervision of the area administrator, the functions of the Director, Bureau of Land Management, as listed in Part I of this order. This shall include all types of actions within their areas of jurisdiction in the matters listed, unless specifically limited in Part II of this order.

(b) *Limitations.* In addition to limitations on authority in specified matters the authority delegated to the State supervisor shall not include those listed in Part I, 1.0 (b).

SEC. 2.1 *Authority to redelegate.* (a) Each State supervisor may redelegate any authority vested in him by this order to any qualified employee in his area of jurisdiction, except as to the authority to appoint the acting State supervisor. Any order of redelegation of authority pursuant to this section must be approved by the Director, Bureau of Land Management and published in the FEDERAL REGISTER, except that:

(1) The State supervisor may without such approval and publication redelegate to any qualified employee on his immediate staff, authority to take action for and in behalf of the State supervisor in matters listed in sections 2.2 through 2.9 of Part II (according to the staff member's functional responsibilities) without approval of the Director.

(b) Any authority redelegated by the State supervisor may, in his discretion, be exercised personally by him notwithstanding the redelegation of authority.

AUTHORITY IN SPECIFIED MATTERS

The State supervisor may take all actions on matters listed in sections 1.2 through 1.9 of Part I of this order, subject to the limitations listed in Part I, together with any specific limitations listed below:

SEC. 2.2 *General and miscellaneous matters.* The State supervisor may take all actions listed under this section in Part I of this order, except:

(e) *Government contests.* The presentation of the Government's case at the hearing.

SEC. 2.3 *Fiscal affairs.* The State supervisor may take all actions listed under this section of Part I of this order except:

(d) (1) Recommendations to the U. S. Attorney for institution or compromise of suits arising out of trespass.

SEC. 2.4 *Cadastral engineering.* The State supervisor may take all actions listed under this section of Part I, except subparagraphs (1), (2), and (3) of section 1.4 (a).

SEC. 2.5 *Classifications and withdrawals.* The State supervisor may take all actions listed under this section of Part I.

SEC. 2.6 *Minerals.* The State supervisor may take all actions listed under this section of Part I.

SEC. 2.7 *Range management.* The State supervisor may take all actions listed under this section of Part I.

SEC. 2.8 *Forest management.* The State supervisor may take all actions listed under this section of Part I.

SEC. 2.9 *Land use.* The State supervisor may take all actions on matters listed under this section of Part I except:

(d) *Exchanges.* Subject to title opinion of area counsel.

SEC. 2.10 *Designation of acting officials.* The State supervisor may designate:

(a) *Acting State Supervisor.* By written order, any principal staff officer in his State to perform the functions of the State supervisor, in case of death, resignation, absence, or sickness of the State supervisor.

(b) *Acting Principal Staff Officer.* By written order, any qualified employee of the staff office to perform the functions of the principal staff officer, in case of death, resignation, absence, or sickness of the principal staff officer.

(c) *Acting District Field Office Manager.* The assistant district field office manager, or if there is no assistant manager present, by written order any qualified employee in his State, to perform the functions of the manager in case of death, resignation, absence, or sickness of the manager.

(d) Each employee who serves in such capacity in (a) through (c) above shall prepare a memorandum to be kept in the State or district office showing the date and hour of commencement and termination of each period of his service in that capacity.

PART III—REDELEGATION TO DISTRICT FIELD OFFICE MANAGERS

PART III-A—REDELEGATION TO LAND OFFICE MANAGERS

Authority in General

SECTION 3.0 *Functions of land office manager.* (a) The land office managers are authorized to perform in their respective areas [2] and in accordance with the existing policies, regulations and procedures of this Department, and under the direct supervision of the State supervisor, the functions of the Director, Bureau of Land Management, as listed below, subject to the limitations listed in Parts I and II, together with any limitations specified below.

Authority in Specified Matters

SEC. 3.2 *General and miscellaneous matters.* On matters in which he is authorized to act, the land office manager may take all actions on:

(b) *Cancellations or surrenders of contracts and leases.*

(c) *Copies of records.*

(e) *Government contests.*

SEC. 3.3 *Fiscal affairs.* On matters in which he is authorized to act, the land office manager may take all actions on:

(a) *Bonds.*

(c) *Repayments.*

SEC. 3.4 *Cadastral engineering.* The land office manager may take the following action:

(a) (4) Preparation and publication in the FEDERAL REGISTER of notices of the official filing of approved plats of survey and resurvey.

[1] The State supervisor for Montana shall also have jurisdiction in the States of North and South Dakota. The State supervisor for Wyoming shall also have jurisdiction in the States of Nebraska and Kansas. The State supervisor for New Mexico shall also have jurisdiction in the State of Oklahoma.

[2] The land office manager at Billings shall also have jurisdiction in North and South Dakota. The land office manager at Cheyenne shall also have jurisdiction in Nebraska and Kansas. The land office manager at Santa Fe shall also have jurisdiction in Oklahoma.

SEC. 3.5 *Classifications and withdrawals.* Subject to receipt of a report from the State supervisor, the land office manager may take all the listed actions on:

(b) *Orders of withdrawal and restoration.*

(c) *Public land orders.*

SEC. 3.6 *Minerals.* The land office manager may take all the listed actions on:

(a) *Oil and gas leases.*

(b) *Coal permits, leases, and licenses; asphalt leases.*

(c) *Oil shale leases.*

(d) *Phosphate leases.*

(e) *Potassium permits and leases.*

(f) *Sodium permits and leases.*

(g) *Sulphur permits and leases.*

(h) *Agreements to compensate for drainage of oil and gas.*

(i) *Gold, silver, and quicksilver leases.*

(j) *Minerals subject to lease under special laws.*

(k) *Mining claims.*

SEC. 3.7 *Range management.* The land office manager may take all actions on:

(b) (3) Grazing leases of public lands in Alaska under the act of March 4, 1927 (43 U. S. C. secs. 471, 471a–471c).

SEC. 3.9 *Land use.* Subject to classification action by the State supervisor, where necessary, the land office manager may take all actions on:

(a) *Airports and air navigation facilities.*

(b) *Cemetery sites.*

(c) *Color-of-title and riparian claims.* Subject to approval of color-of-title or claim of right by the area counsel.

(d) *Exchanges.*

(6) Authority subject to title approval of offered lands by the area counsel and limited to exchanges in which the value of the selected lands does not exceed $50,000.

(e) *Homesteads.*

(f) *Indian allotments.*

(g) *Material other than forest products.*

(h) *Mineral or medicinal springs.*

(i) *Motion or sound pictures.* Authority limited to lands outside of established grazing and forest districts.

(j) *Parks and recreational sites.*

(k) *Public sales.*

(l) *Railroad grants.*

(m) *Reclamation and irrigation.*

(n) *Rights-of-way.* Authority does not include logging road rights-of-way on public lands west of Range 8 East, Willamette Meridian, Oregon.

(o) *Small tracts.*

(p) *Special land-use permits,* except:

(1) Special land-use permits within grazing or forest districts.

(2) Special land-use permits for revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands in Oregon.

(q) *State grants, and grants to Territory of Alaska.*

(r) *Surface rights.*

(s) *Townsites.*

(t) *Water wells.*

(u) *Matters pertaining to Alaska only.* The land office manager may take all the listed actions on:

(1) *Alaska, fur farms.*

(2) *Alaska, homesites or headquarters.*

(3) *Alaska, housing authority.*

(4) *Alaska, Matanuska Valley.*

(5) *Alaska public works.*

(6) *Alaska, trade and manufacturing sites.*

(7) *Alaska mission claims.*

(v) *Certificates, scrip and lieu selections.*

(w) *Timber and stone entries.*

PART III-B—REDELEGATIONS TO RANGE MANAGERS

Authority in General

SECTION 3.0 *Functions of range manager.* (a) The range managers are authorized to perform in their respective areas and in accordance with the existing policies, regulations and procedures of this Department, and under the direct supervision of the State supervisor, the functions of the Director, Bureau of Land Management, as listed below, subject to the limitations listed in Parts I and II, together with any limitations specified below.

Authority in Specified Matters

SEC. 3.2 *General and miscellaneous matters.* On matters in which he is authorized to act, the range manager may take all actions on:

(b) *Cancellations or surrenders of contracts.*

(c) *Copies of records.*

SEC. 3.3 *Fiscal affairs.* On matters in which he is authorized to act, the range manager may take all actions on:

(a) *Bonds.*

(c) *Repayments.*

SEC. 3.7 *Range management.* The range manager may take all the listed actions on:

(a) Licenses and permits to graze or trail livestock in a grazing district.

(3) Permits or cooperative agreements to construct and maintain range improvements and determine the value of such improvements.

(4) The expenditure of funds appropriated by Congress, or contributed by individuals, associations, advisory boards, or others for the construction, purchase or maintenance of range improvements.

(b) *Grazing leases.*

(c) *Appropriation of water.*

(d) *Soil and moisture conservation; control of halogeton glomeratus.*

(e) *Controlled brush burning.* In accordance with plans and specifications approved by the State supervisor.

SEC. 3.8 *Forest management.* The range manager may take all the listed actions on: (a) (1) Disposal of or permit the free use of forest products when authorized by law on lands under the jurisdiction of the Bureau of Land Management. This authority shall not include approval of any sale of forest products whose value is in excess of $5,000.

SEC. 3.9 *Land use.* The range manager may take all the listed action on:

(g) *Material other than forest products.*

(i) *Motion or sound pictures.*

(p) *Special land-use permits.* (1) Issue special land-use permits for public lands within the grazing district.

PART III-C—REDELEGATIONS TO DISTRICT FORESTERS

Authority in General

SECTION 3.0 *Functions of the district forester.* (a) The district foresters are authorized to perform in their respective areas and in accordance with the existing policies, regulations, and procedures of this Department, and under the direct supervision of the State supervisor, the functions of the Director, Bureau of Land Management as listed below subject to the limitations listed in Parts I and II together with any limitations specified below.

Authority in Specified Matters

SEC. 3.2 *General and miscellaneous matters.* On matters in which he is authorized to act, the district forester may take actions on:

(a) *Cancellations or surrenders of contracts.*

(b) *Copies of records.*

SEC. 3.3 *Fiscal affairs.* On matters in which he is authorized to act, the district forester may take action on:

(a) *Bonds.*

(c) *Repayment.*

SEC. 3.7 *Range management.* The district forester may take all the listed action on:

(b) *Grazing leases.*

(e) *Controlled brush burning.*

SEC. 3.8 *Forest management.* The district forester may take all the listed action on:

(a) *Disposition of forest products.*

(c) *Cutting of timber on certain mining claims in Oregon.*

(d) *Roads.*

SEC. 3.9 *Land use.* The district forester may take all the listed action on:

(g) *Material other than forest products.*

(i) *Motion or sound pictures.*

(n) *Rights-of-way.* Limited to logging road rights-of-way over public lands west of Range 8 East, Willamette Meridian, Oregon.

(p) *Special land-use permits.*

(1) Special land-use permits for public lands within the forest districts.

(2) Special land-use permits for revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands in Oregon.

PART IV—REDELEGATIONS OF AUTHORITY TO THE EASTERN STATES OFFICE SUPERVISOR

AUTHORITY IN GENERAL

SECTION 4.0 *Functions of Eastern States supervisor.* (a) In accordance with the existing policies, regulations and procedures of this Department, and under the direct supervision of the Assistant Director for Operations, the Eastern States supervisor of the Bureau of Land Management is authorized to perform in his geographical area of jurisdiction, the functions of the Director, Bureau of Land Management, as listed in Part I of this order and irrespective of geographical limitations all authority of

the Director in the matters listed in section 4.11 of Part IV of this order unless specifically limited.

(b) *Limitations.* In addition to limitations on authority in specified matters, the authority delegated to the Eastern States Supervisor shall not include:

(1) The issuance of regulations.

(2) Any function which has been or may be delegated to the head, or other official, of any other agency of this Department.

(3) The issuance of public-land orders.

(4) The exercise of the supervisory powers of the Secretary, whether by way of appeal to the Secretary or otherwise.

(5) Any action to be taken with the approval or concurrence of the President, or the head of any department or independent agency of the Government.

(6) Any action affecting the lands or activities of any other Federal agency until the matter has been cleared with that agency.

SEC. 4.1 *Authority to redelegate.* (a) The Eastern States supervisor may redelegate any authority vested in him by this order to any qualified employee in his area of jurisdiction, except the authority to appoint the acting Eastern States supervisor. Any order of redelegation of authority pursuant to this section must be approved by the Director, Bureau of Land Management, and published in the FEDERAL REGISTER, except that:

(1) The Eastern States supervisor may, without such approval and publication, redelegate to any qualified employee on his immediate staff, authority to take action for and in behalf of the Eastern States supervisor in matters listed under Authority in Specified Matters of Part IV (according to the staff member's functional responsibilities).

(b) Any authority redelegated by the Eastern States supervisor may, in his discretion, be exercised personally by him, notwithstanding the redelegation of authority.

AUTHORITY IN SPECIFIED MATTERS

The Eastern States supervisor may take all actions on matters listed in sections 1.2 through 1.9 of Part I of this order and section 4.11 of Part IV, subject to the limitations listed in Part I, together with any specific limitations listed below.

SEC. 4.2 *General and miscellaneous matters.* The Eastern States supervisor may take all actions listed under this section of Part I of this order, except:

(c) *Government contests.* The presentation of the Government's case at the hearing.

SEC. 4.3 *Fiscal affairs.* The Eastern States supervisor may take all actions listed under this section of Part I of this order, except:

(d) (1) Make recommendations to the U. S. Attorney for institution or compromise of suits arising out of trespass.

SEC. 4.4 *Cadastral engineering.* The Eastern States supervisor may take all actions listed under this section of Part I.

SEC. 4.5 *Classifications and withdrawals.* The Eastern States supervisor may take all actions listed under this section of Part I.

SEC. 4.6 *Minerals.* The Eastern States supervisor may take all actions listed under this section of Part I.

SEC. 4.7 *Range management.* The Eastern States supervisor may take all actions listed under this section of Part I.

SEC. 4.8 *Forest management.* The Eastern States supervisor may take all actions listed under this section of Part I.

SEC. 4.9 *Land use.* The Eastern States supervisor may take all actions on matters listed under this section of Part I except:

(d) *Exchanges.* Subject to title opinion of area counsel.

SEC. 4.10 *Designation of acting officials.* The Eastern States supervisor may designate:

(a) *Acting Eastern States supervisor.* By written order, any principal staff officer in his office to perform the functions of the Eastern States supervisor, in case of death, resignation, absence, or sickness of the Eastern States supervisor.

(b) *Acting principal staff officers.* By written order, any qualified employee of the various staff offices to perform the functions of the principal staff officer, in case of death, resignation, absence, or sickness of the principal staff officer.

(c) *Acting district field office manager.* The assistant district field office manager, or if there is no assistant manager present, by written order any qualified employee in his office, to perform the functions of the manager in case of death, resignation, absence, or sickness of the manager.

(d) Each employee who serves in such capacity in (a) through (c) above, shall prepare a memorandum to be kept in the Eastern States office, or district office, showing the date and hour of the commencement and termination of each period of his service in that capacity.

SEC. 4.11 *Authority in special matters.* The Eastern States supervisor may take the following actions:

(a) *Amendment of entries and patents.*

(b) *Patents.* Issue patents or their equivalent for grants of land under the authority of the Government, to be issued in the name of the United States, other than patents or other conveyances which require the approval or signature of the President. Patents may be signed by the chief of the patents section of the Eastern States office, and, in his absence, by the acting chief of the section.

(c) *Cash and credit system.* Take all actions on cash and credit system and preemption entries when full payment has been made.

(d) *Private land and small-holding claims.* Take all actions on:

(1) Confirmed private land claims.

(2) Small-holding claims.

(e) *Drainage entries.* Take all actions on Arkansas and Minnesota drainage entries, in accordance with 43 CFR Parts 117 and 118, respectively.

(f) *Railroad grants.* Approve the validity of the grant rights in regard to railroad grants and claims within such grants pursuant to 43 CFR, Part 273.

(g) *Certificates, scrip, and lieu selections.* Approve the validity of the scrip or other right pursuant to 43 CFR, Parts 130 to 133, inclusive.

(h) *Disposal of specified tracts.* Take all actions in regard to the disposal of specified tracts of public land when authorized by law.

(i) *Withdrawals and restorations.* Take all actions in regard to withdrawals and restorations under the Secretary's authority when not specified elsewhere in this order.

(j) *Mineral leases of submerged lands of outer Continental Shelf issued by a State.* The making of determinations respecting the compliance or noncompliance of mineral leases issued by any State with the requirements of section 6 of the Outer Continental Shelf Lands Act (67 Stat. 462; Public Law 212, 83d Congress), provided that such determinations shall be submitted to the Solicitor for concurrence.

PART V—APPEALS

SECTION 5.1 *Right of appeal.* Any person aggrieved by the action of any area administrator, State supervisor, land office manager, range manager, district forester or their delegate may appeal to the Director, Bureau of Land Management, and from his decision to the Secretary of the Interior, pursuant to the Rules of Practice (43 CFR, Part 221).

PART VI—EFFECT ON PRIOR ORDERS

SECTION 6.1 *Revocations.* Bureau of Land Management Orders No. 427, as amended, and No. 473, and Regional Orders Region I—No. 100; Region II—No. 1; Region III—No. 46; Region IV—No. 9; Region V—No. 24; Region VI—No. 1; and Region VII—No. 1, as amended, are hereby revoked effective immediately as to all district and land offices but effective otherwise as to each area and Eastern States office upon the opening of the area office and Eastern States office, respectively.

EDWARD WOOZLEY,
Director.

OREGON

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

APRIL 19, 1954.

An application, serial number Oregon 03102, for the withdrawal from all forms of appropriation under the general mining laws, except mineral leasing of the lands described below was filed on February 1, 1954, by Forest Service, Department of Agriculture. The purposes of the proposed withdrawal: Administrative and public service sites, recreational areas, forest camps, and other public purposes."

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region I, Bureau of Land Management, Department of the Interior at Swan Island Station, Portland 18, Oregon. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

OREGON, WILLAMETTE MERIDIAN

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 7287, 8782, 11006, 11007, 11008]

ALLEGHENY BROADCASTING CORP. ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Allegheny Broadcasting Corporation, McKeesport, Pennsylvania, Docket No. 7287, File No. BPCT-147; WCAE, Incorporated, Wilkinsburg, Pennsylvania, Docket No. 8782, File No. BPCT-293; William G. Matta and George C. Matta, d/b as Matta Enterprises, Braddock, Pennsylvania, Docket No. 11006, File No. BPCT-1467; Wespen Television, Inc., Irwin, Pennsylvania, Docket No. 11007, File No. BPCT-1732; Irwin Community Television Company, Irwin, Pennsylvania, Docket No. 11008, File No. BPCT-1742; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of April 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 4 assigned to Pennsylvania; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that Columbia Broadcasting System, Inc. (CBS), owner of a 45 percent stock interest in Allegheny Broadcasting Corporation, is also the licensee or permittee of three television stations, the owner of minority interests in two television stations, and an applicant for two television stations; that the application of Allegheny showing the interest of CBS was filed prior to the amendment, on January 4, 1954, of § 3.636 of the Commission's rules; that on March 1, 1954, pursuant to footnote 10 of the Commission's Report and Order in Docket No. 8967 amending § 3.636, Allegheny filed a request for waiver of §§ 1.361 (c) and 1.362 of the Commission's rules and for permission to remain in this proceeding as one of the competing applicants; that oppositions to said request have been filed by WCAE, Inc., Wespen Television, Inc., and Matta Enterprises; and that a reply to the oppositions was filed by Allegheny; and

It further appearing that footnote 10, upon which Allegheny relies constitutes a reasonable exercise of the Commission's discretionary authority to waive its rules; that the relief afforded is procedural only and is justified where the parties to which it applies have filed applications and expended resources in the prosecution thereof in reliance upon the television multiple ownership rule (§ 3.636) prior to its amendment, and where the public interest criteria limiting ownership and control of television stations, as expressed in the amended § 3.636, are protested by conditions in the footnote which assure that, by divestment if necessary, an applicant benefiting from the relief afforded shall not thereby hold interests in television stations in excess of the number now permitted by § 3.636; and

It further appearing that the application of Allegheny was filed in reliance upon the fact that the interests of CBS in two television stations were minority interests and that § 3.636, before amendment, contained no specific provision with reference to such minority interests; that said applications of CBS and Allegheny, prior to the amendment of § 3.636, had not been found defective under § 1.361 (c) or inconsistent under § 1.362 of the rules; that Allegheny has gone to considerable expense and engaged in extensive preparations in connection with the instant application in reliance upon the policy prevailing before the amendment of § 3.636, and has stated that if successful in the instant comparative proceeding, it will accept a construction permit conditioned upon its divestment of such other interests as may be necessary to bring its holdings within the limits imposed by § 3.636 of the rules; that Allegheny has been advised by CBS that it has under consideration plans that will reconcile its interests, including its interest in Allegheny, with the requirements of the Commission's multiple ownership rules, so that a grant to Allegheny will cause no delay in television service because of any interests of CBS; and that upon consideration of said request for waiver and the oppositions thereto, the Commission is of the opinion that said request should be granted and that Allegheny should be permitted to compete with the other applicants herein for Channel 4 assigned to Irwin, Pennsylvania (In re Applications of St. Louis Telecast, Inc., et al., FCC 54-482); and

It further appearing that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that Allegheny Broadcasting Corporation, WCAE, Incorporated, Irwin Community Television Company are legally, financially and technically qualified to construct, own and operate a television broadcast station, but that questions are raised concerning other qualifications of Allegheny Broadcasting Corporation to construct, own and operate a television broadcast station; that Wespen Televi-

sion, Inc., is legally, financially and technically qualified to construct, own and operate a television broadcast station except as to issue "1" below; that William G. Matta and George C. Matta d/b as Matta Enterprises are legally, financially and technically qualified to construct, own and operate a television broadcast station except as to issue "1" below; and

It further appearing, that the application of Allegheny Broadcasting Corporation proposes an antenna location in the vicinity of the antenna of standard broadcast station WEDO; that the installation and operation of the television antenna as proposed is possible and feasible without adversely affecting the ability of Station WEDO to operate in accordance with the terms of its license; that appropriate proof thereof should be submitted after installation and operation of the said proposed antenna; and that a grant, if made, of the application should be subject to a condition in this respect as follows:

The construction authorized is subject to the condition that such shall not adversely affect the ability of standard broadcast station WEDO to operate in accordance with the terms of its license, particularly with respect to its antenna system, that sufficient field intensity measurements of Station WEDO shall be made before and after such construction to prove that no material effect thereon has resulted.

It is ordered, That the request of Allegheny Broadcasting Corporation for waiver of §§ 1.361 (c) and 1.362 of the Commission's rules is granted; and that the request of Wespen Television, Inc., to dismiss the above-entitled application of Allegheny Broadcasting Corporation is denied.

It is further ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 21st day of May 1954 in Washington, D. C., upon the following issues:

1. To determine whether the installation and operation of the stations proposed by William G. Matta and George C. Matta, d/b as Matta Enterprises and Wespen Television, Inc. in the above-entitled applications would constitute a hazard to air navigation.

2. To determine the stock ownership and management interests of Columbia Broadcasting System, Inc. in existing television broadcast stations and in applicants for television broadcast stations.

3. To determine whether, in the light of the evidence adduced at the hearing with respect to issue "2", a grant of the application of Allegheny Broadcasting Corporation would be consistent with the provisions of § 3.636 of the Commission's rules and with its policies concerning the ownership of interests, minority and majority, by one party in more than five television stations.

4. To determine on a comparative basis which of the operations proposed in the above-entitled applications would best serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences among the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: April 22, 1954.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-3163; Filed, Apr. 27, 1954; 8:51 a. m.]

[Docket No. 10824]

COAST STATIONS IN MISSISSIPPI RIVER SYSTEM

ORDER MODIFYING CERTAIN SHIP STATION LICENSES

In the matter of modification of licenses of coast stations currently authorized to operate in the Mississippi River system area on certain frequencies between 4000 kc and 18000 kc.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of April 1954;

The Commission having under consideration its Show Cause Order issued in Docket No. 10824 which proposed the modification of certain coast station licenses so as to delete the frequency 4162.5 kc as of May 1, 1954, and to add the frequencies 4067 kc and 4372.4 kc as of March 15, 1954;

It appearing that various interested parties have recently advised the Commission of difficulties in obtaining necessary equipment to effect the activation of 4067 kc which is to serve as a replacement for 4162.5 kc and that authority to continue to operate on 4162.5 kc beyond May 1, 1954, is desired;

It is ordered, That pursuant to the authority of section 316 of the Communications Act of 1934, as amended, the licenses of the coast stations shown in Appendix 1 are modified so as to delete the frequency 4162.5 kc as of August 1, 1954 and to add the frequencies 4067 kc and 4372.4 kc as of the date of adoption of this order.

It is further ordered, That in view of the infeasibility of securing applications for the new frequencies from all ship station licensees now authorized to use frequencies on the Mississippi River System for radiotelephony communication with coast stations of the system, the licenses of such ship stations are modified, effective immediately, so as to add the frequencies 4067 kc, 4372.4 kc and 8205.5 kc for a period not to extend beyond September 1, 1954.

Released: April 23, 1954.

FEDERAL POWER COMMISSION

[Docket No. G-2217]

NORTHERN NATURAL GAS CO.

ORDER EXTENDING DATE FOR FILING OF EXHIBITS AND POSTPONING DATE FOR RECONVENING HEARING

These proceedings involve a single issue concerning service zones and differentials in rates in areas served by Northern Natural Gas Company (Northern). Hearings have been held in which certain interveners advocating service zones and rate differentials on this system have presented evidence in support of their position. Pursuant to order of the Presiding Examiner, the hearings are now fixed to resume on May 11, 1954. The Presiding Examiner has also directed that, prior to the reconvening of the hearings, all parties to the proceeding intending to offer evidence in the further hearings, including Northern, shall serve their proposed exhibits upon all other parties on or before April 27, 1954.

Northern, on April 7, 1954, filed an appeal from the last-mentioned ruling of the Presiding Examiner requesting that it be allowed a minimum of two weeks after completion of cross-examination of all intervener and Commission staff witnesses in respect to the zone rate issue, in which to prepare "rebuttal" exhibits and testimony, and three weeks if such exhibits and testimony are required to be served one week in advance.

In support of said motion, Northern states, among other things, that its presentation in this proceeding in support of increased rates, which phase of the case has been heretofore disposed of, is based upon a uniform town border rate, excepting for the so-called Argus or Southwest

[1] Dissenting opinion of Commissioner Hennock filed as part of original document.

Kansas area; that interveners other than those who have heretofore presented evidence may well recommend the establishment of different zones in the exhibits proposed to be served on April 27, 1954; and that to require Northern to serve its exhibits on the same date would preclude it from presenting exhibit evidence in opposition thereto.

On April 15, 1954, Central Electric and Gas Company, Council Bluffs Gas Company, and the Metropolitan Utilities District of Omaha, interveners, made a joint filing, which they have designated as their "Resistance to Northern's Appeal," opposing the granting of that appeal. It is contended by these interveners, who are the proponents of zoning, among other things, that Northern is in no different position with respect to this issue than are the other interveners opposing the zoning of Northern's system; that so far as this issue is concerned Northern does not have the right of rebuttal; and that Northern has failed to set forth any grounds or reasons for requiring additional time.

Also on April 15, 1954, Northern States Power Company and eight other interveners, all but one of which have heretofore announced themselves to be in opposition to the proposed zoning, filed a joint motion requesting an order continuing from April 27 to May 8, 1954, the date within which exhibits sponsored by such interveners must be served. The motion also requests that the order of the proceedings as prescribed by the Examiner be modified to provide opportunity for cross-examination by them of those sponsoring zone rate exhibits, before these joint movants are required to serve their exhibits.

In support of this latter motion, it is alleged, among other things, that, for reasons stated in two accompanying affidavits, the proposed exhibits of these movants cannot be completed and made ready for service prior to May 8; that these movants should not be required to serve exhibits without first being given the opportunity to cross-examine the witnesses of proponents of zone rates; that such cross-examination may disclose reasons why some of the proposed exhibits need not be served or introduced in evidence; and that these movants would be prepared for such cross-examination of said proponents' witnesses by May 3 and could serve their own exhibits on May 10, 1954.

The Commission finds: It is appropriate that the rulings of the Presiding Examiner be modified as hereinafter ordered.

The Commission orders:

(A) The date by which Northern and those interveners opposing the establishment of any service zones and rate differentials on Northern's system are required to serve their proposed exhibits in this proceeding be and it is hereby extended from April 27, 1954, to May 8, 1954.

(B) The date for the reconvening of the hearings herein be and it is hereby extended from May 11, 1954, to May 17, 1954.

(C) The said motions be and they hereby are denied in all other respects.

Adopted: April 21, 1954.

Issued: April 22, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2356]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Applicant having requested that its application, filed January 18, 1954, and supplemented on March 3, 1954, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities, all as described in said application, be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on January 30, 1954 (19 F. R. 543).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on May 12, 1954, at 9:45 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application and supplement thereto: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: April 21, 1954.

Issued: April 22, 1954.

By the Commission.

[Docket No. G-2384]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Applicant having requested that its application, filed March 8, 1954, pursuant to section 7 of the Natural Gas Act, for authorization to construct and operate certain facilities as described in said application, be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on April 8, 1954 (19 F. R. 2040).

Good cause exists for fixing the date of hearing in this proceeding less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on April 26, 1954, at 9:30 a. m., (e. d. s. t.), in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the application: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: April 21, 1954.

Issued: April 22, 1954.

By the Commission.

[Docket No. G-2410]

CITIES SERVICE GAS CO.

ORDER SUSPENDING PROPOSED TARIFF, PERMITTING CERTAIN TARIFF SHEETS TO BECOME EFFECTIVE AND PROVIDING FOR INVESTIGATION AND HEARING

On March 22, 1954, Cities Service Gas Company (Cities Service) tendered for filing its FPC Gas Tariff, Second Revised Volume No. 1, proposed to become effective April 23, 1954, and proposing, among other things, an annual rate increase of $12,589,072 to its wholesale customers, based on sales for the year 1953, as adjusted.

In support of its increased rates and charges, Cities Service has utilized, inter alia, rate of return of 6¾ percent and has made adjustments to book data to reflect changes anticipated to occur by August 1, 1954. The increased rates and charges provided in the proposed tariff have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. Many purchasers, municipalities and the Kansas and Missouri

Commissions have filed objections to the increase and requested suspension of the proposed increased rates and charges. One of the purchasers, the City of St. Joseph, Missouri, requests that its service complaint, docketed as IN–866, be consolidated with any suspension proceedings. However, such action is not necessary at this time since the proceedings provided for herein are sufficiently broad to include the consideration of service to the city.

One of the tariff changes proposed by Cities Service is the separation of the presently effective Rate Schedules I–1 and I–2, respectively, available in Cities Service Zone 1 and Zone 2, applicable to gas sold for resale to commercial and industrial customers, into two series of rate schedules for each zone—an "I" series applicable to volumes used by industrial consumers and a "C" series for volumes used by commercial consumers. It appears that the proposed Rate Schedules I–1 and I–2 will be applicable to sales for resale for industrial use only and therefore are not subject to suspension under section 4 (e) of the Natural Gas Act.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in sections 4 and 5 of such act, concerning the lawfulness of Cities Service's FPC Gas Tariff, presently effective First Revised Volume No. 1 and the proposed Second Revised Volume No. 1, and that said proposed tariff, except Original Sheets Nos. 14, 15, 16, and 17, be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision thereon.

The Commission orders:

(A) Pursuant to the authority contained in sections 4, 5, and 15 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of rates, charges, services, and classifications contained in Cities Service's FPC Gas Tariff, presently effective First Revised Volume No. 1 and the proposed Second Revised Volume No. 1, and the service agreements thereunder.

(B) Pending such hearing and decision thereon, Cities Service's FPC Gas Tariff, Second Revised Volume No. 1, except Original Sheets Nos. 14, 15, 16, and 17, be and the same is hereby suspended and the use thereof deferred until September 23, 1954, and until such further time thereafter as it may be made effective in the manner prescribed by the Natural Gas Act, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: April 21, 1954.

Issued: April 22, 1954.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7–1609]

PRESSED STEEL CAR CO., INC.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 21st day of April A. D. 1954.

In the matter of application by the Philadelphia-Baltimore Stock Exchange for unlisted trading privileges in Pressed Steel Car Company, Inc., Common Stock, $1 Par Value; File No. 7–1609.

The Philadelphia-Baltimore Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F–1 thereunder, has made application for unlisted trading privileges in the Common Stock, $1 Par Value, of Pressed Steel Car Company, Inc., a security listed and registered on the Midwest Stock Exchange and on the New York Stock Exchange. Rule X-12F–1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to May 20, 1954, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[File No. 70–3189]

UNITED CORP.

ORDER GRANTING APPLICATION FOR AMENDMENT OF ORDER

The United Corporation ("United"), a registered holding company, has filed with this Commission an application for amendment of the Commission's order of May 2, 1952, granting an application filed pursuant to section 9 (c) (3) of the Public Utility Holding Company Act of 1935 ("act") for an exemption from section 9 (a) of the act with respect to a program for the investment of funds up to $24,500,000 (Holding Company Act Release No. 11209).

The proposed amendment would impose the following restrictions on the investment by United of any of its funds, in lieu of the conditions presently applicable to its investment program, until United shall have secured an order under section 5 (d) of the act declaring that it has ceased to be a holding company:

1. That United shall not acquire more than 4.9 percent of the voting securities (or securities convertible into voting securities) of any public utility company or of any holding company exempt as such from the provisions of the act, or of any registered holding company or its subsidiaries, the system of which has been integrated and simplified as determined by order of the Commission under section 11 of the act, but shall not acquire any voting securities (or securities convertible into voting securities) of any registered holding company or any subsidiary of such registered holding company not in compliance with section 11 of the act, and shall not acquire any voting securities of any public utility company or holding company which is or has been a statutory subsidiary of United (except that United may acquire voting securities of any such prior statutory subsidiary in accordance with the exemption afforded by Rule U-40 (a) (3) under the act, provided such acquisition does not bring United's holdings of the voting securities of such company above the 4.9 percent level).

2. That all other acquisitions of securities by United shall be subject to such limitations and restrictions as have been placed upon registered investment companies by the Investment Company Act of 1940, and the rules and regulations thereunder.

3. That United file with the Commission quarterly reports prescribed by section 30 (b) (1) of the Investment Company Act of 1940 and Rule N-30B1–1 promulgated thereunder.

4. That United transmit to its stockholders, at least semi-annually, reports prescribed by section 30 (d) of the Investment Company Act of 1940 and Rule N-30D–1 promulgated thereunder.

United has requested that the Commission's order to be entered herein become effective upon issuance thereof.

Due notice was given of the filing of said application and a hearing has not been requested of or ordered by the Commission; however, Randolph Phillips, a common stockholder of United, has requested that the Commission deny the application upon the basis of certain specified objections and also requested that he be notified of the position of the Division of Corporate Regulation prior to a Commission decision. The Director of the Division advised Phillips of the Division's intention to recommend granting of the application and no further communication has been received from Phillips.

The Commission having considered United's application and the objections advanced by Phillips in the light of the applicable provisions of the act and rules thereunder, and the Commission having concluded that United's investment program, under the prevailing circumstances and within the limitations proposed, is appropriate in the ordinary

course of its business, and is not detrimental to the public interest or the interest of investors or consumers, and otherwise satisfies the applicable standards of the act:

It is ordered, Pursuant to the applicable provisions of the act, that the application be, and hereby is, granted forthwith, subject to the terms and conditions prescribed by Rule U-24 of the general rules and regulations promulgated under the act, and subject to the following additional condition:

That the Commission reserves jurisdiction after notice and opportunity for hearing to prohibit further purchases of any particular security or to prohibit all further purchases under this investment program if it should appear that such purchases would be inconsistent with any provisions of the act or any rule or regulation thereunder or any terms or conditions of this order; pending an inquiry to determine whether any further purchases shall be prohibited, the Commission may summarily suspend purchases.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29175]

COTTON FROM SOUTHWEST TO MUSKOGEE, OKLA.

APPLICATION FOR RELIEF

APRIL 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Cotton, carloads.

From: Points in Arkansas, Kansas, Louisiana, Missouri, Oklahoma, and Texas, and Memphis, Tenn.

To: Muskogee, Okla.

Grounds for relief: Rail competition, circuity, market competition, to apply rates constructed on the basis of the short line distance formula, and additional destination.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 4014, supp. 31.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29176]

GRAIN FROM POINTS IN KANSAS TO ARKANSAS, MEMPHIS, TENN., AND CEDAR, OKLA.

APPLICATION FOR RELIEF

APRIL 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for the Atchison, Topeka and Santa Fe Railway Company and St. Louis-San Francisco Company.

Commodities involved: Grain, grain products, and related articles, carloads.

From: Points in Kansas.

To: Points in Arkansas, Memphis, Tenn., and Cedar, Okla.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3939, supp. 46.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

POTASSIUM (POTASH) FROM WENDOVER, UTAH TO POINTS IN MINNESOTA

APPLICATION FOR RELIEF

APRIL 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for the Chicago, Burlington & Quincy Railroad Company, Denver and Rio Grande Western Railroad Company, and Western Pacific Railroad Company.

Commodities involved: Potassium (potash) viz, muriate of, and sulphate of, carloads.

From: Wendover, Utah.

To: Dayton's Bluff, St. Paul, Minnesota Transfer, and Minneapolis, Minn.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. 1561, supp. 12.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. [4th Sec. Application 29178]

TEXAS COMMODITY RATES

APPLICATION FOR RELIEF

APRIL 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Lee Douglass, Agent, for carriers parties to schedule listed below.

Commodities involved: Various commodities.

Between: Points in Texas.

Grounds for relief: Competition with rail carriers and to meet intrastate rates.

Schedules filed containing proposed rates: Lee Douglass, Agent, I. C. C. No. 807, supp. 43.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emer-

gency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[No. 31483]

IDAHO INTRASTATE FREIGHT RATES AND CHARGES

NOTICE OF INVESTIGATION AND HEARING; CORRECTED ORDER

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 9th day of April A. D. 1954.

It appearing that in Ex Parte No. 175, Increased Freight Rates, 1951, 280 I. C. C. 179; 281 I. C. C. 557; and 284 I. C. C. 589, the Commission authorized carriers subject to the Interstate Commerce Act parties thereto to make certain increases in their freight rates and charges for interstate application throughout the United States, and that increases under such authorizations have been made;

It further appearing that a petition, dated February 4, 1954 (which brought in issue intrastate rates in the States of Idaho and Utah) has been filed by the Camas Prairie Railroad Company and other common carriers by railroad, named in appendix A to the petition, operating to, from, and between points in the State of Idaho, averring, among other matters, that the Idaho Public Utilities Commission has refused to authorize or permit petitioners to establish for the intrastate transportation upon their railroads in Idaho increases in freight rates and charges corresponding to those authorized by this Commission and made by petitioners for application on interstate traffic in the proceeding above cited; such refusal being alleged in the manner and to the extent as more fully set forth in the said petition;

It further appearing that petitioners allege that the refusal of the Idaho Public Utilities Commission to permit the increase on intrastate traffic referred to in the preceding paragraph causes and results in undue and unreasonable advantage, preference, and prejudice as between persons and localities in intrastate commerce, on the one hand, and interstate commerce, on the other hand, and in undue, unreasonable and unjust discrimination against interstate and foreign commerce, in violation of section 13 of the Interstate Commerce Act;

It further appearing that there have been brought in issue by the said petition rates and charges made or imposed by authority of the State of Idaho;

And it further appearing that the Idaho Public Utilities Commission on March 8, 1954, filed an answer containing a motion to require petitioners to amend their petition by severing the causes of action as between the States of Idaho and Utah, and to dismiss the petition as to Idaho upon the grounds that evidence sufficient to satisfy State statutory requirements had not been offered by petitioners, and that the matter before the said Commission was reopened January 7, 1953, and it appearing that no further proceedings have been had therein and that investigation of petitioners' alleged violations of the Interstate Commerce Act should be made as required by the provisions of that act;

It is ordered, That the said motion of the Idaho Public Utilities Commission to dismiss be, and it is hereby, overruled, without prejudice, pending presentation of evidence; and that separate investigations be instituted with respect to the rates brought in issue in Idaho and Utah respectively;

It is further ordered, That in response to the said petition, an investigation be, and it is hereby, instituted, and that a hearing be held therein for the purpose of receiving evidence from the respondents hereinafter designated and any other persons interested to determine whether the rates and charges of the common carriers by railroad, or any of them, operating in the State of Idaho for the intrastate transportation of property made or imposed by authority of the State of Idaho, cause or will cause, by reason of the failure of such rates and charges to include increases corresponding to those permitted by the Commission for interstate traffic in the proceeding cited above, any undue or unreasonable advantage, preference, or prejudice, as between persons or localities in intrastate commerce, on the one hand, and interstate or foreign commerce, on the other hand, or any undue, unreasonable, or unjust discrimination against interstate or foreign commerce; and to determine what rates and charges, if any, or what maximum or minimum, or maximum and minimum rates and charges shall be prescribed to remove the unlawful advantage, preference, prejudice, or discrimination, if any, that may be found to exist;

It is further ordered, That all common carriers by railroad operating within the State of Idaho which are subject to the jurisdiction of this Commission be, and they are hereby made respondents to this proceeding; that a copy of this order be served upon each of the said respondents; and that the State of Idaho be notified of the proceeding by sending copies of this order and of said petition by registered mail to the Governor of said State and to the Idaho Public Utilities Commission at Boise, Idaho;

It is further ordered, That notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Commission, at Washington, D. C., for public inspection, and by filing a copy with the Director, Division of the Federal Register, Washington, D. C.;

And it is further ordered, That this proceeding be, and the same is hereby assigned for hearing May 17, 1954, at 9:30 o'clock a. m., U. S. Standard Time (or 9:30 a. m. local daylight saving time, if that time is observed), at the rooms of the Idaho Public Utilities Commission, Boise, Idaho, before Examiner M. Witters.

By the Commission, Division 1.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 54-3146; Filed, Apr. 27, 1954; 8:47 a. m.]

[No. 31484]

UTAH INTRASTATE FREIGHT RATES AND CHARGES

NOTICE OF INVESTIGATION AND HEARING; CORRECTED ORDER

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 9th day of April A. D. 1954.

It appearing that in Ex Parte No. 175, Increased Freight Rates, 1951, 280 I. C. C. 179; 281 I. C. C. 557; and 284 I. C. C. 589, the Commission authorized carriers subject to the Interstate Commerce Act parties thereto to make certain increases in their freight rates and charges for interstate application throughout the United States, and that increases under such authorizations have been made;

It further appearing that a petition, dated February 4, 1954 (which brought in issue intrastate rates in the States of Utah and Idaho) has been filed by the Bamberger Railroad Company and other common carriers by railroad, named in appendix A to the petition, operating to, from, and between points in the State of Utah, averring, among other matters, that the Public Service Commission of Utah has refused to authorize or permit petitioners to establish for the intrastate transportation upon their railroads in Utah increases in freight rates and charges corresponding to those authorized by this Commission and made by petitioners for application on interstate traffic in the proceeding above cited; such refusal being alleged in the manner and to extent as more fully set forth in the said petition;

It further appearing that petitioners allege that the refusal of the Public Service Commission of Utah to permit the increase on intrastate traffic referred to in the preceding paragraph causes and results in undue and unreasonable advantage, preference, and prejudice as between persons and localities in intrastate commerce on the one hand, and interstate commerce on the other hand, and in undue, unreasonable and unjust discrimination against interstate and foreign commerce, in violation of section 13 of the Interstate Commerce Act;

It further appearing that there have been brought in issue by the said petition rates and charges made or imposed by authority of the State of Utah;

And it further appearing that the Public Service Commission of Utah on March 12, 1954, filed an answer containing a motion to dismiss the petition herein upon the ground that evidence sufficient to satisfy State statutory requirements had not been offered by petitioners before that Commission, and it appearing that investigation of petitions' alleged violations of the Interstate Commerce Act should proceed in due course:

It is ordered, That the said motion of the Public Service Commission of Utah be, and it is hereby, overruled, without prejudice, pending presentation of evidence;

It is further ordered, That in response to the said petition, an investigation be, and it is hereby, instituted, and that a hearing be held therein for the purpose of receiving evidence from the respondents hereinafter designated and any other persons interested to determine whether the rates and charges of the common carriers by railroad, or any of them, operating in the State of Utah for the intrastate transportation of property made or imposed by authority of the State of Utah, cause or will cause, by reason of the failure of such rates and charges to include increases corresponding to those permitted by the Commission for interstate traffic in the proceeding cited above, any undue or unreasonable advantage, preference, or prejudice, as between persons or localities in intrastate commerce, on the one hand, and interstate or foreign commerce, on the other hand, or any undue, unreasonable, or unjust discrimination against interstate or foreign commerce; and to determine what rates and charges, if any, or what maximum or minimum, or maximum and minimum rates and charges shall be prescribed to remove the unlawful advantage, preference, prejudice, or discrimination, if any, that may be found to exist;

It is further ordered, That all common carriers by railroad operating within the State of Utah which are subject to the jurisdiction of this Commission be, and they are hereby, made respondents to this proceeding; that a copy of this order be served upon each of the said respondents; and that the State of Utah be notified of the proceeding by sending copies of this order and of said petition by registered mail to the Governor of said State and to the Public Service Commission of Utah at Salt Lake City, Utah;

It is further ordered, That notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Commission, at Washington, D. C., for public inspection, and by filing a copy with the Director, Division of the Federal Register, Washington, D. C.;

And it is further ordered, That this proceeding be, and the same is hereby assigned, for hearing May 20, 1954, at 9:30 o'clock a. m., U. S. Standard Time (or 9:30 a. m. local daylight saving time, if that time is observed), at the rooms of the Public Service Commission of Utah, Salt Lake City, Utah, before Examiner M. Witters.

By the Commission, Division 1.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 54-3147; Filed, Apr. 27, 1954; 8:47 a. m.]

[Notice No. 4]

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

APRIL 23, 1954.

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER. (49 CFR 1.240). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

APPLICATIONS FOR OPERATING AUTHORITY

NO. MC 873 Sub 22, SOONER FREIGH LINES, a corporation, P. O. Box 2458, Exchange Branch 3000 West Reno, Oklahoma City, Okla. Applicant's attorney: Sidney P. Upshur, 3000 West Reno, Oklahoma City, Okla. For authority to operate as a *common carrier*, over a regular route, transporting, *Class A, Class B, and Class C explosives, and other dangerous articles*, between Oklahoma City, Okla., and Lawton, Okla., over U. S. Highway 277, serving the intermediate point of Fort Sill, Okla.

NO. MC 1124 Sub 114, HERRIN TRANSPORTATION COMPANY, a corporation, 2300 Walker Avenue, Houston, Tex. Applicant's attorney: Leroy Hallman, 617 First National Bank Bldg., Dallas 2, Tex. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, and commodities in bulk, serving the site of the Columbian Carbon Company plant located near Louisiana Highway 60 approximately eight miles south of Centerville, La., as an off-route point in connection with carrier's regular route operations between New Iberia, La., and Morgan City, La. Applicant is authorized to conduct operations in Arkansas, Louisiana, Mississippi, Tennessee, and Texas.

NO. MC 2979 Sub 13, HARGIS TRUCK LINE, INC., 1301 Maxwell Ave., Evansville, Ind. Applicant's attorney: John S. Powell, 520 Illinois Building, 17 West Market St., Indianapolis 4, Ind. For authority to operate as a *common carrier*, over a regular connecting route, transporting: *General commodities*, except those of unusual value, and except Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between junction U. S. Highways 50 and 51 at or near Sandoval, Ill., and junction U. S. Highway 50 and Indiana Highway 57 at or near Washington, Ind., over U. S. Highway 50, serving no intermediate points, for operating convenience only, in connection with (1) regular route operations between St. Louis, Mo., and Whittington, Ill., (2) alternate route operations between Evansville, Ind., and Indianapolis, Ind., and (3) operating convenience route operations between Washington, Ind., and Bedford, Ind. Applicant is authorized to conduct operations in Indiana, Kentucky, Illinois, and Missouri.

NO. MC 17211 Sub 3, J. E. SERVAIS, doing business as JESCO MOTOR EXPRESS, 139 Columbus Road, Mt. Vernon, Ohio. Applicant's attorney: Richard H. Brandon, Hartman Building, Columbus 15, Ohio. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Empty glass containers*, from Mt. Vernon, Ohio, to points in Tennessee, and those in Kentucky excepting Ashland, Louisville, and Newport and points within two miles of said cities, and Covington and points within five miles thereof. Applicant is authorized to conduct operations in Ohio, West Virginia, Kentucky, Michigan, Pennsylvania, Indiana, Missouri, and Illinois.

NO. MC 19201 Sub 76, PENNSYLVANIA TRUCK LINES, INC., 110 South Main Street, West End, Pittsburgh, Pa. Applicant's attorney: Gilbert Nurick, McNees, Wallace & Nurick, Commerce Bldg., Harrisburg, Pa. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, including *commodities of unusual value, commodities in bulk*, and *commodities requiring special equipment*, but excluding Class A and B explosives, and household goods as defined by the Commission, between Birdsboro, Pa., and Pottstown, Pa., operating from Birdsboro over Pennsylvania Highway 83 to junction Pennsylvania Highway 100, thence over Pennsylvania Highway 100 to Pottstown, (also from junction Pennsylvania Highway 82 and U. S. Highway 422 over U. S. Highway 422 to Pottstown), and return over the same routes, serving all points which are stations on the rail line of the Pennsylvania Railroad Company, restricted to transportation service which is auxiliary to, or supplemental of rail service of the Pennsylvania Railroad Company. Applicant is authorized to conduct operations in Indiana, Ohio and Pennsylvania.

NO. MC 35396 Sub 11, ARNOLD LIGON, DOING BUSINESS AS ARNOLD LIGON TRUCK LINE, 208 Darby Street, Princeton, Ky. Applicant's attorney: Robert H. Kinker, McChesney and McChesney, 711 McClure Building, Frankfort, Ky. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, and except Class A and B explosives, household goods as defined by the Commission,

commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Morganfield, Ky., and the intersection of Kentucky Highway 56 with the Kentucky-Illinois State line, from Morganfield, Ky., over Kentucky Highway 56 to the Kentucky-Illinois State line, and return over the same route, serving all intermediate points and the off-route points in Kentucky within three (3) miles of Kentucky Highway 56 extending between Morganfield, Ky., and the Kentucky-Illinois State line. Applicant is authorized to conduct operations in Illinois, Indiana, Kentucky and Tennessee.

NO. MC 42329 Sub 111, HAYES FREIGHT LINES, INC., 628 East Adams Street, Springfield, Ill. Applicant's attorney: Jack Goodman 39 South La Salle Street, Chicago 3, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Ammunition* and *Class A & B Explosives, ammunition component parts, empty shell cases*, and *empty ammunition containers*, between Milan, Tenn., Richmond, Ky., Crane, Ind., and points within 15 miles of each, on the one hand, and, on the other, points in Florida, South Carolina, Georgia, Alabama, Mississippi, Louisiana, Tennessee, North Carolina, Kentucky, Virginia, Maryland, Pennsylvania, Delaware, New Jersey, and the District of Columbia; and between Earle, Metuchen and Pedricktown, N. J., Baltimore, Md., Bynum, Ala., and Chambersburg, Pa., and points within 15 miles of each, Norfolk, Va., and points within 50 miles thereof, and Charleston, S. C., and points within 25 miles thereof, on the one hand, and, on the other, points in Tennessee and Kentucky. Applicant is authorized to conduct operations in Illinois, Indiana, Iowa, Kentucky, Michigan, Missouri, Ohio, and Tennessee.

NO. MC 42487 Sub 280, CONSOLIDATED FREIGHTWAYS, INC., 2116 N. W. Savier Street, Portland, Oregon. Applicant's attorney: Donald A. Schafer, 803 Public Service Bldg., Portland 4, Oreg. For authority to operate as a *common carrier*, over regular routes. Applicant is applying for authority to delete from Certificate No. MC 42487, dated November 26, 1947, the following restriction: "Service is not authorized between points on the above-described route south of Tremonton, Utah, on the one hand, and, on the other, points on U. S. Highways 30N, 91, and 191, northeast of Burley, Idaho." Applicant is authorized in said Certificate to transport *general commodities*, except those of unusual value, and except Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, over a regular route, between Salt Lake City, Utah, and Tremonton, Utah, serving all intermediate points, with shipments restricted as set forth above, and requests authority to delete from Certificate No. MC 42487 Sub 241, dated July 20, 1951, the following restriction: "The service authorized herein is restricted to traffic originating at, destined to, or interchanged at points on carrier's lines west of Pocatello, Idaho, on the one hand, and, on the other, points on carrier's line between Tremonton and Salt Lake City, Utah." Applicant is authorized in said Certificate to transport *general commodities*, except those requiring special equipment and except livestock, and household goods as defined by the Commission, over a regular route, between Pocatello, Idaho, and junction U. S. Highways 191 and 30 near Tremonton, Utah, serving no intermediate points, with shipments restricted as set forth above. Applicant is authorized to conduct operations in Illinois, Iowa, Utah, Idaho, Oregon, Washington, California, Nevada, Montana, Minnesota, North Dakota and Wisconsin.

NO. MC 60871 Sub 2, G. V. ANKENY, DOING BUSINESS AS G. V. ANKENY'S TRANSFER, 318 Ohio Street, Johnstown, Pa. Applicant's attorney: S. Harrison Kahn, 726–34 Investment Building, Washington, D. C. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Cast iron boilers and parts thereof, cast iron radiators and parts thereof, steel boilers and parts thereof, building and sheet metal work and parts thereof*, and *powdered iron*, in steel or fiberboard containers, from New Castle, Johnstown, Duncanville and Middletown, Pa., to Newark, N. J., and Cleveland, Ohio; and *Building and sheet metal work used in conjunction with heating systems and installations*, and *air conditioning units and parts thereof*, from Cleveland, Ohio to Newark, N. J. Applicant is authorized to conduct operations in Maryland, New Jersey, Pennsylvania, Virginia, and the District of Columbia.

NO. MC 73449 Sub 42, CENTRAL TRUCKAWAY SYSTEM, INC., 1401 South Western Parkway, Louisville, Ky. Applicant's attorney: Ferdinand Born, 708 Chamber of Commerce Building, Indianapolis 4, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *New automobiles, new trucks, new chassis*, and *automobile parts and accessories* when such parts and accessories are incidental to equipment of cars actually transported, restricted to initial movements, in truckaway service, from Louisville, Ky., to Moffett, Okla., and Texarkana, Tex., with *damaged shipments* on return movements. Applicant is authorized to conduct operations in all 48 states and the District of Columbia.

NO. MC 107052 Sub 3, EDWIN L. MORTON, 2609 Otley Ave., Perry, Iowa. Applicant's attorney: Stephen Robinson, 1020 Savings & Loan Building, Des Moines 9, Iowa. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Commercial fertilizer*, in bags, and in bulk, from Perry, Iowa and points within two miles thereof, to points in Minnesota on and south of Minnesota Highway 19. Applicant is authorized to conduct operations in Iowa, Missouri, Kansas, and South Dakota.

NO. MC 107162 Sub 3, BERNHART G. JOHNSON, R. #2, Denmark, Wis. Applicant's attorney: John T. Porter, Porter and Porter, 707–708 First National Bank Building, Madison 3, Wis. For authority to operate as a *common carrier*, over irregular routes, transporting: *Cinder blocks, concrete blocks, sewer pipe, tile* and *brick*, from Green Bay, Wis., to points in the upper peninsula of Michigan.

NO. MC 108207 Sub 32, FROZEN FOOD EXPRESS, 318 Cadiz Street, P. O. Box 5382 Dallas, Texas. Applicant's attorney: Leroy Hallman, Phinney, Hallman, Reed and Holley, 617 First National Bank Building, Dallas 2, Texas. For authority to operate as a *common carrier*, over irregular routes, transporting: *Meats, meat products* and *meat by-products, dairy products*, and *articles distributed by meat-packing houses*, as defined by the Commission, from Ottumwa, Iowa, to points in Texas and Louisiana. Applicant is authorized to conduct operations in Arkansas, California, Illinois, Indiana, Iowa, Kansas, Louisiana, Michigan, Mississippi, Missouri, Nebraska, Oklahoma, Tennessee, Texas, and Wisconsin.

NO. MC 109734 Sub 60, SYSTEM TANK LINES, INC., 2651 East 45th Street, Los Angeles 58, Calif. Applicant's attorney: R. Y. Schureman, Glanz & Russell, 639 South Spring Street, Los Angeles 14, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *Betaine concentrate* (liquid betaine), from San Jose, Calif., to Gardnerville, Nev. Applicant is authorized to conduct operations in California and Nevada.

NO. MC 110395 Sub 12, DAKOTA FILM SERVICE, INC., P. O. Box 131, Lake Benton, Minn. Applicant's attorney: H. Lauren Lewis, Morrell Building No. 50, P. O. Box 707, Sioux Falls, S. Dak. For authority to operate as a *common carrier*, over regular routes, transporting: *Film*, and *articles associated with the exhibition of motion pictures*, (1) Between Morris, Minn., and junction South Dakota Highway 10 and U. S. Highway 83, north of Mound City, S. Dak., from Morris over Minnesota Highway 28 to Browns Valley, Minn., thence over South Dakota Highway 10 to junction U. S. Highway 83; (2) Between Ortonville, Minn., and Minneapolis, Minn., from Ortonville over U. S. Highway 12 to Minneapolis; (3) Between Benson, Minn., and Morris, Minn., from Benson over Minnesota Highway 9 to Morris; (4) Between Ortonville, Minn., and Wahpeton, N. Dak., from Ortonville over U. S. Highway 75 to Breckenridge, Minn., thence over Minnesota Highway 3 to the Minnesota-North Dakota State line, thence over North Dakota Highway 13 to Wahpeton; (5) Between Summit, S. Dak., and Fargo, N. Dak., from Summit over U. S. Highway 81 to Fargo; (6) Between Fairmount, N. Dak., and junction North Dakota Highway 11 and U. S. Highway 83, near Hague, N. Dak., from Fairmount over North Dakota Highway 11 to junction U. S. Highway 83; (7) Between Fargo, N. Dak., and Aberdeen, S. Dak., from Fargo over U. S. Highway 10 to Jamestown, N. Dak., thence over U. S. Highway 281 to Aberdeen; (8) Between Jamestown, N. Dak., and junction U. S. Highway 83 and U. S. Highway 12, near Selby, S. Dak., from Jamestown over U. S. Highway 10 to junction U. S. Highway 83 near Sterling, N. Dak., thence over U. S. Highway 83 to junction U. S. Highway 12; (9) Between junction North Dakota Highway 13 and U. S. Highway 81 and Linton, N. Dak., from junction North Dakota Highway 13 and U. S. Highway 81 over North Dakota Highway 13 to Linton; (10) Between junction South Dakota Highway 25 and U. S. Highway 12, near Andover, S. Dak., and junction North Dakota Highway 32 and U. S. Highway 10, from junction South Dakota Highway 25 and U. S. Highway 12 over South Dakota Highway 25 to the South Dakota-North Dakota State line, thence over North Dakota Highway 32 to junction U. S. Highway 10; (11) Between junction North Dakota Highway 46 and U. S. Highway 81 and Hazleton, N. Dak., from junction North Dakota Highway 46 and U. S. Highway 81 over North Dakota Highway 46 to junction North Dakota Highway 30, thence over North Dakota Highway 30 to junction North Dakota Highway 34, thence over North Dakota Highway 34 to Hazleton; (12) Between Roscoe, S. Dak., and Dawson, N. Dak., from Roscoe over South Dakota Highway 45 to the South Dakota-North Dakota State line, thence over North Dakota Highway 3 to Dawson; (13) Between Groton, S. Dak., and junction North Dakota Highway 1 and U. S. Highway 10, from Groton over South Dakota Highway 37 to the North Dakota-South Dakota State line, thence over North Dakota Highway 1 to junction U. S. Highway 10; (14) Between Jefferson, S. Dak., and junction U. S. Highway 20 and U. S. Highway 71, near Early, Iowa, from Jefferson over U. S. Highway 77 to junction U. S. Highway 20, near Sioux City, Iowa, thence over U. S. Highway 20 to junction U. S. Highway 71; (15) Between Beresford, S. Dak., and junction Iowa Highway 10 and U. S. Highway 71, from Beresford over South Dakota Highway 46 to junction Iowa Highway 10, thence over Iowa Highway 10 to junction U. S. Highway 71; (16) Between Canton, S. Dak., and Emmetsburg, Iowa, from Canton over U. S. Highway 10 to Emmetsburg; (17) Between junction Iowa Highway 3 and U. S. Highway 71 and Luverne, Minn., from junction Iowa Highway 3 and U. S. Highway 71 over Iowa Highway 3 to LeMars, Iowa, thence over U. S. Highway 75 to Luverne; (18) Between junction U. S. Highway 20 and U. S. Highway 59, near Holstein, Iowa, and junction U. S. Highway 59 and junction Iowa Highway 9, near Allendorf, Iowa, from junction U. S. Highway 20 and U. S. Highway 59 over U. S. Highway 59 to junction Iowa Highway 9; (19) Between LeMars, Iowa and junction Iowa Highway 33 and Iowa Highway 9, from LeMars over Iowa Highway 33 to junction Iowa Highway 9; and (20) Between junction U. S. Highway 20 and U. S. Highway 71, near Sac City, Iowa, and junction U. S. Highway 71 and Iowa Highway 9, near Spirit Lake, Iowa, from junction U. S. Highway 20 and U. S. Highway 71 over U. S. Highway 71 to junction Iowa Highway 9, and return over the same routes, serving all intermediate points on the above routes, and the off-route points with two mile of such routes, as well as the off-route points of Akron, Alta, Estherville, George, Graettinger and Kingsley, Iowa. Applicant is authorized to conduct operations in Minnesota and South Dakota.

NO. MC 111940 Sub 11, SMITH'S TRUCK LINES, Post Office Box 88, Muncy, Pa. Applicant's attorney: Rhoads, Sinon and Reader, State Street Building, Harrisburg, Pa. NO. MC 114688, CHARLES H. HARBAUGH, JR., doing business as FREDERICK MOTOR LINES, Hayfield, Frederick County, Va. Applicant's attorney: Milton E. Diehl, 1003 Munsey Bldg., Washington 4, D. C. For authority to operate as a *common carrier*, over irreg-

ular routes, transporting: *Animal feeds, fertilizer,* and *building materials,* as defined by the Commission, between points in Frederick County, Va., on the one hand, and on the other, points in Maryland, Delaware, West Virginia, Pennsylvania, and District of Columbia.

APPLICATIONS UNDER SECTIONS 5 AND 210a (b)

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER. (49 CFR 1.240). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of motor carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

NO. MC-F-5685. Authority sought for purchase by MOTOR EXPRESS, INC. OF INDIANA, 701 Illinois Bldg., Indianapolis, Ind., of a portion of the operating rights of MOTOR EXPRESS, INC., National City Bank Bldg., Cleveland, Ohio, and for acquisition by U. S. TRUCK LINES, INC. OF DELAWARE of control of the operating rights through the purchase. Applicants' attorney: Ferdinand Born, 708 Chamber of Commerce Bldg., Indianapolis, Ind. Operating rights sought to be transferred: *General commodities,* except those of unusual value, and except Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, as a *common carrier,* over regular routes, between Chicago, Ill., and Milwaukee., Wis., serving the intermediate points on Illinois and Wisconsin Highways 42; and the off-route points of Layton Park, West Allis and West Milwaukee, Wis., Aurora, Chicago Heights and Joliet, Ill., and those in the Chicago, Ill., Commercial Zone, as defined by the Commission. Vendee is authorized to operate in Indiana, Illinois, and Ohio. Application has not been filed for temporary authority under section 210a (b).

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

FEDERAL REGISTER

VOLUME 19 NUMBER 83

Washington, Thursday, April 29, 1954

TITLE 3—THE PRESIDENT

PROCLAMATION 3050

CITIZENSHIP DAY, 1954

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS by joint resolution approved February 29, 1952 (66 Stat. 9), the Congress of the United States has designated the seventeenth day of September of each year as Citizenship Day in commemoration of the signing on September 17, 1787, of the Constitution of the United States and in recognition of all who, by coming of age or by naturalization, enjoy the privileges and assume the responsibilities of citizenship; and

WHEREAS our Constitution, which guarantees priceless freedoms to us as citizens of the United States and to our posterity and sets forth a concept of liberty that has been an inspiration to freedom-loving people everywhere, takes on still deeper meaning in these days of critical international affairs; and

WHEREAS the aforesaid resolution authorizes the President of the United States to issue annually a proclamation calling for the observance of Citizenship Day:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do direct the appropriate officials of the Government to display the flag of the United States on all Government buildings on Friday, September 17, 1954, and urge the people of the Nation to display the flag on that day at their homes and other suitable places.

I also urge Federal, State, and local officials, and patriotic, religious, educational, civic, and other interested organizations, to arrange for appropriate ceremonies on Citizenship Day in which all our citizens may join for rededication to the great principles for which this Nation stands.

And I call upon all our people to give special thought and consideration on that day both to their rights and to their responsibilities as citizens of the United States, to the end that our citizenship may have deeper meaning and greater strength.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 23d day of April in the year of our Lord nineteen hundred and fifty-four, and of the Independence of the United States of America the one hundred and seventy-eighth.

[SEAL]

DWIGHT D. EISENHOWER

By the President:

WALTER B. SMITH,
Acting Secretary of State.

[F. R. Doc. 54-3225; Filed, Apr. 27, 1954; 1:51 p. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 63]

PART 610—MINIMUM EN ROUTE IFR ALTITUDES

MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interestd members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 610 is amended as follows:

1. Section 610.12 *Green civil airway No. 2* is amended to read in part:

From—	To—	Minimum altitude
North Scituate (INT), R. I.	Boston, Mass. (LFR)	1,800

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

CFR SUPPLEMENTS

(For use during 1954)

The following Supplement is now available:

Title 17 ($0.50)

Previously announced: Title 3, 1953 Supp. ($1.50); Title 8 ($0.35); Titles 10–13 ($0.50); Title 16 ($1.00); Title 18 ($0.45); Titles 22–23 ($1.00); Title 24 ($0.75); Title 25 ($0.45); Titles 30–31 ($1.00); Title 33 ($1.25); Titles 40–42 ($0.50); Titles 44–45 ($0.75); Title 49: Parts 1 to 70 ($0.60); Parts 71 to 90 ($0.65); Parts 91 to 164 ($0.45); Parts 165 to end ($0.60)

Order from

CODIFICATION GUIDE—Con.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

Subchapter A—Policies, Procedures, and Orders

[Docket 6141]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

ALASKA SALMON INDUSTRY, INC., ET AL.

Subpart—*Combining or conspiring:* § 3.430 *To enhance, maintain or unify prices.* In connection with the offering for sale, sale, and distribution of raw or fresh salmon caught in the fishing areas or districts of Alaska, and on the part of respondent Alaska Salmon Industry, Inc., a trade organization or association, its officers, etc.; 41 canning companies; W. C. Arnold, individually and as managing director of said Alaska Salmon Industry, Inc.; eight unions, some of whose members fish for salmon in Alaskan waters; respondents' members; and their agents, etc.; entering into, continuing, cooperating in, or carrying out any planned common and concerted course of action, understanding or agreement between or among any two or more of said respondents, or between any one or more of said respondents and others not parties, to: (1) Fix, establish, maintain, or adhere to, in any manner or by any method whatever, the price or prices at which any type of raw or fresh salmon caught in the fishing areas or districts of Alaska are to be, or are, purchased or sold; (2) fix, establish, maintain, or adhere to or attempt to fix, establish, maintain, or cause adherence to, by any means or method, uniform or minimum prices for the purchase or sale of said salmon; (3) jointly or collectively negotiate, bargain, or agree by any means or method as to the price or prices at which said salmon is proposed to be, or is, purchased or sold; and (4) authorize or empower any association, group, corporation, or union to negotiate, bargain, or agree as to the prices to be paid or received in the purchase or sale of any such salmon; prohibited, subject to the provisos, however, that nothing contained aforesaid shall (a) prevent any association of bona fide salmon fishermen, acting pursuant to and in accordance with, the provisions of the Fisheries Cooperative Marketing Act (15 U. S. C., paragraphs 521, 522) from performing any of the acts and practices permitted by said act; (b) be deemed to prohibit one or more respondents from entering into or continuing a bona fide partnership, joint operation or venture, or consolidation, for the purpose of operating one or more canneries, and in which the prices paid for raw or fresh salmon are determined by said partnership, joint operation or venture, or consolidation, and where such determination is, under the contract establishing such partnership, joint operation or venture, or consolidation, binding upon all members thereof; or (c) prevent collective bargaining between any respondent Union and respondent Industry and/or any employer respondent with respect to wages and working conditions of employee members of said Union within those fishing districts wherein they may be; and to the further provision that proviso "(b)" shall not be construed as either an approval or a disapproval of any specific partnership, joint operation or venture, or consolidation, nor as permitting any such partnership, joint operation or venture, or consolidation, to be continued or formed for the purpose or with the effect directly or indirectly of rendering ineffective or unenforceable the inhibitions of the order and the purposes thereof.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec 5, 38 Stat. 719 as amended; 15 U. S. C. 45) [Cease and desist order, Alaska Salmon Industry, Inc., et al., Seattle, Wash., Docket 6141, April 8, 1954.]

This proceeding was instituted by complaint which charged respondents with the use of unfair acts and practices and unfair methods of competition in violation of the provisions of section 5 of the Federal Trade Commission Act.

It was disposed of, as announced by the Commission's "Notice", dated April 9, 1954, through the consent settlement procedure provided in Rule V of the Commission's rules of practice as follows:

The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith, was accepted by the Commission on April 8, 1954 and ordered entered of record as the Commission's findings as to the facts,[1] conclusion,[1] and order in disposition of this proceeding.

The time for filing report of compliance pursuant to the aforesaid order runs from the date of service hereof.

It appearing to the Commission that Sebastian-Stuart Fish Company, one of the respondents in this proceeding, is no longer engaged in the business of canning salmon in Alaska and that it has no present intention of re-entering the business:

It was also ordered, That the complaint herein be dismissed as to said respondent Sebastian-Stuart Fish Company.

Said order to cease and desist, thus entered of record, following the findings as to the facts and conclusion, reads as follows:

It is ordered, That respondents, Alaska Salmon Industry, Inc., a corporation, its officers, directors and members, and Alaska Pacific Salmon Company, Alaska Packers Association, Alaska Year Round Canneries Company, Angoon Community Association trading as Hood Bay Salmon Company, Bristol Bay Packing Company, Chignik Fisheries Company, Columbia River Packers Association, Inc., Cook Inlet Packing Company, Copper River Packing Company, Egegik Packing Company, Ellamar Packing Company, Farwest Wrangell Co., Inc., Fidalgo Island Packing Company, Inc., General Fish Co., Inc., P. E. Harris Company, Inc., Hydaburg Cooperative Association, Icy Straits Salmon Company, Independent Salmon Canneries, Inc., Intercoastal Packing Company, Kadiak Fisheries Company, Keku Canning Company, Ketchikan Packing Company, Klawock Cooperative Association doing business as Klawock Oceanside Packing Company, Libby, McNeill & Libby, Metlakatla Indian Community operating under the trade name of Annette Islands Canning Company, The Nakat Packing Corporation, New England Fish Company, Pacific American Fisheries, Inc., Trans-Pacific Fishing & Packing Company and the Calvert Corporation, both corporations doing business under the trade name of Peninsula Packers, Port Ashton Packing Corporation, Pyramid Fisheries, Inc., Superior Packing Company, San Juan Fishing & Packing Company, Sebastian-Stuart Fish Company, Seldovia Bay Packing Company, Snug Harbor Packing Company, San Juan Fishing & Packing Company and Marine Fishing & Packing Company, corporations, doing business as Todd Packing Company, Uganik Fisheries, Inc., Wards Cove Packing Company, Inc., White Fish Products Company, Inc., L. G. Wingard, Mary Lou Wingard, Lester L. Wingard, Lou M. Hill, Charles Coffey, Conney Nelson, Lorraine Nelson and Richard W. Hill, doing business as a partnership under the trade name of L. G. Wingard Packing Co., and W. C. Arnold, individually and as Managing Director of Alaska Salmon Industry, Inc., and Alaska Fishermens Union, Alaska Marine District Union of Fishermen, Cannery Workers and Allied Trades, Bering Sea Fishermen's Union, Cordova District Fisheries Union, Local 3-3 of the Fishermen & Allied Workers Division, International Longshoremen's and Warehousemen's Union and Local No. 30, Fishermen & Allied Workers Division of International Longshoremen's and Warehousemen's Union, United Fishermen of Alaska and United Fishermen of Cook Inlet, and respondents' members, who shall be deemed herein to be parties respondent, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of raw or fresh salmon caught in the fishing areas or districts of Alaska, do forthwith cease and desist from entering into, continuing, cooperating in, or carrying out any planned common and concerted course of action, understanding or agreement between or among any two or more of said respondents, or between any one or more of said respondents and others not parties hereto, to do or perform any of the following acts:

1. Fixing, establishing, maintaining or adhering to, in any manner or by any method whatever, the price or prices at which any type of raw or fresh salmon caught in the fishing areas or districts of Alaska are to be, or are, purchased or sold;

2. Fixing, establishing, maintaining or adhering to or attempting to fix, establish, maintain or cause adherence to, by any means or method, uniform or minimum prices for the purchase or sale of said salmon;

3. Jointly or collectively negotiating, bargaining or agreeing by any means or method as to the price or prices at which said salmon is proposed to be, or is, purchased or sold;

[1] Filed as part of the original document.

4. Authorizing or empowering any association, group, corporation or union to negotiate, bargain or agree as to the prices to be paid or received in the purchase or sale of any such salmon.

Provided, however, That nothing herein contained shall prevent any association of bona fide salmon fishermen, acting pursuant to and in accordance with, the provisions of the Fisheries Cooperative Marketing Act (15 U. S. C. A., Paragraphs 521, 522) from performing any of the acts and practices permitted by said Act;

Provided further, That nothing herein contained shall be deemed to prohibit one or more respondents from entering into or continuing a bona fide partnership, joint operation or venture, or consolidation, for the purpose of operating one or more canneries, and in which the prices paid for raw or fresh salmon are determined by said partnership, joint operation or venture, or consolidation, and where such determination is, under the contract establishing such partnership, joint operation or venture, or consolidation, binding upon all members thereof; This proviso shall not be construed as either an approval or a disapproval of any specific partnership, joint operation or venture, or consolidation, nor as permitting any such partnership, joint operation or venture, or consolidation, to be continued or formed for the purpose or with the effect directly or indirectly of rendering ineffective or unenforceable the inhibitions of this order and the purposes thereof.

Provided further, That nothing herein contained shall prevent collective bargaining between any respondent Union and respondent Industry and/or any employer respondent with respect to wages and working conditions of employee members of said Union within those fishing districts wherein they may be.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

The complaint herein is dismissed as to the following who were named as parties respondent in the Complaint: Kayler-Dahl Fish Company Inc.; Nick Bez, William Calvert, Lawrence Calvert and Starr H. Calvert; Win-Ra Fisheries, Inc.; Associated Fishermen & Allied Workers; Fisheries Division, International Longshoremen's and Warehousemen's Union, Northwest and Alaska; Petersburg Vessel Owners' Association; Southeastern Alaska Salmon Purse Seiners Association and Stikine Gillnetters Association.

Issued: April 9, 1954.

By direction of the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F. R. Doc. 54-3201; Filed, Apr. 28, 1954; 8:51 a. m.]

Subchapter B—Trade Practice Conference Rules

[File No. 21-112]

PART 43—SPICE GRINDERS AND PACKERS

RESCISSION OF PART

Whereas, the Commission on August 28, 1931, promulgated trade practice rules for the Spice Grinders and Packers Industry, which were codified in the Code of Federal Regulations (16 CFR, Part 43); and

Whereas, said rules cover practices primarily within the jurisdiction of the Food and Drug Administration under the provisions of the Federal Food, Drug, and Cosmetic Act of 1938; and

Whereas, it appears that the rules for this industry are obsolete and that there is no interest on the part of the industry in a revision thereof; and

Whereas, under the circumstances, proceedings for the revision of said rules do not appear to be essential to the public interest:

It is ordered, That the said rules be and the same are hereby rescinded.

Issued: April 26, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F. R. Doc. 54-3202; Filed, Apr. 28, 1954; 8:52 a. m.]

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter I—Irrigation Projects; Operation and Maintenance

PART 95—COLVILLE IRRIGATION PROJECT, WASHINGTON

Sec.

95.1 Organization.
95.2 Irrigation season.
95.3 Domestic and stock use.
95.4 Farm units.
95.5 Delivery point.
95.6 Method of delivery.
95.7 Duty of water.
95.8 Waterusers responsible for delivered water.
95.9 Waste water.
95.10 Right-of-way.
95.11 Obstructions and their removal.
95.12 Fences.
95.13 Structures.
95.14 Service ditches.
95.15 Assessments.
95.16 Waterusers' ledgers.
95.17 Crop and statistical report.
95.18 Definitions.
95.19 Complaints.

AUTHORITY: §§ 95.1 through 95.19 issued under secs. 1, 3, 36 Stat. 270, 272, as amended; 25 U. S. C. 385.

§ 95.1 *Organization.* The Colville Irrigation Project is in charge of the Commissioner who is fully authorized to administer, carry out and enforce the rules and regulations in this part, either directly or through project employees delegated by him, such as Superintendents, watermasters, ditchriders, foremen, and other assistants. The Commissioner is fully authorized to refuse or discontinue delivery of water to any person who willfully disregards the rules and regulations in this part.

§ 95.2 *Irrigation season.* Water shall be available for irrigation purposes from May 1 to September 30 each year. These dates may be varied as much as 15 days when the Commissioner determines that weather conditions and the necessity for doing maintenance work warrants doing so.

§ 95.3 *Domestic and stock use.* Irrigation projects are primarily built and maintained for serving land with water for the irrigation of crops during the growing season. Water for domestic and stock water use shall be delivered during the non-irrigation season only at the discretion of the Commissioner or his authorized representative.

§ 95.4 *Farm units.* For the purpose of the rules and regulations in this part and for the delivery of water, a farm unit shall be defined as a contiguous area of land in single ownership containing not less than one 40-acre subdivision of the public survey regardless of its original status as a farm unit or allotment. In the case of leases a farm unit shall be defined as the contiguous area under a single lease.

§ 95.5 *Delivery point.* The general rule of the project shall be one delivery point at the upper boundary of the farm unit or allotment, and the project shall maintain the lateral system to that extent. In special cases where from a cost or topographic standpoint it is impracticable for the landowner or lessee to irrigate the entire irrigable area of his tract from one delivery point, the Commissioner shall be authorized to establish additional delivery points but in no instance shall more than one delivery point be established and maintained when the landowner or lessee can at a reasonable expense provide for delivery by the construction of suitable head ditches.

§ 95.6 *Method of delivery.* Water for irrigation purposes shall be delivered throughout the irrigation season at the discretion of the Commissioner either by the continuous flow or rotation method.

§ 95.7 *Duty of water.* Water shall be delivered subject to the provisions of the regulations in this part, on a demand basis so long as a sufficient quantity is available for project use. In case of a shortage of water, the Commissioner is authorized to adopt a rotation system, either for the entire project or for individual units thereof when, in his opinion, such action shall be for the best interests of the project. In the apportionment of the water each user shall receive his proportionate share of the available water supply on an irrigable area basis.

§ 95.8 *Waterusers responsible for delivered water.* It shall be the duty of the Bureau of Indian Affairs to furnish water for beneficial irrigation use only, and it shall be the duty of the wateruser to assist in the prevention of waste, and also prevent damage to adjacent lands. Waterusers shall be held responsible for water after it is delivered to their land, and they shall be required to have their field ditches in suitable condition and of

such capacity as to permit the use of economical heads.

§ 95.9 *Waste water.* In all cases waste water shall be kept to a minimum consistent with good irrigation practice and the wateruser shall be held responsible for the disposal of all waste water, coming from his fields, in such a manner that no injury shall be done to his land or other land by flooding or "subbing". Waste water may be emptied into project canals, laterals and drain ditches only at such points as have been designated for that purpose by the Commissioner, who shall have the right summarily to shut off water from any lands where he finds that water is being unnecessarily wasted or that the provisions of this section are being violated by the owner of such land, or other person who may be in charge of such land under authority of the owner.

§ 95.10 *Right-of-way.* For use in the necessary activities and emergencies incident to the operation and maintenance of the irrigation system, there shall be reserved a right-of-way along all canals, laterals, sub-laterals and drains, in addition to the land actually occupied by such channels and their embankments, measured from the outside limits of the embankments or channel, a strip of land of sufficient width on each side of said canals, laterals, sub-laterals and drains to permit the operation of maintenance equipment, making repairs and improvements, and travel by the project ditchriders.

§ 95.11 *Obstructions and their removal.* No trees, buildings, hay or straw stacks, or other obstructions, shall be placed upon said reserved right-of-way by any adjacent landowners or others. Any trees, buildings, hay or straw stacks, or other obstructions of any kind whatsoever, located upon said right-of-way may be ordered removed by the Commissioner, and if not removed by the person or persons placing them thereon they shall be removed under the supervision of the Commissioner at his direction, and the cost of such removal shall be added to the cost of operation and maintenance for the particular tract of land under the project belonging to the persons so placing or causing such obstructions to be placed thereon.

§ 95.12 *Fences.* No fences shall be placed in the right-of-way except those crossing a canal, lateral or drain ditch, and in such case a gate of approved type shall be installed and maintained by the property owner on each side of the canal, lateral or drain ditch of sufficient width to permit the operation of equipment, travel of ditchriders and all other necessary activities incident to the proper operation and maintenance of the project system. No wire, timber or other material used in the construction of fences across a project canal, lateral or drain ditch shall be placed less than 12 inches above the maximum high water surface elevation of the canal, lateral or drain ditch.

§ 95.13 *Structures.* All necessary headgates, checks and measuring devices shall be installed and maintained by the project. Any person or corporation desiring to build a structure over, under, in or across a project canal, lateral or drainage ditch shall first obtain from the Commissioner a permit to build such structure.

§ 95.14 *Service ditches.* The farm unit or service ditch into which water is delivered from the project canals or laterals shall have ample capacity and be maintained by the wateruser in proper condition to receive water and convey it to the place of use with a minimum of loss. Any service ditch that has been or may be constructed upon any project canal, lateral or drain right-of-way shall be considered an obstruction and subject to the provisions of § 95.11.

§ 95.15 *Assessments.* The annual per-acre charge for operation and maintenance shall be levied against the entire irrigable area of each farm unit or allotment to which irrigation water can be delivered from present constructed works. Charges shall become due and payable in accordance with § 130.9 of this chapter, and the provisions therein regarding the refusal of delivery of water in case of delinquency shall be enforced.

§ 95.16 *Waterusers' ledgers.* Separate entries shall be made in the waterusers' ledgers for each tract. Bills shall be issued to the record owner, and payments made thereon shall be credited to the proper ledger accounts.

§ 95.17 *Crop and statistical report.* A crop report on forms furnished for that purpose shall be taken each year by the Commissioner. This report shall show the number of acres devoted to each crop, total yield and value of crops for each unit of the project and for the entire project.

§ 95.18 *Definitions.* As used in §§ 95.1 through 95.17, "Commissioner" shall mean the Commissioner of Indian Affairs or his authorized representative.

§ 95.19 *Complaints.* All complaints shall be made to the Superintendent in writing. In case of dispute regarding application of rules and regulations and decisions of the Superintendent made pursuant thereto, appeal may be made within 30 days to the Area Director who shall settle the dispute if possible or refer it with his recommendations to the Commissioner of Indian Affairs.

DOUGLAS MCKAY,
Secretary of the Interior.

APRIL 22, 1954.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter E—Organized Reserves

PART 561—ARMY RESERVE

PHYSICAL EXAMINATIONS

Section 561.11 is rescinded and the following substituted therefor:

§ 561.11 *Physical examinations*—(a) *General.* Physical examinations for members of the Army Reserve will be made without cost to the reservist and by authorized examiners in conformity with the requirements and standards prescribed in this section. A physical profile will be included as a part of each physical examination accomplished under this section, for officer and enlisted personnel. The physical standards required for participation in regular and frequent aerial flights are prescribed in AR 40-110 (Army Regulations pertaining to standards of medical examination for flying). All Army personnel and installations involved in conducting physical examinations will give any individual a physical examination who requests it for the purpose of applying for appointment or enlistment, provided such applicant presents a letter of authorization from a Reserve unit commander or advisor or higher authority.

(b) *Maintenance of physical fitness.* Maintenance of physical fitness is largely an individual responsibility, particularly with reference to remedial defects. Each member has a definite obligation to maintain himself in good physical condition in order that he may perform his duties efficiently. Each individual, therefore, should seek timely medical advice if he has reason to believe that he has a physical defect which affects or is apt to affect his physical well-being.

(c) *Who may accomplish physical examinations*—(1) *General.* The Report of Medical Examination may be accomplished and signed by a medical officer of the reserve components of the Armed Forces not on active duty, a medical officer of the Armed Forces on active duty, a medical officer of another Governmental agency, or by any reputable doctor of medicine. Physical examinations will be accomplished on the following priority basis:

(i) By medical officers of the reserve components of the Armed Forces not on active duty. In communities where physical examination workloads warrant, Army area commanders may establish Reserve Physical Examining Boards. These boards will consist of an uneven number of Reserve officers of the Army Medical Corps not on active duty, not less than three members, together with such other Reserve officers or enlisted personnel of the Army Medical Service not on active duty as may be required to assist in the accomplishment of the examinations. Medical officer reservists conducting physical examinations will be awarded points creditable toward retirement.

(ii) By medical officers at medical treatment facilities of the Armed Forces, or at Armed Forces Examining Stations.

(iii) By medical officer of other Governmental agencies on a reimbursable basis, for example, United States Public Health Service and Veterans' Administration in accordance with § 577.4 of this chapter.

(iv) By civilian physicians on a reimbursable basis in remote areas when it is determined that Government medical facilities are not available under the provisions of § 577.3 of this chapter. Fee will be in accordance with schedules published annually by the Department of the Army for physical examinations.

(2) *Authorization.* Authorization for physical examination will be made, in appropriate cases, by the:

(i) Unit commander or advisor.

(ii) Chief of the Military District.

(iii) Army area commander.

(d) *Physical examinations for appointment and promotion of commissioned officers and warrant officers*—(1) *General.* The physical examination required for appointment or promotion of officers in the Army Reserve is the final type prescribed in AR 40-105 (Army regulations pertaining to standards of physical examination for commission or warrant in Regular Army, National Guard of the United States, Army of the United States, and organized Reserve Corps) for male personnel, and in AR 40-105 and AR 40-100 (Army regulations pertaining to standards of miscellaneous physical examinations) for female personnel. The final type physical examination accomplished on release from active duty will be acceptable for promotion purposes for a period of 1 year from the date of such examination.

(2) *Reviewing and waiving authority.* Commanders having authority to effect appointment or promotion are designated as reviewing and waiving authorities for medical reports (Standard Forms 88 and 89) submitted in connection with such personnel actions. The standards established in the regulations referred to in subparagraph (1) of this paragraph will be liberally interpreted in the granting of waivers for physical defects which, in the opinion of the reviewing authority, are static in nature, are not subject to complications or aggravation by reason of military duty, and are of such nature and degree as not to affect adversely the performance of active duty considering the member's age, grade, branch, and normal duties.

(e) *Periodic physical examinations.* All officers, warrant officers and enlisted members of the Army Reserve not on active duty, except members of the Retired Reserve, will undergo physical examinations as outlined in AR 40-100 at least once every 4 years or more often as deemed necessary by the Secretary of the Army (see section 225, Armed Forces Reserve Act of 1952, Pub. Law 476, 82d Cong.).

(f) *Failure to submit report of physical status.* Members of the Army Reserve not on active duty, except those in the Retired Reserve, who fail to undergo the physical examination required by paragraph (e) of this section or who fail to submit the annual certificate of physical condition, will, after every reasonable effort has been made to obtain such information, be subject to the following actions:

(1) Reservists having an obligation under the Universal Military Training and Service Act, as amended, may be ordered to active duty or active duty for training as deemed appropriate under the provisions of section 233 (c) of the Armed Forces Reserve Act of 1952 for the purpose of securing the necessary information.

(2) All other reservists may be considered for discharge pursuant to section 248 of the Armed Forces Reserve Act of 1952.

[AR 140-120, April 8, 1954] (Sec. 251, 66 Stat. 495)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
Acting The Adjutant General.

[F. R. Doc. 54-3199; Filed, Apr. 28, 1954; 8:51 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

In Part 127, International Postal Service: Postage Rates, Service Available and Instructions for Mailing, 39 CFR Part 127, make the following changes:

a. In § 127.286 *Kenya and Uganda* insert the following immediately after the table of rates appearing in subdivision (i) of paragraph (b) (1):

(ii) *Air parcel rates.*

[Rates: $1.35 first 4 ounces; $0.85 each additional 4 ounces]

Lb.	Oz.	Rate	Lb.	Oz.	Rate
0	4	$1.35	5	12	$20.05
0	8	2.20	6	0	20.90
0	12	3.05	6	4	21.75
1	0	3.90	6	8	22.60
1	4	4.75	6	12	23.45
1	8	5.60	7	0	24.30
1	12	6.45	7	4	25.15
2	0	7.30	7	8	26.00
2	4	8.15	7	12	26.85
2	8	9.00	8	0	27.70
2	12	9.85	8	4	28.55
3	0	10.70	8	8	29.40
3	4	11.55	8	12	30.25
3	8	12.40	9	0	31.10
3	12	13.25	9	4	31.95
4	0	14.10	9	8	32.80
4	4	14.95	9	12	33.65
4	8	15.80	10	0	34.50

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 958]

FLORIDA

RESERVING PUBLIC LANDS FOR RECREATIONAL PURPOSES; PARTIALLY REVOKING EXECUTIVE ORDER OF MAY 3, 1897

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, and the act of June 14, 1926 (44 Stat. 741; 43 U. S. C. 869), it is ordered as follows:

Subject to valid existing rights the following-described public lands in Florida, which have been classified as chiefly valuable for recreational purposes, are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and the mineral-

leasing laws, and reserved for administration or disposal in accordance with the provisions of the aforesaid act of June 14, 1926:

TALLAHASSEE MERIDIAN

T. 4 S., R. 15 W.,
Sec. 15, lots 2 and 3;
Sec. 22, lots 3 and 4;
Sec. 23, lot 6;
Sec. 25, lot 2;
Sec. 26, lot 1;
Sec. 35, lot 1.

The areas described aggregate 242.40 acres.

The Executive Order of May 3, 1897, reserving certain lands for the future military and naval defenses of St. Andrews Bay, Florida, is hereby revoked so far as it affects the above-described lands.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

APRIL 23, 1954.

[F. R. Doc. 54-3184; Filed, Apr. 28, 1954; 8:48 a. m.]

[Public Land Order 959]

NEBRASKA

ADDITION OF CERTAIN LANDS TO NEBRASKA NATIONAL FOREST

By virtue of the authority vested in the President by section 24 of the act of March 3, 1891 (26 Stat. 1103; 16 U. S. C. 471) and the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473), and pursuant to Executive Order No. 10355 of May 26, 1952, and upon the recommendation of the Secretary of Agriculture it is ordered as follows:

Subject to valid existing rights the following-described public land in Nebraska are hereby added to and reserved as a part of the Nebraska National Forest, and the boundaries of the said National Forest are extended accordingly:

SIXTH PRINCIPAL MERIDIAN

T. 22 N., R. 26 W.,

Beginning at a point on the west boundary of sec. 2 from which the south sixteenth section corner between secs. 2 and 3 bears S. 0° 28' E., 0.75 chains; thence N. 0° 28' W. along section line approximately 19.70 chains to the south boundary of 100 foot right-of-way to C. B. and Q. R. R.; thence southeasterly along south boundary of said right-of-way to a point on meridianal center section line of sec. 2; thence S. 0° 21' E., 10.30 chains, along said center section line to south center sixteenth section corner; thence S. 89° 46' W., 23.34 chains, approximately along south latitudinal sixteenth section line; thence N. 81° 48' W., 13.86 chains; thence S. 66° 56' W., 3.29 chains to point of beginning.

The area described aggregates approximately 54.4 acres.

The said land shall hereafter be subject to all laws and regulations applicable to the Nebraska National Forest.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

APRIL 23, 1954.

[F. R. Doc. 54-3185; Filed, Apr. 28, 1954; 8:48 a. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

PART 1—GENERAL RULES OF PRACTICE

NOTICE OF FILING OF APPLICATIONS BY MOTOR CARRIERS OF PASSENGERS AND CERTAIN OTHER PROCEDURAL MATTERS

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 19th day of April A. D. 1954.

The matter of special rules governing notice of filing of applications by motor carriers of passengers and certain other procedural matters with respect thereto being under consideration:

It is ordered, That the following special rules be, and they are hereby, prescribed:

§ 1.241 *Special rules governing notice of filing of applications by motor carriers of passengers, under sections 5 (2), 206, 209, 210a (b), and 211 of the Interstate Commerce Act and certain other procedural matters with respect thereto*—(a) *Scope of special rules.* These special rules govern the filing and handling of (1) applications under section 5 (2) of the Interstate Commerce Act respecting control, lease, and unification of operating rights and properties of motor carriers of passengers, (2) applications for certificates, permits, and licenses respecting the transportation of passengers under sections 206, 209, and 211 of the act, and (3) applications for temporary authority respecting the transportation of passengers under section 210a (b) of the act. Amendments to applications which broaden the scope of proposed operations are deemed to be "applications" for the purpose of this section. Such amendments will not be allowed if tendered after an application has been assigned for oral hearing.

(b) *Notice to interested persons.* Notice of the filing of such applications to interested persons shall be given by the publication of a summary of the authority sought in the FEDERAL REGISTER. Such summaries will be prepared by the Commission. No other notice by applicants to interested persons is required, except that applicants are not relieved from the obligations to file copies of applications with Governors, State Boards, and District Directors of the Commission's Bureau of Motor Carriers as required by the instructions which are a part of the prescribed form of application.

(c) *Protests and requests for hearing.* (1) Protests to the granting of an application shall be filed with the Commission within 30 days after the date notice of the filing of the application is published in the FEDERAL REGISTER.

(2) Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held.

(3) In addition to other requirements of § 1.40, protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected.

(4) Any request for an oral hearing shall be supported by an explanation as to why the evidence to be presented cannot reasonably be submitted in the form of affidavits. The Commission will determine whether or not assignment of the application for hearing is necessary or desirable.

(5) Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of the notice of the filing of the application.

(6) Except when circumstances require immediate action, an application for approval under section 210a (b) of the act of the temporary operation of motor carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of the notice of the filing of the application. If a protest is received prior to action being taken, it will be considered.

It is further ordered, That a copy of this order shall be served upon each motor common and contract carrier of passengers and each broker of passenger transportation subject to the jurisdiction of this Commission, and that notice to the general public shall be given by depositing a copy in the Office of the Secretary of the Commission and by filing a copy with the Director, Division of the Federal Register.

And it is further ordered, That this order shall become effective June 1, 1954.

(Secs. 12, 17, 24 Stat. 383, as amended, 385, as amended, 49 Stat. 546, as amended, 548, as amended, sec. 201, 54 Stat. 933, sec. 1, 56 Stat. 285; 49 U. S. C. 12, 17, 304, 305, 904, 1003)

By the Commission.

[SEAL] GEORGE W. LAIRD,
Secretary.

[F. R. Doc. 54-3193; Filed, Apr. 28, 1954; 8:50 a. m.]

PART 110—DESTRUCTION OF RECORDS

SUBPART A—STEAM ROADS

LIST OF ACCOUNTS, RECORDS, AND MEMORANDA, AND PERIODS OF RETENTION

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 16th day of April A. D. 1954.

The matter of modifying the "Regulations to Govern the Destruction of Records of Steam Railroads, Issue of 1945," as amended, being under consideration pursuant to authority of section 20 (7) (b) of the Interstate Commerce Act, as amended; and

It appearing, that a notice dated January 14, 1954, was served on all railroad companies subject to provision of the act, to the effect that certain modifications had been approved, such notice also being published in the FEDERAL REGISTER on January 30, 1954 (19 F. R. 542), pursuant to provisions of section 4 of the Administrative Procedure Act; and no written views or arguments having been received on or before April 1, 1954, from any interested person, as provided in such notice, it is ordered, that:

1. Section 110.12 *List of accounts, records, and memoranda, and periods of retention* be amended so as to include the following modifications of the specified items:

a. In Item 110, Material ledgers, (a) Records of material and supplies on hand, change the period of retention from 6 years to 4 years.

b. In Item 111, Purchase and sales, cancel text and period of retention in (b) and substitute:

(b) Invoices for materials and supplies purchased whether attached to vouchers or filed separately (see items 55c and 111-1), and records and reports of such invoices—10 years.

c. In Item 111, Purchase and sales, cancel text and period of retention in (l) and substitute:

(l) Price records of purchases, original file copies of invoices (see item 111-b)—10 years.

d. In Item 114, Material and supplies issued, (d) Price records of material and supplies issued, file copies, change period of retention from "Permanent" to 4 years.

e. In Item 118, Company fuel, change word "coaling" in (b), (c), (d), and (f) to "fueling".

2. *Effective date.* The foregoing modifications shall become effective June 1, 1954.

3. *Notice.* A copy of this order shall be served on each carrier by railroad subject to Part I of the act and not independently operated as an electric line, and on every trustee, receiver, executor, administrator, or assignee of any such carrier, and notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 20, 24 Stat. 386, as amended; 49 U. S. C. 20)

By the Commission, Division 1.

[SEAL] GEORGE W. LAIRD,
Secretary.

[F. R. Doc. 54-3192; Filed, Apr. 28, 1954; 8:49 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 927]

MILK IN NEW YORK METROPOLITAN MARKETING AREA

NOTICE OF MEETING FOR CONSIDERATION OF COOPERATIVE PAYMENTS RULES AND REGULATIONS

Pursuant to provisions of § 927.76 of the order, as amended (7 CFR Part 927; 18 F. R. 7224, 7581; 19 F. R. 556), regulating the handling of milk in the New York metropolitan milk marketing area, and of the Administrative Procedure Act (5 U. S. C. 1001 et seq.), notice is hereby given that the meeting held at Syracuse, New York, on January 21 and 22, 1954, pursuant to notice issued on January 11, 1954 (19 F. R. 265) will be reopened beginning at 10:00 a. m., e. d. s. t., on May 5, 1954, at the Syracuse Hotel, Syracuse, New York. Such reopened meeting is for further consideration of rules and regulations proposed to be issued pursuant to said § 927.76 of the order. Interested persons will be afforded an opportunity at the meeting to be heard through the submission of data, views, or arguments orally or in writing. All material presented in writing should be in quintuplicate. Copies of the said proposed rules and regulations as hereinafter set forth may be procured from the Market Administrator, 205 East Forty-second Street, New York 17, New York.

The proposed rules and regulations to be considered at said meeting are as follows:

QUALIFICATION

§ 927.410 *Procedure.* (a) Applications submitted by associations shall be subject to investigation and verification prior to any determination as to the qualification of such association to receive payments pursuant to § 927.76.

(b) Before any negative determination is issued, the market administrator, or his representative, shall be available to meet with directors of the association to discuss the issues which would indicate the negative determination.

§ 927.411 *Determination as to whether an association is a cooperative.* The determination as to whether an association meets the definition of a cooperative as defined in this part including a determination as to whether the association is qualified under the Capper-Volstead Act, shall be made by the market administrator.

§ 927.412 *Determination as to whether an applicant is a federation of cooperatives.* An applicant to be considered a federation of cooperatives must have a membership consisting of organizations incorporated under the cooperative corporations law of a state, and at least 90 percent of the member associations must meet the full definition of a cooperative contained in § 927.76 (a) (1). The activities of the applicant must be under the control of its member associations; 90 percent of the voting power must be controlled by federated cooperatives and other cooperatives qualified individually to receive payments under § 927.76; a negative vote by two-thirds of the federated cooperatives voting must be sufficient to veto any proposed action; and the negative vote by less than three member associations shall not be sufficient to veto any proposed action unless the associations casting such negative vote constitute two-thirds of the associations voting.

§ 927.413 *Producer membership in cooperatives.* (a) The claim of a cooperative that a producer is a member shall be supported by a document signed by the producer, or his authorized agent, except in cases where the by-laws of the cooperative provide for membership for any producer without signature where such producer refuses to sign on the basis of religious scruples. The producer must also conform to all applicable requirements of the by-laws of the cooperative association in order to be considered a member.

(b) The determination as to whether two or more farms operated by an individual are to be considered farms operated by more than one producer shall depend upon determination of the market administrator as to whether such farms are one or more than one business unit.

(c) The rate of payments based upon number of producers shall be in accordance with the determination issued by the market administrator, and shall be changed only on the basis of a revised determination issued pursuant to paragraphs (c) and (g) of § 927.76.

§ 927.414 *Operating of marketing facilities.* (a) In determining the percentage of milk received from members at pool plants operated by the cooperative association or the federated cooperative, the average shall be computed on the basis of the most recent 12-month period.

(b) Payment relating to operation of market facilities shall be based on the determination of the market administrator and any change in this rate shall be based only on a revised determination.

(c) The original determination shall be made on the basis of considering all of the milk received by the cooperative or the federated cooperative in the specified 12-month period. However, if a revised determination is made with respect to a federation already qualified to receive payments, the milk of any new member cooperative shall be considered only for such time as such cooperative has been a federated cooperative of the federation.

§ 927.415 *Personnel.* An applicant to be qualified must employ at least the following personnel:

(a) *Economist.* A person who has a college degree, with additional training at least equivalent to that required for a Master's degree with specialization in Agricultural Economics. The additional

training may be either college training or experience acquired through working for a disinterested research agency, such as a governmental agency, or an endowed foundation. In addition, he must have at least three years of experience in the field of milk marketing.

(b) *Legal.* A lawyer who must be a member of the bar in good standing and who is employed by the applicant on a full time or on a retainer basis. If employed on the latter basis, his retainer shall require that he give priority attention to the affairs of the cooperative or federation.

(c) *Fieldman.* A person with an education equivalent to that of a person with a Bachelor's degree, with majors in agricultural marketing, dairy marketing and related subjects, and two years of experience in educational work among farmers.

(d) *Field Supervisor.* A person who qualifies as a fieldman but has five years experience, a part of which includess supervision of other men.

(e) *Editor.* A person with an education equivalent to a college degree in journalism and five years experience in agricultural journalism.

§ 927.416 *Facilities.* The applicant must possess facilities which permit the personnel specified in § 927.415 to operate efficiently.

§ 927.417 *Program for market-wide service.* The program for market-wide service submitted by the applicant must be in sufficient detail to demonstrate that the program will result in the performance of the market-wide service required in the provisions of the order and the regulations with respect to continued qualification, and will be fully effective not later than three months following the date of qualification.

§ 927.418 *Publications.* (a) The applicant must issue an official publication containing milk marketing information for members and nonmembers.

(b) If an applicant uses as its publication one which is not prepared exclusively by the association, the section of such publication used for presenting its own material must be readily recognizable in the make-up of the publication. The applicant must demonstrate that it has veto power with respect to any proposed editorials prepared for use in the same publication used by it which may be contrary to the policy of the applicant.

(c) The issuance of a publication by a federated cooperative shall be considered an activity of the federation of which it is a member only to the extent that the material so published is prepared under the direction and supervision of the management of the federation.

[illegible]

§ 927.420 *Reports of cooperatives.* (a) Each qualified cooperative shall file an annual report with the market administrator for the preceding 12-month period within three months of the anniversary of the date of qualification. Such report shall cover the complete activities of the association.

(b) At such times and in such manner as the market administrator may request, the cooperative shall file additional reports with the market administrator.

(c) The qualified cooperative or the federated cooperative shall file notice of additions and withdrawals of membership not later than the end of the month following the month of such addition or withdrawal. No producer shall be considered a member of a cooperative for purposes of cooperative payments prior to the first of the month preceding the month in which the required report of the addition of such producer as a member is received by the market administrator.

§ 927.421 *Verification of reports and receipts of milk from members.* (a) The reports required pursuant to § 927.420 shall be subject to verification by audit by the market administrator.

(b) Receipts of milk at pool plants from members of a qualified organization shall be subject to verification by the market administrator, and in the event that the volume of such receipts is different from that reported by the handler in his monthly report, the payment to the organization shall be adjusted accordingly by the market administrator by debiting or crediting the organization's account with the market administrator.

§ 927.422 *Consultation on milk marketing problems.* The economist of the association shall be made available on reasonable notice to consult with the market administrator or his representative with respect to milk marketing problems and their solutions, and shall be prepared to discuss with the market administrator, or his representative, the progress being made by the association in carrying out research or analysis of marketing problems.

§ 927.423 *Formulation of proposed amendments and participation in hearings and meetings.* (a) The organization shall file with the market administrator copies of all documents filed with respect to:

(1) Petitions for amendments.

(2) Briefs filed following hearings.

(3) Exceptions filed to recommended decisions.

(4) Written data, views and arguments with respect to any rule making procedure affecting the marketing order.

(b) The records of amendment hearings and meetings of rules and regulations shall be examined by the market administrator to determine the degree of participation by the organization receiving cooperative payments.

§ 927.424 *Referendum of producers.* The organization shall be prepared to aid the Referendum Agent for any referendum conducted with respect to proposed amendments to the order in distribution of material required for the conducting of such referendum. It must also either vote collectively on proposals, or conduct an intensive educational program for members and non members for the guidance of the individual in voting.

§ 927.425 *Educational meetings.* (a) Each qualified organization shall hold a sufficient number of educational meetings for members and non members so that at least one such meeting shall be held each year within 50 miles of each plant at which the milk of members of the association is delivered.

(b) Notice of each such meeting shall be sent to the market administrator in sufficient time to permit the market administrator to have a representative present if he so desires.

(c) The association shall report to the market administrator the means used by the association to notify nonmembers of such meetings.

§ 927.426 *Distribution of publications.* (a) The official publication of the association shall be issued at least once a month and distributed to all members of the cooperative or federated cooperatives and to nonmember producers on the same subscription basis.

(b) One copy of the publication shall be filed with the market administrator.

§ 927.427 *Services performed by federated cooperatives.* (a) A federation may engage one or more of its federated cooperatives to perform specific services: *Provided*, That the federation shall exercise the same kind and degree of control over the performance of such services as it would if such services were being performed by its own personnel. The federation may make payment to the federated cooperatives for the performance of such services, such payment to be either in the form of reimbursement for actual expenditures, or on the basis of a stipulated rate which shall be uniform with respect to all of its federated cooperatives. The opportunity to perform such services for the federation and to receive payment therefor shall be open to any of its federated cooperatives which is equipped to perform the services. Performance of services by a federated cooperative for the federation on the basis herein described shall be considered as performance of the services by the federation itself for the purpose of cooperative payments.

(b) With respect to those services for which cooperative payments are provided, activities of a federated cooperative shall not be considered the activities of the federation if the federation does not exercise over them the same kind and degree of control as it would exercise over the activities of its own personnel and any payment by a federation to a federated cooperative with respect to such activities shall be considered contrary to the intent to the provisions of § 927.76.

HEARINGS ON PROPOSED DISQUALIFICATION

§ 927.430 *Notice of hearing.* Not later than ten days after receipt of a request for hearing on a proposed disqualification, the market administrator shall issue a notice to the cooperative or the federation of the time and place for such hearing.

§ 927.431 *Presiding officer.* The hearing shall be conducted by the market administrator or at his discretion by a hearing examiner of either the United States Department of Agriculture or the New York State Department of Agriculture and Markets.

§ 927.432 *Order of proceeding and burden of proof.* The cooperative or federation shall proceed first at the hearing and shall have the burden of proving its eligibility to receive payments.

§ 927.433 *Evidence.* (a) The cooperative or federation shall place into the record under oath all of the evidence on which it will rely either before the market administrator or on an appeal.

(b) The market administrator shall place into the record under oath any additional evidence on which he may wish to rely in making his final determination with respect to the qualification of the cooperative or federation to receive payments.

(c) Opportunity for cross-examination shall be given both to the cooperative or federation and the market administrator.

Issued at New York, New York, this 22d day of April 1954.

[SEAL] C. J. BLANFORD,
Market Administrator, New York Metropolitan Milk Marketing Area.

[7 CFR Part 973]

HANDLING OF MILK IN MINNEAPOLIS-ST. PAUL, MINNESOTA, MARKETING AREA

NOTICE OF EXTENSION OF TIME FOR FILING EXCEPTIONS TO RECOMMENDED DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900) notice is hereby given that the time for filing exceptions to the recommended decision with respect to a proposed marketing agreement and a proposed order amending the order, as amended, regulating the handling of milk in the Minneapolis-St. Paul, Minnesota, marketing area, which was issued April 12, 1954 (19 F. R. 2186) is hereby extended to May 3, 1954.

Dated: April 26, 1954.

[SEAL] GEORGE A. DICE,
Acting Deputy Administrator.

[F. R. Doc. 54-3197; Filed, Apr. 28, 1954; 8:51 a. m.]

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

An application, serial number Anchorage 026290, for the withdrawal from all forms of appropriation under the public land laws, of the lands described below was filed on March 22, 1954, by the Alaska Railroad.

The purposes of the proposed withdrawal: To protect water supply for a gravity system water standpipe at the railroad track.

For a period of 60 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region VII, Bureau of Land Management, Department of the Interior at Anchorage, Alaska. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

Beginning at a point on the northeasterly boundary line of the present right-of-way of the Alaska Railroad which is located 100.0 feet to the right (northeasterly) from the center line of the main track of the railroad at survey station "C" 983 plus 53.0 E. C., Mileage 71.15. The point of beginning is located at latitude 60°54'46" N., longitude 149°06'10" W.; thence southeasterly 735.7 feet parallel to and 100.0 feet from the center line of the main track to a point which lies due north 110.0 feet more or less from the center line of the main track at survey station "C" 975 plus 38.2, Mileage 71.00; thence due north 216.00 feet along the northwesterly boundary line of the Chugach National Forest as established by Public Land Order No. 797 to a point which lies 300.0 feet from the center line of the main track, measured at right angles therefrom; thence northwesterly 579.1 feet parallel to and 300.0 feet from the center line of the main track; thence southwesterly 200.0 feet to the point of beginning. The tract as described contains approximately 3.02 acres.

LOWELL M. PUCKETT,
Regional Administrator.

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

An application, serial number Anchorage 026010, for the withdrawal from all forms of appropriation under the public land laws, of the lands described below was filed on December 23, 1953, by Department of Agriculture.

The purposes of the proposed withdrawal: Recreational Sites.

For a period of 60 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region VII, Bureau of Land Management, Department of the Interior at Anchorage, Alaska. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

SEWARD HIGHWAY AND HOPE HIGHWAY JUNCTION

A tract extending 10 chains on each side of the center line of the Seward-Anchorage Highway beginning at Station 1474+00 Section C and extending along and parallel to the highway centerline to Station 1507+60 of the Hope Highway Section D, approximate latitude 60°47' N., longitude 149°26' West, containing approximately 74.3 acres.

INGRAM CREEK AREA

A tract extending 10 chains on each side of the centerline of the Seward-Anchorage Highway, beginning at Station 452+79 Section E and extending along and parallel to the highway centerline to Station 515+00 Section E, approximate latitude 60°51' N., longitude 149°4' West, containing approximately 58.5 acres.

PORTAGE GLACIER AREA

Beginning at a point 2 miles due west and 0.35 miles due south of the highest point of the most northerly knob, about 50 feet in height, on the well-defined glaciated spur between Passage Canal (Portage Bay) and Portage Glacier, this knob being approximately 1¼ miles southwest of the head of Passage Canal in approximate latitude 60°46' N., longitude 148°45' W.; thence north 0.85 mile; west 1 mile; north 0.65 mile; west 0.65 mile; north 0.1 mile; west 0.2 mile; north 0.1 mile; west 0.3 mile; south 0.9 mile; east 0.4 mile; south 0.3 mile; east 0.4 mile; south 0.85 mile; east 0.35 mile; north 0.35 mile; east 1.0 mile to point of beginning, containing approximately 1,790.4 acres.

ARIZONA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

APRIL 21, 1954.

An application, serial number Arizona 04756, for the withdrawal from location, sale, and entry, under the General Mining Laws, of the lands described below was filed on April 6, 1953, by the U. S. Department of Agriculture.

The purposes of the proposed withdrawal: Administrative sites, recreation areas, and roadside zones.

For a period of thirty days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region 5, Bureau of Land Management, Department of the Interior at P. O. Box 1695, Albuquerque, New Mexico. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

Application AR-04756 filed April 6, 1953, Prescott National Forest:

GILA AND SALT RIVER MERIDIAN

CROWN KING ADMINISTRATIVE SITE

T. 10 N., R. 1 W., unsurveyed,
Starting at Corner No. 1 of Estella patented mining claim covered by Mineral Survey No. 3167 and expected to be located in Sec. 14, T. 10 N., R. 1 W., thence due East for a distance of 10 chains, thence due South for a distance of 20 chains, thence due West for a distance of 20 chains, thence due North for a distance of 20 chains, thence due East for a distance of 10 chains to point of beginning.

The area described aggregates 40 acres.

DRAKE ADMINISTRATIVE SITE

T. 19 N., R. 1 W.,
Sec. 32, NE¼, E½SE¼.

The area described aggregates 240 acres.

GOVERNMENT SPRING RECREATION AREA

T. 12 N., R. 3 E.,
Sec. 3, lot 3.
T. 13 N., R. 3 E.,
Sec. 33, lots 11 and 14.

The areas described aggregate 116.53 acres.

GRANITE CREEK RECREATION AREA

T. 13 N., R. 2 W.,
Sec. 16, W½E½NW¼, SE¼NW¼NW¼, E½SW¼NW¼, E½NW¼SW¼, SW¼NW¼SW¼, N½NE¼SW¼, SE¼NE¼SW¼, NW¼SW¼SW¼.

The area described aggregates 140 acres.

GROOM CREEK ADMINISTRATIVE SITE

T. 13 N., R. 2 W.,
Sec. 26, lot 28.

The area described aggregates 7.88 acres.

HICKET MOUNTAIN SUMMER HOME AREA, POTATO PATCH PICNIC AREA, AND LOWER MINGUS MOUNTAIN WINTER SPORTS AREA

T. 15 N., R. 2 E., unsurveyed,
Sec. 4, SW¼NW¼, NW¼SW¼;
Sec. 5, S½NE¼, N½SE¼.

The areas described aggregate 240 acres.

HYDE MOUNTAIN LOOKOUT

T. 17 N., R. 6 W.,
Sec. 20, SW¼SE¼;
Sec. 29, NW¼NE¼.

The areas described aggregate 80 acres.

INDIAN CREEK RECREATION AREA

T. 13 N., R. 2 W.,
Sec. 19, lots 12, 13, 19 and 20;
Sec. 30, lots 5, 12 and 13;
Sec. 29, lots 6 and 7;
Sec. 30, lot 5.

The areas described aggregate 441.37 acres.

JOHNSON WASH RANGER STATION

T. 14 N., R. 3 E.,
Sec. 33, S½NW¼SE¼, S½NE¼SW¼, SE¼NW¼SW¼ and lots 1, 2 and 3.

The areas described aggregate 132.05 acres.

MEXICAN SEEP ADMINISTRATIVE PASTURE

T. 16 N., R. 2 E., unsurveyed,
Sec. 12, S½NE¼, S½NE¼NE¼, N½SE¼.

The areas described aggregate 180 acres.

MINGUS MOUNTAIN LOOKOUT, MINGUS MOUNTAIN RECREATION AREA, MINGUS MOUNTAIN SUMMER HOME AREA, AND PLAYGROUNDS PICNIC AREA

T. 15 N., R. 2 E., unsurveyed,
Starting at Corner No. 6 of Homestead Entry Survey No. 92, expected to be located in Secs. 3, 4, 9 and 10, thence due East for a distance of 50 chains, thence due South for a distance of 60 chains, thence due West for a distance of 130 chains, thence due North for a distance of 60 chains, thence due East for a distance of 80 chains to point of beginning.

The area described aggregates 662.84 acres.

POWELL SPRINGS RECREATION AREA

T. 14 N., R. 3 E.,
Sec. 19, E½NE¼SW¼, NW¼SE¼, SW¼NE¼SE¼, N½SW¼SE¼, NW¼SE¼SE¼.

The areas described aggregate 100 acres.

SPRUCE MOUNTAIN LOOKOUT

T. 13 N., R. 1 W.,
Sec. 31, NW¼SE¼.

The area described aggregates 40 acres.

THUMB BUTTE RECREATION AREA

T. 14 N., R. 3 W.,
Sec. 36, lots 1, 2, SE¼NW¼NE¼, NE¼SW¼NE¼.

The areas described aggregate 105.28 acres.

TONTO SPRINGS ADMINISTRATIVE SITE

T. 15 N., R. 4 W.,
Sec. 33, E½, E½NE¼SW¼, N½SE¼SW¼;
Sec. 34, W½W½W½.

The areas described aggregate 440 acres.

TOWERS MOUNTAIN LOOKOUT

T. 10 N., R. 1 W., unsurveyed,
Starting at the mineral survey corner designated as Corner No. 2 of the Bear patented mining claim and Corner No. 3 of the Kitty patented mining claim as shown on Mineral Survey No. 3010, thence due South along the West side of the Kitty patented claim a distance of 750 feet to the point of beginning, thence due South a distance of 20 chains, thence due West a distance of 20 chains, thence due North a distance of 20 chains, thence due East a distance of 20 chains to the point of beginning.

The area described aggregates 40 acres.

WILLOW ADMINISTRATIVE SITE ADDITION

T. 14 N., R. 3 W.,
Sec. 13, lots 1, 2, 3 and 4.

The areas described aggregate 174.18 acres.

WOLF CREEK RECREATION AREA

T. 12½ N., R. 2 W., unsurveyed.
Sec. 3, NW¼NW¼NE¼.
T. 13 N., R. 2 W.,
Sec. 34, lots 15, 16 and 17.

The areas described aggregate 130.73 acres.

YAEGER CANYON ADMINISTRATIVE SITE

T. 15 N., R. 2 E., unsurveyed,
Sec. 17, S½NW¼, S½NW¼NW¼, SW¼NE¼NW¼, S½SW¼NE¼, NW¼SW¼NE¼, SW¼SE¼NE¼, SE¼, N½N½SW¼;

CALIFORNIA

CLASSIFICATION ORDER AMENDED

APRIL 16, 1954.

Pursuant to the authority delegated to me by the Regional Administrator, Region II, Bureau of Land Management, by Order No. 1, Amendment No. 2, dated January 29, 1953 (18 F. R. 23), Small Tract Classification Order No. 70, California No. 28, dated March 19, 1945, is hereby amended to provide for sale to lessees of all lands described therein at the appraised price of $100.00 per tract of approximately 5 acres. Applications to purchase must be filed in accordance with applicable regulations.

E. I. ROWLAND,
Regional Chief,
Division of Lands.

[F. R. Doc. 54-3183; Filed, Apr. 28, 1954; 8:48 a. m.]

OREGON

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

APRIL 21, 1954.

An application, serial number Oregon 03060, for the withdrawal from all forms of appropriation under the public land laws, except mineral leasing of the lands described below was filed on January 7, 1954, by United States Fish and Wildlife Service. The purposes of the proposed withdrawal: Eagle Creek Fish-Cultural Station.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region I, Bureau of Land Management, Department of the Interior at Swan Island Station, Portland 18, Oregon. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

WILLAMETTE MERIDIAN

T. 3 S., R. 5 E.
Sec. 26, NE¼NW¼;
Sec. 27, NE¼, SW¼, N½SE¼;
Sec. 28, N½S½.

The areas described aggregate 600 acres.

The lands are located on Eagle Creek 7 miles east of Estacada. The elevation is 950 to 1,800 feet, and the topography is deep canyon to mountainous. The lands are Revested Oregon and California Railroad Grant lands and are in power site reserves. The lands are being administered under principles of sustained yield and multiple use forest management policy.

The lands are in the Eagle Creek watershed and have direct important watershed value in connection with the proposed Eagle Creek Fish-Cultural Station. The Geological Survey has reported that the use of the lands for watershed protection in connection with the fish cultural purposes as proposed is not detrimental to their power value, and that there is no objection to the withdrawal, subject to the power site reserves. It has been determined that the withdrawal of the lands for the purposes proposed, will be consistent with the multiple uses, including timber management under the administrative jurisdiction of the Bureau of Land Management.

J. G. FRIEDLY,
Acting Regional Administrator.

[F. R. Doc. 54-3177; Filed, Apr. 28, 1954; 8:46 a. m.]

[Docket DA-219]

OREGON

RESTORATION ORDER UNDER FEDERAL POWER ACT

APRIL 21, 1954.

Pursuant to determination DA-219, Oregon, of the Federal Power Commission and in accordance with Order No. 427, section 2.22 (a) (4) of the Director, Bureau of Land Management, approved August 16, 1950, 15 F. R. 5641, it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawal, the lands hereinafter described so far as they are withdrawn and reserved for power purposes are hereby restored subject to section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. sec. 818) as amended.

WILLAMETTE MERIDIAN

T. 21 S., R. 1 W.,
Sec. 31, SE¼NW¼, NW¼SE¼, SE¼SE¼.

The areas described aggregate 120 acres.

The lands described are revested Oregon and California Railroad Grant lands, and they are classified as primarily valuable for timber production and retention in public ownership.

While any application which is filed will be considered on its merits, it is unlikely that any part of the restored lands will be classified for any use or disposal other than that shown above. No application for the lands may be allowed under the homestead, desert land, or any other nonmineral public land laws unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

The lands described shall be subject to application by the State of Oregon for a period of 90 days from date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of materials for construction and maintenance of such highways, subject to section 24 of the Federal Power Act, as amended. This order shall not otherwise affect the status of the lands until 10:00 a. m. on the 91st day after the date of publication of this order in the FEDERAL REGISTER. At that time, the lands shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws and the 90-day preference filing period of veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Information showing the periods during which and conditions under which veterans and others may file application for these lands may be obtained on request in the Land Office, Portland, Oregon.

J. G. FRIEDLY,
Acting Regional Administrator.

[F. R. Doc. 54-3178; Filed, Apr. 28, 1954; 8:47 a. m.]

IDAHO

STOCK DRIVEWAY WITHDRAWAL

APRIL 20, 1954.

By virtue of the authority contained in section 7 of the act of June 28, 1934 (48 Stat. 1272), as amended by the act of June 26, 1936 (49 Stat. 1976; 43 U. S. C. 315f), and in section 10 of the act of December 29, 1916 (39 Stat. 865), as amended by the act of January 29, 1929 (45 Stat. 1144; 43 U. S. C. 300), and pursuant to section 2.22 (a) (2) of Delegation Order No. 427 of August 16, 1950, 15 F. R. 5641, it is ordered as follows:

The following described public lands in the State of Idaho are hereby classified as necessary and suitable for stock driveway purposes and, excepting any mineral deposits therein, are withdrawn from all disposal under the public land laws and reserved, subject to valid existing rights, for the use of the general public for stock driveway purposes.

BOISE MERIDIAN

T. 2 N., R. 43 E.,
Sec. 35, SE¼NW¼, N½S½, N½SW¼SW¼, SW¼SW¼SW¼, W½SE¼SW¼SW¼.

The areas described aggregate 235 acres.

Any mineral deposits in the lands shall be subject to location and entry only in the manner prescribed by the Secretary of the Interior in accordance with the provisions of the aforesaid act of January 29, 1929, and existing regulations.

J. G. FRIEDLY,
Acting Regional Administrator.

[F. R. Doc. 54-3179; Filed, Apr. 28, 1954; 8:47 a. m.]

[Misc. 1568292]

WASHINGTON

AIR NAVIGATION SITE REVOKED

APRIL 21, 1954.

By virtue of the authority contained in section 4 of the act of May 24, 1928 (45 Stat. 729; 49 U. S. C. 214), and pursuant to section 2.22 (a) (2) of Delegation Order No. 427 of August 16, 1950, 15 F. R. 5641, it is ordered as follows:

Air Navigation Site Withdrawal No. 95 dated September 26, 1934, is hereby revoked as to Beacon Site No. 14, Seattle-Helena Airway at Gloyd, Washington, involving the following described land:

WILLAMETTE MERIDIAN

T. 21 N., R. 28 E.,
Sec. 26, NW¼SW¼NW¼.

The areas described aggregate 9.84 acres.

The land described is within a first form reclamation withdrawal prescribed by section 3 of the act of June 17, 1902 (32 Stat. 388), and it is not subject to application, selection or entry under any of the nonmineral public land laws until further notice.

J. G. FRIEDLY,
Acting Regional Administrator.

Fish and Wildlife Service

CERTAIN LANDS AND WATERS ADJACENT TO PRESQUILE NATIONAL WILDLIFE REFUGE, VIRGINIA

DESIGNATION AS CLOSED AREA UNDER MIGRATORY BIRD TREATY ACT

By virtue of and pursuant to the Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755), and Reorganization Plan II (53 Stat. 1431), and in accordance with the provisions of the Administrative Procedure Act of June 11, 1946 (60 Stat. 238), I, Douglas McKay, Secretary of the Interior, having due regard to the zones of temperature and to the distribution, abundance, economic value, breeding habits, and times and lines of migratory flight of migratory birds included in the terms of the convention between the United States and Great Britain for the protection of migratory birds, concluded August 16, 1916, and the convention between the United States and the United Mexican States for the protection of migratory birds and game mammals, concluded February 7, 1936, do hereby designate as closed area in or on which pursuing, hunting, taking, capturing, or killing of migratory birds, or attempting to take, capture, or kill migratory birds is not permitted, said area identified and described as follows:

All the area of the bed of the James River, submerged or exposed, including the waters thereof, in Charles City and Henrico Counties, Virginia, immediately contiguous to and abutting upon lands of the United States (Presquile National Wildlife Refuge) and more particularly described as follows:

Beginning at a point in the Chesterfield-Charles City County Line, near the southern point of Turkey Island and at the lower end of the Turkey Island Cutoff, from which point a 1" iron pipe projecting 16" above the ground bears North, 0.58 chain distant; thence with the line of ordinary low water upstream in part with the Chesterfield-Charles City County Line and in part with the Chesterfield-Henrico County Line, approximately five and one-half miles to the southwest point of Turkey Island at the upper end of Turkey Island Cutoff, a 1½" iron pipe projecting 36" above the ground from which pipe the U. S. C. and G. S. triangulation station "Turkey" bears S. 57° 36' E., 27.92 chains distant; thence N. 23° 30' W., approximately one-eighth mile across the James River to the limits of emergent marsh vegetation on the left shore, approximately one and one-half miles above the mouth of Curles Neck Creek; thence downstream with the (riverward) limits of emergent marsh vegetation or upland vegetation respectively on the left shore of the James River, passing Curles Neck Creek and Turkey Island Creek, approximately seven miles to a point near Shirley, approximately one-half mile downstream from the boat landing or dock at upper Shirley; thence N. 60° 30' W., approximately three-eighths mile to the place of beginning.

In accordance with section 4 (c) of the Administrative Procedure Act, this designation is effective 30 days after date of publication.

Issued at Washington, D. C., this 22d day of April 1954.

DOUGLAS MCKAY,
Secretary of the Interior.

[F. R. Doc. 54-3171; Filed, Apr. 28, 1954; 8:45 a. m.]

Office of the Secretary

[Order 2755]

DEFENSE FUNCTIONS

APRIL 23, 1954.

This order restates existing provisions for the administration of the functions with respect to metals and minerals, electric power, solid fuels, and fishery commodities or products vested in the Secretary of the Interior under the Defense Production Act of 1950, as amended, or by virtue of his authority under that act. It also provides for the administration, after April 30, 1954, the date on which the Petroleum Administration for Defense will be abolished, of the functions with respect to petroleum and gas similarly vested in the Secretary.

SECTION 1. *Delegation of authority.* Except as provided in section 3 of this order, and except as the Secretary of the Interior may otherwise provide, all the functions and powers which are or may be vested in the Secretary of the Interior by delegations or redelegations issued pursuant to the Defense Production Act of 1950, as amended, or issued pursuant to any other law by virtue of authority delegated to him under the Defense Production Act of 1950, as amended, may be performed and exercised:

(a) In so far as these functions and powers relate to metals and minerals, by the Administrator of the Defense Minerals Exploration Administration;

(b) In so far as these functions and powers relate to solid fuels, by the Administrator of the Defense Solid Fuels Administration;

(c) In so far as these functions and powers relate to fishery commodities or products, by the Director of the Fish and Wildlife Service; and

(d) In so far as these functions and powers relate to petroleum and gas, by the Director of the Oil and Gas Division.

SEC. 2. *Electric power.* The defense functions of the Secretary relating to electric power fall within the assignment of the Assistant Secretary—Water and Power Development, who is one of the Secretarial officers already empowered by section 1 of Order No. 2509, as amended (17 F. R. 6793, 8634) to exercise the authority of the Secretary with respect to various matters relating to defense, including electric power.

SEC. 3. *Limitations.* (a) Section 1 of this order does not authorize any officer mentioned in that section to:

(1) Perform or exercise any function or power which cannot be redelegated by the Secretary of the Interior under the provisions of any delegation of authority to the Secretary;

(2) Redelegate any power or function to any person other than an officer or employee of the bureau or office which he heads;

(3) Appoint or employ any person under section 710 of the Defense Production Act of 1950, as amended; or

(4) Issue orders or directives relating to petroleum or gas.

(b) Existing arrangements for Department representation on interagency and interdepartmental committees and boards dealing with defense functions are hereby confirmed, but the function of specifying the arrangements for such representation as may be necessary is reserved to the Secretary.

(c) The function of establishing policies pertaining to defense matters involving two or more defense areas is reserved to the Secretary.

SEC. 4. *Acting Administrator, Defense Minerals Exploration Administration.* (a) The Deputy Administrator shall perform the duties of the Administrator in case of the death, resignation, absence or sickness of the Administrator.

(b) The Special Assistant to the Administrator shall perform the duties of the Administrator in case of the death, resignation, absence or sickness of the Administrator and the Deputy Administrator.

(c) An official acting under authority of this section shall sign documents under the title "Acting Administrator."

SEC. 5. *Acting Administrator, Defense Solid Fuels Administration.* The Industrial Specialist (Industry Finance) shall perform the duties of the Administrator in case of the death, resignation, absence or sickness of the Administrator, and when so serving shall sign documents under the title "Acting Administrator."

SEC. 6. *Saving clause.* DMEA Order 1 as amended and all delegations and redelegations made, and other official actions taken, and all agreements entered into by the Administrator of the Defense Minerals Exploration Administration, the Administrator of the Defense Solid Fuels Administration, and by the Administrator or the Deputy Administrator of the Petroleum Administration for Defense, and other authorized officials of these agencies, which are in force at the close of business April 30, 1954, shall continue in force until amended or revoked by competent authority.

SEC. 7. *Effect on other orders.* Effective at the close of business on April 30, 1954, this order supersedes Order No. 2591, as amended (16 F. R. 932, 2896), and Order No. 2726, as amended (18 F. R. 3804, 7000).

(50 U. S. C. App., Sup. 2153; E. O. 10480, as amended, 18 F. R. 4939, 6201; Defense Mobilization Order I-7, as amended, 18 F. R. 5366, 6737)

DOUGLAS MCKAY,
Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service and Commodity Credit Corporation

WOOL HANDLER'S NONRECOURSE LOAN NOTES WHICH MATURE APRIL 30, 1954, UNDER 1953 WOOL PRICE SUPPORT PROGRAM

NOTICE OF FINAL DATE FOR REDEMPTION OF SHORN WOOL

Unless earlier demand is made by Commodity Credit Corporation, Wool Handler's Nonrecourse Loan Notes, secured by shorn wool under the 1953 Wool Price Support Program, which mature April 30, 1954, are due and payable on that date.

Unless the loan notes which mature on April 30, 1954, are repaid on or before

this final date for repayment, or the handler on behalf of the growers, cooperative marketing associations, or pool managers notifies the holder of the note by telegram that the funds have been placed in the mail, Commodity Credit Corporation will, pursuant to the provisions of the loan note, and without further notice, proceed to offer such wool for sale during the period from May 1 through 14, 1954, at the best price obtainable, but which in no event will be lower than the principal amount of the loan note plus interest and charges. Any amount received from such sales made during this period which is in excess of the principal amount of the loan note plus interest and charges will be returned to the grower, pool manager, or cooperative marketing association, as the case may be. Wool for which no offers are received or for which prices offered during this period are below the principal amount of the loan note plus interest and charges will be purchased by Commodity Credit Corporation without further notice, pursuant to the provisions of the loan note.

These Wool Nonrecourse Loan Notes will be held through April 30, 1954, by the CSS Commodity Offices and the banks, having wool lending or servicing agency agreements with Commodity Credit Corporation, which disbursed the loan proceeds to the various handlers.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 201, 401, 63 Stat. 1052, 1054; 15 U. S. C. 714c, 7 U. S. C. 1446, 1421)

Done at Washington, D. C., this 26th day of April 1954.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President,
Commodity Credit Corporation.

FEDERAL POWER COMMISSION

[Docket No. G-2018]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE FOR ORAL ARGUMENT

By our order issued on March 18, 1954, we reserved decision upon requests of El Paso Natural Gas Company for opportunity for oral argument in these proceedings. Thereafter, by motion filed on April 7, 1954, El Paso renewed its requests for oral argument before the Commission.

The Commission orders:

(A) Oral argument be had before the Commission on May 13, 1954, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented in this proceeding.

(B) Each party to the proceeding desiring to participate in the oral argument shall notify the Secretary of the Commission on or before May 3, 1954, of such intention and of the amount of time requested for presentation of their argument.

Adopted: April 21, 1954.

Issued: April 23, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Rev. S. O. 562, Taylor's I. C. C. Order 35]

PENNSYLVANIA RAILROAD CO.

REROUTING OR DIVERSION OF TRAFFIC

In the opinion of Charles W. Taylor, Agent, The Pennsylvania Railroad Company, due to conditions in the harbor at Ashtabula, Ohio, affecting the operation of The Pennsylvania-Ontario Transportation Company car ferry route, is unable to deliver traffic for movement over the said car ferry: *It is ordered*, That:

(a) Rerouting traffic: The Pennsylvania Railroad being unable to deliver traffic to The Pennsylvania-Ontario Transportation Company car ferry at Ashtabula, Ohio, due to conditions in the harbor at Ashtabula, is hereby authorized to divert or reroute such traffic over any available route to expedite the movement regardless of the routing shown on the waybill. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 1:00 p. m., April 21, 1954.

(g) Expiration date: This order shall expire at 11:59 p. m., May 31, 1954, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., April 21, 1954.

INTERSTATE COMMERCE COMMISSION,
CHARLES W. TAYLOR,
Agent.

729.557 Marketing subject to penalty.
729.558 Payment of penalty.
729.559 Use of agreement to permit marketings from overplanted farms.
729.560 Request for refund of penalty.

729.561 Producer's records and reports.
729.562 Records and reports of buyers and others.
729.563 Record and report of peanuts shelled for producers.
729.564 Separate records and reports from persons engaged in more than one business.
729.565 Failure to keep records or make reports.
729.566 Examination of records and reports.
729.567 Length of time records and reports to be kept.

MISCELLANEOUS

729.568 Information confidential.
729.569 Redelegation of authority.

AUTHORITY: §§ 729.540 to 729.569 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 358, 359, 361-368, 372, 373, 374, 376, 388, 52 Stat. 38, 62, 63, 64, 65, 66, 68, as amended; 55 Stat. 88, as amended, 66 Stat. 27; 7 U. S. C. 1301, 1358, 1359, 1361-1368, 1372, 1373, 1374, 1376, 1388.

GENERAL

§ 729.540 *Basis and purpose.* The regulations contained in §§ 729.540 to 729.569 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the determination of farm peanut acreages, the issuance of marketing cards, the identification of peanuts, the collection and refund of penalties, and the records and reports incident thereto, on the marketing of peanuts of the 1954 crop, regardless of whether such peanuts are marketed before, during, or after the 1954-55 marketing year. Prior to preparing the regulations in §§ 729.540 to 729.569, public notice of their formulation was published in the FEDERAL REGISTER (19 F. R.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

CFR SUPPLEMENTS

1489) in accordance with the Administrative Procedure Act (5 U. S. C. 1003). Views and recommendations received in response to such notice have been duly considered within the limits prescribed by the Agricultural Adjustment Act of 1938.

§ 729.541 *Definitions.* As used in §§ 729.540 to 729.569 and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) "Act" means the Agricultural Adjustment Act of 1938, as amended.

(b) "Areas" means:

(1) The Southeastern Area consisting of the States of Alabama, Georgia, Mississippi, Florida, and that part of South Carolina south and west of the Santee-Congaree-Broad Rivers.

(2) The Southwestern Area consisting of the States of Arizona, Arkansas, California, Louisiana, New Mexico, Oklahoma, and Texas.

(3) The Virginia-Carolina Area consisting of the States of Missouri, North Carolina, Tennessee, Virginia, and that part of South Carolina north and east of the Santee-Congaree-Broad Rivers.

(c) "Buyer" means a person who:

(1) Buys or otherwise acquires any peanuts from a producer;

(2) Buys or otherwise acquires farmers stock peanuts from any person; or

(3) Markets, as a commission merchant, broker, or cooperative any peanuts for the account of a producer and who is responsible to the producer for the amount received for the peanuts.

(d) Committees: (1) "Community committee" means the persons elected within a community as the community committee, pursuant to the regulations governing the selection and functions of Agriculture Stabilization and Conservation county and community committees.

(2) "County committee" means the persons elected within a county as the county committee, pursuant to the regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(3) "State committee" means the persons designated in a State by the Secretary as the Agricultural Stabilization and Conservation State committee.

(e) "County office manager" means the person employed by the county committee to execute the policies of the county committee and be responsible for the day-to-day operation of the county ASC office, or the person acting in such capacity.

(f) "Deputy administrator" means the Deputy Administrator for Production Adjustment or the Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(g) "Director" means the Director, or the Acting Director of the Oils and Peanut Division, Commodity Stabilization Service, United States Department of Agriculture.

(h) "Excess acreage" means the acreage by which the farm peanut acreage exceeds the farm allotment but there will be no excess acreage if the farm peanut acreage is one acre or less.

(i) "Excess peanuts" means peanuts in excess of the farm marketing quota determined pursuant to § 729.546.

(j) "Farm" means all adjacent or nearby farmland under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farmland which the county committee, in accordance with instructions issued by the Deputy Administrator, determines is operated by the same person as part of the same unit with respect to the rotation of crops and with work-stock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

(k) "Farm allotment" means the farm peanut acreage allotment for the 1954 crop of peanuts established pursuant to §§ 729.510 to 729.530 of the marketing quota regulations for the 1954 crop of peanuts (18 F. R. 6372).

(l) "Farm peanut acreage" means the acreage on the farm planted to peanuts in 1954 as determined in accordance with instructions issued by the Deputy Administrator, less any such acreage with respect to which it is established by the operator or otherwise to the satisfaction of the county office manager that the entire production therefrom has not and will not be picked or threshed either before or after marketing from the farm: *Provided, however,* That:

(1) The farm peanut acreage shall be considered equal to the farm allotment on a farm for which such allotment equals or exceeds one acre, if the acreage in excess of the farm allotment from which peanuts are picked or threshed is not greater than one-tenth acre or three percent of the farm allotment, whichever is larger;

(2) The farm peanut acreage shall be considered equal to one acre on a farm for which the farm allotment is equal to or less than one acre and the acreage from which peanuts are picked or threshed does not exceed 1.1 acres; but the provisions of this subparagraph and of subparagraph (1) of this paragraph shall not apply unless a quantity of peanuts equal to the county office manager's estimate of the production from the acreage in excess of the larger of the farm allotment, or one acre, is disposed of on the farm in a manner approved by the county committee so that the peanuts cannot thereafter be used or marketed as peanuts: *Provided, further,* That the maximum acreage limit prescribed in this subparagraph or subparagraph (1) of this paragraph shall not be applicable if the State committee concurs in the findings and recommendations of the county committee that the unusual circumstances from which the excess resulted are such that the maximum limitation should not apply.

(m) "Farmers stock peanuts" means picked or threshed peanuts produced in the continental United States during the calendar year 1954 which have not been shelled, crushed, cleaned (except for removal of foreign material) or otherwise changed from the state in which picked or threshed peanuts are customarily marketed by producers.

(n) "Market" mean to dispose of peanuts, including farmers stock peanuts, shelled peanuts, cleaned peanuts, or peanuts in processed form by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos. Delivery of peanuts by a producer to a cooperative association of peanut producers for marketing shall constitute a marketing. The terms "marketed", "marketing", and "for market" shall have corresponding meanings to the term "market" in the connection in which they are used. The terms "barter" and "exchange" shall include the payment by the producer of any quantity of peanuts for the harvesting, picking, threshing, cleaning, crushing, or shelling of peanuts, or for any other service rendered to him by anyone.

(o) "Marketing card": (1) "Excess penalty card" means MQ–77—Peanuts (1954) or MQ–77–VC—Peanuts (1954), 1954 Peanut Excess Penalty Marketing Card. MQ–77 will be issued for farms in the Southeastern area and in the Southwestern area. MQ–77–VC will be issued for farms in the Virginia-Carolina area. These cards will be issued for farms for which it is determined that the farm peanut acreage is in excess of the larger of the farm allotment or one acre. A portion of each lot of peanuts identified by an excess penalty card is subject to

the marketing penalty prescribed in § 729.555 at the time the peanuts are marketed.

(2) "Within quota card" means MQ–76—Peanuts (1954) or MQ–76–VC—Peanuts (1954), 1954 Peanut Within Quota Marketing Card. MQ–76 will be issued for farms in the Southeastern area and in the Southwestern area. MQ–76–VC will be issued for farms in the Virginia-Carolina area. These cards will be issued for farms for which it is determined that the farm peanut acreage is not in excess of the larger of the farm allotment or one acre. A within quota card authorizes the marketing of all peanuts produced on the farm without payment at the time of marketing of the penalty prescribed in § 729.555.

(p) "Marketing year" means the 1954–55 marketing year beginning August 1, 1954, and ending July 31, 1955.

(q) "Offices": (1) "County ASC offices" means the office of the Agricultural Stabilization and Conservation county committee.

(2) "State ASC office" means the office of the Agricultural Stabilization and Conservation State committee.

(r) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(s) "Peanuts" means all peanuts produced, excluding any peanuts which were not picked or threshed either before or after marketing from the farm.

(t) "Person" means an individual, partnership, association, farmers cooperative association, corporation, firm, joint-stock company, estate or trust, or other business enterprise or other legal entity, and whenever applicable, a State, a political subdivision of a State, or any agency thereof.

(u) "Pound" means that quantity of farmers stock peanuts equal to one pound standard weight. If peanuts have been graded at the time of marketing, the poundage shall be the weight thereof excluding foreign material and excess moisture. If shelled peanuts are marketed, the poundage thereof shall be converted to the weight of farmers stock peanuts by multiplying the number of pounds of shelled peanuts by 1.5 and the result shall be the number of pounds of peanuts considered as marketed under this part.

(v) "Producer" means a person who, as landlord, tenant, or sharecropper is entitled to share in the peanuts produced on the farm or in the proceeds thereof.

(w) "Quota peanuts" means peanuts which are within the amount of the farm marketing quota determined pursuant to § 729.546.

(x) "Sales memorandum" means:

(1) Form MQ–93—Peanuts (1952), which may be used (i) by buyers to record and report data with respect to purchases of peanuts identified by both within quota and excess penalty cards, (ii) to record and report data with respect to purchases of peanuts that are not identified by a marketing card, and (iii) by shellers to record and report data with respect to peanuts shelled for producers in instances where all of the shelled peanuts are returned to the producer.

(2) Form MQ–94—Peanuts (1954), which may be used by buyers in the Southeastern and Southwestern areas to record and report data with respect to purchases of peanuts identified by either a within quota or an excess penalty card if the peanuts have been inspected by the Federal-State Inspection Service.

(3) Form MQ–76–A–VC—Peanuts (1954), ten copies of which are attached to each Form MQ–76–VC. This form may be used by buyers to record and report data with respect to purchases of peanuts identified by Form MQ–76–VC.

(4) Form MQ–77–A–VC—Peanuts (1954), ten copies of which are attached to each Form MQ–77–VC. This form may be used by buyers to record and report data with respect to purchases of peanuts identified by Form MQ–77–VC.

(5) Any other form furnished by the buyer for recording and reporting purchases of peanuts, provided (i) the State committee determines that the use of forms other than those enumerated in subparagraphs (1) through (4) of this paragraph will not operate to reduce effective administration of the program in the State and (ii) the form proposed for use by the buyer is approved by the State Administrative Officer of each State in which the buyer will purchase 1954 crop peanuts as being consecutively numbered and containing the necessary language and spaces for recording and reporting the same information as that required by Form MQ–93—Peanuts (1952) for purchases of farmers stock peanuts.

(y) "Secretary" means the Secretary or the Acting Secretary of the United States Department of Agriculture.

(z) "State administrative officer" means the person employed by the State committee to execute the policies of the State committee and be responsible for the day-to-day operations of the State ASC office, or the person acting in such capacity.

(aa) "Yields": (1) "Normal yield" means the normal yield per acre for the farm as determined under § 729.521 or § 729.523, whichever is applicable, of the marketing quota regulations for the 1954 crop of peanuts (18 F. R. 6372).

(2) "Actual yield" means the actual yield per acre for the farm obtained by dividing the farm peanut acreage into the total production of peanuts for the farm.

§ 729.542 *Instructions and forms.* The Director shall cause to be prepared and issued such forms as are necessary and shall cause to be prepared such instructions as are necessary for carrying out the regulations in this part. The forms and instructions shall be approved by, and the instructions shall be issued by, the Deputy Administrator.

§ 729.543 *Extent of calculations and rule of fractions.* (a) The farm peanut acreage shall be expressed in tenths of an acre and fractions of less than one-tenth of an acre shall be dropped.

(b) The percentage of excess peanuts for a farm, hereinafter referred to as the "percent excess", shall be expressed in tenths of a percent and fractions of less than one-tenth of a percent shall be dropped, except that the minimum percent excess for a farm having any excess acreage shall be one-tenth of one percent.

(c) The converted penalty rate shall be expressed in tenths of a cent and fractions of less than a tenth of a cent shall be dropped, except that the minimum converted penalty rate for a farm having any excess acreage shall be one-tenth of a cent.

(d) The amount of penalty with respect to any lot of peanuts, or the amount of damages due Commodity Credit Corporation under an agreement made pursuant to § 729.559, shall be expressed as dollars and in whole cents. Fractions of less than a cent shall be dropped.

(e) The quantity of peanuts marketed, the farm marketing quota, and the normal and actual yield per acre, shall be expressed in whole pounds. Fractions of less than a pound shall be dropped.

IDENTIFICATION AND MEASUREMENT OF FARMS

§ 729.544 *Identification of farms.* Each farm as operated for the 1954 crop of peanuts shall be identified by a farm serial number and all records pertaining to marketing quotas for the 1954 crop of peanuts shall be identified by the farm serial number.

§ 729.545 *Measurement of farms.* The peanut acreage on farms shall be measured to determine compliance with farm allotments in acordance with instructions issued by the Deputy Administrator.

FARM MARKETING QUOTAS AND MARKETING CARDS

§ 729.546 *Amount of farm marketing quota.* (a) The farm marketing quota for a farm having no excess acreage shall be the actual production of peanuts on the farm peanut acreage.

(b) The farm marketing quota for a farm having excess acreage shall be a quantity of peanuts equal to the actual yield multiplied by the farm allotment.

§ 729.547 *Marketing quotas not transferable.* Farm marketing quotas are not transferable in whole or in part from one farm to another farm and peanuts produced on one farm shall not be marketed on a marketing card issued with respect to another farm. If any amount of peanuts produced on one farm is falsely identified by a representation that such peanuts were produced on another farm, the allotment next established for each such farm shall be reduced as provided in § 729.524 of the Marketing Quota Regulations for the 1954 Crop of Peanuts (18 F. R. 6372).

§ 729.548 *Issuance of marketing cards.* (a) A marketing card shall be issued to the operator of each farm having 1954 crop peanuts for use by any producer for marketing his share of the peanuts produced on the farm. If the county office manager finds that it will serve a useful purpose, additional marketing cards may be issued in the name of the operator and delivered to other producers on the farm or the marketing card may be issued in the name of the operator and one or more producers on the farm.

(b) If the county committee determines that such action is necessary to enforce the provisions of §§ 729.540 to 729.569, the issuance of marketing cards may be withheld for farms in which a multiple farm producer has an interest, if one or more of such farms are eligible for an excess penalty marketing card, until the committee provides for an estimate to be made of the peanut production on each farm in which the multiple farm producer has an interest. The estimated production on each such farm will be used in determining, after all peanuts produced on such farms have been marketed or otherwise disposed of, whether the marketing card issued for each farm was properly used. The term "multiple farm producer" means a person who has an interest as a producer in the 1954 crop of peanuts on more than one farm.

(c) All entries on each marketing card shall be made in accordance with the instructions for issuing marketing cards. Upon return to the county ASC office, of any marketing card where all spaces for recording sales have been used and before the marketing of peanuts from the farm has been completed, a new marketing card of the same kind, bearing the same name, information, and identification as the used card shall be issued. A new marketing card of the same kind shall also be issued to replace a card which has been determined by the county office manager to have been lost, stolen, mutilated, or destroyed.

(d) *Within quota card.* A farm is eligible for a within quota card under any one of the following conditions:

(1) The farm has no excess acreage.

(2) The acreage planted to peanuts on the farm is in excess of the farm allotment but an agreement on Form MQ–92—Peanuts (1954) is executed and approved in accordance with § 729.559.

(3) The farm has excess acreage which consists of (i) peanuts grown only for experimental purposes on land owned or leased by a publicly owned agricultural experiment station and are produced at public expense by employees of the experiment station, or (ii) peanuts produced by farmers pursuant to an agreement with a publicly owned experiment station whereby the experiment station bears the cost and risks incident to the production of the peanuts and the proceeds from the crop inure to the benefit of the experiment station. Any such agreement must be approved by the State committee prior to the issuance of a marketing card for the farm.

(e) *Excess penalty card.* An excess penalty card shall be issued for a farm if the farm peanut acreage exceeds the larger of the farm allotment or one acre and the farm is not eligible for a within quota card under paragraph (d) of this section.

§ 729.549 *Person authorized to issue cards.* The county office manager shall sign marketing cards for farms in the county as issuing officer. The issuing officer may designate not more than three persons to sign his name in issuing marketing cards: *Provided*, That each person so designated shall place his initials immediately beneath the name of the issuing officer as written by him or stamped on the card.

§ 729.550 *Successors-in-interest.* Any person who succeeds in whole or in part to the share of a producer in the peanuts to be marketed from a farm shall, to the extent of such succession, have the same rights as the producer to the use of any marketing card issued for the farm.

§ 729.551 *Invalid marketing cards.* (a) A marketing card shall be invalid if:

(1) It is not issued or delivered in the form and manner prescribed;

(2) Entries are omitted, incorrect, contradictory, or illegible;

(3) It is lost, destroyed, or stolen;

(4) Any erasure or alteration has been made and not properly initialed; or

(5) The converted penalty rate on an excess penalty card has been altered.

(b) If any marketing card becomes invalid (other than by loss, destruction, or theft) the operator, or the person having the card in his possession, shall return it to the county ASC office from which it was issued. If any marketing card is lost, destroyed, or stolen, the producer to whom the card was issued shall give written notice of such fact to the county ASC office from which the card was issued.

(c) If a marketing card becomes invalid because an entry is not made as required either through omission or incorrect entry, and the proper entry is later made and initialed as provided in the instruction for issuing marketing cards, then such card shall become valid; or if the invalid card is not made valid in this manner, it shall be cancelled and a new card issued in its place.

§ 729.552 *Report of misuse of marketing card.* Any information which causes a member of a State, county, or community committee, or an employee of a State or county ASC office, or any person engaged in buying or handling peanuts, to believe that any peanuts have been or are being marketed on a marketing card issued for another farm or to another producer shall be reported immediately by such committeeman, employee, or person to the county ASC office or to the State ASC office.

MARKETING OR OTHER DISPOSITION OF PEANUTS AND PENALTIES

§ 729.553 *Extent to which marketings from a farm are subject to penalty.* The penalty for a farm having excess acreage shall be determined as follows:

(a) If the peanuts produced on the farm are properly marketed with an excess penalty card issued for the farm, the penalty shall be paid on each lot of peanuts marketed from the farm in an amount determined by multiplying the converted penalty rate for the farm by the number of pounds in the lot.

(b) If the peanuts produced on the farm are not properly marketed with an excess penalty card issued for the farm but the disposition of the peanuts produced on the farm is accounted for to the satisfaction of the State committee, the total amount of penalty for the farm shall be determined by multiplying the total quantity of peanuts marketed from the farm by the converted penalty rate for the farm.

(c) If the disposition of peanuts produced on the farm is not accounted for to the satisfaction of the State committee or if any amount of peanuts produced on one farm is falsely identified by a representation that such peanuts were produced on another farm, the total amount of penalty for the farm shall be determined by multiplying the normal yield by the excess acreage by the basic penalty rate.

(d) If the representative of the county committee is prevented by the operator or other producer or person from determining the farm peanut acreage, the farm will be deemed to have excess acreage and the penalty for the farm shall be determined by multiplying the quantity of peanuts marketed from the farm by the basic penalty rate. If however, the operator furnishes a complete and correct report containing the information specified in § 729.561 (b), the penalty for the farm shall be determined in accordance with paragraph (b) of this section.

(e) Notwithstanding the foregoing provisions of this section, the penalty will not be applicable to the shriveled, damaged, split, and broken peanut kernels which are obtained in the process of shelling farmers stock peanuts of the 1954 crop for use by the producer as seed in 1955 if the quantity of peanuts shelled by or for the producer is in line with the seed requirements for his farm in 1955 as determined by the county office manager.

§ 729.554 *Identification of marketing.* (a) Each marketing of peanuts from a farm shall be recorded by the buyer or his representative on a marketing card issued for the farm on which the peanuts were produced, if such marketing card is presented to the buyer by the producer at the time the peanuts are marketed. Each marketing of peanuts without a marketing card shall be subject to the penalty at the rate prescribed in § 729.555 (a) unless the marketing consists of shriveled, damaged, split, and broken peanut kernels which were produced in shelling not in excess of that quantity of farmers stock peanuts for a producer which the county office manager determines is reasonable for seed purposes on the producer's farm for the 1955 crop. The marketing of such shriveled, damaged, split, and broken peanut kernels that are not identified by marketing card will be identified by Form MQ–93—Peanuts (1952) partially executed by the county office manager to show the quantity of peanuts that is reasonable for seed purposes on the producer's farm for the 1955 crop. Buyers will record and report purchases of shelled peanuts from producers on Form MQ–91—Peanuts (1954): *Provided, however*, That a person who is not engaged in the business of buying peanuts for movement into the regular channels of trade shall not be required to make a record and report of purchases of peanuts from producers if the county office manager has determined that it would be administratively impracticable to require such buyer to execute forms, keep the records, and make the buyer's reports as required in §§ 729.540 to 729.569, in which case the producer marketing

the peanuts shall be responsible for reporting each marketing to the county ASC office as provided in instructions issued by the Deputy Administrator.

(b) A buyer who resells any farmers stock peanuts of the 1954 crop shall keep, as part of or in addition to the records maintained by him in the conduct of his business, such records as he determines are necessary to enable him to certify, in connection with any such resale of farmers stock peanuts, that such peanuts were identified to him by valid marketing cards when purchased from farmers or other records of resale and that any penalty due was collected and remitted. The records maintained by the buyer with respect to such peanuts shall be available for examination in accordance with § 729.566.

§ 729.555 *Rate of penalty.* (a) The basic penalty rate shall be equal to 50 percent of the basic rate of the loan or support price for peanuts for the marketing year.

NOTE: The exact amount of the penalty rate for peanuts of the 1954 crop will be issued as an amendment to this section as soon as the basic rate of the loan or support price for 1954 is announced.

(b) The converted penalty rate for a farm shall be determined as follows:

(1) Compute the percent excess for a farm by dividing the farm peanut acreage into the excess acreage.

(2) Multiply the percent excess for the farm by the basic penalty rate.

§ 729.556 *Persons to pay penalty.* (a) The penalty due on peanuts purchased directly from a producer shall be paid by the buyer who may deduct an amount equivalent to the penalty from the price paid to the producer, except that the penalty due on marketings by a producer directly to any person outside the United States shall be paid by the producer. The buyer shall not be relieved of any liability with respect to the amount of penalty because of any error which may occur in executing a sales memorandum. If the buyer fails to collect or to pay the penalty due on any marketing of peanuts from a farm, he and all producers on the farm shall be jointly and severally liable for the amount of the penalty.

(b) Notwithstanding any other provisions of §§ 729.540 to 729.569, if the county office manager finds that peanuts produced on a farm on which there is excess acreage have been or probably will be sold to persons who are not engaged in the business of buying peanuts for movement into the regular channels of trade and determines that it would be administratively impracticable to effect the collection of the marketing penalty from such persons, the county office manager may, on the basis of county office records or other available information, estimate the actual yield and the production for the farm and determine the amount of penalty due on the quantity of peanuts marketed to such persons. The amount of penalty shall be determined by multiplying the converted penalty rate by the estimated total production for the farm. The amount of penalty may be collected from the operator or producer before the marketing card is issued if he agrees to payment of the penalty in this manner. If the county office manager determines that satisfactory information is not available for estimating the 1954 yield, a normal yield for the farm shall be determined and it shall be considered to be the estimated actual yield for the purpose of determining the amount of penalty. An excess penalty card shall be issued for the farm. If the penalty is paid before the excess penalty card is issued, the penalty rate on the card shall be shown as "zero". If the county committee determines, after marketing of the 1954 crop for the farm has been completed that the actual production for the farm was less than the estimated production, any penalty paid in excess of the amount actually due shall be refunded upon presentation of a request therefor as provided in § 729.560.

§ 729.557 *Marketings subject to penalty.* In addition to marketings subject to penalty that are identified by excess penalty cards, the marketing of peanuts under any of the following conditions shall be deemed to be a marketing subject to penalty at the rate prescribed in § 729.555.

(a) *Producer marketings.* (1) Any marketing of peanuts by a producer which is not identified by a valid marketing card shall be deemed to be a marketing subject to penalty at the rate prescribed in § 729.555 (a) unless the peanuts marketed consist of shriveled, damaged, split, and broken peanut kernels as described in § 729.554 (a) or unless the marketing is within the terms of the proviso contained in § 729.554 (a). The penalty due under the provisions of this paragraph shall be determined by multiplying the pounds marketed by the basic penalty rate, and such amount of penalty shall be paid by the buyer who may deduct an amount equivalent to the penalty from the amount due the producer.

(2) Notwithstanding the provisions of § 729.553, if any producer falsely identifies or fails to account for the disposition of any peanuts produced on a farm, an amount of peanuts equal to the normal yield of the excess acreage for the farm shall be deemed to have been a marketing subject to penalty from such farm. The penalty for the farm shall be determined by multiplying the normal yield by the excess acreage by the basic penalty rate, and such amount of penalty shall be paid by the producer.

(b) *Buyer's marketings.* The part or all of any marketing of peanuts by a buyer which such buyer represents to be a resale, but which when added to prior resales by such buyer, is in excess of the total amount of his prior purchases shall be deemed to be a marketing subject to penalty unless and until such buyer furnishes proof acceptable to the State committee showing that such marketing is not a marketing subject to penalty. Any penalty due under this paragraph shall be paid by the buyer making the resale.

(c) *Marketings not reported.* Any marketing of peanuts which, under the regulations in §§ 729.540 to 720.569, a buyer is required to report, but which is not so reported within the time and in the manner therein required, shall be deemed to be a marketing subject to penalty unless and until such buyer furnishes a report of such marketing which is acceptable to the State committee. The penalty shall be determined by multiplying the pounds marketed by the basic penalty rate, and such amount of penalty shall be paid by the buyer who fails to make the report as required.

§ 729.558 *Payment of penalty.* Penalties shall become due at the time the peanuts are marketed and shall be paid by remitting the amount thereof to the State ASC office not later than the end of two calendar weeks following the week in which the peanuts became subject to penalty. A draft, money order, or check drawn payable to the Treasurer of the United States may be used to pay any penalty, but any such draft or check shall be received subject to collection and payment at par.

§ 729.559 *Use of agreement to permit marketings from overplanted farms—*(a) *Within quota card issued on basis of agreement.* If the State committee determines that the agreement provided for in this section will serve a useful purpose, it may authorize its use in the State. Where the use of the agreement is authorized, the county office manager may, upon request of the operator of any farm on which the acreage planted to peanuts exceeds the farm allotment, issue a within quota card with respect to the farm in the manner prescribed in § 729.548 if the operator executes an agreement form in which he represents that the farm peanut acreage will not exceed the larger of the farm allotment or one acre and such form is approved by the county committee.

(b) *Form of agreement.* The agreement referred to in this section shall be on Form MQ–92—Peanuts (1954) executed in accordance with instructions issued by the Deputy Administrator. If the county committee determines that a within quota card issued pursuant to this section would be used as a device to evade the payment of penalty or the terms and conditions of the 1954 crop price support program, the agreement shall not be approved by the county committee and a marketing card shall not be issued for the farm until the farm peanut acreage has been determined.

(c) *Payment of penalty.* If any penalty becomes due for a farm for which an agreement has been executed and approved, the amount of the penalty shall be determined in acordance with § 729.553. At the request of the county office manager, the operator shall surrender the marketing card issued for the farm showing thereon the required record of all peanuts marketed. After collecting the amount of any penalty due, an excess penalty card shall be issued for the farm if marketings from the farm have not been completed.

§ 729.560 *Request for refund of penalty.* After the marketing of peanuts from the farm has been completed and the disposition of any other peanuts produced on the farm can be shown, the producer or any other person who bore the burden of the payment of any penalty may request the return of the amount of such penalty which is in excess of the amount required under §§ 729.540 to 729.569 to be paid. Such request shall be filed with the county ASC office within two years after the payment of the penalty. No refund shall be made because of peanuts kept on the farm for seed or for home consumption.

RECORDS AND REPORTS

§ 729.561 *Producer's records and reports—*(a) *Report on marketing card.* Each marketing card issued with respect to a farm on which peanuts are produced in 1954 shall be returned to the county ASC office whenever marketings from the farm are completed or at such earlier time as the county office manager may request. Failure to return the marketing card shall constitute failure to account for disposition of peanuts marketed from the farm in the event that a satisfactory account of such disposition is not furnished otherwise, and the allotment next established for such farm shall be reduced as provided in § 729.524 of the Marketing Quota Regulations for Peanuts of the 1954 Crop (18 F. R. 6372).

(b) *Additional reports by producers.* (1) In addition to any other reports which may be required under §§ 729.540 to 729.569, the operator of each farm or any other producer on the farm (even though the farm has no excess acreage) shall, upon written request from the State administrative officer sent by registered mail to such person at his last known address, furnish the Secretary a written report of the disposition made of all peanuts produced on the farm by sending the same to the State ASC office within 15 days after the request for such report was deposited in the United States mails. Such written report shall show for the farm:

(i) The farm peanut acreage;

(ii) The total production of peanuts on the farm peanut acreage;

(iii) The name and address of the buyer to or through whom each lot of peanuts was marketed, the number of pounds marketed in each lot, and the date marketed;

(iv) The quantity of peanuts not marketed; and

(v) In the case of a farm for which an agreement was approved under § 729.559, the gross value received for each lot of peanuts.

(2) Failure to file the report as requested or the filing of a report which is found by the State committee to be false shall constitute failure of the producer to account for disposition of peanuts produced on the farm and the allotment next established for such farm shall be reduced as provided in § 729.524 of the Marketing Quota Regulations for Peanuts of the 1954 Crop (18 F. R. 6372).

§ 729.562 *Records and reports of buyers and others.* The following paragraphs shall apply to all marketings except marketings within the terms of the proviso contained in § 729.554 (a):

(a) *Record of marketings.* (1) Each buyer shall keep such records as will enable him to furnish the State ASC office the following information with respect to each lot of peanuts marketed to or through him by a producer:

(i) Serial number of the marketing card presented by the producer to identify each marketing.

(ii) Name of producer and either the name of the operator of the farm or the farm serial number.

(iii) Date of marketing.

(iv) Number of pounds marketed.

(v) Amount of any penalty due and the amount of any deduction for penalty from the amount paid the producer.

(2) This record may be kept by the buyer maintaining a file on his copies of sales memoranda.

(3) Records of all resales of farmers stock peanuts by the buyer shall be maintained and the name of each person to whom such resale was made shall be shown on the buyer's record in accordance with § 729.554 (b).

(b) *Sales memorandum.* Buyers will record and report each purchase of farmers stock peanuts on a sales memorandum. The CSS copies of sales memoranda, with remittances covering the penalties due on purchases of excess peanuts, shall be forwarded to the State ASC office by means of MQ–79—Peanuts (1954), Buyers Weekly Report and Transmittal to State ASC office, not later than the end of the two calendar weeks following the week in which the peanuts were marketed.

(c) *Sheller's report of shelled peanuts purchased or acquired from producers.* Persons who shell peanuts for producers and purchase or retain a quantity of the shelled peanuts shall record and report such purchases or acquisitions of shelled peanuts from producers on Form MQ–91—Peanuts, Sheller's Report of Peanuts Shelled for Producers. The CSS copy of Form MQ–91—Peanuts with remittances covering the penalty due on the purchase of excess peanuts subject to penalty shall be forwarded to the State ASC office not later than the end of two calendar weeks after the buyer has ceased purchasing shelled peanuts of the 1954 crop.

(d) *Additional records and reports.* Each buyer, warehouseman, processor, or common carrier of peanuts, any broker or dealer in peanuts, any agent marketing peanuts for a producer or acquiring peanuts for a buyer or dealer, any peanut growers cooperative association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts, or manufacturing peanut products, or any person owning or operating a peanut picking or peanut threshing machine shall keep such records and furnish such reports to the State ASC office, in addition to the foregoing, as the State committee may find necessary to insure the proper identification of the marketings of peanuts and the collection of penalties due thereon as provided in §§ 729.540 to 729.569.

§ 729.563 *Record and report of peanuts shelled for producers.* Any person who shells peanuts for a producer and does not retain any of the shelled peanuts shall make a record of the shelling of each lot of such peanuts by executing Form MQ–93—Peanuts (1952) and shall forward the CSS copies of the form to the State ASC office by letter not later than two calendar weeks following the week in which the peanuts are shelled. If any of the shelled peanuts are retained by the seed sheller, such action constitutes a marketing and the buyer shall record and report data covering the purchase of the shelled peanuts as provided in § 729.562 (c).

§ 729.564 *Separate records and reports from persons engaged in more than one business.* Any person who is required to keep any record or make any report as a buyer, processor, or other person engaged in the business of shelling or crushing peanuts, and who is engaged in more than one such business shall keep such records as will enable him to make separate reports for each such business in which he is engaged to the same extent for each such business as if he were engaged in no other business.

§ 729.565 *Failure to keep records or make reports.* Any buyer, warehouseman, processor, or common carrier of peanuts, any broker or dealer in peanuts, any agent marketing peanuts for a producer or acquiring peanuts for a buyer or dealer, any peanut growers cooperative association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts, or manufacturing peanut products, or any person owning or operating a peanut picking or peanut threshing machine, who fails to make any report or keep any record as required in accordance with §§ 729.540 to 729.569, or who makes any false report or record, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500.

§ 729.566 *Examination of records and reports.* Any buyer, warehouseman, processor, or common carrier of peanuts, any broker or dealer in peanuts, any agent marketing peanuts for a producer or acquiring peanuts for a buyer or dealer, any peanut growers cooperative association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts, or manufacturing peanut products, or any person owning or operating a peanut picking or threshing machine, shall make available for examination upon written request by the State administrative officer or the Director, such books, papers, records, accounts, correspondence, contracts, documents, and memoranda as the State administrative officer or the Director has reason to believe are relevant to any matter under investigation in connection with enforcement of the program and which are within the control of such person.

§ 729.567 *Length of time records and reports to be kept.* Records required to be kept and copies of reports required to be made by any person in accordance with §§ 729.540 to 729.569 for the 1954–55 marketing year shall be kept by him until July 31, 1957. Records shall be kept for such longer period of time as may be requested in writing by the Director.

MISCELLANEOUS

§ 729.568 *Information confidential.* All data reported to or as required by

the Secretary pursuant to the provisions of §§ 729.540 to 729.569 shall be kept confidential by all officers and employees of the United States Department of Agriculture and by all members and employees of State or county committees, and only such data so reported or acquired as the Deputy Administrator deems relevant shall be disclosed by them and then only in a suit or administrative hearing under Title III of the act.

§ 729.569 *Redelegation of authority.* Any authority delegated to the State committee by the regulations in §§ 729.540 to 729.569 may be redelegated by the State committee.

NOTE: The record-keeping and reporting requirements of these regulations have been approved by, and subsequent reporting requirements will be subject to the approval of, the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D. C., this 27th day of April 1954. Witness my hand and the seal of the Department of Agriculture.

[SEAL] EZRA TAFT BENSON,
Secretary of Agriculture.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO-71-A-25]

PART 927—MILK IN THE NEW YORK METROPOLITAN MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 927.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order, as amended, effective on May 1, 1954. Otherwise, the administrative impracticability of an effective date other than as of the first day of a month would require a minimum deferment of one full month in its effective date. Such delay in the effective date of this order, as amended, would seriously threaten the orderly marketing of milk in the New York metropolitan milk marketing area. The provisions of the said order are well known to handlers, the recommended decision having been published in the FEDERAL REGISTER on March 27, 1954 (19 F. R. 1672), and the final decision having been published in the FEDERAL REGISTER on April 10, 1954 (19 F. R. 2086). Under the circumstances, adequate and reasonable time has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for making this order, as amended, effective on May 1, 1954, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the New York metropolitan milk marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (July 1953), were engaged in the production of milk for sale in the said marketing area and who participated in a referendum on the question of approval of its issuance.

It is therefore ordered, That on and after May 1, 1954, the handling of milk in the New York metropolitan milk marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as heretofore amended and as hereby further amended as follows:

1. Amend § 927.40 (f) to read as follows:

(f) For Class III milk, the price shall be the sum of the amounts computed pursuant to subparagraphs (1) and (2) of this paragraph minus 80 cents: *Provided*, That for the months of May and June 1954 an additional 10 cents shall be subtracted from such sum.

(1) To the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) reported during such month by the United States Department of Agriculture for Grade A (92-score) bulk creamery butter in the New York City market, add two cents, multiply by 1.22 and then multiply by 3.5: *Provided*, That for any of the months from August through February for which the utilization adjustment percentage announced pursuant to § 927.46 (a) (2) is 92 or larger, there shall be an additional three cents added to such average butter price.

(2) Multiply by 7.8 the weighted average, as computed by the market administrator using a weight of 70 for roller process prices and a weight of 30 for spray process prices, of the prices per pound of roller process and spray process nonfat dry milk solids, for human consumption in carlots f. o. b. manufacturing plants in the Chicago area, as published by the United States Department of Agriculture for the period from the 26th day of the immediately preceding month through the 25th day of the current month.

2. Amend § 927.43 by (1) changing to "(5)" "(7)" and "(8)" the references made therein to subparagraphs "(6)" "(8)" and "(9)" of § 927.46 (b), and (2) by adding after the first proviso therein the following: "*Provided further*, That for milk received from producers during any of the months of March through July which is classified on the basis of one of the types of cheese named in this section, the amount so credited shall be increased one cent per pound of butterfat for each full five hundredths by which the ratio of 2.5 is lower than the ratio computed pursuant to the first proviso of this section, except that, for purposes of this proviso, the ratio computed shall be rounded to the nearest hundredth."

3. Amend paragraph (b) of § 927.46 by deleting subparagraph (5) thereof, and renumbering other subparagraphs accordingly.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 27th day of April 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-3244; Filed, Apr. 29, 1954; 8:53 a. m.]

[Docket No. AO-177-A13]

PART 972—MILK IN THE TRI-STATE MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 972.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto, and all said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Tri-State marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act.

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this amendatory order effective May 1, 1954. Such action is necessary in the public interest in order to reflect current marketing conditions and to insure the orderly marketing of available milk supplies. Accordingly, any further delay in the effective date of this order amending the order, as amended, will seriously impair the orderly marketing of milk in the Tri-State marketing area. The provisions of the said amendatory order are well known to handlers and producers, the public hearing having been held on February 18-19, 1954, and a final decision on the amendment provisions having been issued April 22, 1954. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be contrary to the public interest to delay the effective date of this amendatory order for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c), Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, as amended, and as hereby further amended, which is marketed within the Tri-State marketing area) of more than 50 percent of the milk which is marketed within the said marketing area refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (March 1954), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Tri-State marketing area shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Delete § 972.7 and substitute therefor the following:

§ 972.7 *Fluid milk plant.* "Fluid milk plant" means any milk handling plant (hereinafter referred to as a "plant"), except a plant at which the handling of milk is regulated by another milk marketing agreement or order issued pursuant to the act, under the following conditions:

(a) In any delivery period in which a route is operated wholly or partially within the marketing area from such plant; or

(b) In any delivery period in which a total of 25,000 pounds or more of milk, or an amount of skim milk and butterfat from which 25,000 pounds or more of Class I milk is derived, is delivered in fluid form from such plant to any plant(s) which is a fluid milk plant pursuant to paragraph (a) of this section: *Provided*, That a "fluid milk plant" pursuant to this section shall not mean such portions of a building or facilities used for receiving or processing such milk, or milk product, as is required by the appropriate health authority to be kept physically separate from the receiving or processing of Class I milk for the community(s) served.

2. Delete § 972.9 and substitute therefor the following:

§ 972.9 *Gallipolis district plant.* "Gallipolis district plant" means a fluid milk plant located in Gallia County or Meigs County, Ohio, or in Mason County, West Virginia.

3. Delete § 972.13 and substitute therefor the following:

§ 972.13 *Producer.* "Producer" means a person other than a producer-handler who produces milk received:

(a) At a fluid milk plant, or

(b) At a nonfluid milk plant by diversion within April, May, June, or July from a fluid milk plant: *Provided*, That such person producing milk holds a dairy farm inspection permit or equivalent certification if required by the appropriate health authority of the community(s) for which his milk is produced.

4. Delete § 972.16 and substitute therefor the following:

§ 972.16 *Handler.* "Handler" means:

(a) A person, including a cooperative association, who operates a fluid milk plant, or

(b) A cooperative association with respect to milk customarily received as producer milk at a fluid milk plant which is diverted by such association within April, May, June, or July on its account from a fluid milk plant to a nonfluid milk plant.

5. Add the following as § 972.19:

§ 972.19 *Cooperative association.* "Cooperative association" or "association of producers" means any cooperative marketing association of producers, duly organized as such under the laws of any State, which includes members who are producers as defined in § 972.13 and which the Secretary determines, after application by the association:

(a) To be qualified under the standards set forth in the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) To have its entire organization and all of its activities under the control of its members; and

(c) To be currently engaged in making collective sales of or marketing milk or its products for its members.

6. Delete from § 972.22 (j) (2) the word "10th" and substitute therefor the word "12th".

7. Delete § 972.41 (a) and (b) and substitute therefor the following:

(a) Add the following amounts for the delivery periods indicated:

	April, May, June, and July	February, March, August	September, October, November, December, and January
Huntington district plants	$1.10	$1.35	$1.80
Parkersburg district plants	1.00	1.25	1.70
Seventh district plants	.90	1.15	1.60
Athens district plants	.80	1.05	1.50

(b) Add or subtract a "supply-demand adjustment" computed as follows:

(1) Divide the total gross volume of Class I milk (less interhandler transfers) at all fluid milk plants described under § 972.7 (a) for the first and second preceding delivery periods by the total receipts of milk from producers at such plants during the same delivery periods, multiply the result by 100, and round to the nearest whole number. The result shall be known as the "current utilization percentage."

(2) Compute a "net utilization percentage" by subtracting from the current utilization percentage as computed in subparagraph (1) of this paragraph the "standard utilization percentage" shown below:

Delivery period for which price is being computed:	Standard utilization percentage
January	92
February	91
March	89
April	85
May	80
June	73
July	62
August	63
September	68
October	81
November	90
December	91

(3) Determine the amount of the supply-demand adjustment as follows:

If the net utilization percentage is:	Supply-demand adjustment is (cents)
+12 or over	+38
+9 or +10	+28
+8 or +7	+20
+3 or +6	+10
+1 or −1	0
−3 or −6	−10
−6 or −7	−20
−9 or −10	−28
−12 or under	−38

When the net utilization percentage does not fall within a tabulated bracket, the supply-demand adjustment shall be determined by the adjacent bracket which is the same or nearest to the bracket used in the previous month. If for the first delivery period the above schedule is in effect the net utilization percentage does not fall within a tabulated bracket, the supply-demand adjustment shall be determined by the nearest bracket thereto which would result in the least change from zero.

8. Replace the period at the end of § 972.43 with a colon and add the following proviso to such section: *"Provided*, That for the months of May, June, and July 1954 the price so determined shall be reduced 25 cents per hundredweight with respect to all Class III milk other than that used to produce ice cream, ice cream mix, and cottage cheese."

9. Delete from § 972.44 (a) the figure "1.0" and substitute therefor the figure "0.5."

10. Delete § 972.44 (c) and substitute therefor the following:

(c) *Class III milk.* Subtract $3.00 from the average price per hundred pounds of butter as described in § 972.40 (c) (1), multiply by 1.2, subtract therefrom the amount per hundredweight computed pursuant to § 972.40 (c) (2), and divide such result by 1000.

11. Delete the word "and" at the end of § 972.65 (a).

12. Delete § 972.65 (b) and substitute therefor the following:

(b) To a cooperative association for milk received from producers from whom such association has received written authorization to collect payment, on or before the 16th day after such delivery period, of a total amount equal to not less than the sum of the individual amounts otherwise payable to other producers under paragraph (a) of this section.

(c) On or before the 16th day after such delivery period each handler shall pay to each cooperative association which operates a fluid milk plant, for skim milk and butterfat received as milk or a milk product from such cooperative association during such delivery period, an amount of money computed by multiplying the total pounds of such skim milk and butterfat in each class by the respective class price pursuant to §§ 972.41, 972.42, and 972.43, adjusted by the appropriate butterfat differential pursuant to § 972.44; and

(d) None of the provisions of this section shall be construed to restrict any cooperative association qualified under section 8c (5) (F) of the act from making payment for milk to its member producers in accordance with such provision of the act.

13. Delete from § 972.71 the word "13th" and substitute therefor the word "15th"; delete from the same section the word "10th" and substitute therefor the word "12th."

14. Delete §§ 972.75 and 972.76 and substitute therefor the following:

§ 972.75 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to producers (other than with respect to milk of such handler's own production) pursuant to § 972.65 (a) shall make a deduction of 6 cents per hundredweight, or such amount not exceeding 6 cents per hundredweight as the Secretary may prescribe, with respect to the following:

(1) All milk received from producers at a plant not operated by a cooperative association;

(2) All milk received at a plant operated by a cooperative association from producers who are not members of such association; and

(3) All milk received at a plant operated by a cooperative association(a) from producers who are members thereof but for whom any of the services set forth below in this paragraph is not being performed by such association(a), as determined by the market administrator.

Such deduction shall be paid by the handler to the market administrator on or before the 15th day after the end of the delivery period. Such moneys shall be expended by the market administrator for the verification of weights, sampling, and testing of milk received from producers and in providing for market information to producers; such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of each producer (1) who is a member of, or who has given written authorization for the rendering of marketing services and the taking of deduction therefor to, a cooperative association, (2) whose milk is received at a plant not operated by such association, and (3) for whom the market administrator determines that such association is performing the services described in paragraph (a) of this section, each handler shall deduct in lieu of the deduction specified under paragraph (a) of this section, from payments made pursuant to § 972.65 (a) the amount per hundredweight of milk authorized by such producer and shall pay over, on or before the 15th day after the end of the delivery period, such deduction to the association entitled to receive it under this paragraph.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 27th day of April 1954 to be effective on and after May 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-3253; Filed, Apr. 29, 1954; 8:54 a. m.]

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

MISCELLANEOUS AMENDMENTS TO THE IMMIGRATION AND NATIONALITY REGULATIONS

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 245—ADJUSTMENT OF STATUS OF NONIMMIGRANT TO THAT OF A PERSON ADMITTED FOR PERMANENT RESIDENCE

Part 245 is amended by deleting § 245.13 *Attorneys.*

PART 248—CHANGE OF NONIMMIGRANT CLASSIFICATION

Part 248 is amended by deleting § 248.12 *Attorneys.*

PART 249—CREATION OF RECORD OF LAWFUL ADMISSION FOR PERMANENT RESIDENCE

Part 249 is amended by deleting § 249.12 *Attorneys.*

PART 292—ENROLLMENT AND DISBARMENT OF ATTORNEYS AND REPRESENTATIVES

Section 292.11 *Service upon and action by attorney, representative, or other person* is amended by designating the existing material as paragraph (a) and by adding a new paragraph designated paragraph (b) which will read as follows:

(b) Whenever an examination is provided for by any of the provisions of this chapter in any case pending before the Service, the person involved shall have the right to be represented at the examination by an attorney or representative authorized to practice before the Service. The attorney or representative shall be permitted to examine or cross-examine such person and witnesses, to introduce evidence, to make objections which shall be stated succinctly and entered on the record, and to submit briefs.

PART 341—CERTIFICATE OF CITIZENSHIP UNDER SECTION 341 OF THE IMMIGRATION AND NATIONALITY ACT

Part 341 is amended by deleting § 341.17 *Attorneys.*

PART 481—ADJUSTMENT OF STATUS OF NONIMMIGRANT TO THAT OF A PERSON ADMITTED FOR PERMANENT RESIDENCE IN ACCORDANCE WITH THE REFUGEE RELIEF ACT OF 1953

Part 481 is amended by deleting § 481.14 *Attorneys.*

(Sec. 103, 66 Stat. 173; 8 U. S. C. 1103)

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order are clearly advantageous to persons affected thereby.

Dated: April 16, 1954.

HERBERT BROWNELL, Jr.,
Attorney General.

Recommended: March 12, 1954.

BENJAMIN G. HABBERTON,
Acting Commissioner of Immigration and Naturalization.

[F. R. Doc. 54-3222; Filed, Apr. 29, 1954; 8:48 a. m.]

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter A—Meat Inspection Regulations

MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

On March 9, 1954, there was published in the FEDERAL REGISTER (19 F. R. 1326) a notice of rule-making concerning the proposed issuance of regulations providing for the furnishing of a service for the identification and marking, as federally inspected and passed, of divided portions of meats, meat by-products, and meat food products which have been federally inspected and passed and so marked, but all divided portions of which do not bear the marks of Federal meat inspection, and the collection of fees for such service. Due consideration has been given to all relevant matters submitted in connection with the notice.

1. Under the authority of sections 203 and 205 of the Agricultural Marketing Act of 1946 (7 U. S. C. 1622, 1624), section 520 of the Revised Statutes (5 U. S. C. 511) and provisions in the item for Marketing Services in the Department of Agriculture Appropriation Act, 1954 (67 Stat. 205, 7 U. S. C. Supp. 414), the following new regulations are hereby promulgated to appear in 9 CFR Part 40:

PART 40—IDENTIFICATION SERVICE FOR MEAT AND OTHER PRODUCT

Sec.
40.1 Meaning of words.
40.2 Definitions.
40.3 Kind of service.
40.4 Availability of service.
40.5 Application for service.
40.6 Denial or withdrawal of service.
40.7 Fees and charges.

AUTHORITY: §§ 40.1 to 40.7 issued under 34 Stat. 1264, sec. 306, 46 Stat. 689, sec. 205, 60 Stat. 1090, sec. 101, 66 Stat. 348; 21 U. S. C. 89, 19 U. S. C. 1306, 7 U. S. C. 1624. Interpret or apply R. S. 520, 34 Stat. 1260–1265, as amended, 41 Stat. 241, sec. 203, 60 Stat. 1087; 5 U. S. C. 511, 21 U. S. C. 71–88, 90–91, 21 U. S. C. 96, 7 U. S. C. 1622.

§ 40.1 *Meaning of words.* Words used in this part in the singular form shall be deemed to import the plural, and vice versa, as the case may demand.

§ 40.2 *Definitions.* For the purposes of the regulations in this part, unless the context otherwise requires, the following terms shall be construed, respectively, to mean:

(a) *Department.* The United States Department of Agriculture.

(b) *Service.* The Agricultural Research Service of the Department.

(c) *Administrator.* The Administrator of the Service or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(d) *Chief.* The Chief, Meat Inspection Branch of the Service, or any officer or employee of the Department, to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(e) *Inspector.* Any officer or employee of the Department authorized to perform any duties under the regulations in this part.

(f) *Person.* Any individual, corporation, company, association, firm, partnership, society, or joint stock company, or other organized group of any of the foregoing.

(g) *Federally inspected and passed.* Inspected and passed under the Meat Inspection Act, as amended (21 U. S. C. 71 et seq.) or under the provisions in paragraphs 306 (b) and (c) of the Tariff Act of 1930 (19 U. S. C. 1306 (b) and (c)).

(h) *Official establishment.* An establishment operated under Federal meat inspection pursuant to the Meat Inspection Act, as amended (21 U. S. C. 71 et seq.).

§ 40.3 *Kind of service.* Meat or other product that is federally inspected and passed at an official establishment or upon importation is officially marked at such establishment or the port of entry with sufficient marks of Federal meat inspection to identify, as federally inspected and passed, the carcass, tank carload, or other basic unit constituting the product when it leaves such establishment or is allowed importation. In order to facilitate the division of such carcass, tank carload, or other unit into smaller portions and to maintain the identity of such portions as federally inspected and passed, service may be furnished, upon application, under the regulations in this part to identify such portions as part of a unit which was federally inspected and passed and so marked and to mark such portions with the marks of Federal meat inspection.

§ 40.4 *Availability of service.* Service under the regulations in this part will be available only with respect to meat or other product which is on premises other than those of an official establishment; which is sound, healthful, wholesome, and fit for human food at the time the service would be furnished; and which can be identified as a portion of a carcass, tank carload, or other basic unit which was federally inspected and passed and so marked.

§ 40.5 *Application for service.* Any person who desires to receive service under the regulations in this part for meat or other product eligible therefor under such regulations may make application for service to the Chief, upon an application form which will be furnished by the Chief upon request.

§ 40.6 *Denial or withdrawal of service.* (a) If any person has applied for service for meat or other product not eligible therefor under the regulations in this part, or has failed to make proper application for service or to pay fees and charges due for service furnished or to be furnished to him under the regulations in this part, or if the service cannot be furnished to any person applying therefor because of lack of available inspectors or other administrative reasons, the service may be denied to such person by the Chief until the condition justifying such denial is corrected.

(b) Service under the regulations in this part may also be denied to any person by the Administrator for such period as he may deem proper, if it is determined, after opportunity for hearing before a proper official in the Department, that such person has been responsible for any willful misrepresentation to the Department concerning any meat or other product for which service has been requested under the regulations in this part, or that such person has been responsible for the use without authority, or the imitation, of any marks or certifi-

cates of Federal meat inspection on or with respect to any meat or other product, or has otherwise been responsible for any fraudulent or deceptive practice with respect to such service, or that such person has interfered with or obstructed any inspector in the performance of his duties under the regulations in this part, or attempted to do so. Pending final determination of the matter, the Chief may deny or withdraw service without hearing in those cases where the public interests so require. In other cases prior to the institution of proceedings for denial of service under this paragraph, the facts or conduct which may warrant such action shall be called to the attention of the person involved, in writing, and he shall be given an opportunity to demonstrate or achieve compliance with all applicable requirements.

§ 40.7 *Fees and charges.* (a) Fees and charges for service under the regulations in this part shall be paid by the applicant for the service in accordance with this section, and, if required by the Administrator, the fees and charges shall be paid in advance.

(b) The fees and charges provided for in this section shall be paid by check, draft, or money order payable to the Treasurer of the United States and shall be remitted promptly to the Administrator upon furnishing to the applicant of a statement as to the amount due.

(c) The fees to be charged and collected for service under the regulations in this part shall be based on the time required to render such service, including but not limited to the time required for the travel of the inspector or inspectors in connection therewith, at a rate to be determined by the Chief, which shall be not more than $3.20 per hour for each hour for each inspector for the time required.

(d) Charges may also be made to cover the cost of travel and other expenses incurred by the Service in connection with the furnishing of the service.

2. Under the authority of the Meat Inspection Act, as amended (21 U. S. C. 71–91), the Horse-Meat Act (21 U. S. C. 96) and paragraphs 306 (b) and (c) of the Tariff Act of 1930 (19 U. S. C. 1306 (b) and (c)), the Meat Inspection Regulations (9 CFR Parts 1 through 29 as amended), are hereby amended as follows:

A. The phrase "Parts 1 through 29 of" is inserted before the phrase "this subchapter" wherever the latter appears in the introductory portion of § 1.1; and in § 1.1 (i), (k), and (r); § 2.2; § 4.6; § 5.4; § 6.2; § 7.5 (i); § 9.1; § 9.2; § 9.3; § 9.7; § 9.8; § 9.10; § 9.12; § 10.5; § 10.8; § 11.1; § 11.17; § 16.1; § 16.2; § 16.5; § 16.11; § 16.12; § 16.13 (d); § 17.1 (c); § 17.7; § 17.9; § 17.11; § 17.13; § 18.4 (b); § 23.1; § 23.2; § 24.7; § 25.2; § 25.4 (a), (b) and (c); § 25.10; § 25.13; § 27.2; § 27.4; § 27.6; § 27.16 (b); § 27.20 (a); § 29.1; and § 29.9

B. The phrase "Parts 1 through 29 of" is inserted before the phrase "this subchapter" the first time the latter phrase appears in §§ 2.1, 4.3 and 4.5, the second time it appears in § 27.12 (d), and the third time it appears in § 18.4 (a).

C. § 27.15 (c) is amended to read:

(c) No person shall remove or cause to be removed from any place designated as a place of inspection by, or in accordance with, Parts 1 through 29 of this subchapter, any product which Parts 1 through 29 require to be marked in any way, unless the product has been clearly and legibly marked in compliance with such requirements.

The foregoing new regulations, to appear in 9 CFR Part 40, provide for the furnishing of a service which heretofore has not been available. In order to be of maximum benefit to persons desiring to utilize such service the new regulations should be made effective at the earliest practicable date. Accordingly, it is found pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that good cause exists for making the new regulations effective in less than 30 days.

Heretofore Subchapter A of Chapter I of Title 9, Code of Federal Regulations, consisted of the Meat Inspection Regulations in Parts 1 through 29 of the subchapter; and general references in certain of the Meat Inspection Regulations to other provisions of the subchapter were meant to relate to Parts 1 through 29. Addition to the subchapter of new Part 40, set out above, makes necessary the restriction of such references to Parts 1 through 29 as intended. The foregoing amendments modify the Meat Inspection regulations accordingly. These modifications are merely formal and clarifying and therefore, to the extent that they were not covered by the notice of rule-making mentioned above, it is found upon good cause under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that notice and other public procedure thereon in accordance with said section 4 are impracticable and unnecessary, and good cause is found for making such modifications effective in less than 30 days.

(Ch. 2907, 34 Stat. 1264, sec. 306, 46 Stat. 689; 19 U. S. C. 1306, 21 U. S. C. 89)

The foregoing new regulations and amendments shall become effective May 5, 1954.

Done at Washington, D. C., this 26th day of April 1954.

[SEAL] ~~M.~~ R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 54-3237; Filed, Apr. 29, 1954; 8:51 a. m.]

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 26]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (19 F. R. 1367, 1597, 1947, 2226, 2247), which contains a notice of the areas in which swine are affected with vesicular exanthema, a contagious, infectious, and communicable disease, and which quarantines such areas because of said disease, is hereby further amended in the following respects:

1. Subparagraphs (2), (3), (6), (7), (8), (9), (10), (11), (12), (13), (14), (15), (16), (17), and (19) of paragraph (b), relating to California, are amended to read:

(2) That area lying north and west of State Highway No. 24, south of the Richvale-Oroville Highway, and east of the Feather River; that area lying north of Humboldt Road, south of Eighth Avenue and Big Chico Creek, west of Ponderosa Way, and east of Forest Avenue; and that area lying south and west of Manzanita Avenue, north of Sandy Gulch, and east of Cactus Avenue and its prolongation to Sandy Gulch, in Butte County.

(3) That area lying southwest of State Highway No. 20, southeast of Wescott Road, and north of Power line, in Colusa County.

• • • • •

(6) That area lying north of County Road No. 57, south of County Road No. 53, west of County Road "M", and east of Glenn-Colusa Irrigation Canal; and that area lying south of County Road No. 14, north of County Road No. 15, west of County Road "H", and east of Olive Avenue, in Glenn County.

(7) Sec. 31, T. 7 N., R. 1 E., HU. B. & M.; Sec. 24, T. 4 S., R. 3 E., HU. B. & M.; Sec. 7, T. 2 N., R. 1 E., HU. B & M.; Sec. 19, T. 4 S., R. 4 E., HU. B. & M.; Sec. 30, T. 8 N., R. 1 E., HU. B. & M.; Sec. 17, T. 2 N., R. 1 E., HU. B & M.; Secs. 8, 16, and 31, T. 6 N., R. 1 E., HU. B & M.; and Secs. 10 and 28, T. 4 N., R. 1 W., HU B. & M., in Humboldt County.

(8) Sec. 2, T. 14 N., R. 7 W., M. D. B. & M.; Secs. 26 and 27, T. 14 N., R. 10 W., M. D. B & M.; and Secs. 3, 10, and 15, T. 10 N., R. 7 W., M. D. B. & M., in Lake County.

(9) Sec. 5, T. 29 N., R. 12 E., M. D. B. & M.; and Sec. 4, T. 26 N., R. 16 E., M. D. B. & M., in Lassen County.

(10) Secs. 6, 19, and 20, T. 18 N., R. 17 W., M. D. B. & M.; Sec. 29, T. 20 N., R. 14 W., M. D. B. & M.; Secs. 4 and 27, T. 15 N., R. 12 W., M. D. B. & M.; Secs. 3, 4, 20, and 29, T. 18 N., R. 13 W., M. D. B. & M.; Sec. 22, T. 19 N., R. 13 W., M. D. B & M.; Sec. 1, T. 22 N., R. 13 W., M. D. B. & M.; Sec. 30, T. 13 N., R. 11 W., M. D. B. & M.; Sec. 31, T. 17 N., R. 12 W., M. D. B. & M.; Sec. 20, T. 19 N., R. 17 W., M. D. B. & M.; Sec. 2, T. 13 N., R. 14 W., M. D. B & M.; and Sec. 34, T. 14 N., R. 14 W., M. D. B. & M., in Mendocino County.

(11) Sec. 1 and N. ½ Sec. 12, T. 42 N., R. 12 E., M. D. B. & M., in Modoc County.

(12) Sec. 7, T. 15 N., R. 8 E., M. D. B. & M., in Nevada County.

(13) That area lying north and west of U. S. Highway No. 40, south of Grove Creek, and east of U. S. Highway No. 99 E; that area lying north of County Road No. P10, south and east of U. S. Highway No. 40, and west of County Road No. P18 and its prolongation to U. S. Highway No. 40; that area lying north of Flood Road, south of Dry Creek Road, west of U. S. Highway No. 40, and east of State Highway No. 49; and that area lying south of Colfax Iowa Hill Road, north of Bunch Ravine Road, west of the North Fork American River, and east of U. S. Highway No. 40, in Placer County.

(14) That area lying north of the Quincy-Meadow Valley Road, south of the Oakland Camp Road, and west of Meadow Valley Oakland Camp Road, in Plumas County.

(15) W. ½ of SW. ¼ Sec. 30, T. 32 N., R. 4 W., M. D. B. & M.; and Sec. 32, T. 32 N., R. 5 W., M. D. B. & M., in Shasta County.

(16) N. ½ Sec. 23, S. ½ Sec. 14, and W. ½ of SW. ¼ of SW. ¼ Sec. 26, T. 45 N., R. 7 W., M. D. B. & M.; NW. ¼ Sec. 34, T. 40 N., R. 4 E., M. D. B. & M.; and Secs. 1 and 12, T. 39 N., R. 3 W., M. D. B. & M., in Siskiyou County.

(17) Lot 50 of Los Molinos Subdivision 10, Sec. 8, T. 25 N., R. 2 W., M. D. B. & M.; and that area included within a boundary beginning 10 miles south of Red Bluff on U. S. Highway 99W, extending 140 feet south on U. S. Highway 99W, thence 100 feet east, thence 40 feet north, thence northwest to the point 10 miles south of Red Bluff on U. S. Highway 99W, in Tehama County.

• • • • •

(19) NW. ¼ Sec. 11 and E. ½ of SE. ¼ Sec. 34, T. 9 N., R. 2 E., M. D. B. & M.; SE. ¼ of NW. ¼ Sec. 30, T. 10 N., R. 2 E., M. D. B. & M.; that area included within a boundary beginning at a point one mile east of the intersection of County Road No. 93 and State Highway No. 16, extending east along State Highway No. 16 for a distance of 176 yards, thence north ¼ mile, thence west 176 yards, thence south to point of origin in Sec. 33, T. 10 N., R. 1 E., M. D. B. & M.; that area included within a boundary beginning at the intersection of County Roads Nos. 32 and 95, extending west along Road No. 32 for 176 yards, thence south 200 yards, thence east 200 yards, thence north 200 yards, thence west 24 yards to point of origin in Secs. 15 and 16, T. 8 N., R. 1 E., M. D. B. & M.; and that area included within a boundary beginning at the intersection of County Roads Nos. 124 and 126, extending south ¼ mile, thence west ½ mile, thence north ¼ mile, thence east to County Road No. 124, and thence southeast along County Road No. 124 to the point of origin, in Yolo County.

2. Subparagraph (1) of paragraph (c), relating to Hartford County in Connecticut, is amended to read:

(1) All of Hartford County except the following:

(i) That part of the Town of Bloomfield lying southwest of Blue Hills Avenue, north of Wintonbury Avenue, west of Bloomfield Avenue, and east of Woodland Avenue; and that part of the Town of Bloomfield lying southwest of Blue Hills Avenue, west of Windsor Road, northeast of Dudley Town Road, and east of Bloomfield Avenue.

(ii) That part of the Town of Enfield lying south of Farm and Wallop Roads, west of State Route No. 191, and east of the Scantic River.

(iii) That part of the Town of Manchester lying south of Spencer Street, west of Hillistown Road, and north of Woodside Street.

(iv) That part of the Town of Plainville lying south of New Britain Avenue, north of Woodford Street, west of Ledge Road, and east of State Route No. 10.

(v) That part of the Town of Rocky Hill lying southwest of Dividend Road, north of Forest Street, and east of State Route No. 9.

(vi) That part of the Town of Simsbury lying southwest of Stratton Brook Road, west of Canal Street, north of Sand Hill Road, and east of Bushy Hill Road and State Route No. 167.

(vii) That part of the Town of Wethersfield lying south of Wells Road, north of Prospect Street, west of Willow Street, and east of Goff Road.

3. Subparagraph (2) of paragraph (c), relating to New Haven County in Connecticut, is amended to read:

(2) All of New Haven County except the following:

(i) That part of the Town of Branford lying west, south, and east of Laurel Hill Road and north of Pond Lily Stream; that part of the Town of Branford lying west of Brushy Plains Road, north of Parish Farm Road, east of Todd's Hill Road, and south of Hosley Road; and that part of the Town of Branford lying west of Farmington Avenue, east of Plant's Orchard, south of U. S. Route No. 1, and north of Burban Drive.

(ii) That part of the Town of New Haven lying east of the Quinnipiac River and northwest of State Route No. 17; and that part of the Town of New Haven lying east of Eastern Street and south of State Route No. 80.

(iii) That part of the Town of North Haven lying east of the Quinnipiac River, west of U. S. Route No. 5A, and south of Waterman's Brook.

(iv) That part of the Town of Madison lying south and east of Warpas Road, north of Green Hill Road, west of State Route No. 79, and east of Copse Road.

4. Subdivisions (ii), (v), (ix), (xiii), (xiv), and (xvi) of subparagraph (2) of paragraph (e), relating to Bristol County in Massachusetts, are amended to read:

(ii) That part of the City of Fall River lying southeast of Blossom Road, southwest of Yellow Hill Road, and north of Indian Town Road; that part of the City of Fall River lying north of President Avenue, south of Driftwood Street, west of Meriden Street, and east of Highland Avenue; that part of the City of Fall River lying south of Wilson Road, north of New Boston Road, east of Robeson Street, and west of Meridian Street; and that part of the City of Fall River lying north of Wilson Road, west of North Main Street, and east of the Taunton River.

• • • • •

(v) That part of the City of Norton lying north, south, and east of Smith Street and west of Mansfield Avenue; that part of the Town of Norton lying northeast of Mansfield Avenue, southwest of Elm Street, northwest of State Route No. 123, and southeast of Reservoir Street; that part of the Town of Norton lying northeast of Elm Street, northwest of State Route No. 123, southeast of Cross Street, and southwest of North Washington Street; and that part of the Town of Norton lying north of Pleasant Street and State Route No. 123, south and east of Richardson Avenue, and west of North Worcester Street.

• • • • •

(ix) That part of the Town of Rehoboth lying west of Reed Street, south of Providence Street, and north and east of Peckham Street; that part of the Town of Rehoboth lying north of Old Fall River Avenue, west of Barney Avenue, east of Wheaton Avenue, and south of Allen Avenue; that part of the Town of Rehoboth lying north of Brook and Water Streets, south of Winter Street, east of Reed and Lake Streets, and west of School Street; that part of the Town of Rehoboth lying north of Providence Street, south of Brook Street, east of Peckham Street, and west of Wood Street; and that part of the Town of Rehoboth lying north of River Street, south of Homestead Street, west of Danforth and Rocky Hill Roads, and east of Hillside Avenue and Pine Street.

• • • • •

(xiii) The Myles Standish State School in the Town of Taunton lying east of State Route No. 140, south and west of Bassett Street, and north of the New York, New Haven, and Hartford Railroad; that part of the City of Taunton lying south of Norton Avenue, west of Crane Avenue, north of the New York, New Haven, and Hartford Railroad, and east of State Route No. 140; that part of the City of Taunton lying south of Thrasher Street, north of Longmeadow and Winter Streets and U. S. Route No. 44, east of School Street, and west of King Phillip Street; that part of the City of Taunton lying south of East Brittania, north of Thrasher Street, east of Washington Street, and west of King Phillip Street; that part of the City of Taunton lying south of Tremont Street, north of Glebe Street, east of Burt Street, and west of North Walker Street; that part of the City of Taunton lying north of Spring Street, south of Cohannet Street, west of Dighton Avenue, and east of the Three Mile River; that part of the City of Taunton lying north of Orchard Street, south of the Taunton River, west of the New York, New Haven, and Hartford Railroad, and east of Plain Street; and that part of the City of Taunton lying north of Seekell Street, south of Caswell Street, west of South Precfnet Street, and east of Staples Street.

(xiv) That part of the Town of Westport lying east of Main Road, north of Kirby Road, west of Drift Road, and south of Old County Road; that part of the Town of Westport lying north of Narrow Avenue, south of State Route No. 177 and Old County Road, east of Crandell Road, and west of Soddom Road; that part of the Town of Westport lying north of Hix Bridge Road, south of Old County Road, east of Drift Road, and west of the Westport River; and that part of the Town of Westport lying north of Hix Bridge Road, south of Old County Road, west of Fisher Road and White Oak Run Road, and east of Pine Hill Road.

• • • • •

(xvi) That part of the Town of Seekonk lying north of Asylum Street, south of County Street, west of Miller Street, and east of Bradley Street; that part of the Town of Seekonk lying north of Ledge Road, south of Newman and Woodward Avenues, west of Runnins River, and east of Arcade Avenue; and that part of the Town of Seekonk lying north of Read and Walker Streets, south of Brown Avenue, east of Newman Avenue and State Route No. 152, and west of Pine Street.

5. A new subdivision (xviii) is added to subparagraph (2) of paragraph (e), relating to Bristol County in Massachusetts, to read:

(xviii) That part of the Town of Assonet lying north and east of Copecut Road, south of the New York, New Haven, and Hartford Railroad, and west of High Street.

6. Subdivisions (xiii) and (xv) of subparagraph (3) of paragraph (e), relating to Essex County in Massachusetts, are amended to read:

(xiii) That part of the Town of Middleton lying southwest of State Route No. 114 and northwest of Forest Street; that part of the Town of Middleton lying northeast of State Route No. 114 and west of Essex and School Streets; and that part of the Town of Middleton lying north of State Route No. 62, south of Locust Street, and east of East Street.

• • • • • •

(xv) That part of the City of Peabody lying northeast of Lake Street (rear), northwest of the Boston and Maine Railroad, and southwest of Lake Street; that part of the City of Peabody lying north of Goodale Street, south of the Middleton Town Foundry, west of U. S. Route No. 1, and east of Morris Brooks; that part of the City of Peabody lying east of Farm Avenue, south of Forest Street, and north and west of Goldthwaite Brook; that part of the City of Peabody lying north of Lowell Street and east, west, and south of Goodale Street; that part of the City of Peabody lying north of Winona Street, south of Lowell Street, and west of Lake Street; that part of the City of Peabody lying south of Forest Street, north of State Route No. 128, east of U. S. Route No. 1, and west of Farm Avenue; that part of the

City of Peabody lying south of Lynnfield Street, west of Lynn Street, north of Glenway Street, and east of the junction of Lynnfield and Glenway Streets; that part of the City of Peabody lying northeast of Russell Street and southwest of the Boston and Maine Railroad; that part of the Town of Peabody lying south of State Route No. 114, north of the Lowell Branch of the Boston and Maine Railroad, east of Prospect Street, and west of State Route No. 128; that part of the Town of Peabody lying east of U. S. Route No. 1, south of Forest Street, north of Locust Street, northwest of State Route No. 128, and west of Farm Avenue; that part of the Town of Peabody lying north of Lynn Street, south of Lynnfield Street, and east of the junction of Lynnfield and Lynn Streets; that part of the Town of Peabody located on Farm Avenue, known as West Lot in Follet's Wood, consisting of about 5 acres, owned and occupied by John Contoni, whose address is 45 Farm Avenue; that part of the Town of Peabody located on Rockfarm Avenue, lying approximately 600 feet east of the junction of State Route No. 128 and Rockfarm Avenue, consisting of about 5 acres, owned and occupied by John Pais; that part of the Town of Peabody lying north of Lowell Street, south of the Lowell Branch of the Boston and Maine Railroad, and west of Birch Street; and that part of the Town of Peabody located on Lynnfield Street, consisting of about 23 acres, owned and occupied by Sancho Domingos, whose address is 285 Lynnfield Street.

7. Subdivision (vi) of subparagraph (4) of paragraph (e), relating to Hampden County in Massachusetts, is amended to read:

(vi) That part of the Town of Agawam lying north of State Route No. 57, southwest of Westfield Road, and southeast of Northwest Road; that part of the Town of Agawam lying north of School Street, south of Meadow Street, east of Main Street, and west of River Road; and that part of the Town of Agawam lying north of Suffield Road, south of Silver Lake, east of Edgewater Street, and west of Mill Street.

8. New subdivisions (ix) and (x) are added to subparagraph (4) of paragraph (e), relating to Hampden County in Massachusetts, to read:

(ix) That part of the Town of Blandford lying north of East Otis Road and State Route No. 23, south of North Blandford Road, east of Blair Road, and west of George Millard Road.

(x) That part of the Town of Feeding Hills lying north of Halladay Avenue, south of Shoemaker Road, east of South Westfield Street, and west of Suffield Road.

9. Subdivisions (xxv) and (xxvii) of subparagraph (5) of paragraph (e), relating to Middlesex County in Massachusetts, are amended to read:

(xxv) That part of the Town of Tewksbury lying northwest of the Shawsheen River, northeast of State Route No. 38, and south of Salem Street; that part of the Town of Tewksbury lying south of East Street, north of North Street, east of State Route No. 38, and west of Maple Street; that part of the Town of Tewksbury lying north of the Shawsheen River and east of State Route No. 38; that part of the Town of Tewksbury lying north of the Lowell Branch of the Boston and Maine Railroad, west of the Portland Branch of the Boston and Maine Railroad, and east of Sutton Brook; and that part of the Town of Tewksbury lying north of Pringle Street, east of South Street, and south of Sutton Brook.

• • • • • •

(xxvii) That part of the City of Waltham lying east of Wyman Street, south and west of Lincoln Street, and north of Winter Street; and that part of the City of Waltham lying south of Winter Street, east of West Street, and west of Lexington Street.

10. Subdivisions (iv), (xi), (xii), and (xviii) of subparagraph (6) of paragraph (e), relating to Norfolk County in Massachusetts, are amended to read:

(iv) The Town of Dedham.

• • • • • •

(xi) That part of the Town of Randolph lying east of High Street, north of Chestnut Street, west of Overlook Road, and south of Canton Street; that part of the Town of Randolph lying south of Canton Street, north of the Braintree Tap, Algonquin Gas Line, and west of Irving-Road; that part of the Town of Randolph lying east of State Route No. 28; and that part of the town of Randolph included within a boundary beginning 1500 feet south of the junction of High and Canton Streets on the west side of High Street, extending 1130 feet south on High Street, thence 240 feet west, thence 1130 feet north, and thence 240 feet east to starting point, consisting of about 7 acres, owned by Harry Sargent and leased by David Haynes.

(xii) The Town of Sharon.

• • • • • •

(xviii) The Town of Wrentham.

11. New subdivisions (xxii) and (xxiii) are added to subparagraph (6) of paragraph (e), relating to Norfolk County in Massachusetts, to read:

• • • • • •

(xxii) That part of the Town of Franklin lying south of Brook Street, north of Pleasant Street, east of Lincoln Street, and west of Miller Street.

(xxiii) That part of the Town of Medway located on the south side of Main Street approximately 600 feet east of the junction of Main and Holliston Streets, consisting of 63 acres owned by Francis Cassidy; and that part of the Town of Medway lying north of State Route No. 109.

12. Subdivisions (iv) and (xviii) of subparagraph (7) of paragraph (e), relating to Plymouth County in Massachusetts, are amended to read:

(iv) That part of the Town of Carver lying north of High Street, west of Plympton Road, and east of Brook Street; and that part of the Town of Carver lying north of Purchase Street and Middleboro Road.

• • • • • •

(xviii) That part of the Town of East Bridgewater lying west of State Route No. 18; that part of the Town of East Bridgewater lying north of Highland Street, south of Winter Street, east of Elm Street, and west of Bedford Street; and that part of the Town of East Bridgewater lying south of Plymouth and Whitman Streets, east of East Street, and west of Bridge Street.

13. Subparagraph (1) of paragraph (i), relating to Bristol County in Rhode Island, is amended to read:

(1) All of Bristol County except that part of the Town of Barrington lying north and west of the Barrington River, south of Wampanaug Trail, and east of County Road.

14. Subdivision (ii) of subparagraph (2) of paragraph (i), relating to Providence County in Rhode Island, is amended to read:

(ii) That part of the Town of Johnston lying east of Simmonsville Avenue, northwest of Scituate Avenue, and south of Simmonsville Lake; that part of the Town of Johnston lying east of Old Pocasset Road, west of Atwood Avenue, north of Central Pike, and south of U. S. Route No. 6; and that part of the Town of Johnston lying south of Shun Pike, north of Plainfield Pike, west of Taylor Road, and east of Green Hill Road.

15. New subdivisions (iii) and (iv) are added to subparagraph (3) of paragraph (i), relating to Kent County in Rhode Island, to read:

(iii) That part of the Town of East Greenwich lying north of Middle Road, south of Frenchtown Road, east of South County Trail, and west of Tillinghast Road.

(iv) That part of the Town of West Greenwich lying north of Division Street, south of Henry Brown Road, east of Hopkins Hill Road, and west of New London Pike.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment includes the following areas in California within the areas in which vesicular exanthema has been found to exist and in which a quarantine has been established:

That area lying south and west of Manzanita Avenue, north of Sandy Gulch, and east of Cactus Avenue and its prolongation to Sandy Gulch, in Butte County; that area lying south of County Road No. 14, north of County Road No. 15, west of County Road "H", and east of Olive Avenue, in Glenn County; Secs. 10 and 28, T. 4 N., R. 1 W., HU. B. & M., and Secs. 8 and 31, T. 6 N., R. 1 E., HU. B. & M., in Humboldt County; Sec. 10, T. 10 N., R. 7 W., M. D. B. & M., in Lake County; Sec. 2, T. 13 N., R. 14 W., M. D. B. & M., and Sec. 34, T. 14 N., R. 14 W., M. D. B. & M., in Mendocino County; that area included within a boundary beginning 10 miles south of Red Bluff on U. S. Highway 99W, extending 140 feet south on U. S. Highway 99W, thence 100 feet east, thence 40 feet north, thence northwest to the point 10 miles south of Red Bluff on U. S. Highway 99W, in Tehama County, California.

Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, Part 76, Subpart B, as amended (18 F. R. 3636, as amended), will apply to such areas.

The amendment also excludes certain areas in California, Connecticut, Massachusetts, and Rhode Island, from the areas in which vesicular exanthema has been found to exist and in which a quarantine has been established. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, Part 76, Subpart B, as amended (18 F. R. 3636, as amended), will not apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment imposes certain further restrictions necessary to prevent the spread of vesicular exanthema, a contagious, infectious, and communicable disease of swine, and relieves certain restrictions presently imposed. The amendment must be made effective immediately to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792; as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 111–113, 117, 120, 123, 125)

Done at Washington, D. C., this 23d day of April 1954.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 54-3238; Filed, Apr. 29, 1954; 8:51 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 1]

PART 52—REPAIR STATION CERTIFICATES

PENETRANT TYPE INSPECTION PROCEDURES

Penetrant type inspection procedures and methods have been developed to a point where they may be recognized as adequate inspection aids. Hence, the following amendments to Part 52 are adopted in order to establish a magnetic and penetrant rating for repair stations:

Sections 52.27–1 (c) (9) and 52.37–1 (b) (1) as published in 17 F. R. 5002, June 4, 1952, are amended by substituting the word "penetrant" for "fluorescent" wherever the word appears in each section.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 607, 608, 52 Stat. 1011, as amended; 49 U. S. C. 557, 558)

This amendment shall become effective April 30, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-3240; Filed, Apr. 29, 1954; 8:52 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[File No. 21-214]

PART 100—CLEANING AND DYEING INDUSTRY, PENNSYLVANIA AND ADJOINING TERRITORY

RESCISSION OF PART

Whereas, the Commission on January 11, 1934, promulgated trade practice rules for the Cleaning and Dyeing Industry, Pennsylvania and adjoining territory, which were codified in the Code of Federal Regulations (16 CFR Part 100); and

Whereas, the above-mentioned rules are general in form and in many respects are now inaccurate; and

Whereas, it appears that the business of this industry is largely intrastate and involves rendition of services rather than the sale of commodities:

It is ordered, That the said rules be and the same are hereby rescinded.

Issued: April 27, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 54-3236; Filed, Apr. 29, 1954; 8:51 a. m.]

TITLE 24—HOUSING AND HOUSING CREDIT

Subtitle A—Office of the Administrator, Housing and Home Finance Agency

PART 1—TIME FOR DISPOSITION OF LANHAM ACT HOUSING

EXCEPTIONS

Housing and Home Finance Administrator's Regulation "Part 1—Time for Disposition of Lanham Act Housing" (originally published at 18 F. R. 4043, July 10, 1953, and amended at 18 F. R. 7271, November 17, 1953) issued pursuant to delegation of authority under Executive Order 10462, dated June 19, 1953 (18 F. R. 3613) to perform the functions vested in the President by section 611 of Public Law 849, 76th Congress, 54 Stat. 1125, as amended (42 U. S. C. 1521), is hereby further amended by amending § 1.5 to read as follows:

§ 1.5 *Exceptions.* Notwithstanding any other provision in this part, the Public Housing Commissioner may extend, with respect to a particular housing project or projects, the time within which any action is required or permitted to be taken by § 1.1 or § 1.2 where he determines (after considering the needs of national defense and the effect of such extension upon the general housing situation and the national economy) that special circumstances warrant such extension in the public interest.

(Sec. 11, 54 Stat. 1128; 42 U. S. C. 1548)

Effective as of the 31st day of March 1954.

[SEAL] ALBERT M. COLE,
Housing and Home Finance Administrator.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter D—Election of Officers of the Osage Tribe

PART 18—REGULATIONS GOVERNING THE ELECTION OF OFFICERS OF THE OSAGE TRIBE

MISCELLANEOUS AMENDMENTS

APRIL 26, 1954.

Sections 18.4 to 18.7 of Part 18 Title 25, Code of Federal Regulations, are amended to read as follows:

§ 18.4 *Qualifications of electors.* Only members of the Osage Tribe, 21 years of age or over, whose names appear on the quarterly annuity roll at the Osage Agency as of the last quarterly payment immediately preceding date of election will be entitled to hold office or vote for any tribal officer. No person shall be permitted to cast more than one vote on his own account: *Provided*, That whenever any qualified elector shall be absent from Osage County for any reason on the date appointed by law for the holding of a quadrennial tribal election, or cannot appear at the polls because of sickness or physical disability on that date, such elector shall be entitled at such election to exercise the right of suffrage in the manner and form prescribed in this part.

§ 18.5 *Applications for absentee ballots.* All applications for absentee ballots shall be made in writing by the absentee elector to the superintendent of Osage Agency. It shall be the duty of the superintendent, upon receipt of said application, to forward all supplies, affidavits, and ballots, as required by this part, to said absentee elector, not more than 30 days before any election provided for in this part, except that supplies, affidavits, and ballots may be mailed to absentee electors residing outside the continental limits of the United States at any time after the issuance of the election proclamation. The superintendent shall maintain a file of all applications received together with a record of the names and addresses of all persons to whom absentee ballots are mailed, including date of mailing, and shall write across the margin of each such ballot the words "Absentee Ballot," with the date of issuance marked thereunder.

§ 18.6 *Execution of instrument authorizing elector to cast ballot for absentee.* Any qualified absent elector who desires to exercise the right of suffrage shall, by an instrument in writing, executed by him at any time after the issuance of the election proclamation and prior to the date of any quadrennial tribal election, authorize any elector of the tribe to cast for him his vote, or ballot, in the manner prescribed in this part, for all officers for whom he would have a right to vote if he were present at such election; said instrument shall be signed by such absent elector, and sworn to before the clerk of a court of record or notary public, or other officer or person authorized to administer oaths.

§ 18.7 *Affidavit by absent elector.* The said absent elector shall make and subscribe an affidavit in the form or of the effect following:

I, A. B., do solemnly swear (or affirm) that I am a member of the Osage Tribe of Indians; that I will be twenty-one years of age or over at the election date; that I am now a resident of _____; and that I will be unavoidably absent from Osage County, Oklahoma, because of _____ (that I am incapacitated by illness or physical disability), and will be unable to appear at the polls in Pawhuska, Oklahoma, on election day.

_____

Subscribed and sworn to before me this _____ day of _____, 19__.

Provided, however, That any elector incapacitated because of illness or physical

disability and seeking an absentee ballot shall obtain from an attending physician a certificate stating that the elector is physically incapacitated and cannot appear at the polls. Such certificate shall accompany the absentee ballot as prescribed in this section.

(Sec. 7, 45 Stat. 1481)

GLENN L. EMMONS,
Commissioner,
Bureau of Indian Affairs.

APRIL 26, 1954.

[F. R. Doc. 54-3206; Filed, Apr. 29, 1954; 8:45 a. m.]

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service, Department of the Treasury

Subchapter A—Bureau of Accounts

PART 202—DEPOSIT OF PUBLIC MONEYS AND PAYMENT OF GOVERNMENT CHECKS

MISCELLANEOUS AMENDMENTS

Part 202, Subchapter A, Chapter II, Title 31 of the Code of Federal Regulations of the United States of America (appearing also as Treasury Department Circular No. 176 (Revised) dated December 21, 1945, as amended) is hereby amended in the following respects:

1. By revising paragraph (d) of § 202.6 to read as follows:

(d) *Disposition of original and copies.* The original of each certificate of deposit shall be transmitted at the close of business on the day it is received by a general depositary to the Federal Reserve Bank or branch of the district in which the depositary is located, under cover of the prescribed transcript on which the credit appears. Federal Reserve Banks will prepare a consolidated transcript of transactions with general depositaries in its district and transmit the original certificates of deposit to the Treasurer of the United States under cover of such consolidated transcript. The original of each certificate of deposit received direct from depositors by Federal Reserve Banks shall be transmitted to the Treasurer of the United States by the Federal Reserve Bank with its own separate transcript of the Treasurer's account on which the credit appears. Federal Reserve Banks may be authorized by the Treasury Department to transmit certain original certificates of deposit and other documents to specified Treasury offices other than the Office of the Treasurer of the United States. The copies of the certificate of deposit in the set should be distributed in accordance with the instructions printed thereon. In no case shall a duplicate or second set of certificates be issued without special authority of the Secretary of the Treasury, unless and until the entire original set has been canceled; however, copies of any certificate in a set may be furnished on request provided each such copy is plainly stamped across the face in large letters "Copy". If an error is discovered after the original has been mailed, the Treasurer of the United States should be notified at once in order that proper correction may be made.

2. By revising § 202.18 to read as follows:

§ 202.18 *Uncollected and lost checks in connection with deposits for credit to the account of the Treasurer of the United States.* The procedure set forth in § 202.12 (except § 202.12 (c), (i) and (j) shall apply in the event checks, drafts or other items included in deposits with active general depositaries are uncollectible or lost. In lieu of following the procedure set forth in § 202.12 (c), the depositary shall transmit on the date the charge is made in the Treasurer's account the original of each executed Form 5504 (Revised)—Debit Voucher to the Federal Reserve Bank or branch of the district in which the depositary is located, under cover of the prescribed transcript on which the debit appears. All other copies in the set will be distributed in accordance with instructions appearing on the face thereof.

3. By revising § 202.19 to read as follows:

§ 202.19 *Transfer of net receipts.* Each general depositary shall forward at the close of business each day on which there are transactions in the Treasurer's General Account, to the Federal Reserve Bank or branch of the district in which the depositary is located, the net amount of the day's transactions in funds available for immediate credit to the Treasurer's account by such Federal Reserve Bank or branch, under cover of the prescribed transcript on which the transactions appear.

4. By revising § 202.21 to read as follows:

§ 202.21 *Cashing and handling of checks drawn on the Treasurer of the United States.* Active general depositaries shall not charge any Government checks in the Treasurer's General Account maintained on their books and shall handle them as follows:

(a) Government checks (1) issued for the purpose of transferring funds from one disbursing officer to another, or from one account of a disbursing officer to another account; or (2) drawn by a disbursing officer for the purpose of depositing the amounts of such Government checks to the credit of the Treasurer of the United States; which are received in deposits of Government officers, shall be appropriately endorsed and used by depositaries as part or full payment in remitting the net amount of the day's transactions to the Federal Reserve Bank or branch of the district in which the depositary is located, without charging such checks in the Treasurer's General Account. This will be accomplished by listing the checks in the prescribed transcript and forwarding them, together with the related certificates of deposit included in the transcript to the Federal Reserve Bank or branch, in part or full payment of the net amount of the day's transactions. In effect, this will permit depositaries to receive immediate credit for these specific Government checks without charging them in the Treasurer's General Account.

(b) Government checks which are presented by disbursing officers in exchange for cash should be handled outside of the Treasurer's General Account through normal channels. The Treasurer of the United States, upon special request, will advise active general depositaries as to whether the balances to the credit of the disbursing officers are sufficient for the payment of the checks presented. In those cases in which active general depositaries deem it necessary to obtain immediate credit for such Government checks, the procedure outlined in § 202.22 may be followed.

(c) All other Government checks shall be handled outside of the Treasurer's General Account through normal channels.

(d) Shipments of Government checks to Federal Reserve Banks and branches under cover of the prescribed transcript will be covered under the Government Losses in Shipment Act, provided the depositary retains copies of the transcripts containing a description of the checks.

5. By revising § 202.22 to read as follows:

§ 202.22 *Obtaining immediate credit for Government checks presented by disbursing officers in exchange for cash.* In those cases in which active general depositaries deem it necessary to obtain immediate credit for Government checks presented by disbursing officers in exchange for cash, the following procedure may be followed: The depositary may request the Treasurer of the United States by wire (prepaid), stating the check number, symbol number and amount of the check, to place to the credit of the depositary an amount equal to the amount of the check. The Treasurer of the United States will place the funds to the credit of the depositary by either of the following methods, as may be requested by the depositary, by directing the appropriate Federal Reserve Bank by wire to credit (a) the depositary bank's reserve account, or (b) a correspondent bank in any city where a Federal Reserve Bank is located, for the account of the depositary bank. Immediately upon directing such transfer, the Treasurer will advise the depositary bank by wire (prepaid), and the depositary will take up the amount on the same date as a credit to the Treasurer's General Account on its books. The check presented by the disbursing officer will then be used as payment in remitting the amount of the deposit (transfer of funds) to the Federal Reserve Bank, in the manner described in § 202.21.

6. By deleting § 202.26.

The provisions of this amendment shall become effective upon receipt by the general depositaries and Federal Reserve Banks of specific instructions from the Treasury Department relating thereto.

(Sec. 10, 56 Stat. 356; 12 U. S. C. 265)

[SEAL] A. N. OVERBY,
Acting Secretary of the Treasury.

APRIL 26, 1954.

[F. R. Doc. 54-3227; Filed, Apr. 29, 1954; 8:50 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Subtitle A—Office of the Secretary of the Interior

PART 2—RECORDS AND TESTIMONY

CHARGES; GENERAL RULES

Section 2.4 of Part 2 is amended to read as follows:

§ 2.4 *Charges; general rules.* (a) The Chief Clerk of the Department shall establish charges, or prescribe the method of computing charges, to be collected by all bureaus and offices for furnishing copies of official records, except as otherwise provided in this section. Such charges shall be equal to the cost of producing the copies plus the cost of administrative services involved in handling the records for such purpose.

(b) A charge of 25 cents may be made for each certificate or verification attached to authenticated copies of official records furnished to the public.

(c) No charge shall be made for furnishing unauthorized copies of any rules, regulations, or instructions printed by the Government for gratuitious distribution.

(d) No charge shall be made for the making or verifying of copies of official records which are required for official use by the officers of any branch of the Government.

(e) No charge shall be made for furnishing one copy of a personal document (e. g., a birth certificate) to a person who has been required to furnish it for retention by an agency of the Department.

(f) A copy of the transcript of a hearing before a security hearing board shall upon request be furnished without charge to the employee for whom the hearing was held or to his counsel.

(g) Money received from the collection of charges fixed under this section shall be deposited in the Treasury to the credit of the appropriation current and chargeable for the cost of furnishing the copies.

(h) At the discretion of the head of a bureau or office or his designee, copies of official records may be provided free:

(1) When requested by a court, if the copy will serve as a substitute for personal appearance in court of a Government witness.

(2) To press, radio, television, and newsreel representatives for dissemination to the general public.

(3) To donors with respect to the original of their gift, individuals or associations having an official voluntary or cooperative relationship to an agency in rendering assistance toward its work, or national governments and international agencies when furnishing the service without charge is an appropriate courtesy.

(4) To agencies of State and local governments which are carrying on a function related to that of the Federal agency involved, when furnishing the service will help to accomplish an objective of the Federal agency.

(5) When furnishing the service free saves costs or yields income equal to the direct costs of the agency providing the service. This category includes cases where the fee for the service would be included in a billing against the Government (for example, in cost-type contracts, or in the case of private physicians who are treating Government beneficiaries at Government expense).

(6) When furnishing the service free is in conformance with generally established business custom, such as furnishing personal reference data to prospective employers of former Government employees.

(7) To the extent of one copy, to those who require copies of records or information from the records in order to obtain financial benefits to which they may be entitled (e. g., veterans or their dependents, employees with workmen's compensation claims, or persons insured by the Government).

(8) When a service is occasional and incidental, not a type that is requested often, and if it is administratively determined that a fee would be inappropriate in such an occasional case.

(i) The authority of the Chief Clerk to establish charges under paragraph (a) of this section does not extend to the establishment of fees or charges for copies of records pertaining to the enrollment of members of the Five Civilized Tribes, as authorized by section 9 of the act of April 26, 1906 (34 Stat. 136); or for copies of aerial or other photographs and mosaics sold by the Geological Survey; or with the exception of the charges for transcripts or copies of official records furnished by the managers of the land offices or the land and survey offices, to other charges specifically established by statute.

(Sec. 2, 37 Stat. 498; 5 U. S. C. 489. Interprets or applies sec. 1, 35 Stat. 989, as amended; sec. 1, 37 Stat. 497, as amended, 65 Stat. 290; 43 U. S. C. 45, 5 U. S. C. 488, 140)

DOUGLAS MCKAY,
Secretary of the Interior.

APRIL 23, 1954.

[F. R. Doc. 54-3208; Filed, Apr. 29, 1954; 8:46 a. m.]

PART 2—RECORDS AND TESTIMONY

CHARGES; SPECIFIC RATES

Section 2.4a, reading as follows, is added to Part 2:

§ 2.4a *Charges; specific rates.* (a) Except as otherwise provided or permitted in § 2.4 and this section, on and after May 3, 1954, a basic charge of $1.00 per sheet shall be collected by all bureaus and offices of the Department of the Interior for furnishing copies of official records, including authentication thereof when required.

(b) If the request for copies of official records is of such an unusual nature that the basic charge established for them would be either excessive, or insufficient to cover the entire cost of searching for and reproducing the records, the charge shall be actual cost of search and reproduction plus 25 percent adjusted to the nearest 5 cents.

(Sec. 2, 37 Stat. 498; 5 U. S. C. 489. Interprets or applies sec. 1, 35 Stat. 989, as amended; sec. 1, 37 Stat. 497, as amended, 65 Stat. 290; 43 U. S. C. 45, 5 U. S. C. 488, 140)

FLOYD E. DOTSON,
Chief Clerk.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 927]

[Docket No. AO-71-A-27]

HANDLING OF MILK IN THE NEW YORK METROPOLITAN MILK MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Hotel Syracuse in Syracuse, New York on May 6, 1954, beginning at 10:00 a. m., e. d. s. t., for the purpose of receiving evidence with respect to the amendment of the tentative marketing agreement and the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area so as to provide for the appropriate classification and pricing of milk used in "half and half" as such product is defined in the recently amended Agriculture and Markets law of the State of New York. The Milk Dealers' Association of Metropolitan New York, Inc. has proposed that the milk equivalent of the butterfat used in such "half and half" be classified the same as at present when used for cream. This proposed amendment has not received the approval of the Secretary of Agriculture.

Copies of this notice of hearing, the said order, as amended, and the said tentative marketing agreement may be procured from the Market Administrator, 205 East Forty-second Street, New York 17, New York, or from the Hearing Clerk,

United States Department of Agriculture, Room 1353, South Building, Washington, D. C., or may be there inspected.

Dated: April 27, 1954, at Washington, D. C.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 7, 8]

[Docket No. 10904]

COAST AND SHIP STATIONS OPERATING ON FREQUENCIES NOT OPEN TO PUBLIC CORRESPONDENCE

ELIGIBILITY FOR LICENSES

In the matter of amendment of Parts 7 and 8 of the Commission's rules regarding eligibility for licenses for coast and ship stations operating on frequencies not open to public correspondence, Docket No. 10904.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of April 1954;

The Commission having under consideration a petition filed by the Lorain County Radio Corporation and a petition filed by the Lake Carriers' Association in the above-entitled proceeding, both requesting an extension of time in which to file comments directed to the Commission's notice of proposed rule making in this docket;

It appearing that, in the case of the Lorain County Radio Corporation, due to inadvertence or error, actual notice of the proposal in this docket was not received until April 8, 1954 (closing date for filing comments was March 22, 1954); and, in the case of the Lake Carriers' Association, the significance of the proposed rule making, as it would affect procedures now in use on the Great Lakes, was not appreciated until after the time for filing comments had expired, and;

It further appearing that the petitioners' requests for an extension of time in which to file comments in this proceeding are reasonable; and that the public interest would be served by an extension until May 1, 1954;

It is ordered, That the petition of Lorain County Radio Corporation and the petition of the Lake Carriers' Association are granted and the time for filing comments in the above-entitled proceeding is hereby extended from March 22, 1954 to May 1, 1954. Reply comments must be filed on or before May 10, 1954.

Released: April 27, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

NOTICES

DEPARTMENT OF COMMERCE

Federal Maritime Board and Maritime Administration

[Docket No. S-50]

PACIFIC FAR EAST LINE, INC.

NOTICE OF APPLICATION

Notice is hereby given of the application of Pacific Far East Line, Inc., seeking the written permission of the Federal Maritime Board/Maritime Administrator under section 805 (a), Merchant Marine Act, 1936, as amended, 46 U. S. C. 1223, (1) to act as General Agent for Coastwise Line's Pacific coastwise and Alaskan services, or for such services operated in combination with Coastwise Line's service between United States Pacific Coast ports and British Columbia; and (2) to charter to Coastwise Line vessels owned or chartered by Pacific Far East Line, Inc., for operation by Coastwise Line from United States Pacific Northwest and/or British Columbia ports to California.

Under the provisions of section 805 (a), the Federal Maritime Board/Maritime Administrator may not grant any such application if they find it will result in unfair competition to any person, firm or corporation operating exclusively in the coastwise or intercoastal service, or that it will be prejudicial to the objects and policy of the act.

Any person, firm or corporation having any interest in such application and desiring a hearing on issues pertinent to section 805 (a) should notify the Secretary, Federal Maritime Board/Maritime Administration, Washington 25, D. C., on or before May 10, 1954, and should file petitions for leave to intervene in accordance with § 201.74 of the Federal Maritime Board/Maritime Administration's rules of procedure (18 F. R. 3716).

In the absence of receipt of any such request for hearing and petition for leave to intervene, the Federal Maritime Board/Maritime Administrator will take such action with respect to the application as may be deemed appropriate.

Dated: April 27, 1954.

By order of the Federal Maritime Board/Maritime Administrator.

[SEAL] GEO. A. VIEHMANN,
Assistant Secretary.

DEPARTMENT OF DEFENSE

Office of the Secretary

ASSISTANT SECRETARY OF DEFENSE FOR PROPERTIES AND INSTALLATIONS

DELEGATION OF AUTHORITY WITH RESPECT TO APPLICATION OF CERTAIN STATUTORY LIMITATIONS ON UNIT COSTS FOR CONSTRUCTION OF WAREHOUSING, BARRACKS AND BACHELOR OFFICER QUARTERS

By virtue of the authority vested in me as Secretary of Defense, the following delegation of authority is hereby made:

1. There is delegated to the Assistant Secretary of Defense for Properties and Installations the authority vested in the Secretary of Defense by section 508 of the act of August 7, 1953 (Pub. Law 209, 83d Congress; 67 Stat. 440, 452) to determine that, because of special circumstances, it is impracticable to apply to a building construction project authorized by said act of August 7, 1953, the following limitations on unit costs:

(a) $20 per square foot for cold storage housing,

(b) $6 per square foot for regular housing,

(c) $1,700 per man for permanent barracks,

(d) $1,400 per man for 10-year-life barracks, and

(e) $5,000 per man for bachelor officer quarters.

2. All determinations heretofore made by the Assistant Secretary of Defense for Properties and Installations of impracticability of application of such limitations are ratified and confirmed.

C. E. WILSON,
Secretary of Defense.

SECRETARIES OF ARMY, NAVY, AND AIR FORCE

EXPIRATION OF CERTAIN DELEGATIONS OF AUTHORITY

The following delegations of authority, based on the provisions of section 21, Universal Military Training and Service Act, as amended, are no longer valid, since the authority referred to expired July 1, 1953. These delegations were published in the "Notices" section of the FEDERAL REGISTER.

1. Delegation of Authority to the Secretaries of Army, Navy, and Air Force to Order Members and Units of Reserve Components into Active Federal Service, /s/ Robert A. Lovett, Acting Secretary of Defense, July 31, 1951, appearing at 16 F. R. 6968;

2. Delegation of Authority to the Secretary of the Army to Order Members and Units of Reserve Components into Active Federal Service, /s/ Robert A. Lovett, Acting Secretary of Defense, August 24, 1951, appearing at 16 F. R. 8747;

3. Delegation of Authority to the Secretary of the Air Force to Order Members and Units of Reserve Components into Active Federal Service, /s/ William C. Foster, Acting Secretary of Defense, March 28, 1952, appearing at 17 F. R. 3113, and

4. Delegation of Authority to the Secretary of the Army to Order Members and Units of Reserve Components into Active Federal Service, /s/ Robert A. Lovett, Secretary of Defense, appearing at 17 F. R. 9109.

MAURICE W. ROCHE,
Administrative Secretary.

[F. R. Doc. 54-3204; Filed, Apr. 29, 1954; 8:45 a. m.]

SECRETARIES OF THE MILITARY DEPARTMENTS

DELEGATION OF AUTHORITY TO ENTER INTO AGREEMENTS WITH CLAIMANTS IN FULL SETTLEMENT AND COMPROMISE OF CLAIMS AGAINST THE UNITED STATES UNDER THE PROVISIONS OF SECTION 517 OF THE MUTUAL SECURITY ACT OF 1951, AS AMENDED

The Secretaries of the Military Departments are hereby authorized to exercise the power and authority conferred by subsection (c) of section 517 of said act to enter into agreements with claimants in full settlement and compromise of any claim against the United States under said section 517, subject to such rules and regulations, if any, as the Secretary of Defense may promulgate from time to time.

The Secretaries of the Military Departments are authorized to redelegate in writing, to any officer, employee, board or agent of their respective departments the power and authority conferred by said subsection.

C. E. WILSON,
Secretary of Defense.

APRIL 15, 1954.

FEDERAL POWER COMMISSION

[Project No. 713]

UTAH POWER & LIGHT CO.

NOTICE OF APPLICATION FOR AMENDMENT OF LICENSE

APRIL 23, 1954.

Public notice is hereby given that Utah Power & Light Company, of Salt Lake City, Utah, has filed application under the Federal Power Act (16 U. S. C. 791a-825r) for amendment of the license for waterpower Project No. 713, located on Mill Creek in Salt Lake City, Utah, to show the reconstruction of the Upper Mill Creek dam and intake and to exclude from the license that part of the project known as the Lower Mill Creek plant, which has been nonoperative since 1949 and will be abandoned. The Upper Mill Creek plant, including its appurtenant works, will remain as it presently exists.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before June 3, 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3238]

DELAWARE POWER & LIGHT CO.

ORDER REGARDING ISSUANCE AND SALE OF PRINCIPAL AMOUNT OF FIRST MORTGAGE AND COLLATERAL TRUST BONDS AT COMPETITIVE BIDDING

APRIL 26, 1954.

Delaware Power & Light Company ("Delaware"), a registered holding company and a public utility company, has filed with this Commission a declaration and an amendment thereto pursuant to section 7 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 promulgated thereunder, regarding certain transactions, which are summarized as follows:

Delaware proposes to issue and sell at competitive bidding $10,000,000 principal amount of its First Mortgage and Collateral Trust Bonds, __ Percent Series due 1984. The bonds are to be issued under and secured by the Mortgage and Deed of Trust of Delaware to The New York Trust Company, Trustee, dated as of October 1, 1943, and indentures supplemental thereto, and by a further supplemental indenture to be dated as of May 1, 1954. The price to Delaware for the bonds (which shall be not less than 100 percent nor more than 102¾ percent of the principal amount thereof) and the coupon rate (which shall be a multiple of ⅛ of 1 percent) are to be determined by competitive bidding.

The net proceeds from the sale of the bonds are to be used for additions and improvements of Delaware's properties and also the properties of its subsidiaries.

The declaration, as amended, states that the issue and sale of the bonds have been expressly authorized by the Public Service Commission of Delaware.

Fees and expenses of Delaware are estimated as follows:

Accounting services (Lybrand, Ross Bros. & Montgomery)	$5,000
Legal services, company counsel (Berl Potter & Anderson)	7,500
Financial advisor (Drexel & Co.)	8,000
Securities and Exchange Commission filing fee	1,035
Issuance taxes	11,000
Fees and expenses of trustee	7,000
Printing	14,000
Printing and engraving of bonds	8,000
Listing fees	2,200
Miscellaneous	6,265
Total	65,000

The fees and expenses of Townsend, Elliot & Munson, counsel for the purchasers, are estimated at $7,150, which amount is to be paid by the successful bidders.

Notice of the filing of said declaration having been given in the manner prescribed by Rule U-23 and a hearing thereon not having been requested of or ordered by the Commission; and

The Commission finding that the applicable provisions of the act and the rules thereunder are satisfied, that it is not necessary to impose terms and conditions other than those set forth below, that the fees and expenses, if they do not exceed the estimates, are not unreasonable, and that the declaration, as amended, should be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration, as amended, be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and Rule U-50.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

WHITE RADIO CO. ET AL.

ORDER CONTINUING HEARING

In re applications of W. Erle White, tr/as White Radio Company, Wichita Falls, Texas, Docket No. 10719, File No. BP-8615; Lawton Broadcasting Company, Lawton, Oklahoma, Docket No. 10720, File No. BP-10720; Progressive Broadcasting Company, Lawton, Oklahoma, Docket No. 10993, File No. BP-9122; for construction permits.

The Commission having under consideration a petition for postponement of hearing filed April 19, 1954, by Progressive Broadcasting Company, requesting that the hearing in the above-entitled applications, presently scheduled to commence May 4, 1954, at Washington, D. C., be postponed until May 12, 1954; and

It appearing that all participants in this proceeding have interposed no objection to the grant of the instant petition, and that the time for filing such opposition under the provisions of §§ 1.745 and 1.746 of the Commission's rules has expired;

It is ordered, This 23d day of April, 1954, that the petition of Progressive Broadcasting Company is granted, and the hearing date in the above-entitled matter is continued from May 4, 1954, to May 12, 1954, at 10:00 a. m. in Washington, D. C.

[Docket No. 10945]

CARTHAGE BROADCASTING CO.

ORDER CONTINUING HEARING

In re application of Lloyd C. McKenney & John J. Daly d/b as Carthage Broadcasting Company, Fort Scott, Kansas, for construction permit; Docket No. 10945, File No. BP-8948.

The Commission having before it a petition filed April 16, 1954, by Carthage Broadcasting Company for cancellation of the prehearing conference now scheduled for April 20, 1954, and for a continuance of the hearing now scheduled for April 22, 1954, until May 3, 1954, or some date within the week of May 3, 1954, most suitable to the Examiner; and

It appearing that the reason for the request by Carthage Broadcasting Company is to enable it to obtain sufficient time in which to prepare, together with required engineering data, a petition for leave to amend the application to another frequency and removal from the hearing docket; and

It further appearing that the Examiner's docket does not now permit a specific date being scheduled for hearing at the time or during the week requested; and

It further appearing that Protestant and the Chief, Broadcast Bureau have consented to a waiver of the four-day rule;

It is ordered, This 19th day of April 1954, that the petition is granted, that the prehearing conference is cancelled, and that the hearing herein is continued until a date to be scheduled in a later order.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-3231; Filed, Apr. 29, 1954; 8:50 a. m.]

[Docket Nos. 10965, 10966]

SEATON PUBLISHING CO. AND STRAND AMUSEMENT CO.

ORDER POSTPONING HEARING DATE

In re applications of The Seaton Publishing Company, Hastings, Nebraska, Docket No. 10965, File No. BPCT-1265; Strand Amusement Company, Hastings, Nebraska, Docket No. 10966, File No. BPCT-1272; for construction permits for new television stations.

The Commission having by order previously designated the above-entitled matter for hearing to be held on April 23, 1954, and

It appearing to the Examiner that a principal of the applicant, Seaton Publishing Company, whose attention has been in the recent past and will be in the immediate future required to be devoted to matters pertaining to the national defense and that as a consequence, certain features of the presentation of the case have not been prepared; and

It further appearing that the other applicant, Strand Amusement Company, has, by letter, asked that its application be dismissed; and

It further appearing that a hearing on April 23, as scheduled, would serve no useful purpose;

It is accordingly ordered, This 21st day of April 1954, by the Examiner, on his own motion, that the hearing conference pursuant to § 1.841 of the Commission's rules, heretofore scheduled to be held on April 23, 1954, be and it hereby is postponed indefinitely.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ARKANSAS

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

APRIL 26, 1954.

An application, serial number BLM 036992, for the withdrawal from all forms of appropriation under the public land laws, except mineral-leasing laws of the lands described below was filed on March 25, 1954, by the Department of Agriculture. The purposes of the proposed withdrawal: Recreation area.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region VI, Bureau of Land Management, Department of the Interior at Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

FIFTH PRINCIPAL MERIDIAN

T. 13 N., R. 18 W.,
Sec. 6, S½SW¼SE¼ and S½N½SW¼SE¼.

H. S. PRICE,
Regional Administrator.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29179]

LOW GRADE PETROLEUM PRODUCTS BETWEEN POINTS IN TEXAS

APPLICATION FOR RELIEF

APRIL 26, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Lee Douglass, Agent, for carriers parties to schedule listed below.

Commodities involved: Petroleum road oil, petroleum distillate fuel oil, petroleum residual fuel and other low grade petroleum products, in tank-car loads.

Between: Points in Texas.

Grounds for relief: Rail competition, circuity, to meet intrastate rates, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: Lee Douglass, Agent, I. C. C. No. 845, supp. 4.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 29180]

CARBON TETRACHLORIDE AND OTHER CHEMICALS FROM MICHIGAN AND WEST VIRGINIA TO POINTS IN TRUNK-LINE AND NEW ENGLAND TERRITORIES

APPLICATION FOR RELIEF

APRIL 26, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch, Alternate Agent, for carriers parties to his tariff I. C. C. No. 4542, pursuant to fourth-section order No. 17220.

Commodities involved: Carbon tetrachloride and other commodities, carloads and tank-car loads.

From: Points in Michigan and West Virginia.

To: Points in trunk-line and New England territories.

Grounds for relief: Competition with rail carriers, and circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29181]

SODA ASH FROM DETROIT AND WYANDOTTE, MICH., AND PAINESVILLE AND PERRY, OHIO, TO LEXINGTON, KY.

APPLICATION FOR RELIEF

APRIL 26, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch, Agent, for carriers parties to his tariff I. C. C. No. 4510, pursuant to fourth-section order No. 17220.

Commodities involved: Soda ash, carloads.

From: Detroit and Wyandotte, Mich., Painesville and Perry, Ohio.

To: Lexington, Ky.

Grounds for relief: Competition with rail carriers and circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29182]

WOODPULP FROM DOCTORTOWN AND JESSUP, GA., TO WESTERN TRUNK-LINE TERRITORY

APPLICATION FOR RELIEF

APRIL 26, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Woodpulp, carloads.

From: Doctortown and Jessup, Ga.

To: Specified points in western trunk-line territory.

Grounds for relief: Rail competition, circuity, to maintain grouping, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1260, supp. 61.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29183]

BARITE (BARYTES) FROM POINTS IN MISSOURI AND ARKANSAS TO LOUISIANA AND TEXAS

APPLICATION FOR RELIEF

APRIL 27, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Barite (barytes), ground and crude in carloads.

From: Cadet, Fountain Farm, Mineral Point, Potosi and Tiff, Mo., and Butterfield, Malvern and National, Ark.

To: Points in Louisiana and Texas.

Grounds for relief: Rail competition, circuity, market competition, and foreign competition.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 4092, supp. 4.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29184]

ALUMINUM BILLETS, ETC., FROM CHALMETTE AND NEW ORLEANS, LA., TO CINCINNATI, COLUMBUS, AND HEATH, OHIO

APPLICATION FOR RELIEF

APRIL 27, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to W. P. Emerson Jr.'s tariff I. C. C. 417 pursuant to fourth-section order No. 16101.

Commodities involved: Aluminum billets, blooms, ingots or slabs, loose or in packages, carloads.

From: Chalmette and New Orleans, La.

To: Cincinnati, Columbus, and Heath, Ohio.

Grounds for relief: Rail competition, circuity, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.
